Subject: The new Planning and Design Code
Date: Monday, 17 February 2020 3:03:59 PM

Dear Minister Knoll

I am writing to tell you that I fully support the Greens in the demands they will be putting forward in Parliament. Their three main points make very good sense:

1. Fixing errors and inconsistencies, but NO sneaky rezonings;
2. Inclusion of ALL identified places of heritage significance, including “contributory items”; and
3. A final round of community consultation before the final Planning & Design Code becomes operational.

This is too important to be rushed.

Kind regards
Helen Parsons
