---

Dear Sir, The word is getting around that Linden Park may be rezoned to a General Neighbourhood Zone. The people of Linden Park are well aware this is coded language that a drop in quality of life is on the way. This drop in quality of life is being legislated by the current Liberal government. Please make it clear to Vicki Chapman, via your department, that my vote that went to her with considerable enthusiasm at the last election will be withdrawn at the next. Does an incumbent government really think that legislation that increases the number of people living in a suburb will pick them up votes? I really don't think so! I will be watching and discussing with my friends very closely the zoning status of Linden Park. Many thanks, David Jeanes.
