How to use this guide.

Planning and Land Use Services (PLUS) wrote this survey.

When you see the word 'we' it means PLUS.

We have written this survey in an easy to read way.

We use pictures to explain some ideas.

This Easy Read is a shorter version of another survey.

If you want to tell us more things, you can use the longer survey on the website: <https://yoursay.sa.gov.au/greater-adelaide-regional-plan>

You can ask for help to read the survey.

A friend, family member or support person may be able to help you.

Why we wrote this survey.

We are making a plan about the future of Greater Adelaide.
It is called the Greater Adelaide Regional Plan.
In this guide we will call it 'the Plan'.

1.5 million people live in the Greater Adelaide area.

The Plan has ideas about how to make sure there is enough space
and room for lots of people to live in Greater Adelaide.

We want to make sure Greater Adelaide is a nice place to live.

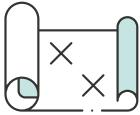

The Plan will show where houses will go.

The Plan will show where offices and factories will be built.

The Plan will have information about where things like shops, roads, foot paths, pipes for gas and water, power lines, parks and playgrounds will go.

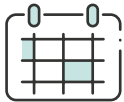

The Plan will show what areas need to be looked after and protected from being redeveloped.

We have written this survey so you can tell us your ideas about this Plan.

A survey is a way of collecting information by asking people questions.

Our survey will be open from Monday 23 September to Monday 4 November this year.

We will read your answers and ideas.

We will consider your ideas for the new Plan.

Important information before you start.

You can ask someone for help.

The Plan has five big ideas.

Rank them from **1 (most important)** to **5 (least important)**.

People, housing, and liveability

This is about where people live and what kind of homes they live in.

Productive economy

This is about jobs and how we buy and sell goods.

Natural resources and environment

This is about protecting nature and how we prepare for climate change.

Transport and infrastructure

This is about having safe and reliable transport and good structures like roads, bridges, internet networks, power lines and water supply.

Implementation and delivery

This is how we make all of these ideas happen to improve Greater Adelaide.

People, housing, and liveability.

This is about where people live and what kind of homes are available.

Pick **two** things that are most important to you.

Tick the box next to your answer.

There should be different types of homes for everyone.

Homes and public spaces should look nice.

Heritage buildings should be used for new things.

Aboriginal and non-Aboriginal heritage places should be protected.

Productive economy.

This is about jobs and how we buy and sell goods.

Pick **four** things that are most important to you.

Tick the box next to your answer.

There should be enough space for jobs and businesses.

Adelaide's food, wine and green energy businesses should be able to get bigger and more successful.

There should be enough land to build and plan for new industries.

New business areas like Lot Fourteen and Edinburgh Parks should be able to get bigger.

There can be more tourism in areas like the Barossa Valley.

More infrastructure is needed to support jobs.

Natural resources and environment.

This is about protecting nature and preparing for climate change.

Pick **four** things that are most important to you.

Tick the boxes next to your answers.

Protect plants and animals.

Make sure new buildings are ready for climate change.

Protect coastal areas from risks like sea level rise.

Ensure there is enough water for the future.

Keep people safe from floods and fires.

Protect the environment from pollution.

Transport and infrastructure.

This is about having safe and reliable transport and good structures like roads, bridges, internet networks, power lines and water supply.

Pick **two** things that are most important to you.

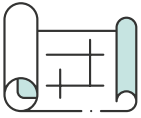

Tick the boxes next to your answers.

When we plan and build transport and infrastructure we need to make sure that the community and business owners are happy.

Make sure people and businesses are near good transport.

We need sustainable and reliable energy.

Implementation and delivery.

This is about how we make all of these ideas happen to improve Greater Adelaide.

Pick **four** things that are most important to you.

Tick the boxes next to your answers.

Help communities to grow by planning how we use land and where we put things like roads, power lines, gas pipes and water supply.

Government, councils, and the community must work together.

Use digital tools for better planning.

Make sure this Plan matches with what is happening for the rest of South Australia.

Using digital plans and maps to find out when land is ready to build houses, transport and infrastructure.

Make sure there are enough houses for the people living in Greater Adelaide.
