Any work to the church should be in the nature of conservation and reinstatement of original elements. Any further additions should be to the rear of the building.   | a c d                  | 1866        |
| 257 Military Road SEMAPHORE     | Sacred Heart Roman Catholic Church; The external form, original materials and detailing of Sacred Heart Roman Catholic Church should be retained. Any work to the church should be in the nature of conservation and reinstatement of original elements.  | a c d                  | 3081        |
| 10 Newman Street SEMAPHORE      | House; The original external form of the house including all decorative elements should be maintained. All work on the house should be in the nature of conservation, and any extensions or additions to the buildings should be undertaken in a sympathetic manner and be as unobtrusive as possible when viewed from Newman Street.   | a d                    | 1867        |
| 12 Newman Street SEMAPHORE      | House; The original external form of the house including all decorative elements should be maintained. All work on the house should be in the nature of conservation, and any extensions or additions to the buildings should be undertaken in a sympathetic manner and be as unobtrusive as possible when viewed from Newman Street.   | a d                    | 1868        |
| 6 Semaphore Road SEMAPHORE      | Former Police Station & cell building; The original external form and detailing of the Police Station should be maintained. Any future work on the building should be in the nature of conservation and any extensions or additions to the building should be undertaken in a sympathetic manner.   | a c f                  | 1869        |
| 17 Semaphore Road SEMAPHORE     | Semaphore Hotel; The external form of the building should be retained and its current circa 1920's appearance be enhanced through conservation work.  | a c                    | 3082        |
| 21-23a Semaphore Road SEMAPHORE | Semaphore Buildings-Two storey row shops; The original external detailing and extent of the current four shops should be retained. All work on the row should be in the nature of conservation. A consistent paint scheme and signage would enhance the appearance of the row.  | a c d                  | 1870        |
| 25 Semaphore Road SEMAPHORE     | Federal Hotel & Federal Buildings; The 1920's frontage of the hotel including all veranda elements and original materials including tiled front walls should be retained. All work on the hotel should be in the nature of conservation and any alterations or additions to the building should be undertaken in a sympathetic manner and in no way detract from the architectural qualities of the frontage of the hotel.          | a c d                  | 3083        |
| 57-57A Semaphore Road SEMAPHORE | Two storey row shops; The original external form and materials of these two storey shops should be retained. The veranda is a later structure and is not included in the listing. In the long term the replacement of a two storey veranda to these shops would be appropriate.   | a b d                  | 3084        |
| 62 Semaphore Road SEMAPHORE     | Baptist church; The external form of the Church including face stone work and render details should be retained. Any further alterations or extensions should be undertaken to the rear, in a sympathetic manner and be as unobtrusive as possible when viewed from Semaphore Road.   | a b                    | 3085        |
| 63-65A Semaphore Road SEMAPHORE | Odeon Star Cinema (former Wondergraph Picture Palace); The original frontage of the 1920's building should be retained and any original detailing or finishes maintained. Any further work on the building should be in the nature of conservation and any extensions or additions should be undertaken to the rear and in a sympathetic manner.  | a c                    | 3086        |
| 66 Semaphore Road SEMAPHORE     | Masonic Buildings; The external form and original detailing of the Masonic Buildings should be retained. Where possible shop fronts should be reinstated to original design.  | a c d                  | 3087        |
| 69 Semaphore Road SEMAPHORE     | Two storey shops; The original external form of the two storey shop building should be retained. The veranda is a later construction. All work on these shops should be in the nature of conservation and the reinstatement of detail to match the original where possible.   | a c d                  | 1871        |
| 71-73 Semaphore Road SEMAPHORE  | Two storey row shops; The original external form and detailing of the two storey shop building should be retained. The original veranda configuration as evident in Jagoe Street should be reinstated in the long term to the Semaphore Road frontage. All further work should be in the nature of conservation and the reinstatement of detail to match the original where possible.   | a c d                  | 3088        |

## State Heritage Places

State heritage places listed in Part 11 are a point in time reference to places that are registered (or provisionally listed) as State Heritage Places under the *Heritage Places Act 1993*. As the *Heritage Places Act 1993* operates separately to the *Planning, Development and Infrastructure Act 2016* and the Planning and Design Code, reference to the Register established under the *Heritage Places Act 1993* (the [South Australian Heritage Register](#)) will be made to determine if a State Heritage Place exists on land forming part of a development application and the extent to which it applies. If there is any inconsistency between the Register and the State Heritage Places listed in Part 11 of the Planning and Design Code, an entry in the Register will prevail to the extent of any inconsistency.

## Adelaide

| Property Address                                       | Description and /or extent of listed place   | Section 16 Criteria | State Heritage ID |

# Concept Plan 33

## HELPING HAND AGED CARE

Concept Plan 79 Primary Pedestrian Area

Primary Pedestrian Area

- Vehicle access points for multi-level car parks located away from the primary street frontage where it conflicts with an Existing or Proposed Pedestrian Link.
- Development provides pedestrian shelter, access and through site links along an Existing or Proposed Pedestrian Link, as well as along main city streets.
- Development designed to minimise disruption to an Existing or Proposed Pedestrian Link, or main city streets.
- To minimise conflict with pedestrian and cyclist movement and/or activity on any major pedestrian thoroughfare, vehicular access points associated with multi-level and/or non-ancillary car parks are not located on frontages to North Terrace, East Terrace, King William Street, Rundle Street, Hindley Street, Currie Street, Waymouth Street, Victoria Square, or Gawler Place.

Core Pedestrian Area

- Multi-level, non-ancillary car parks / parking stations not located within the Primary Pedestrian Area
- To support a safe pedestrian focused environment, off-street parking in the Core Pedestrian Area only where:
  - it is ancillary to another activity carried out on the land;
  - it can be provided without loss of pedestrian amenity; and
  - it is not separately created on a strata title or community title basis (unless in association with another title held on the site).

- Concept Plan Boundary
- Core Pedestrian Area (non-ancillary car park not encouraged)
- ..... Existing Pedestrian Link
- - - - - Proposed Pedestrian Link
