Subject: Draft Planning & DesignCode
Date: Friday, 28 February 2020 1:17:53 PM

Concerns regarding the proposed planning and design code changes are numerous and serious. In summary, weakening of protections for existing character and amenity of residential areas by allowing presently non-complying structures to be built to the detriment of existing residents have been taken way too far. We are concerned and angry that government considers it has a mandate to push this agenda against the interests of hundreds of thousands of South Australian home owners.

Yours faithfully,

Dr Stephen Lewis and Dr Anna Koutsonikos
