Subject: Time for a change - a tree change!

Hi There,

Thank you for the opportunity to make a submission to the implementation review of the Planning and Design Code.

I have lived by trees all my life and I concerned by the sheer volume of trees coming down in Adelaide. With little regard for our future, our children's future and our state environment.

Please make the correct changes as the conservation council has prioritised!

The Conservation Council and partner organisations have compiled a list of their top ten priorities for reform. Support of these improvements will help make our state's tree regulations best practice, a Labor election practice. Many of the changes are backed up not only by the CCSA reports but also by the independent report commissioned by the State Planning Commission - I ask you to support these changes.

We cannot underestimate the important role that trees play in our daily lives. We need them more than they need us. By doing so you will improve our mental & physical health, clean the air that we breathe, remove carbon dioxide from the atmosphere, help cool our homes and streets, make our city more liveable and mitigate the impacts of climate change for our children and grandchildren.

Yours sincerely,
Heather Burzacott
