**Subject:** Urban infill

[REDACTED] [REDACTED]

I write to express real concerns for the amount of urban infill happening in some areas.

It is creating huge problems with parking, and the loss of trees increasing our suburbs temperatures.

The other issue with so many cars parked in our narrow streets is the access needed for emergency vehicles, especially the fire brigade should there be a fire.

Please stop developers destroying our suburbs mindlessly for money, and consider Adelaide continuing being the most liveable city. Don't destroy our inner suburbs.
