How to …
Navigate the South Australian Property and Planning Atlas (SAPPA)

Government of South Australia
Attorney-General's Department

PlanSA

Version 1.0

Find a property or location

Type an address or location into the search bar and select from the list of compatible addresses

Search for address or location   🔍

or, use the 🗒 Find button to search using other details such as application number.

View layers

Select the ⬙ Layers button to open a list of available layers, then select required layers.

Map navigation

Pan: Hold down the left mouse button and drag.

Zoom: Place cursor at the location and scroll the mouse wheel in/out or use the (+ −) buttons in the top right corner.

     Shift + left click to zoom to a rectangle.

     See previous or next zoom level using the (< >) buttons in the top right corner.

     See whole State using the 🏠

Base maps

Select a base map using the drop down arrow and a sliding bar adjusts the base map transparency.

2

Print a map

Select the [Tools] button and | Map Report 🖶 |

or, use the map report button 🖶

Zoom to coordinates or view coordinates of a feature

Select the [Tools] button and | Coordinates ✛ |

Note: provided coordinates are approximate only.

Select features

1. Set the feature type (land parcels, survey marks, place names, land division or land use applications) to be selected using the [Tools] button and Selection Tools

    | new selection ▼ |

    | land parcels (0) ▼ |

    Or, use the | new ▼ | | land parcels (0) ▼ | buttons at the top of the map.

    A new selection can be created to add or remove features or an existing selection can be modified.

2. Graphically select the features using the [Tools] button and Select using :

    | Polygon ◇ | Rectangle ☐ |
    | Line ╱ | Circle ○ |
    | Point · | Points ⋯ |

    Or, use the ◇ ☐ ╱ ○ · ⋯ buttons at the top of the map.

    Or, left click when ⊕ is visible.

3. Clear all selected features using the [Tools] button and | Clear Selection ⊘ |

    Or, use the ○ button at the top of the map.

Create a buffer around selected features

Select the ⚒ Tools button and | Buffer Selection   ⚙ |
Display and print information of selected features

Right click on the feature or use the ⓘ Info button at the top of the map.
On a mobile device, press and hold a finger on the feature for 2 to 3 seconds.
Property data, zoning information and are available using:

| Property Data | Zoning - Development Act | Zoning - PDI Act |

Link to SAILIS and the P&D Code using the ↗ SAILIS Link   ↗ P&D Code buttons at the bottom of the map.

To print a report of the information, select the row of property data to be reported and use the 🖶 Print button.
Data can be exported electronically using the Export table to: CSV   HTML   Excel buttons.

Measure distances and areas

Note: All measurements are approximate.

Select the ⚒ Tools button and Measuring Tools

| Measure Distance |
| Measure Area |

Or, use the 📏 ⬚ buttons at the top of the map.
