---

To whom it may concern,

I would like to express my concerns over the State governments new draft planning and design code which is set to replace our (Burnside) council's existing planning and development policy. I feel strongly that the changes to the policy would have a detrimental effect on our neighbourhood. Specifically, I would not support increased subdivision (through the general and housing neighbourhood zones), the decreased building setback (affecting privacy), increased large scale retail and commercial centres and increased ease by which people are able to remove trees. This is only several issues that I feel would have a detrimental impact on what is currently a beautiful neighbourhood.

I do not support the new code at all.

Regards,
