

South Australian statement – Adoption of the NatHERS software during transition period

In South Australia, the transition period for the National Construction Code (NCC) 2022 energy efficiency requirements will be in place until 30 September 2024.

During the transition period, compliance with performance requirement P2.6.1 in NCC 2019 using the NatHERS Deemed to Satisfy pathway can only be demonstrated using NatHERS software that uses version 3.21 of the Chenath engine.

Compliance with performance requirement H6P1 in NCC 2022 using the NatHERS Deemed to Satisfy pathway can only be demonstrated using NatHERS software that uses version 3.22 or 3.23 of the Chenath engine.

Further consideration will be given to the use of NatHERS software Chenath 3.21 in accordance with the NatHERS Software Accreditation Protocol prior to the conclusion of the transition period on 30 September 2024.

[Advisory Notice 03/23](#) is available with further information, or alternatively, visit the NatHERS Administrator website at www.nathers.gov.au/accredited-software.
