Subject: Please extend the time for community consultation about reform of planning rules
Date: Wednesday, 12 February 2020 3:27:24 PM

Dear Minister,

I understand that the community has been given only until the end of this month to comment on what I understand are to be major changes to the planning rules. I understand that there are some serious problems with what is proposed. In view of this, it is important to give the community enough time to consider these complex proposals and to comment on them.

Regards,
Oliver Frank
