Subject: SAVE THE TREES

Thank you for the opportunity to make a submission to the implementation review of the Planning and Design Code. Thank you for the opportunity to make a submission to the implementation review of the Planning and Design Code. I feel it is imperative that the panel listen to the community and their concerns and taking onboard those concerns with immediate action.

The very reason I live in the leafy eastern suburbs is because of the tree canopy however this is diminishing at an alarming rate with housing development and felling of significant trees. South Australia is apparently the worst state with out of date laws regarding the importance and support of trees.

Because of these poor regulations on tree canopy I am very concerned regarding the future. Trees provide us with shelter, oxygen, green canopy and assist us with mental health. Is this not important to lans into action NOW? We need to act now for not only now but the future and future generations to come. We must leave the environment in better shape for future generations to come. For our children and grand children.

I ask you to look at and support the top 10 priorities for reform as outlined by the Conservation Council of SA. It is time to listen to your community who are very concerned about the future of our trees. We cannot underestimate the repercussions should this not be addressed.

Please act NOW.

Yours Sincerely

Jo Harvey

South Australia 5068 Australia

Yours sincerely,

Jo Harvey

South Australia, 5068, Australia
