Subject: re: Linden Park Zoning
Date: Tuesday, 25 February 2020 10:30:44 PM

Dear Sir/Madam,

The reason we moved to Linden Park over 10 years ago was to escape the steady urban infill we had been experiencing in our former western suburbs area. Now to our total disbelief & disgust, these possible pending changes to our Residential Zone now look like impacting our lovely Linden Park suburb.

This new policy (reclassifying to General Neighbourhood) if implemented across Linden Park

will change our suburb forever. This proposed change in fact 'smacks in the face' the Liberals

stance on climate change because these changes will be detrimental to how we live our everyday

lives. We, the residents of Linden Park implore you for our suburb to be included in the Suburban

Neighbourhood Zone and not move to a General Neighbourhood Zone.

Furthermore, interestingly we note Tasmore has been spared from this this pending disaster but

the majority of us who voted our local residing MP will no doubt be voting them out at the next election.

Yours faithfully

John Scardelis
(Beatty Street resident)
