**Subject:** South Australia's draft Planning and Design Code  
**Date:** Saturday, 29 February 2020 12:09:48 PM

---

Please note this is to be considered as a submission :

I tried several times to send this email yesterday evening before the closing time and it was not delivered, so I will try again, please consider it.

I strongly oppose the planned changes in the Draft Planning Code for the following reasons :

- \* the Code will not be finalised for 3 months but you are asking us to comment on an in finished document.
- \* the document is 3000 pages and impossible to follow, no thought has been given to the elderly, poor and non English speaking members of our community.
- \*the Unley Council developed plans that were consulted widely with the community And with much consultation and give and take were finalised, these were signed off by DIPTI.  
Why are these now being completely ignored?
- \* I support the Unley Council Submission to this Draft Planning and Design Code
- \* Adelaide is recognised for its heritage, trees, gardens and planning, the proposed changes will destroy this, it appears that you have a death wish to destroy Adelaide.
- \* What gives the Commission and Department the right to decide what is right for the Community of Adelaide.
- \*The community will lose their sense of place and identity.
- \*People will not want to come and live in Adelaide .

Please demonstrate to the residents of South Australia that you do not have a death wish for Adelaide and will respond to residents 'concerns.

Yours faithfully  
Ros Islip
