Q14 Please enter your general feedback here

Streets are congested because of vehicles parking on road,no trees or gardens for shade and wildlife,cars hanging over footpaths because of short driveways and houses that will become slums in a decade because of poor quality builds.Not to mention impact on environment as these houses need constant cooling/heating because of poor designs.
Rubbish bins left on road constantly because there is no where to put them,no privacy for existing dwellings with 4 two storey builds being put up everywhere.We need increased block sizes,houses set back further and parking off street for 2 cars per house.
I used to love Campbelltown with the diverse gardens containing fruit trees and plants reflecting the nationality of who lived there now walking the area is just seeing the slum area of the future ,why can't we design more Lochiel style developments.
