---

We would like to express our disapproval of the plan to change the zoning of Linden Park to a General Neighborhood Zone. As residents of Linden Park with personal interest and knowledge of surrounding area we find this decision by the DPTI to be the wrong one. Linden Park should be a Suburban Neighborhood Zone, this reflects the nature of the area which has taken decades to nurture and develop. Burnside Council and those who are daily responsible for the region who i have spoken with also find this decision to be unacceptable, your reconsideration and changing to a more suitable Suburban Neighborhood Zone is necessary for this suburb and surrounding area.

Arthur Kent,
