I would like to bring to your attention the developments happening around the Finniss electorate .

Housing on farm land with minimal infrastructure -

Transport

Health services

Green belts

Service stations -in prime areas

Traffic is already a problem in & around Victor Harbor Encouragement for businesses to come to town - apart from large chains .

I am a member of the ALP & this was discussed at length at our last Finniss meeting We invite you to come to meet with us at an up coming meeting or Politics in the Pub.

Thank you

Helen Clarkson.
