**Subject:** Tree protection laws

Submission to the implementation review of the Planning and Design Code.

Along with many others in my community, I am concerned about the impact of both the code and our poor regulations on tree canopy right across Adelaide.

The Conservation Council of SA and partner organisations have highlighted how impoverished our laws have become since 2011 when significant exemptions were added to them and compiled a list of their top ten priorities for reform.

Support of these improvements will help make our state's tree regulations best practice, a Labor election practice. Many of the changes are also backed up by the independent report commissioned by the State Planning Commission.

I ask you to support these changes.

We cannot underestimate the important role that trees play in our daily lives. We need them more than they need us. By doing so you will improve our mental & physical health, clean the air that we breathe, remove carbon dioxide from the atmosphere, help cool our homes and streets, make our city more livable and mitigate the impacts of climate change.

Yours sincerely,  
Veronique Perrin
