---

Hello

I wish to express my support for the position submitted by both the Friends of Willunga Basin and Friends of Port Willunga regarding the Department's review of the Planning and Design Code.

I further request that the introduction of the Code be delayed until the eplanning system is truly fit and ready to go live; and there be a further period of public consultation once feedback to this current round of consultation has been reviewed and taken on board.

Sincerely  
Mémé Thorne

  
Willunga SA 5172
