Dear State Government,

Our submission relates to the Urban Code Phase 3.

Address: [REDACTED], Kudla, SA, 5115
Council: Gawler, SA

We would like to be able to subdivide our property. We have been working as market gardeners for over 20 years. This involves working in glasshouses (that we have built on our property) and heavy manual labour. We find it very difficult to compete with larger growers, especially as we are reaching retirement age. Additionally, the council rates are very high and we do not seem to get a good return for what we pay. We would be very grateful to be provided the option to subdivide our land for our family.

Kind regards,
Thi Thu Cuc Nguyen & Van Chieu Vo
