1. BACKGROUND INFORMATION

1.1 What is proposed?

550 Main North Road Pty Ltd is proposing to initiate an amendment to the Planning and Design Code (the Code Amendment) as it relates to land located at 550-554 Main North Road, Evanston Park (the Affected Area), presently containing the Vadoulis Garden Centre and Focus Day Options.

The Affected Area is located within the southern portion of the Town of Gawler Council area and is approximately 2 km by road from Murray Street, which is the traditional 'main street' and town centre of Gawler. The location of the Affected Area relative to the main street is shown by **Figure 1.1**.

1.2 Why is this project being initiated?

The overall intent of the Code Amendment is to enable new and additional low impact employment generating activities to be established on the land. To enable this, the land is proposing to be rezoned from the General Neighbourhood Zone to the Employment Zone.

550 Main North Road Pty Ltd has entered a contract to purchase the property at 550-554 Main North Road Evanston Park subject to several pre-conditions being achieved. It has a vision to establish low impact bulky goods/service trade premises on the land, of a form and nature which does not compete with the core specialty and food retail offering within the Gawler Town Centre. In particular, the Proponent is committed not to deliver fast food style development on the land should it be rezoned, and has discussed entering into a separate agreement with Council to ensure such.

The proposed rezoning aligns with several relevant State Planning Policies in relation to employment land supply, strategic transport infrastructure, water security and quality and emission and hazardous activities. The proposed rezoning also aligns with several relevant policies within the 30 Year Plan for Greater Adelaide, as outlined within the Code Amendment Initiation document. In particular, the proposal correlates with the 30 Year Plan policies in respect to activity centres, the economy and jobs, infrastructure and water.

1.3 Investigations already completed

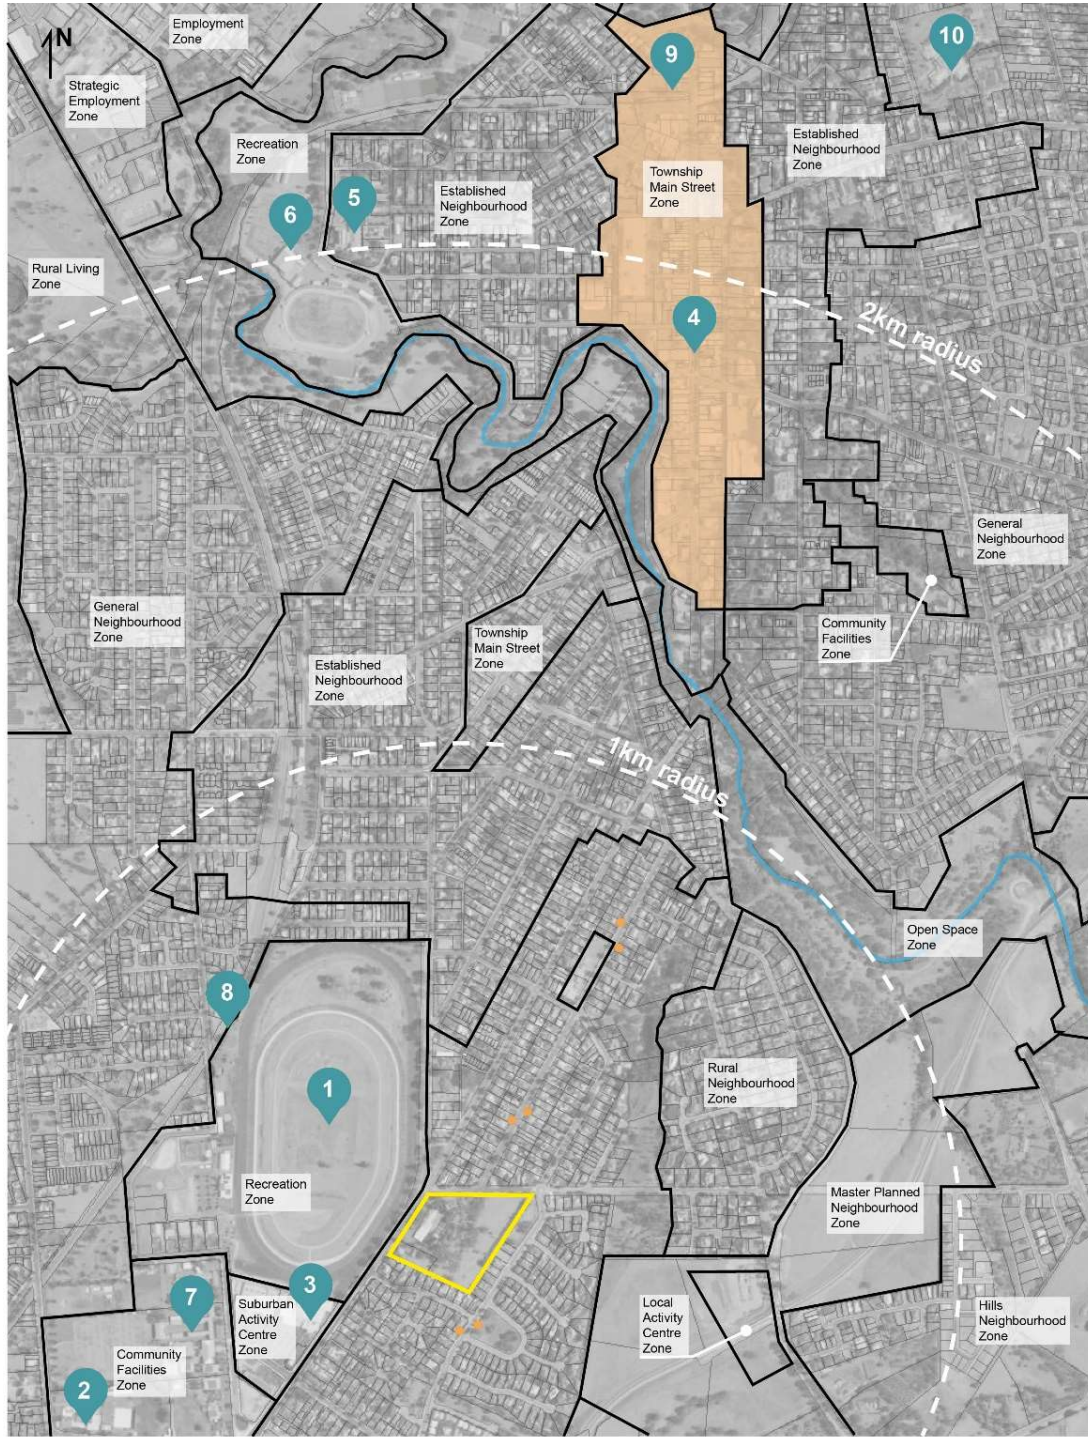

Investigations undertaken to date include:

- Land Supply Report prepared by Future Urban Pty Ltd, which considers the supply and demand of residential and employment land within the Town of Gawler;
- High level evaluation of the economic benefit arising from an increase in zoned employment land within the Town of Gawler; and
- Preliminary traffic advice reviewing the potential access arrangements for the Affected Area.

The investigation reports can be found appended to the Code Amendment Initiation here: https://plan.sa.gov.au/have_your_say/code_amendments

Prior to this Code Amendment, no known engagement processes have occurred seeking to rezone the land.

1.4 What is the status of the Code Amendment?

The Code Amendment process follows steps which require specific actions at each milestone. The timeframes for each step are outlined within **Figure 1.2**. Most of the engagement activities will occur after the preparation of the Code Amendment, shown in blue below.

Figure 1.2 Status of the Code Amendments

2. ENGAGEMENT PURPOSE

The purpose of the engagement is to inform the rezoning of the two allotments identified as 550-554 Main North Road, Evanston Park to enable the future development of the land for employment generating purposes. In particular, the engagement will inform:

- Whether the Employment Zone is the most appropriate Zone for the Affected Area;
- Whether the investigations undertaken as part of the Code Amendment are sufficient to consider the impact of the rezoning on the surrounding area; and
- Whether the Overlays and 'Technical and Numeric Variations' applied address key matters stakeholders would like to see future development meet.

3. ENGAGEMENT OBJECTIVES

The key objectives of the engagement are to:

- Share information with the public about the Code Amendment;
- Create an understanding of the reasons for the Code Amendment;
- Understand the views of the stakeholders;
- Inform and improve the quality of the policy within the Code Amendment; and
- Comply with the Community Engagement Charter and the *Planning, Development and Infrastructure Act 2016* (PDI Act).

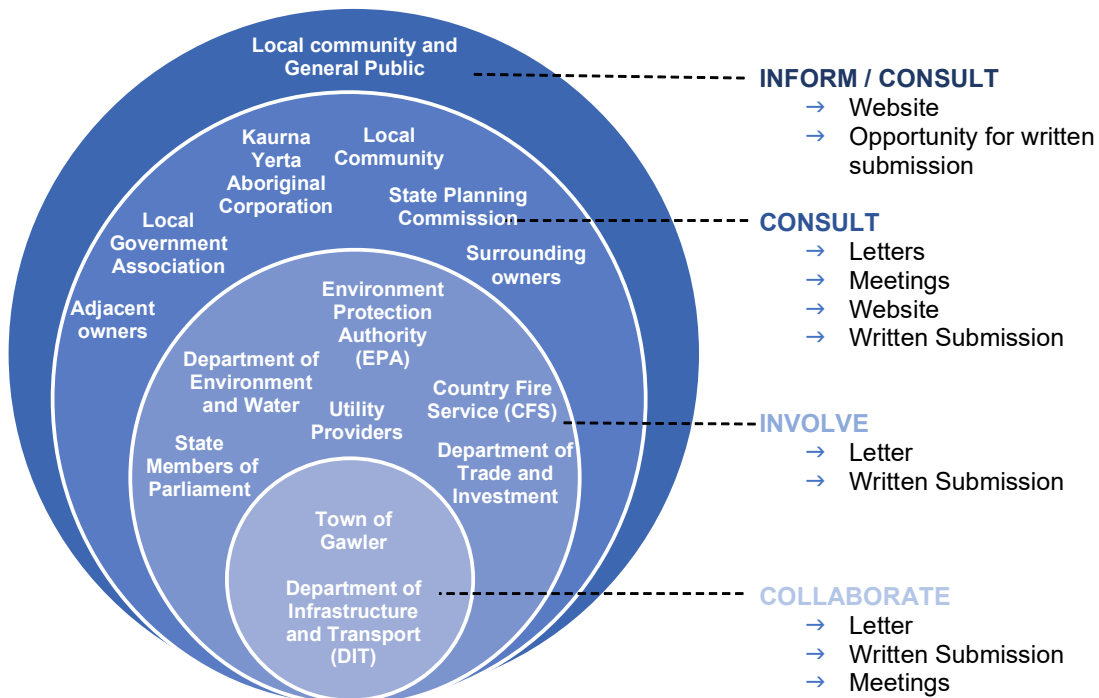

4. STAKEHOLDER IDENTIFICATION AND ANALYSIS

The Code Amendment has a group of stakeholders whose involvement, interest and influence vary, including the Town of Gawler, State Agencies and the adjacent land owners.

Overall, the aim of the community engagement is to provide a level of influence which seeks to work directly with the relevant stakeholders throughout the process to ensure that concerns and aspirations are understood, considered and reflected in the Code Amendment.

A stakeholder identification and analysis has been undertaken and the outcomes of this are provided in **Appendix 1**, with a summary of this analysis provided in **Figure 4.1** below.

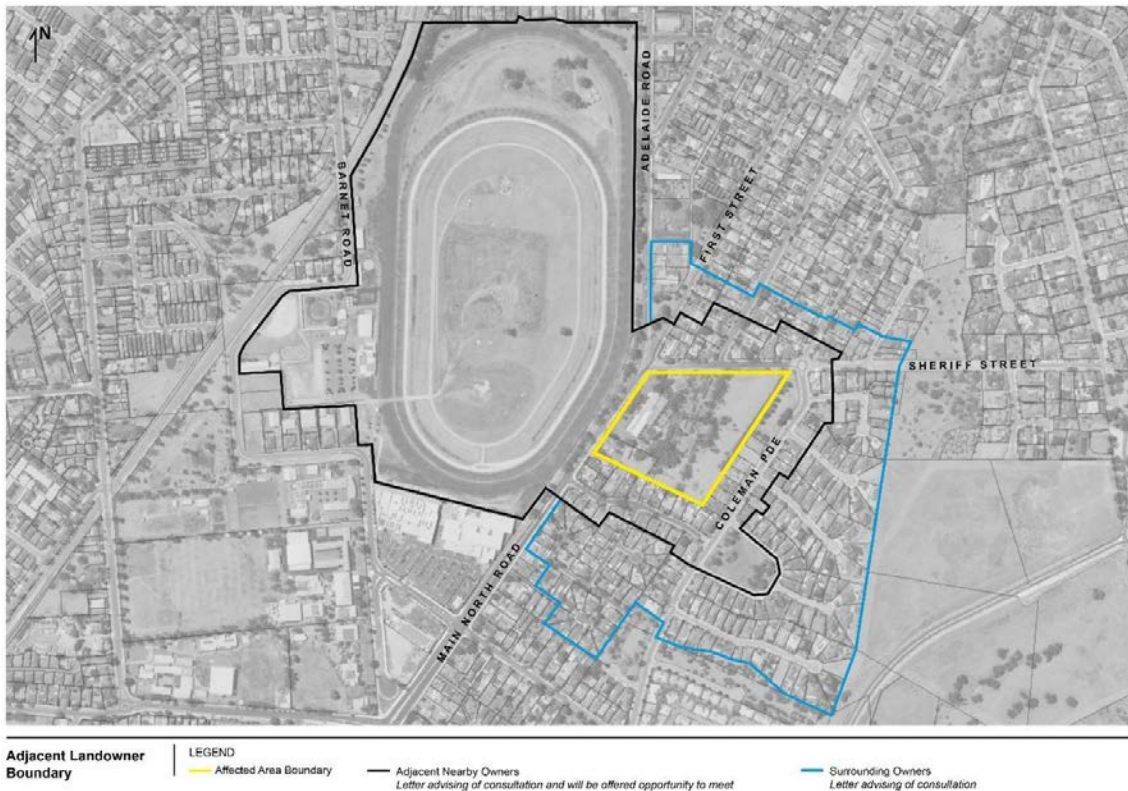

Figure 4.1 Stakeholder Analysis Summary (adapted from Lorenz Aggens, *Orbits of Public Participation*)

The stakeholders which have been determined to influence the proposed Code Amendment are:

- Adjacent, nearby and surrounding land owners shown in Figure 4.2 below;
- Town of Gawler Council;
- Local community, including residents of Evanston Park, Evanston and Gawler South;
- Local Government Association;
- Department for Infrastructure and Transport;
- Department of Trade and Investment;
- Country Fire Service;
- Department for Environment and Water (Heritage);
- Environment Protection Authority;
- Utility providers including SA Power Networks, Electranet, APA Group, SA Water, Epic Energy, NBN and other telecommunications providers;
- State Members of Parliament; and
- Local Community and General Public.

Figure 4.2 Extent of adjoining landowners to be directly notified

The level of each stakeholder's interest (low, medium and high), the nature of their interests and their needs and expectations of the engagement process have been identified. Having regard to the level of interest, the potential impact of the project on each of the stakeholder's interests and the potential impact of each stakeholder on the Code Amendment, the level of engagement has been established.

The outcomes of this analysis are included in **Appendix 1**. Stakeholder needs are discussed further in section 7 of this Plan.

The levels of engagement are informed by the IAP2 Spectrum of Public Participation and are summarised in Table 4.1.

Table 4.1 IAP2 Spectrum of Public Participation

	Inform	Consult	Involve	Collaborate	Empower
Participation Goal	To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.	To obtain feedback on analysis, alternatives and/or decisions.	To work directly with the public throughout the process to ensure that public concerns and aspirations are consistently understood and considered.	To partner with the public in each aspect of the decision including the development of alternatives and the identification of the preferred solution.	To place final decision making in the hands of the public.
Promise to Stakeholders	We will keep you informed.	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how public input influenced the decision.	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how public input influenced the decision.	We will look to you for advice and innovation in formulating solutions and incorporate your advice and recommendations into the decisions to the maximum extent possible.	We will implement what you decide.

5. SCOPE OF INFLUENCE

Aspects of the project which stakeholders and the community can influence (i.e. are negotiable) are:

- Whether the Employment Zone is the most appropriate Zone for the Affected Area;
- Whether the investigations undertaken as part of the Code Amendment are sufficient to consider the impact of the rezoning on the surrounding area; and
- Whether the Overlays and ‘Technical and Numeric Variations’ applied to the Affected Area address key matters stakeholders would like to see future development meet.

Aspects of the project which stakeholders and the community cannot influence (i.e. are not negotiable) are:

- The geographic extent of the amendment;
- The employment expectations of the proposed Zone;
- The policy wording within the Planning and Design Code.

6. IMPLEMENTATION PLAN

An implementation plan has been prepared which details the various engagement activities proposed for each engagement level and the timing of these activities. The implementation plan is attached as **Appendix 2**.

Engagement activities have been included to ensure that the method of engagement is appropriate for achieving the objectives and level of influence of the engagement. The engagement activities are summarised in Table 6.1 below.

The overall engagement will consist of three stages, which include:

- Preliminary Engagement, undertaken prior to the drafting of the Code Amendment Report;
- Early Engagement, undertaken after the initial draft of the Code Amendment Report is prepared, but allowing for early input and sharing of information before the Code Amendment is publicly available; and
- Code Amendment Engagement, undertaken after the draft of the Code Amendment Report is completed and includes the Report being made available to the public and all stakeholders for review and input.

Within each stage of the engagement, the engagement activities generally include the following three milestones:

- Commencement of engagement;
- Engagement concludes; and
- Report back to the relevant stakeholders and/or the public on the outcomes and next steps.

7. APPLYING THE CHARTER PRINCIPLES IN PRACTICE

The stakeholders have been considered in respect to their needs and requirements to ensure that the design of the engagement allows all stakeholders to contribute equally. Most stakeholders are government bodies or utility providers who have limited needs and are resourced with staff that have the technical expertise to review and respond to Code Amendments.

The adjacent owners and local community include residents within the areas of Evanston Park, Evanston and Gawler South and comprise a diverse range of people¹, which include:

- People over 70 years of age, who form 15% of the local community (1,412 people);
- People under 20 years of age, who form 23.4% of the local community (2,210 people);
- A small proportion of the local community who use a language other than English at home, including:

¹ Based on the Australian Bureau of Statistics 2021 Census Data

- » 0.6% of the population speak Italian (59 people); and
- » 0.5% of the population speak Arabic (44 people);
- People with a profound or a severe core activity limitation and require assistance in their day to day lives due to a long-term condition, disability or advanced age, who form 8.6% of the local community (811 people); and
- Households which do not have access to the internet at home², who form 21.3% of households in the local community.

The above groups all have varying needs which have been considered as part of the engagement. Table 7.1 outlines the characteristics of the stakeholders relevant to this engagement and the needs and / or techniques which have been implemented.

Table 7.1 *Applying the Charter Principles*

² Based on the Australian Bureau of Statistics 2016 Census Data

³ The Australian Bureau of Statistics define people who have a core need for assistance as 'people with a profound or severe core activity limitation are those needing assistance in their day to day lives in one or more of the three core activity areas of self-care, mobility and communication because of a long-term health condition (lasting six months or more), a disability (lasting six months or more), or old age.'

	<ul style="list-style-type: none"> • Materials are accessible in a variety of mediums including website and hard copies, and websites include accessibility features
People who do not have access to the internet at home	<ul style="list-style-type: none"> • Ability to access documents in hard copy at a convenient location (i.e., the local Council office) • Ability to provide feedback and/or communicate by post or via phone

The engagement activities have been identified and the relevant charter principles have been addressed which is outlined within Table 7.2 below.

Table 7.2 Charter Principles in Practice

Charter Principles	How does your engagement approach/activities reflect this principle in action?
Engagement is genuine	<ul style="list-style-type: none"> • workshop and/or one-on-one meetings to be held on weekends or after work hours to maximise opportunity for people to attend, unless requested during business hours (i.e., with government agencies); • letterbox drop/direct email to those immediately affected; and • information provided online to be easily accessible
Engagement is inclusive and respectful	<ul style="list-style-type: none"> • invitation only workshop(s) held for those most affected stakeholder group(s) and tailored to their needs. • all comments and feedback are recorded and considered
Engagement is fit for purpose	<ul style="list-style-type: none"> • engagement includes a range of activities, both in-person and online, to involve the broader community and the following and target specific stakeholder ground.
Engagement is informed and transparent	<ul style="list-style-type: none"> • information brochure (online and hard copy via letter-box drop) in basic language clearly articulates the proposal, potential impacts, engagement process and invites feedback/participation; and • community engagement report prepared at the end of the engagement summarizing the feedback received and how it has been, or will be, used to inform the decision.

Engagement is reviewed and improved

- measures of success are identified and measured at the conclusion of the engagement and reported on in the Engagement Report to the State Planning Commission.
-

8. KEY MESSAGES

The following key messages will underpin the engagement regarding the Code Amendment:

- The Proponent is planning to re-zone the properties located at 550-554 Main North Road, Evanston Park from the General Neighbourhood Zone to the Employment Zone in order to facilitate the further development of the land for employment generating purposes.
 - The reason for this is that there is demand for large format employment generating land uses with a lack of suitable alternate land within the Town of Gawler which has access to a primary arterial road.
- The Code Amendment will ensure that the land will continue to be used for an employment generating use.
 - This is particularly important in the Town of Gawler, which has experienced strong population growth over the last 10 years and is expected to continue to grow. To sustain the growing population, land for employment generating uses and job creation is essential.

9. EVALUATION

As part of the engagement process, feedback from stakeholders regarding the engagement will be noted to ensure that the project team can:

- Address any changes for the implementation of the Code Amendment;
- Alter the engagement process if needed to respond to feedback; and
- Maintain the quality of the engagement activities.

Appendix 3 includes a table which outlines a summary of measuring the success of the engagement process. Participants are invited to assess the success of the engagement against the criteria. The evaluation will be included in the statutory report required to be prepared by the Designated Entity under section 73(7) of PDI Act (the Engagement Report)

Following an evaluation of the success of the engagement, a summary of the engagement process will be provided to the participants. The methods for reporting back and closing the loop are outlined within **Appendix 4**.

APPENDIX 3. MEASURING SUCCESS

Measuring success

At the completion of the engagement, all participants will be invited to assess the success of the engagement against performance criteria one to four, below. The project manager, with assistance from communications and engagement specialists, will assess the success of the engagement against criteria five to nine. This evaluation will be included in the statutory report (section 73(7) of PDI Act) that is sent to the State Planning Commission and the Minister for Planning and which details all engagement activities undertaken. It will also be referenced in the Commission Report (section 74 (3)(b) that is issued to the Governor of South Australia and the Environment Resources and Development Committee of Parliament. Any issues raised about the engagement during the engagement process will be considered and action will be taken if considered appropriate.
