[REDACTED]

This shocking Act should be consigned to the dustbin of history. Developers and Councils are the only ones benefitting from this 'legal' destruction of our environment and amenity-certainly not the citizens! Perfectly serviceable homes are being razed weekly in and around Warradale to be replaced by several 'dog boxes'. They lack proper storage, car parking and where there was a family with 1 dog there's a 3 families with (legally) 6!!! That's not the worst part...homes are 'wasting' with little or no maintenance being done because when mum and dad go it'll be razed anyway. It's a disaster!!!
