Good Afternoon,

I would just like to express my concern and disappointment in the changes that have been made to the Heritage Homes.

These suburbs with older homes should be conserved with very strict laws around what people are able to do.

I have lived here for 50 years and have been disappointed with recent developments of square boxes that they are building in Burnside.

Money should not outweigh the conservation of the beautiful historic area that we live in.

Kind Regards,

Dianne Sarre
