**Q14** Please enter your general feedback here

No block sizes should be under 400square metres. on holy areas it should be higher. We are loosing too much green space, which is destroying everyones quality of life . Children need space to play and most development is not catering for older people or families. ?? need single story dwellings with yards. We should be encouraging granny flats to be built on larger blocks to encourage extended families to live together( tax concessions would be good ) . All development applications should allow for input from residents , they should not be ignored in favour of developers. All buildings should have car parking provisions so that no cars need to be parked on streets. This is becoming an extreme problem that is dangerous.no buildings higher than 3 levels in the suburbs. Quality of life is fast diminishing due to these planning changes. They are causing many people to become ill from the stress, and it will be one of the major issues at the next election. Young people don't want to live in apartments but its all they can afford . why are we not helping first home buyers with real support for quality housing . Stop building poor quality high rise ghettos, they failed in the 70s and they are failing again , visit Sydney ! the proposal for Oaklands park high rise development for housing sa is a deplorable disaster waiting to happen. Not supported by the Marion council . Shame on the government ! 3rd party appeals should be allowed on any development, the sooner there is a legal case against brought against these deplorable proposals and peoples reduction in quality of life the better.
