Subject:	Large Trees in General, particularily those Kings Reserve

█████████   ██████

Thank you for the opportunity to make a submission to the implementation review of the Planning and Design Code. I am hopeful that the expert panel will meet community expectations by listening attentively and acting on the feedback given.

I am concerned about loss of trees in General. From a local perspective I am trying to prevent the loss of many mature trees in Kings Reserve to the Adelaide Crows and T2D projects.

 I belive mature trees should be highly valued along with significant & regulated trees, which are protected because they are lucky enough to meet criteria. Legislation has led to developers aided by local and state governments the power to remove trees more easily resulting in a significant loss of conopy over recent times.

Please make sure that tree protection laws do protect trees from opportunistic development and lazy design to ensure that we turn around this net loss in Adelaide. Urban infill needs to also provide green space (not ovals but shade & habitat) to provide people with healthy outcomes & connectivity.

Yours sincerely,
Hugh Phillips
