Subject: We need more trees

[REDACTED] [REDACTED]

We need more trees in our suburbs. I see lots of subdivisions everywhere that are removing all trees and bulldozing everything flat. It's making our suburbs hot, which is bad for daily living and climate change. Walks around the suburbs are unpleasant. Bird and other wildlife suffer. We will use more airconditioning to cool down homes when it's hot, which costs families more and contribute to climate change.

Trees should be retained when it's easy and not costly to retain them. Developers and owners should be made to retain trees. We need laws to support this.

Thank you,
Lan
