Dear Sir,

My husband and I own property [REDACTED], Stirling North. We have put in letters before asking for our land to be looked at for subdivision. There had been a DPA Plan drawn up before but it never went ahead. So now we would like it to be looked at again. Land adjacent to us is already divided into small house blocks surrounded by Primary Industry and if our land could be divided into five acres it would be a good transition for those house blocks.

Yours sincerely

Rhonda and Neil Litster
