Planning and Design Code

Version 2026.15

Date of Adoption: 13 August 2026

Superseded by Version 2026.16 dated 27 August 2026

plan.sa.gov.au

STATE PLANNING COMMISSION

Government of South Australia
Department for Housing and Urban Development

Part 1 - Rules of Interpretation

This Part sets out how the Planning and Design Code (the Code) implements the requirements of section 66 of the *Planning, Development and Infrastructure Act* 2016 (the Act), instructs the user on how the Code is to be read and applied to development assessed under the Act, and provides for other matters relevant to the interpretation and operation of the Code.

Introduction

Section 65 of the Act provides that there must be a *Planning and Design Code* and that the State Planning Commission (the Commission) is responsible for preparing and maintaining the Code as a statutory instrument under the Act. The Code, and any amendments to the Code, as published on the SA planning portal, have been adopted by the Minister.[1]

As provided by section 66 of the Act, the primary purpose of the Code is to set out a comprehensive set of policies, rules and classifications which may be selected and applied in the various parts of the State, through the operation of the Code and the SA planning database, for the purposes of development assessment and related matters within the State.[2]

The Code also provides for other matters envisaged by the Act, and regulations made under the Act.

Commencement and amendments

The commencement date for the Code was 1 July 2019.

The initial version of the Code applied to those parts of the State outside council areas under transitional arrangements put in place to provide for the staged commencement of development assessment under the new Act in place of the *Development Act 1993*[3].

The second version of the Code extends to regional areas of the State under the transitional arrangements.

The processes associated with initiating and making amendments to the Code are mainly set out in section 73 of the Act. One important feature is consultation under the Community Engagement Charter, and other consultation that may be required by the Commission, in connection with a particular amendment proposal.

An amendment to the Code does not have effect unless and until it is approved by the Minister. The approval process includes a report to the Minister about the processes undertaken in connection with developing the proposed amendment and certification as to the accuracy of information presented or provided to the Minister for the purposes of gaining approval.

Any amendments, once approved, are published on the SA planning portal. Electronic publication of an up-to-date version of the Code is a key feature of the scheme under the Act, and is supported by a number of related features and processes that facilitate the operation and application of the Code for the purposes of development assessment.[4]

Information about amendments to the Code is set out in Part 13 - Table of Amendments.

Major features of the Code

The Code Library

The Code incorporates a scheme that collates and organises its policies and rules for development classification and assessment into zones, subzones, overlays and general development policies. Together, these components of the Code form a library of policies (the "Code Library"). The policies that make up the library have no application in their own right, but apply depending on the class of development and spatial location under the scheme that is outlined in this Part.

Classification of development

The Code divides development into 3 categories of development depending on whether it is classified under the Code as:

(a) accepted development (see section 104(1) of the Act); and
(b) deemed-to-satisfy development (see section 105(a) of the Act); and
(c) restricted development (see section 108(1)(a) of the Act)[5].

All development is classified firstly by reference to its location and the zone, subzone and overlays that are applicable to the location. Classification tables applicable to each zone identify development as accepted development, deemed-to-satisfy development or restricted development.[6]

Accepted development

Each zone contains a table - Table 1 - which specifies classes of development which will be classified as 'accepted development' under section 104 of the Act in that zone if all of the corresponding criteria in the table are satisfied.

Accepted development does not require planning consent.

Deemed-to-satisfy development

Each zone contains a table - Table 2 - which specifies classes of development which will be classified as "deemed-to-satisfy development" under section 106 of the Act in that zone if all of the corresponding criteria in the table are satisfied, insofar as they are relevant to the nature of the particular development.

Section 106(2) of the Act specifies that if a relevant authority is satisfied that development is deemed-to-satisfy development except for 1 or more minor variations, the relevant authority must assess it as deemed-to-satisfy development.

Deemed-to-satisfy development must be granted planning consent subject to the requirements of section 106 of the Act and therefore does not require assessment against the policies and rules applicable to performance assessed development.

Restricted development

Each zone contains a table - Table 4 - which specifies classes of development which will be categorised as "impact assessed development" and classified as "restricted development" under section 108 of the Act, subject to any exclusions specified in the table.

The Commission is the relevant authority for restricted development.

All policies and rules relative to the spatial location of proposed restricted development, together with all general development policies, are applicable and may be determined by the Commission to be relevant for the purposes of a restricted development under section 110(10) of the Act (but the Commission is not bound by those provisions).

Performance assessed development

All development not classified as accepted, deemed-to-satisfy, restricted or impact assessed development will be categorised as code assessed development and classified as "performance assessed development" under sections 105(b) and 107 of the Act, and will be assessed on its merits against the Code as contemplated by section 107 of the Act.

Application of Policies to Performance Assessed Classes of Development

The Code applies policies to performance assessed development through an Applicable Policies for Performance Assessed Development Table relative to each zone - Table 3.

In particular, for each zone, Table 3 specifies the polices and rules that apply to classes of development within the zone, including by the application of policies within subzones and overlays (applies only in the area affected by the subzone/overlay), together with the relevant general development policies. Table 3 also contains rules for application of the policies , including rules relating to the application of Desired Outcome policies and Designated Performance Features.

The policies specified in Table 3 constitute the policies applicable to the particular class of development within the zone to the exclusion of all other policies within the Code, and no other policies are applicable to the assessment of the application.

In interpreting the policies specified in Table 3 the relevant authority may, in assessing an application, consider other similar code provisions (beyond those produced from Table 3) for contextual purposes only. Where policies, outside of those returned by Table 3, are considered (for contextual purposes to interpret the applicable policies) they cannot form the reasons as to whether consent should be granted (or refused) for an application.

Development that does not fall within one of the specified classes of development in Table 3 will be designated in the table as 'All Other Code Assessed Development'. To assess such development, all policies from the zone and subzone, and all policies in overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

For the purposes of section 102 of the Act, the relevant authority must assess the development against the applicable policies specified by Table 3 that are relevant to the particular development. For the avoidance of doubt, the relevant authority may determine that one or more of the listed policies are not relevant to a particular development.

Determination of Classes of Development

The Classification and Procedural Matters tables in the Code list classes of development (in the left-hand column). Unless otherwise specified in another class of development in that table, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

If a proposed development comprises more than one element or more than one class (or form) of development, each of the applicable listed classes of development is relevant. This means that:

(a) for the purposes of assessment - all applicable policies and criteria must be considered by the relevant authority for the purposes of section 102 of the Act; and
(b) for the purposes of procedural matters - any development that comprises more than one of the listed classes of development may trigger more than one relevant procedure.[7]

Subject to the preceding paragraph, if there are two or more classes of development listed in a particular table that relate to a proposed development, the class of development that most closely corresponds to the nature of the development (after considering the substance of the development) applies. This is subject to the need to make a practical and realistic assessment of proposed development, and to consider the proper construction of the relevant parts of the Code, in the event of any inconsistency between two classifications as they apply to proposed development.

Policies - Desired Outcomes and Performance Outcomes

Zone, subzone, overlay and general development policies are comprised of desired outcomes (DOs) and performance outcomes (POs). These are applicable to performance assessed development and to restricted development.

Desired outcomes

Desired outcome are policies designed to aid the interpretation of performance outcomes by setting a general policy agenda for a zone, subzone, overlay or general development policies module. Where a relevant authority is uncertain as to whether or how a performance outcome applies to a development,

the desired outcome(s) may inform its consideration of the relevance and application of a performance outcome, or assist in assessing the merits of the development against the applicable performance outcomes collectively.

Performance outcomes

Performance outcomes are policies designed to facilitate assessment according to specified factors, including land use, site dimensions and land division, built form, character and hazard risk minimisation.

Designated performance features

In order to assist a relevant authority to interpret the performance outcomes, in some cases the policy includes a standard outcome which will generally meet the corresponding performance outcome (a *designated performance feature* or DPF). A DPF, including a Technical and Numeric Variation (TNV) or other numeric value which forms part of a DPF, provides a guide to a relevant authority as to what is generally considered to satisfy the corresponding performance outcome but does not need to necessarily be satisfied to meet the performance outcome, and does not derogate from the discretion to determine that the outcome is met in another way, or from the need to assess development on its merits against all relevant policies.

Technical and Numeric Variations

The Code has facilities that set or determine various technical and/or numeric requirements in relation to specified classes of development.[8]

Section 66(4) of the Act provides that the Code may include provisions that provide for the adaptation of the rules that apply in relation to a specified zone or subzone or as an overlay to provide for necessary and appropriate local variations in specified circumstances. The requirements specified or reflected in technical or numeric variations form part of the planning rules to apply to the assessment of development, as relevant, through the classification tables and other provisions that make reference to these matters in specified circumstances. In varying a particular policy, these specific provisions or policies may be spatially applied without the need for the Code to apply the specific policy through a separate zone, subzone or overlay.

One type of adaption of the rules is a variation of a technical or numeric requirement that would otherwise apply under a zone, subzone or overlay that applies to a particular location.[9] A technical or numeric variation of a technical or numeric requirement operates within parameters specified in the Code and is spatially applied through the operation of the Code and its interaction with the SA planning database.

Hierarchy of Policies/Modification of Provisions

If there is an inconsistency between provisions in the relevant policies for a particular development, and for the purpose of section 66(3)(b) of the Act, the following rules will apply to the extent of any inconsistency between policies:

(a) the provisions of an overlay will prevail over all other policies applying in the particular case; and
(b) a subzone policy will prevail over a zone policy or a general development policy; and
(c) a zone policy will prevail over a general development policy.

This hierarchy is represented by the following diagram.

Procedural Matters

The zones, subzones, overlays and general development policies may contain sections headed 'Procedural matters'. Material in these sections provide for various procedural and related matters under the Act and regulations[10], such as some exclusions from the requirement to notify certain applications for planning consent, and referrals to prescribed bodies.

Notification of applications for planning consent

A table headed 'Notification' in the section of a policy relating to procedural matters specifies classes of development to be assessed under section 107 of the Act which are excluded from the requirement to give notice of an application for planning consent under section 107(3) and (4).[11] The table may also specify cases where notice need not be given to members of the public by a notice placed on the relevant land under regulation 47(6)(a) of the *Planning, Development and Infrastructure (General) Regulations 2017*.

Interpretation of Notification Tables

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Referrals

The Code also interacts with regulation 41 and Schedule 9 of the *Planning, Development and Infrastructure (General) Regulations 2017* for the purposes of section 122 of the Act. Schedule 9 prescribes classes of development that must be referred to a body prescribed in Schedule 9.

'Referral' tables in various parts of the Code specify classes of development to which an item in the table in clause 3 of Schedule 9 applies, identified by reference to the prescribed referral body.[12]

A 'Referrals' table also identifies the purpose of a particular referral (that being a matter that is considered by the Commission under section 66(2)(e)(ii) of the Act as being appropriate to include in the Code).

In relation to development that is to be assessed under section 107 of the Act, if policies from a particular overlay are not listed within the 'Applicable Policies' in Table 3 for that class of development, any referral within that overlay will not apply to that class of development.

Other matters specified by the Code

Specified matters and areas identified under the Act and Regulations

Part 5 sets out areas and matters that are specified or identified for various matters under the Act or associated regulations.

Definitions of land use and land use classes

Part 7 sets out definitions of land use for the purposes of section 66(2)(c) of the Act.

Local heritage places

This part of the Planning and Design Code designates places as places of local heritage value for the purposes of section 67 of the Act. Local heritage places are also listed in the South Australian Heritage Register established under the *Heritage Places Act 1993*. However, as local heritage places are established under the *Planning, Development and Infrastructure Act 2016*, if there is any inconsistency between the Register and the Local Heritage Places listed in Part 11 of the Planning and Design Code, an entry in Part 11 of the Planning and Design Code will prevail to the extent of any inconsistency.

State heritage places

State heritage places listed in Part 11 are a point in time reference to places that are registered (or provisionally listed) as State Heritage Places under the *Heritage Places Act 1993*. As the *Heritage Places Act 1993* operates separately to the *Planning, Development and Infrastructure Act 2016* and the Planning and Design Code, reference to the Register established under the *Heritage Places Act 1993* (the South Australian Heritage Register) will be made to determine if a State Heritage Place exists on land forming part of a development application and the extent to which it applies. If there is any inconsistency between the Register and the State Heritage Places listed in Part 11 of the Planning and Design Code, an entry in the Register will prevail to the extent of any inconsistency.

Regulated and significant trees

Part 10 makes declarations for the purposes of the definition of regulated tree(s) and the definition of significant tree(s) under the Act.

Australian Standards

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter a DTS/DPF provision to reflect an update to a relevant standard published by Standards Australia.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new DTS/DPF provision or provisions that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the DTS/DPF provision or provisions will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Spatial Information and Electronic Databases and Files

The spatial boundaries of zones, subzones and overlays, as they apply in relation to the various parts of the State, are determined through the operation of the Code and may accessed through the SA planning database.

In particular, the Code spatially applies the zones, subzones and overlays to the various parts of the State. This application results in spatial layers that show the location of the zones, subzones and overlays and, accordingly, applies the policies, rules and other information that are relevant to any specific place within the State. This feature of the Code operates through data that is housed in multiple databases and electronic files. These databases and files interact to produce data that accurately shows the spatial application of the polices, rules and other relevant information within the Code, combining textual information with spatial information.

This electronic feature of the Code works in conjunction with the SA planning database under section 49 of the Act, so that the spatial boundaries of any zone, subzone or overlay, and accordingly relevant textual information, may be accessed and applied through the SA planning database.[13]

The Code and the SA planning database in turn operate in conjunction with the South Australian Property and Planning Atlas (SAPPA) and other related databases and systems and services. The data in SAPPA defines the spatial extent and boundaries of the zones, subzones and overlays established by the Code. This spatial data is developed, maintained, securely stored and delivered through information systems established and maintained by the Department. This functionality allows spatial data and textual data to be brought together in the SA planning database, and in the Code as published on the SA planning portal.

The status of the SA planning database is further supported by any standards established by the Commission under section 51 of the Act and, importantly, section 52 of the Act supports the electronic publication of statutory instruments, including the Code. A version of the Code, published on that part of the SA planning portal that states that instruments published on that part are certified by the Chief Executive of the Department under section 52(1) of the Act, is able to be presumed (in the absence of proof to the contrary) to be a complete and accurate record of the statutory instrument (as amended from time to time and as in force at a specified day).[14] In addition, any information produced on the SA planning database as to the application of planning policies, rules and information to a specified place within the State (as envisaged by section 49(1) of the Act) will be presumed, in the absence of proof to the contrary, to be accurate and correct (and may be relied on for the purposes of the Act).[15]

Furthermore, as part of the SA planning portal and in connection with the SA planning database, the online atlas under section 50 of the Act provides a search facility to search across the database that is relevant to the spatial application of the Code. The online atlas enables the viewing and searching of the spatial mapping feature of the Code, and enables viewing of the location of zones, subzones and overlays by reference to council areas. This feature may be viewed as replacing an aspect of the scheme under the *Development Act 1993*.

The official sources for planning spatial data under the *Development Act 1993* are the various hard copy maps of a Development Plan for a council area. With the implementation of the SAPPA and Online Planning and Design Code Enquiry (OPD) application, pre-defined and printed maps are no longer relevant or required. Rather, the scheme under the Act provides for the electronic publication of the Code, facilities to identify the policies, rules and information that apply to any place in the State, and the authorisation and verification of an electronic version of the Code as in force at any particular time.

Cadastral Updates

The zones, subzones and overlays of the Code are aligned relative to the cadastral boundaries shown in the South Australian Property and Planning Atlas (SAPPA). In the majority of cases a zone, subzone or overlay boundary is directly aligned with cadastre, or is offset from cadastre by a defined criterion. In the case of roads the zone, subzone or overlay boundaries are often aligned with the centreline of that road.

When cadastral boundaries are are changed due to newly deposited plans, resurvey, or amendments by the Surveyor-General there are often boundaries that are, as a result, found to be incorrectly spatially located and are represented in SAPPA in a different geographic location.

Where the spatial application of the boundary of a zone, subzone or overlay is directly aligned or otherwise linked with the cadastre (being a parcel boundary or some other point or position within a parcel) and the cadastre is amended resulting in the movement of a cadastral boundary, the spatial application of the boundary of the zone, subzone or overlay will also move proportionate with the amended cadastre. This ensures that the intended spatial application of the boundary of the zone, subzone or overlay with the cadastre is maintained.

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter the spatial boundary of a Zone, Subzone or Overlay to:
   (a) align the boundary to cadastre; or
   (b) offset the boundary from cadastre by a defined criterion;
   if the Minister is satisfied that the alteration will preserve or restore the intended spatial relationship between the cadastre and the boundary of the Zone, Subzone or Overlay.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new map or maps that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the map or maps will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Ministerial Determinations

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter the spatial application of an overlay or alter a Concept Plan referred to in column 1 of the table set out at the end of this clause if the Minister is satisfied that the alteration is an update described in column 2 of the table.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new map or maps, or a new concept plan that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the map or maps or concept plan will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Table

Overlay or Concept Plan	Nature of Updates
Adelaide Dolphin Sanctuary	The Overlay may be updated in accordance with a management plan (or part of a management plan) adopted under the *Adelaide Dolphin Sanctuary Act 2005*.
Advertising Near Signalised Intersections	The overlay may be updated due to the creation, alteration or removal of a signalised intersection on a State Maintained Road.
Airport Building Heights (Regulated)	The Overlay may be updated due to a change to airport building height requirements approved by the Civil Aviation Safety Authority.
Aircraft Noise Exposure	The Overlay may be updated in accordance with: (a) an Australian Noise Exposure Forecast (ANEF) endorsed under the *Air Services Act 1995; or* (b) an Australian Noise Exposure Forecast (ANEF) endorsed by the Department of Defence.
Building Near Airfields	The Overlay may be updated in accordance with a guideline produced under the National Airports Safeguarding Framework.
Coordinated Development	The Overlay may be spatially removed from land where the Minister is satisfied that: (a) a scheme under Part 13 of the Act has been adopted or an agreement is in place for the provision of all necessary essential infrastructure to support development of the growth area; and (b) there are no other relevant restrictions to urban development proceeding.
Defence Aviation Area	The Overlay may be updated in accordance with any regulation relating to a defence aviation area declared under the *Defence Act 1903*.
Future Local Road Widening	The overlay may be updated: (a) due to a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay; or (b) where the update involves the removal, or the reduction of a road widening requirement of a road, of the Overlay from a road which is not a State Maintained Road, at the request of Council. Note: The Minister should consider not using this process if the change is due to a council seeking road widening in 2 or more locations.
Future Road Widening	The overlay may be updated due to: (a) an update to the Metropolitan Adelaide Road Widening Plan; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Gas and Liquid Petroleum Pipelines	The overlay may be updated: (a) due to the creation, alteration or removal of a gas or liquid petroleum pipeline identified for the purposes of the overlay; or (b) in accordance with an approval under the *Petroleum and Geothermal Energy Act 2000*.
Gas and Liquid Petroleum Pipelines (Facilities)	The overlay may be updated: (a) due to the creation, alteration or removal of a gas or liquid petroleum pipeline identified for the purposes of the overlay; or (b) in accordance with an approval under the *Petroleum and Geothermal Energy Act 2000*.
Historic Shipwrecks	The overlay may be updated in accordance with the list or amendment to the list of places entered, either on a provisional or permanent basis, in the South Australian Register of Historic Shipwrecks under the *Historic Shipwrecks Act 1981* and/or *Underwater Cultural Heritage Act 2018*
Heritage Adjacency	The overlay may be updated due to: (a) a change to the application of the Local Heritage Place Overlay or the State Heritage Place Overlay because of the creation, alteration or removal of a parcel containing a heritage item; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Key Outback and Rural Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Key Railway Crossings	The overlay may be updated due to the creation, alteration or removal of a railway crossing on a State Maintained Road.
Major Urban Transport Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
	The overlay may be updated due to:

Non-Stop Corridors	(a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Traffic Generating Development	The overlay may be updated due to the creation, alteration or removal of a major urban transport route or an urban transport route.
Tunnel Protection	The overlay may be updated due to: (a) the designation, alteration or removal of a State Maintained Road, busway, railway or other essential infrastructure development by the Crown identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Urban Transport Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Concept Plan in Part 12 of the Code	Concept Plans may be updated to: (a) reflect the alteration of an infrastructure delivery scheme under section 167 of the *Planning, Development and Infrastructure Act 2016*; or (b) reflect development granted development authorisation under the *Planning, Development and Infrastructure Act 2016* and which has been substantially commenced; or (c) reflect the construction of essential infrastructure which has been substantially commenced; or (d) reflect a deed or agreement with a government agency or the relevant council that relates to the provision of essential infrastructure and which relate to the development of essential infrastructure, activity centres or the staging of development.

Interpretation

Application of Spatially Based Policies and Rules

Where a zone, subzone, overlay or technical and numeric variation (TNV) does not spatially apply to the whole of a site that is the subject of the development application, the spatially based rules of the zone (including assessment pathway exclusions), subzone, overlay or TNV are only applicable to the portion of the site to which the zone, subzone, overlay or TNV spatially covers. Reference to the South Australian Property and Planning Atlas of the SA planning database will be made to determine whether a zone, subzone, overlay or TNV is relevant to the site of the proposed development application.

Definitions and other rules of interpretation

A term used in the Code may have a meaning specifically assigned to that term by one of the following:

(a) the *Planning, Development and Infrastructure Act 2016* (the Act);
(b) the *Acts Interpretation Act 1915*;
(c) the definitions in Parts 7 and 8 of the Code.

In the event a term has been assigned a meaning in more than one of the Code's parts (i.e., a zone, zubzone, overlay, or general development policy), the meaning contained in the part that sits highest in the hierarchy of policies described above will prevail.

A reference in the Code to an Act includes a reference to any regulations or instrument made under that Act, and where an Act, regulation or instrument has been amended or replaced, if the context permits, includes a reference to the amended or replaced Act, regulations or instrument.

A reference in the Code to a specific resource document or standard, means the latest version of the resource document or standard.

Unless otherwise indicated, a reference in the Code to a Part, section or table is a reference to a Part, section or table of the Code.

Footnotes

1
See especially Part 5 Division 2 Subdivision 5 of the Act in relation to the processes for the adoption and amendment of the Code.

2
The Chief Executive of the Department of Planning, Transport and Infrastructure is responsible for establishing and maintaining an electronic database (the SA planning database) that produces, by gaining access to-
(a) the state planning policies; and
(b) the Planning Rules; and
(c) any relevant land management agreements; and
(d) other instruments and documents as the Chief Executive thinks fit,
textual and spatial information that identifies the planning policies, rules and information that apply to specific places within the State under the Act. The SA planning database must be accessible on the SA planning portal.

3
See especially the *Planning, Development and Infrastructure (Transitional Provisions) Regulations 2017* Part 4.

4
A further explanation of aspects of these features is described in a later section of this Part.

5
Section 103(c) of the Act refers to a category of development called *impact assessed development*. Under section 108(1)(a) of the Act, the Code classifies various forms of impact assessed development as 'restricted development' for the purposes of assessment under Part 7 Division 2 Subdivision 4 of the Act.

6
Any development that does not fall into a category established under this part of the scheme (and that is not otherwise to be assessed as 'impact assessed development' under the Act), is development that is to be assessed on its merits under the Act and the Code.

7
This applies subject to provisions of the Act such as section 107(2)(a).

8
Part 6 of the Code sets out technical and/or numeric requirements and any relevant variations

9
See section 66(4)(a) of the Act.

10
The *Planning, Development and Infrastructure (General) Regulations* 2017.

11
Section 107(6) of the Act provides that the Code may exclude classes of development from the requirement to give notice of an application for planning consent to owners or occupiers of adjacent land, and to members of the public by notice placed on the relevant land.

12
Development that is within a class specified in a 'Referrals' table must be referred to the prescribed referral body pursuant to section 122 of the Act.

13
The zones, subzones and overlays may be viewed as part of the SA planning portal at: https://sappa.plan.sa.gov.au/
The SA planning database is not the Code itself, but is rather a database which gains access to the Code and identifies the planning policies, rules and information that apply to specific places within the State.

14
See also regulation 7 of the *Planning, Development and Infrastructure (General) Regulations 2017*.

15
See section 52(2) of the Act.

Part 2 - Zones and Sub Zones

Adelaide Park Lands Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A unique publicly accessible and well connected open space system, including the formal city squares, that creates a distinctive landscaped park setting for the City of Adelaide.
DO 2	A range of passive and active recreational activities with a high-level of amenity, including a safe and connected walking and cycling network, natural areas, sporting fields and club facilities, formal cultural gardens, public artwork and passive recreation areas, as well as opportunities to support a variety of temporary events, such as festivals, concerts and sporting events.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of open space, recreation and sporting activities.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Conservation work (c) Outbuilding associated with open space maintenance (d) Recreation area (e) Shop (f) Special events (g) Sporting field or club facility (h) Structures associated with a public facility such as bike and vehicle parking, picnic / barbeque area, shelter and toilet.
PO 1.2 Shops in appropriate areas of the Adelaide Park Lands: (a) provide a range of goods and services for the users of activities in the Adelaide Park Lands and where such goods and services are not otherwise conveniently located and (b) positively contribute to Adelaide Park Lands activation and setting without being visually prominent.	DTS/DPF 1.2 Shops (other than in the Aquatic Centre Subzone) satisfy all of the following: (a) are ancillary to a recreational use, club, sporting facility (b) do not exceed 50m^2 in gross leasable floor space (c) do not increase the building footprint.
PO 1.3 Community, cultural, tourism, shop or licensed premises located adjacent to the southern bank of the River Torrens between Montefiore Road and King William Road.	DTS/DPF 1.3 None are applicable.
PO 1.4 Community, cultural and tourism uses in association with the Torrens Training Depot and Parade Ground.	DTS/DPF 1.4 None are applicable.
PO 1.5 Special events in suitable locations and recreation uses of a temporary or transient nature limiting their impacts on the open and natural character of the Adelaide Park Lands.	DTS/DPF 1.5 None are applicable.
PO 1.6 The adaptive reuse of existing buildings to improve the design quality and appearance of the building, minimise the need to increase the building footprint and positively contribute to the cultural value, amenity and activation of the Adelaide Park Lands.	DTS/DPF 1.6 None are applicable.
PO 1.7 Other than in the Aquatic Centre Subzone, new buildings seek to minimise the building footprint on the landscaped and open setting of the Adelaide Park Lands and should only be considered where: (a) the development is the replacement of an existing building and does not increase the overall building footprint (b) the building design is contextual and of high-quality so that it complements its setting when viewed from all perspectives (c) provides complementary recreation, sporting or tourism facilities that could not otherwise have been provided in the zone and (d) the building is designed to be multi-purpose and can be used by more than one user group.	DTS/DPF 1.7 None are applicable.
PO 1.8 The redevelopment of existing buildings and structures within the following sites in a way that is ancillary and complementary to existing uses including: (a) Adelaide Oval (b) Memorial Drive tennis precinct- formal sport related facilities (c) Torrens Lake - boating facilities (d) Adelaide High School - education and related facilities (e) National Wine Centre - tourism related facilities within the existing site boundaries (f) Adelaide Botanic Garden - restaurants, function facilities and passive recreation facilities (g) Adelaide Zoo - a range of tourism and visitor related facilities that add to the zoo as a key city attraction (h) Golf Course - club facilities and restaurants (i) West Terrace Cemetery - chapel, visitor and interpretative centre and operational facilities (j) North Adelaide Train Station - rail services facilities (k) Victoria Park Grandstand.	DTS/DPF 1.8 None are applicable.
PO 1.9 Development of public infrastructure is appropriate: (a) within existing roads, railway corridors or the O-Bahn corridor where it does not create any additional impact on the amenity of the Adelaide Park Lands (b) where it facilitates safe, connected pedestrian and cycle movement (c) where it facilitates the treatment and/or management of stormwater in a passive and natural landscaped setting.	DTS/DPF 1.9 None are applicable.
Built Form and Character	
PO 2.1 A contextual design response that complements the open space function, natural and cultural character of the area and is suitably screened by landscaping.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development includes lighting that positively contributes to public safety, activity and amenity within the Adelaide Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Utility and supply services, holding tanks, sub-stations, power lines and other utility facilities that are unobtrusive and where practicable, placed underground.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development sited and designed to minimise negative impacts on adjacent residential uses.	DTS/DPF 2.4 None are applicable.
Natural / Cultural Landscape Character	
PO 3.1 Development protects, enhances and improves public access to: (a) areas of special landscape character (such as formal gardens, significant stands of trees, and the like) and (b) areas and items of indigenous and post-colonial cultural significance.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development recognises the Park Land's National Heritage Values.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development maintains the visual distinction between the predominantly open landscape character of the Adelaide Park Lands and the built-form of adjacent Zones.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development contributes to the return of alienated land to Adelaide Park Lands where practical.	DTS/DPF 3.4 None are applicable.
PO 3.5 Development sensitive to native biodiversity which incorporates ways to protect and improve biodiversity through its design and siting.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development enhances natural creek channels and watercourses as a major landscape and stormwater management feature.	DTS/DPF 3.6 None are applicable.
Advertisements	
PO 4.1	DTS/DPF 4.1

Permanent advertisements or advertising hoardings only provide interpretive information or directions relating to features and facilities within the Adelaide Park Lands.	None are applicable.
PO 4.2 Temporary advertisements relating to a local event of a religious, educational, cultural, social or recreational character or to an event of a political character limited in size and number which do not detract from the open and natural character of the zone.	DTS/DPF 4.2 Advertisements satisfy all of the following: (a) not exceeding $2m^2$ on a building or site (b) not displayed more than 1 month prior to the event and 1 week after the event concludes except for an advertisement that relates to a federal, state or local government election and (c) do not: (i) move or flash (ii) reflect light so as to be an undue distraction to motorists (iii) use internal lighting or (iv) principally advertise brands or products.
Movement, access and parking	
PO 5.1 Development does not restrict public access to land within the zone and ensures the Adelaide Park Lands are universally accessible.	DTS/DPF 5.1 None are applicable.
PO 5.2 Car parking in the Zone is limited to serving activities within the Adelaide Park Lands, and located close to existing road networks to minimise impact on the Adelaide Park Lands character.	DTS/DPF 5.2 None are applicable.
PO 5.3 Other than in the Aquatic Centre Subzone, additional car parking is avoided by utilising on street parking or shared parking areas, locating close to walking and cycling infrastructure, utilising the existing road network and other such means.	DTS/DPF 5.3 None are applicable.
PO 5.4 Public vehicle access limited to existing roads.	DTS/DPF 5.4 None are applicable.
Fencing	
PO 6.1 Fencing is open so that Adelaide Park Lands character is maintained, and maintains public access.	DTS/DPF 6.1 None are applicable.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area Concept Plan 125 - City Riverbank - West Concept Plan 132 - Adelaide Aquatic Centre In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Essential infrastructure	1. The development does not include health, education or community facilities, police, justice or emergency services facilities.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed $40m^2$ 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Stormwater infrastructure within the Adelaide Aquatic Centre Subzone	None
Temporary buildings and structures within the Adelaide Aquatic Centre Subzone	1. The development is related to construction activities 2. The development includes one or more of the following: (a) site offices (b) gantries (c) temporary fencing

	(d) hoarding and scaffolding (e) other temporary construction related buildings or structure.
Temporary car parking facilities within the Adelaide Aquatic Centre Subzone	1. The development provides temporary car parking during construction or demolition works using existing entry and exit points (or entry and exit points with a valid planning consent).
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Advertisements DTS/DPF 4.2	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) advertisement (c) conservation work (d) deck (e) fence (f) internal building work (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) recreation area (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) special events (p) sporting field or club facility (q) structures associated with a public facility such as bike and vehicle parking, picnic / barbeque area, shelter and toilet (r) swimming pool or spa pool and associated swimming pool safety features (s) temporary public service depot (t) verandah (u) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
6. Shop.	Except shop that does not satisfy Adelaide Park Lands Zone DTS/DPF 1.2.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Adelaide Aquatic Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A recreation precinct that is a destination for quality leisure, recreation, health and wellness, and sport.
DO 2	Exemplary buildings that are respectful of the National Heritage Values of the Adelaide Park Lands.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
DTS/DPF 1.1 Development comprises one or more of the following (which are additional to those development types listed in DTS/DPF 1.1 of the Adelaide Park Lands Zone): (a) Consulting room (b) Office (c) Indoor recreation facility (d) Lighting (e) Swimming pool.	PO 1.1 A range of open space, recreation and/or sport facilities.
PO 1.2 An indoor recreation facility accommodating swimming, recreation and wellness facilities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-recreation land uses are subordinate to the principal recreational use of the land.	DTS/DPF 1.3 Offices, consulting rooms or creche facilities are under the main roof of and subordinate to an indoor recreation facility. Shops are: (a) ancillary to a recreational use, club or sporting facility and do not exceed 50m^2 in gross leasable floor space or (b) under the main roof of an indoor recreation facility that accommodates swimming, recreation and wellness facilities.

PO 1.4 Redevelop the Return to Park Lands Area, as shown on Concept Plan 132 Adelaide Aquatic Centre, for multipurpose ovals (soccer/cricket) and outdoor passive and active recreation, sport and /or ancillary uses.	DTS/DPF 1.4 None are applicable.
Design and Siting	
PO 2.1 Buildings are fit for purpose while minimising the building footprint on the landscaped and open setting of the Adelaide Park Lands.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are designed to be viewed from all perspectives and have strong connections to land within the surrounding precinct.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development is responsive to and is enhanced by its landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Provide tree planting along key pedestrian and cycle pathways to enhance amenity and legibility.	DTS/DPF 2.4 None are applicable.
Car Parking	
PO 3.1 Provide adequate on-site car parking taking into account the availability of on-street parking, public transport access, walking and cycling connections, and the availability of shared parking arrangements.	DTS/DPF 3.1 None are applicable.
PO 3.2 Minimise the extent and impact of car parking on the Adelaide Park Lands through landscaping and other design strategies.	DTS/DPF 3.2 None are applicable.

Business Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A variety of housing and accommodation types and compatible employment-generating land uses in an environment characterised by primarily low-rise buildings
DO 2	Buildings of a scale and design that complements surrounding built form, streetscapes and local character and provide for landscaping and open space.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Housing and accommodation types appropriate to the locality complemented by shops, offices, consulting rooms and other non-residential uses that do not materially impact residential amenity.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Co-living (b) Community facility (c) Consulting room (d) Dwelling (e) Office (f) Residential flat building (g) Shop
PO 1.2 Business and commercial land uses complement and enhance the prevailing or emerging neighbourhood character.	DTS/DPF 1.2 Shops, offices and consulting rooms (or any combination thereof) do not exceed 250m^2 in gross leasable floor area.
PO 1.3 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.3 A change of use to a shop, office or consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop: (i) the total gross leasable floor area of the shop will not exceed 250m^2 (ii) if primarily involving the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (iii) if primarily involving heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any residential allotment within a neighbourhood-type zone or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (c) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (ii) the building is a local heritage place.
Built Form and Character	
PO 2.1 Buildings are of a scale and design that complements surrounding built form, streetscapes and local character.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development provides attractive landscaping to the primary street frontage.	DTS/DPF 2.2 None are applicable.
PO 2.3 Site coverage is limited to provide space for landscaping, open space and pervious areas.	DTS/DPF 2.3 Development does not result in site coverage exceeding 60%.
Building height and setbacks	
PO 3.1 Buildings are generally of low-rise construction, with taller buildings positioned towards the centre of the zone and away from any adjoining neighbourhood-type zone to positively contribute to the built form character of the locality.	DTS/DPF 3.1 Except on a Catalyst site in the Melbourne Street West Subzone, Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6.5m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 12.5m Maximum building height is 14m Maximum building height is 15m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels (b) in all other cases (ie there is a blank field for both values): (i) 2 building levels or 9m where the development is located adjoining a different zone that primarily envisages residential development (ii) 3 building levels or 12m in all other cases. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field: (i) for the purpose of DTS/DPF 3.1(a), refer to the Maximum Building Height (Metres) Technical and Numeric Variation layer or Maximum Building Height (Levels) Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (ii) only one value is returned for DTS/DPF 3.1(a), (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.2 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 3.2 Buildings setback from the primary street boundary in accordance with the following table:

	Development Context / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. / The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. / The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. / (a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. / 5m For the purposes of **DTS/DPF 3.2:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.3 Buildings set back from secondary street boundaries (other than rear laneways) contribute to a consistent streetscape.	DTS/DPF 3.3 Building walls are set back from the secondary street frontage: (a) the average of any existing buildings on adjoining sites having frontage to the same street OR (b) not less than 900mm where no building exists on an adjoining site.
PO 3.4 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining residential properties.	DTS/DPF 3.4 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3.2m in height from the lower of the natural or finished ground level (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 3.5 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.	DTS/DPF 3.5 Dwelling walls of dwellings in a semi-detached or row arrangement are set back at least 900mm from side boundaries shared with allotments outside the development site.
PO 3.6 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 3.6 Other than walls located on a side boundary, building walls are set back at least 900mm from side boundaries.
PO 3.7 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 3.7 Buildings walls are set back from the rear boundary at least: (a) 3m for the first building level (b) 5m for any second building level.
Land Division	
PO 4.1 Land division and / or site amalgamation creates allotments that vary in size and are suitable for a variety of residential and commercial activities and improve the level of development integration.	DTS/DPF 4.1 None are applicable.
Advertisements	
PO 5.1 Advertisements complement the scale of buildings and are not visually dominant within the locality.	DTS/DPF 5.1 None are applicable.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.
Ancillary Buildings and Structures	
PO 7.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 7.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

	(ii) the amount of existing soft landscaping prior to the development occurring.
PO 7.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 7.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 7.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 7.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: ≤500m² — Floor area: 60m² Allotment size: >500m² — Floor area: 80m² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m² 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. Site coverage does not exceed 60% 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation 15. retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)** — **Minimum percentage of site** <150 — 10% 150-200 — 15% 201-450 — 20% >450 — 25%

	(b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Site coverage does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted;
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed $40m^2$
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Site coverage does not exceed 60%
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. The tank is part of a roof drainage system
4. Total floor area - not exceeding $15m^2$
5. The tank is located wholly above ground
6. Tank height - does not exceed 4m above natural ground level
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (underground)
Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
2. The tank (including any associated pump) is located wholly below the level of the ground
3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016,* classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) ancillary accommodation (c) co-living (d) community facility (e) dwelling (f) dwelling addition (g) residential flat building (h) retirement facility (i) student accommodation (j) supported accommodation.	Except development that: 1. exceeds the maximum building height specified in Business Neighbourhood Zone DTS/DPF 3.1 or 2. is on a Catalyst Site that exceeds the maximum building height in Business Neighbourhood Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Business Neighbourhood Zone DTS/DPF 1.2 or 2. exceeds the maximum building height specified in Business Neighbourhood Zone DTS/DPF 3.1 or 3. is on a Catalyst Site that exceeds the maximum building height in Business Neighbourhood Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Melbourne Street West Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A mixed use area accommodating low-impact employment-generating activities and a range of low to medium density housing.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Low impact non-residential uses that complement low to medium density residential accommodation.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Community facility (c) Consulting room (d) Dwelling (e) Educational facility (f) Office (g) Residential flat building (h) Retirement village (i) Supported accommodation (j) Tourist accommodation.
Built Form and Character	
PO 2.1 Buildings setback from side boundaries to complement the pattern of development.	DTS/DPF 2.1 None are applicable.

PO 2.2 Buildings set back behind landscaped frontages to Melbourne Street to provide a consistent and attractive streetscape.	DTS/DPF 2.2 A landscape strip at least 3.5m wide is provided along the Melbourne Street frontage.
PO 2.3 Other than for catalyst sites, parts of buildings above 2 building levels are set back from Melbourne Street to complement the prevailing character to Melbourne Street.	DTS/DPF 2.3 Parts of a building above 2 building levels are set back at least 6m from Melbourne Street.
PO 2.4 Development is set back from the boundary of an adjacent zone and from Old Street to maintain residential amenity.	DTS/DPF 2.4 None are applicable.
PO 2.5 Verandahs, awnings or balconies and the like not constructed over the public footpath.	DTS/DPF 2.5 None are applicable.
Catalyst Sites	
PO 3.1 Development on a catalyst site is comprised of medium-rise residential uses integrated with non-residential uses to contribute to vibrancy of the street.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development on a catalyst site is designed to manage the interface with the City Living Zone with regard to intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development on a catalyst site contributes to streetscape character and vibrancy through building designs that: (a) encourage overlooking of the street, particularly at the ground and first floor (b) create the appearance of narrow frontages and enhance visual interest (c) are vertically massed (d) include above street level fenestration, balconies, parapets, architectural detailing and ornamentation which contribute to the rich visual texture.	DTS/DPF 3.3 None are applicable.
Access and Parking	
PO 4.1 Development does not result in additional crossovers on the primary street frontage to minimise conflicts with pedestrians and cyclists./span>	DTS/DPF 4.1 Vehicular access where it consolidates or replaces existing crossovers.
PO 4.2 Vehicle access from Melbourne Street is designed and located to minimise disruption to the pattern of built form and landscaping.	DTS/DPF 4.2 None are applicable.
PO 4.3 Vehicle parking areas are located to minimise disruption to the continuity of built form and the streetscape character along Melbourne Street.	DTS/DPF 4.3 Vehicle parking areas are located behind buildings with a frontage to Melbourne Street.
Advertisements	
PO 5.1 Advertisements are: (a) restrained in size, design and illumination to complement the character of the locality (b) limited to one advertisement identifying the lawful existing or proposed activity for the site.	DTS/DPF 5.1 None are applicable.

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Advertisement	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The development meets one of the following: (a) no part of the advertisement and associated advertising hoarding, when installed, will be able to be seen by a person standing at ground level in a public street or thoroughfare adjacent to the boundary of the zone (b) in any other case, the advertisement and any associated advertising hoarding: (i) if it is attached to a building, it does not exceed the wall height of the associated building (ii) if it is freestanding, it does not exceed 15m in height from natural ground level and is setback: A. at least 10m from an arterial road B. in any other case, at least 30m from the zone boundary (iii) will display information limited to any of the following: A. a lawful use of land within the zone B. an event or festival that is to take place in the zone C. community or road safety 4. If located on a site adjacent to a road on the perimeter of the zone, it is not illuminated and does not move or flash 5. It does not encroach on public land 6. It does not involve the clearance of native vegetation.
Air handling unit, air conditioning system or exhaust fan	1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)
Building alterations	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation
Carport	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The carport: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point 4. Does not involve the clearance of native vegetation.
Dwelling addition	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation.
Museum	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The museum: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point

	4. Does not involve the clearance of native vegetation.
Outbuilding	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The garage: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point 4. Does not involve the clearance of native vegetation
Partial demolition of a building or structure	None
Shade sail	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation
Solar photovoltaic panels (roof mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996.* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
Verandah	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation.
Water tank (above ground)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 5. Does not involve the clearance of native vegetation.
Water tank (underground)	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Capital City Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone that is the economic and cultural focus of the state supporting a range of residential, employment, community, educational, innovation, recreational, tourism and entertainment facilities generating opportunities for population and employment growth.
DO 2	High intensity and large- scale development with high street walls reinforcing the distinctive grid pattern layout of the city with active non-residential ground level uses to positively contribute to public safety, inclusivity and vibrancy. Design quality of buildings and public spaces is a priority in this zone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 A vibrant mix of residential, retail, community, commercial and professional services, civic and cultural, health, educational, recreational, tourism and entertainment facilities.	DTS/DPF 1.1 The following types of development, or combinations thereof, are envisaged: (a) Advertisement (b) Child care facility (c) Co-living (d) Consulting Room (e) Dwelling (f) Educational facility (g) Hospital (h) Hotel (i) Licensed Premises (j) Library (k) Office (l) Supported Accommodation (m) Residential Flat Building (n) Shop (o) Student Accommodation (p) Tourist accommodation.
PO 1.2 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.2 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Activation	
PO 2.1 Non-residential land uses at ground floor level such as shops and restaurants support and maximise pedestrian activity to provide visual interest and positively contribute to public safety, walkability and vibrancy.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development: (a) contributes to the activation of the public realm by presenting an attractive human scaled pedestrian-oriented frontage at ground level that adds interest and vibrancy; (b) maintains a sense of openness to the sky for pedestrians and allow sunlight access to the public realm; (c) provides a clear sense of address to each building.	DTS/DPF 2.2 None are applicable.
PO 2.3 Land uses typically open during night time hours incorporate activities along street frontages at ground level that encourage day time activation	DTS/DPF 2.3 None are applicable.

compatible with surrounding land uses.	
PO 2.4 Shopfronts incorporating security features such as security grilles and shutters are designed to allow visual permeability into the premises, allow for light spill onto the street, and complement the appearance of the building's frontage.	DTS/DPF 2.4 Grilles, shutters or similar security features with at least 75% permeability.
Built form and Character	
PO 3.1 A contextual design response that manages differences in scale and building proportions to maintain a cohesive streetscape and frame city streets.	DTS/DPF 3.1 None are applicable
PO 3.2 Buildings: (a) are designed to reinforce the prevailing datum heights and parapet levels of the street through design elements that provide a clear distinction between levels above and below the prevailing datum line; (b) where located in an existing low-rise context, are designed to include a podium/street wall height and upper level setback that: (i) relates to the scale and context of adjoining built form; (ii) provides a human scale at street level; (iii) creates a well-defined and continuity of frontage; (iv) gives emphasis and definition to street corners to clearly define the street grid; and (v) contributes to the interest, vitality and security of the pedestrian environment.	DTS/DPF 3.2 None are applicable.
PO 3.3 Building façades are strongly modelled, incorporate a vertical composition which reflects the proportions of existing frontages, and ensure that architectural detailing is consistent around corners and along minor streets and laneways.	DTS/DPF 3.3 None are applicable
PO 3.4 Development along The Terraces (North, East, South and West) is designed to positively contribute to a continuous built form to frame the Park Lands and city edge.	DTS/DPF 3.4 None are applicable.
PO 3.5 Development along the city's boulevards (as identified in Capital City Zone Table 5.1): (a) built to the street boundary at lower levels to reinforce the City's grid layout and frame the boulevard (b) designed to provide a sense of arrival into the City and strongly define junctions where located on a corner site.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development avoids activities that result in a gap in the built form along a public road or thoroughfare (such as an open lot car park) for an extended period of time to minimise negative impacts on streetscape continuity.	DTS/DPF 3.6 None are applicable.
PO 3.7 Development along the city's boulevards (as identified in Capital City Zone Table 5.1) is designed to maximise views to the Park Lands and not clutter existing view corridors to the Adelaide Hills when viewed from the public realm.	DTS/DPF 3.7 None are applicable.
PO 3.8 Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares is designed to provide a comfortable pedestrian and recreation environment by enabling direct sunlight to a majority of the Square.	DTS/DPF 3.8 Development enables direct sunlight to a minimum of 75% of the landscaped part of each Square at the September equinox.
PO 3.9 Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares is designed to reinforce the enclosure of the Squares with a continuous built-form with no upper level setbacks.	DTS/DPF 3.9 None are applicable.
PO 3.10 Provision of outdoor eating and drinking facilities associated with cafes and restaurants fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares positively contributes to activity and creates a focus for leisure in the Squares.	DTS/DPF 3.10 None are applicable.
PO 3.11 Development with frontage to minor streets and laneways is informed by its local context, recognising that built form outcomes may need to strike a balance between: (a) design that provides a sense of enclosure, enables fine-grain uses at street level and creates an intimate, active, inclusive and walkable public realm; and (b) the need for vehicular access to service development, including for access to car parking and for refuse collection.	DTS/DPF 3.11 None are applicable.
PO 3.12 Buildings north of the City Main Street Zone are designed to enable natural sunlight access to the southern footpath of the main street.	DTS/DPF 3.12 Buildings north of the City Main Street Zone that cast a shadow on the southern footpath of the main street incorporate narrow and setback tower elements and provide spaces between buildings.
PO 3.13 Buildings are adaptable and flexible to accommodate a range of land uses.	DTS/DPF 3.13 The ground floor of buildings has a minimum floor to ceiling height of 3.5m.
Building Height	
PO 4.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and*Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context and achieves the desired outcomes of the Zone.	DTS/DPF 4.1 Development does not exceed the following building heights: **Maximum Building Height (Levels)** Maximum building height is 6 levels **Maximum Building Height (Metres)** Maximum building height is 22m Maximum building height is 28m Maximum building height is 29m Maximum building height is 36m Maximum building height is 43m Maximum building height is 53m No prescribed height limit In relation to DTS/DPF 4.1, in instances where: (a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 4.2 Development exceeding the building height specified in the *Maximum Building Height (Levels) Technical* and *Numeric Variation layer and the Maximum Building Height (Metres) Technical and Numeric Variation* layer is generally not contemplated unless: (a) the development provides for the retention, conservation and reuse of a building that: (i) is a State or local heritage place and the heritage values of the place will be maintained (ii) provides a notable positive contribution to the character of the local area or (b) the building incorporates measures that provide for a substantial additional gain in sustainability and it demonstrates at least four of the following are met: (i) the development provides an orderly transition up to an existing taller building or prescribed maximum height in an adjacent Zone or building height area on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation* layer (ii) incorporates high quality open space that is universally accessible and directly connected to, and well integrated with, public realm areas of the street (iii) Incorporates high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iv) provides higher amenity through provision of private open space in excess of minimum requirements by 25 percent for at least 50 percent of dwellings (v) no on site car parking is provided (vi) at least 75% of the ground floor street fronts of the building (except where required to accommodate servicing such as waste collection by heavy vehicles, deliveries, and/or passenger drop-off and pick-up areas) are active frontages (vii) the building has frontage to a public road that abuts the Adelaide Park Lands	DTS/DPF 4.2 None are applicable.

(viii) where the development includes housing, at least 15% of the dwellings are affordable housing (ix) the impact on adjacent properties is no greater than a building of the maximum height on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation* layer in relation to sunlight access and overlooking.	
PO 4.3 Buildings designed to achieve optimal height and floor space yields.	DTS/DPF 4.3 New development has a minimum building height of: (a) not less than half of the maximum building height specified in DTS/DPF 4.1, or 8 building levels (with a minimum of 28m) in instances where 'No prescribed height limit' is specified in DTS/DPF 4.1; or (b) within the City Frame Subzone: 3 building levels (with a minimum of 11.5m), or 4 building levels (with a minimum of 15m) on sites fronting South Terrace other than where: (a) a lower building height is necessary to achieve compliance with the Commonwealth Airports (Protection of Airspace) Regulations (b) the site of the development adjoins the City Living Zone and a lesser building height is required to positively manage the interface with low-rise residential development (c) the site of the development adjoins a heritage place, or contains a heritage place or (d) the development includes the construction of a building in the same, or substantially the same, position as a building which was demolished, as a result of significant damage caused by an event within the previous three years where the new building has the same, or substantially the same, layout and external appearance as the previous building.
Interface	
PO 5.1 Development is designed to manage the interface with residential uses in the City Living Zone: (a) in relation to building proportions, massing, and overshadowing; and (b) by avoiding land uses, or intensity of land uses, that unduly impact residential amenity (including licensed premises).	DTS/DPF 5.1 None are applicable.
PO 5.2 Parts of a development exceed the maximum building height specified in DTS/DPF 4.1 and adjoin the City Living Zone boundaries are designed to minimise negative visual and amenity impacts to residential living areas and outdoor open space.	DTS/DPF 5.2 Parts of a building above the maximum building height specified in DTS/DPF 4.1 include additional setbacks, avoid tall sheer walls, centrally locate taller elements, and provide variation of light and shadow through articulation.
Movement	
PO 6.1 Access to, and movement within, the Capital City Zone to be universally accessible, easy, safe, comfortable, convenient and legible for people of all abilities, with priority given to pedestrians and cyclists.	DTS/DPF 6.1 None are applicable.
Access	
PO 7.1 Vehicular access points are associated with multi-level and/or non-ancillary car parks located to minimise disruption to traffic flow.	DTS/DPF 7.1 Vehicular access points associated with multi-level and/or non-ancillary car parks are located on a secondary road frontage, or utilise an existing crossover.
PO 7.2 Development designed so that vehicle access points for parking, servicing or deliveries, and pedestrian access to a site, are located to minimise interrupting the operation of and queuing on public roads and pedestrian paths.	DTS/DPF 7.2 None are applicable.
Advertisements	
PO 8.1 Advertisements use simple graphics and are restrained in their size, design and colour, and achieve an overall consistency of design and appearance along individual street frontages.	DTS/DPF 8.1 None are applicable.
PO 8.2 Advertisements along Chesser Street, French Street and Coromandel Place are located below verandah level of the ground floor.	DTS/DPF 8.2 Along Chesser Street, French Street and Coromandel Place, advertisements are not located more than 3.7m above natural ground level or an abutting footpath or street.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area In relation to DTS/DPF 9.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.
Public Realm	
PO 10.1 Development in the public realm where it: (a) does not present a safety risk to pedestrians or other users of the public road (b) does not interrupt pedestrian movement (c) does not interfere with existing infrastructure or services on the street (d) positively contributes to the vibrancy of the area (e) is consistent with the outcomes of the zone.	DTS/DPF 10.1 None are applicable.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) co-living (d) consulting room (e) dwelling (f) office (g) residential flat building (h) shop (i) student accommodation (j) temporary public service depot.	Except development that exceeds the maximum building height specified in Capital City Zone DTS/DPF 4.1.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Table 5.1 - City Boulevards

City Frame Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Primarily medium to high rise residential development supported by a mix of ground level shops, personal services, restaurants and community and hospitality uses, to create an active and visually continuous edge to the Adelaide Park Lands Zone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Medium to high rise residential development and other forms of accommodation supported by a mix of shops, personal services, restaurants and community and hospitality uses.	DTS/DPF 1.1 Development in medium-rise or high-rise buildings comprising one or more of the following: (a) Dwelling (b) Non-residential land uses at ground level, including: (i) Child care facility (ii) Consulting room (iii) Hotel (iv) Indoor recreation facility (v) Licensed premises (vi) Office (vii) Shop (c) Residential flat building (d) Retirement facility (e) Supported accommodation (f) Tourist accommodation.
PO 1.2	DTS/DPF 1.2

Additions to existing wholly non-residential development may occur where it is located and/or designed in a manner that does not unreasonably impact negatively upon adjacent residential land uses.	None are applicable.
PO 1.3 Small scale licensed premises, nightclubs or bars are designed and sited to maintain day and evening activation at street level where they do not unreasonably negatively impact dwellings contained within the same building or adjacent residential development.	DTS/DPF 1.3 None are applicable.
Design and Appearance	
PO 2.1 Development encourages a uniform streetscape established through a largely consistent front setback. Landscaping and small variations in front setback may occur where they will assist in softening the continuous edge of new built form, reinforce the sense of address and provide a higher amenity streetscape and pedestrian environment which is shaded by street trees and other mature vegetation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings create visual interest and active street frontages to maximise passive surveillance of the street and Adelaide Park Lands Zone.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 70% of the street frontage as visually permeable, transparent or clear glazed.

Caravan and Tourist Park Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Tourist accommodation and associated services and facilities enhance visitor experiences and enjoyment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The provision of tourist accommodation in non-permanent structures largely in the form of caravan and tent sites, cabins and transportable dwellings, are complemented by permanent buildings for tourist accommodation in appropriate locations and a range of associated facilities to enhance experiences for travellers.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Amenity block, including shower, toilet and laundry facilities (c) Dwelling in the form of a manager's residence ancillary to tourist accommodation (d) Office ancillary to tourist accommodation (e) Recreation area including tennis court, basketball court, playground (f) Shop ancillary to tourist accommodation (g) Swimming pool/spa pool (h) Tourist accommodation comprising cabins, caravans, tent sites.
PO 1.2 Tourist accommodation and associated facilities are located within an open landscaped setting for the amenity of travellers.	DTS/DPF 1.2 None are applicable.
PO 1.3 On-site amenities including shower, toilet and laundry facilities, recreation areas, swimming pool/spa and similar activities are provided in association with tourist accommodation at a scale commensurate with the number of travellers and residents able to be accommodated within the park for their convenience and enjoyment.	DTS/DPF 1.3 None are applicable.
PO 1.4 Dwelling in the form of a manager or caretaker residence associated with and ancillary to tourist accommodation for the efficient management, maintenance and support of tourist activities.	DTS/DPF 1.4 Dwelling satisfies all of the following: (a) is ancillary to and located on the same allotment as the tourist accommodation (b) has a demonstrated connection with tourist accommodation (c) will not result in more than one worker's dwelling on an allotment.
PO 1.5 Caravans, cabins and other forms of accommodation used for non-traveller residential purposes do not unduly compromise the provision and availability of tourist accommodation for the benefit and convenience of travellers.	DTS/DPF 1.5 Residential accommodation comprises no more than 40% of the total number of residences (cabins, caravan and tent sites and other accommodation) on each allotment.
PO 1.6 Shop associated with and ancillary to tourist accommodation as a convenient service to travellers accommodated within the zone.	DTS/DPF 1.6 Shop satisfies all of the following: (a) is ancillary to and located on the same allotment as tourist accommodation (b) has a gross leasable floor area up to 150m^2.
PO 1.7 Office associated with and ancillary to tourist accommodation to support the management and operational aspects of tourist development.	DTS/DPF 1.7 Office satisfies all of the following: (a) is ancillary to and located on the same allotment as tourist accommodation (b) has a gross leasable floor area up to 50m^2.
Built Form and Character	
PO 2.1 Buildings positively contribute to the character of the locality and complement the height of nearby buildings.	DTS/DPF 2.1 Building height does not exceed 1 building level and 6m.
PO 2.2 Landscaping is used to define spaces, reinforce internal networks and screen utility areas from surrounding uses to enhance visual amenity within and around the perimeter of the zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings and fixtures attached to the land and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of residents and travellers.	DTS/DPF 2.3 Buildings and fixtures attached to the land and recreational facilities are set back at least 1 metre from an internal road.
PO 2.4 Buildings are set back from public roads to mitigate impacts on the streetscape.	DTS/DPF 2.4 Buildings are set back at least 6m from a public road.
PO 2.5 Buildings, caravan and tent sites and recreational areas set back from the boundary of the zone to minimise impacts on neighbouring properties.	DTS/DPF 2.5 Buildings, caravan and tent sites and recreational areas are set back at least 2m from the zone boundary and an adjoining site in other ownership used for residential purposes.
Land Division	
PO 3.1 No additional allotment(s) are created except where a lease or licence agreement is made, granted or accepted under the *Residential Parks Act 2007* to provide for the secure accommodation of longer-term residents.	DTS/DPF 3.1 Land division for a lease or licence under the *Residential Parks Act 2007* where an agreement is made, granted or accepted under that Act.
PO 3.2 Each caravan, cabin and dwelling is provided with adequate space for the occupant's exclusive use to enhance the amenity for travellers.	DTS/DPF 3.2 Caravan, cabin and dwelling sites are not less than 100m^2 in area.
Internal Roads	
PO 4.1 Internal road surfaces are treated to prevent the generation of dust to contribute to the amenity of residents and travellers.	DTS/DPF 4.1 None are applicable.
Advertisements	
PO 5.1 Freestanding advertisements do not create a visually dominant element within the locality, particularly when facing a residential area.	DTS/DPF 5.1 Freestanding advertisements are: (a) up to 2m in height above natural ground level and up to 2m^2 per sign face when located adjacent to a zone primarily for residential development

	(b) up to 4m in height above natural ground level and up to 4m^2 per sign face in any other case.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. iThe development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or

	(b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Land division	Any of the following: (a) land division where a lease or licence agreement is made, granted or accepted under the *Residential Parks Act 2007* (b) land division that is a boundary realignment.
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) amenity block, shower, toilet and laundry facilities (or any combination thereof) (c) tourist accommodation.	Except development that: 1. exceeds the maximum building height specified in Caravan and Tourist Park Zone DTS/DPF 2.1 or 2. does not satisfy Caravan and Tourist Park Zone DTS/DPF 2.5.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Office.	Except office that does not satisfy Caravan and Tourist Park Zone DTS/DPF 1.7.
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
7. Shop.	Except shop that does not satisfy Caravan and Tourist Park Zone DTS/DPF 1.6 or where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
8. Telecommunications facility.	Except telecommunications facility exceeding 30m in height or where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

City Living Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Predominantly low-rise, low to medium-density housing, with medium rise in identified areas, that supports a range of needs and lifestyles located within easy reach of a diversity of services and facilities that support city living. Small scale employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse housing and accommodation complemented by a range of compatible non-residential uses supporting an active and convenient neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Co-living (c) Community facility (d) Consulting room (e) Dwelling (f) Educational facility (g) Office (h) Personal or domestic services establishment (i) Place of worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Supported accommodation.
PO 1.2 Non-residential development located and designed to improve community accessibility to services primarily in the form of: (a) small-scale commercial uses such as offices, consulting rooms and personal or domestic services establishments (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement housing (d) open space and recreation facilities (e) expansion of existing hospital and associated facilities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity, and primarily comprise: (a) home-based business activities (b) the reuse and adaption of existing commercial premises (c) new businesses along street frontages with an established mixed use character, particularly the following: (i) within the Medium-High Intensity Subzone and fronting: A. Gilles Street / Gilbert Street B. Sturt Street C. Carrington Street (west of Hurtle Square) D. Archer Street E. Ward Street (ii) Tynte Street (west of Bevis Street)	DTS/DPF 1.4 A consulting room, office or personal or domestic services establishment (or any combination thereof) satisfies any one of the following: (a) comprises a change in the use of an existing building that is lawfully used as a consulting room, office or personal or domestic services establishment (or any combination thereof) (b) is located on the ground floor and associated with a dwelling where at least 50% of the total floor area of the ground floor is used for residential purposes (excluding any garage or carport associated with residential development) (c) it is wholly located on the ground floor of a building and satisfies one of the following: (i) the building is in the Medium-High Intensity Subzone and has a primary street frontage to any of the following: A. Gilles Street / Gilbert Street B. Sturt Street C. Carrington Street (west of Hurtle Square) D. Archer Street E. Ward Street (ii) the building has a primary street frontage to Tynte Street (west of Bevis Street).
PO 1.5 Development associated with or ancillary to an existing non-residential or institutional activity identified on any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code is contained on a site within a Concept Plan boundary, or any directly adjoining site, to avoid detrimental impact on adjacent residential amenity.	DTS/DPF 1.5 None are applicable.
PO 1.6 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.6 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) where the alterations or additions relate to a facility located within any relevant Concept Plan boundary as contained in Part 12 – Concept Plans of the Planning and Design Code, the alterations or additions are located wholly within the Concept Plan boundary (b) set back at least 3m from any boundary shared with a residential land use (c) building height not exceeding 1 building level (d) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (e) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Built Form and Character	
PO 2.1 The number of dwellings is increased in the zone while maintaining residential amenity.	DTS/DPF 2.1 The number of dwellings in the zone is increased by satisfying at least one of the following: (a) redevelopment of poor quality and underutilised buildings or sites that are in discord with the desired outcomes of the zone and relevant subzone (b) adaptation and conversion of non-residential buildings to residential uses (c) development in upper levels of existing buildings, or by increasing the height of buildings or roof volumes, or on sites behind existing buildings.
PO 2.2 Development contributes to a predominantly low-rise residential character, except when located in the Medium - High Intensity Subzone or East Terrace Subzone where it contributes to a predominantly medium rise residential character, consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation* layer and the *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database or any relevant Concept Plan and positively responds to the local context.	DTS/DPF 2.2 Except where a Concept Plan specifies otherwise or on a Catalyst Site in the East Terrace Subzone, development (excluding garages, carports and outbuildings): (a) does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 6 levels **Maximum Building Height (Metres)** Maximum building height is 8.5m Maximum building height is 14m Maximum building height is 18m Maximum building height is 11m (b) is not less than the following building height: **Minimum Building Height (Levels)** Minimum building height is 2 levels Minimum building height is 3 levels In relation to DTS/DPF 2.2, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer, *Maximum Building Height (Metres) Technical and Numeric Variation* layer, or *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 2.2(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (e) no value is returned for DTS/DPF 2.2(a) (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. (f) no value is returned for DTS/DPF 2.2(b) (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 2.2(b) is met.
PO 2.3 New buildings and structures visible from the public realm consistent with: (a) the valued streetscape characteristics of the area (b) prevailing built form characteristics, such as floor to ceiling heights, of the area.	DTS/DPF 2.3 None are applicable.
PO 2.4 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the area	DTS/DPF 2.4 None are applicable.
PO 2.5	DTS/DPF 2.5

Development designed to provide a strong built-form edge to the Park Lands and Wellington Square through the regular siting and pattern of buildings addressing the primary street frontage.	None are applicable.
Building Setbacks	
PO 3.1 Buildings are set back from primary street boundaries to complement the existing streetscape character.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — No DTS/DPF is applicable. For the purposes of **DTS/DPF 3.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.2 Buildings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 3.2 Building walls are no closer than 900mm to secondary street boundary.
PO 3.3 Buildings setback from side boundaries to provide: (a) separation between buildings in a way that is consistent with the established streetscape of the locality. (b) access to natural light and ventilation to neighbours.	DTS/DPF 3.3 Building walls are setback from a side boundary not less than the nearest side setback of the primary building on the adjoining allotment.
PO 3.4 Buildings are setback from rear boundaries to provide: (a) access to natural light and ventilation for neighbours (b) open space recreational opportunities (c) space for landscaping and vegetation.	DTS/DPF 3.4 Building walls are set back from the rear boundary at least: (a) 3m for the ground floor level (b) 5m for first floor building level (c) 5m plus an additional 1m setback added for every 1m in height above a wall height of 7m.
PO 3.5 Boundary walls are limited in height and length to manage impacts on adjoining properties.	DTS/DPF 3.5 For buildings that do not have a common wall, any wall sited on a side boundary meets all of the following: (a) does not exceed 3m in wall height (b) does not exceed a length of 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (c) when combined with other walls on the boundary, does not exceed 45% (d) is setback at least 3m from any existing or proposed boundary walls.
Site Dimensions and Land Division	
PO 4.1 Allotments created for residential purposes that are of suitable size and dimension and are compatible with the housing pattern consistent to the locality.	DTS/DPF 4.1 Except on a Catalyst Site in the East Terrace Subzone, development accords with the following: (a) site areas (or allotment areas in the case of land division) not less than: **Minimum Site Area** Minimum site area for a detached dwelling is 100 sqm; semi-detached dwelling is 100 sqm; row dwelling is 100 sqm; group dwelling is 100 sqm; residential flat building is 100 sqm Minimum site area for a detached dwelling is 120 sqm; semi-detached dwelling is 120 sqm; row dwelling is 120 sqm; group dwelling is 120 sqm; residential flat building is 120 sqm Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; group dwelling is 600 sqm; residential flat building is 500 sqm (b) site frontages not less than: **Minimum Frontage** Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; group dwelling is 18m; residential flat building is 18m Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; group dwelling is 18m; residential flat building is 18m Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 18m; residential flat building is 18m Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m In relation to DTS/DPF 4.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) no value is returned for DTS/DPF 4.1(a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
Car Parking and Access	
PO 5.1 Access to parking and service areas located and designed to minimise the impacts to pedestrian environments and maintain the residential scale and pattern of development, through measures such as: (a) providing access from minor streets, or side or rear lanes provided road width is suitable and the traffic generation does not unreasonably impact residential amenity (b) siting any new car parking away from street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Car parking associated with development on an institutional or college site identified on a concept plan is provided at basement level to minimise the streetscape impact.	DTS/DPF 5.2 None are applicable.
Advertisements	
PO 6.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 6.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 25 - Kathleen Lumley College Concept Plan 26 - Archer West Concept Plan 27 - Aquinas College Concept Plan 28 - St Mark's College

Description
Concept Plan 29 - St Ann's College
Concept Plan 30 - Lincoln College
Concept Plan 31 - Calvary Hospital
Concept Plan 32 - St Dominic's Priory College
Concept Plan 33 - Helping Hand Aged Care
Concept Plan 84 - Carrington Street South
Concept Plan 83 - Former Channel 9 Site, North Adelaide

In relation to DTS/DPF 7.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Ancillary Buildings and Structures

PO 8.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 8.1

Ancillary buildings satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding 60m^2
(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 30% of the site frontage, or 7m in width or 50% of the site frontage where located in the Medium-High Intensity Subzone or the East Terrace Subzone, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone, unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 8.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 8.2

Ancillary buildings and structures do not result in:

(a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
(b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 8.3

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 8.3

Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive:

(a) are ancillary and subordinate to an existing non-residential use on the same site
(b) have a floor area not exceeding the following:

Allotment size	Floor area
≤500m^2	60m^2
>500m^2	80m^2

(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the main building to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Carport Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
12. The carport is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not obtained from a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.
13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
14. Does not involve the clearance of native vegetation
15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Fence and retaining wall structure
Except where any of the following apply:

- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels.
2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels)
3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land.
4. The structure is not located on a secondary street boundary.
5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
12. If the outbuilding is a garage, it is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not obtained from a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
14. Does not involve-
   (a) excavation exceeding a vertical height of 1 metre; or
   (b) filling exceeding a vertical height of 1 metre,
   and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
15. Does not involve the clearance of native vegetation.
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Shade sail
Except where any of the following apply:

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Shade sail consists of permeable material.
4. The total area of the sail - does not exceed 40m^2.
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m.
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
9. Does not involve the clearance of native vegetation.
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Temporary public service depot
Except where any of the following apply:

- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- Major Urban Transport Routes Overlay
- State Heritage Place Overlay
- Traffic Generating Development Overlay
- Urban Transport Routes Overlay

1. Occupies land for no longer than 3 months
2. Ensures litter and water are contained on site
3. Provides temporary security fencing around the perimeter of the site.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level.
7. Building height - does not exceed 5m.
8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment.
9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. The tank is part of a roof drainage system.
4. Total floor area - not exceeding 15m^2.
5. The tank is located wholly above ground.
6. Tank height - does not exceed 4m above natural ground level.
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%

	>450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Built Form and Character DTS/DPF 2.2 Building Setbacks DTS/DPF 3.5, DTS/DPF 3.4, DTS/DPF 3.3, DTS/DPF 3.2, DTS/DPF 3.1	Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.4, DTS/DPF 19.2 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Clearance from Overhead Powerlines DTS/DPF 1.1	East Terrace Subzone [Site Coverage] DTS/DPF 1.1 North Adelaide Low Intensity Subzone [Site Coverage] DTS/DPF 2.1	Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3, DTS/DPF 1.2, DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.5 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Development associated with or ancillary to any existing non-residential or institutional activity located within the boundary of Concept Plans 25 to 33 inclusive contained within Part 12 - Concept Plans of the Planning and Design Code that is not within, or on a site adjoining, the Concept Plan boundary.	None specified
Shop	Any of the following: (a) shop that comprises a change in use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof) (b) shop with a gross leasable floor area less than 1000m^2 (c) shop that is a restaurant

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) child care facility (c) co-living (d) community centre (e) dwelling (f) dwelling addition (g) recreation area (h) residential flat building (i) retirement facility (j) supported accommodation (k) temporary public service depot.	Except development involving any of the following: 1. development that exceeds the maximum building height specified in City Living DTS/DPF 2.2 2. development on a Catalyst Site that exceeds the maximum building height in City Living DTS/DPF 2.2 that applies to development not on a Catalyst Site 3. development that involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
3. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) personal or domestic services establishment.	Except development that: 1. does not satisfy City Living Zone DTS/DPF 1.4 or 2. exceeds the maximum building height specified in City Living Zone DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following): (a) air conditioning unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence	None specified.

Class of Development (Column A)	Exceptions (Column B)
(e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Medium-High Intensity Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Medium rise, medium density housing in a variety of forms with an eclectic mix of supporting non-residential land uses interspersed (including as mixed use development) that complement the area's urban residential amenity.
DO2	Redevelopment of existing non-residential sites into integrated mixed use developments to increase the residential population and vibrancy of the area.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of medium density accommodation types for living, including dwellings and supported accommodation.	DTS/DPF 1.1 None are applicable.
Interface Height	
PO 2.1 Development in the Medium-High Intensity Subzone that abuts the subzone boundary is designed to manage the interface with areas of the City Living Zone outside the subzone to minimise impacts with regard to building massing, proportions and overshadowing on residential development.	DTS/DPF 2.1 None are applicable.

North Adelaide Low Intensity Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Predominantly low rise low density housing on large allotments in an open landscaped setting.
DO2	An important part of the town plan of Adelaide and the city grid layout, containing large grand dwellings on landscaped grounds.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings sited and designed to complement the low-density or very-low density character of the neighbourhood, in locations where an open landscape setting is the prevailing character.	DTS/DPF 1.1 None are applicable.
Site Coverage	
PO 2.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood, in locations where an open landscaped setting is the prevailing character.	DTS/DPF 2.1 The development does not result in site coverage exceeding 50%.

East Terrace Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Predominately medium rise housing on large allotments in an open landscaped setting.
DO2	Integrated developments on catalyst sites to assist in the transformation of a locality and facilitate an increase in the residential population of the City, while also creating a greater level of activity fronting the Park Lands.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Site Coverage	
PO 1.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.	DTS/DPF 1.1 Except on catalyst sites, the development does not result in site coverage exceeding 50%.
Catalyst Sites	
PO 2.1 Development on a catalyst site includes medium to high scale residential uses.	DTS/DPF 2.1 None are applicable.

PO 2.2 Small scale shops, cafes and restaurants generally integrated with residential development and located on ground or first floor levels to increase street level activity facing the Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development designed to respond to its context and manage impacts in relation to building height, building proportions and traffic impacts, and avoid land uses, or intensity of land uses, that adversely affect residential amenity.	DTS/DPF 2.3 None are applicable.
PO 2.4 Parts of a development on a catalyst site that exceed the maximum building height specified in the *Building Height (Maximum Levels) Technical and Numeric Variation* layer designed to minimise visual impacts on adjacent sensitive uses.	DTS/DPF 2.4 None are applicable.

City Main Street Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A mixed use zone providing important shopping, hospitality, commercial, community, cultural and entertainment facilities for the city supported by medium to high-density residential development. Non-residential activities including shops, restaurants and licensed premises positively contribute to the day and evening economies, public safety, walkability and city vibrancy.
DO 2	The built form positively contributes to: (a) a streetscape that is visually interesting at human-scale, comprising articulated buildings with a high level of fenestration and balconies oriented towards the street (b) a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm and intimate character, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A vibrant mix of land uses adding to the vitality of the area and extend activities outside shop hours, including restaurants, educational, community and cultural facilities and visitor and residential accommodation.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Co-living (c) Consulting Room (d) Dwelling (e) Educational Facility (f) Hotel (g) Licensed Premises (h) Office (i) Residential Flat Building (j) Retirement Facility (k) Student Accommodation (l) Supported Accommodation (m) Shop (n) Tourist Accommodation
PO 1.2 Retail, office, entertainment and recreation related uses, supplemented by other businesses that provide a range of goods and services to the city and the surrounding district.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land uses typically open during night time hours incorporate activities along street frontages at ground level that encourage day time activation compatible with surrounding land uses.	DTS/DPF 1.3 None are applicable.
PO 1.4 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places.	DTS/DPF 1.4 Dwellings developed in conjunction with non-residential uses sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.5 Development of well-designed and diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.5 None are applicable.
PO 1.6 Ground floor level uses generate high levels of pedestrian activity and contribute to an active and vibrant main street.	DTS/DPF 1.6 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 1.7 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.7 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses; (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared
Built Form and Character	
PO 2.1 Buildings are: (a) designed to reinforce the street edge and grid pattern of the city streets (b) designed to include a podium/street wall and upper level setback that responds to local context, including the scale and context of adjacent built form, to ensure a cohesive and consistent streetscape and positively contribute to a sense of enclosure (c) of a rich visual design that has regard to above street level fenestration, balconies, parapets, architectural detailing and ornamentation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings and structures are designed to complement and respond to the established fine grained main street character by: (a) ensuring the verandah profile, and materials of construction are consistent with and positively respond to adjacent traditional main street buildings (b) complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings are designed to create visual connection between the public realm and ground level interior to ensure an active interface with the main street and maximise passive surveillance.	DTS/DPF 2.3 The ground floor primary frontage of buildings provide at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.4 Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.	DTS/DPF 2.4 Buildings that provide a continuity of verandahs, canopies, awnings or other pedestrian shelters.
PO 2.5	DTS/DPF 2.5

Buildings are adaptable and flexible to accommodate a range of land uses.	The ground floor of buildings has a minimum floor to ceiling height of 3.5m.
PO 2.6 Development that reinforces the main street as important pedestrian promenades and vibrant places.	DTS/DPF 2.6 None are applicable
PO 2.7 Shopfront security features are designed to allow visual permeability into the shop, allow for the spill of light from the shopfront onto the street, and complement the appearance of the frontage.	DTS/DPF 2.7 Security grilles incorporating solid shutters with at least 75% permeability.
PO 2.8 Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street.	DTS/DPF 2.8 Buildings with a 0m setback from the primary street boundary.
PO 2.9 In secondary streets and laneways (off the main street) building setbacks above the street wall may be relatively shallow or non-existent to create intimate spaces through a greater sense of enclosure.	DTS/DPF 2.9 Buildings with a 0m setback from the secondary street boundary.
PO 2.10 High rise built form on the northern side of Rundle Mall, Rundle Street, Hindley Street and Gouger Street incorporating slender tower elements, spaces between buildings or other design techniques that enable natural sunlight access to the southern footpath.	DTS/DPF 2.10 None are applicable.
PO 2.11 Development avoids activities that result in a gap in the built form along a public road or thoroughfare (such as an open lot car park) for an extended period of time to minimise negative impacts on streetscape continuity.	DTS/DPF 2.11 None are applicable.
Building Height	
PO 3.1 Building height is consistent with the maximum height expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context and achieves the desired outcomes of the Zone, except a catalyst site in the City High Street Subzone.	DTS/DPF 3.1 Except where a Concept Plan specifies otherwise or the development is located on a catalyst site in the City High Street Subzone, development does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 2 levels Maximum building height is 4 levels Maximum building height is 6 levels **Maximum Building Height (Metres)** Maximum building height is 14m Maximum building height is 22m Maximum building height is 34m Maximum building height is 43m Maximum building height is 53m No prescribed height limit In relation to DTS/DPF 3.1, in instances where: (a) more than one value is returned, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned for (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 3.2 In the Rundle Street, Rundle Mall, Hindley Street, and Gouger and Grote Street Subzones, development exceeding the building height specified in the *Maximum Building Height (Levels) Technical and Numeric Variation* layer and the *Maximum Building Height (Metres) Technical and Numeric Variation* layer is generally not contemplated unless: (a) the development provides for the retention, conservation and reuse of a building that: (i) is a State or local heritage place and the heritage values of the place will be maintained (ii) provides a notable positive contribution to the character of the local area or (b) the building incorporates measures that provide for a substantial additional gain in sustainability and at least four of the following are met: (i) the development provides an orderly transition up to an existing taller building or prescribed maximum height in an adjacent Zone or building height area on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation* layer (ii) incorporates high quality open space that is universally accessible and directly connected to, and well integrated with, public realm areas of the street (iii) incorporates high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iv) provides higher amenity through provision of private open space in excess of minimum requirements by 25 percent for at least 50 percent of dwellings (v) no on site car parking is provided (vi) at least 75% of the ground floor street fronts of the building are active frontages (vii) the building has frontage to a public road that abuts the Adelaide Park Lands; (viii) where the development includes housing, at least 15% of the dwellings are affordable housing (ix) the impact on adjacent properties is no greater than a building of the maximum height on the *Maximum Building Height (Levels) Technical and Numeric Variation* layer *and Maximum Building Height (Metres) Technical and Numeric Variation* layer in relation to sunlight access and overlooking.	DTS/DPF 3.2 None is specified
PO 3.3 Buildings designed to achieve optimal height and floor space yields.	DTS/DPF 3.3 New development has a minimum building height of not less than half of the maximum building height specified in DTS/DPF 3.1, or 8 building levels (with a minimum of 28m) in instances where 'No prescribed height limit' is specified in DTS/DPF 3.1, other than where: (a) a lower building height is necessary to achieve compliance with the Commonwealth Airports (Protection of Airspace) Regulations; OR (b) the site of the development adjoins a heritage place, or contains a heritage place.
Movement, parking and access	
PO 4.1 Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form.	DTS/DPF 4.1 Vehicular access to be provided: (a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones or (b) where it consolidates or replaces existing crossovers.
PO 4.2 Development is designed to ensure car parking is located to avoid negative impacts on the main street rhythm and activation.	DTS/DPF 4.2 Vehicle parking garages are located behind buildings away from the primary main street frontage.
PO 4.3 Development designed so that vehicle access points for parking, servicing or deliveries, and pedestrian access to a site, are located to minimise interrupting the operation of and queuing on public roads and pedestrian paths.	DTS/DPF 4.3 None are applicable.
Advertisements	
PO 5.1 Except in the Hindley Street Subzone, advertisements use simple graphics and are restrained in their size, design and colour, and achieve an overall consistency of design and appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality (e) are sited and designed to not detract from the main street character.	DTS/DPF 5.2 None are applicable.
Concept Plans	
PO 6.1	DTS/DPF 6.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.
Public Realm	
PO 7.1 Development in the public realm where it: (a) does not present a safety risk to pedestrians or other users of the public road (b) does not interrupt pedestrian movement (c) does not interfere with existing infrastructure or services on the street (d) positively contributes to the vibrancy of the area (e) is consistent with the outcomes of the zone.	DTS/DPF 7.1 None are applicable.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves:

	(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) co-living (d) consulting room (e) dwelling (f) office (g) residential flat building (h) shop (i) student accommodation (j) supported accommodation (k) temporary public service depot.	Except development that: 1. exceeds the maximum building height specified in City Main Street Zone DTS/DPF 3.1 or 2. is on a Catalyst Site and exceeds the maximum building height in City Main Street Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 3. development that does not satisfy City High Street Subzone DTS/DPF 3.1 or 3.2 in areas where the Subzone applies.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Gouger and Grote Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development of: (a) Gouger Street as a mix of retail, restaurant, commercial and mixed business uses, including professional services, wholesaling and culturally diverse community activities that contribute to the unique character and vibrancy of the street during the day and evening and (b) Grote Street as an active restaurant and shopping street that complements the main entrance and vibrancy of the Adelaide Central Market and supports the retail, community and diverse cultural functions of the area.
DO2	Development of Gouger Street respects a cohesive streetscape derived from the predominant 2 to 3 storey high buildings along the street edge.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Gouger and Grote streets continue to develop as an active restaurant and shopping precinct complementing the main entry points and activity of the adjacent Adelaide Central Market, while also supporting the retail, community and diverse cultural function of the wider precinct.	DTS/DPF 1.1 None are applicable.
PO 1.2 Licensed premises, nightclubs or bars that: (a) are small in scale (b) secondary to the primary land uses mix of the street (c) are located above or below ground level (d) limited in number (e) do not detract from the streets daytime activation (f) minimise negative impacts on nearby residential development. and (g) are avoided at the interface with the City Living Zone.	DTS/DPF 1.2 None are applicable.
PO 1.3 Mix of land uses within 'Chinatown' around Moonta Street is reinforced and opportunities for new precincts, such as in minor streets and lanes, established.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings are informed by local context frame Gouger Street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2	DTS/DPF 2.2

Buildings fronting Gouger Street are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	None are applicable.

Hindley Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development of: (a) Hindley Street (east of Morphett Street) as the pre-eminent evening and late night entertainment hub for metropolitan Adelaide with complementary shopping, hospitality, mixed business and high-density living and (b) Hindley Street (west of Morphett Street) as a main street with a range of retail, educational, mixed business, cultural, short-stay accommodation, hospitality uses and high-density living.
DO2	Development along Hindley Street is cognisant of a streetscape characterised by nineteenth century buildings that are predominantly 2 and 3 storeys with buildings forming a continuous built form edge along the street frontage.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Hindley Street (east of Morphett Street) comprises a mix of land uses making the area the City's primary focus for late night hospitality and entertainment.	DTS/DPF 1.1 None are applicable.
PO 1.2 Late night entertainment on Hindley Street (east of Morphett Street) is designed and managed to integrate effectively with day time and evening land use activities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Hindley Street (west of Morphett Street) comprises a mix of business, educational, cultural, short-stay accommodation, hospitality and retail activities with licensed premises integrating effectively with day time and evening land use activities.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings informed by local context that frame Hindley Street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2 Buildings fronting Hindley Street are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings fronting Hindley Street are: (a) enhanced by the refurbishment of nineteenth century buildings (b) complemented by contextual new development that provides a visually interesting built form, positively contributes to the existing and desired character and provides a safe, active and intimate human scale and (c) maintain the rhythm and visually continuity of verandahs, awnings, parapets and facade lines and other architectural details at podium level.	DTS/DPF 2.3 None are applicable.

Rundle Mall Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Rundle Mall is developed as the state's premier shopping destination.
DO2	Development is informed by Rundle Mall's strong and unique character, vibrancy and sense of place, established by a pedestrian space framed by continuous built form made-up of active frontages that are fine-grained and visually interesting from the public realm, and framed with a strong sense of arrival from King William Street and Pultney Street and the adjoining minor streets, arcades and laneways.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A premier retail area consisting of a mix of complementary land uses that include a wide range of specialty and larger scale shops and mixed business and land uses, including residential and office on upper levels, that extend activity into the evening to enhance public safety and the vibrancy of the area.	DTS/DPF 1.1 None are applicable.
Built Form and Character	
PO 2.1 Buildings positively contribute to the built form framing Rundle Mall's public realm by responding the local context and provide visual relief at ground level from building height and massing.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels and and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
Movement and Access	
PO 3.1 Pedestrian movement network is made up of pedestrian malls, arcades and lanes that are safe, legible, comfortable and universally designed, and link the surrounding areas to provide a variety of north-south routes to Rundle Mall and east-west links for people moving between buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Access for on-site servicing and deliveries from minor streets and private lanes is provided wherever possible, rather than from Rundle Mall.	DTS/DPF 3.2 None are applicable.

Rundle Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Rundle Street is developed as an important shopping, leisure, dining and gathering place, complemented by compatible residential accommodation in upper levels.
DO2	Development along Rundle Street is informed by the local context, including the existing built form and heritage buildings of relatively consistent scale and massing that were built in the nineteenth and early twentieth century with façades that typically provide a high proportion of solid-to-void, a high level of articulation (including ornamentation and fenestration) and a combination of high-quality materials).

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A premium retail and leisure area comprising an active restaurant and shopping precinct and a mix of land uses, including residential on upper levels, that extend activity into the evening to enhance the vibrancy of the area.	DTS/DPF 1.1 None are applicable.
PO 1.2 Licensed premises, nightclubs or bars: (a) small in scale (b) secondary to the primary land uses mix of the street (c) located above or below ground level (d) limited in numbers (e) do not detract from the streets daytime activation (f) minimise negative impacts on nearby residential development.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings with frontage to Rundle Street (west of Frome Street) are informed by the local context when transitioning from podium element within the streetscape to taller set-back elements to protect the human scale of the main street.	DTS/DPF 2.1 Buildings with frontage to Rundle Street (west of Frome Street): (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height and (b) have levels above the defined podium or street wall setback a minimum of 3m from that wall.
PO 2.2 Buildings with frontage to Rundle Street (west of Frome Street) are designed to reinforce the prevailing datum heights and parapet levels of the street by design elements that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings with frontage to Rundle Street (east of Frome Street): (a) incorporate podium elements to reconcile the scale relationship between the taller elements and the existing streetscape and (b) are designed to reinforce the prevailing datum heights and parapet levels of the street.	DTS/DPF 2.3 Buildings fronting Rundle Street (east of Frome Street) include: (a) a maximum podium/street wall height that is consistent with one of the adjacent buildings facing the street and does not exceed 13m (b) an upper level setback, measured from the street wall, of not less than 3m stepping up to a height of 6 storeys, then a further setback of not less than 3m stepping up to the maximum overall height and (c) design elements that create a clear distinction between the 13m and 22m datum lines.
PO 2.4 Buildings with frontage to Rundle Street: (a) are carefully designed so that the historic main street character is retained and enhanced (b) are consistent with the intimate scale and intricate and diverse architectural features of Rundle Street (c) maintain the continuity of building facades retaining the subtle diversity and variety of roof and parapet lines and the horizontal massing of the townscape (d) incorporate a vertical emphasis in the composition of their street facades and the disposition and proportioning of openings and (e) ensure upper levels of buildings are designed to reduce visual mass from the human scale of the main street.	DTS/DPF 2.4 None are applicable.
Movement and Access	
PO 3.1 Pedestrian movement network is made up of pedestrian malls, arcades and lanes that are safe, legible, comfortable and universally designed, and link the surrounding areas to provide a variety of north-south routes to Rundle Mall and east-west links for people moving between buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Access for on-site servicing and deliveries from minor streets and private lanes is provided wherever possible, rather than from Rundle Mall.	DTS/DPF 3.2 None are applicable.

City High Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A safe, walkable and vibrant shopping, entertainment and commercial high street precinct with an active day and evening economy supported by medium density residential development.
DO 2	Development along a city high street that contributes to an intimate public realm with active streets.
DO 3	Integrated developments on catalyst sites to assist in the transformation of a locality and facilitate an increase in the residential population of the City, while also activating the public realm and creating a vibrant main street feel.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A vibrant mix of land uses adding to the vitality of the area, providing services to the local community, and visitor and residential accommodation.	DTS/DPF 1.1 None are applicable.
PO 1.2 Licensed premises, nightclubs or bars that: (a) are small in scale (b) secondary to the primary land uses mix of the street (c) are located above or below ground level (d) limited in number (e) do not detract from the street's daytime activation and (f) minimise negative impacts on nearby residential development.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings informed by local context that frame main street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 2 building levels in height; and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2	DTS/DPF 2.2

Buildings fronting the main streets are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	None are applicable.
PO 2.3 Buildings fronting the main street are: (a) enhanced by the refurbishment of nineteenth century buildings (b) complemented by contextual new development that provides a visually interesting built form, positively contributes to the existing and desired character and provides a safe, active and intimate human scale and (c) maintain the rhythm and visually continuity of verandahs, awnings, parapets and facade lines and other architectural details at podium level.	DTS/DPF 2.3 None are applicable.
Interface	
PO 3.1 Except on catalyst sites , buildings mitigate visual impacts of building massing on residential development within the City Living Zone.	DTS/DPF 3.1 Except on catalyst sites , buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within the City Living Zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary): PO 3.2 Except on catalyst sites , buildings mitigate overshadowing of residential development within the City Living Zone.	DTS/DPF 3.2 Except on catalyst sites, buildings on sites with a southern boundary adjoining the boundary of an allotment used for residential purposes in the City Living Zone are constructed within a building envelope provided by a 30 degree plane grading north, measured from a height of 3m above natural ground level at the allotment boundary as shown in the following diagram: PO 3.3 Buildings on an allotment fronting a road that is not the primary corridor (ie O'Connell Street, Hutt Street, Melbourne Street, Sturt Street or Halifax Street) and where land on the opposite side of that road is within a neighbourhood-type zone, provide an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.3 None are applicable.
Catalyst Sites	
PO 4.1 Development on a catalyst site comprises medium to high rise residential development that is carefully integrated with non-residential development.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development on catalyst sites designed to manage the interface with the City Living Zone with regard to intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 4.2 None are applicable.
PO 4.3 Catalyst sites contribute to the vibrancy of the main street through building designs that: (a) include a mix of land uses that create activity and overlooking of the street, particularly at the ground level and the first floor; (b) create the appearance of narrow frontages and enhance visual interest; (c) are vertically massed; and (d) include above street level fenestration, balconies, parapets, architectural detailing and ornamentation which contribute to the rich visual texture.	DTS/DPF 4.3 None are applicable.
PO 4.4 The scale of development on catalyst sites respond to its context, particularly the nature of adjacent land uses and the interface treatments required to address impacts on sensitive uses.	DTS/DPF 4.4 None are applicable.
PO 4.5 Where there is an apparent conflict between the catalyst site provisions and subzone provisions (including any quantitative criteria) the catalyst site provisions will take precedence.	DTS/DPF 4.5 None are applicable.

City Riverbank Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Exemplary design quality and architecture that is contemporary and innovative and respectful of the heritage buildings, Adelaide Park Lands setting and civic functions of the locality.
DO 2	A fine grained precinct with a quality public realm that is inviting and comfortable for pedestrians.
DO 3	Strong visual and physical connections between important buildings, public spaces, the Adelaide Park Lands and other key destinations.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of community, commercial and employment generating land uses (not including residential development) that connect the city centre to the natural environment of the River Torrens and Adelaide Park Lands with clusters of related activities, such as: (a) clinical health, training, education and research (b) entertainment, tourism and accommodation (c) education and administration (d) innovative science and employment (e) community and cultural institutions.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Arena (c) Child care facility (d) Community centre (e) Consulting room (f) Office (g) Convention centre (h) Educational facility (i) Entertainment venue (j) Helicopter landing facility (k) Hospital (l) Hotel (m) Licensed premises (n) Land division (o) Light industry (including high technology and research based activity) (p) Shop (q) Tourist accommodation.
PO 1.2 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.2 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from any neighbourhood-type zone, or the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to a state maintained road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Building heights provide an orderly transition in scale, with lower buildings located towards the Adelaide Park Lands, Adelaide Botanic Garden and River Torrens and taller buildings towards North Terrace.	DTS/DPF 2.1 None are applicable
PO 2.2 Development: (a) contributes to the activation of the public realm by presenting an attractive human scaled pedestrian-oriented frontage at ground level that adds interest and vibrancy (b) contributes to pedestrian comfort by minimising micro climatic impacts (c) maintains a sense of openness to the sky for pedestrians and allow sunlight access to the public realm, particularly plaza areas during the Spring and Autumn (d) provides a clear sense of address to each building (e) is compatible with the topography of the site and change in character from a strong city edge on the southern side of North Terrace to the landscaped setting provided by the River Torrens and Adelaide Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development reinforces the grand boulevard character of North Terrace and King William Road by reflecting the patterns of landscaped spaces and built form, building proportions and scale.	DTS/DPF 2.3 None are applicable.
PO 2.4 Coordinated development provides public spaces and landscaping, including deep plantings that soften the dominance of buildings and provide a range of spaces that are suitable for group meetings, social activities and passive enjoyment.	DTS/DPF 2.4 None are applicable.
PO 2.5 Pedestrian shelter, public art, street furniture and the like designed as an integral part of built form, open space and landscaping.	DTS/DPF 2.5 None are applicable.
PO 2.6 The contribution of heritage buildings is enhanced by ensuring: (a) buildings can be adapted and reused for modern purposes while protecting important heritage fabric (b) views and physical connections to heritage buildings and their important heritage features is maintained (c) the ground level interface with heritage buildings incorporates publicly accessible spaces and active land uses that support public access where appropriate.	DTS/DPF 2.6 None are applicable.
PO 2.7 Development recognises the Karrawirra Pari / Riverbank precinct as a place of gathering and significance for traditional indigenous custodians, through visible, authentic and immersive initiatives that: (a) celebrate, tell and bring to life the stories of traditional custodians (b) reinforce the identity and purpose of the Karrawirra Pari precinct (c) rehabilitate the river corridor, that can be used as an educative tool for indigenous culture and practices.	DTS/DPF 2.7 None are applicable.
Advertising	
PO 3.1 Advertisements designed to achieve an overall consistency of appearance and be of a type, scale and image that complement the zone.	DTS/DPF 3.1 None are applicable.
Movement, parking and access	
PO 4.1 Pedestrian and cycle movement based on a network of pathways linking the surrounding zones and providing a variety of north-south and east-west links including: (a) connections between North Terrace and the River Torrens linear park at key pedestrian focal points, in particular: (i) the continuation of Bank Street connecting through to the Adelaide Oval footbridge, (ii) along the western side of the Adelaide Railway Station Building connecting through to the Adelaide oval footbridge (iii) the continuation of Gray Street, (iv) along Montefiore Road through to Morphett Street and (v) along King William Road through to King William Street (b) the Gawler Greenway, Outer Harbor Greenway and River Torrens Linear Park trail (c) the Adelaide Park Lands trail through the Innovation Subzone to connect to the existing trail to the north (d) an east-west connection across the railway line from the Royal Adelaide Hospital through to Gaol Road and beyond to Bonython park (e) improved east-west connections between land located on the eastern and western sides of Montefiore Road.	DTS/DPF 4.1 None are applicable.
PO 4.2 A central pedestrian pathway designed as a single plane surface and maintained to: (a) allow people to walk and ride through and within the Zone from East to West and connect with the North to South pathways (b) link key buildings and public areas within the Zone.	DTS/DPF 4.2 None are applicable.
PO 4.3	DTS/DPF 4.3

Pedestrian movement prioritised and designed to be free from vehicle conflict.	None are applicable.
PO 4.4 Development provides a safe night-time environment along streetscapes, pedestrian and cycle paths and building surrounds by the arrangement of buildings and active building frontages that enhance casual surveillance and provide appropriate lighting and clear lines of sight.	DTS/DPF 4.4 None are applicable.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 85 - City Riverbank - Innovation Concept Plan 125 - City Riverbank - West Concept Plan 153 - City Riverbank - Festival Plaza In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996Panels are installed parallel to the roof of a building and with 2. underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Infrastructure and Renewable Energy Facilities [Wastewater Services] PO 12.2 Clearance from Overhead Powerlines DTS/DPF 1.1 Advertisements [Safety] DTS/DPF 5.6, DTS/DPF 5.5, DTS/DPF 5.4, DTS/DPF 5.3, DTS/DPF 5.2, DTS/DPF 5.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Appearance] DTS/DPF 1.4, DTS/DPF 1.3, DTS/DPF 1.2, DTS/DPF 1.1	None	State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1

				Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1
Consulting room Except where any of the following apply: • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.2	None	None	None
Office Except where any of the following apply: • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.2	None	None	None
Shop Except where any of the following apply: • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.2	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is not adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) consulting room (c) light industry (including high technology and research based activity) (d) office (e) shop (f) temporary public service depot.	Except development that does not satisfy: 1. Health Subzone DTS/DPF 2.1 in areas where the Subzone applies 2. Entertainment Subzone DTS/DPF 2.1 in areas where the Subzone applies 3. Innovation Subzone DTS/DPF 3.1 in areas where the Subzone applies 4. Cultural Institutions Subzone DTS/DPF 2.4 in areas where the Subzone applies.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) Swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Cultural Institutions Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A vibrant cluster of cultural and institution uses including tertiary education, research, viceregal, libraries and museums that attract students, professionals, workers and visitors to the city.

DO 2	Well designed and functional buildings and public spaces that provide pedestrian and cyclist friendly streetscapes and active street frontages that facilitate positive social interaction.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of cultural and institutional uses including tertiary education and associated student accommodation, research, library, viceregal, museums and galleries.	DTS/DPF 1.1 The types of development envisaged within the zone, except: (a) Convention centre (b) Entertainment venue (c) Helicopter landing facility (d) Hospital (e) Motel (f) Serviced apartments (g) Tourist accommodation.
PO 1.2 A limited range of secondary activities that are complementary to the primary purpose of the subzone, such as student accommodation, shops, licensed premises, community facilities, and research facilities, and avoid other uses.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development that emphasises the horizontal grouping of building elements anduses vertical proportions in projections and in the disposition of openings.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings with modelled and textured facades of predominantly masonry appearance similar to the early buildings that contribute to the established historical character of the zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings that complement the form, appearance, materials and finishes of existing buildings in the locality, including the predominant: (a) red brick or masonry walls (b) slate, shingles, terra cotta tiles or copper for exposed roofs.	DTS/DPF 2.3 None are applicable.
PO 2.4 Building heights within the zone transition down to the Adelaide Park Lands from the height of existing buildings established along North Terrace.	DTS/DPF 2.4 Buildings located: (a) along road and Adelaide Park Lands frontages not exceeding 3 building levels and 11.5m in building height (b) away from road and Adelaide Park Lands frontages not exceeding 6 building levels and 22m in building height.
PO 2.5 Pleasant and interesting lawn and paved landscaped areas that create spaces suitable for a variety of activities ranging from those suitable for group meetings and social activities to those for quiet retreat and relaxation.	DTS/DPF 2.5 None are applicable.

Entertainment Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A prominent, vibrant and safe public plaza that provides a focal point for the Riverbank precinct and is supported by a vibrant mix of land uses that encourage use by city workers, residents, families, students, youth, children and tourists.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of a range of cultural, parliamentary, office, entertainment, retail, conference and ancillary land uses.	DTS/DPF 1.1 None are applicable
PO 1.2 A range of health, education and research facilities may also be developed west of Montefiore Road to complement existing and emerging health-related activities in the adjacent Health Subzone.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings of a height and scale that references North Terrace, and minimises impacts on the River Torrens.	DTS/DPF 2.1 None are applicable.
PO 2.2 Where buildings exceed 20 building levels or 71m in building height they will: (a) be of exemplary design (b) not be located adjacent to the River Torrens (c) positively respond to the local context and achieves the desired outcomes of the Zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings adjacent to the River Torrens, east of Montefiore Road, are designed to provide an active edge to the river and are of a low scale commensurate with its landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings along King William Road are designed to enable views through to important State Heritage buildings and the public plaza area.	DTS/DPF 2.4 None are applicable.
PO 2.5 A new public plaza developed on a single plane minimising grade changes across the site so as to maximise pedestrian connectivity.	DTS/DPF 2.5 None are applicable.
PO 2.6 Development adjacent to the River Torrens, west of Montefiore Road: (a) provides an active and appealing edge to the river (b) achieves a high level of amenity (c) is of high quality design, particularly when viewed from the northern side of the river (d) maintains an open, safe and connected pedestrian and cycle route along the river's edge (e) provides a transition in scale down from North Terrace to the river and complements the scale of development on the eastern side of Montefiore Road.	DTS/DPF 2.6 None are applicable
PO 2.7 Development at ground level within the forecourt area containing the 'Yerrakartarta' public artwork (located to the west of the Adelaide Railway Station building) provides connections between North Terrace and the Riverbank.	DTS/DPF 2.7 None are applicable
PO 2.8 Buildings, particularly those that face the River Torrens, incorporate active land uses and design techniques at ground level that contribute to the vitality, safety and activation of the riverbank precinct.	DTS/DPF 2.8 None are applicable

Health Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A health precinct that creates an identifiable and unified city precinct with strong connections to the Torrens River, North Terrace, the Royal Adelaide Hospital and the city.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of significant health, education and research facilities that support the establishment of a significant health and biomedical precinct.	DTS/DPF 1.1 None are applicable
PO 1.2 Land on the north-western side of the railway line developed primarily with facilities that: (a) support and complement the range of health, education and research facilities envisaged in the balance of Health Subzone (b) enable pedestrian and cycle movement through to the Adelaide Park Lands Zone.	DTS/DPF 1.2 None are applicable.
PO 1.3 Adaptation and reuse of the Police Barracks: (a) supported through a range of additional uses such as community and tourism activities (b) in a manner that complements the historic values and park lands setting of the locality.	DTS/DPF 1.3 None are applicable
PO 1.4 Adaptation and reuse of the Old Adelaide Gaol and associated buildings: (a) supported through a range of additional uses such as community and tourism activities (b) in a manner that complements the historic values and park lands setting of the locality.	DTS/DPF 1.4 None are applicable
Built Form and Character	
PO 2.1 Buildings have a positive scale relationship to the North Terrace edge of the Capital City Zone and provide a grand entrance to the city from the west.	DTS/DPF 2.1 Buildings fronting North Terrace not exceeding 15 building levels and 53m in building height.
PO 2.2 Where buildings exceed 15 building levels or 53m in building height they will be of exemplary design.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings north of the central pathway provide an active edge to the River Torrens and are of a low scale commensurate with the landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development provides a satisfactory interface to roads and railways by addressing issues of access, safety, security, noise, air emissions and vibration so that: (a) the effective and efficient operation of the road system and rail service adjacent to the Zone is not detrimentally affected (b) the potential for adverse impacts on hospital occupants and activities as a result of road traffic and the operation of rail services adjacent to the Zone is minimised.	DTS/DPF 2.4 None are applicable.
PO 2.5 Development sited and designed to enable the continued operation of rail and road services within and adjacent to the Zone.	DTS/DPF 2.5 None are applicable.
PO 2.6 Building heights on the north-western side of the railway transition down in scale, with lower buildings located towards the Adelaide Park Lands and in a manner that complements the existing heritage features of the adjoining Police Barracks and Old Adelaide Gaol.	DTS/DPF 2.6 None are applicable.

Innovation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An innovation precinct accommodating a range of commercial, educational and research activities supported by a mix of compatible employment generating land uses including tourism, hospitality, cultural, entertainment and retail activities.
DO 2	A range of low to high rise buildings with high quality contemporary buildings and public spaces within a landscaped setting that responds to heritage buildings on the site and transition down in height and scale towards the Adelaide Park Lands and the Adelaide Botanic Garden.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of innovative commercial, cultural (including museum and art gallery), educational and research activities supported by a mix of compatible employment generating land uses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Small scale retail development to meet the day to day needs of workers and visitors to the precinct.	DTS/DPF 1.2 Shops not exceeding 250m^2 total gross leasable floor area.
PO 1.3 A range of small to medium scale services and facilities serving the area such as child care facilities, entertainment, hospitality and the like.	DTS/DPF 1.3 None are applicable.
PO 1.4 Child care facilities, hotels, licensed premises and tourism accommodation established as secondary uses on the site of a lesser scale and prominence.	DTS/DPF 1.4 None are applicable.
PO 1.5 Higher impact land uses such as commercial development (including high technology and research based activity) clustered in key nodes where compatible with adjoining uses.	DTS/DPF 1.5 None are applicable.
Built Form and Character	
PO 2.1 A high standard of contemporary architectural design providing an innovative response to the unique context of the area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development reinforces the grand boulevard character of North Terrace by reflecting the patterns of landscaped spaces and built form, building proportions and scale.	DTS/DPF 2.2 None are applicable.
PO 2.3 Outdoor eating and drinking facilities associated with cafés and restaurants on ground floors contribute to the vitality of the Zone.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings in proximity to the Adelaide Botanic Garden or Adelaide Park Lands are sited and designed to create view corridors to and from the Botanic Garden.	DTS/DPF 2.4 None are applicable.
PO 2.5 Buildings in proximity to the Adelaide Botanic Garden or Adelaide Park Lands should seek to minimise impacts on plant collections as a result of overshadowing, stormwater runoff, heat, light or wind direction.	DTS/DPF 2.5 None are applicable.

Building Height	
PO 3.1 Buildings of a height and scale that minimise impacts on the Adelaide Botanic Garden and Adelaide Park Lands as well as referencing the scale of buildings facing North Terrace and Frome Road.	DTS/DPF 3.1 Except where located in the Innovation Centre (identified on the Innovation Subzone Concept Plan), buildings not exceeding 15 building levels and 53m in building height.
PO 3.2 Buildings in the Innovation Centre (identified on Concept Plan 85 - City Riverbank - Innovation, Adelaide) only exceed 15 building levels or 53m in building height where: (a) exemplary standards of architectural merit and environmental sustainability are met (b) the building positively contributes to the quality and function of the urban fabric of the precinct overall (c) overshadowing impacts on the Adelaide Botanic Garden are minimised (d) and at least four of the following are provided: (i) high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street (ii) high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iii) no on-site car parking (iv) active frontages are located on at least 75 percent of the ground floor street fronts of the building or (v) the building is designed to provide measures that provides for a substantial additional gain in sustainability.	DTS/DPF 3.2 None are applicable.
Open Space	
PO 4.1 Open space: (a) is coordinated to provide a variety of pleasant, cohesive, hard and soft, high quality landscaped spaces among and adjacent to buildings (b) incorporates planting themes defined by a mix of exotic and Australian native plantings, lawns and garden beds.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development on the eastern portion of the site (as shown on Innovation Subzone Concept Plan): (a) results in an open park like setting complementary to the Adelaide Botanic Garden (b) is carefully managed to sensitively balance its interaction with surrounding uses such as the Adelaide Zoo, Adelaide Botanic Garden and the Adelaide Park Lands (c) minimises uses or activities that would alienate the area from public usage (d) provides opportunities for tourism, education, research, informal recreation and cultural enjoyment (e) improves pedestrian links through the area, and improve the public realm and use and enjoyment of the Adelaide Park Lands (f) provides greater exposure and accessibility for the Adelaide Botanic Garden and North Terrace frontage.	DTS/DPF 4.2 None are applicable.
PO 4.3 Boundary treatments with the Adelaide Botanic Garden are of an open and transparent nature with the use of design features, fencing, landscaping treatments that integrate with the open space setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Existing open space at the northern end of the Innovation Subzone (as shown on Innovation Subzone Concept Plan) is maintained to provide : (a) a pedestrian link between Frome Road and the Adelaide Botanic Gardens (b) a continuation of the open vista from the Adelaide Botanic Gardens through to the heritage listed Barr Smith Library within the grounds of the Adelaide University.	DTS/DPF 4.4 None are applicable
Movement and parking	
PO 5.1 Development incorporates the connection of the Adelaide Park Lands Trail between the Adelaide Park Lands and North Terrace within the area identified as Public Space and Park Lands Trail on the Innovation Subzone Concept Plan, and: (a) provides a safe, welcoming, connected and convenient experience for people walking and cycling (b) supports interaction with the variety of Park Lands landscapes and activities, including a high amenity interface with the Adelaide Botanic Gardens and buildings within the cultural precinct (c) creates a natural Park Lands experience that blends the edge between the site and Botanic Garden (d) minimises the length of the trail adjacent to a public road.	DTS/DPF 5.1 None are applicable.
PO 5.2 Where parking for multiple cars is provided, it: (a) is not located at ground floor street frontages or detract from the provision of active street frontages (b) minimises the extent of parking that is visible from public areas to that which is required for emergency service vehicles, temporary event parking and set down (drop off) functions (c) incorporates façade treatments where located along major street frontages or interfacing with the Adelaide Park Lands or Botanic Garden, with the built form sufficiently enclosed and detailed to complement neighbouring buildings and screen vehicle parking from view from public areas and other buildings (d) is comprehensively integrated with high quality landscaping that includes large trees (e) is ancillary to an approved or existing use.	DTS/DPF 5.2 None are applicable.
Advertising	
PO 6.1 Advertisements use simple graphics and be restrained in their size, design and colour.	DTS/DPF 6.1 None are applicable.
PO 6.2 In minor streets and laneways, a greater diversity of type, shape, numbers and design of advertisements are appropriate provided they are of a small-scale and located to present a consistent message band to pedestrians.	DTS/DPF 6.2 None are applicable.

Coastal Waters and Offshore Islands Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection and enhancement of the natural marine and coastal environment and recognition of it as an important ecological, commercial, tourism and recreational resource and passage for safe watercraft navigation.
DO 2	A limited number of small-scale, low-impact developments supporting conservation, navigation, science, recreation, tourism, aquaculture or carbon storage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Small-scale, low-impact development for the purpose of conservation, navigation, science, recreation, tourism or aquaculture.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Aquaculture (d) Boat berth (e) Campground (f) Dwelling alterations or additions (g) Farming (h) Jetty (i) Navigation structures, boat berth, pier, pontoon or similar structure (j) Public amenities (k) Renewable energy facility.
Development on off-shore islands	

PO 2.1 Islands that are isolated from the mainland are not developed for residential development until the appropriate level of infrastructure, hazard protection and environmental management is in place.	DTS/DPF 2.1 None are applicable.
PO 2.2 Farming activities on offshore islands occur on already cleared land and outside of areas containing native vegetation, coastal dunes and wetlands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Small-scale tourist accommodation on offshore islands such as camping grounds, huts and cabins avoids delicate or environmentally sensitive areas.	DTS/DPF 2.3 None are applicable.
PO 2.4 Renewable energy facilities and ancillary development do not impact on the scenic quality of the coast and islands.	DTS/DPF 2.4 None are applicable.
PO 2.5 Small-scale ground-mounted solar power facilities on islands to service existing approved development on the same land.	DTS/DPF 2.5 Solar power facilities satisfy all of the following: (a) do not generate more than 30KW (b) generate power which is to be used wholly in association an approved land use (c) are set back at least 10m from adjoining allotments in other ownership (d) are not located within 100m of a dwelling in other ownership.
PO 2.6 Offshore recreational pontoons avoid seagrass and are safely secured.	DTS/DPF 2.6 Offshore recreational pontoons satisfy all of the following: (a) are not fixed to the shoreline or to any other structure (b) are not located over seagrass (c) include anchors designed to withstand seasonal wave conditions.
Environmental Protection	
PO 3.1 Development is undertaken in a manner which minimises the potential for harm to the marine and coastal environment or to fisheries and aquaculture, including harm arising from actions that introduce a biosecurity risk.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development avoids pollution (including turbidity and sedimentation) ,shading and effects on water flows harming the marine environment both inside and outside of the zone.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development avoids important nesting or breeding areas and areas that are important for the movement/migration patterns of fauna.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development avoids delicate or environmentally sensitive coastal areas and key habitat areas within and adjacent offshore islands such as sand dunes, cliff tops, estuaries, wetlands, mangroves and samphire areas.	DTS/DPF 3.4 None are applicable.
PO 3.5 Offshore development is sited to minimise potential impacts on, and to protect the integrity of, reserves under the *National Parks and Wildlife Act 1972* and the *Marine Parks Act 2007*.	DTS/DPF 3.5 Offshore development is located not less than 1km from the boundary of any reserve under the *National Parks and Wildlife Act 1972*, unless a lesser distance is agreed with the Minister responsible for that Act.
Built Form and Character	
PO 4.1 Development on offshore islands is sited and designed unobtrusively to minimise the visual impact on the natural environment by: (a) using low-reflective materials and finishes that blend with, and colours that complement, the surrounding landscape (b) being located below hilltops and ridgelines (c) being screened by existing vegetation.	DTS/DPF 4.1 None are applicable.
Land Division	
PO 5.1 Land division on offshore islands supports the management or improvement of the natural environment including avoiding: (a) further fragmentation of land that may reduce effective management of the environment (b) parcel arrangements that increase direct property access to waterfront areas.	DTS/DPF 5.1 Land division on offshore islands achieves (a) and (b): (a) does not create any additional allotments (b) boundary realignments do not result in any additional allotments with frontage or direct access to the coast and will satisfy one of the following: (i) is for the creation of a public road or a public reserve (ii) is to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures (iii) is for the management of existing native vegetation.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Private bushfire shelter Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: 10. if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling 11. in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Recreational pontoon	Development on off-shore islands DTS/DPF 2.6	None	None	None
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) building work on railway land (e) carport (f) deck (g) dwelling alterations or additions (h) farming (i) fence (j) internal building works (k) navigation structures, boat berth, pier, pontoon or similar structure (or any combination thereof) (l) land division (m) outbuilding (n) pergola (o) private bushfire shelter (p) protective tree netting structure (q) public amenities (r) recreational pontoon (s) replacement building (t) retaining wall (u) shade sail (v) solar photovoltaic panels (roof mounted) (w) swimming pool or spa pool and associated swimming pool safety features (x) tree damaging activity (y) temporary accommodation in an area affected by bushfire (z) verandah (aa) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Coastal Waters and Offshore Islands Zone.	
Placement of Notices - Exemptions for Restricted Development	

Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Coastal Waters and Offshore Islands Zone.

Commonwealth Facilities Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating nationally significant aviation and defence-related activities. **NOTE**: Land in the zone is subject to Commonwealth laws where development may occur without the need for an approval under the *Planning, Development and Infrastructure Act 2016*. In circumstance where a class of development is proposed that is subject to state planning laws, the development is subject to assessment against the Planning and Design Code.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Commonwealth aviation and defence-related development and complementary activities.	DTS/DPF 1.1 None are applicable.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.

Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Replacement building Except where any of the following apply:	None	None	None	None

• Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay				
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
None specified.	None specified.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Community Facilities Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a range of community, educational, recreational and health care facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community, educational, recreational and / or health care services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Cemetery (b) Child care facility (c) Community facility (d) Consulting room (e) Educational facility (f) Emergency services facility (g) Health care facility

	(h) Hospital (i) Indoor recreation facility (j) Library (k) Office associated with community service (l) Place of worship (m) Recreation area (n) Shop
PO 1.2 Shops including restaurants are of a scale that is subordinate to the principal community use of land.	DTS/DPF 1.2 Shop gross leasable floor area does not exceed 250m^2.
PO 1.3 Offices are of a scale that is subordinate to the principal community use of land.	DTS/DPF 1.3 Office gross leasable floor area does not exceed 250m^2.
PO 1.4 Integration and coordination of land uses to enhance the accessibility and efficiency of service delivery.	DTS/DPF 1.4 None are applicable.
PO 1.5 Development avoids inhibiting or prejudicing future delivery of community, educational, recreational or health care services.	DTS/DPF 1.5 None are applicable.
PO 1.6 Community facilities are designed to encourage flexible and adaptable use of open space and facilities for a range of uses over time.	DTS/DPF 1.6 None are applicable.
PO 1.7 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.7 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height and Setbacks	
PO 2.1 Building height is consistent with the maximum height expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer and the Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally consistent with the prevailing character of the locality and height of nearby buildings.	DTS/DPF 2.1 Other than on a Catalyst site in the St Andrews Hospital Precinct Subzone, development does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 5 levels Maximum building height is 6 levels Maximum building height is 14 levels **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 8.2m Maximum building height is 9m Maximum building height is 10m Maximum building height is 11.5m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 15m Maximum building height is 18m Maximum building height is 18.5m Maximum building height is 43m In relation to DTS/DPF 2.1, in instances where: (a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 2.2 Buildings mitigate the visual impacts of massing on residential development within a neighbourhood-type zone.	DTS/DPF 2.2 Except in the St Andrews Hospital Precinct Subzone and the part of the WHC and Memorial Hospital Precinct Subzone north of Kermode Street, buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): PO 2.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 2.3 Buildings on sites with a southern boundary adjoining the an allotment boundary used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary):

PO 2.4 Buildings are set back from all boundaries (other than street boundaries) to minimise impacts on neighbouring residential properties, including access to natural light and ventilation	DTS/DPF 2.4 Buildings are set back a minimum 3m from all boundaries where the subject land abuts an allotment used for residential purposes, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.
PO 2.5 Buildings on an allotment fronting a road that is not a State Maintained Road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 2.5 None are applicable.
Advertisements	
PO 3.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 3.1 Freestanding advertisements satisfy all of the following: (a) do not exceed 2m in height (b) do not have a sign face that exceeds 2m^2 per side.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 71 - Hamley Bridge Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 90 - Residential - Gardner St, Littlehampton Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 156 - Precinct 202 In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Educational facility Except where any of the following apply: • Hazards (Bushfire - High Risk) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Development comprises the construction, alteration of, or addition to, a classroom or other covered outdoor educational area within the area of an existing educational facility. 2. The building does not exceed 1 building level. 3. The building is setback at least 3m from any boundary. 4. The floor area of the building does not exceed 200m^2. 5. The building will not result in fewer vehicular parks on the site and off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1

				State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) community facility (d) educational facility (e) protective tree netting structure (f) recreation area.	Except development that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1 or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 2.2 2. Community Facilities Zone DTS/DPF 2.3.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Consulting room.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Office.	Except office that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1, or is on a Catalyst Site in the St Andrews Hospital Precinct Subzone and exceeds the maximum building height in Community Facilities Zone DTS/DPF 2.1 that applies to development not on a Catalyst Site, or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 1.3 2. Community Facilities Zone DTS/DPF 2.2 3. Community Facilities Zone DTS/DPF 2.3.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Shop.	Except shop that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1, or is on a Catalyst Site in the St Andrews Hospital Precinct Subzone and exceeds the maximum building height in Community Facilities Zone DTS/DPF 2.1 that applies to development not on a Catalyst Site, or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 1.2 2. Community Facilities Zone DTS/DPF 2.2 3. Community Facilities Zone DTS/DPF 2.3.
9. Telecommunications facility.	Except telecommunications facility that: 1. is within 50m of a neighbourhood-type zone or 2. exceeds 30m in height or 3. is on a site that is adjacent land to a site (or land) used for residential purposes.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

St Andrews Hospital Precinct Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Accommodating hospital, clinical and health training, and allied research and educational facilities, along with independent medical and allied health facilities, supported by a mix of compatible accommodation and retail activity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community or health care services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Consulting room (c) Dwelling (d) Educational facilities (e) Hospital (f) Office (g) Shop (h) Supported Accommodation
PO 1.2 Small-scale shops, cafés restaurants or kiosks, located at ground or lower building floor levels to increase street level activity facing the Park Lands and service the local community.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development primarily as part of a mixed use building located on the upper floors.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings designed to reduce the apparent bulk of large scale development to contribute to a more intimate and human-scaled environment.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is designed to manage the interface with residential uses in the City Living Zone: (a) in relation to building proportions, massing, and overshadowing (b) by avoiding land uses, or intensity of land uses, that unduly impact residential amenity.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings adjacent to Gilles Street, Vincent Street and St John's Lane are designed to complement the streetscape character regarding scale, massing, siting, composition and form.	DTS/DPF 2.3 None are applicable.
Catalyst Sites	
PO 3.1 Development on a catalyst site is medium to high scale.	DTS/DPF 3.1 None are applicable.
PO 3.2 Catalyst sites should be developed to manage the interface with residential development regarding intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 3.2 None are applicable.
PO 3.3 The scale of development on a catalyst site should respond to its context, particularly the nature of the adjacent land uses and the interface treatments required to address impacts on sensitive uses.	DTS/DPF 3.3 None are applicable.
PO 3.4 Where there is an apparent conflict between the catalyst site provisions and Subzone, provisions (including any quantitative criteria) the catalyst site provisions will take precedence.	DTS/DPF 3.4 None are applicable.
Access	
PO 4.1 Vehicle access, or intensification of access, from South Terrace or Gilles Street where possible.	DTS/DPF 4.1 None are applicable.
PO4.2 Car parking located behind buildings wherever possible.	DTS/DPF 4.2 None are applicable.
Advertisements	
PO5.1 Advertisements are restrained in design, and simple in use of colour to achieve a coherent and complementary appearance.	DTS/DPF 5.1 None are applicable.

WCH and Memorial Hospital Precinct Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of health care and associated facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of health care or health related services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Community facility (c) Consulting room (d) Educational facility (e) Health care facility (f) Hospital (g) Office associated with community service (h) Shop associated with community services
Built Form and Character	
PO 2.1 Development adjoining King William Road (north of Kermode Street) is of a scale and designed to complement the streetscape character along King William Road.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development south of Kermode Street sited and designed to: (a) retain the set back and sense of address and open character to the Park Lands (b) provide a transition down to a low rise scale adjacent to Sir Edwin Smith Drive (c) provide an activated building interface to Kermode Street (d) ensure buildings are sited off of side and rear boundaries and avoid blank walls that will be visible from the surrounding locality	DTS/DPF 2.2 None are applicable.

(e) provide a visually interesting streetscape with buildings having a high level of fenestration, detailing and orientation towards the street (f) minimise visual impact of car parking, vehicle access and egresses by siting any new car parking away from the street frontages.	
Advertisements	
PO 3.1 Advertisements are restrained and discreet in design.	DTS/DPF 3.1 None are applicable.

Neighbourhood Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Community, educational and health care land uses and residential development at medium densities as an alternative land use.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community, educational, recreational and / or health care services.	DTS/DPF 1.1 None are applicable.
PO 1.2 Residential land uses at medium densities that provide an alternative to community, educational and health care facilities in the zone.	DTS/DPF 1.2 Development comprises one or more of the following: (a) dwelling (b) residential flat building
Built Form and Character	
PO 2.1 Buildings designed, sited and of a scale and appearance that complements the character and amenity of adjoining residential areas and buildings of heritage significance.	DTS/DPF 2.1 None are applicable.
PO 2.2 Residential development that incorporates a high standard of architectural and urban design and sustainability.	DTS/DPF 2.2 None are applicable.
PO 2.3 Residential development constructed adjacent to a residential allotment in a neighbourhood-type zone: (a) is of a bulk, height and floor space and provides a site frontage that complements the character and amenity of the locality (b) provides space around buildings to maintain and enhance the predominant character of the locality and provide opportunities for landscaping.	DTS/DPF 2.3 None are applicable.
PO 2.4 In areas where public or common open space would otherwise be deficient, residential development provides open space of a size and area sufficient to meet the recreational and lifestyle needs of residents.	DTS/DPF 2.4 None are applicable.
Building Height	
PO 3.1 Residential buildings of up to 3 storeys in height sufficiently set back from an existing dwelling in the zone, subzone or an adjoining zone to avoid detrimental impact on those dwellings due to the height, scale or bulk of the development.	DTS/DPF 3.1 None are applicable.
Landscaping	
PO 4.1 Development incorporates substantial landscaping of streetscapes and unbuilt spaces.	DTS/DPF 4.1 None are applicable.

Conservation Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The conservation and enhancement of the natural environment and natural ecological processes for their ability to reduce the effects of climate change, for their historic, scientific, landscape, habitat, biodiversity, carbon storage and cultural values and provision of opportunities for the public to experience these through low-impact recreational and tourism development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Small-scale, low-impact land uses that provide for the conservation and protection of the area, while allowing the public to experience these important environmental assets.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Camp ground (c) Farming (d) Public toilet
PO 1.2 Development is primarily in the form of: (a) directional, identification and/or interpretative advertisements and/or advertising hoardings for conservation management and tourist information purposes (b) scientific monitoring structures or facilities (c) a small-scale facility associated with the interpretation and appreciation of natural and cultural heritage such as public amenities, camping grounds, remote shelters or huts (d) structures for conservation management purposes.	DTS/DPF 1.2 None are applicable.
PO 1.3 Farming activities occur on already cleared land and outside of areas containing native vegetation (including revegetated areas lost through bushfire), coastal dunes and wetlands of national importance.	DTS/DPF 1.3 None are applicable.
Land Division	
PO 2.1 Land division supports the management or improvement of the natural environment including avoiding: (a) further fragmentation of land that may reduce effective management of the environment (b) parcel arrangements that increase direct property access to waterfront areas (including access via a public reserve) (c) additional allotments with frontage to the coast or River Murray.	DTS/DPF 2.1 Land division satisfies (a) or (b) and (c): (a) is for the creation of a public road or a public reserve (b) does not create any additional allotments and does not result in any additional allotments with frontage or direct access to the coast or River Murray (including access via a public reserve) (c) will satisfy one of the following: (i) is to remove an anomaly in existing boundaries with respect to the location of existing buildings, structures or vehicle access arrangements (ii) is for the management of existing native vegetation (iii) the resultant allotments are not less than: **Minimum Site Area**

	Minimum Site Area Minimum site area is 10 ha Minimum site area is 100 ha Minimum site area is 1,200 sqm Minimum site area is 2,000 sqm Minimum site area is 2 ha Minimum site area is 20 ha Minimum site area is 200 ha Minimum site area is 40 ha Minimum site area is 600 sqm In relation to DTS/DPF 2.1, in instances where: (d) more than one value is returned in the same field for DTS/DPF 2.1(c)(iii), refer to the *Minimum Site Area Technical and Numeric Variation*, layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (e) no value is returned for DTS/DPF 2.1 (c)(iii) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
Environmental Protection	
PO 3.1 Development avoids important habitat, nesting or breeding areas or areas that are important for the movement/migration patterns of fauna.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development avoids seagrass, mangroves and saltmarshes for their biodiversity value and carbon storage potential.	DTS/DPF 3.2 None are applicable.
Built Form and Character	
PO 4.1 Development is sited and designed unobtrusively to minimise the visual impact on the natural environment by: (a) using low-reflective materials and finishes that blend with, and colours that complement, the surrounding landscape (b) being located below hilltops and ridgelines (c) being screened by existing vegetation.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development is sited and designed to minimise impacts on the natural environment by: (a) containing construction and built form within a tightly defined site boundary (b) minimising the extent of earthworks.	DTS/DPF 4.2 None are applicable.
PO 4.3 Recreation or visitor facilities are located in publicly accessible areas in proximity to existing recreation trails to minimise impact on the natural environment.	DTS/DPF 4.3 None are applicable.
PO 4.4 Development does not obscure existing public views to landscape, river or seascape features and is not visibly prominent from key public vantage points, including public roads or car parking areas.	DTS/DPF 4.4 None are applicable.
Access and Car Parking	
PO 5.1 Vehicle access points are limited to minimise impact on the natural environment.	DTS/DPF 5.1 No more than one vehicle access point is provided to a site, landmark or lookout.
PO 5.2 Roads and vehicle access ways are located to minimise vegetation clearance and are constructed of permeable materials.	DTS/DPF 5.2 None are applicable.
PO 5.3 Roads are of a width and route to encourage low speeds and minimise impact on the natural environment.	DTS/DPF 5.3 None are applicable.
PO 5.4 Recreational trails and access ways are located to direct the public away from sensitive areas to minimise impact on the natural environment.	DTS/DPF 5.4 None are applicable.
PO 5.5 Recreational trails are raised or surfaced with permeable materials to minimise impact on the natural environment.	DTS/DPF 5.5 Pedestrian access ways/recreational trails are raised or constructed of permeable materials.
PO 5.6 Car parking areas are designed to minimise impact on the natural environment.	DTS/DPF 5.6 Car parking areas satisfy all of the following: (a) are constructed of permeable material (b) are located on already legally cleared land (c) are consolidated in one location.
Advertisement	
PO 6.1 Advertisements are limited to those needed for direction, identification and/or interpretation of environmental or cultural values and recreational and tourism facilities.	DTS/DPF 6.1 Advertisements are for one or more of the following: (a) direction (b) identification and interpretation of environmental values (c) identification of recreational and tourism facilities.
PO 6.2 Advertisements are limited in number and size to minimise impact on the visual and natural environment.	DTS/DPF 6.2 The total combined area of advertisement(s) is not greater than $2m^2$ on any one site and no part is greater than 3m in height from natural ground level.
Landscaping	
PO 7.1 Screening and planting are provided to buildings and structures and comprise locally indigenous species to enhance the natural environment.	DTS/DPF 7.1 None are applicable.
Hazard Risk Minimisation	
PO 8.1 Habitable buildings are designed and sited to manage the risks of natural hazards on personal and public safety and property.	DTS/DPF 8.1 None are applicable.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton Concept Plan 74 - Shelley Beach - Kellidie Bay Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 71 - Hamley Bridge Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 9.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use DTS/DPF 1.1 Advertisement DTS/DPF 6.1, DTS/DPF 6.2	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire Except where any of the following apply: • Shack Relocation Subzone	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Shack Relocation Subzone	Land Use PO 1.1, PO 1.2 Environmental Protection PO 3.1, PO 3.2 Advertisement PO 6.1, PO 6.2	Advertisements [Appearance] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5 Advertisements [Proliferation of Advertisements] PO 2.1, PO 2.2, PO 2.3 Advertisements [Advertising Content] PO 3.1 Advertisements [Amenity Impacts] PO 4.1 Advertisements [Safety] PO 5.1, PO 5.2, PO 5.3, PO 5.4, PO 5.5, PO 5.6 Clearance from Overhead Powerlines PO 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] PO 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] PO 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] PO 1.1 Airport Building Heights (Regulated) Overlay [Built Form] PO 1.1 Building Near Airfields Overlay PO 1.3 Character Area Overlay [All Development] PO 1.1 Character Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.5 Character Area Overlay [Ancillary Development] PO 4.3 Character Area Overlay [Context and Streetscape Amenity] PO 6.2 Character Preservation District Overlay [Built Form and Character] PO 2.1, PO 2.2, PO 2.3 Character Preservation District Overlay [Built Form and Character in the Rural Area] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5 Character Preservation District Overlay [Earthworks] PO 4.1 Coastal Flooding Overlay PO 1.1 Defence Aviation Area Overlay [Built Form] PO 1.1 Future Local Road Widening Overlay [Future Road Widening] PO 1.1 Future Road Widening Overlay [Future Road Widening] PO 1.1 Gateway Overlay [Advertisements] PO 4.1 Hazards (Flooding) Overlay [Flood Resilience] PO 3.1, PO 3.2, PO 3.3 Hazards (Flooding) Overlay [Environmental Protection] PO 4.2 Heritage Adjacency Overlay [Built Form] PO 1.1 Historic Area Overlay [All Development] PO 1.1 Historic Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.5 Historic Area Overlay [Ancillary development] PO 4.3

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
All forms of development in the Shack Relocation Subzone	Demolition
Dwelling	Any of the following: (a) detached dwelling in the **Dwelling Subzone** and will not result in more than one dwelling on an allotment (b) detached dwelling that will replace an existing lawfully erected dwelling (including a lawfully erected dwelling which was demolished within the previous 3 years) (c) detached dwelling in the **Small Scale Settlement Subzone** and will not result in more than one dwelling on an allotment.
Land division	Any of the following: (a) land division that satisfies Conservation Zone DTS / DPF 2.1 (b) land division in the **Visitor Experience Subzone** to create an allotment with an area of 5ha or more for existing tourist accommodation

	(c) land division in the **Small Scale Settlement Subzone**.
Renewable energy facility	Any of the following: (a) solar photovoltaic panels (roof or ground mounted) (b) battery storage facility For domestic use (i.e., principally used to supply and/or store electricity to the existing use of land)
Tourist accommodation	Any of the following: (a) tourist accommodation in the **Visitor Experience Subzone** (b) tourist accommodation in a reserve constituted under the *National Parks and Wildlife Act 1972* and the relevant reserve plan of management prepared in accordance with that Act identifies tourist accommodation as an envisaged land use.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	**Exceptions (Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) agricultural building (d) camp ground (e) carport (f) deck (g) dwelling alterations or additions (h) farming (i) fence (j) internal building works (k) land division (l) navigation structures, boat berth, pier, pontoon or similar structure (or any combination thereof) (m) outbuilding (n) pergola (o) private bushfire shelter (p) protective tree netting structure (q) public toilets (r) replacement building (s) retaining wall (t) shade sail (u) solar photovoltaic panels (roof mounted) (v) swimming pool or spa pool and associated swimming pool safety features (w) temporary accommodation in an area affected by bushfire (x) tree damaging activity (y) verandah (z) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Aquaculture and Recreation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Aquaculture, tourism, boating, fishing, recreation and associated facilities located, sited and designed to minimise detrimental impacts on the natural environment including offshore islands, and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Aquaculture, tourism, recreation and other facilities	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Aquaculture (c) Boat Launching Facility (d) Pontoon
PO 1.2 An area for aquaculture grow out facilities and associated infrastructure including boat launching.	DTS/DPF 1.2 None are applicable.
PO 1.3 An area for recreational and tourist related fishing and associated infrastructure including boat launching and a boating channel and mooring basin.	DTS/DPF 1.3 None are applicable.
PO 1.4	DTS/DPF 1.4

Oyster cultivation sites do not exceed a total area (including approved, but not yet developed leases) of 112.5 hectares, with an additional area of two hectares for educational purposes associated with the Cowell Area School.	None are applicable.
PO 1.5 Oyster holding areas are limited to two areas not exceeding 2.5 hectares.	DTS/DPF 1.5 None are applicable.
PO 1.6 Culture of species other than oysters (excluding other filter feeders) is restricted to two 5 hectare lease areas within the north eastern section of Franklin Harbour.	DTS/DPF 1.6 None are applicable.
Environment Protection	
PO 2.1 Development is sited and designed in a manner where adverse impacts on natural features, landscapes, habitats and cultural assets are minimised including avoiding: (a) the need to remove mangroves (b) the creation of turbidity of waters (c) contributing to water toxicity or the creation of algal blooms.	DTS/DPF 2.1 None are applicable.
PO 2.2 Oyster cultivation sites: (a) do not exceed 10 hectares site area per lease (b) do not exceed a stocking rate of 100,000 mature oysters, or their equivalent by weight per hectare (c) are located: (i) at least 100m apart (ii) an adequate distance from townships, to avoid potential pollution and contamination problems and conflicts with users generated by township activities.	DTS/DPF 2.2 None are applicable.

Dwelling Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Replacement dwellings and limited new dwellings minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, l habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Low-scale, low rise residential development.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Single Storey Detached Dwelling (c) Domestic Outbuilding (d) Verandah
Dwellings	
PO 2.1 New dwellings minimise impacts on the environment and do not result in more than one dwelling on an allotment.	DTS/DPF 2.1 Detached dwellings, or dwelling extensions satisfy all of the following: (a) are no closer to a water frontage than the associated existing dwelling (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area (c) do not result in more than one dwelling on an allotment.
PO 2.2 Dwellings are appropriately serviced by essential infrastructure.	DTS/DPF 2.2 Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.
Environment Protection and Hazard Risk Minimisation	
PO 3.1 Replacement dwellings and alterations to existing dwellings result in environmental improvements by: (a) the provision of an approved wastewater system (b) reduced site coverage and/or (c) a reduction of the level of hazard risk.	DTS/DPF 3.1 None are applicable.
Ancillary Structures	
PO 4.1 Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary structures are limited in number and size to minimise impacts on the natural environment.	DTS/DPF 4.2 None are applicable.

Shack Relocation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An area subject to significant coastal hazard risk that is returned to its natural state by the relocation of existing shacks to a location adjacent to the subzone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Demolition of existing shacks.	DTS/DPF 1.1 None are applicable.

Small Scale Settlement Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Limited land division and dwelling opportunities within a conservation area are designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Low-scale residential development and ancillary uses, including the division of land.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Single Storey Detached Dwelling (c) Domestic Outbuilding (d) Land Division (e) Verandah
Dwellings	
PO 2.1 New dwellings minimise impacts on the environment and do not result in more than one dwelling on an allotment.	DTS/DPF 2.1 Detached dwellings, or dwelling extensions satisfy all of the following: (a) are no closer to a water frontage than the associated existing dwelling (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area (c) do not result in more than one dwelling on an allotment.
PO 2.2 Dwellings are appropriately serviced by essential infrastructure.	DTS/DPF 2.2 Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.
PO 2.3 Replacement dwellings and alterations to existing dwellings result in environmental improvements by: (a) the provision of an approved wastewater system (b) reduced site coverage and/or (c) a reduction of the level of hazard risk.	DTS/DPF 2.3 None are applicable.
Land division	
PO 3.1 Land division avoids areas where coastal or river processes occur and is for the creation of allotments required to accommodate dwellings relocated as a result of unacceptable coastal hazard risk.	DTS/DPF 3.1 None are applicable.
PO 3.2 Land division that accommodates an existing lawful dwelling.	DTS/DPF 3.2 None are applicable.
Ancillary Structures	
PO 4.1 Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary structures are limited in number and size to minimise impacts on the natural environment.	DTS/DPF 4.2 None are applicable.

Visitor Experience Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Tourist accommodation within a conservation area complements visitor experiences, and is located, sited and designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 A range of tourism, conservation and recreational land uses that provide an experience to visitors, while minimising environmental impacts.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Tourist accommodation (c) Shop
PO 1.2 Small scale shops that cater for the needs of users and visitors of conservation areas.	DTS/DPF 1.2 Shop with a gross leasable floor area less than 150m^2.
Tourist Accommodation	
PO 2.1 Tourist accommodation avoids delicate or environmentally sensitive areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation *(including regeneration areas of native vegetation lost through bush fire)*	DTS/DPF 2.1 None are applicable.
PO 2.2 Tourist accommodation is sited and designed in a manner that is subservient to the natural environment and where adverse impacts on natural features, landscapes, habitats and cultural assets are avoided.	DTS/DPF 2.2 None are applicable.
PO 2.3 Tourist accommodation and recreational facilities, including associated access ways and ancillary structures are located on cleared or degraded areas or where environmental improvements can be achieved.	DTS/DPF 2.3 None are applicable.
PO 2.4 Tourist accommodation designed to prevent conversion to dwellings through: (a) comprising a minimum of 10 accommodation units (b) clustering of separated individual accommodation units (c) accommodation units being of a size unsuitable for a dwelling (d) functional areas that are generally associated with a dwelling such as kitchens and laundries are excluded from, or physically separated from individual accommodation units, or are of a size unsuitable for a dwelling.	DTS/DPF 2.4 None are applicable.
Land Division	
PO 3.1 Land division for existing tourist accommodation purposes creates allotments of a number and size that will not detrimentally affect the natural environment.	DTS/DPF 3.1 Land division resulting in all allotments being greater than 5ha in area to accommodate an existing tourist accommodation development.
Car parking	
PO 4.1 Parking for tourist accommodation should: (a) comprise a maximum of one space per tourist accommodation unit, plus parking for employees (b) be grouped in one location, unless it can be demonstrated that an alternative arrangement will reduce the impact on the natural environment (c) be located in an area where minimal vegetation clearance is required.	DTS/DPF 4.1 None are applicable.

Deferred Urban Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	To safeguard land for future urban growth.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that is incompatible, prejudicial or detrimental to the orderly and efficient servicing and conversion of the land for future urban growth does not occur.	DTS/DPF 1.1 Development comprising farming (broad acre cropping, grazing) and/or low-intensity animal husbandry.
Built Form and Character	
PO 2.1 Development maintains an open character.	DTS/DPF 2.1 None are applicable
PO 2.2 Buildings are limited to those that: (a) are ancillary to and necessary to support land use activities on the same allotment (b) are for the purposes of public infrastructure.	DTS/DPF 2.2 None are applicable
PO 2.3 Dwellings provide a convenient base for landowners to conduct and manage commercial scale primary production and rural related value adding activities without compromising the continued or future use of the allotment.	DTS/DPF 2.3 Dwellings: (a) are located on an allotment used for and is ancillary to primary production and/or primary production related value-adding activities and (b) will not result in more than one dwelling on an allotment.
Land Division	
PO 3.1 Land division is limited to that which: (a) corrects anomalies in the placement of allotment boundaries with respect to the location of existing buildings or structures or (b) enables the provision of public infrastructure.	DTS/DPF 3.1 Land division for at least one of the following: (a) the alteration of allotment boundaries, where no additional allotments are created (b) the purpose of providing public infrastructure.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 14 - Buckland Park Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 19 - Playford North Infrastructure Concept Plan 21 - Virginia Concept Plan 22 - Virginia Infrastructure Concept Plan 16 - Angle Vale Infrastructure Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 98 - Mallala Concept Plan 92 - Meadows Concept Plan 107 - Proper Bay Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 157 - Port Wakefield Road In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m or (b) filling exceeding a vertical height of 1m and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling 10. No part of the protective tree netting structure will be in the 1956 River Murray Flood Plain as delineated by the SA Property and Planning Atlas.
Shade sail Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Agricultural building Except where any of the following apply: • Character Area Overlay • Character Preservation District Overlay • Coastal Areas Overlay • Gateway Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1, DTS/DPF 8.2 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2 Interface between Land Uses [Activities Generating Noise or Vibration] DTS/DPF 4.1 Transport, Access and Parking [Movement Systems] DTS/DPF 1.4 Transport, Access and Parking [Vehicle Access] DTS/DPF 3.1	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Historic Shipwrecks Overlay [General] DTS/DPF 1.1 Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] DTS/DPF 3.4, DTS/DPF 3.9 Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] DTS/DPF 3.4, DTS/DPF 3.9 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1, DTS/DPF 1.3 River Murray Flood Plain Protection Area Overlay [Built Form and Character] DTS/DPF 5.1 River Murray Flood Plain Protection Area Overlay [Access] DTS/DPF 8.3 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.1, DTS/DPF 1.5

Land division Except where any of the following apply: • Environment and Food Production Area Overlay	Land Division DTS/DPF 3.1	Land Division [All land division [Allotment configuration]] DTS/DPF 1.1	None	Limited Land Division Overlay [General] DTS/DPF 1.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement	None	Advertisements [Appearance] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5 Advertisements [Proliferation of Advertisements] PO 2.1, PO 2.2, PO 2.3 Advertisements [Advertising Content] PO 3.1 Advertisements [Amenity Impacts] PO 4.1 Advertisements [Safety] PO 5.1, PO 5.2, PO 5.3, PO 5.4, PO 5.5, PO 5.6 Clearance from Overhead Powerlines PO 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] PO 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] PO 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] PO 1.1 Airport Building Heights (Regulated) Overlay [Built Form] PO 1.1 Building Near Airfields Overlay PO 1.3 Character Area Overlay [All Development] PO 1.1 Character Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.5 Character Area Overlay [Ancillary Development] PO 4.3 Character Area Overlay [Context and Streetscape Amenity] PO 6.2 Character Preservation District Overlay [Built Form and Character] PO 2.1, PO 2.2, PO 2.3 Character Preservation District Overlay [Built Form and Character in the Rural Area] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5 Character Preservation District Overlay [Earthworks] PO 4.1 Coastal Flooding Overlay PO 1.1 Defence Aviation Area Overlay [Built Form] PO 1.1 Future Local Road Widening Overlay [Future Road Widening] PO 1.1 Future Road Widening Overlay [Future Road Widening] PO 1.1 Gateway Overlay [Advertisements] PO 4.1 Hazards (Flooding) Overlay [Flood Resilience] PO 3.1, PO 3.2, PO 3.3 Hazards (Flooding) Overlay [Environmental Protection] PO 4.2 Heritage Adjacency Overlay [Built Form] PO 1.1 Historic Area Overlay [All Development] PO 1.1 Historic Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.5 Historic Area Overlay [Ancillary development] PO 4.3 Historic Area Overlay [Context and Streetscape Amenity] PO 6.2 Historic Area Overlay [Ruins] PO 8.1 Local Heritage Place Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7 Local Heritage Place Overlay [Alterations and Additions] PO 2.1, PO 2.2 Local Heritage Place Overlay [Ancillary Development] PO 3.3 Native Vegetation Overlay [Environmental Protection] PO 1.1, PO 1.2, PO 1.4 Non-Stop Corridors Overlay [Non-Stop Corridor Overlay] PO 1.1 Scenic Quality Overlay [Land Use and Intensity] PO 1.1 Scenic Quality Overlay [Built Form and Character] PO 2.1 Significant Landscape Protection Overlay [Land Use and Intensity] PO 1.1 Significant Landscape Protection Overlay [Built Form and Character] PO 2.1, PO 2.2

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) carport (e) deck (f) farming (g) fence (h) internal building works (i) land division (j) outbuilding (k) pergola (l) private bushfire shelter	None specified.

(m) protective tree netting structure (n) replacement building (o) retaining wall (p) shade sail (q) solar photovoltaic panels (roof mounted) (r) swimming pool or spa pool and associated swimming pool safety features (s) temporary accommodation in an area affected by bushfire (t) tree damaging activity (u) verandah (v) water tank.	
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Employment Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A diverse range of low-impact light industrial, commercial and business activities that complement the role of other zones accommodating significant industrial, shopping and business activities.
DO 2	Distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of employment-generating light industrial, service trade, motor repair and other compatible businesses servicing the local community that do not produce emissions that would detrimentally affect local amenity.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Consulting room (c) Indoor recreation facility (d) Light industry (e) Motor repair station (f) Office (g) Place of worship (h) Research facility (i) Retail fuel outlet (j) Service trade premises (k) Shop (l) Store (m) Telecommunications facility (n) Training facility (o) Warehouse.
PO 1.2 Shops provide convenient day-to-day services and amenities to local businesses and workers, support the sale of products manufactured on-site and otherwise complement the role of Activity Centres.	DTS/DPF 1.2 Shop where one of the following applies: (a) with a gross leasable floor area up to 100m^2 (b) is a bulky goods outlet (c) is a restaurant (d) is ancillary to and located on the same allotment as an industry and primarily involves the sale by retail of goods manufactured by the industry.
PO 1.3 Telecommunication facilities located to mitigate impacts on visual amenity in residential areas.	DTS/DPF 1.3 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and (b) no closer than 50m to a neighbourhood-type zone.
PO 1.4 Bulky good outlets and standalone shops are located to provide convenient access.	DTS/DPF 1.4 Bulky goods outlets and standalone shops are located on sites with a frontage to a State Maintained Road.
Built Form and Character	
PO 2.1 Development achieves distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.	DTS/DPF 2.1 None are applicable.
PO 2.2 Building facades facing a boundary of a zone primarily intended to accommodate residential development, public roads, or public open space incorporate design elements to add visual interest by considering the following: (a) using a variety of building finishes (b) avoiding elevations that consist solely of metal cladding (c) using materials with a low reflectivity (d) using techniques to add visual interest and reduce large expanses of blank walls including modulation and incorporation of offices and showrooms along elevations visible to a public road.	DTS/DPF 2.2 None are applicable.
Building height and setbacks	
PO 3.1 Buildings are set back from the primary street boundary to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m

	There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. | 5m For the purposes of **DTS/DPF 3.2:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.2 Buildings are set back from a secondary street boundary to accommodate the provision of landscaping between buildings and the street to enhance the appearance of land and buildings when viewed from the street.	DTS/DPF 3.2 Building walls are no closer than 2m to the secondary street boundary.
PO 3.3 Buildings are set back from rear access ways to provide adequate manoeuvrability for vehicles to enter and exit the site.	DTS/DPF 3.3 Building walls are set back from the rear access way: (a) where the access way is 6.5m wide or more, no requirement (b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.
PO 3.4 Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.	DTS/DPF 3.4 Building walls are set back at least 3m from at least one side boundary, unless an alternative means for vehicular access to the rear of the site is available.
PO 3.5 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally low-rise to complement the established streetscape and local character.	DTS/DPF 3.5 Building height is not greater than: (a) the following: **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 6 levels Maximum building height is 7 levels **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 10m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 18m Maximum building height is 22m Maximum building height is 24.5m (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m. In relation to DTS/DPF 3.5, in instances where: (c) more than one value is returned in the same field for DTS/DPF 3.5(a) refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.6 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.6 Buildings are constructed within a building envelope provided by a 45 degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram, except where the relevant boundary is a southern boundary or where this boundary is the street boundary. PO 3.7 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.7 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary):

	PO 3.8 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.8 None are applicable.
Site Dimensions and Land Division	
PO 4.1 Land division creates allotments that vary in size and are suitable for a variety of commercial and business activities.	DTS/DPF 4.1 Allotments: (a) connected to an approved common wastewater disposal service have an area of 1250m^2 or more and a frontage width of 20m or more (b) that will require the disposal of wastewater on-site have an area of 2000m^2 or more and a frontage width of 20m or more.
Landscaping	
PO 5.1 Landscaping is provided to enhance the visual appearance of development when viewed from public roads and thoroughfares.	DTS/DPF 5.1 Other than to accommodate a lawfully existing or authorised driveway or access point, or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site: (a) where a building is set back less than 3m from the street boundary - 1m wide or the area remaining between the relevant building and the street boundary where the building is less than 1m from the street boundary or (b) in any other case - at least 1.5m wide.
PO 5.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 5.2 Landscape areas comprise: (a) not less than 10 percent of the site and (b) a dimension of at least 1.5m.
Advertisements	
PO 6.1 Freestanding advertisements are not visually dominant within the locality.	DTS/DPF 6.1 Freestanding advertisements: (a) do not exceed 6m in height above natural ground level and (b) do not have a face that exceeds 8m^2.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 70 - Mount Gambier Northern Gateway Concept Plan 73 - Port Vincent Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 11 - Munno Para Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 21 - Virginia Concept Plan 71 - Hamley Bridge Concept Plan 16 - Angle Vale Infrastructure Concept Plan 50 - Roseworthy Town Expansion Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 87 - Hindmarsh Road Concept Plan 99 - Two Wells Concept Plan 98 - Mallala Concept Plan 95 - Kingsford Regional Estate Concept Plan 94 - Old Reynella Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 114 - Totness Concept Plan 157 - Port Wakefield Road Concept Plan 160 - Concordia Growth Area: Basic Infrastructure Concept Plan 161 - Concordia Growth Area: Land Use Concept Plan 168 - Golden Grove Stage 2 Concept Plan 172 - Port Wakefield Concept Plan 175 - Smithfield Regeneration In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply:	1. The fence is formed (wholly or partially) from brush

• Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not include temporary stockpiling or storage of material or equipment over a designated stockpiling area that is larger than 100m^2 where located within the Tunnel Protection Overlay 6. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1
Temporary accommodation in an area affected by bushfire	None	None	None	Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a bulky goods outlet (c) shop that is ancillary to a light industry on the same allotment (d) shop located in the Retail Activity Centre Subzone (e) shop located in the Roadside Service Centre Subzone.
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) temporary public service depot.	Except development that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or does not satisfy any of the following: 1. Employment Zone DTS/DPF 3.6 2. Employment Zone DTS/DPF 3.7.
3. Any development involving any of the following (or of any combination of any of the following): (a) consulting room	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.

(b) light industry (c) office (d) motor repair station (e) retail fuel outlet (f) store (g) warehouse.	
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Building for the purposes of railway activities.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
9. Shop within any of the following: (a) Retail Activity Centre Subzone (b) Roadside Service Centre Subzone.	Except shop that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or does not satisfy any of the following: 1. Employment Zone DTS/DPF 3.6 2. Employment Zone DTS/DPF 3.7.
10. Shop.	Except: 1. where the site of the shop is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone or 2. shop that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or 3. shop that does not satisfy Employment Zone DTS/DPF 1.2.
11. Telecommunications facility.	Except telecommunications facility that does not satisfy Employment Zone DTS/DPF 1.3.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Roadside Service Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of services and facilities to cater for the needs of road users, particularly on long journeys.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use and Intensity	
PO 1.1 Roadside service centres provide integrated services and facilities to encourage road users, particularly on the state's highways, to stop and take an effective break in the interests of driver safety.	DTS/DPF 1.1 Development comprises a retail fuel outlet and any of the following uses: (a) Advertisement (b) Electric vehicle recharging station (c) Emergency services facilities (d) Marshalling yard for heavy vehicles (e) Playground (f) Public amenities, including toilets, showers and washrooms (g) Restaurant (h) Rest facilities for drivers (i) Shop with a gross leasable floor area up to 250m^2 (j) Telecommunications facilities (k) Tourist information centre (l) Wastewater dump point for recreational vehicles.
Built form and Character	
PO 2.1 Integrated roadside service centres are clearly visible from the adjoining roadway, well lit and clearly signposted to promote safe access from the highway without being so prominent so as to adversely impact on the landscape character of the locality.	DTS/DPF 2.1 None are applicable.
PO 2.2 Integrated roadside service centres comprise a unified architectural design with building material, colour and the layout of buildings to address the visual context of the locality.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development of an integrated roadside service centre provides safe and convenient access to and from the adjoining road network for all vehicles up to and including the largest vehicle type expected to access the site.	DTS/DPF 2.3 None are applicable.
PO 2.4 Integrated roadside service centres are designed to provide a layout that is simple, understandable and accessible for drivers and cater for separation of heavy and light vehicles.	DTS/DPF 2.4 None are applicable.
PO 2.5	DTS/DPF 2.5

Integrated roadside service centres encourage slow internal vehicular traffic speeds for the safety of motorists and pedestrians.	The internal vehicular traffic speeds do not exceed 20 km/h.
Building Setbacks	
PO 3.1 Buildings and structures are set back from public roadways to reduce their visual dominance and maintain an open character to the entrance to townships.	DTS/DPF 3.1 Buildings and structures, excluding freestanding advertisements, are setback at least 25m from any adjoining roadway.
Fencing	
PO 4.1 Fencing associated with an integrated roadside service centre comprises traditional post and wire fencing except where required to screen service areas from public view.	DTS/DPF 4.1 None are applicable.
Landscaping	
PO 5.1 Integrated roadside service centres provide a strip of landscaping of a minimum of 5m wide along road frontages to enhance the appearance of land and buildings while providing safe driver sightlines.	DTS/DPF 5.1 None are applicable.
PO 5.2 Development of a roadside service centre provides landscaping around buildings and to separate driveways.	DTS/DPF 5.2 None are applicable.
Advertisements	
PO 6.1 A multi-tenancy freestanding pylon advertisement identifies available services and facilities to support early driver recognition of, and safe navigation in to, an integrated roadside service centre from roads with high vehicular traffic speeds (ie at least 80km/h).	DTS/DPF 6.1 One multi-tenancy pylon sign is erected in association with an integrated roadside service centre that satisfies all of the following: (a) does not exceed 12m in height above natural ground level (b) does not have a face that exceeds $8m^2$ (c) only identifies the primary integrated roadside service centre facility and individual tenancies.
PO 6.2 Freestanding advertisements, other than a multi-tenancy pylon advertisement, are not visually dominant within the locality.	DTS/DPF 6.2 Individual freestanding advertisements for individual tenancies satisfy all of the following: (a) do not exceed 6m in height above natural ground level (b) do not have a face that exceeds $8m^2$ (c) are sited a minimum distance of 20m from each other and from any adjoining road reserves.
PO 6.3 Advertisements relating to services and facilities associated with an integrated roadside service centre do not dominate the buildings to which they relate and are: (a) integrated with the design of buildings (b) not located above the roofline of any building or refuelling area canopy.	DTS/DPF 6.3 None are applicable.

Retail Activity Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Specialist activity centres that comprise large format retail and commercial activities which complement the principal land uses desired in the zone and the role of other zones accommodating significant shopping, business and commercial activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Large format retail and commercial activities, including indoor recreation and leisure facilities, of a scale that caters for demand.	DTS/DPF 1.1 Development comprises one or more of the following land uses: (a) Indoor recreation facility (b) Leisure and entertainment facility (c) Service trade premises (d) Shop.
PO 1.2 Contemporary retail opportunities provided at larger scales.	DTS/DPF 1.2 None are applicable.
PO 1.3 Shops, including supermarkets, restaurants and cafes, designed and sited to be complementary to established land uses and of appropriate scale to cater for demand.	DTS/DPF 1.3 None are applicable.
PO 1.4 Indoor recreation and leisure facilities that complement retail and commercial activities.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Development takes the form of large buildings which are well designed, articulated and of a scale which respects adjoining land uses.	DTS/DPF 2.1 None are applicable.

Employment (Bulk Handling) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Agricultural and other commodities are received, stored and dispatched in bulk to generate wealth and employment for the state.
DO 2	A pleasant visual amenity when viewed from adjacent arterial roads, adjoining zones, and entrance ways to towns, settlements and cities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily in the form of facilities for the handling and storage of bulk commodities to enhance economic activity and supply chain efficiencies.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Bulk handling facility including bunkers and silos for the reception, storage and dispatch of commodities in bulk (c) Office in association with a facility for the reception, storage and dispatch of commodities in bulk (d) Store (e) Telecommunications facility (f) Truck parking area.
PO 1.2 Value-adding industries, including the processing and packaging of commodities, that complement facilities for the reception, storage and dispatch of agricultural and other commodities in bulk to enhance the use of the zone and support local job opportunities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Office associated with and ancillary to facilities for the handling and storage of bulk commodities to support the management and operational aspects of	DTS/DPF 1.3 Freestanding advertisements:

those facilities.	(a) do not exceed 6m in height above natural ground level and (b) do not have a face that exceeds 8m^2.
PO 1.4 Telecommunication facilities located to mitigate impacts on visual amenity in residential areas.	DTS/DPF 1.4 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and (b) no closer than 50m to a neighbourhood-type zone.
Land Division	
PO 2.1 Land division that creates allotments that are of a size and shape suitable for bulk handling and complementary uses.	DTS/DPF 2.1 None are applicable.
Fencing	
PO 3.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.	DTS/DPF 3.1 Fencing exceeding 2.1m in height satisfies one of the following: (a) located behind a façade of an associated building located on the same site (b) located behind a landscaped area along relevant street frontages (c) consists of visually permeable materials with landscaping behind.
Advertisements	
PO 4.1 Freestanding advertisements do not create a visually dominant element within the locality.	DTS/DPF 4.1 Freestanding advertisements: (a) up to 4m in height from natural ground level and (b) with a sign face up to 6m^2 per side.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 50 - Roseworthy Town Expansion Concept Plan 99 - Two Wells Concept Plan 98 - Mallala In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve-

	(a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding $15m^2$ 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Coastal Areas Overlay [Hazard Risk Minimisation]
PO 2.1, PO 2.2, PO 2.3, PO 2.4

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.3, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1, PO 1.2

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1, PO 1.3

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscape Amenity]
PO 2.1

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1, PO 3.2

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.1, PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding – General) Overlay [Environmental Protection]
PO 3.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Hazards (Flooding - Evidence Required) Overlay [Environmental Protection]
PO 2.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Alterations and additions]
PO 3.1, PO 3.2

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Local Heritage Place Overlay [Built Form]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) carport (d) deck (e) fence (f) internal building works (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) bulk handling facility (b) store (c) telecommunications facility (d) truck parking area.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
7. Office.	Except: 1. where the site of the office is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone or 2. office that does not satisfy Employment (Bulk Handling) Zone DTS/DPF 1.3.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	

Placement of Notices - Exemptions for Restricted Development
None specified.

Employment (Enterprise) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of industrial, warehousing, storage, and service activities with compatible business activities generating wealth and employment for the state.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development for a range of land uses that may generate emissions including general industry, warehouse, transport distribution and the like supplemented by other compatible development so as not to unduly impede the use of land in other ownership in the zone for employment-generating land uses.	DTS/DPF 1.1 Development (other than where a referral is required under Part 9 - Referrals of the Planning and Design Code) comprises one or more of the following: (a) Advertisement (b) Aerodrome (c) Automotive collision repair (d) Builder's yard (e) Electricity substation (f) Fuel depot (g) General industry (h) Light Industry (i) Motor repair station (j) Office (k) Public service depot (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Transport distribution facility (q) Telecommunications facility (r) Warehouse (s) Workers' accommodation
PO 1.2 Shops catering to the surrounding workforce and residents within workers' accommodation enhances the amenity of the zone for those workers.	DTS/DPF 1.2 Shop (other than a bulky goods outlet) comprising any of the following: (a) shop with a gross leasable floor area up to 450m^2 (b) shop that is a restaurant.
PO 1.3 Office associated with and ancillary to another land use contemplated in the zone to support the management and administrative aspects of those business activities.	DTS/DPF 1.3 Office ancillary to and located on the same allotment as another land use identified in DTS/DPF 1.1.
PO 1.4 Development provides space adjacent to and around buildings to accommodate areas for the manoeuvring, loading / unloading and parking of vehicles, storage of waste and landscaping to enhance local amenity and mitigate interrupting the operation of and safety on public roads and thoroughfares.	DTS/DPF 1.4 The total roofed area of all existing and proposed buildings on the allotment or lease area does not exceed 50%.
PO 1.5 Telecommunication facilities are located to mitigate impacts on visual amenity on residential areas.	DTS/DPF 1.5 Telecommunications facility in the form of a monopole, tower or mast: (a) up to a height of 30m and (b) no closer than 50m to neighbourhood-type zone.
PO 1.6 Workers' accommodation provided to support major industrial, mining and business activities to facilitate economic activity.	DTS/DPF 1.6 Workers' accommodation in connection with a resource extraction operation: (a) is constructed by the principal operator of the mine or authorised agent thereof and (b) primarily accommodates workers for the relevant mine.
Land Division	
PO 2.1 Land division creates allotments of a size and shape suitable for a range of industrial, transport, warehouse and similar or complementary land uses that support employment generation.	DTS/DPF 2.1 Allotments: (a) connected to an approved common waste water disposal service, have an area of 1000m^2 or more and a frontage width of 20m or more. (b) involving the disposal of waste water on-site, have an area of 1500m^2 or more and a frontage width of 20m or more.
PO 2.2 Land division is designed to: (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.	DTS/DPF 2.2 None are applicable.
Built Form and Character	
PO 3.1 Buildings use materials and finishes complement the landscape and mitigate the effects of glare on adjacent land users.	DTS/DPF 3.1 Buildings are clad in any of the following or a combination thereof: (a) materials other than sheet metal (b) if sheet metal is used it is pre-colour treated or painted in a non-reflective colour.
PO 3.2 Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.	DTS/DPF 3.2 Buildings set back 3m or more from at least one side boundary.
Landscaping	
PO 4.1 Landscaping is provided along public roads, thoroughfares and zone boundaries to enhance the visual appearance of development and soften the impact of large buildings when viewed from public spaces and adjacent land outside the zone.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following: (a) 3m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) 1.5m wide fronting a public road or thoroughfare within the zone (and not on the perimeter of the zone) (c) 1.5m wide along any boundary on the perimeter of the zone not fronting a public road or thoroughfare.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise: (a) not less than 10 percent of the site area and (b) a dimension of at least 1.5m.
Fencing	
PO 5.1	DTS/DPF 5.1

Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.	Fencing exceeding 2.1m in height: (a) is located behind a façade of an associated building located on the same site or (b) is located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Advertisements	
PO 6.1 Freestanding advertisements do not create a visually dominant element within the locality.	DTS/DPF 6.1 Freestanding advertisements: (a) do not exceed 6m in height and (b) do not have a sign face exceeding 8m^2 per side.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Partial demolition of a building or structure	None
Shade sail	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. The area occupied by the system plus the total roofed area of all existing and proposed buildings on the site will not exceed 50% 4. No part of the system: (a) is more than 4 metres in height (measured as a height above the natural surface of the ground); (b) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 5. The generating capacity of the system does not exceed 30 kW 6. Does not result in the clearance of any native vegetation.
Solar photovoltaic panels (roof mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. The tank is located wholly above ground 5. The total roofed area of all existing and proposed buildings on the site will not exceed 50% 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 8. Does not involve the clearance of native vegetation.
Water tank (underground)	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement	Advertisements DTS/DPF 6.1	Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2 Clearance from Overhead Powerlines DTS/DPF 1.1 Advertisements [Safety] DTS/DPF 5.5, DTS/DPF 5.4, DTS/DPF 5.3, DTS/DPF 5.2, DTS/DPF 5.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Advertising Content] DTS/DPF 3.1	None	Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a bulky goods outlet (c) shop that is ancillary to an industry on the same allotment (d) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) automotive collision repair (d) builder's yard (e) carport (f) deck (g) fence (h) internal building works (i) light industry (j) land division (k) motor repair station (l) office (m) outbuilding (n) pergola (o) private bushfire shelter (p) replacement building (q) retaining wall (r) plant nursery (s) public service depot (t) service trade premises (u) shade sail (v) solar photovoltaic panels (roof mounted) (w) store (x) swimming pool or spa pool and associated swimming pool safety features (y) temporary accommodation in an area affected by bushfire (z) verandah (aa) warehouse (ab) water tank (ac) workers' accommodation.	None specified.
3. Aerodrome.	Except aerodrome within the Light Industry Subzone.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. General industry.	Except general industry within the Light Industry Subzone.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

8. Shop within the Light Industry Subzone.	Except shop that does not satisfy Light Industry Subzone DTS/DPF 1.2.
9. Shop.	Except shop that does not satisfy Employment (Enterprise) Zone DTS/DPF 1.2.
10. Telecommunications facility.	Except telecommunications facility that does not satisfy Employment (Enterprise) Zone DTS/DPF 1.5.
11. Transport distribution facility.	Except transport distribution facility within the Light Industry Subzone.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Light Industry Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of light industrial and other business activities that complement the role of other zones that provide a focus for shopping, administrative, civic and community activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use and Intensity	
PO 1.1 A range of employment generating light industrial and compatible commercial businesses servicing the local community that do not produce objectionable emissions.	DTS/DPF 1.1 Development comprises one or more of the land uses: (a) Light industry (b) Motor repair station (c) Public service depot (d) Retail fuel outlet (e) Service trade premises (f) Shop (g) Store (h) Warehouse (i) Waste transfer station.
PO 1.2 Shops provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products manufactured on-site to supplement business activities and support local employment.	DTS/DPF 1.2 Shop that meets any one of the following: (a) has a gross leasable floor area not exceeding 100m^2 (b) it is ancillary to and located on the same allotment as a light industry (c) it is a bulky goods outlet and has a gross leasable floor area exceeding 250m^2.
PO 1.3 Office associated with and ancillary to another land use contemplated in the subzone to support the management and operational aspects of business activities.	DTS/DPF 1.3 Office: (a) located on the same allotment as a land use identified in Light Industry Subzone DTS/DPF 1.1 and (b) with a gross leasable floor area up to 100m^2

Established Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A neighbourhood that includes a range of housing types, with new buildings sympathetic to the predominant built form character and development patterns.
DO 2	Maintain the predominant streetscape character, having regard to key features such as roadside plantings, footpaths, front yards, and space between crossovers.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential activities compatible with the established development pattern of the neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Community facility (c) Consulting room (d) Dwelling (e) Office (f) Recreation area (g) Shop.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 30% of the total floor area of the associated dwelling (excluding any garage or carport) or 50m^2 gross leasable floor area, whichever is the lesser (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3	DTS/DPF 1.3

Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	None are applicable.
PO 1.4 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.4 None are applicable.
PO 1.5 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.5 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and are compatible with the prevailing development pattern in the locality.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Development involves the conversion of an existing dwelling into two or more dwellings and the existing dwelling retains its original external appearance to the public road or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a detached dwelling is 1,000 sqm
Minimum site area for a detached dwelling is 125 sqm; semi-detached dwelling is 125 sqm; row dwelling is 125 sqm; group dwelling is 275 sqm; residential flat building is 275 sqm

Minimum site area for a detached dwelling is 750 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 550 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 600 sqm
Minimum site area for a detached dwelling is 800 sqm
Minimum site area for a detached dwelling is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 200 sqm
Minimum site area is 2,000 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 350 sqm
Minimum site area is 400 sqm
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 560 sqm
Minimum site area is 600 sqm
Minimum site area is 650 sqm
Minimum site area is 700 sqm
Minimum site area is 750 sqm
Minimum site area is 800 sqm
Minimum site area is 850 sqm
Minimum site area is 900 sqm
Minimum site area for a detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 400 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 425 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 450 sqm; group dwelling is 450 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 7.5m; row dwelling is 7.5m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; group dwelling is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 10m; group dwelling is 18m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 11m; row dwelling is 8m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 9m; group dwelling is 18m
Minimum frontage for a detached dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 12m; residential flat building is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 6m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 18m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 13m
Minimum frontage for a detached dwelling is 13m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 13m; semi-detached dwelling is 7m
Minimum frontage for a detached dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; group dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m
Minimum frontage for a detached dwelling is 16m
Minimum frontage for a detached dwelling is 16m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 18m; residential flat building is 18m

Minimum Frontage
Minimum frontage for a detached dwelling is 17m
Minimum frontage for a detached dwelling is 17m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 18m
Minimum frontage for a detached dwelling is 20m
Minimum frontage for a detached dwelling is 21m
Minimum frontage for a detached dwelling is 23m
Minimum frontage for a detached dwelling is 25m
Minimum frontage for a detached dwelling is 30m
Minimum frontage for a detached dwelling is 7m; semi-detached dwelling is 6m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 6m; row dwelling is 6m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7.5m; row dwelling is 7.5m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7m; row dwelling is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m; residential flat building is 9m
Minimum frontage is 10m
Minimum frontage is 11m
Minimum frontage is 12m
Minimum frontage is 13m
Minimum frontage is 14m
Minimum frontage is 15m
Minimum frontage is 16m
Minimum frontage is 17m
Minimum frontage is 18m
Minimum frontage is 20m
Minimum frontage is 21m
Minimum frontage is 25m
Minimum frontage is 7m
Minimum frontage is 8m
Minimum frontage is 9m
Minimum frontage for a detached dwelling is 10m
Minimum frontage for a detached dwelling is 12.5m
Minimum frontage for a detached dwelling is 9m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 12m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; group dwelling is 12m

In relation to DTS/DPF 2.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) no value is returned in (a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

PO 2.2

Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with the requirements specified in Established Neighbourhood Zone DTS/DPF 2.1, with 10% reduction in minimum site area where located in a Character Area Overlay or Historic Area Overlay
and

(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene:

(i) private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space

(ii) car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site coverage

PO 3.1

Building footprints are consistent with the character and pattern of the neighbourhood and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 3.1

Development does not result in site coverage exceeding:

Site Coverage
Maximum site coverage is 50 per cent
Maximum site coverage is 70 per cent
Maximum site coverage is 65 per cent
Maximum site coverage is 60 per cent
Maximum site coverage is 45 per cent
Maximum site coverage is 40 per cent
Maximum site coverage is 33.5 per cent

In instances where:

(a) no value is returned (i.e. there is a blank field), then a maximum 50% site coverage applies

(b) more than one value is returned in the same field, refer to the Site Coverage Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

Building Height

PO 4.1

Buildings contribute to the prevailing character of the neighbourhood and complements the height of nearby buildings.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) is no greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 4.5m
Maximum building height is 5.6m
Maximum building height is 5.7m
Maximum building height is 6m
Maximum building height is 6.5m
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

	(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 4.2 Additions and alterations do not adversely impact on the streetscape character.	DTS/DPF 4.2 Additions and alterations: (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: (i) do not include any development forward of the front façade building line (ii) where including a second or subsequent building level addition, does not project beyond a 45 degree angle measured from ground level at the building line of the existing building.
Primary Street Setback	
PO 5.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 5.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — No DTS/DPF is applicable. For the purposes of **DTS/DPF 5.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 6.1 Buildings are set back from secondary street boundaries (not being a rear laneway) to maintain the established pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 6.1 Building walls are set back from the secondary street boundary (other than a rear laneway): (a) no less than: **Minimum Side Boundary Setback** Minimum side boundary setback is 3m Minimum side boundary setback is 2m Minimum side boundary setback is 1m Minimum side boundary setback is 4m Minimum side boundary setback is 1.5m Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher or (b) 900mm, whichever is greater or (c) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street, not less than the distance of that building from the boundary with the secondary street. In instances where no value is returned in DTS/DPF 6.1(a) (i.e. there is a blank field), then it is taken that the value for DTS/DPF 6.1(a) is zero.
Boundary Walls	
PO 7.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 7.1 Dwellings do not incorporate side boundary walls where a side boundary setback value is returned in (a) below: (a) **Minimum Side Boundary Setback** Minimum side boundary setback is 3m Minimum side boundary setback is 2m Minimum side boundary setback is 1m Minimum side boundary setback is 4m Minimum side boundary setback is 1.5m Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher or (b) where no side boundary setback value is returned in (a) above, and except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (i) or (ii) below: (i) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (ii) side boundary walls do not: A. exceed 3.2m in wall height from the lower of the natural or finished ground level B. exceed 8m in length C. when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary D. encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwellings in a semi-detached, row or terrace arrangement are setback from side boundaries shared with allotments outside the development site at least the minimum distance identified in Established Neighbourhood Zone DTS/DPF 8.1.
Side Boundary Setback	
PO 8.1 Buildings are set back from side boundaries to provide:	DTS/DPF 8.1 Other than walls located on a side boundary in accordance with Established Neighbourhood Zone DTS/DPF 7.1, building walls are set back from the side

(a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	boundary: (a) no less than: **Minimum Side Boundary Setback** Minimum side boundary setback is 3m Minimum side boundary setback is 2m Minimum side boundary setback is 1m Minimum side boundary setback is 4m Minimum side boundary setback is 1.5m Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher (b) in all other cases (i.e., there is a blank field), then: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 9.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Other than in relation to an access lane way, buildings are set back from the rear boundary at least: (a) 4m for the first building level (b) 6m for any second building level.
Appearance	
PO 10.1 Garages and carports are designed and sited to be discreet and not dominate the appearance of the associated dwelling when viewed from the street.	DTS/DPF 10.1 Garages and carports facing a street (other than an access lane way) satisfy all of the following: (a) are set back at least 0.5m behind the building line of the associated dwelling (b) are set back at least 5.5m from the boundary of the primary street (c) have a total garage door / opening width not exceeding 30% of the allotment or site frontage, to a maximum width of 7m.
PO 10.2 The appearance of development as viewed from public roads is sympathetic to the wall height, roof forms and roof pitches of the predominant housing stock in the locality.	DTS/DPF 10.2 None are applicable.
Ancillary buildings and structures	
PO 11.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 11.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are constructed, added to or altered so that they are situated at least (i) 500mm behind the building line of the dwelling to which they are ancillary or (ii) 900mm from a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street has a total door/opening not exceeding 7m or 30% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), a length not exceeding 8m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary not exceeding 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end), and where located to the side of the associated dwelling, have a wall height or post height no higher than the wall height of the associated dwelling (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour. (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 11.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 11.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 11.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 11.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 12.1	DTS/DPF 12.1
Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Site coverage does not exceed 50% or the the amount specified in the *Site Coverage Technical and Numeric Variation* layer in the SA planning database, whichever is less. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 30% of the width of the allotment frontage (whichever lesser). 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 19. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply:	None

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

Private bushfire shelter
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Primary street setback - at least as far back as the building to which it is ancillary.
4. Secondary street setback - at least 900mm from the boundary of the allotment.
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation
7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Shade sail consists of permeable material
4. The total area of the sail - does not exceed 40m^2
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary
9. Does not involve the clearance of native vegetation
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
    (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

    (b) the amount of existing soft landscaping prior to the development occurring
12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
   (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

   (b) the amount of existing soft landscaping prior to the development occurring
10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m^2
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment
9. Site coverage does not exceed 50% or the amount specified in the Site Coverage Technical and Numeric Variation layer in the Sa planning database whichever is less.
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
    (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

    (b) the amount of existing soft landscaping prior to the development occurring

	12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation. 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.1 Site coverage DTS/DPF 3.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.2, DTS/DPF 19.4 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2 Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1	None	Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.5

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
