Dear Sir or Madam,

Look at an aerial picture of any of the "great" cities of the world and you will see a sea of roofs,

not a tree in sight except in designated parks. Adelaide has a reputation as the most treed city

in the world and given our summer temperatures and the prospect of global warming we need

every one.

The proposal to excise BLACK FOREST from the design rules governing the rest of the Unley

council area would be a disaster for our leafy suburb.

Kerta Weeta Avenue was originally laid out for twelve houses. We currently have, already, 23

households in the street. and room for another 10 under the current rules. Surely enough.

Please keep our zoning uniform with the rest of Unley council.

Geoff Barnes
