Our submission on the State Government's Planning System Implementation Review. Concerning character and heritage policy. Following the format of the questions to guide our feedback.

Q1. Yes there are gaps and/or deficiencies. Please support councils and the work to conduct or record historic areas in the area.

Q2. Value the street scape and pride and effort home owners of character homes make, it adds an environmental positive for society.

Q3. This should be a last resort, and Council and Government should value these character homes more positively.

Q4. Some difficulties would be contradictions and negotiations may be an answer.

Mary Elizabeth and Brian Floreani
