Thank you for the opportunity to make a submission to the implementation review of the Planning and Design Code. I am hopeful that the expert panel will meet community expectations by listening attentively and acting on the feedback given.

I am concerned about the impact of both the code and our poor regulations on tree canopy right across Adelaide. You are no doubt familiar with the significant body of work published by the Conservation Council of SA and partner organisations over the last 2 years. Using an evidence-based approach, these reports highlighted how impoverished our laws have become since 2011 when significant exemptions were added to them, despite protests from both the community and experts.

The Conservation Council and partner organisations have compiled a list of their top ten priorities for reform. Please support these .  
We now have the opportunity to have best practise and become a showcase to other states and other countries.

Our society benefit greatly from trees and as it stands now we are losing so many due to the sloppy regulations in place.  
Please help to provide a more livable city for our children and help us to mitigate the effects of climate change.

Yours sincerely,  
Susan Moroney  
South Australia, 5008, Australia
