I wish to register my strong opposition to the proposed changes as they will allow further destruction of our remaining character homes and gardens, resulting in loss of tree cover and habitat for native fauna and birdlife, as well as overcrowding of dwellings with increased noise, traffic, and stress on our resources. Lifestyle and house values will also suffer as groups of ugly concrete dwellings replace existing houses and gardens. The only people to benefit are the builders and their unions!

Yours Sincerely,
Ann Arens

(resident of Glenunga)
