To Whom It May Concern,

I would like to put in a submission relating to our land at [REDACTED] Kudla SA 5115. Currently our land is in the Urban Code and we are unable to subdivide our land which is 10 Acres in size. Our land is not suitable for primary production and we request it be re zoned so that we may subdivide it in the future. We would prefer it to be able to subdivide into block sizes of 800m2.

The land that surrounds our property are 2.5 acres blocks and smaller and we feel that our land should be re zoned for future growth in our area so that we can also subdivide into smaller blocks.

Regards

Alison and Grant Verdon
