PlanSA

Planning and Design Code

Version 2026.14

Date of Adoption: 30 July 2026

plan.sa.gov.au

STATE PLANNING COMMISSION

Government of South Australia
Department for Housing and Urban Development

Part 1 - Rules of Interpretation

This Part sets out how the Planning and Design Code (the Code) implements the requirements of section 66 of the *Planning, Development and Infrastructure Act* 2016 (the Act), instructs the user on how the Code is to be read and applied to development assessed under the Act, and provides for other matters relevant to the interpretation and operation of the Code.

Introduction

Section 65 of the Act provides that there must be a *Planning and Design Code* and that the State Planning Commission (the Commission) is responsible for preparing and maintaining the Code as a statutory instrument under the Act. The Code, and any amendments to the Code, as published on the SA planning portal, have been adopted by the Minister.[1]

As provided by section 66 of the Act, the primary purpose of the Code is to set out a comprehensive set of policies, rules and classifications which may be selected and applied in the various parts of the State, through the operation of the Code and the SA planning database, for the purposes of development assessment and related matters within the State.[2]

The Code also provides for other matters envisaged by the Act, and regulations made under the Act.

Commencement and amendments

The commencement date for the Code was 1 July 2019.

The initial version of the Code applied to those parts of the State outside council areas under transitional arrangements put in place to provide for the staged commencement of development assessment under the new Act in place of the *Development Act 1993*[3].

The second version of the Code extends to regional areas of the State under the transitional arrangements.

The processes associated with initiating and making amendments to the Code are mainly set out in section 73 of the Act. One important feature is consultation under the Community Engagement Charter, and other consultation that may be required by the Commission, in connection with a particular amendment proposal.

An amendment to the Code does not have effect unless and until it is approved by the Minister. The approval process includes a report to the Minister about the processes undertaken in connection with developing the proposed amendment and certification as to the accuracy of information presented or provided to the Minister for the purposes of gaining approval.

Any amendments, once approved, are published on the SA planning portal. Electronic publication of an up-to-date version of the Code is a key feature of the scheme under the Act, and is supported by a number of related features and processes that facilitate the operation and application of the Code for the purposes of development assessment.[4]

Information about amendments to the Code is set out in Part 13 - Table of Amendments.

Major features of the Code

The Code Library

The Code incorporates a scheme that collates and organises its policies and rules for development classification and assessment into zones, subzones, overlays and general development policies. Together, these components of the Code form a library of policies (the "Code Library"). The policies that make up the library have no application in their own right, but apply depending on the class of development and spatial location under the scheme that is outlined in this Part.

Classification of development

The Code divides development into 3 categories of development depending on whether it is classified under the Code as:

(a) accepted development (see section 104(1) of the Act); and
(b) deemed-to-satisfy development (see section 105(a) of the Act); and
(c) restricted development (see section 108(1)(a) of the Act)[5].

All development is classified firstly by reference to its location and the zone, subzone and overlays that are applicable to the location. Classification tables applicable to each zone identify development as accepted development, deemed-to-satisfy development or restricted development.[6]

Accepted development

Each zone contains a table - Table 1 - which specifies classes of development which will be classified as 'accepted development' under section 104 of the Act in that zone if all of the corresponding criteria in the table are satisfied.

Accepted development does not require planning consent.

Deemed-to-satisfy development

Each zone contains a table - Table 2 - which specifies classes of development which will be classified as "deemed-to-satisfy development" under section 106 of the Act in that zone if all of the corresponding criteria in the table are satisfied, insofar as they are relevant to the nature of the particular development.

Section 106(2) of the Act specifies that if a relevant authority is satisfied that development is deemed-to-satisfy development except for 1 or more minor variations, the relevant authority must assess it as deemed-to-satisfy development.

Deemed-to-satisfy development must be granted planning consent subject to the requirements of section 106 of the Act and therefore does not require assessment against the policies and rules applicable to performance assessed development.

Restricted development

Each zone contains a table - Table 4 - which specifies classes of development which will be categorised as "impact assessed development" and classified as "restricted development" under section 108 of the Act, subject to any exclusions specified in the table.

The Commission is the relevant authority for restricted development.

All policies and rules relative to the spatial location of proposed restricted development, together with all general development policies, are applicable and may be determined by the Commission to be relevant for the purposes of a restricted development under section 110(10) of the Act (but the Commission is not bound by those provisions).

Performance assessed development

All development not classified as accepted, deemed-to-satisfy, restricted or impact assessed development will be categorised as code assessed development and classified as "performance assessed development" under sections 105(b) and 107 of the Act, and will be assessed on its merits against the Code as contemplated by section 107 of the Act.

Application of Policies to Performance Assessed Classes of Development

The Code applies policies to performance assessed development through an Applicable Policies for Performance Assessed Development Table relative to each zone - Table 3.

In particular, for each zone, Table 3 specifies the polices and rules that apply to classes of development within the zone, including by the application of policies within subzones and overlays (applies only in the area affected by the subzone/overlay), together with the relevant general development policies. Table 3 also contains rules for application of the policies , including rules relating to the application of Desired Outcome policies and Designated Performance Features.

The policies specified in Table 3 constitute the policies applicable to the particular class of development within the zone to the exclusion of all other policies within the Code, and no other policies are applicable to the assessment of the application.

In interpreting the policies specified in Table 3 the relevant authority may, in assessing an application, consider other similar code provisions (beyond those produced from Table 3) for contextual purposes only. Where policies, outside of those returned by Table 3, are considered (for contextual purposes to interpret the applicable policies) they cannot form the reasons as to whether consent should be granted (or refused) for an application.

Development that does not fall within one of the specified classes of development in Table 3 will be designated in the table as 'All Other Code Assessed Development'. To assess such development, all policies from the zone and subzone, and all policies in overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

For the purposes of section 102 of the Act, the relevant authority must assess the development against the applicable policies specified by Table 3 that are relevant to the particular development. For the avoidance of doubt, the relevant authority may determine that one or more of the listed policies are not relevant to a particular development.

Determination of Classes of Development

The Classification and Procedural Matters tables in the Code list classes of development (in the left-hand column). Unless otherwise specified in another class of development in that table, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

If a proposed development comprises more than one element or more than one class (or form) of development, each of the applicable listed classes of development is relevant. This means that:

(a) for the purposes of assessment - all applicable policies and criteria must be considered by the relevant authority for the purposes of section 102 of the Act; and
(b) for the purposes of procedural matters - any development that comprises more than one of the listed classes of development may trigger more than one relevant procedure.[7]

Subject to the preceding paragraph, if there are two or more classes of development listed in a particular table that relate to a proposed development, the class of development that most closely corresponds to the nature of the development (after considering the substance of the development) applies. This is subject to the need to make a practical and realistic assessment of proposed development, and to consider the proper construction of the relevant parts of the Code, in the event of any inconsistency between two classifications as they apply to proposed development.

Policies - Desired Outcomes and Performance Outcomes

Zone, subzone, overlay and general development policies are comprised of desired outcomes (DOs) and performance outcomes (POs). These are applicable to performance assessed development and to restricted development.

Desired outcomes

Desired outcome are policies designed to aid the interpretation of performance outcomes by setting a general policy agenda for a zone, subzone, overlay or general development policies module. Where a relevant authority is uncertain as to whether or how a performance outcome applies to a development, the desired outcome(s) may inform its consideration of the relevance and application of a performance outcome, or assist in assessing the merits of the development against the applicable performance outcomes collectively.

Performance outcomes

Performance outcomes are policies designed to facilitate assessment according to specified factors, including land use, site dimensions and land division, built form, character and hazard risk minimisation.

Designated performance features

In order to assist a relevant authority to interpret the performance outcomes, in some cases the policy includes a standard outcome which will generally meet the corresponding performance outcome (a *designated performance feature* or DPF). A DPF, including a Technical and Numeric Variation (TNV) or other numeric value which forms part of a DPF, provides a guide to a relevant authority as to what is generally considered to satisfy the corresponding performance outcome but does not need to necessarily be satisfied to meet the performance outcome, and does not derogate from the discretion to determine that the outcome is met in another way, or from the need to assess development on its merits against all relevant policies.

Technical and Numeric Variations

The Code has facilities that set or determine various technical and/or numeric requirements in relation to specified classes of development.[8]

Section 66(4) of the Act provides that the Code may include provisions that provide for the adaptation of the rules that apply in relation to a specified zone or subzone or as an overlay to provide for necessary and appropriate local variations in specified circumstances. The requirements specified or reflected in technical or numeric variations form part of the planning rules to apply to the assessment of development, as relevant, through the classification tables and other provisions that make reference to these matters in specified circumstances. In varying a particular policy, these specific provisions or policies may be spatially applied without the need for the Code to apply the specific policy through a separate zone, subzone or overlay.

One type of adaption of the rules is a variation of a technical or numeric requirement that would otherwise apply under a zone, subzone or overlay that applies to a particular location.[9] A technical or numeric variation of a technical or numeric requirement operates within parameters specified in the Code and is spatially applied through the operation of the Code and its interaction with the SA planning database.

Hierarchy of Policies/Modification of Provisions

If there is an inconsistency between provisions in the relevant policies for a particular development, and for the purpose of section 66(3)(b) of the Act, the following rules will apply to the extent of any inconsistency between policies:

(a) the provisions of an overlay will prevail over all other policies applying in the particular case; and
(b) a subzone policy will prevail over a zone policy or a general development policy; and
(c) a zone policy will prevail over a general development policy.

This hierarchy is represented by the following diagram.

Procedural Matters

The zones, subzones, overlays and general development policies may contain sections headed 'Procedural matters'. Material in these sections provide for various procedural and related matters under the Act and regulations[10], such as some exclusions from the requirement to notify certain applications for planning consent, and referrals to prescribed bodies.

Notification of applications for planning consent

A table headed 'Notification' in the section of a policy relating to procedural matters specifies classes of development to be assessed under section 107 of the Act which are excluded from the requirement to give notice of an application for planning consent under section 107(3) and (4).[11] The table may also specify cases where notice need not be given to members of the public by a notice placed on the relevant land under regulation 47(6)(a) of the *Planning, Development and Infrastructure (General) Regulations 2017*.

Interpretation of Notification Tables

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Referrals

The Code also interacts with regulation 41 and Schedule 9 of the *Planning, Development and Infrastructure (General) Regulations 2017* for the purposes of section 122 of the Act. Schedule 9 prescribes classes of development that must be referred to a body prescribed in Schedule 9.

'Referral' tables in various parts of the Code specify classes of development to which an item in the table in clause 3 of Schedule 9 applies, identified by reference to the prescribed referral body.[12]

A 'Referrals' table also identifies the purpose of a particular referral (that being a matter that is considered by the Commission under section 66(2)(e)(ii) of the Act as being appropriate to include in the Code).

In relation to development that is to be assessed under section 107 of the Act, if policies from a particular overlay are not listed within the 'Applicable Policies' in Table 3 for that class of development, any referral within that overlay will not apply to that class of development.

Other matters specified by the Code

Specified matters and areas identified under the Act and Regulations

Part 5 sets out areas and matters that are specified or identified for various matters under the Act or associated regulations.

Definitions of land use and land use classes

Part 7 sets out definitions of land use for the purposes of section 66(2)(c) of the Act.

Local heritage places

This part of the Planning and Design Code designates places as places of local heritage value for the purposes of section 67 of the Act. Local heritage places are also listed in the South Australian Heritage Register established under the *Heritage Places Act 1993*. However, as local heritage places are established under the *Planning, Development and Infrastructure Act 2016*, if there is any inconsistency between the Register and the Local Heritage Places listed in Part 11 of the Planning and Design Code, an entry in Part 11 of the Planning and Design Code will prevail to the extent of any inconsistency.

State heritage places

State heritage places listed in Part 11 are a point in time reference to places that are registered (or provisionally listed) as State Heritage Places under the *Heritage Places Act 1993*. As the *Heritage Places Act 1993* operates separately to the *Planning, Development and Infrastructure Act 2016* and the Planning and Design Code, reference to the Register established under the *Heritage Places Act 1993* (the South Australian Heritage Register) will be made to determine if a State Heritage Place exists on land forming part of a development application and the extent to which it applies. If there is any inconsistency between the Register and the State Heritage Places listed in Part 11 of the Planning and Design Code, an entry in the Register will prevail to the extent of any inconsistency.

Regulated and significant trees

Part 10 makes declarations for the purposes of the definition of regulated tree(s) and the definition of significant tree(s) under the Act.

Australian Standards

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter a DTS/DPF provision to reflect an update to a relevant standard published by Standards Australia.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new DTS/DPF provision or provisions that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the DTS/DPF provision or provisions will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Spatial Information and Electronic Databases and Files

The spatial boundaries of zones, subzones and overlays, as they apply in relation to the various parts of the State, are determined through the operation of the Code and may accessed through the SA planning database.

In particular, the Code spatially applies the zones, subzones and overlays to the various parts of the State. This application results in spatial layers that show the location of the zones, subzones and overlays and, accordingly, applies the policies, rules and other information that are relevant to any specific place within the State. This feature of the Code operates through data that is housed in multiple databases and electronic files. These databases and files interact to produce data that accurately shows the spatial application of the polices, rules and other relevant information within the Code, combining textual information with spatial information.

This electronic feature of the Code works in conjunction with the SA planning database under section 49 of the Act, so that the spatial boundaries of any zone, subzone or overlay, and accordingly relevant textual information, may be accessed and applied through the SA planning database.[13]

The Code and the SA planning database in turn operate in conjunction with the South Australian Property and Planning Atlas (SAPPA) and other related databases and systems and services. The data in SAPPA defines the spatial extent and boundaries of the zones, subzones and overlays established by the Code. This spatial data is developed, maintained, securely stored and delivered through information systems established and maintained by the Department. This functionality allows spatial data and textual data to be brought together in the SA planning database, and in the Code as published on the SA planning portal.

The status of the SA planning database is further supported by any standards established by the Commission under section 51 of the Act and, importantly, section 52 of the Act supports the electronic publication of statutory instruments, including the Code. A version of the Code, published on that part of the SA planning portal that states that instruments published on that part are certified by the Chief Executive of the Department under section 52(1) of the Act, is able to be presumed (in the absence of proof to the contrary) to be a complete and accurate record of the statutory instrument (as amended from time to time and as in force at a specified day).[14] In addition, any information produced on the SA planning database as to the application of planning policies, rules and information to a specified place within the State (as envisaged by section 49(1) of the Act) will be presumed, in the absence of proof to the contrary, to be accurate and correct (and may be relied on for the purposes of the Act).[15]

Furthermore, as part of the SA planning portal and in connection with the SA planning database, the online atlas under section 50 of the Act provides a search facility to search across the database that is relevant to the spatial application of the Code. The online atlas enables the viewing and searching of the spatial mapping feature of the Code, and enables viewing of the location of zones, subzones and overlays by reference to council areas. This feature may be viewed as replacing an aspect of the scheme under the *Development Act 1993*.

The official sources for planning spatial data under the *Development Act 1993* are the various hard copy maps of a Development Plan for a council area. With the implementation of the SAPPA and Online Planning and Design Code Enquiry (OPD) application, pre-defined and printed maps are no longer relevant or required. Rather, the scheme under the Act provides for the electronic publication of the Code, facilities to identify the policies, rules and information that apply to any place in the State, and the authorisation and verification of an electronic version of the Code as in force at any particular time.

Cadastral Updates

The zones, subzones and overlays of the Code are aligned relative to the cadastral boundaries shown in the South Australian Property and Planning Atlas (SAPPA). In the majority of cases a zone, subzone or overlay boundary is directly aligned with cadastre, or is offset from cadastre by a defined criterion. In the case of roads the zone, subzone or overlay boundaries are often aligned with the centreline of that road.

When cadastral boundaries are are changed due to newly deposited plans, resurvey, or amendments by the Surveyor-General there are often boundaries that are, as a result, found to be incorrectly spatially located and are represented in SAPPA in a different geographic location.

Where the spatial application of the boundary of a zone, subzone or overlay is directly aligned or otherwise linked with the cadastre (being a parcel boundary or some other point or position within a parcel) and the cadastre is amended resulting in the movement of a cadastral boundary, the spatial application of the boundary of the zone, subzone or overlay will also move proportionate with the amended cadastre. This ensures that the intended spatial application of the boundary of the zone, subzone or overlay with the cadastre is maintained.

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter the spatial boundary of a Zone, Subzone or Overlay to:
   (a) align the boundary to cadastre; or
   (b) offset the boundary from cadastre by a defined criterion;
   if the Minister is satisfied that the alteration will preserve or restore the intended spatial relationship between the cadastre and the boundary of the Zone, Subzone or Overlay.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new map or maps that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the map or maps will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Ministerial Determinations

1. Pursuant to section 71(e) of the Act and subject to subclause (2), the Minister may alter the spatial application of an overlay or alter a Concept Plan referred to in column 1 of the table set out at the end of this clause if the Minister is satisfied that the alteration is an update described in column 2 of the table.
2. In making an alteration under subclause (1), the Minister must:
   (a) publish or specify a new map or maps, or a new concept plan that satisfy any requirements specified by the Chief Executive or Commission under sections 49 or 51 of the Act; and
   (b) ensure that the map or maps or concept plan will form part of the SA planning database; and
   (c) publish notice of the alteration on the SA planning portal.
3. An alteration under subclause (1) takes effect from the date specified in the notice of the alteration published on the SA planning portal.

Table

Overlay or Concept Plan	Nature of Updates
Adelaide Dolphin Sanctuary	The Overlay may be updated in accordance with a management plan (or part of a management plan) adopted under the *Adelaide Dolphin Sanctuary Act 2005*.
Advertising Near Signalised Intersections	The overlay may be updated due to the creation, alteration or removal of a signalised intersection on a State Maintained Road.
Airport Building Heights (Regulated)	The Overlay may be updated due to a change to airport building height requirements approved by the Civil Aviation Safety Authority.
Aircraft Noise Exposure	The Overlay may be updated in accordance with: (a) an Australian Noise Exposure Forecast (ANEF) endorsed under the *Air Services Act 1995; or* (b) an Australian Noise Exposure Forecast (ANEF) endorsed by the Department of Defence.
Building Near Airfields	The Overlay may be updated in accordance with a guideline produced under the National Airports Safeguarding Framework.
Coordinated Development	The Overlay may be spatially removed from land where the Minister is satisfied that: (a) a scheme under Part 13 of the Act has been adopted or an agreement is in place for the provision of all necessary essential infrastructure to support development of the growth area; and (b) there are no other relevant restrictions to urban development proceeding.
Defence Aviation Area	The Overlay may be updated in accordance with any regulation relating to a defence aviation area declared under the *Defence Act 1903*.
Future Local Road Widening	The overlay may be updated: (a) due to a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay; or (b) where the update involves the removal, or the reduction of a road widening requirement of a road, of the Overlay from a road which is not a State Maintained Road, at the request of Council. Note: The Minister should consider not using this process if the change is due to a council seeking road widening in 2 or more locations.
Future Road Widening	The overlay may be updated due to: (a) an update to the Metropolitan Adelaide Road Widening Plan; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Gas and Liquid Petroleum Pipelines	The overlay may be updated: (a) due to the creation, alteration or removal of a gas or liquid petroleum pipeline identified for the purposes of the overlay; or (b) in accordance with an approval under the *Petroleum and Geothermal Energy Act 2000*.
Gas and Liquid Petroleum Pipelines (Facilities)	The overlay may be updated: (a) due to the creation, alteration or removal of a gas or liquid petroleum pipeline identified for the purposes of the overlay; or (b) in accordance with an approval under the *Petroleum and Geothermal Energy Act 2000*.
Historic Shipwrecks	The overlay may be updated in accordance with the list or amendment to the list of places entered, either on a provisional or permanent basis, in the South Australian Register of Historic Shipwrecks under the *Historic Shipwrecks Act 1981* and/or *Underwater Cultural Heritage Act 2018*
Heritage Adjacency	The overlay may be updated due to: (a) a change to the application of the Local Heritage Place Overlay or the State Heritage Place Overlay because of the creation, alteration or removal of a parcel containing a heritage item; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Key Outback and Rural Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Key Railway Crossings	The overlay may be updated due to the creation, alteration or removal of a railway crossing on a State Maintained Road.
Major Urban Transport Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
	The overlay may be updated due to:

Non-Stop Corridors	(a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Traffic Generating Development	The overlay may be updated due to the creation, alteration or removal of a major urban transport route or an urban transport route.
Tunnel Protection	The overlay may be updated due to: (a) the designation, alteration or removal of a State Maintained Road, busway, railway or other essential infrastructure development by the Crown identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Urban Transport Routes	The overlay may be updated due to: (a) the creation, alteration or removal of a State Maintained Road identified for the purposes of the overlay; or (b) a new plan of division deposited in the Land Titles Office that affects one or more existing allotments in the overlay.
Concept Plan in Part 12 of the Code	Concept Plans may be updated to: (a) reflect the alteration of an infrastructure delivery scheme under section 167 of the *Planning, Development and Infrastructure Act 2016*; or (b) reflect development granted development authorisation under the *Planning, Development and Infrastructure Act 2016* and which has been substantially commenced; or (c) reflect the construction of essential infrastructure which has been substantially commenced; or (d) reflect a deed or agreement with a government agency or the relevant council that relates to the provision of essential infrastructure and which relate to the development of essential infrastructure, activity centres or the staging of development.

Interpretation

Application of Spatially Based Policies and Rules

Where a zone, subzone, overlay or technical and numeric variation (TNV) does not spatially apply to the whole of a site that is the subject of the development application, the spatially based rules of the zone (including assessment pathway exclusions), subzone, overlay or TNV are only applicable to the portion of the site to which the zone, subzone, overlay or TNV spatially covers. Reference to the South Australian Property and Planning Atlas of the SA planning database will be made to determine whether a zone, subzone, overlay or TNV is relevant to the site of the proposed development application.

Definitions and other rules of interpretation

A term used in the Code may have a meaning specifically assigned to that term by one of the following:

(a) the *Planning, Development and Infrastructure Act 2016* (the Act);
(b) the *Acts Interpretation Act 1915*;
(c) the definitions in Parts 7 and 8 of the Code.

In the event a term has been assigned a meaning in more than one of the Code's parts (i.e., a zone, zubzone, overlay, or general development policy), the meaning contained in the part that sits highest in the hierarchy of policies described above will prevail.

A reference in the Code to an Act includes a reference to any regulations or instrument made under that Act, and where an Act, regulation or instrument has been amended or replaced, if the context permits, includes a reference to the amended or replaced Act, regulations or instrument.

A reference in the Code to a specific resource document or standard, means the latest version of the resource document or standard.

Unless otherwise indicated, a reference in the Code to a Part, section or table is a reference to a Part, section or table of the Code.

Footnotes

1
See especially Part 5 Division 2 Subdivision 5 of the Act in relation to the processes for the adoption and amendment of the Code.

2
The Chief Executive of the Department of Planning, Transport and Infrastructure is responsible for establishing and maintaining an electronic database (the SA planning database) that produces, by gaining access to-
(a) the state planning policies; and
(b) the Planning Rules; and
(c) any relevant land management agreements; and
(d) other instruments and documents as the Chief Executive thinks fit,
textual and spatial information that identifies the planning policies, rules and information that apply to specific places within the State under the Act. The SA planning database must be accessible on the SA planning portal.

3
See especially the *Planning, Development and Infrastructure (Transitional Provisions) Regulations 2017* Part 4.

4
A further explanation of aspects of these features is described in a later section of this Part.

5
Section 103(c) of the Act refers to a category of development called *impact assessed development*. Under section 108(1)(a) of the Act, the Code classifies various forms of impact assessed development as 'restricted development' for the purposes of assessment under Part 7 Division 2 Subdivision 4 of the Act.

6
Any development that does not fall into a category established under this part of the scheme (and that is not otherwise to be assessed as 'impact assessed development' under the Act), is development that is to be assessed on its merits under the Act and the Code.

7
This applies subject to provisions of the Act such as section 107(2)(a).

8
Part 6 of the Code sets out technical and/or numeric requirements and any relevant variations

9
See section 66(4)(a) of the Act.

10
The *Planning, Development and Infrastructure (General) Regulations* 2017.

11
Section 107(6) of the Act provides that the Code may exclude classes of development from the requirement to give notice of an application for planning consent to owners or occupiers of adjacent land, and to members of the public by notice placed on the relevant land.

12
Development that is within a class specified in a 'Referrals' table must be referred to the prescribed referral body pursuant to section 122 of the Act.

13
The zones, subzones and overlays may be viewed as part of the SA planning portal at: https://sappa.plan.sa.gov.au/
The SA planning database is not the Code itself, but is rather a database which gains access to the Code and identifies the planning policies, rules and information that apply to specific places within the State.

14
See also regulation 7 of the *Planning, Development and Infrastructure (General) Regulations 2017*.

15
See section 52(2) of the Act.

Part 2 - Zones and Sub Zones

Adelaide Park Lands Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A unique publicly accessible and well connected open space system, including the formal city squares, that creates a distinctive landscaped park setting for the City of Adelaide.
DO 2	A range of passive and active recreational activities with a high-level of amenity, including a safe and connected walking and cycling network, natural areas, sporting fields and club facilities, formal cultural gardens, public artwork and passive recreation areas, as well as opportunities to support a variety of temporary events, such as festivals, concerts and sporting events.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of open space, recreation and sporting activities.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Conservation work (c) Outbuilding associated with open space maintenance (d) Recreation area (e) Shop (f) Special events (g) Sporting field or club facility (h) Structures associated with a public facility such as bike and vehicle parking, picnic / barbeque area, shelter and toilet.
PO 1.2 Shops in appropriate areas of the Adelaide Park Lands: (a) provide a range of goods and services for the users of activities in the Adelaide Park Lands and where such goods and services are not otherwise conveniently located and (b) positively contribute to Adelaide Park Lands activation and setting without being visually prominent.	DTS/DPF 1.2 Shops (other than in the Aquatic Centre Subzone) satisfy all of the following: (a) are ancillary to a recreational use, club, sporting facility (b) do not exceed 50m^2 in gross leasable floor space (c) do not increase the building footprint.
PO 1.3 Community, cultural, tourism, shop or licensed premises located adjacent to the southern bank of the River Torrens between Montefiore Road and King William Road.	DTS/DPF 1.3 None are applicable.
PO 1.4 Community, cultural and tourism uses in association with the Torrens Training Depot and Parade Ground.	DTS/DPF 1.4 None are applicable.
PO 1.5 Special events in suitable locations and recreation uses of a temporary or transient nature limiting their impacts on the open and natural character of the Adelaide Park Lands.	DTS/DPF 1.5 None are applicable.
PO 1.6 The adaptive reuse of existing buildings to improve the design quality and appearance of the building, minimise the need to increase the building footprint and positively contribute to the cultural value, amenity and activation of the Adelaide Park Lands.	DTS/DPF 1.6 None are applicable.
PO 1.7 Other than in the Aquatic Centre Subzone, new buildings seek to minimise the building footprint on the landscaped and open setting of the Adelaide Park Lands and should only be considered where: (a) the development is the replacement of an existing building and does not increase the overall building footprint (b) the building design is contextual and of high-quality so that it complements its setting when viewed from all perspectives (c) provides complementary recreation, sporting or tourism facilities that could not otherwise have been provided in the zone and (d) the building is designed to be multi-purpose and can be used by more than one user group.	DTS/DPF 1.7 None are applicable.
PO 1.8 The redevelopment of existing buildings and structures within the following sites in a way that is ancillary and complementary to existing uses including: (a) Adelaide Oval (b) Memorial Drive tennis precinct- formal sport related facilities (c) Torrens Lake - boating facilities (d) Adelaide High School - education and related facilities (e) National Wine Centre - tourism related facilities within the existing site boundaries (f) Adelaide Botanic Garden - restaurants, function facilities and passive recreation facilities (g) Adelaide Zoo - a range of tourism and visitor related facilities that add to the zoo as a key city attraction (h) Golf Course - club facilities and restaurants (i) West Terrace Cemetery - chapel, visitor and interpretative centre and operational facilities (j) North Adelaide Train Station - rail services facilities (k) Victoria Park Grandstand.	DTS/DPF 1.8 None are applicable.
PO 1.9 Development of public infrastructure is appropriate: (a) within existing roads, railway corridors or the O-Bahn corridor where it does not create any additional impact on the amenity of the Adelaide Park Lands (b) where it facilitates safe, connected pedestrian and cycle movement (c) where it facilitates the treatment and/or management of stormwater in a passive and natural landscaped setting.	DTS/DPF 1.9 None are applicable.
Built Form and Character	
PO 2.1 A contextual design response that complements the open space function, natural and cultural character of the area and is suitably screened by landscaping.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development includes lighting that positively contributes to public safety, activity and amenity within the Adelaide Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Utility and supply services, holding tanks, sub-stations, power lines and other utility facilities that are unobtrusive and where practicable, placed underground.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development sited and designed to minimise negative impacts on adjacent residential uses.	DTS/DPF 2.4 None are applicable.
Natural / Cultural Landscape Character	
PO 3.1 Development protects, enhances and improves public access to: (a) areas of special landscape character (such as formal gardens, significant stands of trees, and the like) and (b) areas and items of indigenous and post-colonial cultural significance.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development recognises the Park Land's National Heritage Values.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development maintains the visual distinction between the predominantly open landscape character of the Adelaide Park Lands and the built-form of adjacent Zones.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development contributes to the return of alienated land to Adelaide Park Lands where practical.	DTS/DPF 3.4 None are applicable.
PO 3.5 Development sensitive to native biodiversity which incorporates ways to protect and improve biodiversity through its design and siting.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development enhances natural creek channels and watercourses as a major landscape and stormwater management feature.	DTS/DPF 3.6 None are applicable.
Advertisements	
PO 4.1	DTS/DPF 4.1

Permanent advertisements or advertising hoardings only provide interpretive information or directions relating to features and facilities within the Adelaide Park Lands.	None are applicable.
PO 4.2 Temporary advertisements relating to a local event of a religious, educational, cultural, social or recreational character or to an event of a political character limited in size and number which do not detract from the open and natural character of the zone.	DTS/DPF 4.2 Advertisements satisfy all of the following: (a) not exceeding $2m^2$ on a building or site (b) not displayed more than 1 month prior to the event and 1 week after the event concludes except for an advertisement that relates to a federal, state or local government election and (c) do not: (i) move or flash (ii) reflect light so as to be an undue distraction to motorists (iii) use internal lighting or (iv) principally advertise brands or products.
Movement, access and parking	
PO 5.1 Development does not restrict public access to land within the zone and ensures the Adelaide Park Lands are universally accessible.	DTS/DPF 5.1 None are applicable.
PO 5.2 Car parking in the Zone is limited to serving activities within the Adelaide Park Lands, and located close to existing road networks to minimise impact on the Adelaide Park Lands character.	DTS/DPF 5.2 None are applicable.
PO 5.3 Other than in the Aquatic Centre Subzone, additional car parking is avoided by utilising on street parking or shared parking areas, locating close to walking and cycling infrastructure, utilising the existing road network and other such means.	DTS/DPF 5.3 None are applicable.
PO 5.4 Public vehicle access limited to existing roads.	DTS/DPF 5.4 None are applicable.
Fencing	
PO 6.1 Fencing is open so that Adelaide Park Lands character is maintained, and maintains public access.	DTS/DPF 6.1 None are applicable.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area Concept Plan 125 - City Riverbank - West Concept Plan 132 - Adelaide Aquatic Centre In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Essential infrastructure	1. The development does not include health, education or community facilities, police, justice or emergency services facilities.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed $40m^2$ 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Stormwater infrastructure within the Adelaide Aquatic Centre Subzone	None
Temporary buildings and structures within the Adelaide Aquatic Centre Subzone	1. The development is related to construction activities 2. The development includes one or more of the following: (a) site offices (b) gantries (c) temporary fencing (d) hoarding and scaffolding

	(e) other temporary construction related buildings or structure.
Temporary car parking facilities within the Adelaide Aquatic Centre Subzone	1. The development provides temporary car parking during construction or demolition works using existing entry and exit points (or entry and exit points with a valid planning consent).
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) advertisement (c) conservation work (d) deck (e) fence (f) internal building work (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) recreation area (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) special events (p) sporting field or club facility (q) structures associated with a public facility such as bike and vehicle parking, picnic / barbeque area, shelter and toilet (r) swimming pool or spa pool and associated swimming pool safety features (s) temporary public service depot (t) verandah (u) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
6. Shop.	Except shop that does not satisfy Adelaide Park Lands Zone DTS/DPF 1.2.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Adelaide Aquatic Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A recreation precinct that is a destination for quality leisure, recreation, health and wellness, and sport.
DO 2	Exemplary buildings that are respectful of the National Heritage Values of the Adelaide Park Lands.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of open space, recreation and/or sport facilities.	DTS/DPF 1.1 Development comprises one or more of the following (which are additional to those development types listed in DTS/DPF 1.1 of the Adelaide Park Lands Zone): (a) Consulting room (b) Office (c) Indoor recreation facility (d) Lighting (e) Swimming pool.
PO 1.2 An indoor recreation facility accommodating swimming, recreation and wellness facilities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-recreation land uses are subordinate to the principal recreational use of the land.	DTS/DPF 1.3 Offices, consulting rooms or creche facilities are under the main roof of and subordinate to an indoor recreation facility. Shops are: (a) ancillary to a recreational use, club or sporting facility and do not exceed 50m^2 in gross leasable floor space or (b) under the main roof of an indoor recreation facility that accommodates swimming, recreation and wellness facilities.
PO 1.4 Redevelop the Return to Park Lands Area, as shown on Concept Plan 132 Adelaide Aquatic Centre, for multipurpose ovals (soccer/cricket) and outdoor passive and active recreation, sport and /or ancillary uses.	DTS/DPF 1.4 None are applicable.
Design and Siting	
PO 2.1 Buildings are fit for purpose while minimising the building footprint on the landscaped and open setting of the Adelaide Park Lands.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are designed to be viewed from all perspectives and have strong connections to land within the surrounding precinct.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development is responsive to and is enhanced by its landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Provide tree planting along key pedestrian and cycle pathways to enhance amenity and legibility.	DTS/DPF 2.4 None are applicable.
Car Parking	
PO 3.1 Provide adequate on-site car parking taking into account the availability of on-street parking, public transport access, walking and cycling connections, and the availability of shared parking arrangements.	DTS/DPF 3.1 None are applicable.
PO 3.2 Minimise the extent and impact of car parking on the Adelaide Park Lands through landscaping and other design strategies.	DTS/DPF 3.2 None are applicable.

Business Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A variety of housing and accommodation types and compatible employment-generating land uses in an environment characterised by primarily low-rise buildings
DO 2	Buildings of a scale and design that complements surrounding built form, streetscapes and local character and provide for landscaping and open space.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Housing and accommodation types appropriate to the locality complemented by shops, offices, consulting rooms and other non-residential uses that do not materially impact residential amenity.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Co-living (b) Community facility (c) Consulting room (d) Dwelling (e) Office (f) Residential flat building (g) Shop
PO 1.2 Business and commercial land uses complement and enhance the prevailing or emerging neighbourhood character.	DTS/DPF 1.2 Shops, offices and consulting rooms (or any combination thereof) do not exceed 250m^2 in gross leasable floor area.
PO 1.3 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.3 A change of use to a shop, office or consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop: (i) the total gross leasable floor area of the shop will not exceed 250m^2 (ii) if primarily involving the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (iii) if primarily involving heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any residential allotment within a neighbourhood-type zone or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (c) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (ii) the building is a local heritage place.
Built Form and Character	
PO 2.1 Buildings are of a scale and design that complements surrounding built form, streetscapes and local character.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development provides attractive landscaping to the primary street frontage.	DTS/DPF 2.2 None are applicable.
PO 2.3 Site coverage is limited to provide space for landscaping, open space and pervious areas.	DTS/DPF 2.3 Development does not result in site coverage exceeding 60%.
Building height and setbacks	
PO 3.1 Buildings are generally of low-rise construction, with taller buildings positioned towards the centre of the zone and away from any adjoining neighbourhood-	DTS/DPF 3.1 Except on a Catalyst site in the Melbourne Street West Subzone, Building height (excluding garages, carports and outbuildings) is no greater than:

type zone to positively contribute to the built form character of the locality.

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 6.5m
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 12.5m
Maximum building height is 14m
Maximum building height is 15m
Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels

(b) in all other cases (ie there is a blank field for both values):
- (i) 2 building levels or 9m where the development is located adjoining a different zone that primarily envisages residential development
- (ii) 3 building levels or 12m in all other cases.

In relation to DTS/DPF 3.1, in instances where:

(c) more than one value is returned in the same field:
- (i) for the purpose of DTS/DPF 3.1(a), refer to the Maximum Building Height (Metres) Technical and Numeric Variation layer or Maximum Building Height (Levels) Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (ii) only one value is returned for DTS/DPF 3.1(a), (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

PO 3.2

Buildings are set back from primary street boundaries consistent with the existing streetscape.

DTS/DPF 3.2

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m

For the purposes of **DTS/DPF 3.2:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback

(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

PO 3.3

Buildings set back from secondary street boundaries (other than rear laneways) contribute to a consistent streetscape.

DTS/DPF 3.3

Building walls are set back from the secondary street frontage:

(a) the average of any existing buildings on adjoining sites having frontage to the same street
OR
(b) not less than 900mm where no building exists on an adjoining site.

PO 3.4

Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining residential properties.

DTS/DPF 3.4

Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:

(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
(b) side boundary walls do not:
- (i) exceed 3.2m in height from the lower of the natural or finished ground level
- (ii) exceed 11.5m in length
- (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
- (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.

PO 3.5

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 3.5

Dwelling walls of dwellings in a semi-detached or row arrangement are set back at least 900mm from side boundaries shared with allotments outside the development site.

PO 3.6

Buildings are set back from side boundaries to provide:

(a) separation between buildings in a way that complements the established character of the locality
(b) access to natural light and ventilation for neighbours.

DTS/DPF 3.6

Other than walls located on a side boundary, building walls are set back at least 900mm from side boundaries.

PO 3.7

Buildings are set back from rear boundaries to provide:

(a) separation between buildings in a way that complements the established character of the locality
(b) access to natural light and ventilation for neighbours
(c) open space recreational opportunities
(d) space for landscaping and vegetation.

DTS/DPF 3.7

Buildings walls are set back from the rear boundary at least:

(a) 3m for the first building level
(b) 5m for any second building level.

Land Division

PO 4.1

Land division and / or site amalgamation creates allotments that vary in size and are suitable for a variety of residential and commercial activities and improve the level of development integration.

DTS/DPF 4.1

None are applicable.

Advertisements

PO 5.1

Advertisements complement the scale of buildings and are not visually dominant within the locality.

DTS/DPF 5.1

None are applicable.

Concept Plans

PO 6.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 6.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

In relation to DTS/DPF 6.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Ancillary Buildings and Structures

PO 7.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 7.1

Ancillary buildings and structures satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding $60m^2$
(c) are not constructed, added to or altered so that any part is situated

	(i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 7.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 7.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 7.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 7.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):

	(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. Site coverage does not exceed 60% 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation 15. retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Site coverage does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m

	8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted; 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment 9. Site coverage does not exceed 60% 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) ancillary accommodation (c) co-living (d) community facility (e) dwelling (f) dwelling addition (g) residential flat building (h) retirement facility (i) student accommodation (j) supported accommodation.	Except development that: 1. exceeds the maximum building height specified in Business Neighbourhood Zone DTS/DPF 3.1 or 2. is on a Catalyst Site that exceeds the maximum building height in Business Neighbourhood Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Business Neighbourhood Zone DTS/DPF 1.2 or 2. exceeds the maximum building height specified in Business Neighbourhood Zone DTS/DPF 3.1 or 3. is on a Catalyst Site that exceeds the maximum building height in Business Neighbourhood Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Melbourne Street West Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A mixed use area accommodating low-impact employment-generating activities and a range of low to medium density housing.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Low impact non-residential uses that complement low to medium density residential accommodation.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Community facility (c) Consulting room (d) Dwelling (e) Educational facility (f) Office (g) Residential flat building (h) Retirement village (i) Supported accommodation (j) Tourist accommodation.
Built Form and Character	
PO 2.1 Buildings setback from side boundaries to complement the pattern of development.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings set back behind landscaped frontages to Melbourne Street to provide a consistent and attractive streetscape.	DTS/DPF 2.2 A landscape strip at least 3.5m wide is provided along the Melbourne Street frontage.
PO 2.3 Other than for catalyst sites, parts of buildings above 2 building levels are set back from Melbourne Street to complement the prevailing character to Melbourne Street.	DTS/DPF 2.3 Parts of a building above 2 building levels are set back at least 6m from Melbourne Street.
PO 2.4 Development is set back from the boundary of an adjacent zone and from Old Street to maintain residential amenity.	DTS/DPF 2.4 None are applicable.
PO 2.5 Verandahs, awnings or balconies and the like not constructed over the public footpath.	DTS/DPF 2.5 None are applicable.
Catalyst Sites	
PO 3.1 Development on a catalyst site is comprised of medium-rise residential uses integrated with non-residential uses to contribute to vibrancy of the street.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development on a catalyst site is designed to manage the interface with the City Living Zone with regard to intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development on a catalyst site contributes to streetscape character and vibrancy through building designs that: (a) encourage overlooking of the street, particularly at the ground and first floor (b) create the appearance of narrow frontages and enhance visual interest (c) are vertically massed (d) include above street level fenestration, balconies, parapets, architectural detailing and ornamentation which contribute to the rich visual texture.	DTS/DPF 3.3 None are applicable.
Access and Parking	
PO 4.1 Development does not result in additional crossovers on the primary street frontage to minimise conflicts with pedestrians and cyclists./span>	DTS/DPF 4.1 Vehicular access where it consolidates or replaces existing crossovers.
PO 4.2 Vehicle access from Melbourne Street is designed and located to minimise disruption to the pattern of built form and landscaping.	DTS/DPF 4.2 None are applicable.
PO 4.3 Vehicle parking areas are located to minimise disruption to the continuity of built form and the streetscape character along Melbourne Street.	DTS/DPF 4.3 Vehicle parking areas are located behind buildings with a frontage to Melbourne Street.
Advertisements	
PO 5.1 Advertisements are: (a) restrained in size, design and illumination to complement the character of the locality (b) limited to one advertisement identifying the lawful existing or proposed activity for the site.	DTS/DPF 5.1 None are applicable.

Capital City Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone that is the economic and cultural focus of the state supporting a range of residential, employment, community, educational, innovation, recreational, tourism and entertainment facilities generating opportunities for population and employment growth.
DO 2	High intensity and large- scale development with high street walls reinforcing the distinctive grid pattern layout of the city with active non-residential ground level uses to positively contribute to public safety, inclusivity and vibrancy. Design quality of buildings and public spaces is a priority in this zone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 A vibrant mix of residential, retail, community, commercial and professional services, civic and cultural, health, educational, recreational, tourism and entertainment facilities.	DTS/DPF 1.1 The following types of development, or combinations thereof, are envisaged: (a) Advertisement (b) Child care facility (c) Co-living (d) Consulting Room (e) Dwelling (f) Educational facility (g) Hospital

	(h) Hotel (i) Licensed Premises (j) Library (k) Office (l) Supported Accommodation (m) Residential Flat Building (n) Shop (o) Student Accommodation (p) Tourist accommodation.
PO 1.2 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.2 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Activation	
PO 2.1 Non-residential land uses at ground floor level such as shops and restaurants support and maximise pedestrian activity to provide visual interest and positively contribute to public safety, walkability and vibrancy.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development: (a) contributes to the activation of the public realm by presenting an attractive human scaled pedestrian-oriented frontage at ground level that adds interest and vibrancy; (b) maintains a sense of openness to the sky for pedestrians and allow sunlight access to the public realm; (c) provides a clear sense of address to each building.	DTS/DPF 2.2 None are applicable.
PO 2.3 Land uses typically open during night time hours incorporate activities along street frontages at ground level that encourage day time activation compatible with surrounding land uses.	DTS/DPF 2.3 None are applicable.
PO 2.4 Shopfronts incorporating security features such as security grilles and shutters are designed to allow visual permeability into the premises, allow for light spill onto the street, and complement the appearance of the building's frontage.	DTS/DPF 2.4 Grilles, shutters or similar security features with at least 75% permeability.
Built form and Character	
PO 3.1 A contextual design response that manages differences in scale and building proportions to maintain a cohesive streetscape and frame city streets.	DTS/DPF 3.1 None are applicable
PO 3.2 Buildings: (a) are designed to reinforce the prevailing datum heights and parapet levels of the street through design elements that provide a clear distinction between levels above and below the prevailing datum line; (b) where located in an existing low-rise context, are designed to include a podium/street wall height and upper level setback that: (i) relates to the scale and context of adjoining built form; (ii) provides a human scale at street level; (iii) creates a well-defined and continuity of frontage; (iv) gives emphasis and definition to street corners to clearly define the street grid; and (v) contributes to the interest, vitality and security of the pedestrian environment.	DTS/DPF 3.2 None are applicable.
PO 3.3 Building façades are strongly modelled, incorporate a vertical composition which reflects the proportions of existing frontages, and ensure that architectural detailing is consistent around corners and along minor streets and laneways.	DTS/DPF 3.3 None are applicable
PO 3.4 Development along The Terraces (North, East, South and West) is designed to positively contribute to a continuous built form to frame the Park Lands and city edge.	DTS/DPF 3.4 None are applicable.
PO 3.5 Development along the city's boulevards (as identified in Capital City Zone Table 5.1): (a) built to the street boundary at lower levels to reinforce the City's grid layout and frame the boulevard (b) designed to provide a sense of arrival into the City and strongly define junctions where located on a corner site.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development avoids activities that result in a gap in the built form along a public road or thoroughfare (such as an open lot car park) for an extended period of time to minimise negative impacts on streetscape continuity.	DTS/DPF 3.6 None are applicable.
PO 3.7 Development along the city's boulevards (as identified in Capital City Zone Table 5.1) is designed to maximise views to the Park Lands and not clutter existing view corridors to the Adelaide Hills when viewed from the public realm.	DTS/DPF 3.7 None are applicable.
PO 3.8 Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares is designed to provide a comfortable pedestrian and recreation environment by enabling direct sunlight to a majority of the Square.	DTS/DPF 3.8 Development enables direct sunlight to a minimum of 75% of the landscaped part of each Square at the September equinox.
PO 3.9 Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares is designed to reinforce the enclosure of the Squares with a continuous built-form with no upper level setbacks.	DTS/DPF 3.9 None are applicable.
PO 3.10 Provision of outdoor eating and drinking facilities associated with cafes and restaurants fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares positively contributes to activity and creates a focus for leisure in the Squares.	DTS/DPF 3.10 None are applicable.
PO 3.11 Development with frontage to minor streets and laneways is informed by its local context, recognising that built form outcomes may need to strike a balance between: (a) design that provides a sense of enclosure, enables fine-grain uses at street level and creates an intimate, active, inclusive and walkable public realm; and (b) the need for vehicular access to service development, including for access to car parking and for refuse collection.	DTS/DPF 3.11 None are applicable.
PO 3.12 Buildings north of the City Main Street Zone are designed to enable natural sunlight access to the southern footpath of the main street.	DTS/DPF 3.12 Buildings north of the City Main Street Zone that cast a shadow on the southern footpath of the main street incorporate narrow and setback tower elements and provide spaces between buildings.
PO 3.13 Buildings are adaptable and flexible to accommodate a range of land uses.	DTS/DPF 3.13 The ground floor of buildings has a minimum floor to ceiling height of 3.5m.
Building Height	
PO 4.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context and achieves the desired outcomes of the Zone.	DTS/DPF 4.1 Development does not exceed the following building heights: **Maximum Building Height (Levels)**

	Maximum Building Height (Levels) Maximum building height is 6 levels **Maximum Building Height (Metres)** Maximum building height is 22m Maximum building height is 28m Maximum building height is 29m Maximum building height is 36m Maximum building height is 43m Maximum building height is 53m No prescribed height limit In relation to DTS/DPF 4.1, in instances where: (a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 4.2 Development exceeding the building height specified in the *Maximum Building Height (Levels) Technical* and *Numeric Variation layer and the Maximum Building Height (Metres) Technical and Numeric Variation* layer is generally not contemplated unless: (a) the development provides for the retention, conservation and reuse of a building that: (i) is a State or local heritage place and the heritage values of the place will be maintained (ii) provides a notable positive contribution to the character of the local area or (b) the building incorporates measures that provide for a substantial additional gain in sustainability and it demonstrates at least four of the following are met: (i) the development provides an orderly transition up to an existing taller building or prescribed maximum height in an adjacent Zone or building height area on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation* layer (ii) incorporates high quality open space that is universally accessible and directly connected to, and well integrated with, public realm areas of the street (iii) Incorporates high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iv) provides higher amenity through provision of private open space in excess of minimum requirements by 25 percent for at least 50 percent of dwellings (v) no on site car parking is provided (vi) at least 75% of the ground floor street fronts of the building (except where required to accommodate servicing such as waste collection by heavy vehicles, deliveries, and/or passenger drop-off and pick-up areas) are active frontages (vii) the building has frontage to a public road that abuts the Adelaide Park Lands (viii) where the development includes housing, at least 15% of the dwellings are affordable housing (ix) the impact on adjacent properties is no greater than a building of the maximum height on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation* layer in relation to sunlight access and overlooking.	DTS/DPF 4.2 None are applicable.
PO 4.3 Buildings designed to achieve optimal height and floor space yields.	DTS/DPF 4.3 New development has a minimum building height of: (a) not less than half of the maximum building height specified in DTS/DPF 4.1, or 8 building levels (with a minimum of 28m) in instances where 'No prescribed height limit' is specified in DTS/DPF 4.1; or (b) within the City Frame Subzone: 3 building levels (with a minimum of 11.5m), or 4 building levels (with a minimum of 15m) on sites fronting South Terrace other than where: (a) a lower building height is necessary to achieve compliance with the Commonwealth Airports (Protection of Airspace) Regulations (b) the site of the development adjoins the City Living Zone and a lesser building height is required to positively manage the interface with low-rise residential development (c) the site of the development adjoins a heritage place, or contains a heritage place or (d) the development includes the construction of a building in the same, or substantially the same, position as a building which was demolished, as a result of significant damage caused by an event within the previous three years where the new building has the same, or substantially the same, layout and external appearance as the previous building.
Interface	
PO 5.1 Development is designed to manage the interface with residential uses in the City Living Zone: (a) in relation to building proportions, massing, and overshadowing; and (b) by avoiding land uses, or intensity of land uses, that unduly impact residential amenity (including licensed premises).	DTS/DPF 5.1 None are applicable.
PO 5.2 Parts of a development exceed the maximum building height specified in DTS/DPF 4.1 and adjoin the City Living Zone boundaries are designed to minimise negative visual and amenity impacts to residential living areas and outdoor open space.	DTS/DPF 5.2 Parts of a building above the maximum building height specified in DTS/DPF 4.1 include additional setbacks, avoid tall sheer walls, centrally locate taller elements, and provide variation of light and shadow through articulation.
Movement	
PO 6.1 Access to, and movement within, the Capital City Zone to be universally accessible, easy, safe, comfortable, convenient and legible for people of all abilities, with priority given to pedestrians and cyclists.	DTS/DPF 6.1 None are applicable.
Access	
PO 7.1 Vehicular access points are associated with multi-level and/or non-ancillary car parks located to minimise disruption to traffic flow.	DTS/DPF 7.1 Vehicular access points associated with multi-level and/or non-ancillary car parks are located on a secondary road frontage, or utilise an existing crossover.
PO 7.2 Development designed so that vehicle access points for parking, servicing or deliveries, and pedestrian access to a site, are located to minimise interrupting the operation of and queuing on public roads and pedestrian paths.	DTS/DPF 7.2 None are applicable.
Advertisements	
PO 8.1 Advertisements use simple graphics and are restrained in their size, design and colour, and achieve an overall consistency of design and appearance along individual street frontages.	DTS/DPF 8.1 None are applicable.
PO 8.2 Advertisements along Chesser Street, French Street and Coromandel Place are located below verandah level of the ground floor.	DTS/DPF 8.2 Along Chesser Street, French Street and Coromandel Place, advertisements are not located more than 3.7m above natural ground level or an abutting footpath or street.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area In relation to DTS/DPF 9.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.
Public Realm	
PO 10.1 Development in the public realm where it: (a) does not present a safety risk to pedestrians or other users of the public road	DTS/DPF 10.1 None are applicable.

(b) does not interrupt pedestrian movement (c) does not interfere with existing infrastructure or services on the street (d) positively contributes to the vibrancy of the area (e) is consistent with the outcomes of the zone.	

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following:

Class of Development (Column A)	Exceptions (Column B)
	1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) co-living (d) consulting room (e) dwelling (f) office (g) residential flat building (h) shop (i) student accommodation (j) temporary public service depot.	Except development that exceeds the maximum building height specified in Capital City Zone DTS/DPF 4.1.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Table 5.1 - City Boulevards

West Terrace, North Terrace, East Terrace, South Terrace, Currie Street, Grenfell Street, Franklin Street, Flinders Street, Grote Street, Wakefield Street, Morphett Street, King William Street and Pulteney Street.

City Frame Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Primarily medium to high rise residential development supported by a mix of ground level shops, personal services, restaurants and community and hospitality uses, to create an active and visually continuous edge to the Adelaide Park Lands Zone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Medium to high rise residential development and other forms of accommodation supported by a mix of shops, personal services, restaurants and community and hospitality uses.	DTS/DPF 1.1 Development in medium-rise or high-rise buildings comprising one or more of the following: (a) Dwelling (b) Non-residential land uses at ground level, including: (i) Child care facility (ii) Consulting room (iii) Hotel (iv) Indoor recreation facility (v) Licensed premises (vi) Office (vii) Shop (c) Residential flat building (d) Retirement facility (e) Supported accommodation (f) Tourist accommodation.
PO 1.2 Additions to existing wholly non-residential development may occur where it is located and/or designed in a manner that does not unreasonably impact negatively upon adjacent residential land uses.	DTS/DPF 1.2 None are applicable.
PO 1.3 Small scale licensed premises, nightclubs or bars are designed and sited to maintain day and evening activation at street level where they do not unreasonably negatively impact dwellings contained within the same building or adjacent residential development.	DTS/DPF 1.3 None are applicable.
Design and Appearance	
PO 2.1 Development encourages a uniform streetscape established through a largely consistent front setback. Landscaping and small variations in front setback may occur where they will assist in softening the continuous edge of new built form, reinforce the sense of address and provide a higher amenity streetscape and pedestrian environment which is shaded by street trees and other mature vegetation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings create visual interest and active street frontages to maximise passive surveillance of the street and Adelaide Park Lands Zone.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 70% of the street frontage as visually permeable, transparent or clear glazed.

Caravan and Tourist Park Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Tourist accommodation and associated services and facilities enhance visitor experiences and enjoyment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The provision of tourist accommodation in non-permanent structures largely in the form of caravan and tent sites, cabins and transportable dwellings, are complemented by permanent buildings for tourist accommodation in appropriate locations and a range of associated facilities to enhance experiences for travellers.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Amenity block, including shower, toilet and laundry facilities (c) Dwelling in the form of a manager's residence ancillary to tourist accommodation (d) Office ancillary to tourist accommodation (e) Recreation area including tennis court, basketball court, playground (f) Shop ancillary to tourist accommodation (g) Swimming pool/spa pool (h) Tourist accommodation comprising cabins, caravans, tent sites.
PO 1.2 Tourist accommodation and associated facilities are located within an open landscaped setting for the amenity of travellers.	DTS/DPF 1.2 None are applicable.
PO 1.3 On-site amenities including shower, toilet and laundry facilities, recreation areas, swimming pool/spa and similar activities are provided in association with tourist accommodation at a scale commensurate with the number of travellers and residents able to be accommodated within the park for their convenience and enjoyment.	DTS/DPF 1.3 None are applicable.
PO 1.4 Dwelling in the form of a manager or caretaker residence associated with and ancillary to tourist accommodation for the efficient management, maintenance and support of tourist activities.	DTS/DPF 1.4 Dwelling satisfies all of the following: (a) is ancillary to and located on the same allotment as the tourist accommodation (b) has a demonstrated connection with tourist accommodation (c) will not result in more than one worker's dwelling on an allotment.
PO 1.5 Caravans, cabins and other forms of accommodation used for non-traveller residential purposes do not unduly compromise the provision and availability of tourist accommodation for the benefit and convenience of travellers.	DTS/DPF 1.5 Residential accommodation comprises no more than 40% of the total number of residences (cabins, caravan and tent sites and other accommodation) on each allotment.
PO 1.6 Shop associated with and ancillary to tourist accommodation as a convenient service to travellers accommodated within the zone.	DTS/DPF 1.6 Shop satisfies all of the following: (a) is ancillary to and located on the same allotment as tourist accommodation (b) has a gross leasable floor area up to 150m^2.
PO 1.7 Office associated with and ancillary to tourist accommodation to support the management and operational aspects of tourist development.	DTS/DPF 1.7 Office satisfies all of the following: (a) is ancillary to and located on the same allotment as tourist accommodation (b) has a gross leasable floor area up to 50m^2.
Built Form and Character	
PO 2.1 Buildings positively contribute to the character of the locality and complement the height of nearby buildings.	DTS/DPF 2.1 Building height does not exceed 1 building level and 6m.
PO 2.2 Landscaping is used to define spaces, reinforce internal networks and screen utility areas from surrounding uses to enhance visual amenity within and around the perimeter of the zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings and fixtures attached to the land and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of residents and travellers.	DTS/DPF 2.3 Buildings and fixtures attached to the land and recreational facilities are set back at least 1 metre from an internal road.
PO 2.4 Buildings are set back from public roads to mitigate impacts on the streetscape.	DTS/DPF 2.4 Buildings are set back at least 6m from a public road.
PO 2.5 Buildings, caravan and tent sites and recreational areas set back from the boundary of the zone to minimise impacts on neighbouring properties.	DTS/DPF 2.5 Buildings, caravan and tent sites and recreational areas are set back at least 2m from the zone boundary and an adjoining site in other ownership used for residential purposes.
Land Division	
PO 3.1 No additional allotment(s) are created except where a lease or licence agreement is made, granted or accepted under the *Residential Parks Act 2007* to provide for the secure accommodation of longer-term residents.	DTS/DPF 3.1 Land division for a lease or licence under the *Residential Parks Act 2007* where an agreement is made, granted or accepted under that Act.
PO 3.2 Each caravan, cabin and dwelling is provided with adequate space for the occupant's exclusive use to enhance the amenity for travellers.	DTS/DPF 3.2 Caravan, cabin and dwelling sites are not less than 100m^2 in area.
Internal Roads	
PO 4.1 Internal road surfaces are treated to prevent the generation of dust to contribute to the amenity of residents and travellers.	DTS/DPF 4.1 None are applicable.
Advertisements	
PO 5.1 Freestanding advertisements do not create a visually dominant element within the locality, particularly when facing a residential area.	DTS/DPF 5.1 Freestanding advertisements are: (a) up to 2m in height above natural ground level and up to 2m^2 per sign face when located adjacent to a zone primarily for residential development (b) up to 4m in height above natural ground level and up to 4m^2 per sign face in any other case.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. iThe development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed $40m^2$ 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed $40m^2$ 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.

• State Heritage Place Overlay	
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Land division	Any of the following: (a) land division where a lease or licence agreement is made, granted or accepted under the *Residential Parks Act 2007* (b) land division that is a boundary realignment.
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.

2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) amenity block, shower, toilet and laundry facilities (or any combination thereof) (c) tourist accommodation.	Except development that: 1. exceeds the maximum building height specified in Caravan and Tourist Park Zone DTS/DPF 2.1 or 2. does not satisfy Caravan and Tourist Park Zone DTS/DPF 2.5.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Office.	Except office that does not satisfy Caravan and Tourist Park Zone DTS/DPF 1.7.
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
7. Shop.	Except shop that does not satisfy Caravan and Tourist Park Zone DTS/DPF 1.6 or where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
8. Telecommunications facility.	Except telecommunications facility exceeding 30m in height or where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

City Living Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Predominantly low-rise, low to medium-density housing, with medium rise in identified areas, that supports a range of needs and lifestyles located within easy reach of a diversity of services and facilities that support city living. Small scale employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse housing and accommodation complemented by a range of compatible non-residential uses supporting an active and convenient neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Co-living (c) Community facility (d) Consulting room (e) Dwelling (f) Educational facility (g) Office (h) Personal or domestic services establishment (i) Place of worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Supported accommodation.
PO 1.2 Non-residential development located and designed to improve community accessibility to services primarily in the form of: (a) small-scale commercial uses such as offices, consulting rooms and personal or domestic services establishments (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement housing (d) open space and recreation facilities (e) expansion of existing hospital and associated facilities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity, and primarily comprise: (a) home-based business activities (b) the reuse and adaption of existing commercial premises (c) new businesses along street frontages with an established mixed use character, particularly the following: (i) within the Medium-High Intensity Subzone and fronting: A. Gilles Street / Gilbert Street B. Sturt Street C. Carrington Street (west of Hurtle Square) D. Archer Street E. Ward Street (ii) Tynte Street (west of Bevis Street)	DTS/DPF 1.4 A consulting room, office or personal or domestic services establishment (or any combination thereof) satisfies any one of the following: (a) comprises a change in the use of an existing building that is lawfully used as a consulting room, office or personal or domestic services establishment (or any combination thereof) (b) is located on the ground floor and associated with a dwelling where at least 50% of the total floor area of the ground floor is used for residential purposes (excluding any garage or carport associated with residential development) (c) it is wholly located on the ground floor of a building and satisfies one of the following: (i) the building is in the Medium-High Intensity Subzone and has a primary street frontage to any of the following: A. Gilles Street / Gilbert Street B. Sturt Street C. Carrington Street (west of Hurtle Square) D. Archer Street E. Ward Street (ii) the building has a primary street frontage to Tynte Street (west of Bevis Street).

PO 1.5

Development associated with or ancillary to an existing non-residential or institutional activity identified on any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code is contained on a site within a Concept Plan boundary, or any directly adjoining site, to avoid detrimental impact on adjacent residential amenity.

DTS/DPF 1.5

None are applicable.

PO 1.6

Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.

DTS/DPF 1.6

Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied:

(a) where the alterations or additions relate to a facility located within any relevant Concept Plan boundary as contained in Part 12 – Concept Plans of the Planning and Design Code, the alterations or additions are located wholly within the Concept Plan boundary
(b) set back at least 3m from any boundary shared with a residential land use
(c) building height not exceeding 1 building level
(d) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration
(e) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Built Form and Character

PO 2.1

The number of dwellings is increased in the zone while maintaining residential amenity.

DTS/DPF 2.1

The number of dwellings in the zone is increased by satisfying at least one of the following:

(a) redevelopment of poor quality and underutilised buildings or sites that are in discord with the desired outcomes of the zone and relevant subzone
(b) adaptation and conversion of non-residential buildings to residential uses
(c) development in upper levels of existing buildings, or by increasing the height of buildings or roof volumes, or on sites behind existing buildings.

PO 2.2

Development contributes to a predominantly low-rise residential character, except when located in the Medium - High Intensity Subzone or East Terrace Subzone where it contributes to a predominantly medium rise residential character, consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation* layer and the *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database or any relevant Concept Plan and positively responds to the local context.

DTS/DPF 2.2

Except where a Concept Plan specifies otherwise or on a Catalyst Site in the East Terrace Subzone, development (excluding garages, carports and outbuildings):

(a) does not exceed the following building height(s):

Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels
Maximum building height is 6 levels
Maximum Building Height (Metres)
Maximum building height is 8.5m
Maximum building height is 14m
Maximum building height is 18m
Maximum building height is 11m

(b) is not less than the following building height:

Minimum Building Height (Levels)
Minimum building height is 2 levels
Minimum building height is 3 levels

In relation to DTS/DPF 2.2, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer, *Maximum Building Height (Metres) Technical and Numeric Variation* layer, or *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
(d) only one value is returned for DTS/DPF 2.2(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other
(e) no value is returned for DTS/DPF 2.2(a) (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
(f) no value is returned for DTS/DPF 2.2(b) (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 2.2(b) is met.

PO 2.3

New buildings and structures visible from the public realm consistent with:

(a) the valued streetscape characteristics of the area
(b) prevailing built form characteristics, such as floor to ceiling heights, of the area.

DTS/DPF 2.3

None are applicable.

PO 2.4

The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the area

DTS/DPF 2.4

None are applicable.

PO 2.5

Development designed to provide a strong built-form edge to the Park Lands and Wellington Square through the regular siting and pattern of buildings addressing the primary street frontage.

DTS/DPF 2.5

None are applicable.

Building Setbacks

PO 3.1

Buildings are set back from primary street boundaries to complement the existing streetscape character.

DTS/DPF 3.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	No DTS/DPF is applicable.

For the purposes of **DTS/DPF 3.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

PO 3.2

Buildings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 3.2

Building walls are no closer than 900mm to secondary street boundary.

PO 3.3

Buildings setback from side boundaries to provide:

(a) separation between buildings in a way that is consistent with the established streetscape of the locality.
(b) access to natural light and ventilation to neighbours.

DTS/DPF 3.3

Building walls are setback from a side boundary not less than the nearest side setback of the primary building on the adjoining allotment.

PO 3.4

Buildings are setback from rear boundaries to provide:

(a) access to natural light and ventilation for neighbours
(b) open space recreational opportunities
(c) space for landscaping and vegetation.

DTS/DPF 3.4

Building walls are set back from the rear boundary at least:

(a) 3m for the ground floor level
(b) 5m for first floor building level
(c) 5m plus an additional 1m setback added for every 1m in height above a wall height of 7m.

PO 3.5

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 3.5

For buildings that do not have a common wall, any wall sited on a side boundary meets all of the following:

(a) does not exceed 3m in wall height

(b) does not exceed a length of 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone
(c) when combined with other walls on the boundary, does not exceed 45%
(d) is setback at least 3m from any existing or proposed boundary walls.

Site Dimensions and Land Division

PO 4.1

Allotments created for residential purposes that are of suitable size and dimension and are compatible with the housing pattern consistent to the locality.

DTS/DPF 4.1

Except on a Catalyst Site in the East Terrace Subzone, development accords with the following:

(a) site areas (or allotment areas in the case of land division) not less than:

Minimum Site Area
Minimum site area for a detached dwelling is 100 sqm; semi-detached dwelling is 100 sqm; row dwelling is 100 sqm; group dwelling is 100 sqm; residential flat building is 100 sqm
Minimum site area for a detached dwelling is 120 sqm; semi-detached dwelling is 120 sqm; row dwelling is 120 sqm; group dwelling is 120 sqm; residential flat building is 120 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; group dwelling is 600 sqm; residential flat building is 500 sqm

(b) site frontages not less than:

Minimum Frontage
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m

In relation to DTS/DPF 4.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
(d) no value is returned for DTS/DPF 4.1(a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

Car Parking and Access

PO 5.1

Access to parking and service areas located and designed to minimise the impacts to pedestrian environments and maintain the residential scale and pattern of development, through measures such as:

(a) providing access from minor streets, or side or rear lanes provided road width is suitable and the traffic generation does not unreasonably impact residential amenity
(b) siting any new car parking away from street frontages.

DTS/DPF 5.1

None are applicable.

PO 5.2

Car parking associated with development on an institutional or college site identified on a concept plan is provided at basement level to minimise the streetscape impact.

DTS/DPF 5.2

None are applicable.

Advertisements

PO 6.1

Advertisements identify the associated business activity, and do not detract from the residential character of the locality.

DTS/DPF 6.1

Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Concept Plans

PO 7.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.

DTS/DPF 7.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 25 - Kathleen Lumley College
Concept Plan 26 - Archer West
Concept Plan 27 - Aquinas College
Concept Plan 28 - St Mark's College
Concept Plan 29 - St Ann's College
Concept Plan 30 - Lincoln College
Concept Plan 31 - Calvary Hospital
Concept Plan 32 - St Dominic's Priory College
Concept Plan 33 - Helping Hand Aged Care
Concept Plan 84 - Carrington Street South
Concept Plan 83 - Former Channel 9 Site, North Adelaide

In relation to DTS/DPF 7.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Ancillary Buildings and Structures

PO 8.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 8.1

Ancillary buildings satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding 60m^2
(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 30% of the site frontage, or 7m in width or 50% of the site frontage where located in the Medium-High Intensity Subzone or the East Terrace Subzone, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone, unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%

	201-450 | 20% >450 | 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 8.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 8.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 8.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 8.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size | Floor area ≤500m^2 | 60m^2 >500m^2 | 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser). 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
    (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
12. If the outbuilding is a garage, it is located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
        (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
        (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
14. Does not involve-
    (a) excavation exceeding a vertical height of 1 metre; or
    (b) filling exceeding a vertical height of 1 metre,
    and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
15. Does not involve the clearance of native vegetation.
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Shade sail consists of permeable material.
4. The total area of the sail - does not exceed 40m^2.
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m.
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
9. Does not involve the clearance of native vegetation.
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%

	>450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Development associated with or ancillary to any existing non-residential or institutional activity located within the boundary of Concept Plans 25 to 33 inclusive contained within Part 12 - Concept Plans of the Planning and Design Code that is not within, or on a site adjoining, the Concept Plan boundary.	None specified
Shop	Any of the following: (a) shop that comprises a change in use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof) (b) shop with a gross leasable floor area less than 1000m² (c) shop that is a restaurant

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) child care facility (c) co-living (d) community centre (e) dwelling (f) dwelling addition (g) recreation area (h) residential flat building (i) retirement facility (j) supported accommodation (k) temporary public service depot.	Except development involving any of the following: 1. development that exceeds the maximum building height specified in City Living DTS/DPF 2.2 2. development on a Catalyst Site that exceeds the maximum building height in City Living DTS/DPF 2.2 that applies to development not on a Catalyst Site 3. development that involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
3. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) personal or domestic services establishment.	Except development that: 1. does not satisfy City Living Zone DTS/DPF 1.4 or 2. exceeds the maximum building height specified in City Living Zone DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m, or 11.5m where located in the Medium-High Intensity Subzone or East Terrace Subzone (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following): (a) air conditioning unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Medium-High Intensity Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Medium rise, medium density housing in a variety of forms with an eclectic mix of supporting non-residential land uses interspersed (including as mixed use development) that complement the area's urban residential amenity.
DO2	Redevelopment of existing non-residential sites into integrated mixed use developments to increase the residential population and vibrancy of the area.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature

Land Use and Intensity	
PO 1.1 Development of medium density accommodation types for living, including dwellings and supported accommodation.	DTS/DPF 1.1 None are applicable.
Interface Height	
PO 2.1 Development in the Medium-High Intensity Subzone that abuts the subzone boundary is designed to manage the interface with areas of the City Living Zone outside the subzone to minimise impacts with regard to building massing, proportions and overshadowing on residential development.	DTS/DPF 2.1 None are applicable.

North Adelaide Low Intensity Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Predominantly low rise low density housing on large allotments in an open landscaped setting.
DO2	An important part of the town plan of Adelaide and the city grid layout, containing large grand dwellings on landscaped grounds.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings sited and designed to complement the low-density or very-low density character of the neighbourhood, in locations where an open landscape setting is the prevailing character.	DTS/DPF 1.1 None are applicable.
Site Coverage	
PO 2.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood, in locations where an open landscaped setting is the prevailing character.	DTS/DPF 2.1 The development does not result in site coverage exceeding 50%.

East Terrace Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Predominately medium rise housing on large allotments in an open landscaped setting.
DO2	Integrated developments on catalyst sites to assist in the transformation of a locality and facilitate an increase in the residential population of the City, while also creating a greater level of activity fronting the Park Lands.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Site Coverage	
PO 1.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.	DTS/DPF 1.1 Except on catalyst sites, the development does not result in site coverage exceeding 50%.
Catalyst Sites	
PO 2.1 Development on a catalyst site includes medium to high scale residential uses.	DTS/DPF 2.1 None are applicable.
PO 2.2 Small scale shops, cafes and restaurants generally integrated with residential development and located on ground or first floor levels to increase street level activity facing the Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development designed to respond to its context and manage impacts in relation to building height, building proportions and traffic impacts, and avoid land uses, or intensity of land uses, that adversely affect residential amenity.	DTS/DPF 2.3 None are applicable.
PO 2.4 Parts of a development on a catalyst site that exceed the maximum building height specified in the *Building Height (Maximum Levels) Technical and Numeric Variation* layer designed to minimise visual impacts on adjacent sensitive uses.	DTS/DPF 2.4 None are applicable.

City Main Street Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A mixed use zone providing important shopping, hospitality, commercial, community, cultural and entertainment facilities for the city supported by medium to high-density residential development. Non-residential activities including shops, restaurants and licensed premises positively contribute to the day and evening economies, public safety, walkability and city vibrancy.
DO 2	The built form positively contributes to: (a) a streetscape that is visually interesting at human-scale, comprising articulated buildings with a high level of fenestration and balconies oriented towards the street (b) a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm and intimate character, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A vibrant mix of land uses adding to the vitality of the area and extend activities outside shop hours, including restaurants, educational, community and cultural facilities and visitor and residential accommodation.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Co-living (c) Consulting Room (d) Dwelling (e) Educational Facility (f) Hotel (g) Licensed Premises (h) Office (i) Residential Flat Building (j) Retirement Facility (k) Student Accommodation (l) Supported Accommodation (m) Shop (n) Tourist Accommodation

PO 1.2 Retail, office, entertainment and recreation related uses, supplemented by other businesses that provide a range of goods and services to the city and the surrounding district.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land uses typically open during night time hours incorporate activities along street frontages at ground level that encourage day time activation compatible with surrounding land uses.	DTS/DPF 1.3 None are applicable.
PO 1.4 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places.	DTS/DPF 1.4 Dwellings developed in conjunction with non-residential uses sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.5 Development of well-designed and diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.5 None are applicable.
PO 1.6 Ground floor level uses generate high levels of pedestrian activity and contribute to an active and vibrant main street.	DTS/DPF 1.6 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 1.7 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.7 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses; (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared
Built Form and Character	
PO 2.1 Buildings are: (a) designed to reinforce the street edge and grid pattern of the city streets (b) designed to include a podium/street wall and upper level setback that responds to local context, including the scale and context of adjacent built form, to ensure a cohesive and consistent streetscape and positively contribute to a sense of enclosure (c) of a rich visual design that has regard to above street level fenestration, balconies, parapets, architectural detailing and ornamentation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings and structures are designed to complement and respond to the established fine grained main street character by: (a) ensuring the verandah profile, and materials of construction are consistent with and positively respond to adjacent traditional main street buildings (b) complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings are designed to create visual connection between the public realm and ground level interior to ensure an active interface with the main street and maximise passive surveillance.	DTS/DPF 2.3 The ground floor primary frontage of buildings provide at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.4 Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.	DTS/DPF 2.4 Buildings that provide a continuity of verandahs, canopies, awnings or other pedestrian shelters.
PO 2.5 Buildings are adaptable and flexible to accommodate a range of land uses.	DTS/DPF 2.5 The ground floor of buildings has a minimum floor to ceiling height of 3.5m.
PO 2.6 Development that reinforces the main street as important pedestrian promenades and vibrant places.	DTS/DPF 2.6 None are applicable
PO 2.7 Shopfront security features are designed to allow visual permeability into the shop, allow for the spill of light from the shopfront onto the street, and complement the appearance of the frontage.	DTS/DPF 2.7 Security grilles incorporating solid shutters with at least 75% permeability.
PO 2.8 Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street.	DTS/DPF 2.8 Buildings with a 0m setback from the primary street boundary.
PO 2.9 In secondary streets and laneways (off the main street) building setbacks above the street wall may be relatively shallow or non-existent to create intimate spaces through a greater sense of enclosure.	DTS/DPF 2.9 Buildings with a 0m setback from the secondary street boundary.
PO 2.10 High rise built form on the northern side of Rundle Mall, Rundle Street, Hindley Street and Gouger Street incorporating slender tower elements, spaces between buildings or other design techniques that enable natural sunlight access to the southern footpath.	DTS/DPF 2.10 None are applicable.
PO 2.11 Development avoids activities that result in a gap in the built form along a public road or thoroughfare (such as an open lot car park) for an extended period of time to minimise negative impacts on streetscape continuity.	DTS/DPF 2.11 None are applicable.
Building Height	
PO 3.1 Building height is consistent with the maximum height expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context and achieves the desired outcomes of the Zone, except a catalyst site in the City High Street Subzone.	DTS/DPF 3.1 Except where a Concept Plan specifies otherwise or the development is located on a catalyst site in the City High Street Subzone, development does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 2 levels Maximum building height is 4 levels Maximum building height is 6 levels **Maximum Building Height (Metres)** Maximum building height is 14m Maximum building height is 22m Maximum building height is 34m Maximum building height is 43m Maximum building height is 53m No prescribed height limit In relation to DTS/DPF 3.1, in instances where: (a) more than one value is returned, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned for (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 3.2	DTS/DPF 3.2

In the Rundle Street, Rundle Mall, Hindley Street, and Gouger and Grote Street Subzones, development exceeding the building height specified in the *Maximum Building Height (Levels) Technical and Numeric Variation* layer and the *Maximum Building Height (Metres) Technical and Numeric Variation* layer is generally not contemplated unless: (a) the development provides for the retention, conservation and reuse of a building that: (i) is a State or local heritage place and the heritage values of the place will be maintained (ii) provides a notable positive contribution to the character of the local area or (b) the building incorporates measures that provide for a substantial additional gain in sustainability and at least four of the following are met: (i) the development provides an orderly transition up to an existing taller building or prescribed maximum height in an adjacent Zone or building height area on the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation* layer (ii) incorporates high quality open space that is universally accessible and directly connected to, and well integrated with, public realm areas of the street (iii) incorporates high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iv) provides higher amenity through provision of private open space in excess of minimum requirements by 25 percent for at least 50 percent of dwellings (v) no on site car parking is provided (vi) at least 75% of the ground floor street fronts of the building are active frontages (vii) the building has frontage to a public road that abuts the Adelaide Park Lands; (viii) where the development includes housing, at least 15% of the dwellings are affordable housing (ix) the impact on adjacent properties is no greater than a building of the maximum height on the *Maximum Building Height (Levels) Technical and Numeric Variation* layer *and Maximum Building Height (Metres) Technical and Numeric Variation* layer in relation to sunlight access and overlooking.	None is specified
PO 3.3 Buildings designed to achieve optimal height and floor space yields.	DTS/DPF 3.3 New development has a minimum building height of not less than half of the maximum building height specified in DTS/DPF 3.1, or 8 building levels (with a minimum of 28m) in instances where 'No prescribed height limit' is specified in DTS/DPF 3.1, other than where: (a) a lower building height is necessary to achieve compliance with the Commonwealth Airports (Protection of Airspace) Regulations; OR (b) the site of the development adjoins a heritage place, or contains a heritage place.
Movement, parking and access	
PO 4.1 Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form.	DTS/DPF 4.1 Vehicular access to be provided: (a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones or (b) where it consolidates or replaces existing crossovers.
PO 4.2 Development is designed to ensure car parking is located to avoid negative impacts on the main street rhythm and activation.	DTS/DPF 4.2 Vehicle parking garages are located behind buildings away from the primary main street frontage.
PO 4.3 Development designed so that vehicle access points for parking, servicing or deliveries, and pedestrian access to a site, are located to minimise interrupting the operation of and queuing on public roads and pedestrian paths.	DTS/DPF 4.3 None are applicable.
Advertisements	
PO 5.1 Except in the Hindley Street Subzone, advertisements use simple graphics and are restrained in their size, design and colour, and achieve an overall consistency of design and appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality (e) are sited and designed to not detract from the main street character.	DTS/DPF 5.2 None are applicable.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 79 - Primary Pedestrian Area In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.
Public Realm	
PO 7.1 Development in the public realm where it: (a) does not present a safety risk to pedestrians or other users of the public road (b) does not interrupt pedestrian movement (c) does not interfere with existing infrastructure or services on the street (d) positively contributes to the vibrancy of the area (e) is consistent with the outcomes of the zone.	DTS/DPF 7.1 None are applicable.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared

	3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) co-living (d) consulting room (e) dwelling (f) office (g) residential flat building (h) shop (i) student accommodation (j) supported accommodation (k) temporary public service depot.	Except development that: 1. exceeds the maximum building height specified in City Main Street Zone DTS/DPF 3.1 or 2. is on a Catalyst Site and exceeds the maximum building height in City Main Street Zone DTS/DPF 3.1 that applies to development not on a Catalyst Site or 3. development that does not satisfy City High Street Subzone DTS/DPF 3.1 or 3.2 in areas where the Subzone applies.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Gouger and Grote Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development of: (a) Gouger Street as a mix of retail, restaurant, commercial and mixed business uses, including professional services, wholesaling and culturally diverse community activities that contribute to the unique character and vibrancy of the street during the day and evening and (b) Grote Street as an active restaurant and shopping street that complements the main entrance and vibrancy of the Adelaide Central Market and supports the retail, community and diverse cultural functions of the area.
DO2	Development of Gouger Street respects a cohesive streetscape derived from the predominant 2 to 3 storey high buildings along the street edge.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Gouger and Grote streets continue to develop as an active restaurant and shopping precinct complementing the main entry points and activity of the adjacent Adelaide Central Market, while also supporting the retail, community and diverse cultural function of the wider precinct.	DTS/DPF 1.1 None are applicable.
PO 1.2 Licensed premises, nightclubs or bars that:	DTS/DPF 1.2 None are applicable.

(a) are small in scale (b) secondary to the primary land uses mix of the street (c) are located above or below ground level (d) limited in number (e) do not detract from the streets daytime activation (f) minimise negative impacts on nearby residential development. and (g) are avoided at the interface with the City Living Zone.	
PO 1.3 Mix of land uses within 'Chinatown' around Moonta Street is reinforced and opportunities for new precincts, such as in minor streets and lanes, established.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings are informed by local context frame Gouger Street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2 Buildings fronting Gouger Street are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.

Hindley Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development of: (a) Hindley Street (east of Morphett Street) as the pre-eminent evening and late night entertainment hub for metropolitan Adelaide with complementary shopping, hospitality, mixed business and high-density living and (b) Hindley Street (west of Morphett Street) as a main street with a range of retail, educational, mixed business, cultural, short-stay accommodation, hospitality uses and high-density living.
DO2	Development along Hindley Street is cognisant of a streetscape characterised by nineteenth century buildings that are predominantly 2 and 3 storeys with buildings forming a continuous built form edge along the street frontage.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Hindley Street (east of Morphett Street) comprises a mix of land uses making the area the City's primary focus for late night hospitality and entertainment.	DTS/DPF 1.1 None are applicable.
PO 1.2 Late night entertainment on Hindley Street (east of Morphett Street) is designed and managed to integrate effectively with day time and evening land use activities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Hindley Street (west of Morphett Street) comprises a mix of business, educational, cultural, short-stay accommodation, hospitality and retail activities with licensed premises integrating effectively with day time and evening land use activities.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings informed by local context that frame Hindley Street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2 Buildings fronting Hindley Street are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings fronting Hindley Street are: (a) enhanced by the refurbishment of nineteenth century buildings (b) complemented by contextual new development that provides a visually interesting built form, positively contributes to the existing and desired character and provides a safe, active and intimate human scale and (c) maintain the rhythm and visually continuity of verandahs, awnings, parapets and facade lines and other architectural details at podium level.	DTS/DPF 2.3 None are applicable.

Rundle Mall Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Rundle Mall is developed as the state's premier shopping destination.
DO2	Development is informed by Rundle Mall's strong and unique character, vibrancy and sense of place, established by a pedestrian space framed by continuous built form made-up of active frontages that are fine-grained and visually interesting from the public realm, and framed with a strong sense of arrival from King William Street and Pultney Street and the adjoining minor streets, arcades and laneways.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A premier retail area consisting of a mix of complementary land uses that include a wide range of specialty and larger scale shops and mixed business and land uses, including residential and office on upper levels, that extend activity into the evening to enhance public safety and the vibrancy of the area.	DTS/DPF 1.1 None are applicable.
Built Form and Character	
PO 2.1 Buildings positively contribute to the built form framing Rundle Mall's public realm by responding the local context and provide visual relief at ground level from building height and massing.	DTS/DPF 2.1 Buildings:

	(a) include a clearly defined podium or street wall with a maximum building height of 6 building levels and and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
Movement and Access	
PO 3.1 Pedestrian movement network is made up of pedestrian malls, arcades and lanes that are safe, legible, comfortable and universally designed, and link the surrounding areas to provide a variety of north-south routes to Rundle Mall and east-west links for people moving between buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Access for on-site servicing and deliveries from minor streets and private lanes is provided wherever possible, rather than from Rundle Mall.	DTS/DPF 3.2 None are applicable.

Rundle Street Subzone

Assessment Provisions (AP)

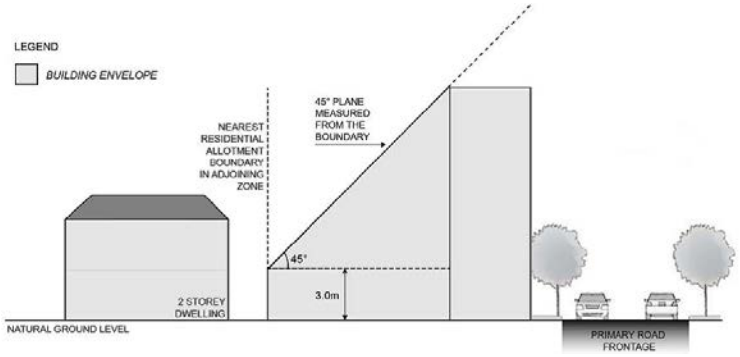
Desired Outcome (DO)

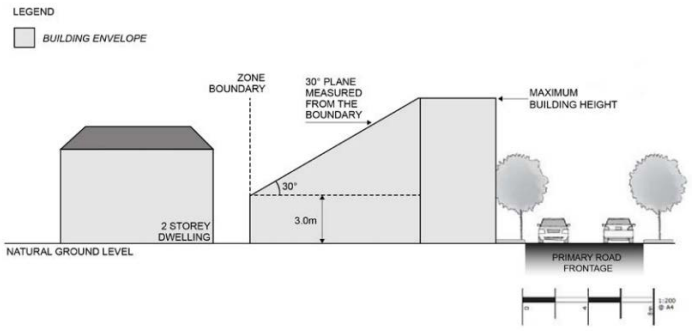
Desired Outcome	
DO1	Rundle Street is developed as an important shopping, leisure, dining and gathering place, complemented by compatible residential accommodation in upper levels.
DO2	Development along Rundle Street is informed by the local context, including the existing built form and heritage buildings of relatively consistent scale and massing that were built in the nineteenth and early twentieth century with façades that typically provide a high proportion of solid-to-void, a high level of articulation (including ornamentation and fenestration) and a combination of high-quality materials).

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A premium retail and leisure area comprising an active restaurant and shopping precinct and a mix of land uses, including residential on upper levels, that extend activity into the evening to enhance the vibrancy of the area.	DTS/DPF 1.1 None are applicable.
PO 1.2 Licensed premises, nightclubs or bars: (a) small in scale (b) secondary to the primary land uses mix of the street (c) located above or below ground level (d) limited in numbers (e) do not detract from the streets daytime activation (f) minimise negative impacts on nearby residential development.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings with frontage to Rundle Street (west of Frome Street) are informed by the local context when transitioning from podium element within the streetscape to taller set-back elements to protect the human scale of the main street.	DTS/DPF 2.1 Buildings with frontage to Rundle Street (west of Frome Street): (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height and (b) have levels above the defined podium or street wall setback a minimum of 3m from that wall.
PO 2.2 Buildings with frontage to Rundle Street (west of Frome Street) are designed to reinforce the prevailing datum heights and parapet levels of the street by design elements that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings with frontage to Rundle Street (east of Frome Street): (a) incorporate podium elements to reconcile the scale relationship between the taller elements and the existing streetscape and (b) are designed to reinforce the prevailing datum heights and parapet levels of the street.	DTS/DPF 2.3 Buildings fronting Rundle Street (east of Frome Street) include: (a) a maximum podium/street wall height that is consistent with one of the adjacent buildings facing the street and does not exceed 13m (b) an upper level setback, measured from the street wall, of not less than 3m stepping up to a height of 6 storeys, then a further setback of not less than 3m stepping up to the maximum overall height and (c) design elements that create a clear distinction between the 13m and 22m datum lines.
PO 2.4 Buildings with frontage to Rundle Street: (a) are carefully designed so that the historic main street character is retained and enhanced (b) are consistent with the intimate scale and intricate and diverse architectural features of Rundle Street (c) maintain the continuity of building facades retaining the subtle diversity and variety of roof and parapet lines and the horizontal massing of the townscape (d) incorporate a vertical emphasis in the composition of their street facades and the disposition and proportioning of openings and (e) ensure upper levels of buildings are designed to reduce visual mass from the human scale of the main street.	DTS/DPF 2.4 None are applicable.
Movement and Access	
PO 3.1 Pedestrian movement network is made up of pedestrian malls, arcades and lanes that are safe, legible, comfortable and universally designed, and link the surrounding areas to provide a variety of north-south routes to Rundle Mall and east-west links for people moving between buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Access for on-site servicing and deliveries from minor streets and private lanes is provided wherever possible, rather than from Rundle Mall.	DTS/DPF 3.2 None are applicable.

City High Street Subzone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A safe, walkable and vibrant shopping, entertainment and commercial high street precinct with an active day and evening economy supported by medium density residential development.
DO 2	Development along a city high street that contributes to an intimate public realm with active streets.
DO 3	Integrated developments on catalyst sites to assist in the transformation of a locality and facilitate an increase in the residential population of the City, while also activating the public realm and creating a vibrant main street feel.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A vibrant mix of land uses adding to the vitality of the area, providing services to the local community, and visitor and residential accommodation.	DTS/DPF 1.1 None are applicable.

PO 1.2 Licensed premises, nightclubs or bars that: (a) are small in scale (b) secondary to the primary land uses mix of the street (c) are located above or below ground level (d) limited in number (e) do not detract from the street's daytime activation and (f) minimise negative impacts on nearby residential development.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings informed by local context that frame main street and nearby public realm, and provide overall visual relief from building mass at ground level.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 2 building levels in height; and (b) have levels above the defined podium or street wall setback of 3m or more from that wall.
PO 2.2 Buildings fronting the main streets are designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings fronting the main street are: (a) enhanced by the refurbishment of nineteenth century buildings (b) complemented by contextual new development that provides a visually interesting built form, positively contributes to the existing and desired character and provides a safe, active and intimate human scale and (c) maintain the rhythm and visually continuity of verandahs, awnings, parapets and facade lines and other architectural details at podium level.	DTS/DPF 2.3 None are applicable.
Interface	
PO 3.1 Except on catalyst sites , buildings mitigate visual impacts of building massing on residential development within the City Living Zone.	DTS/DPF 3.1 Except on catalyst sites , buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within the City Living Zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary): 
PO 3.2 Except on catalyst sites , buildings mitigate overshadowing of residential development within the City Living Zone.	DTS/DPF 3.2 Except on catalyst sites, buildings on sites with a southern boundary adjoining the boundary of an allotment used for residential purposes in the City Living Zone are constructed within a building envelope provided by a 30 degree plane grading north, measured from a height of 3m above natural ground level at the allotment boundary as shown in the following diagram: 
PO 3.3 Buildings on an allotment fronting a road that is not the primary corridor (ie O'Connell Street, Hutt Street, Melbourne Street, Sturt Street or Halifax Street) and where land on the opposite side of that road is within a neighbourhood-type zone, provide an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.3 None are applicable.
Catalyst Sites	
PO 4.1 Development on a catalyst site comprises medium to high rise residential development that is carefully integrated with non-residential development.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development on catalyst sites designed to manage the interface with the City Living Zone with regard to intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 4.2 None are applicable.
PO 4.3 Catalyst sites contribute to the vibrancy of the main street through building designs that: (a) include a mix of land uses that create activity and overlooking of the street, particularly at the ground level and the first floor; (b) create the appearance of narrow frontages and enhance visual interest; (c) are vertically massed; and (d) include above street level fenestration, balconies, parapets, architectural detailing and ornamentation which contribute to the rich visual texture.	DTS/DPF 4.3 None are applicable.
PO 4.4 The scale of development on catalyst sites respond to its context, particularly the nature of adjacent land uses and the interface treatments required to address impacts on sensitive uses.	DTS/DPF 4.4 None are applicable.
PO 4.5	DTS/DPF 4.5

Where there is an apparent conflict between the catalyst site provisions and subzone provisions (including any quantitative criteria) the catalyst site provisions will take precedence.	None are applicable.

City Riverbank Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Exemplary design quality and architecture that is contemporary and innovative and respectful of the heritage buildings, Adelaide Park Lands setting and civic functions of the locality.
DO 2	A fine grained precinct with a quality public realm that is inviting and comfortable for pedestrians.
DO 3	Strong visual and physical connections between important buildings, public spaces, the Adelaide Park Lands and other key destinations.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of community, commercial and employment generating land uses (not including residential development) that connect the city centre to the natural environment of the River Torrens and Adelaide Park Lands with clusters of related activities, such as: (a) clinical health, training, education and research (b) entertainment, tourism and accommodation (c) education and administration (d) innovative science and employment (e) community and cultural institutions.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Arena (c) Child care facility (d) Community centre (e) Consulting room (f) Office (g) Convention centre (h) Educational facility (i) Entertainment venue (j) Helicopter landing facility (k) Hospital (l) Hotel (m) Licensed premises (n) Land division (o) Light industry (including high technology and research based activity) (p) Shop (q) Tourist accommodation.
PO 1.2 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.2 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from any neighbourhood-type zone, or the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to a state maintained road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Building heights provide an orderly transition in scale, with lower buildings located towards the Adelaide Park Lands, Adelaide Botanic Garden and River Torrens and taller buildings towards North Terrace.	DTS/DPF 2.1 None are applicable
PO 2.2 Development: (a) contributes to the activation of the public realm by presenting an attractive human scaled pedestrian-oriented frontage at ground level that adds interest and vibrancy (b) contributes to pedestrian comfort by minimising micro climatic impacts (c) maintains a sense of openness to the sky for pedestrians and allow sunlight access to the public realm, particularly plaza areas during the Spring and Autumn (d) provides a clear sense of address to each building (e) is compatible with the topography of the site and change in character from a strong city edge on the southern side of North Terrace to the landscaped setting provided by the River Torrens and Adelaide Park Lands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development reinforces the grand boulevard character of North Terrace and King William Road by reflecting the patterns of landscaped spaces and built form, building proportions and scale.	DTS/DPF 2.3 None are applicable.
PO 2.4 Coordinated development provides public spaces and landscaping, including deep plantings that soften the dominance of buildings and provide a range of spaces that are suitable for group meetings, social activities and passive enjoyment.	DTS/DPF 2.4 None are applicable.
PO 2.5 Pedestrian shelter, public art, street furniture and the like designed as an integral part of built form, open space and landscaping.	DTS/DPF 2.5 None are applicable.
PO 2.6 The contribution of heritage buildings is enhanced by ensuring: (a) buildings can be adapted and reused for modern purposes while protecting important heritage fabric (b) views and physical connections to heritage buildings and their important heritage features is maintained (c) the ground level interface with heritage buildings incorporates publicly accessible spaces and active land uses that support public access where appropriate.	DTS/DPF 2.6 None are applicable.
PO 2.7 Development recognises the Karrawirra Pari / Riverbank precinct as a place of gathering and significance for traditional indigenous custodians, through visible, authentic and immersive initiatives that: (a) celebrate, tell and bring to life the stories of traditional custodians (b) reinforce the identity and purpose of the Karrawirra Pari precinct (c) rehabilitate the river corridor, that can be used as an educative tool for indigenous culture and practices.	DTS/DPF 2.7 None are applicable.
Advertising	
PO 3.1 Advertisements designed to achieve an overall consistency of appearance and be of a type, scale and image that complement the zone.	DTS/DPF 3.1 None are applicable.
Movement, parking and access	
PO 4.1	DTS/DPF 4.1

Pedestrian and cycle movement based on a network of pathways linking the surrounding zones and providing a variety of north-south and east-west links including: (a) connections between North Terrace and the River Torrens linear park at key pedestrian focal points, in particular: (i) the continuation of Bank Street connecting through to the Adelaide Oval footbridge, (ii) along the western side of the Adelaide Railway Station Building connecting through to the Adelaide oval footbridge (iii) the continuation of Gray Street, (iv) along Montefiore Road through to Morphett Street and (v) along King William Road through to King William Street (b) the Gawler Greenway, Outer Harbor Greenway and River Torrens Linear Park trail (c) the Adelaide Park Lands trail through the Innovation Subzone to connect to the existing trail to the north (d) an east-west connection across the railway line from the Royal Adelaide Hospital through to Gaol Road and beyond to Bonython park (e) improved east-west connections between land located on the eastern and western sides of Montefiore Road.	None are applicable.
PO 4.2 A central pedestrian pathway designed as a single plane surface and maintained to: (a) allow people to walk and ride through and within the Zone from East to West and connect with the North to South pathways (b) link key buildings and public areas within the Zone.	DTS/DPF 4.2 None are applicable.
PO 4.3 Pedestrian movement prioritised and designed to be free from vehicle conflict.	DTS/DPF 4.3 None are applicable.
PO 4.4 Development provides a safe night-time environment along streetscapes, pedestrian and cycle paths and building surrounds by the arrangement of buildings and active building frontages that enhance casual surveillance and provide appropriate lighting and clear lines of sight.	DTS/DPF 4.4 None are applicable.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 85 - City Riverbank - Innovation Concept Plan 125 - City Riverbank - West Concept Plan 153 - City Riverbank - Festival Plaza In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels. 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996Panels are installed parallel to the roof of a building and with 2. underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is not adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) consulting room (c) light industry (including high technology and research based activity) (d) office (e) shop (f) temporary public service depot.	Except development that does not satisfy: 1. Health Subzone DTS/DPF 2.1 in areas where the Subzone applies 2. Entertainment Subzone DTS/DPF 2.1 in areas where the Subzone applies 3. Innovation Subzone DTS/DPF 3.1 in areas where the Subzone applies 4. Cultural Institutions Subzone DTS/DPF 2.4 in areas where the Subzone applies.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) Swimming pool or spa pool and associated swimming pool safety features (n) tree damaging activity (o) verandah (p) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Cultural Institutions Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A vibrant cluster of cultural and institution uses including tertiary education, research, viceregal, libraries and museums that attract students, professionals, workers and visitors to the city.
DO 2	Well designed and functional buildings and public spaces that provide pedestrian and cyclist friendly streetscapes and active street frontages that facilitate positive social interaction.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A diverse range of cultural and institutional uses including tertiary education and associated student accommodation, research, library, viceregal, museums and galleries.	DTS/DPF 1.1 The types of development envisaged within the zone, except: (a) Convention centre (b) Entertainment venue (c) Helicopter landing facility (d) Hospital (e) Motel (f) Serviced apartments (g) Tourist accommodation.
PO 1.2 A limited range of secondary activities that are complementary to the primary purpose of the subzone, such as student accommodation, shops, licensed premises, community facilities, and research facilities, and avoid other uses.	DTS/DPF 1.2 None are applicable.
Built Form and Character	

PO 2.1 Development that emphasises the horizontal grouping of building elements anduses vertical proportions in projections and in the disposition of openings.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings with modelled and textured facades of predominantly masonry appearance similar to the early buildings that contribute to the established historical character of the zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings that complement the form, appearance, materials and finishes of existing buildings in the locality, including the predominant: (a) red brick or masonry walls (b) slate, shingles, terra cotta tiles or copper for exposed roofs.	DTS/DPF 2.3 None are applicable.
PO 2.4 Building heights within the zone transition down to the Adelaide Park Lands from the height of existing buildings established along North Terrace.	DTS/DPF 2.4 Buildings located: (a) along road and Adelaide Park Lands frontages not exceeding 3 building levels and 11.5m in building height (b) away from road and Adelaide Park Lands frontages not exceeding 6 building levels and 22m in building height.
PO 2.5 Pleasant and interesting lawn and paved landscaped areas that create spaces suitable for a variety of activities ranging from those suitable for group meetings and social activities to those for quiet retreat and relaxation.	DTS/DPF 2.5 None are applicable.

Entertainment Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A prominent, vibrant and safe public plaza that provides a focal point for the Riverbank precinct and is supported by a vibrant mix of land uses that encourage use by city workers, residents, families, students, youth, children and tourists.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of a range of cultural, parliamentary, office, entertainment, retail, conference and ancillary land uses.	DTS/DPF 1.1 None are applicable
PO 1.2 A range of health, education and research facilities may also be developed west of Montefiore Road to complement existing and emerging health-related activities in the adjacent Health Subzone.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Buildings of a height and scale that references North Terrace, and minimises impacts on the River Torrens.	DTS/DPF 2.1 None are applicable.
PO 2.2 Where buildings exceed 20 building levels or 71m in building height they will: (a) be of exemplary design (b) not be located adjacent to the River Torrens (c) positively respond to the local context and achieves the desired outcomes of the Zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings adjacent to the River Torrens, east of Montefiore Road, are designed to provide an active edge to the river and are of a low scale commensurate with its landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings along King William Road are designed to enable views through to important State Heritage buildings and the public plaza area.	DTS/DPF 2.4 None are applicable.
PO 2.5 A new public plaza developed on a single plane minimising grade changes across the site so as to maximise pedestrian connectivity.	DTS/DPF 2.5 None are applicable.
PO 2.6 Development adjacent to the River Torrens, west of Montefiore Road: (a) provides an active and appealing edge to the river (b) achieves a high level of amenity (c) is of high quality design, particularly when viewed from the northern side of the river (d) maintains an open, safe and connected pedestrian and cycle route along the river's edge (e) provides a transition in scale down from North Terrace to the river and complements the scale of development on the eastern side of Montefiore Road.	DTS/DPF 2.6 None are applicable
PO 2.7 Development at ground level within the forecourt area containing the 'Yerrakartarta' public artwork (located to the west of the Adelaide Railway Station building) provides connections between North Terrace and the Riverbank.	DTS/DPF 2.7 None are applicable
PO 2.8 Buildings, particularly those that face the River Torrens, incorporate active land uses and design techniques at ground level that contribute to the vitality, safety and activation of the riverbank precinct.	DTS/DPF 2.8 None are applicable

Health Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A health precinct that creates an identifiable and unified city precinct with strong connections to the Torrens River, North Terrace, the Royal Adelaide Hospital and the city.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of significant health, education and research facilities that support the establishment of a significant health and biomedical precinct.	DTS/DPF 1.1 None are applicable
PO 1.2 Land on the north-western side of the railway line developed primarily with facilities that: (a) support and complement the range of health, education and research facilities envisaged in the balance of Health Subzone (b) enable pedestrian and cycle movement through to the Adelaide Park Lands Zone.	DTS/DPF 1.2 None are applicable.
PO 1.3	DTS/DPF 1.3

Adaptation and reuse of the Police Barracks: (a) supported through a range of additional uses such as community and tourism activities (b) in a manner that complements the historic values and park lands setting of the locality.	None are applicable
PO 1.4 Adaptation and reuse of the Old Adelaide Gaol and associated buildings: (a) supported through a range of additional uses such as community and tourism activities (b) in a manner that complements the historic values and park lands setting of the locality.	DTS/DPF 1.4 None are applicable
Built Form and Character	
PO 2.1 Buildings have a positive scale relationship to the North Terrace edge of the Capital City Zone and provide a grand entrance to the city from the west.	DTS/DPF 2.1 Buildings fronting North Terrace not exceeding 15 building levels and 53m in building height.
PO 2.2 Where buildings exceed 15 building levels or 53m in building height they will be of exemplary design.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings north of the central pathway provide an active edge to the River Torrens and are of a low scale commensurate with the landscape setting.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development provides a satisfactory interface to roads and railways by addressing issues of access, safety, security, noise, air emissions and vibration so that: (a) the effective and efficient operation of the road system and rail service adjacent to the Zone is not detrimentally affected (b) the potential for adverse impacts on hospital occupants and activities as a result of road traffic and the operation of rail services adjacent to the Zone is minimised.	DTS/DPF 2.4 None are applicable.
PO 2.5 Development sited and designed to enable the continued operation of rail and road services within and adjacent to the Zone.	DTS/DPF 2.5 None are applicable.
PO 2.6 Building heights on the north-western side of the railway transition down in scale, with lower buildings located towards the Adelaide Park Lands and in a manner that complements the existing heritage features of the adjoining Police Barracks and Old Adelaide Gaol.	DTS/DPF 2.6 None are applicable.

Innovation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An innovation precinct accommodating a range of commercial, educational and research activities supported by a mix of compatible employment generating land uses including tourism, hospitality, cultural, entertainment and retail activities.
DO 2	A range of low to high rise buildings with high quality contemporary buildings and public spaces within a landscaped setting that responds to heritage buildings on the site and transition down in height and scale towards the Adelaide Park Lands and the Adelaide Botanic Garden.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of innovative commercial, cultural (including museum and art gallery), educational and research activities supported by a mix of compatible employment generating land uses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Small scale retail development to meet the day to day needs of workers and visitors to the precinct.	DTS/DPF 1.2 Shops not exceeding 250m^2 total gross leasable floor area.
PO 1.3 A range of small to medium scale services and facilities serving the area such as child care facilities, entertainment, hospitality and the like.	DTS/DPF 1.3 None are applicable.
PO 1.4 Child care facilities, hotels, licensed premises and tourism accommodation established as secondary uses on the site of a lesser scale and prominence.	DTS/DPF 1.4 None are applicable.
PO 1.5 Higher impact land uses such as commercial development (including high technology and research based activity) clustered in key nodes where compatible with adjoining uses.	DTS/DPF 1.5 None are applicable.
Built Form and Character	
PO 2.1 A high standard of contemporary architectural design providing an innovative response to the unique context of the area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development reinforces the grand boulevard character of North Terrace by reflecting the patterns of landscaped spaces and built form, building proportions and scale.	DTS/DPF 2.2 None are applicable.
PO 2.3 Outdoor eating and drinking facilities associated with cafés and restaurants on ground floors contribute to the vitality of the Zone.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings in proximity to the Adelaide Botanic Garden or Adelaide Park Lands are sited and designed to create view corridors to and from the Botanic Garden.	DTS/DPF 2.4 None are applicable.
PO 2.5 Buildings in proximity to the Adelaide Botanic Garden or Adelaide Park Lands should seek to minimise impacts on plant collections as a result of overshadowing, stormwater runoff, heat, light or wind direction.	DTS/DPF 2.5 None are applicable.
Building Height	
PO 3.1 Buildings of a height and scale that minimise impacts on the Adelaide Botanic Garden and Adelaide Park Lands as well as referencing the scale of buildings facing North Terrace and Frome Road.	DTS/DPF 3.1 Except where located in the Innovation Centre (identified on the Innovation Subzone Concept Plan), buildings not exceeding 15 building levels and 53m in building height.
PO 3.2 Buildings in the Innovation Centre (identified on Concept Plan 85 - City Riverbank - Innovation, Adelaide) only exceed 15 building levels or 53m in building height where: (a) exemplary standards of architectural merit and environmental sustainability are met (b) the building positively contributes to the quality and function of the urban fabric of the precinct overall (c) overshadowing impacts on the Adelaide Botanic Garden are minimised (d) and at least four of the following are provided: (i) high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street (ii) high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site to the surrounding pedestrian network (iii) no on-site car parking (iv) active frontages are located on at least 75 percent of the ground floor street fronts of the building or (v) the building is designed to provide measures that provides for a substantial additional gain in sustainability.	DTS/DPF 3.2 None are applicable.
Open Space	

PO 4.1 Open space: (a) is coordinated to provide a variety of pleasant, cohesive, hard and soft, high quality landscaped spaces among and adjacent to buildings (b) incorporates planting themes defined by a mix of exotic and Australian native plantings, lawns and garden beds.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development on the eastern portion of the site (as shown on Innovation Subzone Concept Plan): (a) results in an open park like setting complementary to the Adelaide Botanic Garden (b) is carefully managed to sensitively balance its interaction with surrounding uses such as the Adelaide Zoo, Adelaide Botanic Garden and the Adelaide Park Lands (c) minimises uses or activities that would alienate the area from public usage (d) provides opportunities for tourism, education, research, informal recreation and cultural enjoyment (e) improves pedestrian links through the area, and improve the public realm and use and enjoyment of the Adelaide Park Lands (f) provides greater exposure and accessibility for the Adelaide Botanic Garden and North Terrace frontage.	DTS/DPF 4.2 None are applicable.
PO 4.3 Boundary treatments with the Adelaide Botanic Garden are of an open and transparent nature with the use of design features, fencing, landscaping treatments that integrate with the open space setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Existing open space at the northern end of the Innovation Subzone (as shown on Innovation Subzone Concept Plan) is maintained to provide : (a) a pedestrian link between Frome Road and the Adelaide Botanic Gardens (b) a continuation of the open vista from the Adelaide Botanic Gardens through to the heritage listed Barr Smith Library within the grounds of the Adelaide University.	DTS/DPF 4.4 None are applicable
Movement and parking	
PO 5.1 Development incorporates the connection of the Adelaide Park Lands Trail between the Adelaide Park Lands and North Terrace within the area identified as Public Space and Park Lands Trail on the Innovation Subzone Concept Plan, and: (a) provides a safe, welcoming, connected and convenient experience for people walking and cycling (b) supports interaction with the variety of Park Lands landscapes and activities, including a high amenity interface with the Adelaide Botanic Gardens and buildings within the cultural precinct (c) creates a natural Park Lands experience that blends the edge between the site and Botanic Garden (d) minimises the length of the trail adjacent to a public road.	DTS/DPF 5.1 None are applicable.
PO 5.2 Where parking for multiple cars is provided, it: (a) is not located at ground floor street frontages or detract from the provision of active street frontages (b) minimises the extent of parking that is visible from public areas to that which is required for emergency service vehicles, temporary event parking and set down (drop off) functions (c) incorporates façade treatments where located along major street frontages or interfacing with the Adelaide Park Lands or Botanic Garden, with the built form sufficiently enclosed and detailed to complement neighbouring buildings and screen vehicle parking from view from public areas and other buildings (d) is comprehensively integrated with high quality landscaping that includes large trees (e) is ancillary to an approved or existing use.	DTS/DPF 5.2 None are applicable.
Advertising	
PO 6.1 Advertisements use simple graphics and be restrained in their size, design and colour.	DTS/DPF 6.1 None are applicable.
PO 6.2 In minor streets and laneways, a greater diversity of type, shape, numbers and design of advertisements are appropriate provided they are of a small-scale and located to present a consistent message band to pedestrians.	DTS/DPF 6.2 None are applicable.

Coastal Waters and Offshore Islands Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection and enhancement of the natural marine and coastal environment and recognition of it as an important ecological, commercial, tourism and recreational resource and passage for safe watercraft navigation.
DO 2	A limited number of small-scale, low-impact developments supporting conservation, navigation, science, recreation, tourism, aquaculture or carbon storage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Small-scale, low-impact development for the purpose of conservation, navigation, science, recreation, tourism or aquaculture.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Aquaculture (d) Boat berth (e) Campground (f) Dwelling alterations or additions (g) Farming (h) Jetty (i) Navigation structures, boat berth, pier, pontoon or similar structure (j) Public amenities (k) Renewable energy facility.
Development on off-shore islands	
PO 2.1 Islands that are isolated from the mainland are not developed for residential development until the appropriate level of infrastructure, hazard protection and environmental management is in place.	DTS/DPF 2.1 None are applicable.
PO 2.2 Farming activities on offshore islands occur on already cleared land and outside of areas containing native vegetation, coastal dunes and wetlands.	DTS/DPF 2.2 None are applicable.
PO 2.3 Small-scale tourist accommodation on offshore islands such as camping grounds, huts and cabins avoids delicate or environmentally sensitive areas.	DTS/DPF 2.3 None are applicable.
PO 2.4 Renewable energy facilities and ancillary development do not impact on the scenic quality of the coast and islands.	DTS/DPF 2.4 None are applicable.
PO 2.5 Small-scale ground-mounted solar power facilities on islands to service existing approved development on the same land.	DTS/DPF 2.5 Solar power facilities satisfy all of the following: (a) do not generate more than 30KW (b) generate power which is to be used wholly in association an approved land use (c) are set back at least 10m from adjoining allotments in other ownership (d) are not located within 100m of a dwelling in other ownership.
PO 2.6	DTS/DPF 2.6

Offshore recreational pontoons avoid seagrass and are safely secured.	Offshore recreational pontoons satisfy all of the following: (a) are not fixed to the shoreline or to any other structure (b) are not located over seagrass (c) include anchors designed to withstand seasonal wave conditions.
Environmental Protection	
PO 3.1 Development is undertaken in a manner which minimises the potential for harm to the marine and coastal environment or to fisheries and aquaculture, including harm arising from actions that introduce a biosecurity risk.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development avoids pollution (including turbidity and sedimentation) ,shading and effects on water flows harming the marine environment both inside and outside of the zone.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development avoids important nesting or breeding areas and areas that are important for the movement/migration patterns of fauna.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development avoids delicate or environmentally sensitive coastal areas and key habitat areas within and adjacent offshore islands such as sand dunes, cliff tops, estuaries, wetlands, mangroves and samphire areas.	DTS/DPF 3.4 None are applicable.
PO 3.5 Offshore development is sited to minimise potential impacts on, and to protect the integrity of, reserves under the *National Parks and Wildlife Act 1972* and the *Marine Parks Act 2007*.	DTS/DPF 3.5 Offshore development is located not less than 1km from the boundary of any reserve under the *National Parks and Wildlife Act 1972*, unless a lesser distance is agreed with the Minister responsible for that Act.
Built Form and Character	
PO 4.1 Development on offshore islands is sited and designed unobtrusively to minimise the visual impact on the natural environment by: (a) using low-reflective materials and finishes that blend with, and colours that complement, the surrounding landscape (b) being located below hilltops and ridgelines (c) being screened by existing vegetation.	DTS/DPF 4.1 None are applicable.
Land Division	
PO 5.1 Land division on offshore islands supports the management or improvement of the natural environment including avoiding: (a) further fragmentation of land that may reduce effective management of the environment (b) parcel arrangements that increase direct property access to waterfront areas.	DTS/DPF 5.1 Land division on offshore islands achieves (a) and (b): (a) does not create any additional allotments (b) boundary realignments do not result in any additional allotments with frontage or direct access to the coast and will satisfy one of the following: (i) is for the creation of a public road or a public reserve (ii) is to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures (iii) is for the management of existing native vegetation.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located:

	(a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: 10. if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling 11. in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) building work on railway land (e) carport (f) deck (g) dwelling alterations or additions (h) farming (i) fence (j) internal building works (k) navigation structures, boat berth, pier, pontoon or similar structure (or any combination thereof) (l) land division (m) outbuilding (n) pergola (o) private bushfire shelter (p) protective tree netting structure (q) public amenities (r) recreational pontoon (s) replacement building (t) retaining wall (u) shade sail (v) solar photovoltaic panels (roof mounted) (w) swimming pool or spa pool and associated swimming pool safety features (x) tree damaging activity (y) temporary accommodation in an area affected by bushfire (z) verandah (aa) water tank.	None specified.

3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Coastal Waters and Offshore Islands Zone.

Placement of Notices - Exemptions for Restricted Development

Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Coastal Waters and Offshore Islands Zone.

Commonwealth Facilities Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating nationally significant aviation and defence-related activities. **NOTE**: Land in the zone is subject to Commonwealth laws where development may occur without the need for an approval under the *Planning, Development and Infrastructure Act 2016*. In circumstance where a class of development is proposed that is subject to state planning laws, the development is subject to assessment against the Planning and Design Code.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Commonwealth aviation and defence-related development and complementary activities.	DTS/DPF 1.1 None are applicable.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure	None

Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	**Exceptions (Column B)**

Placement of Notices - Exemptions for Restricted Development	
None specified.	

Community Facilities Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a range of community, educational, recreational and health care facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community, educational, recreational and / or health care services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Cemetery (b) Child care facility (c) Community facility (d) Consulting room (e) Educational facility (f) Emergency services facility (g) Health care facility (h) Hospital (i) Indoor recreation facility (j) Library (k) Office associated with community service (l) Place of worship (m) Recreation area (n) Shop
PO 1.2 Shops including restaurants are of a scale that is subordinate to the principal community use of land.	DTS/DPF 1.2 Shop gross leasable floor area does not exceed 250m^2.
PO 1.3 Offices are of a scale that is subordinate to the principal community use of land.	DTS/DPF 1.3 Office gross leasable floor area does not exceed 250m^2.
PO 1.4 Integration and coordination of land uses to enhance the accessibility and efficiency of service delivery.	DTS/DPF 1.4 None are applicable.
PO 1.5 Development avoids inhibiting or prejudicing future delivery of community, educational, recreational or health care services.	DTS/DPF 1.5 None are applicable.
PO 1.6 Community facilities are designed to encourage flexible and adaptable use of open space and facilities for a range of uses over time.	DTS/DPF 1.6 None are applicable.
PO 1.7 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.7 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height and Setbacks	
PO 2.1 Building height is consistent with the maximum height expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer and the Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally consistent with the prevailing character of the locality and height of nearby buildings.	DTS/DPF 2.1 Other than on a Catalyst site in the St Andrews Hospital Precinct Subzone, development does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 5 levels Maximum building height is 6 levels Maximum building height is 14 levels **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 8.2m Maximum building height is 9m Maximum building height is 10m Maximum building height is 11.5m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 15m Maximum building height is 18m Maximum building height is 18.5m Maximum building height is 43m In relation to DTS/DPF 2.1, in instances where:

	(a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 2.2 Buildings mitigate the visual impacts of massing on residential development within a neighbourhood-type zone.	DTS/DPF 2.2 Except in the St Andrews Hospital Precinct Subzone and the part of the WHC and Memorial Hospital Precinct Subzone north of Kermode Street, buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 2.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 2.3 Buildings on sites with a southern boundary adjoining the an allotment boundary used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 2.4 Buildings are set back from all boundaries (other than street boundaries) to minimise impacts on neighbouring residential properties, including access to natural light and ventilation	DTS/DPF 2.4 Buildings are set back a minimum 3m from all boundaries where the subject land abuts an allotment used for residential purposes, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.
PO 2.5 Buildings on an allotment fronting a road that is not a State Maintained Road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 2.5 None are applicable.
Advertisements	
PO 3.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 3.1 Freestanding advertisements satisfy all of the following: (a) do not exceed 2m in height (b) do not have a sign face that exceeds $2m^2$ per side.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 71 - Hamley Bridge Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 90 - Residential - Gardner St, Littlehampton Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 156 - Precinct 202 In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence	

Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Educational facility Except where any of the following apply: • Hazards (Bushfire - High Risk) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Development comprises the construction, alteration of, or addition to, a classroom or other covered outdoor educational area within the area of an existing educational facility. 2. The building does not exceed 1 building level. 3. The building is setback at least 3m from any boundary. 4. The floor area of the building does not exceed 200m^2. 5. The building will not result in fewer vehicular parks on the site and off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level

	7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) community facility (d) educational facility (e) protective tree netting structure (f) recreation area.	Except development that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1 or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 2.2 2. Community Facilities Zone DTS/DPF 2.3.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Consulting room.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Office.	Except office that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1, or is on a Catalyst Site in the St Andrews Hospital Precinct Subzone and exceeds the maximum building height in Community Facilities Zone DTS/DPF 2.1 that applies to development not on a Catalyst Site, or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 1.3 2. Community Facilities Zone DTS/DPF 2.2 3. Community Facilities Zone DTS/DPF 2.3.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Shop.	Except shop that exceeds the maximum building height specified in Community Facilities Zone DTS/DPF 2.1, or is on a Catalyst Site in the St Andrews Hospital Precinct Subzone and exceeds the maximum building height in Community Facilities Zone DTS/DPF 2.1 that applies to development not on a Catalyst Site, or does not satisfy any of the following: 1. Community Facilities Zone DTS/DPF 1.2 2. Community Facilities Zone DTS/DPF 2.2 3. Community Facilities Zone DTS/DPF 2.3.
9. Telecommunications facility.	Except telecommunications facility that: 1. is within 50m of a neighbourhood-type zone or 2. exceeds 30m in height or 3. is on a site that is adjacent land to a site (or land) used for residential purposes.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

St Andrews Hospital Precinct Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Accommodating hospital, clinical and health training, and allied research and educational facilities, along with independent medical and allied health facilities, supported by a mix of compatible accommodation and retail activity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community or health care services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Consulting room (c) Dwelling (d) Educational facilities (e) Hospital (f) Office (g) Shop (h) Supported Accommodation
PO 1.2 Small-scale shops, cafés restaurants or kiosks, located at ground or lower building floor levels to increase street level activity facing the Park Lands and service the local community.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development primarily as part of a mixed use building located on the upper floors.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Buildings designed to reduce the apparent bulk of large scale development to contribute to a more intimate and human-scaled environment.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is designed to manage the interface with residential uses in the City Living Zone: (a) in relation to building proportions, massing, and overshadowing (b) by avoiding land uses, or intensity of land uses, that unduly impact residential amenity.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings adjacent to Gilles Street, Vincent Street and St John's Lane are designed to complement the streetscape character regarding scale, massing, siting, composition and form.	DTS/DPF 2.3 None are applicable.
Access	
PO 4.1 Vehicle access, or intensification of access, from South Terrace or Gilles Street where possible.	DTS/DPF 4.1 None are applicable.
PO4.2 Car parking located behind buildings wherever possible.	DTS/DPF 4.2 None are applicable.
Advertisements	
PO5.1 Advertisements are restrained in design, and simple in use of colour to achieve a coherent and complementary appearance.	DTS/DPF 5.1 None are applicable.
Catalyst Sites	
PO 3.1 Development on a catalyst site is medium to high scale.	DTS/DPF 3.1 None are applicable.
PO 3.2 Catalyst sites should be developed to manage the interface with residential development regarding intensity of use, overshadowing, massing, building proportions and traffic to minimise impacts on residential amenity.	DTS/DPF 3.2 None are applicable.
PO 3.3 The scale of development on a catalyst site should respond to its context, particularly the nature of the adjacent land uses and the interface treatments required to address impacts on sensitive uses.	DTS/DPF 3.3 None are applicable.
PO 3.4 Where there is an apparent conflict between the catalyst site provisions and Subzone, provisions (including any quantitative criteria) the catalyst site provisions will take precedence.	DTS/DPF 3.4 None are applicable.

WCH and Memorial Hospital Precinct Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of health care and associated facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of health care or health related services.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Community facility (c) Consulting room (d) Educational facility (e) Health care facility

	(f) Hospital (g) Office associated with community service (h) Shop associated with community services
Built Form and Character	
PO 2.1 Development adjoining King William Road (north of Kermode Street) is of a scale and designed to complement the streetscape character along King William Road.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development south of Kermode Street sited and designed to: (a) retain the set back and sense of address and open character to the Park Lands (b) provide a transition down to a low rise scale adjacent to Sir Edwin Smith Drive (c) provide an activated building interface to Kermode Street (d) ensure buildings are sited off of side and rear boundaries and avoid blank walls that will be visible from the surrounding locality (e) provide a visually interesting streetscape with buildings having a high level of fenestration, detailing and orientation towards the street (f) minimise visual impact of car parking, vehicle access and egresses by siting any new car parking away from the street frontages.	DTS/DPF 2.2 None are applicable.
Advertisements	
PO 3.1 Advertisements are restrained and discreet in design.	DTS/DPF 3.1 None are applicable.

Neighbourhood Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Community, educational and health care land uses and residential development at medium densities as an alternative land use.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of community, educational, recreational and / or health care services.	DTS/DPF 1.1 None are applicable.
PO 1.2 Residential land uses at medium densities that provide an alternative to community, educational and health care facilities in the zone.	DTS/DPF 1.2 Development comprises one or more of the following: (a) dwelling (b) residential flat building
Built Form and Character	
PO 2.1 Buildings designed, sited and of a scale and appearance that complements the character and amenity of adjoining residential areas and buildings of heritage significance.	DTS/DPF 2.1 None are applicable.
PO 2.2 Residential development that incorporates a high standard of architectural and urban design and sustainability.	DTS/DPF 2.2 None are applicable.
PO 2.3 Residential development constructed adjacent to a residential allotment in a neighbourhood-type zone: (a) is of a bulk, height and floor space and provides a site frontage that complements the character and amenity of the locality (b) provides space around buildings to maintain and enhance the predominant character of the locality and provide opportunities for landscaping.	DTS/DPF 2.3 None are applicable.
PO 2.4 In areas where public or common open space would otherwise be deficient, residential development provides open space of a size and area sufficient to meet the recreational and lifestyle needs of residents.	DTS/DPF 2.4 None are applicable.
Building Height	
PO 3.1 Residential buildings of up to 3 storeys in height sufficiently set back from an existing dwelling in the zone, subzone or an adjoining zone to avoid detrimental impact on those dwellings due to the height, scale or bulk of the development.	DTS/DPF 3.1 None are applicable.
Landscaping	
PO 4.1 Development incorporates substantial landscaping of streetscapes and unbuilt spaces.	DTS/DPF 4.1 None are applicable.

Conservation Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The conservation and enhancement of the natural environment and natural ecological processes for their ability to reduce the effects of climate change, for their historic, scientific, landscape, habitat, biodiversity, carbon storage and cultural values and provision of opportunities for the public to experience these through low-impact recreational and tourism development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Small-scale, low-impact land uses that provide for the conservation and protection of the area, while allowing the public to experience these important environmental assets.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Camp ground (c) Farming (d) Public toilet
PO 1.2 Development is primarily in the form of: (a) directional, identification and/or interpretative advertisements and/or advertising hoardings for conservation management and tourist information purposes (b) scientific monitoring structures or facilities (c) a small-scale facility associated with the interpretation and appreciation of natural and cultural heritage such as public amenities, camping grounds, remote shelters or huts (d) structures for conservation management purposes.	DTS/DPF 1.2 None are applicable.

PO 1.3 Farming activities occur on already cleared land and outside of areas containing native vegetation (including revegetated areas lost through bushfire), coastal dunes and wetlands of national importance.	DTS/DPF 1.3 None are applicable.
Land Division	
PO 2.1 Land division supports the management or improvement of the natural environment including avoiding: (a) further fragmentation of land that may reduce effective management of the environment (b) parcel arrangements that increase direct property access to waterfront areas (including access via a public reserve) (c) additional allotments with frontage to the coast or River Murray.	DTS/DPF 2.1 Land division satisfies (a) or (b) and (c): (a) is for the creation of a public road or a public reserve (b) does not create any additional allotments and does not result in any additional allotments with frontage or direct access to the coast or River Murray (including access via a public reserve) (c) will satisfy one of the following: (i) is to remove an anomaly in existing boundaries with respect to the location of existing buildings, structures or vehicle access arrangements (ii) is for the management of existing native vegetation (iii) the resultant allotments are not less than: **Minimum Site Area** Minimum site area is 10 ha Minimum site area is 100 ha Minimum site area is 1,200 sqm Minimum site area is 2,000 sqm Minimum site area is 2 ha Minimum site area is 20 ha Minimum site area is 200 ha Minimum site area is 40 ha Minimum site area is 600 sqm In relation to DTS/DPF 2.1, in instances where: (d) more than one value is returned in the same field for DTS/DPF 2.1(c)(iii), refer to the *Minimum Site Area Technical and Numeric Variation*, layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (e) no value is returned for DTS/DPF 2.1 (c)(iii) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
Environmental Protection	
PO 3.1 Development avoids important habitat, nesting or breeding areas or areas that are important for the movement/migration patterns of fauna.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development avoids seagrass, mangroves and saltmarshes for their biodiversity value and carbon storage potential.	DTS/DPF 3.2 None are applicable.
Built Form and Character	
PO 4.1 Development is sited and designed unobtrusively to minimise the visual impact on the natural environment by: (a) using low-reflective materials and finishes that blend with, and colours that complement, the surrounding landscape (b) being located below hilltops and ridgelines (c) being screened by existing vegetation.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development is sited and designed to minimise impacts on the natural environment by: (a) containing construction and built form within a tightly defined site boundary (b) minimising the extent of earthworks.	DTS/DPF 4.2 None are applicable.
PO 4.3 Recreation or visitor facilities are located in publicly accessible areas in proximity to existing recreation trails to minimise impact on the natural environment.	DTS/DPF 4.3 None are applicable.
PO 4.4 Development does not obscure existing public views to landscape, river or seascape features and is not visibly prominent from key public vantage points, including public roads or car parking areas.	DTS/DPF 4.4 None are applicable.
Access and Car Parking	
PO 5.1 Vehicle access points are limited to minimise impact on the natural environment.	DTS/DPF 5.1 No more than one vehicle access point is provided to a site, landmark or lookout.
PO 5.2 Roads and vehicle access ways are located to minimise vegetation clearance and are constructed of permeable materials.	DTS/DPF 5.2 None are applicable.
PO 5.3 Roads are of a width and route to encourage low speeds and minimise impact on the natural environment.	DTS/DPF 5.3 None are applicable.
PO 5.4 Recreational trails and access ways are located to direct the public away from sensitive areas to minimise impact on the natural environment.	DTS/DPF 5.4 None are applicable.
PO 5.5 Recreational trails are raised or surfaced with permeable materials to minimise impact on the natural environment.	DTS/DPF 5.5 Pedestrian access ways/recreational trails are raised or constructed of permeable materials.
PO 5.6 Car parking areas are designed to minimise impact on the natural environment.	DTS/DPF 5.6 Car parking areas satisfy all of the following: (a) are constructed of permeable material (b) are located on already legally cleared land (c) are consolidated in one location.
Advertisement	
PO 6.1 Advertisements are limited to those needed for direction, identification and/or interpretation of environmental or cultural values and recreational and tourism facilities.	DTS/DPF 6.1 Advertisements are for one or more of the following: (a) direction (b) identification and interpretation of environmental values (c) identification of recreational and tourism facilities.
PO 6.2 Advertisements are limited in number and size to minimise impact on the visual and natural environment.	DTS/DPF 6.2 The total combined area of advertisement(s) is not greater than $2m^2$ on any one site and no part is greater than 3m in height from natural ground level.
Landscaping	
PO 7.1 Screening and planting are provided to buildings and structures and comprise locally indigenous species to enhance the natural environment.	DTS/DPF 7.1 None are applicable.
Hazard Risk Minimisation	
PO 8.1 Habitable buildings are designed and sited to manage the risks of natural hazards on personal and public safety and property.	DTS/DPF 8.1 None are applicable.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton Concept Plan 74 - Shelley Beach - Kellidie Bay

Description
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 71 - Hamley Bridge
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints

In relation to DTS/DPF 9.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply:	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

• Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay • Shack Relocation Subzone	2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
All forms of development in the Shack Relocation Subzone	Demolition
Dwelling	Any of the following: (a) detached dwelling in the **Dwelling Subzone** and will not result in more than one dwelling on an allotment (b) detached dwelling that will replace an existing lawfully erected dwelling (including a lawfully erected dwelling which was demolished within the previous 3 years) (c) detached dwelling in the **Small Scale Settlement Subzone** and will not result in more than one dwelling on an allotment.
Land division	Any of the following: (a) land division that satisfies Conservation Zone DTS / DPF 2.1 (b) land division in the **Visitor Experience Subzone** to create an allotment with an area of 5ha or more for existing tourist accommodation (c) land division in the **Small Scale Settlement Subzone**.
Renewable energy facility	Any of the following: (a) solar photovoltaic panels (roof or ground mounted) (b) battery storage facility For domestic use (i.e., principally used to supply and/or store electricity to the existing use of land)
Tourist accommodation	Any of the following: (a) tourist accommodation in the **Visitor Experience Subzone** (b) tourist accommodation in a reserve constituted under the *National Parks and Wildlife Act 1972* and the relevant reserve plan of management prepared in accordance with that Act identifies tourist accommodation as an envisaged land use.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) agricultural building (d) camp ground (e) carport (f) deck (g) dwelling alterations or additions (h) farming (i) fence (j) internal building works (k) land division (l) navigation structures, boat berth, pier, pontoon or similar structure (or any combination thereof) (m) outbuilding (n) pergola (o) private bushfire shelter (p) protective tree netting structure (q) public toilets (r) replacement building (s) retaining wall (t) shade sail (u) solar photovoltaic panels (roof mounted) (v) swimming pool or spa pool and associated swimming pool safety features (w) temporary accommodation in an area affected by bushfire (x) tree damaging activity (y) verandah (z) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	

None specified.

Aquaculture and Recreation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Aquaculture, tourism, boating, fishing, recreation and associated facilities located, sited and designed to minimise detrimental impacts on the natural environment including offshore islands, and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Aquaculture, tourism, recreation and other facilities	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Aquaculture (c) Boat Launching Facility (d) Pontoon
PO 1.2 An area for aquaculture grow out facilities and associated infrastructure including boat launching.	DTS/DPF 1.2 None are applicable.
PO 1.3 An area for recreational and tourist related fishing and associated infrastructure including boat launching and a boating channel and mooring basin.	DTS/DPF 1.3 None are applicable.
PO 1.4 Oyster cultivation sites do not exceed a total area (including approved, but not yet developed leases) of 112.5 hectares, with an additional area of two hectares for educational purposes associated with the Cowell Area School.	DTS/DPF 1.4 None are applicable.
PO 1.5 Oyster holding areas are limited to two areas not exceeding 2.5 hectares.	DTS/DPF 1.5 None are applicable.
PO 1.6 Culture of species other than oysters (excluding other filter feeders) is restricted to two 5 hectare lease areas within the north eastern section of Franklin Harbour.	DTS/DPF 1.6 None are applicable.
Environment Protection	
PO 2.1 Development is sited and designed in a manner where adverse impacts on natural features, landscapes, habitats and cultural assets are minimised including avoiding: (a) the need to remove mangroves (b) the creation of turbidity of waters (c) contributing to water toxicity or the creation of algal blooms.	DTS/DPF 2.1 None are applicable.
PO 2.2 Oyster cultivation sites: (a) do not exceed 10 hectares site area per lease (b) do not exceed a stocking rate of 100,000 mature oysters, or their equivalent by weight per hectare (c) are located: (i) at least 100m apart (ii) an adequate distance from townships, to avoid potential pollution and contamination problems and conflicts with users generated by township activities.	DTS/DPF 2.2 None are applicable.

Dwelling Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Replacement dwellings and limited new dwellings minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, l habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Low-scale, low rise residential development.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Single Storey Detached Dwelling (c) Domestic Outbuilding (d) Verandah
Dwellings	
PO 2.1 New dwellings minimise impacts on the environment and do not result in more than one dwelling on an allotment.	DTS/DPF 2.1 Detached dwellings, or dwelling extensions satisfy all of the following: (a) are no closer to a water frontage than the associated existing dwelling (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area (c) do not result in more than one dwelling on an allotment.
PO 2.2 Dwellings are appropriately serviced by essential infrastructure.	DTS/DPF 2.2 Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.
Environment Protection and Hazard Risk Minimisation	
PO 3.1 Replacement dwellings and alterations to existing dwellings result in environmental improvements by: (a) the provision of an approved wastewater system (b) reduced site coverage and/or (c) a reduction of the level of hazard risk.	DTS/DPF 3.1 None are applicable.
Ancillary Structures	
PO 4.1 Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.	DTS/DPF 4.1 None are applicable.

PO 4.2 Ancillary structures are limited in number and size to minimise impacts on the natural environment.	DTS/DPF 4.2 None are applicable.

Shack Relocation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An area subject to significant coastal hazard risk that is returned to its natural state by the relocation of existing shacks to a location adjacent to the subzone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Demolition of existing shacks.	DTS/DPF 1.1 None are applicable.

Small Scale Settlement Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Limited land division and dwelling opportunities within a conservation area are designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use	
PO 1.1 Low-scale residential development and ancillary uses, including the division of land.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Single Storey Detached Dwelling (c) Domestic Outbuilding (d) Land Division (e) Verandah
Dwellings	
PO 2.1 New dwellings minimise impacts on the environment and do not result in more than one dwelling on an allotment.	DTS/DPF 2.1 Detached dwellings, or dwelling extensions satisfy all of the following: (a) are no closer to a water frontage than the associated existing dwelling (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area (c) do not result in more than one dwelling on an allotment.
PO 2.2 Dwellings are appropriately serviced by essential infrastructure.	DTS/DPF 2.2 Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.
PO 2.3 Replacement dwellings and alterations to existing dwellings result in environmental improvements by: (a) the provision of an approved wastewater system (b) reduced site coverage and/or (c) a reduction of the level of hazard risk.	DTS/DPF 2.3 None are applicable.
Land division	
PO 3.1 Land division avoids areas where coastal or river processes occur and is for the creation of allotments required to accommodate dwellings relocated as a result of unacceptable coastal hazard risk.	DTS/DPF 3.1 None are applicable.
PO 3.2 Land division that accommodates an existing lawful dwelling.	DTS/DPF 3.2 None are applicable.
Ancillary Structures	
PO 4.1 Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary structures are limited in number and size to minimise impacts on the natural environment.	DTS/DPF 4.2 None are applicable.

Visitor Experience Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Tourist accommodation within a conservation area complements visitor experiences, and is located, sited and designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, habitat, biodiversity and cultural values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 A range of tourism, conservation and recreational land uses that provide an experience to visitors, while minimising environmental impacts.	DTS/DPF 1.1 Development comprises one or more of the following: (a) a land use listed in Conservation Zone DTS/DPF 1.1 (b) Tourist accommodation (c) Shop
PO 1.2 Small scale shops that cater for the needs of users and visitors of conservation areas.	DTS/DPF 1.2 Shop with a gross leasable floor area less than 150m^2.
Tourist Accommodation	

PO 2.1 Tourist accommodation avoids delicate or environmentally sensitive areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation *(including regeneration areas of native vegetation lost through bush fire)*	DTS/DPF 2.1 None are applicable.
PO 2.2 Tourist accommodation is sited and designed in a manner that is subservient to the natural environment and where adverse impacts on natural features, landscapes, habitats and cultural assets are avoided.	DTS/DPF 2.2 None are applicable.
PO 2.3 Tourist accommodation and recreational facilities, including associated access ways and ancillary structures are located on cleared or degraded areas or where environmental improvements can be achieved.	DTS/DPF 2.3 None are applicable.
PO 2.4 Tourist accommodation designed to prevent conversion to dwellings through: (a) comprising a minimum of 10 accommodation units (b) clustering of separated individual accommodation units (c) accommodation units being of a size unsuitable for a dwelling (d) functional areas that are generally associated with a dwelling such as kitchens and laundries are excluded from, or physically separated from individual accommodation units, or are of a size unsuitable for a dwelling.	DTS/DPF 2.4 None are applicable.
Land Division	
PO 3.1 Land division for existing tourist accommodation purposes creates allotments of a number and size that will not detrimentally affect the natural environment.	DTS/DPF 3.1 Land division resulting in all allotments being greater than 5ha in area to accommodate an existing tourist accommodation development.
Car parking	
PO 4.1 Parking for tourist accommodation should: (a) comprise a maximum of one space per tourist accommodation unit, plus parking for employees (b) be grouped in one location, unless it can be demonstrated that an alternative arrangement will reduce the impact on the natural environment (c) be located in an area where minimal vegetation clearance is required.	DTS/DPF 4.1 None are applicable.

Deferred Urban Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	To safeguard land for future urban growth.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that is incompatible, prejudicial or detrimental to the orderly and efficient servicing and conversion of the land for future urban growth does not occur.	DTS/DPF 1.1 Development comprising farming (broad acre cropping, grazing) and/or low-intensity animal husbandry.
Built Form and Character	
PO 2.1 Development maintains an open character.	DTS/DPF 2.1 None are applicable
PO 2.2 Buildings are limited to those that: (a) are ancillary to and necessary to support land use activities on the same allotment (b) are for the purposes of public infrastructure.	DTS/DPF 2.2 None are applicable
PO 2.3 Dwellings provide a convenient base for landowners to conduct and manage commercial scale primary production and rural related value adding activities without compromising the continued or future use of the allotment.	DTS/DPF 2.3 Dwellings: (a) are located on an allotment used for and is ancillary to primary production and/or primary production related value-adding activities and (b) will not result in more than one dwelling on an allotment.
Land Division	
PO 3.1 Land division is limited to that which: (a) corrects anomalies in the placement of allotment boundaries with respect to the location of existing buildings or structures or (b) enables the provision of public infrastructure.	DTS/DPF 3.1 Land division for at least one of the following: (a) the alteration of allotment boundaries, where no additional allotments are created (b) the purpose of providing public infrastructure.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 14 - Buckland Park Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 19 - Playford North Infrastructure Concept Plan 21 - Virginia Concept Plan 22 - Virginia Infrastructure Concept Plan 16 - Angle Vale Infrastructure Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 98 - Mallala Concept Plan 92 - Meadows Concept Plan 107 - Proper Bay Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 157 - Port Wakefield Road In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m or (b) filling exceeding a vertical height of 1m and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling 10. No part of the protective tree netting structure will be in the 1956 River Murray Flood Plain as delineated by the SA Property and Planning Atlas.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions

None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

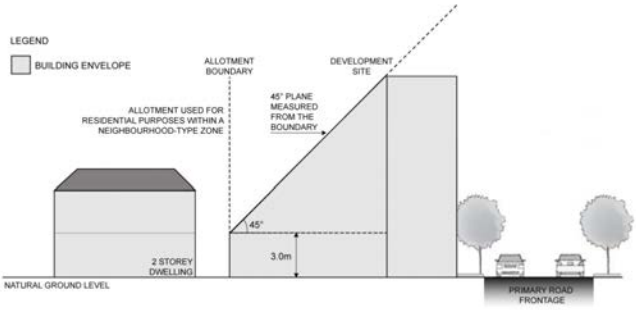
Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

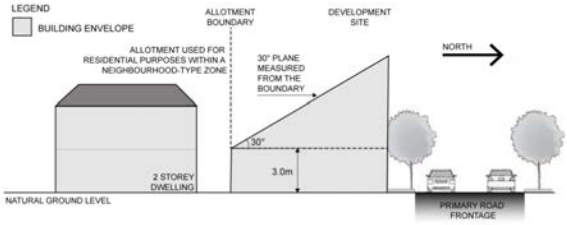
A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) carport (e) deck (f) farming (g) fence (h) internal building works (i) land division (j) outbuilding (k) pergola (l) private bushfire shelter (m) protective tree netting structure (n) replacement building (o) retaining wall (p) shade sail (q) solar photovoltaic panels (roof mounted) (r) swimming pool or spa pool and associated swimming pool safety features (s) temporary accommodation in an area affected by bushfire (t) tree damaging activity (u) verandah (v) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Employment Zone

Assessment Provisions (AP)





Desired Outcome (DO)

Desired Outcome	
DO 1	A diverse range of low-impact light industrial, commercial and business activities that complement the role of other zones accommodating significant industrial, shopping and business activities.
DO 2	Distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of employment-generating light industrial, service trade, motor repair and other compatible businesses servicing the local community that do not produce emissions that would detrimentally affect local amenity.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Consulting room (c) Indoor recreation facility (d) Light industry (e) Motor repair station (f) Office (g) Place of worship (h) Research facility (i) Retail fuel outlet (j) Service trade premises (k) Shop (l) Store (m) Telecommunications facility (n) Training facility (o) Warehouse.
PO 1.2 Shops provide convenient day-to-day services and amenities to local businesses and workers, support the sale of products manufactured on-site and otherwise complement the role of Activity Centres.	DTS/DPF 1.2 Shop where one of the following applies: (a) with a gross leasable floor area up to 100m^2 (b) is a bulky goods outlet (c) is a restaurant (d) is ancillary to and located on the same allotment as an industry and primarily involves the sale by retail of goods manufactured by the industry.
PO 1.3 Telecommunication facilities located to mitigate impacts on visual amenity in residential areas.	DTS/DPF 1.3 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and

	(b) no closer than 50m to a neighbourhood-type zone.
PO 1.4 Bulky good outlets and standalone shops are located to provide convenient access.	DTS/DPF 1.4 Bulky goods outlets and standalone shops are located on sites with a frontage to a State Maintained Road.
Built Form and Character	
PO 2.1 Development achieves distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.	DTS/DPF 2.1 None are applicable.
PO 2.2 Building facades facing a boundary of a zone primarily intended to accommodate residential development, public roads, or public open space incorporate design elements to add visual interest by considering the following: (a) using a variety of building finishes (b) avoiding elevations that consist solely of metal cladding (c) using materials with a low reflectivity (d) using techniques to add visual interest and reduce large expanses of blank walls including modulation and incorporation of offices and showrooms along elevations visible to a public road.	DTS/DPF 2.2 None are applicable.
Building height and setbacks	
PO 3.1 Buildings are set back from the primary street boundary to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 5m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 5m For the purposes of **DTS/DPF 3.2:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.2 Buildings are set back from a secondary street boundary to accommodate the provision of landscaping between buildings and the street to enhance the appearance of land and buildings when viewed from the street.	DTS/DPF 3.2 Building walls are no closer than 2m to the secondary street boundary.
PO 3.3 Buildings are set back from rear access ways to provide adequate manoeuvrability for vehicles to enter and exit the site.	DTS/DPF 3.3 Building walls are set back from the rear access way: (a) where the access way is 6.5m wide or more, no requirement (b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.
PO 3.4 Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.	DTS/DPF 3.4 Building walls are set back at least 3m from at least one side boundary, unless an alternative means for vehicular access to the rear of the site is available.
PO 3.5 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally low-rise to complement the established streetscape and local character.	DTS/DPF 3.5 Building height is not greater than: (a) the following: **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 6 levels Maximum building height is 7 levels **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 10m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 18m Maximum building height is 22m Maximum building height is 24.5m (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m. In relation to DTS/DPF 3.5, in instances where: (c) more than one value is returned in the same field for DTS/DPF 3.5(a) refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.6 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.6 Buildings are constructed within a building envelope provided by a 45 degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram, except where the relevant boundary is a southern boundary or where this boundary is the street boundary.

	
PO 3.7 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.7 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.8 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.8 None are applicable.
Site Dimensions and Land Division	
PO 4.1 Land division creates allotments that vary in size and are suitable for a variety of commercial and business activities.	DTS/DPF 4.1 Allotments: (a) connected to an approved common wastewater disposal service have an area of 1250m^2 or more and a frontage width of 20m or more (b) that will require the disposal of wastewater on-site have an area of 2000m^2 or more and a frontage width of 20m or more.
Landscaping	
PO 5.1 Landscaping is provided to enhance the visual appearance of development when viewed from public roads and thoroughfares.	DTS/DPF 5.1 Other than to accommodate a lawfully existing or authorised driveway or access point, or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site: (a) where a building is set back less than 3m from the street boundary - 1m wide or the area remaining between the relevant building and the street boundary where the building is less than 1m from the street boundary or (b) in any other case - at least 1.5m wide.
PO 5.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 5.2 Landscape areas comprise: (a) not less than 10 percent of the site and (b) a dimension of at least 1.5m.
Advertisements	
PO 6.1 Freestanding advertisements are not visually dominant within the locality.	DTS/DPF 6.1 Freestanding advertisements: (a) do not exceed 6m in height above natural ground level and (b) do not have a face that exceeds 8m^2.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 70 - Mount Gambier Northern Gateway Concept Plan 73 - Port Vincent Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 11 - Munno Para Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 21 - Virginia Concept Plan 71 - Hamley Bridge Concept Plan 16 - Angle Vale Infrastructure Concept Plan 50 - Roseworthy Town Expansion Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints

Description
Concept Plan 87 - Hindmarsh Road
Concept Plan 99 - Two Wells
Concept Plan 98 - Mallala
Concept Plan 95 - Kingsford Regional Estate
Concept Plan 94 - Old Reynella
Concept Plan 101 - Evanston Gardens, Evanston South, Hillier
Concept Plan 100 - Gawler East
Concept Plan 114 - Totness
Concept Plan 157 - Port Wakefield Road
Concept Plan 160 - Concordia Growth Area: Basic Infrastructure
Concept Plan 161 - Concordia Growth Area: Land Use
Concept Plan 168 - Golden Grove Stage 2
Concept Plan 172 - Port Wakefield
Concept Plan 175 - Smithfield Regeneration

In relation to DTS/DPF 7.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.

(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not include temporary stockpiling or storage of material or equipment over a designated stockpiling area that is larger than 100m^2 where located within the Tunnel Protection Overlay 6. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation

	10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a bulky goods outlet (c) shop that is ancillary to a light industry on the same allotment (d) shop located in the Retail Activity Centre Subzone (e) shop located in the Roadside Service Centre Subzone.
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) temporary public service depot.	Except development that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or does not satisfy any of the following: 1. Employment Zone DTS/DPF 3.6 2. Employment Zone DTS/DPF 3.7.
3. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) light industry (c) office (d) motor repair station (e) retail fuel outlet (f) store (g) warehouse.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Building for the purposes of railway activities.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
9. Shop within any of the following: (a) Retail Activity Centre Subzone (b) Roadside Service Centre Subzone.	Except shop that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or does not satisfy any of the following: 1. Employment Zone DTS/DPF 3.6

	2. Employment Zone DTS/DPF 3.7.
10. Shop.	Except: 1. where the site of the shop is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone or 2. shop that exceeds the maximum building height specified in Employment Zone DTS/DPF 3.5 or 3. shop that does not satisfy Employment Zone DTS/DPF 1.2.
11. Telecommunications facility.	Except telecommunications facility that does not satisfy Employment Zone DTS/DPF 1.3.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Roadside Service Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of services and facilities to cater for the needs of road users, particularly on long journeys.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use and Intensity	
PO 1.1 Roadside service centres provide integrated services and facilities to encourage road users, particularly on the state's highways, to stop and take an effective break in the interests of driver safety.	DTS/DPF 1.1 Development comprises a retail fuel outlet and any of the following uses: (a) Advertisement (b) Electric vehicle recharging station (c) Emergency services facilities (d) Marshalling yard for heavy vehicles (e) Playground (f) Public amenities, including toilets, showers and washrooms (g) Restaurant (h) Rest facilities for drivers (i) Shop with a gross leasable floor area up to 250m^2 (j) Telecommunications facilities (k) Tourist information centre (l) Wastewater dump point for recreational vehicles.
Built form and Character	
PO 2.1 Integrated roadside service centres are clearly visible from the adjoining roadway, well lit and clearly signposted to promote safe access from the highway without being so prominent so as to adversely impact on the landscape character of the locality.	DTS/DPF 2.1 None are applicable.
PO 2.2 Integrated roadside service centres comprise a unified architectural design with building material, colour and the layout of buildings to address the visual context of the locality.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development of an integrated roadside service centre provides safe and convenient access to and from the adjoining road network for all vehicles up to and including the largest vehicle type expected to access the site.	DTS/DPF 2.3 None are applicable.
PO 2.4 Integrated roadside service centres are designed to provide a layout that is simple, understandable and accessible for drivers and cater for separation of heavy and light vehicles.	DTS/DPF 2.4 None are applicable.
PO 2.5 Integrated roadside service centres encourage slow internal vehicular traffic speeds for the safety of motorists and pedestrians.	DTS/DPF 2.5 The internal vehicular traffic speeds do not exceed 20 km/h.
Building Setbacks	
PO 3.1 Buildings and structures are set back from public roadways to reduce their visual dominance and maintain an open character to the entrance to townships.	DTS/DPF 3.1 Buildings and structures, excluding freestanding advertisements, are setback at least 25m from any adjoining roadway.
Fencing	
PO 4.1 Fencing associated with an integrated roadside service centre comprises traditional post and wire fencing except where required to screen service areas from public view.	DTS/DPF 4.1 None are applicable.
Landscaping	
PO 5.1 Integrated roadside service centres provide a strip of landscaping of a minimum of 5m wide along road frontages to enhance the appearance of land and buildings while providing safe driver sightlines.	DTS/DPF 5.1 None are applicable.
PO 5.2 Development of a roadside service centre provides landscaping around buildings and to separate driveways.	DTS/DPF 5.2 None are applicable.
Advertisements	
PO 6.1 A multi-tenancy freestanding pylon advertisement identifies available services and facilities to support early driver recognition of, and safe navigation in to, an integrated roadside service centre from roads with high vehicular traffic speeds (ie at least 80km/h).	DTS/DPF 6.1 One multi-tenancy pylon sign is erected in association with an integrated roadside service centre that satisfies all of the following: (a) does not exceed 12m in height above natural ground level (b) does not have a face that exceeds 8m^2 (c) only identifies the primary integrated roadside service centre facility and individual tenancies.
PO 6.2 Freestanding advertisements, other than a multi-tenancy pylon advertisement, are not visually dominant within the locality.	DTS/DPF 6.2 Individual freestanding advertisements for individual tenancies satisfy all of the following: (a) do not exceed 6m in height above natural ground level (b) do not have a face that exceeds 8m^2 (c) are sited a minimum distance of 20m from each other and from any adjoining road reserves.
PO 6.3 Advertisements relating to services and facilities associated with an integrated roadside service centre do not dominate the buildings to which they relate and are: (a) integrated with the design of buildings (b) not located above the roofline of any building or refuelling area canopy.	DTS/DPF 6.3 None are applicable.

Retail Activity Centre Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Specialist activity centres that comprise large format retail and commercial activities which complement the principal land uses desired in the zone and the role of other zones accommodating significant shopping, business and commercial activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Large format retail and commercial activities, including indoor recreation and leisure facilities, of a scale that caters for demand.	DTS/DPF 1.1 Development comprises one or more of the following land uses: (a) Indoor recreation facility (b) Leisure and entertainment facility (c) Service trade premises (d) Shop.
PO 1.2 Contemporary retail opportunities provided at larger scales.	DTS/DPF 1.2 None are applicable.
PO 1.3 Shops, including supermarkets, restaurants and cafes, designed and sited to be complementary to established land uses and of appropriate scale to cater for demand.	DTS/DPF 1.3 None are applicable.
PO 1.4 Indoor recreation and leisure facilities that complement retail and commercial activities.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Development takes the form of large buildings which are well designed, articulated and of a scale which respects adjoining land uses.	DTS/DPF 2.1 None are applicable.

Employment (Bulk Handling) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Agricultural and other commodities are received, stored and dispatched in bulk to generate wealth and employment for the state.
DO 2	A pleasant visual amenity when viewed from adjacent arterial roads, adjoining zones, and entrance ways to towns, settlements and cities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily in the form of facilities for the handling and storage of bulk commodities to enhance economic activity and supply chain efficiencies.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Bulk handling facility including bunkers and silos for the reception, storage and dispatch of commodities in bulk (c) Office in association with a facility for the reception, storage and dispatch of commodities in bulk (d) Store (e) Telecommunications facility (f) Truck parking area.
PO 1.2 Value-adding industries, including the processing and packaging of commodities, that complement facilities for the reception, storage and dispatch of agricultural and other commodities in bulk to enhance the use of the zone and support local job opportunities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Office associated with and ancillary to facilities for the handling and storage of bulk commodities to support the management and operational aspects of those facilities.	DTS/DPF 1.3 Freestanding advertisements: (a) do not exceed 6m in height above natural ground level and (b) do not have a face that exceeds $8m^2$.
PO 1.4 Telecommunication facilities located to mitigate impacts on visual amenity in residential areas.	DTS/DPF 1.4 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and (b) no closer than 50m to a neighbourhood-type zone.
Land Division	
PO 2.1 Land division that creates allotments that are of a size and shape suitable for bulk handling and complementary uses.	DTS/DPF 2.1 None are applicable.
Fencing	
PO 3.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.	DTS/DPF 3.1 Fencing exceeding 2.1m in height satisfies one of the following: (a) located behind a façade of an associated building located on the same site (b) located behind a landscaped area along relevant street frontages (c) consists of visually permeable materials with landscaping behind.
Advertisements	
PO 4.1 Freestanding advertisements do not create a visually dominant element within the locality.	DTS/DPF 4.1 Freestanding advertisements: (a) up to 4m in height from natural ground level and (b) with a sign face up to $6m^2$ per side.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 50 - Roseworthy Town Expansion Concept Plan 99 - Two Wells Concept Plan 98 - Mallala In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to

	the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) carport (d) deck (e) fence (f) internal building works (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) bulk handling facility (b) store (c) telecommunications facility (d) truck parking area.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
7. Office.	Except: 1. where the site of the office is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone or 2. office that does not satisfy Employment (Bulk Handling) Zone DTS/DPF 1.3.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Employment (Enterprise) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of industrial, warehousing, storage, and service activities with compatible business activities generating wealth and employment for the state.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development for a range of land uses that may generate emissions including general industry, warehouse, transport distribution and the like supplemented by other compatible development so as not to unduly impede the use of land in other ownership in the zone for employment-generating land uses.	DTS/DPF 1.1 Development (other than where a referral is required under Part 9 - Referrals of the Planning and Design Code) comprises one or more of the following: (a) Advertisement (b) Aerodrome (c) Automotive collision repair (d) Builder's yard (e) Electricity substation (f) Fuel depot (g) General industry (h) Light Industry

	(i) Motor repair station (j) Office (k) Public service depot (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Transport distribution facility (q) Telecommunications facility (r) Warehouse (s) Workers' accommodation
PO 1.2 Shops catering to the surrounding workforce and residents within workers' accommodation enhances the amenity of the zone for those workers.	DTS/DPF 1.2 Shop (other than a bulky goods outlet) comprising any of the following: (a) shop with a gross leasable floor area up to 450m^2 (b) shop that is a restaurant.
PO 1.3 Office associated with and ancillary to another land use contemplated in the zone to support the management and administrative aspects of those business activities.	DTS/DPF 1.3 Office ancillary to and located on the same allotment as another land use identified in DTS/DPF 1.1.
PO 1.4 Development provides space adjacent to and around buildings to accommodate areas for the manoeuvring, loading / unloading and parking of vehicles, storage of waste and landscaping to enhance local amenity and mitigate interrupting the operation of and safety on public roads and thoroughfares.	DTS/DPF 1.4 The total roofed area of all existing and proposed buildings on the allotment or lease area does not exceed 50%.
PO 1.5 Telecommunication facilities are located to mitigate impacts on visual amenity on residential areas.	DTS/DPF 1.5 Telecommunications facility in the form of a monopole, tower or mast: (a) up to a height of 30m and (b) no closer than 50m to neighbourhood-type zone.
PO 1.6 Workers' accommodation provided to support major industrial, mining and business activities to facilitate economic activity.	DTS/DPF 1.6 Workers' accommodation in connection with a resource extraction operation: (a) is constructed by the principal operator of the mine or authorised agent thereof and (b) primarily accommodates workers for the relevant mine.
Land Division	
PO 2.1 Land division creates allotments of a size and shape suitable for a range of industrial, transport, warehouse and similar or complementary land uses that support employment generation.	DTS/DPF 2.1 Allotments: (a) connected to an approved common waste water disposal service, have an area of 1000m^2 or more and a frontage width of 20m or more. (b) involving the disposal of waste water on-site, have an area of 1500m^2 or more and a frontage width of 20m or more.
PO 2.2 Land division is designed to: (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.	DTS/DPF 2.2 None are applicable.
Built Form and Character	
PO 3.1 Buildings use materials and finishes complement the landscape and mitigate the effects of glare on adjacent land users.	DTS/DPF 3.1 Buildings are clad in any of the following or a combination thereof: (a) materials other than sheet metal (b) if sheet metal is used it is pre-colour treated or painted in a non-reflective colour.
PO 3.2 Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.	DTS/DPF 3.2 Buildings set back 3m or more from at least one side boundary.
Landscaping	
PO 4.1 Landscaping is provided along public roads, thoroughfares and zone boundaries to enhance the visual appearance of development and soften the impact of large buildings when viewed from public spaces and adjacent land outside the zone.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following: (a) 3m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) 1.5m wide fronting a public road or thoroughfare within the zone (and not on the perimeter of the zone) (c) 1.5m wide along any boundary on the perimeter of the zone not fronting a public road or thoroughfare.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise: (a) not less than 10 percent of the site area and (b) a dimension of at least 1.5m.
Fencing	
PO 5.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.	DTS/DPF 5.1 Fencing exceeding 2.1m in height: (a) is located behind a façade of an associated building located on the same site or (b) is located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Advertisements	
PO 6.1 Freestanding advertisements do not create a visually dominant element within the locality.	DTS/DPF 6.1 Freestanding advertisements: (a) do not exceed 6m in height and (b) do not have a sign face exceeding 8m^2 per side.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations	

	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Partial demolition of a building or structure	None
Shade sail	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. The area occupied by the system plus the total roofed area of all existing and proposed buildings on the site will not exceed 50% 4. No part of the system: (a) is more than 4 metres in height (measured as a height above the natural surface of the ground); (b) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 5. The generating capacity of the system does not exceed 30 kW 6. Does not result in the clearance of any native vegetation.
Solar photovoltaic panels (roof mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. The tank is located wholly above ground 5. The total roofed area of all existing and proposed buildings on the site will not exceed 50% 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 8. Does not involve the clearance of native vegetation.
Water tank (underground)	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a bulky goods outlet (c) shop that is ancillary to an industry on the same allotment (d) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) automotive collision repair (d) builder's yard (e) carport (f) deck (g) fence (h) internal building works (i) light industry	None specified.

(j) land division (k) motor repair station (l) office (m) outbuilding (n) pergola (o) private bushfire shelter (p) replacement building (q) retaining wall (r) plant nursery (s) public service depot (t) service trade premises (u) shade sail (v) solar photovoltaic panels (roof mounted) (w) store (x) swimming pool or spa pool and associated swimming pool safety features (y) temporary accommodation in an area affected by bushfire (z) verandah (aa) warehouse (ab) water tank (ac) workers' accommodation.	
3. Aerodrome.	Except aerodrome within the Light Industry Subzone.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. General industry.	Except general industry within the Light Industry Subzone.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Shop within the Light Industry Subzone.	Except shop that does not satisfy Light Industry Subzone DTS/DPF 1.2.
9. Shop.	Except shop that does not satisfy Employment (Enterprise) Zone DTS/DPF 1.2.
10. Telecommunications facility.	Except telecommunications facility that does not satisfy Employment (Enterprise) Zone DTS/DPF 1.5.
11. Transport distribution facility.	Except transport distribution facility within the Light Industry Subzone.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Light Industry Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of light industrial and other business activities that complement the role of other zones that provide a focus for shopping, administrative, civic and community activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land use and Intensity	
PO 1.1 A range of employment generating light industrial and compatible commercial businesses servicing the local community that do not produce objectionable emissions.	DTS/DPF 1.1 Development comprises one or more of the land uses: (a) Light industry (b) Motor repair station (c) Public service depot (d) Retail fuel outlet (e) Service trade premises (f) Shop (g) Store (h) Warehouse (i) Waste transfer station.
PO 1.2 Shops provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products manufactured on-site to supplement business activities and support local employment.	DTS/DPF 1.2 Shop that meets any one of the following: (a) has a gross leasable floor area not exceeding 100m^2 (b) it is ancillary to and located on the same allotment as a light industry (c) it is a bulky goods outlet and has a gross leasable floor area exceeding 250m^2.
PO 1.3 Office associated with and ancillary to another land use contemplated in the subzone to support the management and operational aspects of business activities.	DTS/DPF 1.3 Office: (a) located on the same allotment as a land use identified in Light Industry Subzone DTS/DPF 1.1 and (b) with a gross leasable floor area up to 100m^2

Established Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A neighbourhood that includes a range of housing types, with new buildings sympathetic to the predominant built form character and development patterns.
DO 2	Maintain the predominant streetscape character, having regard to key features such as roadside plantings, footpaths, front yards, and space between crossovers.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature

Land Use and Intensity

PO 1.1	DTS/DPF 1.1
Predominantly residential development with complementary non-residential activities compatible with the established development pattern of the neighbourhood.	Development comprises one or more of the following: (a) Ancillary accommodation (b) Community facility (c) Consulting room (d) Dwelling (e) Office (f) Recreation area (g) Shop.
PO 1.2	DTS/DPF 1.2
Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 30% of the total floor area of the associated dwelling (excluding any garage or carport) or 50m^2 gross leasable floor area, whichever is the lesser (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3	DTS/DPF 1.3
Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	None are applicable.
PO 1.4	DTS/DPF 1.4
Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	None are applicable.
PO 1.5	DTS/DPF 1.5
Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site Dimensions and Land Division

PO 2.1	DTS/DPF 2.1
Allotments/sites for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and are compatible with the prevailing development pattern in the locality.	Development will not result in more than 1 dwelling on an existing allotment or Development involves the conversion of an existing dwelling into two or more dwellings and the existing dwelling retains its original external appearance to the public road or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a detached dwelling is 1,000 sqm
Minimum site area for a detached dwelling is 125 sqm; semi-detached dwelling is 125 sqm; row dwelling is 125 sqm; group dwelling is 275 sqm; residential flat building is 275 sqm
Minimum site area for a detached dwelling is 150 sqm; semi-detached dwelling is 150 sqm; row dwelling is 150 sqm
Minimum site area for a detached dwelling is 150 sqm; semi-detached dwelling is 150 sqm; row dwelling is 150 sqm; group dwelling is 150 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 1,500 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 190 sqm; group dwelling is 275 sqm; residential flat building is 275 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 250 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm; row dwelling is 270 sqm
Minimum site area for a detached dwelling is 300 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm
Minimum site area for a detached dwelling is 325 sqm; semi-detached dwelling is 325 sqm
Minimum site area for a detached dwelling is 340 sqm; semi-detached dwelling is 340 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 250 sqm; row dwelling is 350 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 400 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 400 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm
Minimum site area for a detached dwelling is 420 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 270 sqm; row dwelling is 300 sqm; group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 350 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm

Minimum Site Area
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 400 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 400 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 450 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 350 sqm; row dwelling is 400 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 350 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm
Minimum site area for a detached dwelling is 550 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 550 sqm; row dwelling is 550 sqm
Minimum site area for a detached dwelling is 560 sqm
Minimum site area for a detached dwelling is 560 sqm; semi-detached dwelling is 560 sqm; row dwelling is 560 sqm; group dwelling is 560 sqm; residential flat building is 560 sqm
Minimum site area for a detached dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 420 sqm; row dwelling is 420 sqm; group dwelling is 600 sqm; residential flat building is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 600 sqm; row dwelling is 600 sqm; group dwelling is 600 sqm; residential flat building is 600 sqm
Minimum site area for a detached dwelling is 620 sqm
Minimum site area for a detached dwelling is 700 sqm
Minimum site area for a detached dwelling is 750 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 550 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 600 sqm
Minimum site area for a detached dwelling is 800 sqm
Minimum site area for a detached dwelling is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 200 sqm
Minimum site area is 2,000 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 350 sqm
Minimum site area is 400 sqm
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 560 sqm
Minimum site area is 600 sqm
Minimum site area is 650 sqm
Minimum site area is 700 sqm
Minimum site area is 750 sqm
Minimum site area is 800 sqm
Minimum site area is 850 sqm
Minimum site area is 900 sqm
Minimum site area for a detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 400 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 425 sqm; group dwelling is 400 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 450 sqm; group dwelling is 450 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 7.5m; row dwelling is 7.5m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; group dwelling is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 10m; group dwelling is 18m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 11m; row dwelling is 8m
Minimum frontage for a detached dwelling is 11m; semi-detached dwelling is 9m; group dwelling is 18m
Minimum frontage for a detached dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 12m; residential flat building is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 6m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 18m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 13m
Minimum frontage for a detached dwelling is 13m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 13m; semi-detached dwelling is 7m

Minimum Frontage
Minimum frontage for a detached dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; group dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m
Minimum frontage for a detached dwelling is 16m
Minimum frontage for a detached dwelling is 16m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 17m
Minimum frontage for a detached dwelling is 17m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 18m
Minimum frontage for a detached dwelling is 20m
Minimum frontage for a detached dwelling is 21m
Minimum frontage for a detached dwelling is 23m
Minimum frontage for a detached dwelling is 25m
Minimum frontage for a detached dwelling is 30m
Minimum frontage for a detached dwelling is 7m; semi-detached dwelling is 6m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 6m; row dwelling is 6m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7.5m; row dwelling is 7.5m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7m; row dwelling is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m; residential flat building is 9m
Minimum frontage is 10m
Minimum frontage is 11m
Minimum frontage is 12m
Minimum frontage is 13m
Minimum frontage is 14m
Minimum frontage is 15m
Minimum frontage is 16m
Minimum frontage is 17m
Minimum frontage is 18m
Minimum frontage is 20m
Minimum frontage is 21m
Minimum frontage is 25m
Minimum frontage is 7m
Minimum frontage is 8m
Minimum frontage is 9m
Minimum frontage for a detached dwelling is 10m
Minimum frontage for a detached dwelling is 12.5m
Minimum frontage for a detached dwelling is 9m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 12m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; group dwelling is 12m

In relation to DTS/DPF 2.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) no value is returned in (a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

PO 2.2

Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with the requirements specified in Established Neighbourhood Zone DTS/DPF 2.1, with 10% reduction in minimum site area where located in a Character Area Overlay or Historic Area Overlay
and

(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene:

(i) private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space

(ii) car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site coverage

PO 3.1

Building footprints are consistent with the character and pattern of the neighbourhood and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 3.1

Development does not result in site coverage exceeding:

Site Coverage
Maximum site coverage is 50 per cent
Maximum site coverage is 70 per cent
Maximum site coverage is 65 per cent
Maximum site coverage is 60 per cent
Maximum site coverage is 45 per cent
Maximum site coverage is 40 per cent
Maximum site coverage is 33.5 per cent

In instances where:

(a) no value is returned (i.e. there is a blank field), then a maximum 50% site coverage applies
(b) more than one value is returned in the same field, refer to the Site Coverage Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

Building Height

PO 4.1

Buildings contribute to the prevailing character of the neighbourhood and complements the height of nearby buildings.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) is no greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 4.5m
Maximum building height is 5.6m
Maximum building height is 5.7m
Maximum building height is 6m
Maximum building height is 6.5m
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 15m
Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.
(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

PO 4.2

Additions and alterations do not adversely impact on the streetscape character.

DTS/DPF 4.2

Additions and alterations:

(a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street
or
(b) meet all of the following:
  (i) do not include any development forward of the front façade building line
  (ii) where including a second or subsequent building level addition, does not project beyond a 45 degree angle measured from ground level at the building line of the existing building.

Primary Street Setback

PO 5.1

Buildings are set back from primary street boundaries consistent with the existing streetscape.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	No DTS/DPF is applicable.

For the purposes of **DTS/DPF 5.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 6.1

Buildings are set back from secondary street boundaries (not being a rear laneway) to maintain the established pattern of separation between buildings and public streets and reinforce streetscape character.

DTS/DPF 6.1

Building walls are set back from the secondary street boundary (other than a rear laneway):

(a) no less than:

Minimum Side Boundary Setback
Minimum side boundary setback is 3m
Minimum side boundary setback is 2m
Minimum side boundary setback is 1m
Minimum side boundary setback is 4m
Minimum side boundary setback is 1.5m
Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher
Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher
Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher
Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher
Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher
Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher
Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher
Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher
Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher

or

(b) 900mm, whichever is greater

or

(c) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street, not less than the distance of that building from the boundary with the secondary street.

In instances where no value is returned in DTS/DPF 6.1(a) (i.e. there is a blank field), then it is taken that the value for DTS/DPF 6.1(a) is zero.

Boundary Walls

PO 7.1

Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 7.1

Dwellings do not incorporate side boundary walls where a side boundary setback value is returned in (a) below:

(a)

Minimum Side Boundary Setback
Minimum side boundary setback is 3m
Minimum side boundary setback is 2m

	Minimum Side Boundary Setback Minimum side boundary setback is 1m Minimum side boundary setback is 4m Minimum side boundary setback is 1.5m Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher or (b) where no side boundary setback value is returned in (a) above, and except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (i) or (ii) below: (i) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (ii) side boundary walls do not: A. exceed 3.2m in wall height from the lower of the natural or finished ground level B. exceed 8m in length C. when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary D. encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwellings in a semi-detached, row or terrace arrangement are setback from side boundaries shared with allotments outside the development site at least the minimum distance identified in Established Neighbourhood Zone DTS/DPF 8.1.
Side Boundary Setback	
PO 8.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Other than walls located on a side boundary in accordance with Established Neighbourhood Zone DTS/DPF 7.1, building walls are set back from the side boundary: (a) no less than: **Minimum Side Boundary Setback** Minimum side boundary setback is 3m Minimum side boundary setback is 2m Minimum side boundary setback is 1m Minimum side boundary setback is 4m Minimum side boundary setback is 1.5m Minimum side boundary setback is 1.5m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 1.5m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 2.5m for any second building level or higher Minimum side boundary setback is 1m for the first building level; 3m for any second building level or higher Minimum side boundary setback is 2m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 3m for the first building level; 4m for any second building level or higher Minimum side boundary setback is 4m for the first building level; 8m for any second building level or higher (b) in all other cases (i.e., there is a blank field), then: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 9.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Other than in relation to an access lane way, buildings are set back from the rear boundary at least: (a) 4m for the first building level (b) 6m for any second building level.
Appearance	
PO 10.1 Garages and carports are designed and sited to be discreet and not dominate the appearance of the associated dwelling when viewed from the street.	DTS/DPF 10.1 Garages and carports facing a street (other than an access lane way) satisfy all of the following: (a) are set back at least 0.5m behind the building line of the associated dwelling (b) are set back at least 5.5m from the boundary of the primary street (c) have a total garage door / opening width not exceeding 30% of the allotment or site frontage, to a maximum width of 7m.
PO 10.2 The appearance of development as viewed from public roads is sympathetic to the wall height, roof forms and roof pitches of the predominant housing stock in the locality.	DTS/DPF 10.2 None are applicable.
Ancillary buildings and structures	
PO 11.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 11.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are constructed, added to or altered so that they are situated at least (i) 500mm behind the building line of the dwelling to which they are ancillary or (ii) 900mm from a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street has a total door/opening not exceeding 7m or 30% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), a length not exceeding 8m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary not exceeding 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end), and where located to the side of the associated dwelling, have a wall height or post height no higher than the wall height of the associated dwelling (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour. (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10%

	150-200 | 15% 201-450 | 20% >450 | 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 11.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 11.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 11.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 11.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size | Floor area ≤500m^2 | 60m^2 >500m^2 | 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 12.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 12.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Site coverage does not exceed 50% or the the amount specified in the *Site Coverage Technical and Numeric Variation* layer in the SA planning database, whichever is less. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 30% of the width of the allotment frontage (whichever lesser). 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;

	(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 19. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25%

	(b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment 9. Site coverage does not exceed 50% or the amount specified in the Site Coverage Technical and Numeric Variation layer in the Sa planning database whichever is less. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation. 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.

2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) residential flat building.	Except development that: 1. exceeds the maximum building height specified in Established Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Established Neighbourhood Zone DTS/DPF 1.2 or 2. exceeds the maximum building height specified in Established Neighbourhood Zone DTS/DPF 4.1 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
6. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

General Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Low-rise, low and medium-density housing that supports a range of needs and lifestyles located within easy reach of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Educational facility (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Student accommodation (o) Supported accommodation
PO 1.2 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities	DTS/DPF 1.2 None are applicable.

(d) open space and recreation facilities.

PO 1.3

Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.

DTS/DPF 1.3

None are applicable.

PO 1.4

Commercial activities improve community access to services are of a scale and type to maintain residential amenity.

DTS/DPF 1.4

A shop, consulting room or office (or any combination thereof) satisfies any one of the following:

(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied:
  (i) does not exceed 50m^2 gross leasable floor area
  (ii) does not involve the display of goods in a window or about the dwelling or its curtilage
(b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following:
  (i) the building is a State or Local Heritage Place
  (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes
(c) is located more than 500m from an Activity Centre and satisfies one of the following:
  (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road
  (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road
(d) the development site abuts an Activity Centre and all the following are satisfied:
  (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building)
  (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following:
    A. 50% of the existing gross leasable floor area within the Activity Centre
    B. 1000m^2.

PO 1.5

Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.

DTS/DPF 1.5

Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied:

(a) set back at least 3m from any boundary shared with a residential land use
(b) building height not exceeding 1 building level
(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration
(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site Dimensions and Land Division

PO 2.1

Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a low-rise and predominantly low-density neighbourhood, with higher densities closer to public open space, public transport stations and activity centres.

DTS/DPF 2.1

Development will not result in more than 1 dwelling on an existing allotment

or

Allotments/sites for residential purposes accord with the following:

Dwelling Type	Minimum site/allotment area per dwelling	Minimum site/allotment frontage
Detached dwelling (not in a terrace arrangement)	300m^2 (exclusive of any battle-axe allotment 'handle')	9m where not on a battle-axe site 5m where on a battle-axe site
Semi-detached dwelling	300m^2	9m
Row dwelling (or detached dwelling in a terrace arrangement)	250m^2	7m (averaged)
Group dwelling	300m^2 (average, including common areas)	15m (total)
Dwelling within a residential flat building	300m^2 (average, including common areas)	15m (total)

PO 2.2

Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with site area and frontage requirements specified in General Neighbourhood Zone DTS/DPF 2.1
and
(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene:
  (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space
  (ii) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

PO 2.3

Land division results in sites that are accessible and suitable for their intended purpose.

DTS/DPF 2.3

Division of land satisfies (a), (b) or (c):

(a) reflects the site boundaries illustrated and approved in an existing development authorisation under the Development Act 1993 or Planning, Development and Infrastructure Act 2016 where the allotments are used or are proposed to be used solely for residential purposes
(b) is proposed as part of a combined land division application with deemed-to-satisfy dwellings on the proposed allotments
(c) satisfies all of the following:
  (i) No more than 5 additional allotments are created
  (ii) Each proposed allotment has a minimum site area of 300m^2 and frontage of 9m
  (iii) Each proposed allotment has a slope less than 12.5% (1-in-8)
  (iv) There are no regulated trees on or within 20m of the subject land, with the distance measured from the base of the trunk of the tree (or the nearest trunk of the tree) to the subject land
  (v) The division does not involve creation of a public road
  (vi) Vehicle access from a public road can be provided to all proposed allotments which satisfies Design in Urban Areas DTS/DPF 23.3, 23.4 and 23.6, and would be located wholly on one side of the allotment, or located no more than 1m from the side boundary alignment
  (vii) No allotments are in a battle-axe configuration
  and
  (viii) Each proposed allotment is of a size and dimension capable of containing a rectangle 9m in width and 15m in depth.

Site Coverage

PO 3.1

Building footprints allow sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 3.1

The development does not result in site coverage exceeding 60%.

Building Height

PO 4.1

Buildings contribute to a low-rise suburban character.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) no greater than 2 building levels and 9m and wall height that is no greater than 7m (not including a gable end).

Primary Street Setback

PO 5.1

Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings on the abutting sites minus 1m.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building minus 1m.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m

For the purposes of **DTS/DPF 5.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 6.1

Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.

DTS/DPF 6.1

Building walls are set back from the boundary of the allotment with a secondary street frontage:

(a) at least 900mm
or
(b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, not less than the distance of that building from the boundary with the secondary street.

Boundary Walls

PO 7.1

Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 7.1

Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:

(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
(b) side boundary walls do not:
  (i) exceed 3m in wall height
  (ii) exceed 11.5m in length
  (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
  (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.

PO 7.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 7.2

Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side boundary setback

PO 8.1

Building walls are set back from side boundaries to provide:

(a) separation between buildings in a way that contributes to a suburban character
and
(b) access to natural light and ventilation for neighbours.

DTS/DPF 8.1

Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:

(a) where the wall height does not exceed 3m - at least 900mm
(b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings
(c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.

Rear boundary setback

PO 9.1

Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide:

(a) separation between buildings in a way that contributes to a suburban character
(b) access to natural light and ventilation for neighbours
(c) private open space
(d) space for landscaping and vegetation.

DTS/DPF 9.1

Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least:

(a) if the size of the site is less than 301m2—
  (i) 3m in relation to the ground floor of the building
  (ii) 5m in relation to any other building level of the building
(b) if the size of the site is 301m2 or more—
  (i) 4m in relation to the ground floor of the building
  (ii) 6m in relation to any other building level of the building.

Concept Plans

PO 10.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 10.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton
Concept Plan 9 - Blakeview
Concept Plan 10 - Blakeview
Concept Plan 50 - Roseworthy Town Expansion
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 94 - Old Reynella
Concept Plan 107 - Proper Bay
Concept Plan 101 - Evanston Gardens, Evanston South, Hillier
Concept Plan 100 - Gawler East
Concept Plan 117 - Narooma
Concept Plan 129 - O'Sullivan Beach
Concept Plan 175 - Smithfield Regeneration

In relation to DTS/DPF 10.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.

Ancillary Buildings and Structures

PO 11.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 11.1

Ancillary buildings satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding 60m2
(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) have a door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 11.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 11.2

Ancillary buildings and structures do not result in:

	(a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 11.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 11.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: ≤500m² — Floor area: 60m²; >500m² — Floor area: 80m² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 12.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 12.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Site coverage does not exceed 60%. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)** — **Minimum percentage of site**

	<table><tr><th></th><th></th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (b) the amount of existing soft landscaping prior to the development occurring 16. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 17. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Site coverage does not exceed 60%. 11. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: <table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (b) the amount of existing soft landscaping prior to the development occuring 19. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: <table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table>

	(b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Site coverage does not exceed 60%. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) dwelling addition (e) residential flat building (f) retirement facility (g) student accommodation (h) supported accommodation.	Except development that: 1. does not satisfy General Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where not located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) General Neighbourhood Zone DTS/DPF 1.4 (b) General Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
8. Alteration of or addition to any development involving the following (or of any combination of any of the following):	Except development that does not satisfy General Neighbourhood Zone DTS/DPF 1.5.

(a) child care facility (b) community facility (c) educational facility.	
9. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Golf Course Estate Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A golf course and associated club facilities as well as housing and tourism development sensitively integrate with natural features such as topography, vegetation and watercourses. Services and facilities support recreation and tourism.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Recreation, housing and complementary uses support tourism and residential living in a golf course setting.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Co-living (b) Consulting room (c) Dwelling (d) Golf course (e) Office (f) Outbuilding (g) Residential flat building (h) Retirement facility (i) Shop (j) Sporting clubrooms (k) Supported accommodation (l) Tourist accommodation.
PO 1.2 Non-residential development is complementary to a golf course, such as tourist accommodation, sporting clubrooms and associated shops.	DTS/DPF 1.2 None are applicable.
PO 1.3 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.3 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it is ancillary to and integrated with golf course facilities.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are consistent with the density and dimensions expressed in any relevant *Minimum Site Area Technical and Numeric Variation* and *Minimum Frontage Technical and Numeric Variation*, or are otherwise generally consistent with the prevailing pattern of development in the locality and suitable for their intended use.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System: (i) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building): **Minimum Site Area** Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm; group dwelling is 300 sqm Minimum site area is 1,200 sqm Minimum site area is 450 sqm Minimum site area is 5,000 sqm Minimum site area is 700 sqm (ii) site frontages are not less than: **Minimum Frontage** Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; group dwelling is 18m Minimum frontage is 15m Minimum frontage is 20m (b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service: (i) site areas are not less than the greater of: A. 1200m^2 B. the following: **Minimum Site Area** Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm; group dwelling is 300 sqm Minimum site area is 1,200 sqm Minimum site area is 450 sqm Minimum site area is 5,000 sqm Minimum site area is 700 sqm (ii) site frontages are not less than the greater of: A. 20m B. the following:

	Minimum Frontage Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; group dwelling is 18m Minimum frontage is 15m Minimum frontage is 20m In relation to DTS/DPF 2.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) no value is returned for DTS/DPF 2.1(a)(i) and/or (ii) (i.e. there is a blank field), then non are applicable and the relevant development cannot be classified as deemed-to-satisfy (e) no value is returned for 2.1(b)(i)(B) and/or 2.1(b)(ii)(B) (i.e. there is a blank field), then the value for 2.1(b)(i)(B) and/or 2.1(b)(ii)(B) is zero.
PO 2.2 Development results in sites suitable for their intended purpose.	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment: (a) The balance of the allotment accords with site areas and frontage requirements specified in DTS / DPF 2.1 and DTS/DPF 2.2 and (b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene: (i) Private open space requirements specified in Design Table 1 - Private Open Space (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height	
PO 3.1 Buildings of a height that complements the open natural character of the golf course.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) are no greater than 2 building levels and 9m and wall height is no greater than 7m except in the case of gable end.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 Buildings setback from the primary street boundary in accordance with the following table: Development Context / Minimum setback There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. / The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. / The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. / (a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. / 5m For the purposes of **DTS/DPF 4.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 5.1 Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 6.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 6.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3.2 m in wall height from the lower of the natural or finished ground level (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
Side Boundary Setback	
PO 7.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 7.1 Building walls are set back from the side boundary in accordance with the following: (a) On sites greater than 800m^2: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level. (b) On sites 800m^2 or less: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 8.1 Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide: (a) separation between buildings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation (e) a consistent character when viewed from a golf course.	DTS/DPF 8.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least: (a) where the rear boundary fronts a golf course, no less than the average rear setback of any existing buildings (excluding ancillary buildings and structures) on adjoining allotments. (b) where the rear boundary adjoins a laneway - 0m (c) In all other cases: (i) 3m for the first building level and (ii) 5m for any second building level.
Ancillary Buildings and Structures	
PO 9.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 9.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the site (b) have a floor area not exceeding: (i) 60m^2 on sites less than 800m^2 (ii) 80m^2 on sites 800m^2 or more (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary (ii) within 5.5m from the boundary of the primary street (iii) within 900mm of a boundary of the allotment with a secondary street (d) in the case of a garage or carport, do not exceed 7m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), a length not exceeding 11.5m unless:

	(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary do not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 9.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision and car parking requirements.	DTS/DPF 9.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 9.3 Ancillary buildings are sited and designed to minimise visibility from the golf course and not dominate the appearance of public places.	DTS/DPF 9.3 None are applicable.
PO 9.4 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 9.4 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Site Coverage	
PO 10.1 Building footprints are generally consistent with the prevailing pattern of development and retain sufficient space around buildings to limit visual impact and enable attractive outlook and access to light and ventilation.	DTS/DPF 10.1 The development does not result in site coverage exceeding 60%.
Built Form and Character	
PO 11.1 Dwellings on sites/allotments that overlook the golf course are designed to take advantage of golf course views while providing attractive frontages to public streets.	DTS/DPF 11.1 None are applicable.
PO 11.2 Service areas associated with dwellings such as open storage and clothes drying are screened from the golf course and public view.	DTS/DPF 11.2 None are applicable.
Concept Plans	
PO 12.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 12.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 122 - Mount Compass Golf Course Estate In relation to DTS/DPF 12.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 12.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the

	public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Site coverage does not exceed 60%. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) golf course (e) office (f) residential flat building (g) shop (h) sporting clubrooms (i) supported accommodation.	Except development that: 1. does not satisfy Golf Course Estate Zone DTS/DPF 3.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
3. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).

5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Hills Face Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	To maintain the western slopes of the South Mount Lofty Ranges as an important natural asset of Greater Adelaide by limiting development to low-intensity agricultural activities and public and private open space. The natural character of the zone will be preserved, enhanced and re-established to: (a) provide a natural backdrop to the Adelaide Plain and a contrast to the urban area (b) preserve biodiversity and restore locally indigenous vegetation and fauna habitats close to metropolitan Adelaide (c) provide for passive recreation in an area of natural character close to the metropolitan area (d) provide a part of the buffer area between metropolitan districts and prevent the urban area extending into the western slopes of the Mount Lofty Ranges. 'Natural character' refers to the natural topography, native vegetation and colours, such as greens and browns of non-reflective earthen tones, normally associated with a natural landscape. Additionally, natural character refers to the open character of the land in those areas of the zone where open grazing currently predominates.
DO 2	Development ensures that the community is not required to bear the cost of providing services to and within the Zone.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Low-intensity, low-scale activities that complement the natural, rural and scenic qualities of the hills face landscape.	DTS/DPF 1.1 None are applicable.
PO 1.2 Low-intensity farming activities minimise their visual and environmental impact.	DTS/DPF 1.2 Farming does not involve: (a) excavation or filling of land (b) the construction of roads, tracks and thoroughfares (c) the erection, construction or alteration of, or addition to, any building or structure (d) the clearing of native vegetation.
PO 1.3 Development does not in itself, or in association with other development, create a potential demand for the provision of services at a cost to the community.	DTS/DPF 1.3 None are applicable.
PO 1.4 Residential development limited to maintain a pleasant natural and rural character and amenity.	DTS/DPF 1.4 Detached dwellings of not more than one building level and comprising no more than one dwelling on an allotment.
Built Form and Character	
PO 2.1 Buildings are unobtrusive and sited and designed in such a way as to: (a) preserve and enhance or assist in the re-establishment of the natural character of the zone (b) limit the visual intrusion of development in the Zone particularly when viewed from roads within the zone or from the Adelaide Plain.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are limited in height and scale to minimise the amount of building mass visible from the Adelaide Plains.	DTS/DPF 2.2 Buildings satisfy all of the following: (a) are of single building level (b) building height does not exceed 5m (c) wall height does not exceed 3m (not including gable ends).
PO 2.3 Where possible and without compromising the desired outcomes of the Zone, buildings are grouped together (but not attached) to limit the spread of built development that can be viewed from the Adelaide Plains.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings are located within valleys or behind spurs or positioned well below the ridge line so that they are not visible against the skyline when viewed from roads within the zone or from the Adelaide Plains.	DTS/DPF 2.4 None are applicable.
PO 2.5 Buildings are sited in unobtrusive locations and utilise existing vegetation and natural features of the land to assist in obscuring them from sight when viewed from roads within the zone and from the Adelaide Plains.	DTS/DPF 2.5 None are applicable.
PO 2.6 Buildings are well set back from public roads, particularly where the allotment of the development is on the high side of the road.	DTS/DPF 2.6 None are applicable.
PO 2.7	DTS/DPF 2.7

Buildings are designed and sited to keep roof lines below the lowest point of the abutting road when the allotment is on the low side of the road.	None are applicable.
PO 2.8 Buildings are sited and designed to reduce the vertical profile of the building.	DTS/DPF 2.8 None are applicable.
PO 2.9 Buildings comprise materials that are of a low light reflective nature and use colours that are unobtrusive and blend with a natural and rural landscape.	DTS/DPF 2.9 None are applicable.
PO 2.10 Buildings have a safe, clean, tidy and unobtrusive area for the storage and disposal of refuse so that the natural character of the zone is not adversely affected.	DTS/DPF 2.10 None are applicable.
Excavation and Filling	
PO 3.1 Excavation and/or filling of land outside townships and urban areas is: (a) kept to a minimum so as to preserve the natural form of the land and native vegetation (b) only undertaken in order to reduce the visual impact of buildings, including structures, or in order to construct water storage facilities for use on the allotment (c) directly required for the portion of a building that is fully underground, an underground dwelling, underground tank, cellar, pipeline or waste disposal and treatment system.	DTS/DPF 3.1 The depth of earthworks does not exceed: (a) in the case of excavation, 2m below natural ground level. (b) in the case of filling of land, 1m above natural ground level.
PO 3.2 Excavation and/or filling of land is only undertaken if the resultant slope can be stabilised to prevent erosion, and results in stable scree slopes which are covered with top soil and landscaped so as to preserve and enhance the natural character or assist in the re-establishment of the natural character of the area.	DTS/DPF 3.2 None are applicable.
Mining	
PO 4.1 New mines and quarries not developed within the zone.	DTS/DPF 4.1 Development does not involve the construction of a new mine or quarry.
PO 4.2 Extensions to existing mines and quarries is only undertaken if: (a) the overall benefit to the community from the minerals produced together with the planned after-use of the site outweighs any loss of amenity or other resources resulting from the extractive operations (b) the site contains minerals of the necessary quality and, for reasons of location, quality or other factors, no practical alternative source is available (c) the proposed operation would maximise the utilisation of the resource but minimise the adverse impacts of extraction (d) the proposed workings cannot be seen from any part of the Adelaide Plain nor from any arterial road, scenic road or other substantial traffic route (e) an effective buffer of land and native trees exists around the site to protect adjoining land users from effects of the operation (f) the operation is to be conducted in accordance with a staged development and rehabilitation scheme which: (i) ensures that danger and unreasonable damage or nuisance does not arise from workings or any operations associated with them (ii) provides for progressive rehabilitation of disturbed areas and for landscaping with locally indigenous plant species in order to produce a site which assists in the re-establishment of a natural character (iii) provides for the removal of buildings, plant, equipment and rubbish when operations are completed (iv) provides scope for suitable after-uses.	DTS/DPF 4.2 None are applicable.
Landfill and Waste Transfer Stations	
PO 5.1 Landfill operations only developed if the site of the proposed development: (a) is located outside the Mount Lofty Ranges Catchment (Area 1) Overlay and (b) is a disused quarry or (c) has ground slopes no greater than 10% and has adequate separation distances from any above ground and underground water resource and from any potentially incompatible land uses and activities.	DTS/DPF 5.1 None are applicable.
PO 5.2 Small-scale waste transfer stations may be appropriate if located: (a) outside of the Mount Lofty Ranges Catchment (Area 1) Overlay (b) in unobtrusive locations.	DTS/DPF 5.2 None are applicable.
Horticulture	
PO 6.1 Horticultural activities are appropriately located to minimise impacts on native vegetation.	DTS/DPF 6.1 Horticulture, other than where it involves the growing of olives, is located no closer than 50m to stands of significant native vegetation, including native grasses.
PO 6.2 Horticulture involving the growing of olives is avoided or is progressively replaced where it exists to maintain and improve native vegetation and conservation values within the zone.	DTS/DPF 6.2 The replacement of olive groves with another form of horticulture or native vegetation.
PO 6.3 Horticultural activities are appropriately located to minimise impacts on lakes, watercourses and wetlands.	DTS/DPF 6.3 Horticulture is located no closer than 50m to a lake, watercourse or wetland.
PO 6.4 Horticultural activities incorporate a suitably sized vegetated buffer area/strip to mitigate any adverse impacts from the horticultural activity (including noise, chemical spray drift and run-off) on nearby dwellings, tourist accommodation or other sensitive receivers in other ownership.	DTS/DPF 6.4 Horticultural activities are greater than 300m from a dwelling, tourist accommodation or other sensitive receiver in other ownership.
Tourist Development	
PO 7.1 Tourist facilities are of a low intensity and low-scale and are sited unobtrusively.	DTS/DPF 7.1 None are applicable.
Driveways, Access Tracks and Car parking	
PO 8.1 Driveways, access tracks and car parking areas constructed in a manner which preserves landscape character and are: (a) sited and constructed to follow contours of the land to reduce their visual impact and potential for erosion from water runoff (b) surfaced with dark materials.	DTS/DPF 8.1 None are applicable.
PO 8.2 Driveways and access tracks are limited in length and avoid steep slopes.	DTS/DPF 8.2 Driveways and access tracks: (a) are not more than 30m in length and (b) have a gradient of less than 16 degrees (1-in-3.5) at any point along the driveway or access track.
Infrastructure	
PO 9.1 Telecommunication facilities, communication towers and masts: (a) are sited and designed to minimise their visual impact (b) contain the number of aerials and masts by shared use of facilities	DTS/DPF 9.1 None are applicable.
PO 9.2 Telephone lines and electricity mains and services of less than 33kV are located underground.	DTS/DPF 9.2 None are applicable.
PO 9.3 New telephone lines, mains and services are located and designed in such a way as to minimise their visual intrusion and any adverse effect on the natural character of the zone.	DTS/DPF 9.3 None are applicable.
Environment and Amenity	
PO 10.1 Development is not undertaken if it is likely to result in:	DTS/DPF 10.1 None are applicable.

(a) pollution of underground or surface water resources (b) over exploitation of underground or surface water resources (c) adverse impact on underground or surface water resources, including any environmental flows required to sustain the natural environment.	
PO 10.2 Development not undertaken if it is likely to result in: (a) unnecessary loss or damage to native vegetation including the full range of tree, understorey and groundcover species/ native grasses so as to maintain and enhance environmental values and functions, including conservation, biodiversity and habitat (b) denudation of pastures (c) the introduction of or an increase in the number of pest plants or vermin.	DTS/DPF 10.2 None are applicable.
PO 10.3 Development is not undertaken if it is likely to result in adverse impacts from chemical spray drift, chemical run-off or chemical residue in soils.	DTS/DPF 10.3 None are applicable.
PO 10.4 Development is not undertaken if it is likely to result in loss of amenity to adjoining land or surrounding localities from: (a) the visual impact of buildings, structures or earthworks (b) the intensity of activity associated with any such use, including significant adverse impacts arising from: (i) chemical spray drift (ii) use of audible bird or animal deterrent devices (iii) the use of associated vehicles and machinery.	DTS/DPF 10.4 None are applicable.
PO 10.5 Development does not occur on land if the slope poses an unacceptable risk of soil movement, landslip or erosion.	DTS/DPF 10.5 None are applicable.
PO 10.6 Buildings, structures are not located in areas subject to inundation by a 1% AEP flood event.	DTS/DPF 10.6 Development is located outside of the 1% AEP flood event.
PO 10.7 Buildings, structures and associated fill do not interfere with the flow of flood waters.	DTS/DPF 10.7 None are applicable
Native Vegetation	
PO 11.1 Development is only undertaken if it can be located and designed to maximise the retention of existing native vegetation and, if possible, increase the extent of locally indigenous plant species.	DTS/DPF 11.1 None are applicable.
PO 11.2 Development is screened by locally indigenous plant species or use of screening mounds, including scree slopes created as a result of excavation and/or filling of land, in such a way that the bushfire hazard is not increased.	DTS/DPF 11.2 None are applicable.
PO 11.3 Any essential clearance of native vegetation is accompanied by conservation initiatives, including replanting with indigenous native vegetation, to ensure the overall result is a biodiversity gain.	DTS/DPF 11.3 None are applicable.
Fencing and Retaining Walls	
PO 12.1 Retaining walls are constructed as a stepped series of low walls constructed of dark, natural coloured materials and screened by landscaping using locally indigenous plant species if possible.	DTS/DPF 12.1 None are applicable.
PO 12.2 Fences: (a) are sited to minimise their visual impact (b) are constructed of post and wire or other materials which can be seen through (c) avoid construction of obtrusive gateways, particularly of brick or masonry.	DTS/DPF 12.2 None are applicable.
PO 12.3 When solid fences are essential, particularly rear and side fences in closely divided areas, they: (a) are constructed of materials which are of a low-light reflective nature and of dark natural colours to blend with the natural landscape and minimise any visual intrusion (b) do not increase the fire risk near buildings.	DTS/DPF 12.3 None are applicable.
Advertisements	
PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.
Land Division	
PO 14.1 Land division does not result in the creation of an additional allotment.	DTS/DPF 14.1 No additional allotments are created.
PO 14.2 Land division involving boundary realignments occurs only where it supports the management or improvement of the natural environment including avoiding further fragmentation of land that may reduce effective management of the environment or diminishing the natural character of the area.	DTS/DPF 14.2 Land division involving boundary realignment satisfies at least one of the following: (a) is for the creation of a public road or reserve (b) is to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures (c) is for the management of existing native vegetation.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure	

Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Caravan and tourist park	None specified
Dwelling	Detached dwelling that does not result in more than one dwelling on an allotment.
Educational facility	None specified
Electricity generating station	None specified
Horticulture involving olive growing	None specified
Industry	Light industry
Intensive Animal Husbandry	None specified
Land division	Land division that is a boundary realignment
Landfill	None specified
Prescribed mining operations	None specified
Renewable energy facility	Any of the following: (a) solar photovoltaic panels (roof or ground mounted) (b) battery storage facility For domestic use (i.e., principally used to supply and/or store electricity to the existing use of land).
Residential flat building	None specified
Telecommunications facility	None specified
Transport depot	None specified
Waste reception, storage, treatment or disposal	None specified
Wrecking yard	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) dwelling (b) dwelling addition (c) temporary public transport depot.	Except any of the following: 1. any building that is not a dwelling or ancillary to a dwelling 2. development where the building height exceeds 5m 3. development with a wall height or post height that exceeds 3m above natural ground level.

3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Hills Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development provides a complementary transition to adjacent natural and rural landscapes. Low density housing minimises disturbance to natural landforms and existing vegetation to mitigate the visible extent of buildings, earthworks and retaining walls.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly low density residential development with complementary non-residential uses compatible with natural landforms and a low density residential character.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Consulting room (c) Dwelling (d) Office (e) Open space (f) Shop (g) Recreation area.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.4 None are applicable.
PO 1.5 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.5 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate residential development that is sensitive to the natural topography and compatible with the housing pattern in the locality.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas,

applies for group dwellings or dwellings within a residential flat building):

Gradient Minimum Site Area
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 2000sqm; 1-in-8 to 1-in-4 is 2000sqm; greater than 1-in-4 is 2000sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 500sqm; greater than 1-in-4 is 500sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 550sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 600sqm; 1-in-8 to 1-in-4 is 700sqm; greater than 1-in-4 is 900sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 625sqm; 1-in-8 to 1-in-4 is 625sqm; greater than 1-in-4 is 625sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 800sqm; greater than 1-in-4 is 950sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 750sqm; 1-in-8 to 1-in-4 is 750sqm; greater than 1-in-4 is 750sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 1000sqm; 1-in-8 to 1-in-4 is 1000sqm
Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 2200sqm; 1-in-8 to 1-in-4 is 2200sqm; greater than 1-in-4 is 2200sqm
Gradient Minimum Site Area (Detached)
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1000sqm; 1-in-8 to 1-in-4 is 1000sqm; greater than 1-in-4 is 1000sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1200sqm; 1-in-8 to 1-in-4 is 1500sqm; greater than 1-in-4 is 2000sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1500sqm; 1-in-8 to 1-in-4 is 1500sqm; greater than 1-in-4 is 1500sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1860sqm; 1-in-8 to 1-in-4 is 1860sqm; greater than 1-in-4 is 1860sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 360sqm; 1-in-8 to 1-in-4 is 360sqm; greater than 1-in-4 is 390sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 420sqm; 1-in-8 to 1-in-4 is 420sqm; greater than 1-in-4 is 420sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 1000sqm; greater than 1-in-4 is 2000sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 550sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 560sqm; 1-in-8 to 1-in-4 is 560sqm; greater than 1-in-4 is 560sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 650sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1200sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1100sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1200sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 800sqm; 1-in-8 to 1-in-4 is 800sqm; greater than 1-in-4 is 800sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Gradient Minimum Site Area (Semi-detached)
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 1860sqm; 1-in-8 to 1-in-4 is 1860sqm; greater than 1-in-4 is 1860sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 360sqm; 1-in-8 to 1-in-4 is 360sqm; greater than 1-in-4 is 390sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 375sqm; 1-in-8 to 1-in-4 is 375sqm; greater than 1-in-4 is 375sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 450sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 600sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 650sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1200sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 850sqm; 1-in-8 to 1-in-4 is 850sqm; greater than 1-in-4 is 850sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Gradient Minimum Site Area (Row)
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 250sqm; 1-in-8 to 1-in-4 is 250sqm; greater than 1-in-4 is 280sqm
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 350sqm; greater than 1-in-4 is 350sqm
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Gradient Minimum Site Area (Residential Flat)
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 300sqm; greater than 1-in-4 is 325sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 600sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Gradient Minimum Site Area (Group)
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 300sqm; greater than 1-in-4 is 325sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 700sqm; greater than 1-in-4 is 900sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1600sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1100sqm
Minimum Site Area
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm; row dwelling is 280 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area is 1,500 sqm
Minimum site area is 420 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Gradient Minimum Frontage
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 18m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 25m; 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 45m; 1-in-8 to 1-in-4 is 45m; greater than 1-in-4 is 45m
Gradient Minimum Frontage (Detached)
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 21m; greater than 1-in-4 is 30m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 14m; 1-in-8 to 1-in-4 is 14m; greater than 1-in-4 is 14m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 24m; greater than 1-in-4 is 24m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 25m

Gradient Minimum Frontage (Semi-detached)
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 11m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 24m; greater than 1-in-4 is 24m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 9m
Gradient Minimum Frontage (Row)
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 9m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m
Gradient Minimum Frontage (Residential Flat)
Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 11m
Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 25m; 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m
Gradient Minimum Frontage (Group)
Minimum frontage for group dwellings where the site gradient is 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 20m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 26m; greater than 1-in-4 is 26m
Minimum Frontage
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage is 15m
Minimum frontage is 20m

In relation to DTS/DPF 2.1, in instances where:

(c) more than one value is returned in the same field, refer to the relevant Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) no value is returned in DTS/DPF 2.1(a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

PO 2.2

Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1 and

(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene:
- (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space
- (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site coverage

PO 3.1

Building footprints consistent with the character and pattern of a low-density suburban neighbourhood and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 3.1

The development does not result in site coverage exceeding:

(a) On sites with a gradient more than 1-in-8, 40%

(b) On sites with a gradient less than 1-in-8, 50%.

Building Height

PO 4.1

Buildings contribute to a low-rise suburban character and complement the height of nearby buildings.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) is no greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 6m
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 9m restricted to 53.5m AHD
Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Primary Street Setback

PO 5.1

Buildings are set back from primary street boundaries consistent with the existing streetscape.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum Setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 8m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	8m

For the purposes of **DTS/DPF 5.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback

(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum

	setback prescribed in the table
Secondary Street Setback	
PO 6.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 6.1 Building walls are set back from the boundary of the allotment with a secondary street frontage: (a) no less than: (i) on sites with a site gradient greater than 1-in-8: 1900mm (ii) on sites with a site gradient less than 1-in-8: at least 900mm or (b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street, the distance of that building from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).
Boundary Walls	
PO 7.1 Boundary walls are limited in height and length to manage impacts on adjoining properties.	DTS/DPF 7.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3.2m in wall height from the lower of the natural or finished ground level (ii) exceed 8m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are set back from side boundaries shared with allotments outside the development site at least the minimum distance identified in DTS/DPF 8.1.
Side Boundary Setback	
PO 8.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Building walls not sited on side boundaries set back from the side boundary in accordance with the following: (a) on sites with a site gradient greater than 1-in-8: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level. (b) on sites with a site gradient less than 1-in-8: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 9.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Buildings are set back from the rear boundary at least: (a) 4m for the first building level (b) 6m for any second building level.
Built Form and Character	
PO 10.1 Development that would be prominently visible from the Adelaide plains or urban areas within regional cities and townships: (a) achieves a profile that blends with the topography of the land (b) avoids the use of bright and highly reflective external materials and finishes (c) incorporates existing vegetation wherever possible and additional landscaping to assist in reducing the apparent bulk and scale.	DTS/DPF 10.1 None are applicable.
PO 10.2 Development of more than 1 building level in height takes account of its height and bulk relative to adjoining dwellings by: (a) incorporating stepping in the design in accordance with the slope of the land (b) where appropriate, setting back the upper level a greater distance from front and side boundaries than the lower level.	DTS/DPF 10.2 None are applicable.
Earthworks and retaining	
PO 11.1 Buildings sited and designed to integrate with the natural topography of the land using measures such as split level building construction and other approaches that minimise the extent of cut and fill.	DTS/DPF 11.1 None are applicable.
PO 11.2 Vegetation is used to screen buildings and excavation or filling from view.	DTS/DPF 11.2 None are applicable.
PO 11.3 Retaining walls are stepped series of low walls constructed of dark, natural coloured materials and screened by landscaping.	DTS/DPF 11.3 Retaining walls: (a) do not retain more than 1.5m in height or (b) where more than 1.5m is to be retained in total, are stepped in a series of low walls each not exceeding 1m in height and separated by at least 700mm.
Ancillary Buildings and Structures	
PO 12.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 12.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 8m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site

	<table><tr><th></th><th></th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (ii) the amount of existing soft landscaping prior to the development occurring.
PO 12.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 12.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 12.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 12.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: <table><tr><th>Allotment size</th><th>Floor area</th></tr><tr><td>≤500m^2</td><td>60m^2</td></tr><tr><td>>500m^2</td><td>80m^2</td></tr></table> (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing building dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Site coverage does not exceed: (a) On sites with a gradient more than 1-in-8, 40% (b) On sites with a gradient less than 1-in-8, 50%. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access

	(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Site coverage does not exceed: (a) On sites with a gradient more than 1-in-8, 40% (b) On sites with a gradient less than 1-in-8, 50%. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20%

	>450 | 25%
	(b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed $40m^2$ 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Site coverage does not exceed: (a) On sites with a gradient more than 1-in-8, 40% (b) On sites with a gradient less than 1-in-8, 50%. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding $30m^2$. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) residential flat building.	Except development that: 1. exceeds the maximum building height specified in Hills Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Hills Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy any Hills Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Retaining wall.	Except retaining wall that does not satisfy Hills Neighbourhood Zone DTS/DPF 11.3.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Home Industry Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating small-scale and low-impact business enterprises in conjunction with a dwelling that provides opportunities to work from home and contribute to employment diversity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	

PO 1.1 Business activities established in association with residential development.	DTS/DPF 1.1 Development comprises one or more of the following in association with a dwelling: (a) Consulting room (b) Light industry (c) Office (d) Personal or domestic services establishment (e) Shop in conjunction with light industry (f) Store (g) Motor repair station (h) Warehouse.
PO 1.2 Business activities are of a scale to assist in the effective management of emissions and other impacts to maintain a reasonable level of residential amenity for occupants of the associated dwelling and residential neighbours.	DTS/DPF 1.2 Business activity satisfies (a) to (d), inclusive: (a) employs no more than 3 persons not residing in the associated dwelling (b) provides 1 on-site car parking space for each non-resident employee (c) occupies an area not exceeding 20% of the relevant allotment area and not exceeding 200m^2 where the area is the sum of: (i) the gross floor area of any building or portion of a building used for business activities (ii) any outdoor area used related to business storage or display purposes (iii) each non-resident employee parking space (d) does not involve the use or parking of a commercial vehicle exceeding 5 tonnes tare weight.
PO 1.3 Business areas and activities are configured to retain functional aspects of the associated dwelling to maintain a suitable residential character and amenity.	DTS/DPF 1.3 Business activities, including outdoor storage and display areas and non-resident employee parking spaces, do not result in the associated dwelling having: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 1.4 Residential development supports opportunities for home-based business activities and mitigates the potential for conflict with a dwelling not associated with a business use associated with another dwelling on the same site.	DTS/DPF 1.4 Development will not result in more than 1 dwelling per allotment.
Built Form and Character	
PO 2.1 Buildings contribute to a low-rise character and complement the height of nearby buildings.	DTS/DPF 2.1 Buildings (excluding garages, carports and outbuildings) satisfy all of the following: (a) up to 2 building levels (b) building height up to 9m (c) wall height up to 7m.
PO 2.2 Buildings used for business purposes present an attractive frontage to public roads and thoroughfares to enhance the amenity of the locality.	DTS/DPF 2.2 Non-residential buildings: (a) incorporate any office, shop or consulting room component along a frontage to a public road or thoroughfare (b) if clad in metal sheeting, are pre-colour treated or painted in a non-reflective colour.
PO 2.3 Residential development, swimming pools and ancillary residential structures are located to allow off street vehicle access to non-residential building(s) use for business purposes.	DTS/DPF 2.3 None are applicable.
Building Setbacks	
PO 3.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 6m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 6m For the purposes of **DTS/DPF 3.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table.
PO 3.2 Dwellings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 3.2 Dwelling walls are no closer than 3m to the secondary street boundary.
PO 3.3 Dwellings set back from side boundaries provide: (a) separation between dwellings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours. (c) access for vehicles to the rear of the site where the business activity is located or proposed to be located behind the dwelling.	DTS/DPF 3.3 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) at least 3m to any one side boundary to provide vehicle access to the rear of the site where the business activity is located or proposed to be located behind the dwelling (b) in all other cases: (i) where the wall height does not exceed 3m - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (iii) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
PO 3.4 Non-residential buildings facing a public road or thoroughfare are sited to mitigate visual impact on residential streetscapes.	DTS/DPF 3.4 Non-residential buildings are set back from a public road or thoroughfare at least as far as the wall of the existing or approved dwelling on the same allotment.
PO 3.5 Non-residential buildings on or abutting the boundary of a zone primarily intended to accommodate sensitive receivers are designed to minimise visual impacts from building bulk.	DTS/DPF 3.5 Non-residential development is set back from zone boundaries 3m or more plus an additional 600mm for every metre of building height above 4m.
PO 3.6 Buildings set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 3.6 Building walls are set back from the rear boundary at least: (a) 3m for the first building level (b) 5m for any second building level.
Site Dimensions and Land Division	
PO 4.1 Land division creates allotments that are of a size and shape suitable for a dwelling and associated home-based business consistent with the prevailing residential character and land division pattern in a relevant locality.	DTS/DPF 4.1 Allotments: (a) connected to an approved common waste water disposal service have an area being the greater of the following: (i) where there is no established land division pattern, 750m^{2}or more or (ii) no less than an adjacent residential allotment, or the average of adjacent residential allotments where there is more than one adjacent allotment, used for residential purposes in the zone

	(b) that will require the disposal of waste water on-site, 1500m^2 or more (c) have a primary street frontage of at least 20m, plus an additional 5m frontage for every 500m^2 increment or portion thereof for allotments over 2000m^2 up to a frontage of 50m.
Advertising	
PO 5.1 Advertisements are small-scale and located and designed to reflect residential character and amenity.	DTS/DPF 5.1 Advertisements satisfy (a) to (c), inclusive: (a) will not result in more than one advertisement on the relevant allotment (b) do not have a face that exceeds 1m^2 in area (c) comprise: (i) an advertisement flush mounted to the main face of the building closest to the primary frontage or (ii) an advertisement flush mounted to the primary street fence or (iii) a freestanding advertising hoarding that does not exceed 2m in height above natural ground level.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser). 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that:

	(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted; 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Shop with a gross leasable floor area less than 1000m^2.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) ancillary accommodation (c) consulting room (d) dwelling (e) dwelling addition (f) light industry (g) motor repair station (h) office (i) shop (j) store (k) warehouse.	Except development that does not satisfy any of the following: 1. Home Industry Zone DTS/DPF 1.2 2. Home Industry Zone DTS/DPF 2.1
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Housing Diversity Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Medium density housing supports a range of needs and lifestyles, located within easy reach of a diversity of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse range of medium density housing and accommodation complemented by a range of compatible non-residential uses supporting an active, convenient, and walkable neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Consulting room (e) Community facility (f) Dwelling (g) Educational facility (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place

	(ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.4 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 1.5 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.5 None are applicable.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes accommodate a diverse range of low to medium density housing, with higher densities closer to public open space, public transport stations and activity centres.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 150 sqm; semi-detached dwelling is 150 sqm; row dwelling is 150 sqm; group dwelling is 150 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 160 sqm; semi-detached dwelling is 160 sqm; row dwelling is 160 sqm; group dwelling is 160 sqm; residential flat building is 160 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 180 sqm; row dwelling is 120 sqm; group dwelling is 150 sqm; residential flat building is 80 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 230 sqm; semi-detached dwelling is 230 sqm; row dwelling is 230 sqm; group dwelling is 230 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 200 sqm; row dwelling is 150 sqm; group dwelling is 150 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 220 sqm; row dwelling is 170 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 150 sqm; group dwelling is 175 sqm; residential flat building is 175 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 220 sqm; group dwelling is 220 sqm; residential flat building is 220 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; group dwelling is 250 sqm; residential flat building is 120 sqm
Minimum site area for a detached dwelling is 330 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm
Minimum site area is 200 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 600 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm; row dwelling is 270 sqm; group dwelling is 270 sqm; residential flat building is 270 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 150 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 325 sqm; semi-detached dwelling is 325 sqm; row dwelling is 230 sqm; group dwelling is 270 sqm; residential flat building is 270 sqm
Minimum site area is 150 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Minimum Frontage
Minimum frontage for a group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 7.5m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 22m; residential flat building is 22m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 7m; row dwelling is 5m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 13m; residential flat building is 13m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 6m; row dwelling is 7m; group dwelling is 12m; residential flat building is 22m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 5m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 5m; group dwelling is 7m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 7m; residential flat building is 7m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m; residential flat building is 15m
Minimum frontage is 10m
Minimum frontage is 12m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 6m; residential flat building is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage is 11.5m

	Minimum Frontage Minimum frontage is 4.5m In relation to DTS/DPF 2.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development. (d) no value is returned in DTS/DPF 2.1(a) (i.e. there is a blank field or the value is not relevant), then a net residential density of up to 70 dwellings per hectare applies. (e) no value is returned in DTS/DPF 2.1(b) (i.e. there is a blank field or the value is not relevant), then there is no minimum frontage and DTS/DPF 2.1(b) is met.
PO 2.2 Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment: (a) the balance of the allotment accords with the requirements specified in Housing Diversity Neighbourhood Zone DTS/DPF 2.1 and (b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene: (i) private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space (ii) car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally low rise, or complements the height of nearby buildings.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 10m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 16.5m Maximum building height is 11m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 6 levels Maximum building height is 9 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a maximum height of 9m. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** | **Minimum setback** In all cases. | 3m For the purposes of **DTS/DPF 4.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public thoroughfares and to reinforce streetscape character.	DTS/DPF 5.1 Building walls (except for ancillary buildings and structures) are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a building on any adjoining allotment is closer to the secondary street than 900mm, not less than the distance of that building from the boundary with the secondary street.
Boundary Walls	
PO 6.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 6.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 6.2 Dwellings in a semi-detached, row or terrace arrangements maintain space between buildings consistent with a suburban streetscape character.	DTS/DPF 6.2 Dwelling walls in a semi-detached, row or terrace arrangement are set back at least 900mm from side boundaries shared with allotments outside the development site.
Side Boundary Setback	
PO 7.1 Buildings walls are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 7.1 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 8.1 Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 8.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least: (a) 3m for the first building level or 0m where the rear boundary abuts a laneway (b) 5m for any second building level (c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description**

Description
Concept Plan 2 - Hurling Drive, Mount Barker
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 1 - Hawthorn Road South Mount Barker
Concept Plan 82 - Hackney
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 93 - Noarlunga Centre
Concept Plan 128 - Albert Park
Concept Plan 130 - Unley
Concept Plan 121 - Kilkenny
Concept Plan 175 - Smithfield Regeneration

In relation to DTS/DPF 9.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Ancillary buildings and structures

PO 10.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 10.1

Ancillary buildings satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding 60m^2
(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 10.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 10.2

Ancillary buildings and structures do not result in:

(a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
(b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 10.3

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 10.3

Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive:

(a) are ancillary and subordinate to an existing non-residential use on the same site
(b) have a floor area not exceeding the following:

Allotment size	Floor area
≤500m^2	60m^2
>500m^2	80m^2

(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the main building to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Advertisements

PO 11.1

Advertisements identify the associated business activity, and do not detract from the residential character of the locality.

DTS/DPF 11.1

Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.

Building alterations
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The alteration does not:
   (a) increase the floor area of the building
   (b) exceed the existing wall height
   (c) exceed the existing overall building height
   (d) alter the roof profile
   (e) alter an approved privacy screening arrangement or window treatment
   (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.

Building work on railway land
Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. Building work is associated with a railway.
2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).
3. It is required for the conduct or maintenance of railway activities.
4. It does not involve the clearance of native vegetation.
5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay
7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Carport
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
11. The carport is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not obtained form a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.
12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
13. Does not involve the clearance of native vegetation
14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
   (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

   (b) the amount of existing soft landscaping prior to the development occurring
15. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
16. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
12. If the outbuilding is a garage, it is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not located obtained from a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
14. Does not involve-
   (a) excavation exceeding a vertical height of 1 metre; or
   (b) filling exceeding a vertical height of 1 metre,
   and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
15. Does not involve the clearance of native vegetation.
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
   (a) a total area as determined by the following table:

	<table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (b) the amount of existing soft landscaping prior to the development occurring 18. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: <table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: <table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table> (b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3.2m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

	(a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) dwelling addition (e) recreation area (f) residential flat building (g) retirement facility (h) student accommodation (i) supported accommodation.	Except development that: 1. exceeds the maximum building height specified in Housing Diversity Neighbourhood Zone 3.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).

4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Alteration of or addition to any development involving any of the following (or of any combination of any of the following): (a) child care facility (b) community facility (c) educational facility.	Except development that does not satisfy Housing Diversity Neighbourhood Zone DTS/DPF 1.4.
6. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Housing Diversity Neighbourhood Zone 3.1 or 2. does not satisfy Housing Diversity Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following) where located on a Significant Retirement Facility and Supported Accommodation Site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
8. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
9. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Infrastructure Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The protection, provision, maintenance and expansion of infrastructure services and facilities that support orderly development and vehicular movements.
DO 2	Infrastructure services and facilities manage environmental impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Utility and infrastructure facilities and other services support the orderly development of land and assist in managing the impacts on the environment and community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Electricity substation (b) Landfill, including gas extraction plant and equipment (c) Water treatment and supply

	(d) Stormwater retention / detention basin (e) Sewerage treatment facility (f) Public service depot (g) Telecommunications facility (h) Waste transfer depot.
PO 1.2 Development does not hinder the ongoing operation of existing utility and other infrastructure services or jeopardise the expansion of those services to support economic activity and manage impacts on the environment and community.	DTS/DPF 1.2 None are applicable.
PO 1.3 Development ancillary to utility and other infrastructure services including offices, workshops and the like are undertaken to enhance the operational and maintenance aspects of those services.	DTS/DPF 1.3 None are applicable.
PO 1.4 Security fencing is located behind landscaping to enhance the appearance of development from adjacent areas, roads and thoroughfares.	DTS/DPF 1.4 None are applicable.
Fencing	
PO 2.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.	DTS/DPF 2.1 Fencing exceeding 2.1m in height: (a) is located behind a façade of an associated building located on the same site or (b) is located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Concept Plans	
PO 3.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 3.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 141 - West Lakes In relation to DTS/DPF 3.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 3.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) electricity substation (b) landfill, including gas extraction plant and equipment (c) public service depot (d) stormwater retention / detention basin (e) sewerage treatment facility (f) telecommunications facility (g) waste transfer depot (h) water treatment and supply.	Except where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Infrastructure (Airfield) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Aviation operations together with allied and complementary activities to support the long term ongoing use and expansion of airfield development and activities for commercial freight and passenger transport as well as aviation-related recreational pursuits.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development primarily catering for take-off and landing, on-ground movement, maintenance, repair and storage of aircraft, as well as facilities associated with the handling of freight and passengers to enhance the safe and efficient transportation of people and cargo.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Aircraft operational facilities beacons, transmitting installations and their associated towers (b) Aircraft control tower (c) Light industry associated with, and ancillary to, aviation activities (d) Passenger and/or air freight terminal (e) Aircraft hangar (f) Shop within the terminal building (g) Store associated with, and ancillary to, aviation activities (h) Fuel depot associated with aviation and airport related purposes (i) Office associated with, and ancillary to, aviation activities (j) Flight simulation and training facility. (k) Tourist accommodation associated with and ancillary to aviation activities (l) Caretaker's dwelling

PO 1.2 Development does not impede aviation operations and the expansion of airfields.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development is of a scale and design consistent with the role and function of the airfield and complementary to the wider setting.	DTS/DPF 2.1 None are applicable.
Land Division	
PO 3.1 Land division is suitable for the intended use of the land and maintains the efficient and safe operations of the airfield.	DTS/DPF 3.1 None are applicable.
Hazard Management	
PO 4.1 Movement between aircraft taxiways and open runway corridors and areas used for non-aviation purposes is regulated through the incorporation of fencing or other barriers to mitigate hazard to aircraft operations and provide for the safety of users and occupiers of land use for non-aviation purposes.	DTS/DPF 4.1 None are applicable.
PO 4.2 Landscaping uses species to minimise the nesting and attraction of birds and spread of leaf and other debris to mitigate hazard to aircraft.	DTS/DPF 4.2 None are applicable.
Advertisements	
PO 5.1 Advertisements are limited to those in connection with the terminal building and the display of business services on non-residential premises to avoid visual clutter and untidiness.	DTS/DPF 5.1 None are applicable.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4m x 4m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None

Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is ancillary to and located on the same allotment as an airfield passenger terminal.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) aircraft control tower (b) aircraft hanger (c) aircraft operational facilities beacons, transmitting installations and their associated towers (or any combination thereof) (d) caretaker's dwelling (e) detached dwelling where located within the Residential Aviation Estate Subzone (f) flight simulation and training facility (g) fuel depot associated with aviation and airport related purposes (h) light industry associated with, and ancillary to, aviation activities (i) office associated with, and ancillary to, aviation activities	Except non-residential development where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.

(j) passenger and/or air freight terminal (k) shop within a terminal building (l) store associated with, and ancillary to, aviation activities (m) tourist accommodation associated with and ancillary to aviation activities.	
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Residential Aviation Estate Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Low density, detached dwellings and associated aircraft hangars designed to integrate with and complement the spacious setting of the airfield.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Dwellings are developed in close affiliation with outbuildings and activities for the storage and / or maintenance of aircraft to support the role and function of the airfield.	DTS/DPF 1.1 Dwelling located on the same site as an existing aircraft hangar or built concurrently.
PO 1.2 Hangars provide for the storage and maintenance of aircraft and associated equipment within buildings to contribute to the appearance of land in the locality and mitigate adverse amenity impacts on neighbouring dwellings from aircraft maintenance activities.	DTS/DPF 1.2 None are applicable.
PO 1.3 An open character is accommodated by providing space around buildings and managing the cumulative impacts of buildings in the locality.	DTS/DPF 1.3 The total floor area of all existing and proposed buildings does not exceed 35 per cent of an allotment area.
Land Division	
PO 2.1 Allotments are of suitable size and dimension to accommodate a dwelling and associated outbuildings (including hangar) setbacks from boundaries to support a spacious setting.	DTS/DPF 2.1 Allotments have an area of 2000m^2 or more and a frontage width of 30m or more.
Building Height	
PO 3.1 Dwellings contribute to a low-rise residential character and complement the height of nearby buildings.	DTS/DPF 3.1 Dwelling: (a) with a height up to 2 building levels and 9m and (b) with a wall height up to 6m.
PO 3.2 An outbuilding in the form of a hangar that is sited and designed so as to be subordinate to the associated dwelling and complement the height of nearby buildings.	DTS/DPF 3.2 Hangar height is no more than 9m.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 The building line of a building set back from the primary street boundary not less than 6m.
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to support separation between building walls and public thoroughfares and reinforce an open and spacious streetscape character.	DTS/DPF 5.1 Buildings are set back 2m or more from the boundary of the allotment with the secondary street frontage.
Side Boundary Setback	
PO 6.1 Buildings are set back from side boundaries to provide: (a) separation between dwellings in a way that reinforces a low density residential character (b) access to natural light and ventilation for neighbours.	DTS/DPF 6.1 Buildings are set back from side boundaries 1m or more.
Rear Boundary Setback	
PO 7.1 Buildings are set back from rear boundaries to provide: (a) separation between dwellings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 7.1 Buildings are set back from the rear boundary 20m or more.

Infrastructure (Ferry and Marina Facilities) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating on-water development associated with the function of marinas and passenger ferry services together with a range of complementary waterfront-oriented recreational and tourist development activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 On-water development, including boat and ferry berthing, boat servicing facilities, walkways and channel markers preserves the function of marinas, passenger ferry services and port activities.	DTS/DPF 1.1 On water development comprises one or more of the following: (a) Boat berth, jetty, pier or pontoon (b) Coast protection work (c) Maritime structures / beacons
PO 1.2 Off-water development: (a) is associated with marinas, passenger ferry services and port activities including complementary conservation works (b) caters to the needs and enjoyment of visitors and occupants such as residential development tourist accommodation, restaurants, clubrooms, chandlery and the like, provided at a scale compatible with the role and function of the associated marina and / or the passenger ferry service.	DTS/DPF 1.2 Off-water development comprises one or more of the following land uses: (a) Boat construction, maintenance, repair or sale (b) Boat servicing facility (including fuel supply, power, water, effluent pump, toilets and showers) (c) Dwelling or residential flat building (d) Loading and unloading facility (e) Clubrooms in association with a marina (f) Office in association with a marina of ferry terminal (g) Parking area for vehicles and boats (h) Port activities (i) Shop in association with a marina or ferry terminal (j) Storage (k) Tourist accommodation (l) Wastewater collection, storage and transfer facility.
PO 1.3 Pedestrian and bicycle pathways associated with marinas and passenger ferry services link tourist accommodation with other recreation, tourist facilities and attractions within the area.	DTS/DPF 1.3 None are applicable.
Advertisements	
PO 2.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 2.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds $2m^2$ per side.
Concept Plans	
PO 3.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 3.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 3.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 3.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed $40m^2$ 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation

	10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) boat berth, jetty, pier or pontoon (or any combination thereof) (c) boat construction, maintenance, repair or sale (d) boat servicing facility (including fuel supply, power, water, effluent pump, toilets and showers, or any combination thereof) (e) clubrooms in association with a marina (f) coast protection work (g) dwelling (h) loading and unloading facility (i) maritime structures / beacons (j) office in association with a marina of ferry terminal (k) parking area for vehicles and boats (l) residential flat building (m) shop in association with a marina or ferry terminal (n) store (o) tourist accommodation (p) wastewater collection, storage and transfer facility.	Except non-residential development where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Wallaroo Marina Subzone

Assessment Provisions (AP)

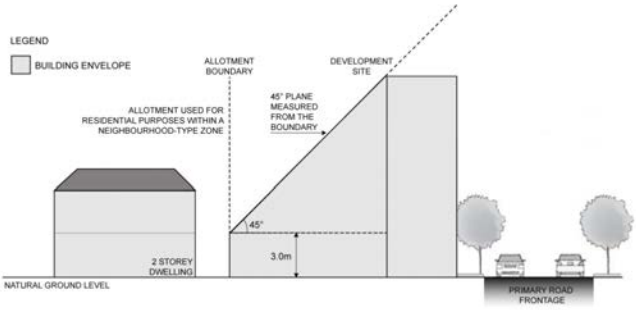
Desired Outcome (DO)

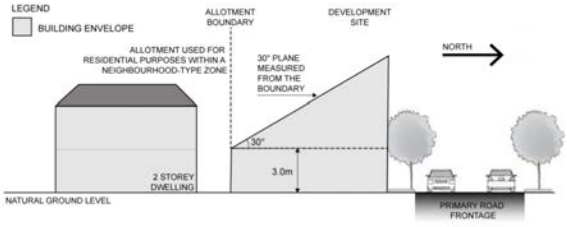
Desired Outcome	
DO1	Integrated waterfront-orientated commercial, residential/tourist accommodation, recreation and marina-based retail activities that serve as the focus of the marina development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development comprises a mixture of residential, tourist accommodation and waterfront commercial uses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Retail activities relate to the operation of the marina and are limited to hotels, restaurants and cafes, boating and fishing supplies.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development that fronts or overlooks the marina or public open space is designed to take advantage of waterfront views while providing attractive frontages to public streets.	DTS/DPF 2.1 None are applicable.
PO 2.2 Service areas are screened from public view.	DTS/DPF 2.2 None are applicable.
Building Height and Setbacks	
PO 3.1 Building height achieves the highest intensity of built form with frontage to the marina and lower scale behind.	DTS/DPF 3.1 Building height is not less than 2 levels or 10m.
PO 3.2 Buildings are provided with minimal setback to the marina to ensure a cohesive frontage to the marina and public walkway.	DTS/DPF 3.2 Buildings are set back a maximum 1.0 metre from the marina basin frontage.

Local Activity Centre Zone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of small-scale shops, offices, business, health and community facilities to provide daily services to and support walkable neighbourhoods.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, health and community facilities, services and other businesses provide a range of goods and services to the local community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Office (h) Shop
PO 1.2 Residential development does not prejudice the operation of retail, office, or community facilities and services related activity within the zone.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development supports the vitality of underperforming centres.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development sited and designed to achieve vibrant and interesting streetscapes.	DTS/DPF 1.4 None are applicable.
PO 1.5 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.5 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves: (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the building is a local heritage place or (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or

	(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Development complements adjacent development within the zone, and mitigates interface impacts on adjoining residential uses in a neighbourhood type zone, through appropriate building siting, scale and design.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are sited and designed to create pedestrian, vehicular and visual linkages between the various built-form elements within the zone and adjoining main roads.	DTS/DPF 2.2 None are applicable.
Building height and setbacks	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally of a low rise that complements the established streetscape and local character.	DTS/DPF 3.1 Building height is not greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 12m Maximum building height is 10.5m Maximum building height is 35m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 10 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 8m. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field for DTS/DPF 3.1(a), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or *Maximum Building Height (Levels) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.2 Buildings mitigate visual impacts of massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 3.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.4 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.4 None are applicable.
Advertisements	
PO 4.1 Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.	DTS/DPF 4.1 None are applicable.

PO 4.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 4.2 Freestanding advertisements: (a) do not exceed 5m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds 4m^2 per side.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 2 - Hurling Drive, Mount Barker Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 92 - Meadows Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 113 - Residential Growth - Strathalbyn North Concept Plan 133 - Strathalbyn North - Activity Centre Concept Plan 174 - Seaton Urban Renewal In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place

	or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment, the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal, the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) co-living (c) community facility (d) consulting room (e) dwelling (f) office (g) shop.	Except development that exceeds the maximum building height specified in Local Activity Centre Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Local Activity Centre Zone DTS/DPF 3.2 2. Local Activity Centre Zone DTS/DPF 3.3.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Master Planned Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A new or expanding community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse housing choices and a wide range of complementary recreational, community services and other activities to support a growing community and create a pleasant place to live.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility (i) Indoor recreation facility (j) Office (k) Recreation area (l) Residential flat building (m) Retirement facility (n) Shop (o) Supported accommodation.
PO 1.2 Land division results in a low-to-medium density neighbourhood that contains a diverse range of housing types and allotment sizes.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development at increased densities close to open space, public transport, activity centres and community facilities to enhance community access to community services.	DTS/DPF 1.3 Medium and high density residential development located where any one of the following is satisfied: (a) within 200m of an activity centre (b) within 200m of a high frequency public transit service (c) adjoining public open space greater than 2000m^2 (including where the site would adjoin if not separated by a public road).

PO 1.4	DTS/DPF 1.4
Commercial activities outside activity centres improve community access to services are of a scale and type to maintain residential amenity.	A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) where located outside of an Activity Centre, does not exceed 150m^2 in gross leasable floor area.
Coordinated and Orderly Development	
PO 2.1	DTS/DPF 2.1
Land division and infrastructure occur in a coordinated manner and orderly sequence.	None are applicable.
PO 2.2	DTS/DPF 2.2
Development and infrastructure are staged and provided in a manner that supports the orderly expansion of urban areas and the economic provision of infrastructure and services.	None are applicable.
Community Facilities	
PO 3.1	DTS/DPF 3.1
Community facilities such as schools, community centres, recreation centres and public open space are co-located within activity centres or co-located with complementary uses to reinforce their role as a focal point for community.	None are applicable.
PO 3.2	DTS/DPF 3.2
Community facilities are located and designed to maximise accessibility by public transport, walking and cycling.	None are applicable.
Open Space	
PO 4.1	DTS/DPF 4.1
The size and distribution of open space encourages recreation and healthy lifestyles.	None are applicable.
PO 4.2	DTS/DPF 4.2
The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features, irrigated recreation spaces, sporting infrastructure or public art.	None are applicable.
Building Height	
PO 5.1	DTS/DPF 5.1
Buildings establish a low-medium rise residential character with development above 3 building levels located close to activity centres, open space and/or public transport.	Buildings (excluding garages, carports and outbuildings) do not exceed the maximum building height nominated on a Building Envelope Plan, or where none exists: (a) a maximum building height of 3 building levels or 12m and (b) a maximum wall height of 10m (except where a gable end).
Primary Street Setback	
PO 6.1	DTS/DPF 6.1
Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** Where a building envelope plan exists. / Consistent with the building envelope plan. Where the allotment adjoins a public reserve greater than 2000m² (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. / 1.5m In all other cases. / 3m For the purposes of **DTS/DPF 6.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 7.1	DTS/DPF 7.1
Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	Building walls (except for ancillary buildings and structures) are set back consistent with a building envelope plan, or where none exists at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 8.1	DTS/DPF 8.1
Boundary walls are limited in height and length to manage impacts on adjoining properties.	Building walls (except for ancillary buildings and structures) on side boundaries are consistent with a building envelope plan, or satisfy (a) or (b): (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height or (b) do not: (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) with respect to all boundary walls on the same boundary, exceed 45% of the total length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
Side Boundary Setback	
PO 9.1	DTS/DPF 9.1
Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours.	Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 10.1	DTS/DPF 10.1
Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	Building walls are set back from the rear boundary consistent with a building envelope plan, or at least: (a) 3m for the first building level or 0m where the rear boundary adjoins a laneway (b) 5m for any second building level or 0m where the rear boundary adjoins a laneway (c) 5m plus any increase in wall height over 7m for buildings three building levels and above.
Site Dimensions and Land Division	
PO 11.1	DTS/DFP 11.1
Allotments created for residential purposes are of a suitable size and dimension and accommodate a diverse range of housing choices.	None are applicable.
PO 11.2	DTS/DPF 11.2
Allotments created for residential purposes are a suitable size and dimension to accommodate dwellings that are functional and provide a high standard of residential amenity for occupants.	None are applicable
PO 11.3	DTS/DPF 11.3
Sites for residential purposes are consistent with an authorised plan of division, Concept Plan or master plan.	Development will not result in more than 1 dwelling on an existing allotment.
Land Division Pattern	
PO 12.1	DTS/DPF 12.1
Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.	None are applicable.
Tree Canopy	

PO 13.1 Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.	DTS/DPF 13.1 None are applicable.
Concept Plans	
PO 14.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development, provision of infrastructure and the location of new activity centres.	DTS/DPF 14.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 10 - Blakeview Concept Plan 11 - Munno Para Concept Plan 13 - Suburban Activity Centre - Buckland Park Concept Plan 14 - Buckland Park Concept Plan 15 - Munno Para West Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 19 - Playford North Infrastructure Concept Plan 20 - Munno Para Downs Concept Plan 21 - Virginia Concept Plan 16 - Angle Vale Infrastructure Concept Plan 12 - Urban Growth Area - Andrews Farm / Penfield Concept Plan 50 - Roseworthy Town Expansion Concept Plan 7 - Munno Para Station Concept Plan 8 - Andrews Farm / Penfield Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 80 - Murray Bridge Concept Plan 108 - Waitpinga Road, Encounter Bay Concept Plan 106 - Hindmarsh Valley Concept Plan 105 - Seaford Heights Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 118 - Northgate Concept Plan 119 - Seacliff Park and Marino Concept Plan 120 - Aldinga Concept Plan 123 - Croydon Park Concept Plan 124 - Hackham Concept Plan 155 - Elizabeth South Residential Concept Plan 160 - Concordia Growth Area: Basic Infrastructure Concept Plan 161 - Concordia Growth Area: Land Use Concept Plan 163 - Sellicks Beach: Land Use Concept Plan 164 - Sellicks Beach: Basic Infrastructure Concept Plan 168 - Golden Grove Stage 2 Concept Plan 167 - Golden Grove Stage 1 In relation to DTS/DPF 14.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 14.1 is met.
Advertising and display homes	
PO 15.1 Advertising is limited to temporary displays to promote the sale of land and buildings within the zone.	DTS/DPF 15.1 Advertisements: (a) are of a temporary nature and will be removed within 2 years from the date of installation and (b) promote the sale of land or buildings within the zone.
PO 15.2 Display homes provide sufficient car parking.	DTS/DPF 15.2 None are applicable.
Earthworks and sloping land	
PO 16.1 Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.	DTS/DPF 16.1 Earthworks associated with development are consistent with a building envelope plan, or do not involve: (a) excavation exceeding a vertical height of 1.5m (b) filling exceeding a vertical height of 1.5m (c) a total combined excavation and filling vertical height of 3m or more.
Ancillary Structures and Buildings	
PO 17.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 17.1 Ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
PO 17.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.	DTS/DPF 17.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 17.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 17.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: ≤500m² — Floor area: 60m² Allotment size: >500m² — Floor area: 80m² (c) are not constructed, added to or altered so that any part is situated:

	(i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Private Open Space	
PO 18.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 18.1 Dwellings are provided with a minimum area of private open space nominated on a building envelope plan, or in accordance with Design in Urban Areas Table 1 - Private Open Space.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation.
Detached dwelling Except where any of the following apply: • Character Area Overlay • Coordinated Development Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Development will not result in more than 1 dwelling on: (a) an existing allotment or (b) an allotment granted development authorisation under the *Planning, Development and Infrastructure Act 2016* 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. A dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12m (b) a wall height of 10m (except where a gable end). 5. Each dwelling with a frontage to a public street: (a) includes at least one window facing the primary street from a habitable room and (b) has an aggregate window area of at least 2m² facing the primary street. 6. Upper level windows facing side or rear boundaries shared with another residential allotment/site: (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 125mm (b) have sill heights greater than or equal to 1.5m above finished floor level and/or (c) incorporate screening to a height of 1.5m above finished floor level. 7. If the dwelling exceeds 1 building level, any balconies satisfy one of the following: (a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve (or combination of) that is at least 15 metres wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings

	fixed to a minimum height of: (i) 1.5m above finished floor level there the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases. 8. Private open space is consistent with the minimum area of private open space nominated on a building envelope plan, or is provided in accordance with the following: (a) Total private open space area: (i) Site area <301m2: 24m2 located behind the building line. (ii) Site area ≥301m2: 60m2 located behind the building line. (b) Minimum directly accessible from a living room: 16m2 / with a minimum dimension 3m 9. Dwellings provide car parking spaces on-site at a rate no less than: (a) 1 bedroom dwelling - 1 space per dwelling. (b) 2 or more bedroom dwelling - 2 spaces per dwelling, 1 of which is covered 10. Vehicle access to car parking spaces is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500mm or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; (b) 2m or more from the base of the trunk of a street tree unless consent is provided from the tree owner; (c) 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing (d) so that access is not obtained from, and is located at least 25m from the tangent point of any State Maintained Road. 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary. 12. Development does not involve: (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m or (c) a total combined excavation and filling vertical height of 2m or more. 13. One of the following is satisfied: (a) a declaration is provided by or on behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. A dwelling is connected, or will be connected, to a reticulated water scheme or mains water supply with the capacity to meet the requirements of the development. 15. Development is connected, or will be connected, to an approved common waste water disposal service with the capacity to meet the requirements of the development. 16. Where the Native Vegetation Overlay or State Significant Native Vegetation Overlay applies in relation to the relevant site/allotment, the application is accompanied by: (a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the *Native Vegetation Act 1991*, including any clearance that may occur: (i) in connection with a relevant access point and / or driveway (ii) within 20m of a dwelling for fire prevention and control (iii) within 50m of residential accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area (b) a report prepared in accordance with Regulation 18(2)(a) of the Native Vegetation Regulations 2017 that establishes that the clearance is categorised as 'Level 1 clearance'. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels). 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation. 16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Retaining wall Except where any of the following apply:	1. Retains a difference in ground levels not exceeding 1.5 m (measured from the lower of the 2 adjoining finished ground levels)

• Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Shade sail Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant (c) shop located in an Activity Centre.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).

3. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) ancillary accommodation (b) child care facility (c) co-living (d) community facility (e) display home (f) dwelling (g) dwelling addition (h) educational facility (i) indoor recreation facility (j) residential flat building (k) retirement facility (l) supported accommodation.	Except development that: 1. does not satisfy Master Planned Neighbourhood Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) Master Planned Neighbourhood Zone DTS/DPF 1.4 (b) Master Planned Neighbourhood Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Advertisement where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone.	Except advertisement that does not satisfy Master Planned Neighbourhood Zone DTS / DPF 15.1.
8. Any development involving any of the following (or of any combination of any of the following) where located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) advertisement (b) ancillary accommodation (c) child care facility (d) cinema (e) community facility (f) consulting room (g) display home (h) dwelling located above a non-residential building level (i) educational facility (j) emergency services establishment (k) health facility (l) hotel (m) indoor recreation facility (n) library (o) office (p) place of worship (q) public transport terminal (r) retail fuel outlet (s) service trade premises (t) shop (u) tourist accommodation.	Except development that: 1. in the case of the Emerging Activity Centre Subzone: (a) exceeds the maximum building height specified in Emerging Activity Centre Subzone DTS/DPF 2.1 or (b) does not satisfy any of the following: (i) Emerging Activity Centre Subzone DTS/DPF 2.2 (ii) Emerging Activity Centre Subzone DTS/DPF 2.3 2. in the case of the Emerging Main Street Subzone: (a) exceeds the maximum building height specified in Emerging Main Street Subzone DTS/DPF 3.1 or (b) does not satisfy any of the following (i) Emerging Main Street Subzone DTS/DPF 3.2 (ii) Emerging Main Street Subzone DTS/DPF 3.3.
9. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

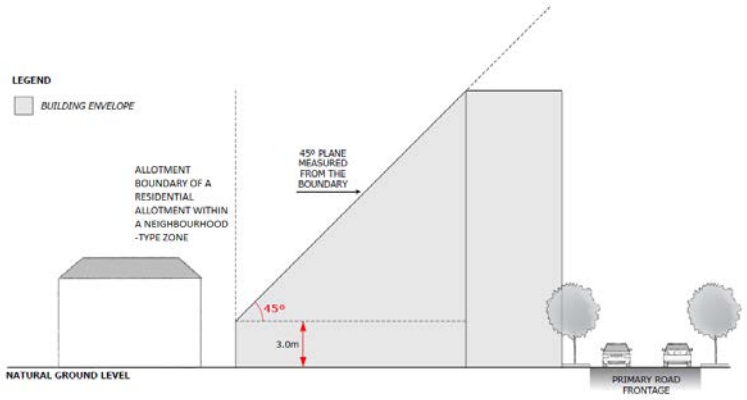
Placement of Notices - Exemptions for Performance Assessed Development

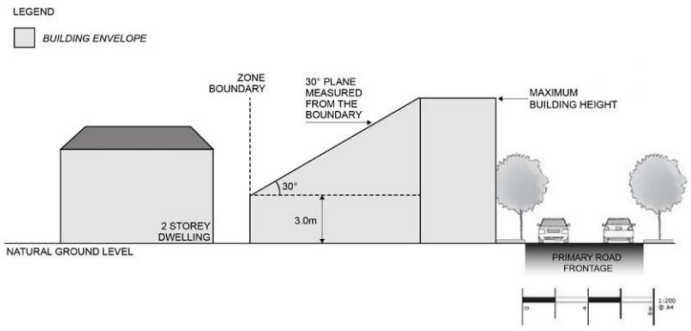
None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Emerging Activity Centre Subzone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Activity centres, employment, and community services make neighbourhoods a healthy and convenient place to live.

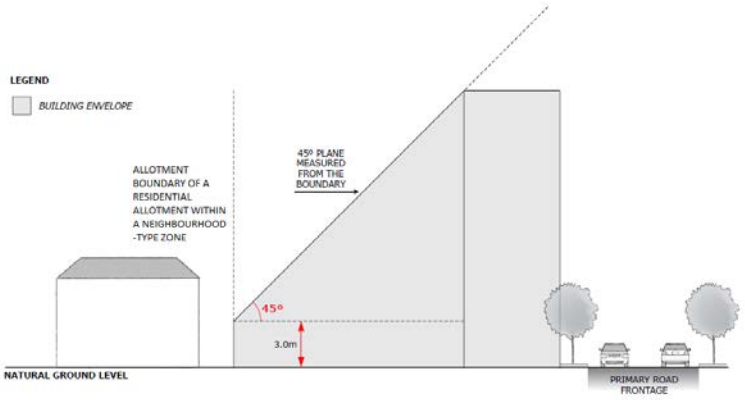
Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

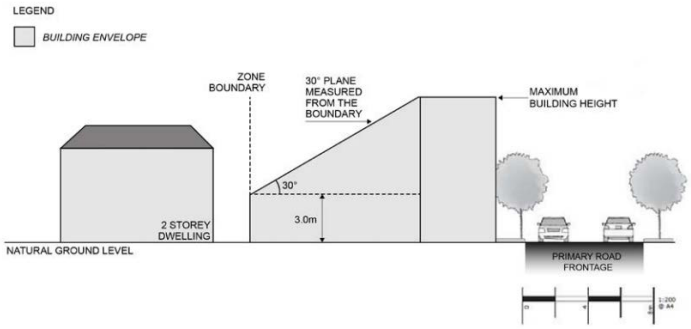
Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Activity centres within master-planned communities include a range of land uses to provide services at the local and neighbourhood level.	DTS/DPF 1.1 Development comprises one or more of the following where located in an Activity Centre: (a) Child care facility (b) Cinema (c) Community facility (d) Consulting room (e) Dwelling located above non-residential development (f) Educational facility (g) Emergency services facility (h) Hospital (i) Hotel (j) Indoor recreation facility (k) Library (l) Office (m) Place of worship (n) Public transport terminal (o) Retail fuel outlet (p) Service trade premises (q) Shop (r) Tourist accommodation. And in any other case, one or more of the following land uses: (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Display home (f) Dwelling (g) Educational facility (h) Indoor recreation facility (i) Office (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation.
PO 1.2 Land division design designates land for activity centres that is: (a) distributed to maximise convenient access to shopping and services (b) of sufficient size to cater for the anticipated catchment and future population.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land division design ensures activity centres are located to maximise accessibility by public transport, walking and cycling.	DTS/DPF 1.3 None are applicable.
PO 1.4 Land division design ensures activity centres are established in locations that improve accessibility and exposure such as: (a) at an intersection of higher order roads and main movement routes (b) locations that have the highest residential density and pedestrian catchment or (c) adjacent high frequency public transport.	DTS/DPF 1.4 None are applicable.
PO 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.6 Activity Centres include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.6 None are applicable.
Built Form and Character	
PO 2.1 A range of low-to-medium rise buildings within Activity Centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.	DTS/DPF 2.1 Buildings within Activity Centres not exceeding the following maximum building heights: (a) where the development is located on land adjacent to an allotment that will be used solely for residential purposes, 3 building levels or 12m (b) in all other cases 6 building levels or 22m.
PO 2.2 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone	DTS/DPF 2.2 Buildings within Activity Centres constructed within a building envelope provided by a 45 degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary):

	
PO 2.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 2.3 Buildings within Activity Centres on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram: 
Advertising	
PO 3.1 Advertisements are sited and designed to achieve an overall consistency and appearance along individual street frontages.	DTS/DPF 3.1 None are applicable.
PO 3.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 3.2 Freestanding advertisements: (a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds 6m^2 per side

Emerging Main Street Subzone

Assessment Provisions (AP)





Desired Outcome (DO)

Desired Outcome	
DO 1	Activity centres supported by medium density residential development make neighbourhoods a healthy and convenient place to live.
DO 2	Higher order activity centres in master planned areas include a main street as focal point for the surrounding neighbourhood and include a mix of retail, office, commercial, community, educational, sporting, recreation and civic land uses.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Activity centres within master-planned communities include: (a) retail, office, consulting rooms, educational facilities, community facilities, health, entertainment, sporting and recreation related uses that provide a range of goods and services at the local and neighbourhood level (b) a main street environment as a focal point for residents and visitors to shop, work, meet, entertain and relax.	DTS/DPF 1.1 Development comprises one or more of the following where located in an activity centre: (a) Advertisement (b) Child care facility (c) Cinema (d) Community facility (e) Consulting room (f) Dwelling located above non-residential development (g) Educational facility (h) Health facility (i) Hospital (j) Hotel (k) Indoor recreation facility (l) Library (m) Licensed premises (n) Office (o) Place of worship (p) Shop (q) Tourist accommodation And in any other case, one or more of the following land uses: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility

	(i) Indoor recreation facility (j) Office (k) Recreation area (l) Residential flat building (m) Retirement facility (n) Shop (o) Student accommodation (p) Supported accommodation.
PO 1.2 Within a main street of an activity centre, ground floor uses contribute to an active and vibrant main street.	DTS/DPF 1.2 Shop, office, or consulting room uses are located on the ground floor level of buildings within a main street of an activity centre.
PO 1.3 Development with a frontage to a main street of an activity centre is sited and designed to achieve or maintain a vibrant and interesting streetscape.	DTS/DPF 1.3 None are applicable.
PO 1.4 Within an activity centre, dwellings are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.4 Within an activity centre, medium to high density dwellings are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.5 Activity centres include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.5 None are applicable.
PO 1.6 Medium to high density residential neighbourhoods established in walkable distances to an activity centre.	DTS/DPF 1.6 Residential development (other than residential development in a mixed-use building) achieves a net residential density of not less than 35 dwellings per hectare, where located within 200m of the boundary of an activity centre, except where varied by a Concept Plan.
PO 1.7 Within an activity centre, changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within main street precincts.	DTS/DPF 1.7 Within an activity centre, a change of use to a shop, office, consulting room or any combination of these uses satisfies (a) to (e) inclusive: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances: (i) the building is a local heritage place (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse.
Built Form and Character	
PO 2.1 Within the main street of an activity centre, buildings sensitively frame the main street and public spaces, provide overall visual relief from building height and mass, and maintain a human scale for pedestrians.	DTS/DPF 2.1 Buildings fronting the main street of an activity centre: (a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m, or higher where it matches the existing street wall of adjoining buildings and (b) have levels above the defined podium or street wall set back a minimum of 2m from that wall.
PO 2.2 Within the main street of an activity centre, buildings establish a main street appearance by incorporating key shop-front elements such as narrow buildings and tenancy footprints with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels (base stall boards) and recessed entries.	DTS/DPF 2.2 None are applicable.
PO 2.3 Within the main street of an activity centre, buildings create visual interest, promote an active interface with the main street frontage and maximise passive surveillance.	DTS/DPF 2.3 Within the main street of an activity centre, not less than 50% of the ground floor primary frontage of buildings facing the main street is visually permeable, transparent or clear glazed.
PO 2.4 Within the main street of an activity centre, pedestrian shelter and shade is provided over footpaths through the use of structures such as awnings, canopies and verandas.	DTS/DPF 2.4 None are applicable
PO 2.5 Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential without the need for significant change to the building.	DTS/DPF 2.5 Ground floor levels of buildings incorporate a minimum ceiling height of 3.5m.
PO 2.6 Outbuildings, carports and garages are located behind the primary building facing the main street to ensure vibrancy and activity along the main street.	DTS/DPF 2.6 None are applicable.
PO 2.7 Development contributes to and does not interfere with provision of an efficient and convenient pedestrian network linking the main street to adjoining pedestrian networks.	DTS/DPF 2.7 None are applicable.
PO 2.8 Within the main street of an activity centre, vehicular access is from a secondary street and/or rear lane, avoiding vehicle assess from the main street frontage.	DTS/DPF 2.8 None are applicable.
PO 2.9 Within the main street of an activity centre, on-site car parking areas are located behind the building fronting the main street.	DTS/DPF 2.9 None are applicable.
Building Height and Setbacks	
PO 3.1 A range of low-to-medium rise buildings within activity centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.	DTS/DPF 3.1 Buildings within activity centres not exceeding the following maximum building heights: (a) where the development is located on land adjacent to an allotment that will be used solely for residential purposes, 3 building levels or 12m (b) in all other cases 6 building levels or 22m.
PO 3.2 Buildings within activity centres mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings within activity centres constructed within a building envelope provided by a 45- degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary):

	
PO 3.3 Buildings within activity centres mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings within activity centres on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30-degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram: 
PO 3.4 Buildings along the main street of an activity centre with no setbacks from road boundaries achieve a continuity of street façade to the main street, but with sections of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings along the main street of an activity centre with no setback from side boundaries achieve a continuity of street façade to the main street.	DTS/DPF 3.5 Except where contrary to DTS/DPF 3.2 or 3.3, building walls along the main street of an activity centre located on the site's side boundaries, with the front wall set back in line with neighbouring buildings.
Land Division	
PO 4.1 Land division design designates land for activity centres that is: (a) distributed to maximise convenient access to shopping and services and (b) of sufficient size to cater for the anticipated catchment and future population.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division design ensures activity centres are located to maximise accessibility by public transport, walking and cycling.	DTS/DPF 4.2 None are applicable.
PO 4.3 Land division design ensures activity centres are established in locations that improve accessibility and exposure such as: (a) at an intersection of higher order roads and main movement routes (b) locations that have the highest residential density and pedestrian catchment or (c) adjacent high frequency public transport.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division related to a neighbourhood activity centre or larger centre, as identified on the relevant Concept Plan, identifies a main street which is located and sized to complement the scale of the activity centre.	DTS/DPF 4.4 None are applicable.
Advertising	
PO 5.1 Advertisements in activity centres are sited and designed to achieve an overall consistency and appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Advertisements in activity centres satisfy all of the following: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 5.2 Advertisements in activity centres satisfy either (a) or (b): (a) when located on a main street frontage: (i) are sited flush on the wall of the building and do not have a sign face that exceeds $2m^2$ or (ii) are under the verandah and are no more than 30cm in height and do not have a sign face that exceeds $1m^2$ or (b) where located outside of a main street, freestanding advertisements: (i) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (ii) do not have a sign face that exceeds $6m^2$ per side.

Hills Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	A coordinated development pattern, high quality public realm and living environment that complements the site's natural features and slope of the land.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Site Dimensions and Land Division	

PO 1.1 A land division pattern that sensitively integrates existing site features including undulating topography, watercourses, vegetation and attractive vistas.	DTS/DPF 1.1 None are applicable.
PO 1.2 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate residential development that is sensitive to the natural topography, with: (a) low density development on sloping land (with a gradient exceeding 1-in-8); and (b) medium density development on low sloping land (with a gradient less than 1-in-8) and where it can be demonstrated that impacts on neighbouring land can be effectively managed.	DTS/DPF 1.2 None are applicable.
PO 1.3 Street layouts complement natural features such as ridgelines, hilltops, waterways and valleys.	DTS/DPF 1.3 None are applicable.
Site Coverage	
PO 2.1 On sloping land (with a gradient exceeding 1-in-8) space is provided around buildings to accommodate site works and retaining walls in a manner that limits visual impact on adjoining properties, provides an attractive outlook and access to light and ventilation.	DTS/DPF 2.1 Site coverage consistent with a building envelope plan, or: (a) does not result in site coverage exceeding 50% on sites with a gradient more than 1-in-8 or (b) on sites with a gradient of less than 1-in-8, there is no maximum site coverage and DTS/DPF 2.1 is met.
Built Form and Character	
PO 3.1 Development that is prominently visible from the Adelaide plains or urban areas: (a) achieves a profile that blends with the topography of the land (b) incorporates existing vegetation wherever possible and additional landscaping to assist in screening retaining walls, excavated or filled batter slopes and the apparent bulk and scale of buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development provides a complementary transition to any adjacent natural and rural landscapes by providing low density housing incorporating existing vegetation wherever possible to mitigate the visible extent of buildings, earthworks and retaining walls.	DTS/DPF 3.2 None are applicable.
Side Boundary Setback	
PO 4.1 Buildings are set back from side boundaries to: (a) provide separation between dwellings in a way that complements the emerging character of the locality (b) provide access to natural light and ventilation for neighbours (c) minimise height and bulk relative to adjoining dwellings by setting back the upper level a greater distance from side boundaries than the lower level (d) provide greater separation from side boundaries on steeper sites to reduce the extent of retaining and earthworks on boundaries.	DTS/DPF 4.1 Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) on sites with a site gradient greater than 1-in-8: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m - at least 1900mm from the boundary of the site plus 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (b) on sites with a site gradient less than 1-in-8: (i) where the wall height does not exceed 3m - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (iii) for a wall that is south facing and the wall height exceeds 3m - at least 1900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Earthworks and Retaining	
PO 5.1 Buildings sited and designed to integrate with the natural topography of the land using measures such as split-level building construction and other approaches that minimise the extent of cut and fill.	DTS/DPF 5.1 None are applicable.
PO 5.2 Vegetation is used to screen buildings and excavation or filling from view.	DTS/DPF 5.2 None are applicable.
PO 5.3 Retaining walls are a stepped series of low walls constructed of dark, natural-coloured materials and screened by landscaping.	DTS/DPF 5.3 Retaining walls: (a) do not retain more than 1.5m in height or (b) where more than 1.5m is to be retained in total, are stepped in a series of low walls each not exceeding 1m in height and separated by at least 700mm.

Master Planned Renewal Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A revitalised community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development and supporting uses in emerging urban communities contribute to creating a convenient urban environment for residents.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility (i) Office (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Student accommodation (o) Supported accommodation.
PO 1.2 Residential development at increased densities close to open space, public transport, activity centres and community facilities to enhance community access to community services.	DTS/DPF 1.2 Medium and high density residential development located where any one of the following is satisfied: (a) within 200m of an activity centre (b) within 200m of a public transport stop (c) adjoining public open space greater than 2000m^2 (including where the site would adjoin if not separated by a public road).
PO 1.3 Non-residential uses are of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.4 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) does not exceed 250m^2 in gross leasable floor area (individually or combined, in a single building).
PO 1.5	DTS/DPF 1.5

Non-residential development located and designed to improve community accessibility to services primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	None are applicable.
PO 1.6 Community services such as schools, community centres, recreation centres and public open space are co-located with complementary uses to reinforce their role as a community focal point.	DTS/DPF 1.6 None are applicable.
PO 1.7 Community services are located and designed to maximise accessibility by public transport, walking and cycling.	DTS/DPF 1.7 None are applicable
Coordinated and Orderly Development	
PO 2.1 Where land ownership is fragmented, land division and infrastructure occur in a coordinated manner and orderly sequence.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development and infrastructure are staged and provided in a manner that supports the orderly expansion of urban areas and the economic provision of infrastructure and services.	DTS/DPF 2.2 None are applicable.
Site Dimensions and Land Division	
PO 3.1 Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.	DTS/DPF 3.1 None are applicable.
PO 3.2 Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.	DTS/DPF 3.2 None are applicable.
PO 3.3 Allotments created for residential purposes are of a suitable size and dimension and accommodate a diverse range of housing choices, dwellings that are functional and provide a high standard of residential amenity for occupants.	DTS/DPF 3.3 None are applicable.
PO 3.4 Sites for residential purposes are consistent with an authorised plan of division, Concept Plan or master plan.	DTS/DPF 3.4 Development will not result in more than 1 dwelling on an existing allotment.
Open Space	
PO 4.1 The size and distribution of open space encourages recreation and healthy lifestyles.	DTS/DPF 4.1 None are applicable.
PO 4.2 The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features (including watercourses and constructed wetlands), irrigated recreation spaces, sporting infrastructure or public art.	DTS/DPF 4.2 None are applicable.
Building Height	
PO 5.1 Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.	DTS/DPF 5.1 Building height (excluding garages, carports and outbuildings) does not exceed the maximum building height nominated on a Building Envelope Plan, or where none exists: (a) 4 building levels and 15m where the site: (i) is at least 1200m^2 (ii) has a frontage of at least 35m or (b) 3 building levels and 12m in all other circumstances.
PO 5.2 The effects of building mass on residential allotments in a different neighbourhood-type zone mitigated through articulation of building elevations.	DTS/DPF 5.2 None are applicable.
Primary Street Setback	
PO 6.1 Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	DTS/DPF 6.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** Where a building envelope plan exists. / Consistent with the building envelope plan. Where the allotment adjoins a public reserve greater than 2000m² (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. / 1.5m In all other cases. / 3m. For the purposes of **DTS/DPF 6.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 7.1 Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 7.1 Building walls (except for ancillary buildings and structures) are set back consistent with a building envelope plan, or where none exists at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 8.1 Boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 8.1 Building walls (except for ancillary buildings and structures) on side boundaries are consistent with a building envelope plan, or satisfy (a) or (b): (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height or (b) do not exceed: (i) 3m in wall height and (ii) 11.5m in length and (iii) with respect to all boundary walls on the same boundary, 45% of the total length of the boundary.
PO 8.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings.	DTS/DPF 8.2 Dwellings in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.
Side Boundary Setback	
PO 9.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 9.1 Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 10.1 Buildings are setback from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 10.1 Building walls are set back from the rear boundary consistent with a building envelope plan, or at least: (a) 5m or more where the subject land directly abuts an allotment of a different zone or (b) 0m where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land or (c) 3m for the first building level or 0m where the rear boundary adjoins a laneway and (d) 5m for any second building level or 0m where the rear boundary adjoins a laneway and (e) 5m plus any increase in wall height over 7m for buildings three building levels and above.
Private Open Space	

PO 11.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 11.1 Dwellings are provided with a minimum area of private open space nominated on a building envelope plan, or in accordance with Design in Urban Areas Table 1 - Private Open Space.
PO 11.2 Master planned development providing a minimum 15% affordable housing provides coordinated private open space which is sized and located to meet the needs of occupants and promote liveability between neighbours.	DTS/DPF 11.2 Private open space within a master planned development providing a minimum 15% affordable housing is provided at a minimum rate of: (a) for dwellings at ground level (including dwellings of two or more storeys), $10m^2$ with a minimum dimension of 2m (b) for dwellings above ground, $8m^2$ with a minimum dimension of 2m.
Concept Plans	
PO 12.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development, provision of infrastructure and the location of new activity centres.	DTS/DPF 12.1 The site of the development is wholly located outside any relevant Concept Plan boundary (where defined). The following Concept Plans are relevant: In relation to DTS/DPF 12.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 12.1 is met.
Advertising and Display Homes	
PO 13.1 Advertising is limited to temporary displays to promote the sale of land and buildings within the zone.	DTS/DPF 13.1 Advertising is limited to: (a) temporary displays to promote the sale of land and buildings within the zone (b) one display per road frontage and (c) an advertising display area no greater than 6m x 3m.
PO 13.2 Display homes provide sufficient car parking.	DTS/DPF 13.2 Display homes provide sufficient car parking at a rate of: (a) 5.5 carparks per display home for up to five display homes (b) 2.5 additional carparks per additional display home.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed $40m^2$. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 11. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 12. Does not involve the clearance of native vegetation.
Detached dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions: (i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres

	5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or (b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels). 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 12. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 13. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 14. Does not involve the clearance of native vegetation. 15. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None.
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Retaining wall Except where any of the following apply: • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Retains a difference in ground levels not exceeding 1.5 m (measured from the lower of the 2 adjoining finished ground levels) 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. 3. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Row dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions:

• State Heritage Area Overlay • State Heritage Place Overlay	(i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres 5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or (b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Semi-detached dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions: (i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres 5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or (b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Shade sail Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

• Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Shop with a gross leasable floor area less than 1000m^2.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) child care facility (c) co-living (d) community facility (e) display home (f) dwelling (g) dwelling addition (h) educational facility	Except development that: 1. does not satisfy Master Planned Renewal Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.0m measured from the lower of the natural or finished ground level (other than where in

(i) indoor recreation facility (j) residential flat building (k) retirement facility (l) supported accommodation.	accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.0m measured from the lower of the natural or finished ground level (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) Master Planned Renewal Zone DTS/DPF 1.4 (b) Master Planned Renewal Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.0m measured from the lower of the natural or finished ground level (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.0m measured from the lower of the natural or finished ground level (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Advertisement	Except advertisement that does not satisfy Master Planned Renewal Zone DTS / DPF 13.1.
6. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Master Planned Township Zone

Assessment Provision (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Expansion of an existing township with a range of housing that caters to prevailing and emerging housing needs and lifestyles within easy reach of services, facilities and open space.
DO2	Development complementary to existing township settlement patterns, adjacent rural landscapes and natural features.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse housing choices with compatible recreational, community services and other activities to support a growing community and create a pleasant place to live that complements the established township development pattern.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home

	(g) Dwelling (h) Educational facility (i) Indoor recreation facility (j) Office (k) Recreation area (l) Residential flat building (m) Retirement facility (n) Shop (o) Supported accommodation.
PO 1.2 Land division results in a low density neighbourhood that contains a diverse range of housing types and allotment sizes.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development at increased densities close to open space, public transport, activity centres and community facilities to enhance community access to community services.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.4 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes.
Coordinated and Orderly Development	
PO 2.1 Land division and infrastructure occur in a coordinated manner and orderly sequence.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development and infrastructure are staged and provided in a manner that supports the orderly expansion of existing townships and the economic provision of infrastructure and services.	DTS/DPF 2.2 None are applicable.
Community Facilties	
PO 3.1 Community facilities such as schools, community centres, recreation centres and public open space are co-located within activity centres or with complementary uses to reinforce their role as a focal point for community.	DTS/DPF 3.1 None are applicable.
PO 3.2 Community facilities are located and designed to maximise accessibility by public and/or community transport, walking and cycling.	DTS/DPF 3.2 None are applicable.
Open Space	
PO 4.1 The size and distribution of open space encourages recreation and healthy lifestyles.	DTS/DPF 4.1 None are applicable.
PO 4.2 The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features, irrigated recreation spaces, sporting infrastructure or public art.	DTS/DPF 4.2 None are applicable.
Building Height	
PO 5.1 Buildings generally establish a low rise residential character, with medium rise development appropriate where complementing the scale of the existing township and where a located adjacent activity centres, open space and/or public transport.	DTS/DPF 5.1 Buildings (excluding garages, carports and outbuildings) do not exceed the maximum building height nominated on a Building Envelope Plan, or where none exists: (a) a maximum building height of 2 building levels or 9m and (b) a maximum wall height of 6m (except where a gable end).
Primary Street Setback	
PO 6.1 Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	DTS/DPF 6.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** Where a building envelope plan exists. / Consistent with the building envelope plan. Where the allotment adjoins a public reserve greater than 2000m² (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. / 1.5m In all other cases. / 5m For the purposes of **DTS/DPF 6.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 7.1 Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 7.1 Building walls (except for ancillary buildings and structures) are set back consistent with a building envelope plan, or where none exists at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 8.1 Boundary walls are limited in height and length to manage impacts on adjoining properties.	DTS/DPF 8.1 Building walls (except for ancillary buildings and structures) on side boundaries are consistent with a building envelope plan, or satisfy (a) or (b): (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height or (b) do not: (i) exceed 3.0m in wall height (ii) exceed 11.5m in length (iii) with respect to all boundary walls on the same boundary, exceed 45% of the total length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
Side Boundary Setback	
PO 9.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 9.1 Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 10.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 10.1 Building walls are set back from the rear boundary consistent with a building envelope plan, or at least: (a) 3m for the first building level or 0m where the rear boundary adjoins a laneway (b) 5m for any second building level or 0m where the rear boundary adjoins a laneway (c) 5m plus any increase in wall height over 7m for buildings three building levels and above.
Site Dimensions and Land Division	
PO 11.1 Allotments created for residential purposes are of a suitable size and dimension and accommodate a diverse range of housing choices.	DTS/DPF 11.1 None are applicable
PO 11.2	DTS/DPF 11.2

Allotments created for residential purposes are a suitable size and dimension to accommodate dwellings that are functional and provide a high standard of residential amenity for occupants.	Allotments not connected to mains sewer or an approved common waste water disposal service accord with the following: (a) site areas are not less 1200m2 (b) site frontages are not less than 20m.
PO 11.3	DTS/DPF 11.3
Sites for residential purposes are consistent with an authorised plan of division, Concept Plan or master plan.	Development will not result in more than 1 dwelling on an existing allotment.
Land Division Pattern	
PO 12.1	DTS/DPF 12.1
Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.	None are applicable
PO 12.2	DTS/DPF 12.2
Development provides an appropriate transition with the existing township and the interface with rural land.	None are applicable.
Tree Canopy	
PO 13.1	DTS/DPF 13.1
Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.	None are applicable.
Concept Plans	
PO 14.1	DTS/DPF 14.1
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development, provision of infrastructure and the location of new activity centres.	The site of the development is wholly located outside any relevant Concept Plan boundary (where defined). The following Concept Plans are relevant: **Description** Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 19 - Playford North Infrastructure Concept Plan 21 - Virginia Concept Plan 22 - Virginia Infrastructure Concept Plan 16 - Angle Vale Infrastructure Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 99 - Two Wells Concept Plan 104 - Aldinga Beach Concept Plan 131 - Middleton In relation to DTS/DPF 14.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 14.1 is met.
Advertising and Display Homes	
PO 15.1	DTS/DPF 15.1
Advertising is limited to temporary displays to promote the sale of land and buildings within the zone.	Advertisements: (a) are of a temporary nature and will be removed within 2 years from the date of installation and (b) promote the sale of land or buildings within the zone.
PO 15.2	DTS/DPF 15.2
Display homes provide sufficient car parking.	None are applicable.
Earthworks and Sloping Land	
PO 16.1	DTS/DPF 16.1
Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.	Earthworks associated with development are consistent with a building envelope plan, or do not involve: (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m (c) a total combined excavation and filling vertical height of 2m or more.
Ancillary Structures and Buildings	
PO 17.1	DTS/DPF 17.1
Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	Ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
PO 17.2	DTS/DPF 17.2
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.	Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 17.3	DTS/DPF 17.3
Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: ≤500m^2 — Floor area: 60m^2 Allotment size: >500m^2 — Floor area: 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure

	(h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Private Open Space	
PO 18.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 18.1 Dwellings are provided with a minimum area of private open space nominated on a building envelope plan, or in accordance with Design in Urban Areas Table 1 - Private Open Space.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Carport Except where any of the following apply: • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation
Detached dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Development will not result in more than 1 dwelling on: (a) an existing allotment or (b) an allotment granted development authorisation under the Planning, Development and Infrastructure Act 2016 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. A dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 2 building levels or 9m (b) a wall height of 7m (except where a gable end). 5. Each dwelling with a frontage to a public street: (a) includes at least one window facing the primary street from a habitable room and (b) has an aggregate window area of at least 2m² facing the primary street. 6. Upper level windows facing side or rear boundaries shared with another residential allotment/site: (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 125mm (b) have sill heights greater than or equal to 1.5m above finished floor level and/or (c) incorporate screening to a height of 1.5m above finished floor level. 7. If the dwelling exceeds 1 building level, any balconies satisfy one of the following: (a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve (or combination of) that is at least 15 metres wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of: (i) 1.5m above finished floor level there the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases. 8. Private open space is consistent with the minimum area of private open space nominated on a building envelope plan, or is provided in accordance with the following: (a) Total private open space area: (i) Site area <301m2: 24m2 located behind the building line. (ii) Site area ≥301m2: 60m2 located behind the building line. (b) Minimum directly accessible from a living room: 16m2 / with a minimum dimension 3m 9. Dwellings provide car parking spaces on-site at a rate no less than: (a) 1 bedroom dwelling - 1 space per dwelling. (b) 2 or more bedroom dwelling - 2 spaces per dwelling, 1 of which is covered. 10. Vehicle access to car parking spaces is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500mm or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; (b) 2m or more from the base of the trunk of a street tree unless consent is provided from the tree owner; (c) 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing (d) so that access is not obtained from, and is located at least 25m from the tangent point of any State Maintained Road. 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of

	any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary. 12. Development does not involve: (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m or (c) a total combined excavation and filling vertical height of 2m or more. 13. One of the following is satisfied: (a) a declaration is provided by or on behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. A dwelling is connected, or will be connected, to a reticulated water scheme or mains water supply with the capacity to meet the requirements of the development. 15. Development is connected, or will be connected, to an approved common waste water disposal service with the capacity to meet the requirements of the development. 16. Where the Native Vegetation Overlay or State Significant Native Vegetation Overlay applies in relation to the relevant site/allotment, the application is accompanied by: (a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the Native Vegetation Act 1991, including any clearance that may occur: (b) in connection with a relevant access point and / or driveway (c) within 20m of a dwelling for fire prevention and control (d) within 50m of residential accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area (e) a report prepared in accordance with Regulation 18(2)(a) of the Native Vegetation Regulations 2017 that establishes that the clearance is categorised as 'Level 1 clearance'. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1 metre (measured from the lower of the 2 adjoining finished ground levels). 2. The total combined height of the fence and retaining wall structure is less than 2.8 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation. 16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None.
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.

• Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant (c) shop located in an Activity Centre.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Township Activity Centre Subzone: (a) ancillary accommodation (b) child care facility (c) co-living (d) community facility (e) display home (f) dwelling (g) dwelling addition (h) educational facility (i) indoor recreation facility (j) residential flat building (k) retirement facility (l) supported accommodation.	Except development that: 1. does not satisfy Master Planned Township Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where where in accordance with a building envelope plan or the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where where in accordance with a building envelope plan or the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).

5. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Township Activity Centre Subzone (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) Master Planned Township Zone DTS/DPF 1.4 (b) Master Planned Township Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where where in accordance with a building envelope plan or the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
7. Advertisement where **not** located in an activity centre within the Emerging Township Activity Centre Subzone.	Except advertisement that does not satisfy Master Planned Township Zone DTS / DPF 15.1.
8. Any development involving any of the following (or of any combination of any of the following) where located in an activity centre within the Emerging Township Activity Centre Subzone: (a) advertisement (b) ancillary accommodation (c) child care facility (d) cinema (e) community facility (f) consulting room (g) display home (h) dwelling located above a non-residential building level (i) educational facility (j) emergency services establishment (k) health facility (l) hotel (m) indoor recreation facility (n) library (o) office (p) place of worship (q) public transport terminal (r) retail fuel outlet (s) service trade premises (t) shop (u) tourist accommodation.	Except development that exceeds the maximum building height specified in Emerging Township Activity Centre Subzone DTS/DPF 2.1 or does not satisfy any of the following: 1. Emerging Township Activity Centre Subzone DTS/DPF 2.2 2. Emerging Township Activity Centre Subzone DTS/DPF 2.3.
9. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

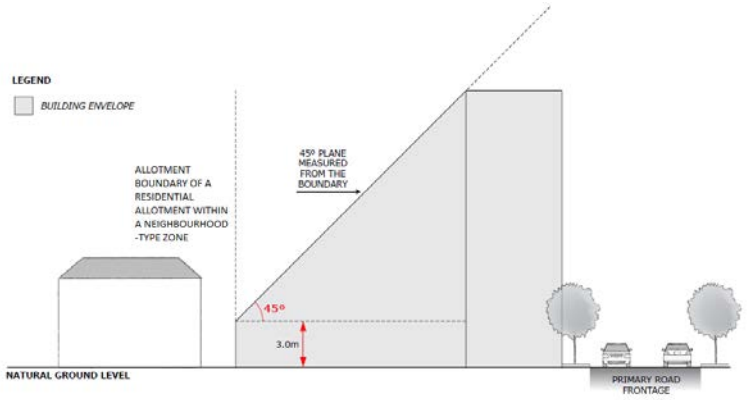
Placement of Notices - Exemptions for Performance Assessed Development

None specified.

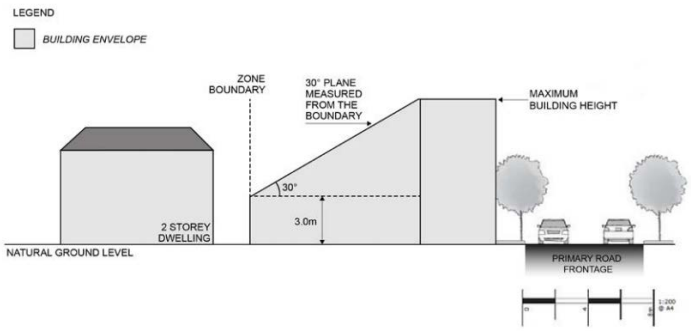
Placement of Notices - Exemptions for Restricted Development

None specified.

Emerging Township Activity Centre Subzone



Assessment Provisions (AP)



Desired Outcome (DO)

Desired Outcome	
DO1	Activity centres, employment, and community services make neighbourhoods a healthy and convenient place to live.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Activity centres within master-planned communities include a range of land uses to provide services at the local and neighbourhood level.	DTS/DPF 1.1 Development comprises one or more of the following where located in an Activity Centre:

	(a) Child care facility (b) Cinema (c) Community facility (d) Consulting room (e) Dwelling located above non-residential development (f) Educational facility (g) Emergency services facility (h) Hospital (i) Hotel (j) Indoor recreation facility (k) Library (l) Office (m) Place of worship (n) Public transport terminal (o) Retail fuel outlet (p) Service trade premises (q) Shop (r) Tourist accommodation. And in any other case, one or more of the following land uses: (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Display home (f) Dwelling (g) Educational facility (h) Indoor recreation facility (i) Office (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation.
PO 1.2 Land division design designates land for activity centres that is: (a) distributed to maximise convenient access to shopping and services (b) of sufficient size to cater for the anticipated catchment and future population.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land division design ensures activity centres are located to maximise accessibility by public transport, walking and cycling.	DTS/DPF 1.3 None are applicable.
PO 1.4 Land division design ensures activity centres are established in locations that improve accessibility and exposure such as: (a) at an intersection of higher order roads and main movement routes (b) locations that have the highest residential density and pedestrian catchment or (c) adjacent high frequency public transport.	DTS/DPF 1.4 None are applicable.
PO 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.6 Activity Centres include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.6 None are applicable.
PO 1.7 Activity Centres complement the role of established town centres and main streets within townships as the primary location for shopping, administrative, cultural, entertainment and community services.	DTS/DPF 1.7 None are applicable.
Built Form and Character	
PO 2.1 A range of low rise buildings within Activity Centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.	DTS/DPF 2.1 Buildings within Activity Centres not exceeding the following maximum building heights: (a) where the development is located on land adjacent to an allotment that will be used solely for residential purposes, 2 building levels or 9m (b) in all other cases 3 building levels or 12m.
PO 2.2 Buildings in Activity Centres mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 2.2 Buildings within Activity Centres constructed within a building envelope provided by a 45 degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary): 
PO 2.3 Buildings in Activity Centres mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 2.3 Buildings within Activity Centres on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

	
Advertising	
PO 3.1 Advertisements are sited and designed to achieve an overall consistency and appearance along individual street frontages.	DTS/DPF 3.1
PO 3.2 Freestanding advertisements: (a) are of a size that is commensurate with the scale of the centre and the street frontage (b) avoid visual clutter (c) positively respond to the context without dominating the locality.	DTS/DPF 3.2 None are applicable.

Motorsport Park Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development primarily for and associated with: (a) state-of-the-art motorsport facilities including sealed and non-sealed racing circuits and strips, spectator facilities and services and accommodation for visitors, event participants, motoring enthusiasts and workers (b) tourism, recreation, leisure, sports and cultural events and activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Multi-discipline motorsport facilities; a complementary range of logistical, industry, motor vehicle service, recreation, leisure, sports, cultural, tourist and spectator facilities; and associated administrative and other business functions contributing to the zone as a destination for motorsport events, racing enthusiasts, event spectators and innovation in motorsports.	DTS/DPF 1.1 Development (other than where a referral is required under Part 9 - Referrals of the Planning and Design Code) comprises one or more of the following: (a) Advertisement (b) Amenities block including shower, toilet and laundry facilities (c) Automotive collision repair (d) Caravan and tourist park (e) Driver Training facility (f) Dwellings providing accommodation for non-permanent residents (g) Function venue (h) Indoor recreation facility (i) Industry (except special industry) (j) Motor repair station (k) Motorsport tracks, racing circuits, drag strips, trackside refuelling, testing tracks and facilities, pits, workshops, control tower and ancillary facilities (l) Office in association with another non-residential use (m) Parking areas ancillary to and in association with motorsport circuits, strips and track facilities (n) Recreation and amusement areas, activities and facilities (o) Retail fuel outlet (p) Shop (q) Special events, sporting events and festivals (r) Tourist accommodation (s) Workers' accommodation.
PO 1.2 Shops which enhance services and amenities at a scale that complements the role of shopping and business services in the nearby town of Tailem Bend.	DTS/DPF 1.2 Shop that meets any of the following: (a) it has a gross leasable floor area not exceeding 500m^2 (b) it is a restaurant.
PO 1.3 Shops are integrated with a motorsport circuit, strip and track facilities or clustered with other business activities to aggregate services for the convenience of motorsport and tourism industry workers and motorsport spectators and enthusiasts, tourists and event spectators.	DTS/DPF 1.3 Shop that meets the following: (a) it is located on the same allotment as a motorsport track, racing circuit or drag strip or (b) it is located on a site that is adjacent to an existing shop or another non-residential use with the same primary street frontage.
PO 1.4 Alterations or extensions to a motorsport circuits or strip do not unreasonably impact the amenity of existing dwellings on land in an adjacent zone.	DTS/DPF 1.4 Motorsport circuit or strip (including alterations and extensions) does not encroach closer to a relevant boundary of the zone or an existing dwelling in an adjacent zone than a 30-metre buffer surrounding any existing relevant circuit or strip.
PO 1.5 Workers' accommodation that is associated with and ancillary to motorsport tracks, racing circuits, drag strips, and tourist accommodation for the efficient management and maintenance of those activities and to support spectator events and festivals.	DTS/DPF 1.5 Workers' accommodation that is associated with motorsport tracks, racing circuits, drag strips or tourist accommodation.
PO 1.6 Dwellings that are associated with a non-residential use to provide accommodation of a temporary nature for event spectators and motorsport enthusiasts to manage potential adverse impacts from impact generating activities in the zone on residents and support the ongoing use of the zone for motorsport and other events.	DTS/DPF 1.6 Dwellings that meet the following: (a) it is incorporated into a building that includes a vehicle garage, workshop or showroom and (b) it will not be a principal place of residence.
PO 1.7 Retail fuel outlets which do not hinder the movements of public roads and which do not have adverse impacts upon the environment.	DTS/DPF 1.7 A retail fuel outlet (including additions and alterations) that meets the following: (a) utilises an existing access to a public road and (b) has received any required licences under the Environment Protection Act and are provided with the application.
PO 1.8	DTS/DPF 1.8

Commercial or industrial development with the potential to generate adverse emissions are grouped together to establish identifiable precincts to manage impacts on those parts of the zone used for visitor and non-permanent resident accommodation or events to enhance the amenity for motorsport enthusiasts and visitors.	Development comprising industry, motor repair station, automotive collision repair and the like are located: (a) on an allotment, or within an area, identified in an approved plan of division as intended to be used for industry, motor repair station, automotive collision repair or the like (b) adjacent to a site containing an existing industry, motor repair station, automotive collision repair or similar activity facing the same primary street (c) is associated with and located on the same allotment as a motorsport track, racing circuits or drag strip.
Built Form and Character	
PO 2.1 Buildings and main activity areas are setback from zone boundaries to moderate the appearance of buildings within the predominant open landscape setting and accommodate provision for landscaping, or landscaping and mounding, to enhance the appearance of the zone when viewed from adjacent areas and public roads.	DTS/DPF 2.1 An area at least 3m wide is provided within the development site for landscaping along any boundary on the perimeter of the zone fronting a public road or thoroughfare, other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land.
PO 2.2 Spectator viewing structures are setback from zone boundaries and use finishes to moderate the appearance of structures to enhance the appearance of the zone when viewed from adjacent areas and public roads.	DTS/DPF 2.2 Spectator viewing structures satisfy all of the following: (a) do not exceed 10m in height (b) are setback at least 30m from the zone boundaries (c) utilise non-reflective materials and finishes.
Land Division	
PO 3.1 Land division that supports the delivery and ongoing operation of motorsport tracks, racing circuits, drag strips and associated and ancillary activities, together with a complementary range of uses that contribute to innovation in motorsports and provides accommodation and facilities for racing enthusiasts, event spectators and visitors.	DTS/DPF 3.1 None are applicable
PO 3.2 Land division is designed to: (a) minimise fire risk danger to occupants of buildings and firefighting personnel; (b) minimise the potential risk of damage to buildings and other property during a bushfire; and (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.	DTS/DPF 3.2 None are applicable
Advertisements	
PO 4.1 Freestanding advertisements providing information about motorsport facilities and / or events are of a suitable scale to clearly identify the main public entranceways to those motorsport facilities from major public roads.	DTS/DPF 4.1 Freestanding advertisements do not exceed 15m in height.
Road and vehicle parking areas	
PO 5.1 Roadways, internal driveways and vehicle parking areas (except overflow parking areas for events) are designed and surfaced to control dust emissions to reduce impacts on adjacent land uses.	DTS/DPF 5.1 Roadways and vehicle parking areas (except overflow parking areas for events) are sealed.
PO 5.2 Vehicle parking for events and festivals caters for the expected maximum number of visitors, is conveniently located and does not cause undue disruption for other land uses and activities in the locality.	DTS/DPF 5.2 None are applicable
Landscaping	
PO 6.1 Existing vegetation along external boundaries of the zone is retained to assist in screening buildings in the zone and maintain the amenity of the locality when viewed from public roads and adjacent land in another zone.	DTS/DPF 6.1 None are applicable.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Advertisement	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The development meets one of the following: (a) no part of the advertisement and associated advertising hoarding, when installed, will be able to be seen by a person standing at ground level in a public street or thoroughfare adjacent to the boundary of the zone (b) in any other case, the advertisement and any associated advertising hoarding: (i) if it is attached to a building, it does not exceed the wall height of the associated building (ii) if it is freestanding, it does not exceed 15m in height from natural ground level and is setback: A. at least 10m from an arterial road B. in any other case, at least 30m from the zone boundary (iii) will display information limited to any of the following: A. a lawful use of land within the zone B. an event or festival that is to take place in the zone C. community or road safety 4. If located on a site adjacent to a road on the perimeter of the zone, it is not illuminated and does not move or flash 5. It does not encroach on public land 6. It does not involve the clearance of native vegetation.
Air handling unit, air conditioning system or exhaust fan	1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)
Building alterations	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation

Carport	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The carport: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point 4. Does not involve the clearance of native vegetation.
Dwelling addition	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation.
Museum	1. The development would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The museum: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point 4. Does not involve the clearance of native vegetation.
Outbuilding	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The garage: (a) is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land (b) does not involve altering a lawfully existing access point 4. Does not involve the clearance of native vegetation
Partial demolition of a building or structure	None
Shade sail	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation
Solar photovoltaic panels (roof mounted)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
Verandah	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Does not involve the clearance of native vegetation.
Water tank (above ground)	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 5. Does not involve the clearance of native vegetation.
Water tank (underground)	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All classes of performance assessed development.	Except development involving any of the following: 1. airstrip 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building) 4. development within 30m of the boundaries of the Zone 5. helicopter landing facility 6. shop with a gross leasable floor area greater than 500m^2 7. wind farm.

3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) land division (f) outbuilding (g) pergola (h) private bushfire shelter (i) retaining wall (j) shade sail (k) solar photovoltaic panels (roof mounted) (l) swimming pool or spa pool and associated swimming pool safety features (m) verandah (n) water tank.	None specified.
4. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing supports a range of needs and complements the existing local context. Services and community facilities contribute to making a convenient place to live without compromising the residential amenity and character of the neighbourhood.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Educational facility (h) Office (i) Outbuilding (j) Recreation area (k) Retirement facility (l) Shop (m) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes.
PO 1.3 Non-residential development is located and designed to improve community accessibility to services, primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.4 None are applicable.
PO 1.5 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.5 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are consistent with the density and dimensions expressed in any relevant *Minimum Site Area Technical and Numeric Variation* and *Minimum Frontage Technical and Numeric Variation*, or are otherwise generally consistent with the prevailing pattern of development in the locality and suitable for their intended use.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System: (i) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 1,000 sqm; row dwelling is 1,000 sqm; group dwelling is 1,000 sqm; residential flat building is 1,000 sqm
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 600 sqm; row dwelling is 400 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 600 sqm; row dwelling is 450 sqm; group dwelling is 1,200 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 1,200 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 1,500 sqm; group dwelling is 1,500 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 200 sqm

Minimum Site Area
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 220 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 275 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 210 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 350 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 350 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 200 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 240 sqm; group dwelling is 450 sqm; residential flat building is 230 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 350 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm; row dwelling is 370 sqm; group dwelling is 370 sqm; residential flat building is 370 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 550 sqm; row dwelling is 550 sqm; group dwelling is 550 sqm; residential flat building is 550 sqm
Minimum site area for a detached dwelling is 560 sqm
Minimum site area for a detached dwelling is 560 sqm; semi-detached dwelling is 560 sqm; row dwelling is 560 sqm; group dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; group dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 400 sqm; row dwelling is 340 sqm; group dwelling is 500 sqm; residential flat building is 340 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 420 sqm; row dwelling is 370 sqm; group dwelling is 300 sqm; residential flat building is 1,500 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 420 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 700 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 450 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 500 sqm; row dwelling is 350 sqm; group dwelling is 400 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 700 sqm; row dwelling is 700 sqm; group dwelling is 700 sqm; residential flat building is 700 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 800 sqm; group dwelling is 800 sqm
Minimum site area for a detached dwelling is 800 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1,800 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 40 ha
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 600 sqm
Minimum site area is 700 sqm
Minimum site area is 750 sqm
Minimum site area is 800 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 1,200 sqm; semi-detached dwelling is 1,200 sqm; row dwelling is 1,200 sqm; group dwelling is 1,200 sqm; residential flat building is 1,200 sqm

(ii) site frontages are not less than:

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 6m; group dwelling is 10m; residential flat building is 10m

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 12m; residential flat building is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m; row dwelling is 7m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 8m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 20m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; residential flat building is 28m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 18m; residential flat building is 8m
Minimum frontage for a detached dwelling is 17m
Minimum frontage for a detached dwelling is 17m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 18m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 24m; residential flat building is 20m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 20m
Minimum frontage for a detached dwelling is 20m; group dwelling is 20m
Minimum frontage for a detached dwelling is 20m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 25m; group dwelling is 25m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; group dwelling is 5m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m; row dwelling is 6m; group dwelling is 6m; residential flat building is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m
Minimum frontage is 12m
Minimum frontage is 15m
Minimum frontage is 20m
Minimum frontage is 22m
Minimum frontage is 30m
Minimum frontage is 9m
Minimum frontage for a detached dwelling is 20m; semi-detached dwelling is 20m; row dwelling is 20m; group dwelling is 20m; residential flat building is 20m

(b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service:
- (i) site areas are not less than the greater of:
  - A. 1200m^2
  - B. the following:

Minimum Site Area
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 1,000 sqm; row dwelling is 1,000 sqm; group dwelling is 1,000 sqm; residential flat building is 1,000 sqm
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 600 sqm; row dwelling is 400 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 600 sqm; row dwelling is 450 sqm; group dwelling is 1,200 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 1,200 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 1,500 sqm; group dwelling is 1,500 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 220 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 275 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 210 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 350 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm

Minimum Site Area
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 350 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 200 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 240 sqm; group dwelling is 450 sqm; residential flat building is 230 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 350 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm; row dwelling is 370 sqm; group dwelling is 370 sqm; residential flat building is 370 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 550 sqm; row dwelling is 550 sqm; group dwelling is 550 sqm; residential flat building is 550 sqm
Minimum site area for a detached dwelling is 560 sqm
Minimum site area for a detached dwelling is 560 sqm; semi-detached dwelling is 560 sqm; row dwelling is 560 sqm; group dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; group dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 400 sqm; row dwelling is 340 sqm; group dwelling is 500 sqm; residential flat building is 340 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 420 sqm; row dwelling is 370 sqm; group dwelling is 300 sqm; residential flat building is 1,500 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 420 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 700 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 450 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 500 sqm; row dwelling is 350 sqm; group dwelling is 400 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 700 sqm; row dwelling is 700 sqm; group dwelling is 700 sqm; residential flat building is 700 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 800 sqm; group dwelling is 800 sqm
Minimum site area for a detached dwelling is 800 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1,800 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 40 ha
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 600 sqm
Minimum site area is 700 sqm
Minimum site area is 750 sqm
Minimum site area is 800 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 450 sqm
Minimum site area for a detached dwelling is 1,200 sqm; semi-detached dwelling is 1,200 sqm; row dwelling is 1,200 sqm; group dwelling is 1,200 sqm; residential flat building is 1,200 sqm

(ii) site frontages are not less than the greater of:

A. 20m

B. the following:

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 6m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 12m; residential flat building is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 8m; row dwelling is 7m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 15m; residential flat building is 9m
Minimum frontage for a detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m

Minimum Frontage
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 8m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 20m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; residential flat building is 28m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 18m; residential flat building is 8m
Minimum frontage for a detached dwelling is 17m
Minimum frontage for a detached dwelling is 17m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 18m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 24m; residential flat building is 20m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 20m
Minimum frontage for a detached dwelling is 20m; group dwelling is 20m
Minimum frontage for a detached dwelling is 20m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 25m; group dwelling is 25m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; group dwelling is 5m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m; row dwelling is 6m; group dwelling is 6m; residential flat building is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m
Minimum frontage is 12m
Minimum frontage is 15m
Minimum frontage is 20m
Minimum frontage is 22m
Minimum frontage is 30m
Minimum frontage is 9m
Minimum frontage for a detached dwelling is 20m; semi-detached dwelling is 20m; row dwelling is 20m; group dwelling is 20m; residential flat building is 20m

In relation to DTS/DPF 2.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) no value is returned for DTS/DPF 2.1(a)(i) and/or (ii) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy

(e) no value is returned for DTS/DPF 2.1(b)(i)(B) and/or 2.1(b)(ii)(B), the value for DTS/DPF 2.1(b)(i)(B) and/or 2.1(b)(ii)(B) is zero.

PO 2.2

Development results in sites suitable for their intended purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1 and

(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene:
  (i) Private open space requirements specified in Design Table 1 - Private Open Space
  (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

Site coverage

PO 3.1

Building footprints are generally consistent with the prevailing pattern of development and retain sufficient space around buildings to limit visual impact and enable attractive outlook and access to light and ventilation.

DTS/DPF 3.1

The development does not result in site coverage exceeding 60% of the site area.

Building Height

PO 4.1

Building height is consistent with the maximum height expressed in any relevant *Building Height Technical and Numeric Variation*, or are generally consistent with the prevailing character of the locality and complement the height of nearby buildings.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) is no greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 4m
Maximum building height is 5m
Maximum building height is 6m
Maximum building height is 6.5m
Maximum building height is 7m
Maximum building height is 8m
Maximum building height is 8.2m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 10m
Maximum building height is 7.5m
Maximum building height is 11m
Maximum building height is 15.1m AHD
Maximum building height is 8m restricted to 62m AHD
Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

(a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

(b) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Primary Street Setback

PO 5.1

Buildings are set back from primary street boundaries consistent with the existing streetscape.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.

There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m

For the purposes of **DTS/DPF 5.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback

(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table.

Secondary Street Setback

PO 6.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce a consistent streetscape character.	DTS/DPF 6.1 Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 7.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 7.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3.2m in wall height from the lower of the natural or finished ground level (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a length equal to 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are set back from side boundaries shared with allotments outside the development site at least 900mm.

Side Boundary Setback

PO 8.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Building walls are set back from the side boundary in accordance with the following: (a) On sites greater than 800m^2: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level. (b) On sites 800m^2 or less: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.

Rear Boundary Setback

PO 9.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least: (a) if the size of the site is less than 301m2— (i) 3m in relation to the ground floor of the building (ii) 5m in relation to any second building level of the building (iii) 5m plus an additional 1m setback added for every 1m height increase above a wall height of 7m. (b) if the size of the site is 301m2 or more— (i) 4m in relation to the ground floor of the building (ii) 6m in relation to any second building level of the building (iii) 6m plus an additional 1m setback added for every 1m height increase above a wall height of 7m.

Ancillary Buildings and Structures

PO 10.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 10.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the site (b) have a floor area not exceeding: (i) 60m^2 on sites less than 800m^2 (ii) 80m^2 on sites 800m^2 or more (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary (ii) within 5.5m from the boundary of the primary street (iii) within 900mm of a boundary of the allotment with a secondary street (d) in the case of a garage or carport, do not exceed 7m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street) do not exceed 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street) all walls or structures on the boundary do not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 10.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.	DTS/DPF 10.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number

	(c) site coverage exceeding 60%.
PO 10.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 10.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: ≤500m² — Floor area: 60m² Allotment size: >500m² — Floor area: 80m² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Concept Plans	
PO 11.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 11.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 73 - Port Vincent Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 2 - Hurling Drive, Mount Barker Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 71 - Hamley Bridge Concept Plan 1 - Hawthorn Road South Mount Barker Concept Plan 50 - Roseworthy Town Expansion Concept Plan 76 - Infrastructure and Staging - Berri West Concept Plan 72 - Wallaroo, Athena Drive Concept Plan 99 - Two Wells Concept Plan 98 - Mallala Concept Plan 92 - Meadows Concept Plan 91 - Nairne West Concept Plan 90 - Residential - Gardner St, Littlehampton Concept Plan 137 - Port Victoria Concept Plan 147 - Old Bull Creek Road Concept Plan 159 - Lot 42 Hay Flat Road In relation to DTS/DPF 11.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 11.1 is met.
Advertisements	
PO 12.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 12.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • American River Subzone • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Underground Subzone • Wallaroo Landmark Subzone • Waterfront Subzone	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.

	10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • American River Subzone • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Underground Subzone • Wallaroo Landmark Subzone • Waterfront Subzone	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser). 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas

	11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Roxby Downs Subzone • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Verandah Except where any of the following apply: • American River Subzone • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed $40m^2$ 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (above ground) Except where any of the following apply: • American River Subzone • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding $30m^2$. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) dwelling addition (e) jetty, pontoon or boat berth (or any combination thereof) within the *Waterfront Subzone* (f) residential flat building (g) retirement facility (h) supported accommodation.	Except development that: 1. exceeds the maximum building height specified in Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a Significant Retirement Facility and Supported Accommodation Site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.

8. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
9. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

American River Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An area where a mix of residential and holiday homes including small, compact shack development, low density residential and elevated homes are set within a bush setting containing critical habitat for the Glossy Black Cockatoo.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Character	
PO 1.1 Development, including land division that maintains the rural surrounds and native vegetation in the township and that particularly avoids Glossy Black Cockatoo habitat of Drooping Sheoak (Allocasuarina verticillata).	DTS/DPF 1.1 Development including land division does not result in the removal of Drooping Sheoak (Allocasuarina verticillata) or fragmentation of stands of Drooping Sheoak (Allocasuarina verticillata).

Roxby Downs Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	A residential neighbourhood that includes workers accommodation to meet the housing needs of workers associated with key local industries.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Workers accommodation and residential parks integrated into residential neighbourhoods to meet the needs of short term and permanent long distance commuter workers.	DTS/DPF 1.1 None are applicable.

Underground Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing that contributes to the existing local context and development pattern primarily in the form of underground dwellings.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Underground dwellings located in areas that are best suited for subterranean development.	DTS/DPF 1.1 None are applicable.
PO 1.2 Underground dwellings designed and constructed to avoid impacts beyond the development site.	DTS/DPF 1.2 None are applicable.
Side and Rear Boundary Setbacks	
PO 2.1 Underground dwellings constructed in a manner that minimises alteration to the natural landform, including the removal of vegetation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Underground dwellings are set back from allotment boundaries to provide adequate separation between dwellings.	DTS/DPF 2.2 Underground dwellings are set back at least 2m from side and rear boundaries.
Earthworks	
PO 3.1 Incomplete excavation is returned to the naturally occurring landform.	DTS/DPF 3.1 None are applicable.

Wallaroo Landmark Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	A high quality medium density residential development presenting an attractive built form overlooking the Wallaroo Marina.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development comprising medium density residential development.	DTS/DPF 1.1 None are applicable.

Built Form and Character	
PO 2.1 Development that fronts or overlooks the marina or public open space designed to take advantage of waterfront views while providing attractive frontages to public streets.	DTS/DPF 2.1 None are applicable.
PO 2.2 Service areas associated with dwellings such as open storage and clothes drying screened from public view.	DTS/DPF 2.2 None are applicable.
PO 2.3 Outbuildings designed and sited to minimise their visibility from the waterfront and do not dominate the appearance of public places.	DTS/DPF 2.3 None are applicable.
Building Height and Setbacks	
PO 3.1 Building height that achieves the highest intensity of built form with frontage to the marina and lower scale behind.	DTS/DPF 3.1 Building height is not less than 4 levels or 12m.
PO 3.2 Buildings setback from primary street frontages to reinforce a consistent and attractive streetscape character.	DTS/DPF 3.2 Buildings are no closer to the primary street boundary than: (a) 4.0m or (b) 5.5m in the case of a garage or where the main facade of the building is set back more than 5m.
PO 3.3 Buildings provided with minimal setback to the marina to ensure a cohesive frontage to the marina and public walkway.	DTS/DPF 3.3 Buildings setback a maximum 1.0 metre from the marina basin frontage.
Site Coverage	
PO 4.1 Building footprints with a dual frontage to public streets and the waterfront consistent with established waterfront residential development.	DTS/DPF 4.1 Development not resulting in a total building footprint on the site exceeding 90%.

Waterfront Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Residential development located with a coastal frontage or within a marina that provides opportunities for water-based recreation. Development is sited and designed to complement a waterfront environment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Dwellings and ancillary buildings that complement a residential waterfront character.	DTS/DPF 1.1 None are applicable.
PO 1.2 Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Dwellings on sites/allotments that front or overlook water or public space designed to take advantage of waterfront views while providing attractive frontages to public streets.	DTS/DPF 2.1 None are applicable.
PO 2.2 Service areas associated with dwellings such as open storage and clothes drying screened from public view.	DTS/DPF 2.2 None are applicable.
PO 2.3 Outbuildings designed and sited to minimise their visibility from the waterfront and do not dominate the appearance of public places.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development setback from canals to establish a consistent character that includes soft landscaping along canal frontages.	DTS/DPF 2.4 None are applicable.
Site Coverage	
PO 3.1 Building footprints on sites with a dual frontage to a public street and the waterfront consistent with the residential waterfront character while maximising use of available land in waterfront locations.	DTS/DPF 3.1 Development on sites: (a) with a dual frontage to the waterfront and a public street and (b) 300m^2 or less not resulting in a total building footprint on the site exceeding 90%.

Open Space Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Areas of natural and landscaped open space provide for biodiversity, tree canopy cover, urban cooling and visual relief to the built environment for the health and enjoyment of the community.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of unstructured outdoor passive and active recreation facilities.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Open space (b) Outdoor sports courts (c) Recreation area (d) Sporting ovals and fields
PO 1.2 Buildings are limited in number and size to provide a natural, landscaped setting.	DTS/DPF 1.2 None are applicable.
PO 1.3 Shops including restaurants are of a scale that is subordinate to the principal open space and recreation use of the land.	DTS/DPF 1.3 Shop gross leasable floor area does not exceed 50m^2.
PO 1.4 Offices are of a scale that is subordinate to the principal open space use of the land.	DTS/DPF 1.4 Office gross leasable floor area does not exceed 80m^2.

Built Form and Character	
PO 2.1 Development is designed and sited to be unobtrusive and not spoil the open space character or interrupt views of natural or landscape features.	DTS/DPF 2.1 None are applicable.
PO 2.2 Outbuildings are of a scale that mitigates visual impacts of buildings on natural or landscape features.	DTS/DPF 2.2 Outbuildings have a: (a) floor area that does not exceed 80m^2 (b) wall height that does not exceed 3m (c) building height that does not exceed 5m
PO 2.3 Development is sited and designed to be compatible with the conservation and enhancement of the natural environment.	DTS/DPF 2.3 None are applicable.
Land Division	
PO 3.1 Land division supports the provision of public open space.	DTS/DPF 3.1 Land division is for the purposes of: (a) the creation of a public road or a public reserve or (b) a minor adjustment of allotment boundaries to: (i) remove an anomaly in existing boundaries with respect to the location of existing buildings or structures or (ii) result in the preservation of existing stands of native vegetation, habitat or biodiversity
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 14 - Buckland Park Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 96 - Maslin Beach Concept Plan 107 - Proper Bay Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 135 - Thebarton Concept Plan 175 - Smithfield Regeneration In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 (60m^2 in the Rural Zone, Rural Horticulture Zone, Rural Living Zone, Rural Intensive Enterprise Zone) 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve-

	(a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	None specified
Intensive Animal Husbandry	None specified
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) carport (d) deck (e) fence (f) internal building works (g) land division (h) open space (i) pergola (j) playground (k) private bushfire shelter (l) protective tree netting structure (m) recreation area (n) replacement building (o) retaining wall (p) shade sail (q) solar photovoltaic panels (roof mounted) (r) swimming pool or spa pool and associated swimming pool safety features (s) temporary accommodation in an area affected by bushfire (t) tree damaging activity (u) verandah (v) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) outdoor sports courts (b) sporting ovals and fields	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Office.	Except office that does not satisfy Open Space Zone DTS/DPF 1.4.
6. Outbuilding.	Except outbuilding that does not satisfy Open Space Zone DTS/DPF 2.2.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Shop.	Except shop that does not satisfy Open Space Zone DTS/DPF 1.3.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Productive Rural Landscape Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A diverse range of land uses at an appropriate scale and intensity that capitalise on the region's proximity to the metropolitan area and the tourist and lifestyle opportunities this presents while also conserving the natural and rural character, identity, biodiversity and sensitive environmental areas and scenic qualities of the landscape.
DO 2	A zone that promotes agriculture, horticulture, value adding opportunities, farm gate businesses, the sale and consumption of agricultural based products, tourist development and accommodation that expands the economic base and promotes its regional identity.
DO 3	Create local conditions that support new and continuing investment while seeking to promote co-existence with adjoining activities and mitigate land use conflicts.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The productive value of rural land for a range of primary production and horticultural activities and associated value adding of primary produce (such as beverage production), retailing and tourism is supported, protected and maintained. The proliferation of land uses that may be sensitive to those activities is avoided.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Brewery (d) Carport (e) Cidery (f) Commercial forestry (g) Distillery (h) Dwelling (i) Dwelling addition (j) Farming (k) Function venue (l) Horse keeping (m) Horticulture (n) Industry (o) Low intensity animal husbandry (p) Outbuilding (q) Shop (r) Small-scale ground mounted solar power facility (s) Tourist accommodation (t) Transport distribution (u) Verandah

	(v) Warehouse (w) Winery (x) Workers' accommodation
Siting and Design	
PO 2.1 Development is provided with suitable vehicle access.	DTS/DPF 2.1 Development is serviced by an all-weather trafficable public road.
PO 2.2 Buildings are generally located on flat land to minimise cut and fill and the associated visual impacts.	DTS/DPF 2.2 Buildings: (a) are located on a site with a slope not greater than 10% (1-in-10) and (b) do not result excavation and/or filling of land that is greater than 1.5m from natural ground level.
Horticulture	
PO 3.1 Horticulture is located and conducted on land that has the physical capability of supporting the activity and in a manner that: (a) enhances the productivity of the land for the growing of food and produce in a sustainable manner (b) avoids adverse interface conflicts with other land uses (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality (d) is sympathetic to surrounding rural landscape character and amenity, where horticulture is proposed to be carried out in an enclosed building such as such as a greenhouse.	DTS/DPF 3.1 Horticultural activities satisfy all of the following: (a) are conducted on an allotment with an area of at least 1ha (b) are sited on land with a slope not greater than 10% (1-in-10) (c) are not conducted within 50m of a watercourse or native vegetation (d) are not conducted within 100m of a sensitive receiver in other ownership (e) provide for a headland area between plantings and property boundaries of at least 10m in width (f) where carried out in an enclosed building such as a greenhouse, the building has a total floor area not greater than 250m^2 (g) in the form of olive growing, is not located within 500m of a conservation or national park.
Rural Industry	
PO 4.1 Small-scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities provide opportunities for diversification and value adding to locally sourced primary production activities.	DTS/DPF 4.1 Industries, storage, warehousing, produce grading and packing and transport distribution activities and similar activities (or any combination thereof) satisfy all of the following: (a) are directly related and ancillary to a primary production use on the same or adjoining allotment (b) are located on an allotment not less than 2ha in area (c) have a total floor area not exceeding 350m^2.
PO 4.2 Expansion of established small-scale or new large scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities: (a) are commensurate with the allotment on which it is situated to mitigate adverse impacts on the amenity of land in other ownership and the character of locality (b) realise efficiencies in primary production related storage, sorting, packaging, manufacturing and the like (c) primarily involve primary production commodities sourced from the same allotment and/or surrounding rural areas.	DTS/DPF 4.2 None are applicable.
PO 4.3 Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that maintains rural function and character in a manner that respects landscape amenity.	DTS/DPF 4.3 Buildings and associated activities satisfy all of the following: (a) are setback at least 50m from all road and allotment boundaries (b) are not sited within 100m of a sensitive receiver in other ownership (c) have a building height not greater than 10m above natural ground level (d) incorporate the loading and unloading of vehicles within the confines of the allotment.
Dwellings	
PO 5.1 Dwellings provide a convenient base for landowners to conduct and manage commercial scale primary production and related value adding activities without compromising the use of the allotment, adjacent land or long term purpose of the zone for primary production or related tourism values due to a proliferation of dwellings.	DTS/DPF 5.1 Dwellings: (a) are located on an allotment with an area not less than: **Minimum Dwelling Allotment Size** Minimum dwelling allotment size is 32 ha (b) are located on an allotment used for and is ancillary to primary production and/or primary production related value-adding activities (c) will not result in more than one dwelling on an allotment. In relation to DTS/DPF 5.1, in instances where: (d) more than one value is returned, refer to the *Minimum Dwelling Allotment Size Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (e) no value is returned for DTS/DPF 5.1(a) (ie there is a blank field), then there is no minimum dwelling allotment size applicable and DTS/DPF 5.1(a) is met.
PO 5.2 Dwelling are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.	DTS/DPF 5.2 Dwellings satisfy all of the following: (a) are setback from all allotment boundaries by at least 40m (b) do not exceed 2 building levels and 9m measured from the top of the footings (c) have a wall height no greater than 6m.
PO 5.3 Development resulting in more than one dwelling on an allotment supports ageing in place for the owner of the allotment or multi-generational management of farms in a manner that minimises the potential loss of land available for primary production.	DTS/DPF 5.3 Dwelling that will result in more than one dwelling on an allotment where all the following are satisfied: (a) it is located within 20m of an existing dwelling (b) share the same utilities of the existing dwelling (c) will use the same access point from a public road as the existing dwelling (d) it is located on an allotment not less than 40ha in area (e) will not result in more than two dwellings on an allotment.
PO 5.4 Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 5.4 Additions or alterations to an existing dwelling satisfy all of the following: (a) are setback behind the main façade of the existing dwelling (b) do not exceed 2 building levels and 9m measured from the top of the footings (c) have a wall height that is no greater than 6m from the top of the footings.
Shops, Tourism and Function Venues	
PO 6.1 Shops are associated with an existing primary production or primary production related value adding industry to support diversification of employment, provide services to visitors and showcase local and regional products.	DTS/DPF 6.1 Shops, other than where located in The Cedars Subzone, satisfy all of the following: (a) are ancillary to and located on the same allotment or adjoining allotment used for primary production or primary production related value adding industries (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or adjoining allotments (c) have a gross leasable floor area not exceeding 100m^2 or 250m^2 in the case of a cellar door (d) have an area for the display of produce or goods external to a building not exceeding 25m^2 (e) do not result in more than 75 seats for customer dining purposes in a restaurant.
PO 6.2 Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 6.2 Shops in new buildings satisfy all of the following: (a) are setback from all property boundaries by at least 20m (b) are not sited within 100m of a sensitive receiver in other ownership (c) have a building height that does not exceed 9m above natural ground level.
PO 6.3 Tourist accommodation is associated with the primary use of the land for primary production or primary production related value adding industry to enhance and provide authentic visitor experiences.	DTS/DPF 6.3 Tourist accommodation, other than where located in The Cedars Subzone, satisfy (a) to (c), inclusive: (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry (b) in relation to the area used for accommodation:

	(i) where in a new building, or buildings, does not exceed a cumulative total floor area of 100m^2 or (ii) where in an existing building, does not exceed 150m^2 and (c) does not result in more than one tourist accommodation facility being located on the same allotment.
PO 6.4 Tourist accommodation proposed in a new building or buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 6.4 Tourist accommodation in new buildings: (a) is setback from all property boundaries by at least 40m and (b) has a building height that does not exceed 7m above natural ground level.
PO 6.5 Function venues are associated with the primary use of the land for primary production or primary production related value adding industry.	DTS/DPF 6.5 Function venues, other than where located in The Cedars Subzone: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry and (b) do not exceed a capacity of 75 persons for customer dining purposes.
PO 6.6 Function venues are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.	DTS/DPF 6.6 Function venues satisfy all of the following: (a) are located on an allotment having an area of at least 5ha (b) are setback from all property boundaries by at least 40m (c) are not sited within 100m of a sensitive receiver in other ownership (d) have a building height that does not exceed 9m above natural ground level.
Offices	
PO 7.1 Offices are directly related to and associated with the primary use of the land for primary production or primary production related value adding industry.	DTS/DPF 7.1 Offices, other than where located in The Cedars Subzone: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry and (b) have a gross leasable floor area not exceeding 100m^2.
Adaptive Reuse of Existing Buildings	
PO 8.1 Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.	DTS/DPF 8.1 Development within an existing building is for any of the following: (a) a shop (b) office (c) tourist accommodation.
Workers' accommodation	
PO 9.1 Workers' accommodation provides short-term accommodation for persons temporarily engaged in the production, management or processing of primary produce.	DTS/DPF 9.1 Workers' accommodation satisfies all of the following: (a) is developed on a site at least 2ha in area (b) has a total floor area not exceeding 250m^2 (c) is in the form of a single building or part of a cluster of buildings that are physically connected (d) amenities accommodate not more than 20 persons at any one time (e) is setback at least 50m from a road boundary (f) is setback at least 40m from a side or rear allotment boundary (g) is located within 20m of an existing dwelling on the same allotment (h) does not result in more than one facility being located on the same allotment.
Renewable Energy Facilities	
PO 10.1 Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.	DTS/DPF 10.1 None are applicable.
PO 10.2 Small-scale ground mounted solar power facilities support rural production or value-adding industries.	DTS/DPF 10.2 None are applicable.
Built Form and Character	
PO 11.1 Large buildings designed and sited to reduce impacts on scenic and rural vistas by: (a) having substantial setbacks from boundaries and adjacent public roads (b) using low reflective materials and finishes that blend with the surrounding landscape (c) being located below ridgelines.	DTS/DPF 11.1 None are applicable.
Land Division	
PO 12.1 Land division creating additional allotments is not supported other than where located in The Cedars Subzone to support tourist development.	DTS/DPF 12.1 Except where the land division is proposed in The Cedars Subzone, no additional allotments are created.
PO 12.2 Allotment boundaries, including by realignment, are positioned to incorporate sufficient space around existing residential, tourist accommodation and other habitable buildings (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) to: (a) maintain a pleasant rural character and amenity for occupants (b) manage vegetation within the same allotment to mitigate bushfire hazard.	DTS/DPF 12.2 Allotment boundaries are located no closer to an existing residential, tourist accommodation or other habitable building than the greater of the following: (a) 40m or (b) the distance required to accommodate an asset protection zone wholly within the relevant allotment.
Agricultural Buildings	
PO 13.1 Agricultural buildings and associated activities are sited, designed and of a scale that maintains a pleasant rural character and function.	DTS/DPF 13.1 Agricultural buildings satisfy all of the following: (a) are located on an allotment having an area of at least 2ha (b) are setback at least 40m from an allotment boundary (c) have a building height not exceeding 10m above natural ground level (d) do not exceed 350m^2 in total floor area (e) incorporate the loading and unloading of vehicles within the confines of the allotment.
Outbuildings, Carports and Verandahs	
PO 14.1 Outbuildings are sited, designed and of a scale that maintain a pleasant natural and rural character and amenity.	DTS/DPF 14.1 Outbuildings satisfy all of the following: (a) have a primary street setback that is at least as far back as the building to which it is ancillary (b) have a combined total floor area that does not exceed 100m^2 (c) do not exceed 5m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 6m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (f) will not result in more than 2 outbuildings on the same allotment.
PO 14.2 Carports and verandahs are sited, designed and of a scale to maintain a pleasant natural and rural character and amenity.	DTS/DPF 14.2 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m measured from natural ground level (e) if clad in sheet metal, the cladding is pre-colour treated or painted in a non-reflective colour.
Concept Plans	

PO 15.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 15.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 92 - Meadows Concept Plan 100 - Gawler East In relation to DTS/DPF 15.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 15.1 is met.
Advertisements	
PO 16.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 16.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds $2m^2$ per side.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Agricultural building Except where any of the following apply: • Character Area Overlay • Coastal Areas Overlay • Gateway Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will be located on an allotment having an area of at least 10ha 2. The development is set back at least 50m from an allotment boundary 3. Building height - does not exceeding 10m above natural ground level 4. Total floor area - does not exceed $250m^2$ 5. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 6. Does not involve- excavation exceeding a vertical height of 1m; or filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed $80m^2$ 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 10. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation of filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed $80m^2$. 6. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site

	9. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 10. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 11. Does not involve the clearance of native vegetation. 12. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. Does not involve the clearance of native vegetation 9. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure 3. No part of the system: (a) is more than 4 metres in height (measured as a height above the natural surface of the ground); (b) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 30m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Land Division within the Limited Land Division Overlay	Land division that involves any of the following: (a) is a boundary realignment (b) is located in The Cedars Subzone.
Shop	Any of the following: (a) shop located in The Cedars Subzone (b) shop that is ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region (c) shop that has a gross leasable floor area less than 1000m^2 (d) shop that is a restaurant.
Special industry	None specified
Wind farm	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) ancillary accommodation (e) carport (f) deck (g) fence (h) dwelling (i) dwelling addition (j) farming (k) horse keeping (l) internal building work (m) land division (n) outbuilding (o) pergola (p) private bushfire shelter (q) protective tree netting structure (r) replacement building (s) retaining wall (t) solar photovoltaic panels (roof mounted) (u) shade sail (v) swimming pool or spa pool and associated swimming pool safety features (w) temporary accommodation in an area affected by bushfire (x) tree damaging activity (y) verandah (z) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) industry (b) store (c) warehouse.	Except development that does not satisfy any of the following: 1. Productive Rural Landscape Zone DTS/DPF 4.1 2. Productive Rural Landscape Zone DTS/DPF 4.3.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Function venue within The Cedars Subzone.	None specified.
6. Function venue.	Except function venue that does not satisfy Productive Rural Landscape Zone DTS/DPF 6.6.
7. Horticulture.	Except horticulture that does not satisfy any of the following: 1. Productive Rural Landscape Zone DTS/DPF 3.1(d) 2. Productive Rural Landscape Zone DTS/DPF 3.1(e).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
9. Shop within The Cedars Subzone.	None specified.
10. Shop.	Except shop that does not satisfy any of the following: 1. Productive Rural Landscape Zone DTS/DPF 6.1 2. Productive Rural Landscape Zone DTS/DPF 6.2.

11. Tourist accommodation within The Cedars Subzone.	None specified.
12. Tourist accommodation.	Except tourist accommodation that does not to satisfy any of the following: 1. Productive Rural Landscape Zone DTS/DPF 6.3 2. Productive Rural Landscape Zone DTS/DPF 6.4.

Placement of Notices - Exemptions for Performance Assessed Development

Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Productive Rural Landscape Zone.

Placement of Notices - Exemptions for Restricted Development

Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Productive Rural Landscape Zone.

The Cedars Subzone

Assessment Provisions (AP)

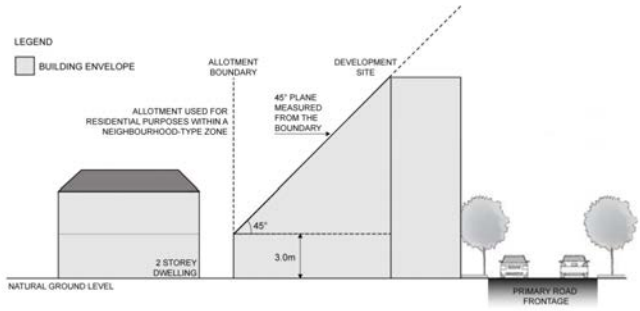
Desired Outcome (DO)

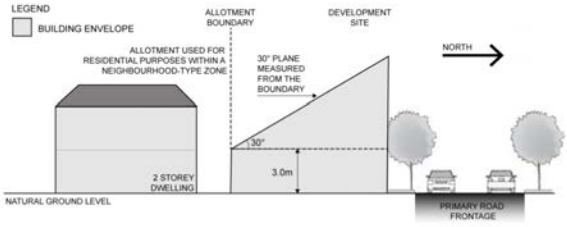
Desired Outcome	
DO 1	A cultural, arts and tourist precinct centred on the former residence and studio of artist Hans Heysen and conservation of the surrounding eucalypt forest.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Cultural, arts and tourist development supported by complimentary activities catering to the needs and enjoyment of visitors.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Art gallery and studio (b) Function venue (c) Office (d) Shop (e) Tourist accommodation
PO 1.2 Conservation and enhancement of the Heysen eucalypt forest.	DTS/DPF 1.2 None are applicable.
Built form and siting	
PO 2.1 Buildings and associated vehicle parking areas, are designed and sited to: (a) minimise removal of native vegetation or areas of significant landscape quality (b) be screened by existing vegetation, particularly when viewed from public roads.	DTS/DPF 2.1 None are applicable.
PO 2.2 Vehicle access points are limited and sited to minimise vegetation clearance.	DTS/DPF 2.2 None are applicable.
Land division	
PO 3.1 Land division creates allotments suitable for land uses associated with cultural, arts or tourism development.	DTS/DPF 3.1 None are applicable.
PO 3.2 Land divison is designed to conserve native vegetation and landscape quality.	DTS/DPF 3.2 None are applicable.

Recreation Zone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a range of accessible recreational facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the primary purpose of structured, unstructured, active and / or passive recreational facilities.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Car parking (b) Change rooms (c) Golf course (d) Indoor recreation facility (e) Lighting for night use of facilities (f) Market (g) Motorsport track and associated activities (h) Office ancillary to recreation facility (i) Open space (j) Outdoor sports courts (k) Playground (l) Racecourse and associated activities (m) Recreation area (n) Shop ancillary to recreation facility (o) Showground and associated activities (p) Special event (q) Spectator viewing structure (r) Sporting clubrooms (s) Sporting ovals and fields (t) Stadium (u) Swimming pool (v) Tourist accommodation ancillary to recreation facility
PO 1.2 Shops including restaurants are of a scale that is subordinate to the principal recreational use of land.	DTS/DPF 1.2 Shop gross leasable floor area does not exceed 80m^2.
PO 1.3 Offices are of a scale that is subordinate to the principal recreational use of land.	DTS/DPF 1.3 Office gross leasable floor area does not exceed 80m^2.
PO 1.4 Tourist accommodation of a scale that is subordinate to the principal recreational use of land.	DTS/DPF 1.4 None are applicable.

PO 1.5 Facilities capable of attracting larger numbers of spectators may include complementary activities associated with the principal recreational use of land, such as: (a) Horse breeding, keeping, sales and training activities associated with a racecourse (b) Storage and maintenance of racing vehicles associated with a motorsport track.	DTS/DPF 1.5 None are applicable.
PO 1.6 Facilities that may attract longer-term stays may include complementary activities associated with the principal recreational use of land, such as tourist accommodation.	DTS/DPF 1.6 None are applicable.
Built Form and Character	
PO 2.1 Development includes building, landscape and streetscape design elements to achieve high visual amenity particularly along public roads and open spaces.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are designed and sited to manage visual impacts.	DTS/DPF 2.2 Buildings are set back: (a) no closer to a public road than an existing building on an adjoining allotment, or 8m where no building exists on an adjoining site (b) 8m from the boundary of an allotment containing, or zoned to primarily accommodate, a sensitive receiver in other ownership.
PO 2.3 Outbuildings are of a scale that manages visual impacts.	DTS/DPF 2.3 Outbuildings have a: (a) floor area that does not exceed 80m^2 (b) wall height that does not exceed 3m (c) building height that does not exceed 5m
Interface Height	
PO 3.1 Buildings mitigate the visual impacts of massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.1 Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 3.2 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings on sites with a southern boundary adjoining the boundary of an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.3 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division supports the provision of recreational facilities.	DTS/DPF 4.1 Land division is for the purposes of: (a) the creation of a public road or a public reserve or (b) a minor adjustment of allotment boundaries to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 21 - Virginia Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints

	Description Concept Plan 80 - Murray Bridge Concept Plan 99 - Two Wells Concept Plan 98 - Mallala Concept Plan 92 - Meadows Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 175 - Smithfield Regeneration In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.
Advertisements	
PO 6.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 6.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds $2m^2$ per side.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed $40m^2$ 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located on a State maintained road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

• Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) change rooms (c) outdoor sports courts (d) playground (e) protective tree netting structure.	Except development that does not satisfy any of the following: 1. Recreation Zone DTS/DPF 2.2 2. Recreation Zone DTS/DPF 3.1 3. Recreation Zone DTS/DPF 3.2.
3. Any development involving any of the following (or of any combination of any of the following): (a) indoor recreation facility (b) market (c) showground (d) special event (e) sporting clubrooms (f) Swimming pool or spa pool and associated swimming pool safety features (g) horse breeding, keeping, sales, training or stables ancillary to an existing racecourse	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) open space (h) outbuilding (i) pergola (j) private bushfire shelter (k) recreation area (l) replacement building (m) retaining wall (n) shade sail (o) solar photovoltaic panels (roof mounted) (p) swimming pool or spa pool and associated swimming pool safety features (q) temporary accommodation in an area affected by bushfire (r) tree damaging activity (s) verandah (t) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Office.	Except office that does not satisfy any of the following: 1. Recreation Zone DTS/DPF 1.3 2. Recreation Zone DTS/DPF 2.2 3. Recreation Zone DTS/DPF 3.1 4. Recreation Zone DTS/DPF 3.2.
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
9. Shop.	Except shop that does not satisfy any of the following: 1. Recreation Zone DTS/DPF 1.2 2. Recreation Zone DTS/DPF 2.2 3. Recreation Zone DTS/DPF 3.1 4. Recreation Zone DTS/DPF 3.2.
10. Telecommunications facility.	Except telecommunications facility exceeding 30m in height or where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood zone.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Adelaide Showgrounds Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Multifunctional showground facilities and spaces catering to a wide range of cultural, agricultural, recreational, sporting and business events, conferences, shows, markets and exhibitions together with supporting administrative and visitor facilities.
DO 2	An area supporting transitional development between core showground facilities and adjacent areas along Leader Street and Rose Terrace achieve complementary land use and built form outcomes that support the multifunctional role of core showground facilities and spaces.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Showground facilities and spaces accommodating events, conferences, shows, markets and exhibitions together with associated administrative functions and visitor amenities are maintained for the long term education, entertainment and enjoyment of visitors, spectators, event competitors and businesses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development of land near the periphery of the subzone along Leader Street or Rose Terrace surplus to showground activities is compatible with showground facilities and provides an orderly transition to development outside the subzone to mitigate adverse impacts on residential amenity.	DTS/DPF 1.2 Development comprising one or more of the following on a site adjacent land in another zone: (a) Car parking (b) Child care facility (c) Community facility (d) Consulting room (e) Educational facility

	(f) Hotel (g) Office (h) Residential flat building (i) Restaurant (j) Service trade premises (k) Shop (l) Tourist accommodation (m) Warehouse
PO 1.3 Shops are ancillary to showground facilities to enhance visitor experiences or provide a local convenience as part of a transitional development at the subzone interface that complements the role of activity centres.	DTS/DPF 1.3 Shop where one of the following applies: (a) is ancillary to showground facilities (b) with a gross leasable floor area up to 500m^2 in a single building.
PO 1.4 Offices or consulting rooms are ancillary to showground activities, or on sites with an interface with Leader Street or Rose Terrace at a scale appropriate to maintain the local character and amenity.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Buildings are generally medium rise, and where fronting Leader Street provide an orderly transition to the built form scale envisaged in any adjacent neighbourhood-type zone to complement the streetscape character.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings fronting a public road are setback from the road frontage to: (a) enable provision of a pedestrian walkway and environment of sufficient width and amenity to safely and conveniently accommodate expected pedestrian movements and (b) complement the prevailing streetscape character.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings adjacent to Leader Street or Rose Terrace include activities that contribute to active street frontages, of a scale that minimises impact on residential amenity in any adjacent neighbourhood-type zone.	DTS/DPF 2.3 None are applicable.

Remote Areas Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone that includes a diverse range of uses including pasture growing, grazing, farming, agricultural processing and transportation, mining and petroleum, energy generation and storage, pipeline infrastructure, aerospace and defence-related facilities, Aboriginal lands and related activities, tourist development, workers' accommodation and settlements.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land used primarily for primary production, remote rural activities and remote rural settlements.	DTS/DPF 1.1 Development comprises one or more of the following land uses: (a) Advertisement (b) Agricultural building (c) Carport (d) Demolition (e) Detached dwelling (f) Dwelling addition (g) Excavation and filling (h) Farming (i) Intensive animal husbandry (j) Outbuilding (k) Small-scale ground mounted solar power facility (l) Solar farm (m) Stock sales yard (n) Stock slaughter works (o) Tourist accommodation (p) Verandah (q) Wind farm (r) Workers' accommodation
Built Form and Character	
PO 2.1 Development is sited and designed to protect natural features and the conservation value of the area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Large buildings are designed and sited to reduce impacts on scenic and rural vistas by: (a) having substantial setbacks from boundaries and adjacent public roads (b) using low reflective materials and finishes that blend with the surrounding landscape (c) being located below ridgelines where practicable.	DTS/DPF 2.2 Building are: (a) of a height no greater than 2 building levels and 9m and (b) set back at least 40m from any allotment boundary or public road.
Hazard Risk Minimisation	
PO 3.1 Habitable buildings are designed and sited to manage the risks of natural hazards on personal and public safety and property.	DTS/DPF 3.1 None are applicable.
Advertisements	
PO 4.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 4.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds 2m^2 per side.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:	1. The item will be installed on or within an existing building

• Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation of filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay	None

• State Heritage Place Overlay	
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The system is freestanding and not attached to a building or other structure. 3. No part of the system: (a) is more than 4m in height (measured as a height above the natural surface of the ground); (b) is within 100m of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10m of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 -Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) ancillary accommodation (d) detached dwelling (e) dwelling addition (f) horse keeping (g) intensive animal husbandry (h) protective tree netting structure (i) solar photovoltaic panels (ground mounted) (j) solar farm (k) stock sales yard (l) stock slaughter works (m) tourist accommodation.	Except development that does not satisfy Remote Areas Zone DTS/DPF 2.2.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) building work on railway land (c) carport (d) deck (e) excavation or filling (f) farming (g) fence (h) internal building works (i) land division (j) outbuilding (k) pergola (l) private bushfire shelter (m) replacement building (n) retaining wall (o) shade sail (p) solar photovoltaic panels (roof mounted) (q) swimming pool or spa pool and associated swimming pool safety features (r) temporary accommodation in an area affected by bushfire (s) tree damaging activity (t) verandah (u) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
6. Wind farm, including any ancillary development including electricity substation, maintenance sheds, access roads, and connecting power-lines.	Except: 1. wind monitoring mast or 2. where the base of any wind turbine is 2,000m or less from any of the following: (a) an existing dwelling or tourist accommodation that is not associated with the wind farm (b) a proposed dwelling or tourist accommodation for which an operable planning consent exists (c) the boundaries of any airfield, airport, Local Infrastructure (Airfield) Zone, Rural Settlement Zone, Township Zone or any State Heritage Area Overlay.
Placement of Notices - Exemptions for Performance Assessed Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Remote Areas Zone.	
Placement of Notices - Exemptions for Restricted Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Remote Areas Zone.	

Residential Park Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable living, short term accommodation and associated small-scale services and facilities are provided in an open landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Long-term and short-term affordable and visitor accommodation predominantly characterised by caravan and camping sites, cabins, and transportable dwellings, with complementary support services that maintain a low-rise, open landscape setting.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Amenity block (b) Caravan permanently fixed to land (c) Community facility (d) Detached dwelling (e) Indoor recreation facility (f) Outbuilding (g) Residential Park (h) Shop (i) Office (j) Tourist accommodation
PO 1.2 Permanent buildings are consistent with the primary role of the park and maintain an open landscaped character by being limited to: (a) a dwelling (manager's house) (b) shop or office (in association with and ancillary to a residential park) (c) community or recreational facilities (d) toilets/amenities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Facilities to support the needs and enjoyment of visitors and occupants (such as shower, toilet and laundry facilities, recreation areas including tennis court, basketball court, playground, swimming pool/spa and the like) are provided at a scale suitable to maintain the open natural character of the area and ancillary to the primary role of the park.	DTS/DPF 1.3 None are applicable.
PO 1.4 A dwelling in the form of a manager's residence associated with and ancillary to tourist accommodation and tourist facilities to support tourism operations and maximise available accommodation for long-term occupants, visitors and travellers.	DTS/DPF 1.4 None are applicable.
PO 1.5 Shops and offices associated with and ancillary to tourist accommodation and tourist facilities support tourism operations and maximise available accommodation for visitors and travellers.	DTS/DPF 1.5 Shops and offices (or any combination thereof) do not exceed 250m^2 in gross leasable floor area or Shops and offices (or any combination thereof) are to be located in an existing building that is being lawfully used as a shop or office (or any combination thereof).
PO 1.6 Home-based businesses support opportunities to work from home are of a scale and type to maintain the amenity of nearby residents.	DTS/DPF 1.6 A shop, consulting room or office (or any combination thereof) located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (a) it does not exceed 50m^2 gross leasable floor area (b) it does not involve the display of goods in a window or about the dwelling or its curtilage.
Site Dimensions and Land Division	
PO 2.1 No additional allotment(s) are created wholly or partly within the zone except where a lease or license agreement is made, granted or accepted under the Residential Parks Act 2007.	DTS/DPF 2.1 Land division is permitted for a lease or licence under the *Residential Parks Act 2007* where an agreement is made, granted or accepted under that Act.
PO 2.2 Each caravan, cabin and dwelling is provided with adequate space for the occupants' exclusive use to enhance the amenity for travellers.	DTS/DPF 2.2 Caravan, cabin and dwelling sites are not less than 100m^2 in area.
Built Form and Character	
PO 3.1 Landscaping is used to define spaces, reinforce internal networks, screen utility areas and enhance the visual amenity of the area.	DTS/DPF 3.1 None are applicable.
PO 3.2 Buildings and structures incorporate a small setback from internal roads to ensure safe internal movement.	DTS/DPF 3.2 Buildings and structures are set back at least 1m from any internal road.
PO 3.3 Buildings and structures are sufficiently set back from any public road to minimise impacts on the streetscape.	DTS/DPF 3.3 Buildings and structure are set back at least 6m from a public road.
PO 3.4 Buildings and structures are set back from the park boundary to minimise impacts on neighbouring properties.	DTS/DPF 3.4 Building and structures are set back at least 2m from the park boundary.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 21 - Virginia Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 142 - Hillier In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

	2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 14. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) amenity block, shower, toilet or laundry facilities (b) caravan permanently fixed to land (c) community facility (d) dwelling (e) dwelling addition (f) indoor recreation facility (g) residential park (h) tourist accommodation.	Except development that does not satisfy any of the following: 1. Residential Park DTS/DPF 3.3 2. Residential Park DTS/DPF 3.4.
3. Any development involving any of the following (or of any combination of any of the following): (a) office (b) shop.	Except development that does not satisfy any of the following: 1. Residential Park DTS/DPF 1.5 2. Residential Park DTS/DPF 3.3 3. Residential Park DTS/DPF 3.4.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) outbuilding (g) pergola	None specified.

(h) private bushfire shelter (i) replacement building (j) retaining wall (k) shade sail (l) solar photovoltaic panels (roof mounted) (m) swimming pool or spa pool and associated swimming pool safety features (n) temporary accommodation in an area affected by bushfire (o) tree damaging activity (p) verandah (q) water tank.	
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Land division.	Except development that does not satisfy Residential Park DTS/DPF 2.1.
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Resource Extraction Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The provision and protection of land for the extraction, production or processing of a mineral, extractive or petroleum resource.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to resource extraction and processing.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Office (b) Resource extraction operation (c) Resource processing facility (d) Store
PO 1.2 Remediation and rehabilitation is facilitated where resource extraction is no longer viable.	DTS/DPF 1.2 None are applicable.
PO 1.3 Undeveloped resource areas accommodate a limited range of low-intensity activities to maintain access to future resources.	DTS/DPF 1.3 Development comprises one or more of the following land uses: (a) Farming (b) Horse keeping (c) Horticulture
PO 1.4 Offices are ancillary to and support the management and maintenance of a resource extraction or processing facility.	DTS/DPF 1.4 Office: (a) ancillary to and located on the same site as resource extraction and / or processing operations and (b) with a gross leasable floor area up to 150m^2.
PO 1.5 Telecommunication facilities are located to mitigate impacts on visual amenity on residential areas.	DTS/DPF 1.5 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and (b) no closer than 50m to neighbourhood-type zone.
Land Division	
PO 2.1 Land division, including boundary realignment: (a) does not further fragment resource areas (b) creates allotments of suitable size and dimension for compatible activities away from resource areas.	DTS/DPF 2.1 None are applicable.
PO 2.2 Land division supports effective remediation and rehabilitation of the site and environs.	DTS/DPF 2.2 None are applicable.
Fencing	
PO 3.1 Fencing is designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.	DTS/DPF 3.1 Fencing exceeding 2.1m in height is: (a) located behind a facade of an associated building located on the same site; or (b) located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Concept Plans	
PO 4.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 4.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 4.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met
Advertisements	
PO 5.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 5.1 Freestanding advertisements:

	(a) do not exceed 2m in height and (b) do not have a sign face that exceeds $2m^2$ per side.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding $15m^2$ 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) carport (e) deck (f) farming (g) fence (h) horse keeping (i) horticulture (j) internal building work (k) land division (l) outbuilding (m) pergola (n) private bushfire shelter (o) protective tree netting structure (p) replacement building (q) retaining wall (r) shade sail (s) solar photovoltaic panels (roof mounted) (t) store (u) swimming pool or spa pool and associated swimming pool safety features (v) temporary accommodation in an area affected by bushfire (w) tree damaging activity (x) verandah (y) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Office.	Except office that does not satisfy Resource Extraction Zone DTS/DPF 1.4.
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
6. Telecommunications facility.	Except telecommunications facility that does not satisfy Resource Extraction Zone DTS/DPF 1.5.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Rural Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone supporting the economic prosperity of South Australia primarily through the production, processing, storage and distribution of primary produce, forestry and the generation of energy from renewable sources.
DO 2	A zone supporting diversification of existing businesses that promote value-adding such as industry, storage and warehousing activities, the sale and consumption of primary produce, tourist development and accommodation.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The productive value of rural land for a range of primary production activities and associated value adding, processing, warehousing and distribution is supported, protected and maintained.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Brewery (d) Carport (e) Cidery (f) Commercial forestry (g) Dairy (h) Dam (i) Distillery (j) Dwelling (k) Dwelling addition (l) Farming (m) Horse keeping (n) Horticulture (o) Industry (p) Intensive animal husbandry

	(q) Low intensity animal husbandry (r) Outbuilding (s) Renewable energy facility (t) Shop (u) Small-scale ground mounted solar power facility (v) Stock slaughter works (w) Tourist accommodation (x) Transport distribution (y) Verandah (z) Warehouse (aa) Winery (ab) Workers' accommodation
Siting and Design	
PO 2.1 Development is provided with suitable vehicle access.	DTS/DPF 2.1 Development is serviced by an all-weather trafficable public road.
PO 2.2 Buildings are generally located on flat land to minimise cut and fill and the associated visual impacts.	DTS/DPF 2.2 Buildings: (a) are located on sites with a slope not greater than 10% (1-in-10) and (b) do not result in excavation and/or filling of land greater than 1.5m from natural ground level.
Horticulture	
PO 3.1 Horticulture is located and conducted on land that has the physical capability of supporting the activity and in a sustainable manner that: (a) enhances the productivity of the land for the growing of food and produce in a sustainable manner (b) avoids adverse interface conflicts with other land uses (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality (d) is sympathetic to surrounding rural landscape character and amenity where horticulture is proposed to be carried out in enclosed buildings such as such as greenhouses.	DTS/DPF 3.1 Horticultural activities satisfy all of the following: (a) are conducted on an allotment with an area of at least 1ha (b) are sited on land with a slope not greater than 10% (1-in-10) (c) are not conducted within 50m of a watercourse or native vegetation (d) are not conducted within 100m of a sensitive receiver in other ownership (e) provide for a headland area between plantings and property boundaries of at least 10m in width (f) where carried out in an enclosed building such as a greenhouse, the building has a total floor area not greater than 250m^2 (g) where in the form of olive growing are not located within 500m of a conservation or national park.
Rural Industry	
PO 4.1 Small-scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities provide opportunities for diversification and value adding to locally sourced primary production activities.	DTS/DPF 4.1 Industries, storage, warehousing, produce grading and packing and transport distribution activities and similar activities (or any combination thereof) satisfy all of the following: (a) are directly related and ancillary to a primary production use on the same or adjoining allotment (b) are located on an allotment not less than 20ha in area (c) have a total floor area not exceeding 500m^2.
PO 4.2 Expansion of established small-scale or new large scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities: (a) are commensurate with the allotment on which it is situated to mitigate adverse impacts on the amenity of land in other ownership and the character of the locality (b) realise efficiencies in primary production related storage, sorting, packaging, manufacturing and the like (c) primarily involve primary production commodities sourced from the same allotment and /or surrounding rural areas.	DTS/DPF 4.2 None are applicable.
PO 4.3 Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that maintains rural character and function and respects landscape amenity.	DTS/DPF 4.3 Buildings and associated activities satisfy all of the following: (a) are set back at least 100m from all road and allotment boundaries (b) are not sited within 200m of a sensitive receiver in other ownership (c) have a building height not greater than 10m above natural ground level (d) incorporate the loading and unloading of vehicles within the confines of the allotment.
Dwellings	
PO 5.1 Dwellings provide a convenient base for landowners to conduct and manage commercial scale primary production and rural related value adding activities without compromising the use of the allotment, adjacent land or long term purpose of the zone for primary production or related tourism values due to a proliferation of dwellings.	DTS/DPF 5.1 Dwellings: (a) are located on an allotment with an area not less than: **Minimum Dwelling Allotment Size** Minimum dwelling allotment size is 16 ha Minimum dwelling allotment size is 20 ha Minimum dwelling allotment size is 25 ha Minimum dwelling allotment size is 30 ha Minimum dwelling allotment size is 32 ha Minimum dwelling allotment size is 33 ha Minimum dwelling allotment size is 36 ha Minimum dwelling allotment size is 40 ha Minimum dwelling allotment size is 60 ha Minimum dwelling allotment size is 100 ha Minimum dwelling allotment size is 200 ha Minimum dwelling allotment size is 300 ha Minimum dwelling allotment size is 900 ha (b) are located on an allotment used for and is ancillary to primary production and/or primary production related value-adding activities (c) will not result in more than one dwelling on an allotment. In relation to DTS/DPF 5.1, in instances where: (d) more than one value is returned in the same field, refer to the *Minimum Dwelling Allotment Size Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (e) no value is returned for DTS/DPF 5.1(a) (ie there is a blank field), then there is no minimum dwelling allotment size applicable and DTS/DPF 5.1(a) is met.
PO 5.2 Development resulting in more than one dwelling on an allotment supports ageing in place for the owner of the allotment or multi-generational management of farms in a manner that minimises the potential loss of land available for primary production.	DTS/DPF 5.2 Dwelling that will result in more than one dwelling on an allotment where all the following are satisfied: (a) it is located within 20m of an existing dwelling (b) shares the same utilities of the existing dwelling (c) will use the same access point from a public road as the existing dwelling (d) it is located on an allotment not less than 40ha in area (e) will not result in more than two dwellings on the allotment.
PO 5.3 Dwelling are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 5.3 Dwellings satisfy all of the following: (a) are set back from all allotment boundaries by at least 40m (b) do not exceed 2 building levels and 9m measured from the top of the footings (c) have a wall height that is no greater than 6m.
PO 5.4 Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 5.4 Additions or alterations to an existing dwelling satisfy all of the following: (a) are set back from all allotment boundaries by at least 40m (b) do not exceed 2 building levels and 9m measured from the top of the footings (c) have a wall height that is no greater than 6m.

Shops, Tourism and Function Venues

PO 6.1 Shops are associated with an existing primary production use or primary production related value adding industry to support diversification of employment, provide services to visitors and showcase local and regional products.	DTS/DPF 6.1 Shops satisfy all of the following: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industries (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or adjoining allotments (c) have a gross leasable floor area not exceeding 100m^2 or 250m^2 in the case of a cellar door (d) have an area for the display of produce or goods external to a building not exceeding 25m^2.
PO 6.2 Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 6.2 Shops in new buildings satisfy all of the following: (a) are set back from all allotment boundaries by at least 40m (b) are not sited within 100m of a sensitive receiver in other ownership (c) have a building height that does not exceed 9m above natural ground level.
PO 6.3 Tourist accommodation is associated with the primary use of the land for primary production or primary production related value adding industry to enhance and provide authentic visitor experiences.	DTS/DPF 6.3 Tourist accommodation satisfies all of the following: (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry (b) in relation to the area used for accommodation: (i) where in a new building, or buildings, does not exceed a cumulative total floor area of 100m^2 or (ii) where in an existing building, does not exceed a total floor area of 150m^2 (c) does not result in more than one tourist accommodation facility being located on the same allotment.
PO 6.4 Tourist accommodation proposed in a new building or buildings is sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 6.4 Tourist accommodation in new buildings: (a) is set back from all allotment boundaries by at least 40m and (b) has a building height that does not exceed 7m above natural ground level.
PO 6.5 Function venues are associated with the primary use of the land for primary production or primary production related value adding industry.	DTS/DPF 6.5 Function venues: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry and (b) do not result in more than 75 persons for customer dining purposes.
PO 6.6 Function venues are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.	DTS/DPF 6.6 Function venues satisfy all of the following: (a) are located on an allotment having an area of at least 5ha (b) are set back from all property boundaries by at least 40m (c) are not sited within 100m of a sensitive receiver in other ownership (d) have a building height that does not exceed 9m above natural ground level.

Offices

PO 7.1 Offices are directly related to and associated with the primary use of the land for primary production or primary production related value adding industry.	DTS/DPF 7.1 Offices: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry and (b) have a gross leasable floor area not exceeding 100m^2.

Adaptive Reuse of Existing Buildings

PO 8.1 Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.	DTS/DPF 8.1 Development within an existing building is for any of the following: (a) a shop (b) office (c) tourist accommodation.

Renewable Energy Facilities

PO 9.1 Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.	DTS/DPF 9.1 None are applicable.
PO 9.2 Small-scale, ground-mounted solar power facilities support rural production or value-adding industries.	DTS/DPF 9.2 None are applicable.

Built Form and Character

PO 10.1 Large buildings are designed and sited to reduce impacts on scenic and rural vistas by: (a) having substantial setbacks from boundaries and adjacent public roads (b) using low-reflective materials and finishes that blend with the surrounding landscape (c) being located below ridgelines.	DTS/DPF 10.1 None are applicable.

Land Division

PO 11.1 Land division, including boundary realignments, promotes productive, efficient and sustainable primary production by establishing allotments that are of sufficient dimension and area to support these outcomes and the intended use of the land for primary production.	DTS/DPF 11.1 Allotments have an area not less than:

Minimum Site Area
Minimum site area for a detached dwelling is 1,000 sqm; semi-detached dwelling is 1,000 sqm; row dwelling is 1,000 sqm; group dwelling is 1,000 sqm; residential flat building is 1,000 sqm
Minimum site area for a detached dwelling is 1,500 sqm; group dwelling is 1,500 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area is 1,000 sqm
Minimum site area is 10 ha
Minimum site area is 100 ha
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 16 ha
Minimum site area is 2 ha
Minimum site area is 20 ha
Minimum site area is 200 ha
Minimum site area is 25 ha
Minimum site area is 3,000 sqm
Minimum site area is 30 ha
Minimum site area is 32 ha
Minimum site area is 33 ha
Minimum site area is 4 ha
Minimum site area is 40 ha
Minimum site area is 5,000 sqm
Minimum site area is 5 ha

	Minimum Site Area Minimum site area is 60 ha Minimum site area is 7 ha Minimum site area is 81 sqm Minimum site area is 9,000 sqm Minimum site area is 900 ha In relation to DTS/DPF 11.1, in instances where: (a) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) no value is returned (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 11.2 Land division, including boundary realignments, which facilitates the more intensive use of the land should occur only where: (a) the allotments are of a size and configuration to support the existing and proposed land uses (b) water of sufficient quality and quantity is available to sustain the proposed use (c) the use will be compatible with adjacent or nearby uses of land.	DTS/DPF 11.2 None are applicable.
PO 11.3 Allotment boundaries, including by realignment, are positioned to incorporate sufficient space around existing residential, tourist accommodation and other habitable buildings (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) to: (a) maintain a pleasant rural character and amenity for occupants (b) manage vegetation within the same allotment to mitigate bushfire hazard.	DTS/DPF 11.3 Allotment boundaries are located no closer to an existing residential, tourist accommodation or other habitable building than the greater of the following: (a) 40m or (b) the distance required to accommodate an asset protection zone wholly within the relevant allotment.
Agricultural Buildings	
PO 12.1 Agricultural buildings and associated activities are sited, designed and of a scale that maintains a pleasant rural character and function.	DTS/DPF 12.1 Agricultural buildings satisfy all of the following: (a) are located on an allotment having an area of at least 10ha (b) are set back at least 50m from an allotment boundary (c) have a building height not exceeding 10m above natural ground level (d) do not exceed 500m^2 in total floor area (e) incorporate the loading and unloading of vehicles within the confines of the allotment.
Outbuildings, Carports and Verandahs	
PO 13.1 Outbuildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 13.1 Outbuildings satisfy all of the following: (a) have a primary street setback that is at least as far back as the building to which it is ancillary (b) have a combined total floor area that does not exceed 150m^2 (c) do not exceed 5m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 6m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (f) will not result in more than 2 outbuildings on the same allotment .
PO 13.2 Carports and verandahs are sited, designed and of a scale to maintain a pleasant rural character and amenity.	DTS/DPF 13.2 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour.
Concept Plans	
PO 14.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 14.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 71 - Hamley Bridge Concept Plan 50 - Roseworthy Town Expansion Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 98 - Mallala Concept Plan 106 - Hindmarsh Valley Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East In relation to DTS/DPF 14.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 14.1 is met.
Advertisements	
PO 15.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 15.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds 2m^2 per side.
Workers' Accommodation	
PO 16.1 Workers' accommodation provides short-term accommodation for persons temporarily engaged in the production, management or processing of primary produce.	DTS/DPF 16.1 Workers' accommodation satisfies all of the following: (a) is developed on a site at least 2ha in area (b) has a total area not exceeding 250m^2 (c) is in the form of a single building or part of a cluster of buildings that are physically connected (d) accommodates not more than 20 persons at any one time (e) is set back at least 50m from a road boundary (f) is set back at least 40m from a side or rear allotment boundary (g) is located within 20m of an existing dwelling on the same allotment (h) does not result in more than one facility being located on the same allotment.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Agricultural building Except where any of the following apply: • Character Area Overlay • Coastal Areas Overlay • Gateway Overlay	1. The development will be located on an allotment having an area of at least 10ha 2. The development is set back at least 50m from an allotment boundary 3. Building height - does not exceeding 10m above natural ground level 4. Total floor area - does not exceed 250m^2

• Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Kangaroo Island Subzone • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	5. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 6. Does not involve- excavation exceeding a vertical height of 1m; or filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 10. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 10. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 11. Does not involve the clearance of native vegetation
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. Does not involve the clearance of native vegetation 9. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. No part of the system: (a) is more than 4m in height (measured as a height above the natural surface of the ground); (b) is within 100m of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10m of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation. 6. Does not involve the clearance of native vegetation.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature) 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 30m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Commercial forestry within the Kangaroo Island Subzone	None specified
Land Division creating additional allotments for sensitive use or sensitive receiver purposes within the Significant Interface Management Overlay	None specified
Land Division within the Limited Land Division Overlay	Any of the following: (a) land division that is a boundary realignment

	(b) land division that is creating an additional allotment to accommodate an existing dwelling within the **Dwelling Excision Overlay**.
Renewable energy facility within the Significant Landscape Protection Overlay or Character Preservation District Overlay	Any of the following: (a) solar photovoltaic panels (roof or ground mounted) (b) battery storage facility For domestic use (i.e., principally used to supply and/or store electricity to the existing use of land)
Shop	Any of the following: (a) shop that is ancillary to and located on an allotment used for primary production and / or rural based industries and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or adjacent allotments (b) shop that has a gross leasable floor area less than 1000m^2 (c) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) ancillary accommodation (e) carport (f) deck (g) dwelling (h) dwelling addition (i) farming (j) fence (k) horse keeping (l) internal building works (m) land division (n) outbuilding (o) pergola (p) private bushfire shelter (q) protective tree netting structure (r) replacement building (s) retaining wall (t) shade sail (u) solar photovoltaic panels (roof mounted) (v) swimming pool or spa pool and associated swimming pool safety features (w) temporary accommodation in an area affected by bushfire (x) tree damaging activity (y) verandah (z) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) industry (b) store (c) warehouse.	Except development that exceeds the total floor area limit expressed in Rural Zone DTS/DPF 4.1(c) or does not satisfy Rural Zone DTS/DPF 4.3.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Function venue.	Except function venue that does not satisfy any of the following: 1. Rural Zone DTS/DPF 6.5(b) 2. Rural Zone DTS/DPF 6.6.
6. Horticulture.	Except horticulture that does not satisfy any of the following: 1. Rural Zone DTS/DPF 3.1(d) 2. Rural Zone DTS/DPF 3.1(e) 3. Rural Zone DTS/DPF 3.1(f).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Shop.	Except shop that exceeds the gross leasable floor area limit expressed in Rural Zone DTS/DPF 6.1(c) or does not satisfy Rural Zone DTS/DPF 6.2.
9. Tourist accommodation.	Except tourist accommodation that does not satisfy any of the following: 1. Rural Zone DTS/DPF 6.3(b) 2. Rural Zone DTS/DPF 6.4.
Placement of Notices - Exemptions for Performance Assessed Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Rural Zone.	
Placement of Notices - Exemptions for Restricted Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Rural Zone.	

Kangaroo Island Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Primary production and associated uses that support and conserve the Island's economically, scenically and culturally important natural and rural landscapes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land use intensity restrained to conserve and enhance the natural and rural character.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development in the form of the following not undertaken: (a) commercial forestry (b) large scale industry, storage, distribution, warehousing (c) biodiversity planting, except where reasonably required, without compromising the land for farming and horticultural use.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development carefully sited and designed to: (a) complement rural or natural character (b) minimise disruption to natural landform and integrate existing natural environmental features including, particularly, native vegetation (c) minimise impacts on wildlife habitat (d) be low-scale (e) be visually unobtrusive and blend in with the surrounding area (f) be located below ridge lines.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings and structures limited to those that: (a) are ancillary, adjacent to and of the same or lesser scale as existing buildings (b) are used for the ancillary sale of produce associated with primary production (c) are in the form of high quality nature-based tourist accommodation (d) are for rainwater storage (e) are for research or education purposes (f) support conservation or the interpretation of the environment or cultural features.	DTS/DPF 2.2 None are applicable.
Landscaping	
PO 3.1 Landscaping comprises locally indigenous species to enhance landscape quality and habitat restoration.	DTS/DPF 3.1 Landscaping plantings exclusively constitute locally indigenous plant species.
Earthworks	
PO 4.1 Excavation and filling of land is limited to that required to reduce the visual prominence of buildings and make provision for water storage facilities to maintain natural landforms and landscapes.	DTS/DPF 4.1 Excavation and/or filling is associated with a building or water storage facility and satisfies all of the following: (a) does not involve excavation exceeding a vertical height of 750mm; (b) does not involve filling exceeding a vertical height of 750mm (c) does not involve a total combined excavation and filling vertical height of 1.5m (d) scree slopes are covered in topsoil and landscaped.

Rural Aquaculture Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Facilities and infrastructure that support marine-based aquaculture farms and on-land aquaculture in a manner that protects the environment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A range of development supports aquaculture and value-adding activities including: (a) aquaculture hatcheries and grow-out facilities (b) infrastructure works and services (c) industry, cleaning, washing, processing and packaging activities (d) indoor and outdoor storage and warehousing.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Aquaculture (c) Demolition (d) Detached dwelling (e) Dwelling addition (f) Outbuilding (g) Small-scale ground mounted solar power facility (h) Verandah
Siting and Design	
PO 2.1 Development is provided with suitable vehicle access.	DTS/DPF 2.1 Development is serviced by an all-weather public road.
PO 2.2 Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.	DTS/DPF 2.2 New buildings: (a) are sited on land with a slope not greater than 10% (1-in-10) and (b) do not result in excavation and filling of land that is greater than 1.5m from natural ground level.
Dwellings	
PO 3.1 Residential development is ancillary to, and does not compromise, aquaculture.	DTS/DPF 3.1 Dwellings: (a) are located on an allotment which has a demonstrated connection with aquaculture and (b) will not result in more than one dwelling on an allotment.
Offices and Shop	
PO 4.1 Offices and/or shops are directly related to an aquaculture activity.	DTS/DPF 4.1 Offices and/or shops are ancillary to and located on the same allotment as an aquaculture activity.
Tourist Development	
PO 5.1 Tourism development and visitor amenities are associated with an existing aquaculture activity.	DTS/DPF 5.1 Tourist development: (a) is ancillary to and located on the same allotment as an aquaculture activity and (b) does not involve tourist accommodation facilities.

Renewable Energy Facilities	
PO 6.1 Small-scale ground-mounted solar power facilities support rural production or value-adding industries.	DTS/DPF 6.1 None are applicable.
Environment and Amenity	
PO 7.1 Development is sited and designed to minimise visual and off-site nuisance impacts on the surrounding environment.	DTS/DPF 7.1 A landscaped buffer: (a) is provided around all boundaries of the allotment and (b) is at least 30m in width.
PO 7.2 External storage areas associated with an aquaculture activity are located and of a size that does not impair the character of the coastline or the visual amenity of the landscape.	DTS/DPF 7.2 Storage areas satisfy all of the following: (a) are set back behind the front facade of buildings that exist on the allotment (b) are sited at least 20m from a side or rear allotment boundary (c) incorporate a landscaped buffer at least 3m in width around the perimeter of the storage area.
PO 7.3 Wash-down areas associated with an aquaculture activity are located and operated in a manner that avoids adverse impacts on the environment and sensitive receivers.	DTS/DPF 7.3 Wash-down areas satisfy all of the following: (a) are set back behind the front facade of buildings existing on the allotment (b) are constructed with a hard impervious surface (c) are sited at least 20m from a side or rear allotment boundary (d) incorporate a screen to prevent 'splash-out' or 'over-spray' of water beyond the perimeter of the wash-down area.
PO 7.4 Buildings, structures and plant are sited and designed to minimise their visual impact on the landscape.	DTS/DPF 7.4 Buildings, structures and plant satisfy all of the following: (a) are set back at least 20m from the front road boundary (b) have a maximum height of 8m (c) do not result in a site coverage greater than 60%.
Land Division	
PO 8.1 Land division, including boundary realignments, promotes productive, efficient and sustainable aquaculture.	DTS/DPF 8.1 Allotments have an area not less than 1ha.
PO 8.2 Allotment boundaries, including by realignment, are positioned to incorporate sufficient space around existing residential, tourist accommodation and other habitable buildings (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) to: (a) maintain a pleasant rural character and amenity for occupants (b) manage vegetation within the same allotment to mitigate bushfire hazard.	DTS/DPF 8.2 Allotment boundaries are located no closer to an existing residential, tourist accommodation or other habitable building than the greater of the following: (a) 40m or (b) the distance required to accommodate an asset protection zone wholly within the relevant allotment.
Outbuildings, Carports and Verandahs	
PO 9.1 Outbuildings are sited, designed and of a scale that maintain a pleasant rural character and amenity.	DTS/DPF 9.1 Outbuildings satisfy all of the following: (a) have a primary street setback that is at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 120m^2 (c) do not exceed 5m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 6m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour. (f) are limited to no more than 2 outbuildings on the same allotment.
PO 9.2 Carports and verandahs are sited, designed and of a scale that maintain a pleasant rural character and amenity.	DTS/DPF 9.2 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m measured from natural ground level (e) if clad in sheet metal, the cladding is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 10.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 10.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds 2m^2 per side.
Concept Plans	
PO 11.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 11.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 11.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 11.1 is met

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land	

Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 10. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 10. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 11. Does not involve the clearance of native vegetation 12. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. Does not involve the clearance of native vegetation 9. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. No part of the system: (a) is more than 4m in height (measured as a height above the natural surface of the ground); (b) is within 100m of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10m of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation. 6. Does not involve the clearance of native vegetation.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) carport (d) deck (e) dwelling addition (f) fence (g) internal building works (h) land division (i) outbuilding (j) pergola (k) private bushfire shelter (l) replacement building (m) retaining wall (n) shade sail (o) solar photovoltaic panels (roof mounted) (p) swimming pool or spa pool and associated swimming pool safety features (q) temporary accommodation in an area affected by bushfire (r) tree damaging activity (s) verandah (t) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Rural Aquaculture Zone.	
Placement of Notices - Exemptions for Restricted Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Rural Aquaculture Zone.	

Rural Horticulture Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Intensive agriculture in the form of horticulture and associated value-adding enterprises and activities.
DO 2	The establishment of appropriately scaled industries for washing, processing, bottling and packaging primary produce and servicing and supporting horticulture.
DO 3	Manage interface conflict between horticulture and other land uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The productive value of horticultural land for a range of agricultural, intensive horticultural activities and associated value adding, processing, warehousing and distribution activities is supported, protected and maintained. The proliferation of other land uses that may be sensitive to those activities is avoided.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Brewery (d) Carport (e) Cidery (f) Distillery (g) Dwelling (h) Dwelling addition (i) Horse keeping (j) Horticulture (k) Industry (l) Low intensity animal husbandry (m) Outbuilding (n) Shop (o) Small-scale ground mounted solar power facility (p) Tourist accommodation (q) Transport distribution (r) Verandah (s) Warehouse (t) Winery (u) Workers' accommodation
Siting and Design	
PO 2.1 Development is provided with suitable vehicle access.	DTS/DPF 2.1 Development is serviced by an all-weather public road.
PO 2.2 Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.	DTS/DPF 2.2 Buildings: (a) are sited on land with a slope not greater than 10% (1-in-10) and (b) do not result in excavation and filling of land greater than 1.5m from natural ground level.
Horticulture	
PO 3.1 Horticulture is located and conducted on land that has the physical capability of supporting the activity in a sustainable manner that: (a) enhances the productivity of the land for the growing of food and produce (b) avoids adverse interface conflicts with other land uses (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality.	DTS/DPF 3.1 Horticultural activities satisfy all of the following: (a) are conducted on an allotment with an area of at least 1ha (b) are sited on land with a slope not greater than 10% (1-in-10) (c) are not conducted within 50m of a watercourse or native vegetation (d) are not conducted within 100m of a sensitive receiver in other ownership (e) provide for a headland area between plantings and property boundaries of at least 10m in width (f) where in the form of olive growing, are not located within 500m of a conservation or national park.
Rural Industry	
PO 4.1 Small-scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities provide opportunities for diversification and value adding to locally sourced primary production activities.	DTS/DPF 4.1 Industries, storage, warehousing, produce grading and packing and transport distribution activities and similar activities (or any combination thereof) satisfy all of the following: (a) are directly related and ancillary to a primary production use on the same or adjoining allotment (b) are located on an allotment not less than 2ha in area (c) have a total floor area not exceeding 350m^2.
PO 4.2 Expansion of established small-scale or new large scale industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, produce grading and packing, transport distribution or similar activities: (a) are commensurate with the allotment on which it is situated to mitigate adverse impacts on the amenity of land in other ownership and the character of the locality (b) realise efficiencies in primary production related storage, sorting, packaging, manufacturing and the like (c) primarily involve primary production commodities sourced from the same allotment and /or surrounding rural areas.	DTS/DPF 4.2 None are applicable.
PO 4.3 Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that maintains rural function and character in a manner that respects landscape amenity.	DTS/DPF 4.3 Buildings and associated activities satisfy all of the following: (a) are setback at least 50m from all road and allotment boundaries (b) are not sited within 100m of a sensitive receiver in other ownership (c) have a building height not greater than 10m above natural ground level (d) incorporate the loading and unloading of vehicles within the confines of the allotment.
Dwellings	
PO 5.1 Dwellings provide a convenient base for landowners to conduct and manage commercial scale primary production and rural related value adding activities without compromising the use of the allotment, adjacent land or long term purpose of the zone for primary production or related tourism values due to a proliferation of dwellings.	DTS/DPF 5.1 Dwellings: (a) are located on an allotment with an area not less than: **Minimum Dwelling Allotment Size** Minimum dwelling allotment size is 10 ha Minimum dwelling allotment size is 40 ha Minimum dwelling allotment size is 8 ha Minimum dwelling allotment size is 100 ha (b) are located on an allotment used for and is ancillary to primary production and/or primary production related value-adding activities (c) will not result in more than one dwelling on an allotment. In relation to DTS/DPF 5.1, in instances where: (d) more than one value is returned for DTS/DPF 5.1(a), refer to the *Minimum Dwelling Allotment Size Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (e) no value is returned for DTS/DPF 5.1(a) (i.e. there is a blank field), then there is no minimum dwelling allotment size applicable and DTS/DPF 5.1(a) is met.
PO 5.2 Dwellings are sited, designed and are of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 5.2 Dwellings satisfy all of the following: (a) are set back from all allotment boundaries by at least 40m (b) do not exceed 2 building levels and 9m from the top of the footings (c) have a wall height that is no greater than 6m.
PO 5.3 Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 5.3 Additions or alterations to an existing dwelling satisfy all of the following: (a) are set back behind the main façade of the existing dwelling (b) do not exceed 2 building levels and 9m measured from the top of the footings (c) have a wall height no greater than 6m.
Shops and Tourist Accommodation	
PO 6.1 Shops are associated with primary production or primary production related value-adding industry to support diversification of employment, provide services to visitors and showcase local and regional products.	DTS/DPF 6.1 Shops satisfy all of the following: (a) are ancillary to and located on the same allotment or adjoining allotment used for primary production or primary production related value-adding

	industries (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or adjoining allotments (c) have a gross leasable floor area not exceeding 100m^2 or 250m^2 in the case of a cellar door (d) have an area for the display of produce or goods external to a building not exceeding 25m^2.
PO 6.2 Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.	DTS/DPF 6.2 Shops in new buildings satisfy all of the following: (a) are set back from all property boundaries by at least 20m (b) are not sited within 100m of a sensitive receiver in other ownership (c) have a building height that does not exceed 9m above natural ground level.
PO 6.3 Tourist accommodation: (a) is associated with the primary use of the land for primary production or primary production related value-adding industry to enhance and provide authentic visitor experiences (b) makes use of, re-uses and adapts existing buildings (c) maintains a pleasant rural character and amenity.	DTS/DPF 6.3 Tourist accommodation satisfies all of the following: (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industries (b) reuses and adapts an existing building (c) does not result in more than one facility being located on the same allotment.
Offices	
PO 7.1 Offices are directly related to and associated with the primary use of the land for primary production or primary production related value adding industry.	DTS/DPF 7.1 Offices: (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or primary production related value adding industry and (b) have a gross leasable floor area not exceeding 100m^2.
Adaptive Reuse of Existing Buildings	
PO 8.1 Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.	DTS/DPF 8.1 Development within an existing building is for any of the following: (a) a shop (b) office (c) tourist accommodation.
Workers' accommodation	
PO 9.1 Workers' accommodation provides short-term accommodation for persons temporarily engaged in the production, management or processing of primary produce.	DTS/DPF 9.1 Workers' accommodation satisfies all of the following: (a) is developed on a site at least 2ha in area (b) has a total floor area not exceeding 250m^2 (c) is in the form of a single building or part of a cluster of buildings that are physically connected (d) accommodates not more than 20 persons at any one time (e) is set back at least 50m from a road boundary (f) is set back at least 40m from a side or rear allotment boundary (g) is located within 20m of an existing dwelling on the same allotment (h) does not result in more than one facility being located on the same allotment.
Renewable Energy Facilities	
PO 10.1 Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.	DTS/DPF 10.1 None are applicable.
PO 10.2 Small-scale ground-mounted solar power facilities support rural production or value adding industries.	DTS/DPF 10.2 None are applicable.
Built Form and Character	
PO 11.1 Large buildings are designed and sited to reduce impacts on scenic and rural vistas by: (a) having substantial setbacks from boundaries and adjacent public roads (b) using low-reflective materials and finishes that blend with the surrounding landscape (c) being located below ridgelines.	DTS/DPF 11.1 None are applicable.
Land Division	
PO 12.1 Land division, including boundary realignments, promotes productive, efficient and sustainable horticulture by establishing allotments that are of sufficient dimension and area to support these outcomes and the intended use of the land for primary production.	DTS/DPF 12.1 Allotments have an area not less than: **Minimum Site Area** Minimum site area is 10 ha Minimum site area is 100 ha Minimum site area is 15 ha Minimum site area is 2 ha Minimum site area is 4 ha Minimum site area is 8 ha In relation to DTS/DPF 12.1, in instances where: (a) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) no value is returned (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 12.2 Allotment boundaries, including by realignment, are positioned to incorporate sufficient space around existing residential, tourist accommodation and other habitable buildings (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) to: (a) maintain a pleasant rural character and amenity for occupants (b) manage vegetation within the same allotment to mitigate bushfire hazard.	DTS/DPF 12.2 Allotment boundaries are located no closer to an existing residential, tourist accommodation or other habitable building than the greater of the following: (a) 40m or (b) the distance required to accommodate an asset protection zone wholly within the relevant allotment.
Agricultural Buildings	
PO 13.1 Agricultural buildings and associated activities are sited, designed and of a scale that maintains a pleasant rural character and function.	DTS/DPF 13.1 Agricultural buildings satisfy all of the following: (a) are located on an allotment having an area of at least 1ha (b) are set back at least 40m from an allotment boundary (c) have a building height not exceeding 10m above natural ground level (d) do not exceed 200m^2 in total floor area (e) incorporate the loading and unloading of vehicles within the confines of the allotment.
Outbuildings, Carports and Verandahs	
PO 14.1 Outbuildings are sited, designed and of a scale that maintain a pleasant rural character and amenity.	DTS/DPF 14.1 Outbuildings satisfy all of the following: (a) have a primary street setback that is at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 120m^2 (c) do not exceed 5m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 6m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (f) will not result in more than 2 outbuildings on the same allotment.
PO 14.2 Carports and verandahs are sited, designed and of a scale to maintain a pleasant rural character and amenity.	DTS/DPF 14.2 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary

	(b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 15.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 15.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds 2m^2 per side.
Concept Plans	
PO 16.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 16.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 14 - Buckland Park Concept Plan 21 - Virginia Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 99 - Two Wells In relation to DTS/DPF 16.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 16.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour 10. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access

	(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 10. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 11. Does not involve the clearance of native vegetation 12. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling 10. No part of the protective tree netting structure will be in the '1956 River Murray Flood Plain.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. Does not involve the clearance of native vegetation 9. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. No part of the system: (a) is more than 4 metres in height (measured as a height above the natural surface of the ground); (b) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation. 6. Does not involve the clearance of native vegetation
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop that is ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or adjoining allotments (b) shop that has a gross leasable floor area less than 1000m^2 (c) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) ancillary accommodation (d) air handling unit, air conditioning system or exhaust fan (e) carport (f) deck (g) dwelling (h) dwelling addition (i) farming (j) fence (k) horse keeping (l) internal building works (m) land division (n) outbuilding (o) pergola (p) private bushfire shelter (q) protective tree netting structure (r) replacement building (s) retaining wall (t) shade sail (u) solar photovoltaic panels (roof mounted) (v) swimming pool or spa pool and associated swimming pool safety features (w) temporary accommodation in an area affected by bushfire (x) temporary public service depot (y) tree-damaging activity (z) verandah (aa) water tank.	None specified.
3. Any development involving any of the following (or of any combination of any of the following): (a) industry (b) store (c) warehouse.	Except development that exceeds the total floor area limit expressed in Rural Horticulture Zone DTS/DPF 4.1(c) or does not satisfy Rural Horticulture Zone DTS/DPF 4.3.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Horticulture.	Except horticulture that does not satisfy any of the following: 1. Rural Horticulture Zone DTS/DPF 3.1(d) 2. Rural Horticulture Zone DTS/DPF 3.1(e).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
7. Shop.	Except shop that exceeds the gross leasable floor area limit expressed in Rural Horticulture Zone DTS/DPF 6.1(c) or does not satisfy Rural Horticulture Zone DTS/DPF 6.2.
8. Tourist accommodation.	Except tourist accommodation that does not satisfy Rural Horticulture Zone DTS/DPF 6.3.

Placement of Notices - Exemptions for Performance Assessed Development
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Rural Horticulture Zone.

Placement of Notices - Exemptions for Restricted Development
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Rural Horticulture Zone.

Windamere Park Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development primarily involving the provision of disability services in a rural setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development involving the provision of disability services including training facilities, allied health services, administrative facilities, and accommodation for disability clients and their families.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Community facilities (b) Consulting room (c) Dwelling (d) Supported accommodation (e) Temporary accommodation.
PO 1.2 Farming activities in association with disability services undertaken in a manner that is compatible with on-site accommodation.	DTS/DPF 1.2 None are applicable.
Built Form and Siting	
PO 2.1 Development is sited and designed to maintain a primarily open rural setting.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings associated with the provision of disability services are sited in a cluster to provide easy access for clients and families.	DTS/DPF 2.2 None are applicable.

Rural Intensive Enterprise Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Multi-purpose intensive agricultural production, processing facilities and supporting ancillary industries that are important economic and employment assets to the state.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The productive value of land for a range of intensive rural activities (such as intensive animal husbandry) and associated value-adding processing; processing of animal and food products (including stock slaughter works); washing and packing of produce; bulk commodity storage; feed and hay processing; and storage, warehousing and distribution activities are supported, protected and maintained. The proliferation of land uses that may be sensitive to those activities is avoided.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Agricultural building (c) Intensive animal husbandry (d) Industry (e) Small-scale ground mounted solar power facility (f) Stock sales yard (g) Stock slaughter works (h) Transport distribution (i) Warehouse
PO 1.2 Telecommunication facilities are located to mitigate impacts on visual amenity on residential areas and maintain a pleasant rural character.	DTS/DPF 1.2 Telecommunications facility in the form of a monopole and satisfies all of the following: (a) up to a height of 30m (b) no closer than 100m from neighbourhood-type zones (c) no closer than 50m to a dwelling or tourist accommodation on land in other ownership.
Siting and Design	
PO 2.1 Development is provided with suitable vehicle access.	DTS/DPF 2.1 Development is serviced by an all-weather public road.
PO 2.2 Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.	DTS/DPF 2.2 Buildings: (a) are sited on land with a slope not greater than 10% (1-in-10) and (b) do not result in excavation and filling of land that is greater than 1.5m from natural ground level.
Dwellings	
PO 3.1 Residential development is not supported to protect the long-term continuation of intensive rural industries and activities.	DTS/DPF 3.1 Dwelling is in the form of: (a) the replacement of an existing habitable dwelling on the same allotment or (b) a manager's residence.
Land Division	
PO 4.1 Land division for the purposes of primary production, including boundary realignments, promotes productive, efficient and sustainable intensive rural activities.	DTS/DPF 4.1 Allotments have an area not less than: **Minimum Site Area** Minimum site area is 100 ha Minimum site area is 40 ha Minimum site area is 5,000 sqm In relation to DTS/DPF 4.1, in instances where: (a) more than one value is returned int he same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) no value is returned (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 4.2 Land division accommodates an allied food industry (value adding) activity associated with primary production, including stock slaughter works.	DTS/DPF 4.2 None are applicable.

PO 4.3 Allotment boundaries, including by realignment, are positioned to incorporate sufficient space around existing residential, tourist accommodation and other habitable buildings (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) to: (a) maintain a pleasant rural character and amenity for occupants (b) manage vegetation within the same allotment to mitigate bushfire hazard.	DTS/DPF 4.3 Allotment boundaries are located no closer to an existing residential, tourist accommodation or other habitable building than the greater of the following: (a) 40m or (b) the distance required to accommodate an asset protection zone wholly within the relevant allotment.
Agricultural Buildings	
PO 5.1 Agricultural buildings are developed to support animal keeping, processing, storage and distribution activities.	DTS/DPF 5.1 Agricultural buildings satisfy all of the following: (a) are located on an allotment having an area of at least 20 hectares (b) are set back at least 40m from an allotment boundary (c) do not result in having a height more than 10m above natural ground level (d) do not exceed 500m^2 in floor area (e) incorporate the loading and unloading of vehicles utilising the building entirely upon the site.
Outbuildings, Carports and Verandahs	
PO 6.1 Outbuildings are sited, designed and of a scale that maintain a pleasant rural character and amenity.	DTS/DPF 6.1 Outbuildings satisfy all of the following: (a) have a primary street setback that is at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 120m^2 (c) do not exceed 5m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 6m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (f) are limited to no more than 2 outbuildings on the same allotment.
PO 6.2 Carports and verandahs are sited, designed and of a scale that maintain a pleasant rural character and amenity.	DTS/DPF 6.2 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m measured from natural ground level (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 7.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 7.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds 2m^2 per side.
Concept Plans	
PO 8.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 8.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 8.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met.
Rural Industry	
PO 9.1 Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that minimises the potential for adverse impact on adjoining activities.	DTS/DPF 9.1 None are applicable

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average

	(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 10. Does not involve the clearance of native vegetation.
Farming Except where any of the following apply: • Building Near Airfields Overlay • Marine Parks (Managed Use) Overlay • Marine Parks (Restricted Use) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • Water Protection Area Overlay	1. There is no excavation or filling of land 2. Does not involve the erection, construction or alteration of, or addition to, any building or structure 3. Does not involve the clearance of native vegetation 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 9. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 10. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 11. Does not involve the clearance of native vegetation 12. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 8. Does not involve the clearance of native vegetation 9. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The system is freestanding and not attached to a building or other structure. 3. No part of the system: (a) is more than 4m in height (measured as a height above the natural surface of the ground); (b) is within 100m of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10m of a boundary of an allotment containing a dwelling not associated with the system. 4. The generating capacity of the system does not exceed 30 kW 5. Does not result in the clearance of any native vegetation. 6. Does not involve the clearance of native vegetation.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) agricultural building (c) air handling unit, air conditioning system or exhaust fan (d) carport (e) deck (f) dwelling (g) dwelling addition (h) farming (i) fence (j) horse keeping (k) internal building works (l) land division (m) outbuilding (n) pergola (o) private bushfire shelter (p) renewable energy facility (q) replacement building (r) retaining wall (s) shade sail (t) swimming pool or spa pool and associated swimming pool safety features (u) temporary accommodation in an area affected by bushfire (v) verandah (w) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.
5. Telecommunications facility.	Except telecommunications facility that does not satisfy Rural Intensive Enterprise Zone DTS/DPF 1.2.
Placement of Notices - Exemptions for Performance Assessed Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 107(3)(a)(ii) of the *Planning, Development and Infrastructure Act 2016* does not apply in the Rural Intensive Enterprise Zone.	
Placement of Notices - Exemptions for Restricted Development	
Pursuant to regulation 47(6)(c) of the Planning, Development and Infrastructure (General) Regulations 2017, the requirement to place a notice on the relevant land under section 110(2)(a)(iv) of *the Planning, Development and Infrastructure Act 2016* does not apply in the Rural Intensive Enterprise Zone.	

Rural Living Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A spacious and secluded residential lifestyle within semi-rural or semi-natural environments, providing opportunities for a range of low-intensity rural activities and home-based business activities that complement that lifestyle choice.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development with complementary ancillary non-residential uses that do not place additional demands on services and infrastructure, and compatible with a secluded semi-rural or semi-natural residential character.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Agricultural Buildings (b) Animal Keeping (c) Carport (d) Consulting room (e) Detached dwelling (f) Dwelling addition

	(g) Farming (h) Horse keeping (i) Kennel (j) Light industry (k) Office (l) Outbuilding (m) Shelter/Stable (n) Shop (o) Verandah
PO 1.2 Animal keeping and horse keeping is of a scale that is ancillary to and in association with the residential use of the land.	DTS/DPF 1.2 The keeping of animals satisfies all of the following: (a) is ancillary to a dwelling located on the same allotment (b) takes place on an allotment with an area of at least 1ha (c) for horse keeping, is limited to not more than 2 horses per allotment.
PO 1.3 Horse keeping is undertaken only if the horses are accommodated within a stable or shelter with supplementary feeding to maintain pasture cover.	DTS/DPF 1.3 Horse keeping includes the provision of: (a) stabling or similar sheltering and (b) a grazing area of at least 0.5ha.
PO 1.4 Non-residential development complements the semi-rural or semi-natural residential character and amenity and: (a) is ancillary to a dwelling erected on the same allotment (b) avoids interface conflicts with other land uses.	DTS/DPF 1.4 Non-residential business activities located on the same allotment and in conjunction with a dwelling where one of the following is satisfied: (a) shop, consulting room or office (or any combination thereof) where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) light industry where the combined (exiting and proposed) total floor area on the allotment used for such purposes does not exceed 100m^2.
PO 1.5 Non-residential development sited and designed to complement the semi-rural or semi-natural residential character and amenity.	DTS/DPF 1.5 None are applicable.
Built Form and Character	
PO 2.1 Dwellings are sufficiently separated from site boundaries and of a scale that reinforces the semi-rural or semi-natural character and amenity.	DTS/DPF 2.1 Dwellings satisfy all of the following: (a) are setback as follows: (i) for allotments with an area of 1ha or more - at least 20m from all boundaries (ii) for allotments with an area less than 1ha: A. 20m from the primary street and rear boundaries B. 10m from side and secondary street boundaries (b) have a building height that is no greater than 2 building levels and 9m (c) have a wall height is no greater than 6m.
PO 2.2 Non-residential buildings are designed and sited to minimise visual impact on the surrounding locality by: (a) having substantial setbacks from boundaries and adjacent public roads (b) using low-reflective materials and finishes that blend with the surrounding landscape (c) being located below ridgelines.	DTS/DPF 2.2 Non-residential buildings and structures satisfy all of the following: (a) do not exceed 100m^2 in total floor area (b) are set back from all allotment boundaries by at least 25m (c) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (d) have a building height that is no greater than 1 building level and 6m (e) have a wall height is no greater than 3m.
PO 2.3 Buildings, structures and associated facilities for the keeping of animals are sited, designed and of a scale and appearance that reinforces the semi-rural or semi-natural character and amenity.	DTS/DPF 2.3 Kennels, stables, shelters and associated yards satisfy all of the following: (a) are set back from all allotment boundaries by at least 25m (b) have a building height that is no greater than 5m above natural ground level (c) do not exceed a combined total floor area of 100m^2 (d) do not comprise more than 10% of the area of the allotment.
PO 2.4 Dwelling additions are sited, designed and of a scale that reinforces the semi-rural or semi-natural character and amenity.	DTS/DPF 2.4 Additions or alterations to an existing dwelling satisfy all of the following: (a) are set back behind the main façade of the existing dwelling (b) have a building height that is no greater than 2 building levels and 9m (c) have a wall height no greater than 6m.
PO 2.5 Outbuildings and agricultural buildings are sited, designed and of a scale that reinforces the semi-rural or semi-natural character and amenity.	DTS/DPF 2.5 Outbuildings and agricultural buildings satisfy all of the following: (a) have a primary street setback that is behind the building to which it is ancillary (b) have a combined total floor area that does not exceed: (i) for allotment with an area of 1ha or more - 200m^2 (ii) for allotment with an area less than 1ha - 150m^2 (c) do not exceed 4m in wall height measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m (e) if clad in sheet metal, it is pre-colour treated or painted in a non-reflective colour (f) are limited to no more than a combination of 2 outbuildings and/or agricultural buildings on the same allotment.
PO 2.6 Carports and verandahs are sited, designed and of a scale that reinforces the semi-rural or semi-natural character and amenity.	DTS/DPF 2.6 Carports and verandahs satisfy all of the following: (a) are set back from the primary street at least as far back as the building to which it is ancillary (b) have a total floor area that does not exceed 80m^2 (c) have a post height that does not exceed 3m measured from natural ground level (not including a gable end) (d) have a total roof height that does not exceed 5m (e) if clad in sheet metal, the cladding is pre-colour treated or painted in a non-reflective colour.
Site Dimensions and Land Division	
PO 3.1 Allotments/sites created for semi-rural residential purposes are consistent with the density expressed in any relevant *Minimum Site Area Technical and Numeric Variation* or are of suitable size and dimension to contribute to the existing semi-rural pattern of development consistent to the locality and suitable for their intended use.	DTS/DPF 3.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites have: (a) an area not less than: **Minimum Site Area** Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm Minimum site area is 1 ha Minimum site area is 10 ha Minimum site area is 100 ha Minimum site area is 1,200 sqm Minimum site area is 1.2 ha Minimum site area is 12 ha Minimum site area is 1,500 sqm Minimum site area is 1.5 ha Minimum site area is 15 ha Minimum site area is 1.7 ha Minimum site area is 2,000 sqm

	Minimum Site Area
	Minimum site area is 2 ha
	Minimum site area is 20 ha
	Minimum site area is 2,500 sqm
	Minimum site area is 2.5 ha
	Minimum site area is 3,000 sqm
	Minimum site area is 3 ha
	Minimum site area is 4,000 sqm
	Minimum site area is 4 ha
	Minimum site area is 40 ha
	Minimum site area is 5,000 sqm
	Minimum site area is 5 ha
	Minimum site area is 6 ha
	Minimum site area is 7,000 sqm
	Minimum site area is 7 ha
	Minimum site area is 7,500 sqm
	Minimum site area is 8,000 sqm

(b) a frontage to a public road not less than 50m or, in the case of a battle-axe allotment, a frontage to a public road not less than 6m and a maximum driveway 'handle' length of no more than 40m.

In relation to DTS/DPF 3.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) no value is returned for DTS/DPF 3.1(a) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

Concept Plans

PO 4.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 4.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 21 - Virginia
Concept Plan 71 - Hamley Bridge
Concept Plan 50 - Roseworthy Town Expansion
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 80 - Murray Bridge
Concept Plan 88 - Swanport
Concept Plan 99 - Two Wells
Concept Plan 98 - Mallala
Concept Plan 96 - Maslin Beach
Concept Plan 103 - Cockatoo Valley
Concept Plan 101 - Evanston Gardens, Evanston South, Hillier
Concept Plan 100 - Gawler East

In relation to DTS/DPF 4.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.

(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 4.1 is met.

Advertisements

PO 5.1

Advertisements identify the associated business activity, and do not detract from the residential character of the locality.

DTS/DPF 5.1

Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure

	10. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) in not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 11. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 12. Does not involve the clearance of native vegetation
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 80m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road , and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 12. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour. 13. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 14. Does not involve the clearance of native vegetation. 15. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

• Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted; 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 80m^2 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment 9. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 30m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop that has a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) agricultural building (b) ancillary accommodation (c) detached dwelling (d) dwelling addition (e) protective tree netting structure (f) temporary public service depot.	Except development that exceeds the maximum building height specified in Rural Living Zone DTS/DPF 2.1(b).
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) farming (e) fence (f) internal building works (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire	None specified.

(q) tree damaging activity (r) verandah (s) water tank.	
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that exceeds the maximum building height specified in Rural Living Zone DTS/DPF 2.1(b) or does not satisfy Rural Living Zone DTS/DPF 1.4.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Dog kennelling within the Animal Husbandry Subzone.	Except dog kennelling that does not satisfy Animal Husbandry Subzone DTS/DPF 1.2.
7. Horse keeping **not** within any of the following subzones: (a) Animal Husbandry Subzone (b) Intensive Horse Establishments Subzone	Except horse keeping that does not satisfy Rural Living Zone DTS/DPF 1.3.
8. Horse keeping within any of the following subzones: (a) Animal Husbandry Subzone (b) Intensive Horse Establishments Subzone.	None specified.
9. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Animal Husbandry Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Large-scale horse keeping and dog kennelling in association with detached dwellings on large allotments.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Horse keeping and dog kennelling are the predominant land use activity conducted in association with a residential use of the land.	DTS/DPF 1.1 The keeping of animals takes place where a dwelling is located on the same allotment.
PO 1.2 The number of dogs is limited to avoid adverse impact on adjacent sensitive receivers and to maintain the rural amenity of the locality.	DTS/DPF 1.2 The number of dogs kept on an allotment does not exceed 20.
PO 1.3 Horse keeping is managed so there is minimal adverse impact on sensitive receivers or the amenity of the rural landscape.	DTS/DPF 1.3 Horses are kept within a stable or shelter that satisfies all of the following: (a) has minimum dimension of 3.7m x 3.7m per horse (b) incorporates kick boards around the internal walls of the stable/shelter (c) has an enclosed day yard of at least 50m^2 per horse directly adjoining and accessible from the stable (d) is sited at least 50m from an allotment boundary.
PO 1.4 Kennels, stables, shelters and associated yards are sited, orientated and screened from adjoining dwellings and properties.	DTS/DPF 1.4 Buildings, structures and associated exercise facilities satisfy all of the following: (a) are set back from all allotment boundaries by at least 35m (b) have a building height that is no greater than 5m above natural ground level (c) do not exceed 150m^2 in area (d) do not comprise more than 25% of the area of the allotment (e) incorporate landscaping at least 1m in width around the perimeter of the allotment.

Intensive Horse Establishments Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The accommodation of a range of commercial horse-related activities primarily for the agistment of horses, their breeding, stabling and training in association with residential development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 The number of horses kept on an allotment and the manner in which they are kept is managed so as to avoid negative environmental effects on: (a) the locality from pollution, noise, light, dust or odour (b) the amenity of the rural landscape.	DTS/DPF 1.1 None are applicable.
PO 1.2 Horses kept at a density within the carrying capacity of the land.	DTS/DPF 1.2 None are applicable.
PO 1.3 Accommodation for staff or stable hands is provided in conjunction, and integrated, with a dwelling.	DTS/DPF 1.3 Accommodation facilities: (a) form part of an existing dwelling and (b) are sited on an allotment greater than 1ha in area

Rural Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing on large allotments in a spacious rural setting, often together with large outbuildings. Easy access and parking for cars. Considerable space for trees and other vegetation around buildings, as well as on-site wastewater treatment where necessary. Limited goods, services and facilities that enhance rather than compromise rural residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary ancillary non-residential uses compatible with a spacious and peaceful lifestyle for individual households.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Consulting room (d) Detached dwelling (e) Office (f) Outbuilding (g) Recreation area (h) Shop
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes.
PO 1.3 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.4 None are applicable.
Building Height	
PO 2.1 Buildings contribute to a low-rise residential character and complement the height of nearby buildings.	DTS/DPF 2.1 Building height (excluding garages, carports and outbuildings) is no greater than 2 building levels and 9m and wall height no greater than 7m (not including a gable end).
Primary Street Setback	
PO 3.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 8m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 8m For the purposes of **DTS/DPF 3.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 4.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 4.1 Buildings walls are set back at least 2m from the boundary of the allotment with the secondary street frontage.
Side Boundary Setback	
PO 5.1 Buildings are set back from side boundaries to allow maintenance and access around buildings and minimise impacts on adjoining properties.	DTS/DPF 5.1 Building walls are set back from the side boundaries at least 2m.
Rear Boundary Setback	
PO 6.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 6.1 Building walls are set back from the rear boundary at least 6m.
Ancillary Buildings and Structures	
PO 7.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 7.1 Ancillary buildings and structures satisfy (a) to (i), inclusive: (a) are ancillary to a dwelling erected on the site (b) have a floor area not exceeding (i) 100m^2 on sites less than 2000m^2 (ii) 120m^2 on sites 2000m^2 or more (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary (ii) within 2m of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (iii) within 2m of a side boundary (d) in the case of a garage or carport, have a primary street setback that is at least as far back as the dwelling (e) in the case of a garage or carport, do not exceed 10m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (f) have a wall height or post height not exceeding 4m above natural ground level (and not including a gable end) (g) have a roof height where no part of the roof is more than 5m above the natural ground level (h) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour

(i) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 7.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.

DTS/DPF 7.2

Ancillary buildings and structures do not result in:

(a) less private open space than specified in Design Table 1 - Private Open Space
(b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

PO 7.3

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 7.3

Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive:

(a) are ancillary and subordinate to an existing non-residential use on the same site
(b) have a floor area not exceeding the following:

Allotment size	Floor area
≤500m^2	60m^2
>500m^2	80m^2

(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the main building to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Site Dimensions and Land Division

PO 8.1

Allotments/sites created for residential purposes are consistent with the density and dimensions expressed in any relevant *Minimum Allotment Size Technical and Numeric Variation* or are of suitable size and dimension to contribute to a pattern of development consistent to the locality and suitable for their intended use.

DTS/DPF 8.1

Development will not result in more than 1 dwelling on an existing allotment

or

Allotments/sites for residential purposes accord with the following:

(a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System site areas (or allotment areas in the case of land division) are not less than:

Minimum Site Area
Minimum site area is 1,000 sqm
Minimum site area is 1 ha
Minimum site area is 100 ha
Minimum site area is 1,200 sqm
Minimum site area is 1,300 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1,800 sqm
Minimum site area is 2,000 sqm
Minimum site area is 2 ha
Minimum site area is 2,500 sqm
Minimum site area is 2,800 sqm
Minimum site area is 3,000 sqm
Minimum site area is 4,000 sqm
Minimum site area is 8,000 sqm

(b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service site areas are not less than the greater of:
  (i) 1200m^2
  (ii) the following:

Minimum Site Area
Minimum site area is 1,000 sqm
Minimum site area is 1 ha
Minimum site area is 100 ha
Minimum site area is 1,200 sqm
Minimum site area is 1,300 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1,800 sqm
Minimum site area is 2,000 sqm
Minimum site area is 2 ha
Minimum site area is 2,500 sqm
Minimum site area is 2,800 sqm
Minimum site area is 3,000 sqm
Minimum site area is 4,000 sqm
Minimum site area is 8,000 sqm

(c) site frontages are not less than 20m.

In relation to DTS/DPF 8.1, in instances where:

(d) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
(e) no value is returned for DTS/DPF 8.1(a) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy
(f) no value is returned for DTS/DPF 8.1(b)(ii) then the value for DTS/DPF 8.1(b)(ii) is zero.

Concept Plans

PO 9.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 9.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 18 - Playford North
Concept Plan 19 - Playford North Infrastructure
Concept Plan 77 - Infrastructure and Staging - Berri East

Description
Concept Plan 78 - Paringa North
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 88 - Swanport
Concept Plan 100 - Gawler East
Concept Plan 124 - Hackham
Concept Plan 143 - Stanley Flat

In relation to DTS/DPF 9.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.

(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Advertisements	
PO 10.1	DTS/DPF 10.1
Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 60m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 10m in width or 50% of the width of the allotment frontage (whichever lesser). 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation 14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 60m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) It will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11. If the outbuilding is a garage - door opening for vehicle access - does not exceed, in total, 10m in width or 50% of the width of the allotment frontage (whichever lesser) 12. if the building is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation 16. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20%

	>450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 60m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Land Division within the Bookmark Creek Subzone	Land division that creates allotments greater than 2 hectares in area.
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following):	Except development that does not satisfy Rural Neighbourhood Zone DTS/DPF 2.1.

(a) ancillary accommodation (b) detached dwelling (c) dwelling addition.	
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that does not satisfy any of the following: 1. Rural Neighbourhood Zone DTS/DPF 1.2 2. Rural Neighbourhood Zone DTS/DPF 2.1.
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Bookmark Creek Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Development does not compromise the quality of groundwater on site or water in Bookmark Creek and the River Murray.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Allotments/sites created for residential purposes pose a negligible or no risk to pollution of water resources.	DTS / DPF 1.1 Allotments/sites less than 2 hectares in area accord with the following: (a) are connected to a community wastewater management scheme or (b) are the subject to a legally binding agreement that requires subsequent development that generates wastewater to be connected to an on-site wastewater system that contains the wastewater and prevents it entering into surface water or groundwater.

Adelaide Hills Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Additional residential and tourist accommodation that retains and embraces the values of the established mature vegetation as a defining characteristic of the area.
DO 2	Land division is sympathetic to the allotment pattern and characteristics within the locality.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A limited additional range of accommodation options that complement the prevailing residential character.	DTS/DPF 1.1 Development comprises one or more of the land uses listed, in addition to those listed in Rural Neighbourhood Zone DTS 1.1: (a) Supported accommodation (b) Tourist accommodation.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are consistent with the established pattern of division surrounding the development site to maintain local character and amenity.	DTS/DPF 2.1 Development satisfies (a) or (b): (a) it will not result in more than 1 dwelling on an existing allotment (b) allotments/sites have an area the greater of the following (excluding the area within the access 'handle' if in the form of a battle-axe development): (i) $2000m^2$ (ii) the median allotment size of all residential allotments in the Adelaide Hills Subzone either wholly or partly within a radius of 200m measured from the centre of the main allotment frontage.
PO 2.2 Allotments/sites are sized and configured maximise the retention of mature vegetation to maintain landscape amenity.	DTS/DPF 2.2 None are applicable.

Rural Settlement Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A small mixed-use settlement supporting a limited range of residential development, tourist, recreation and community facilities grouped together to serve the local community and visitors.
DO 2	Development contributes to and enhances the local context and development pattern comprising the settlement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly low density residential development with complementary non-residential uses compatible with a low density residential character and the development pattern of the settlement.	DTS/DPF 1.1 Development comprises one or more of the following: (a) advertisement (b) carport (c) consulting room (d) detached dwelling (e) dwelling addition (f) light industry (g) office (h) outbuilding (i) shop (j) tourist accommodation (k) verandah (l) warehouse.
PO 1.2 Commercial activities improve community and visitor access to services are of a scale and type to maintain the settlement's residential amenity and character.	DTS/DPF 1.2 Non-residential commercial activities satisfy any one of the following: (a) shop, consulting room or office (or any combination thereof) located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) shop, consulting room or office (or any combination thereof) where the gross leasable floor area does not exceed 150m^2 (individually or combined, in a single building) (c) light industry, store or warehouse (or any combination thereof) where the total floor area of a building plus any outdoor space used for a light industry, store or warehouse (or any combination thereof) does not exceed 80m^2.
PO 1.3 Small-scale tourist accommodation that supports the visiting public and holiday makers.	DTS/DPF 1.3 None are applicable.
PO 1.4 Local service facilities and retail activities are grouped together or in close proximity to establish identifiable settlement service locations.	DTS/DPF 1.4 Non-residential development satisfies one of the following: (a) abuts a site containing an existing non-residential use with the same primary street frontage (b) is located on the same allotment and in conjunction with a dwelling.
Built Form and Character	
PO 2.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 2.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 8m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 8m For the purposes of **DTS/DPF 2.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 2.2 Buildings are set back from a secondary street boundary to maintain a consistent pattern of separation between building walls and public thoroughfares on corner sites within the settlement.	DTS/DPF 2.2 Building walls are no closer than 2.5 m to the secondary street boundary.
PO 2.3 Buildings (except for ancillary buildings and structures) are set back from rear boundaries to provide: (a) access to natural light and ventilation for neighbours (b) open space recreational opportunities (c) space for landscaping and vegetation.	DTS/DPF 2.3 Buildings walls (except for ancillary buildings and structures) are no closer to the rear boundary of the site than: (a) 4m for the ground floor of a building (b) 6m for the upper floor of a building.
PO 2.4 Buildings are set back from side boundaries to: (a) establish separation between buildings to complement the established character within a locality (b) provide access to natural light and ventilation for neighbours.	DTS/DPF 2.4 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
PO 2.5 Boundary walls are limited in height and length to mitigate adverse impacts on the amenity of adjoining land users, including through an unreasonable loss of natural light and ventilation.	DTS/DPF 2.5 For buildings that do not have a common wall, any wall sited on or abutting a side allotment boundary: (a) does not exceed 3m in wall height (b) does not exceed 11.5m in length (c) when combined with other walls on the boundary, does not exceed 45% of the length of the boundary; and (d) is set back at least 3m from any existing or proposed boundary walls.
Building Height	
PO 3.1 Buildings contributes to the prevailing character of the neighbourhood and complements the height of nearby buildings.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 8m

Maximum Building Height (Metres)
Maximum building height is 7.5m

Maximum Building Height (Levels)
Maximum building height is 2 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 3.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Site Dimensions and Land Division

PO 4.1

Allotments are of suitable size and dimension to contribute to a pattern of development that is consistent with the settlement.

DTS/DPF 4.1

Development will not result in more than 1 dwelling on an existing allotment

or

Allotments/sites for residential purposes accord with the following:

(a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System site areas (or allotment areas in the case of land division) are not less than:

Minimum Site Area
Minimum site area for a detached dwelling is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1.5 ha
Minimum site area is 2,000 sqm
Minimum site area is 2,500 sqm
Minimum site area is 2,800 sqm
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 5,000 sqm
Minimum site area is 560 sqm
Minimum site area is 900 sqm

(b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service site areas are not less than the greater of:
  (i) 1200m^2
  (ii) the following:

Minimum Site Area
Minimum site area for a detached dwelling is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 1.5 ha
Minimum site area is 2,000 sqm
Minimum site area is 2,500 sqm
Minimum site area is 2,800 sqm
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 5,000 sqm
Minimum site area is 560 sqm
Minimum site area is 900 sqm

(c) site frontages are not less than 20m

In relation to DTS/DPF 4.1, in instances where:

(d) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(e) no value is returned for DTS/DPF 4.1(a) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy

(f) no value is returned for DTS/DPF 4.1(b)(ii) (i.e. there is a blank field), then the value for DTS/DPF 4.1(b)(ii) is zero.

Concept Plans

PO 5.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 5.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 136 - Point Turton

In relation to DTS/DPF 5.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.

(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Ancillary Buildings and Structures

PO 6.1

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

DTS/DPF 6.1

Ancillary buildings satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site

(b) have a floor area not exceeding 60m2

(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)

(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width

(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary

(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure

(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)

(i) have a roof height where no part of the roof is more than 5m above the natural ground level

(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour

(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:

(i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%

	150-200 | 15% 201-450 | 20% >450 | 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 6.2 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 6.2 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size | Floor area ≤500m^2 | 60m^2 >500m^2 | 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 7.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 7.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation 14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15%

	201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Fisherman Bay Subzone • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 12. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 13. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 14. Does not involve the clearance of native vegetation. 15. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 16. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.

4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
(b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
(a) a total area as determined by the following table:
<table>
<tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr>
<tr><td><150</td><td>10%</td></tr>
<tr><td>150-200</td><td>15%</td></tr>
<tr><td>201-450</td><td>20%</td></tr>
<tr><td>>450</td><td>25%</td></tr>
</table>
(b) the amount of existing soft landscaping prior to the development occurring.
</td>
</tr>
<tr>
<td>
Temporary public service depot
Except where any of the following apply:

Hazards (Flooding) Overlay
Local Heritage Place Overlay
Major Urban Transport Routes Overlay
State Heritage Place Overlay
Traffic Generating Development Overlay
Urban Transport Routes Overlay

</td>
<td>
1. Occupies land for no longer than 3 months
2. Ensures litter and water are contained on site
3. Provides temporary security fencing around the perimeter of the site.
</td>
</tr>
<tr>
<td>
Verandah
Except where any of the following apply:

Future Local Road Widening Overlay
Future Road Widening Overlay
Historic Area Overlay
Local Heritage Place Overlay
State Heritage Area Overlay
State Heritage Place Overlay

</td>
<td>
1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level.
7. Building height - does not exceed 5m.
8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
(a) a total area as determined by the following table:
<table>
<tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr>
<tr><td><150</td><td>10%</td></tr>
<tr><td>150-200</td><td>15%</td></tr>

</table>

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) temporary public service depot.	Except development that: 1. exceeds the maximum building height specified in Rural Settlement Zone DTS/DPF 3.1 or 2. involves the creation of 4 or more additional dwellings or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
3. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Rural Settlement Zone DTS/DPF 3.1 or 2. does not satisfy Rural Settlement Zone DTS/DPF 1.2(a) or DTS/DPF 1.2(b) or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) light industry (b) store (c) warehouse.	Except development that: 1. exceeds the maximum building height specified in Rural Settlement Zone DTS/DPF 3.1 or 2. does not satisfy Rural Settlement Zone DTS/DPF 1.2(c) or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified	
Placement of Notices - Exemptions for Restricted Development	
None specified	

Fisherman Bay Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Residential development within an environment where natural processes such as flooding and sea level rise occur. Residential allotments are created once appropriate coastal protection measures are established.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Dwellings and ancillary buildings are protected from sea and stormwater flooding and other coastal processes.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Dwelling (b) Outbuilding (c) Coastal protection measures.
Site Dimensions and Land Division	
PO 2.1	DTS/DPF 2.1

Allotments/sites created for residential purposes are consistent with the established development pattern within the existing settlement.	None are applicable.
Built Form and Character	
PO 3.1 Development is designed to complement the predominant character of development established in the settlement in relation to site coverage, setbacks and building heights.	DTS/DPF 3.1 None are applicable.
Flooding	
PO 4.1 Development is protected from sea and stormwater flooding.	DTS/DPF 4.1 None are applicable.

Rural Shack Settlement Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Limited development within an environment where natural processes such as flooding, sea-level rise, sand drift and erosion occur. The natural environment is protected from inappropriate development and existing development is upgraded to incorporate environmental improvements.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly low-density residential development with complementary non-residential uses compatible with a low density residential character and natural environment.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Carport (b) Detached dwelling (c) Dwelling addition (d) Outbuilding (e) Verandah
PO 1.2 Provision of small-scale tourist and visitor facilities such as public amenities and barbeque and picnic infrastructure.	DTS/DPF 1.2 None applicable
PO 1.3 Home-based business activities of a scale and type to maintain the semi-rural or semi-natural residential character and amenity.	DTS/DPF 1.3 Shop, consulting room or office (or any combination thereof) located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (a) does not exceed 50m^2 gross leasable floor area (b) does not involve the display of goods in a window or about the dwelling or its curtilage.
Built Form and Character	
PO 2.1 Development is sited and designed unobtrusively to minimise its visual impact on the natural environment by: (a) using low-reflective materials and finishes that blend with, and colours that complement, the surrounding landscape (b) being located below hilltops and ridgelines (c) being screened by existing vegetation.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is sited and designed to minimise impacts on the natural environment by: (a) containing construction and built form within a tightly defined site boundary (b) minimising the extent of earthworks.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings are designed, sited and of a scale to complement the existing built form character and establish a cohesive settlement appearance taking into account: (a) set backs from allotment boundaries (b) building orientation towards roads and foreshore areas (c) roof forms (d) building heights (e) site coverage.	DTS/DPF 2.3 None are applicable.
PO 2.4 Where located in an area of two-storey developments, upper storey development should be consistent with the prevailing residential character, heights and setbacks.	DTS/DPF 2.4 None are applicable.
Building Height	
PO 3.1 Buildings blend with the natural environment and complement the height of nearby buildings, other than where required to be elevated on poles or piers in order to minimise the potential for personal or property damage as a result of inundation.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 9m Maximum building height is 7.5m Maximum building height is 8.3m AHD **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels) - 1 building level up to a height of 6m. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
Land Division	
PO 4.1 Land division achieves the following: (a) where applicable, is consistent with the value in the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database and of a suitable size and dimension to contribute to a pattern of development that is consistent with the shack settlement or (b) only creates an allotment to accommodate an existing dwelling or (c) is for the purpose creating a public road or a public reserve or (d) is a minor boundary realignment for the purpose of removing an anomaly in the current boundaries with respect to the location of existing buildings and structures and where no additional allotments are created partly or wholly in the zone.	DTS/DPF 4.1 Development accords with the following: (a) no additional allotments are created or (b) site areas (or allotment areas in the case of land division) are not less than: **Minimum Site Area** Minimum site area is 1,200 sqm Minimum site area is 200 sqm Minimum site area is 850 sqm

	In relation to DTS/DPF 4.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) no value is returned for DTS/DPF 4.1(b) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy unless DTS/DPF 4.1(a) is met.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 74 - Shelley Beach - Kellidie Bay Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.
Ancillary Buildings and Structures	
PO 6.1 Residential ancillary buildings are sited and designed to not detract from the streetscape, waterfront or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 6.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding $60m^2$ (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary, except in the case of a site with a River Murray waterfront (including where there is an intervening public reserve), where outbuildings and carports are not to be located between the waterfront and the existing or proposed dwelling or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 6.2 Outbuildings designed and sited to mitigate their visibility from the waterfront.	DTS/DPF 6.2 Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront.
PO 6.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 6.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤$500m^2$ / $60m^2$ >$500m^2$ / $80m^2$ (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 7.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 7.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations	

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The alteration does not:
   (a) increase the floor area of the building
   (b) exceed the existing wall height
   (c) exceed the existing overall building height
   (d) alter the roof profile
   (e) alter an approved privacy screening arrangement or window treatment
   (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.

Building work on railway land
Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. Building work is associated with a railway.
2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)
3. It is required for the conduct or maintenance of railway activities
4. It does not involve the clearance of native vegetation
5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas

Carport
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - at least:
   (a) 5.5m from the primary street boundary; and
   (b) as far back as the building line of the building to which it is ancillary, except in the case of a site with a River Murray waterfront (including where there is an intervening public reserve), where carports are not to be located between the waterfront and the existing dwelling.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
11. The carport is located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
        (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
        (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.
12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
13. Does not involve the clearance of native vegetation
14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least:
   (a) 5.5m from the primary street boundary; and
   (b) as far back as the building line of the building to which it is ancillary, except in the case of a site with a River Murray waterfront (including where there is an intervening public reserve), where outbuildings are not to be located between the waterfront and the existing dwelling.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
    (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. If the outbuilding is a garage, it is located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
        (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
        (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
12. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
13. Does not involve-
    (a) excavation exceeding a vertical height of 1 metre; or
    (b) filling exceeding a vertical height of 1 metre,
    and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
14. Does not involve the clearance of native vegetation.
15. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
16. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%

	>450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m2 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** | **Minimum percentage of site** <150 | 10% 150-200 | 15% 201-450 | 20% >450 | 25%

<table>
<tr><td></td><td>(b) the amount of existing soft landscaping prior to the development occurring.</td></tr>
<tr><td>Water tank (above ground)
Except where any of the following apply:
• Historic Area Overlay
• Local Heritage Place Overlay
• Ramsar Wetlands Overlay
• State Heritage Area Overlay
• State Heritage Place Overlay</td><td>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. The tank is part of a roof drainage system.
4. Total floor area - not exceeding 30m^2.
5. The tank is located wholly above ground.
6. Tank height - does not exceed 4m above natural ground level.
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
(a) a total area as determined by the following table:
<table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table>(b) the amount of existing soft landscaping prior to the development occurring.</td></tr>
<tr><td>Water tank (underground)
Except where any of the following apply:
• Coastal Areas Overlay
• Hazards (Acid Sulfate Soils) Overlay
• Ramsar Wetlands Overlay</td><td>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
2. The tank (including any associated pump) is located wholly below the level of the ground.
3. Does not involve the clearance of native vegetation.</td></tr>
</table>

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

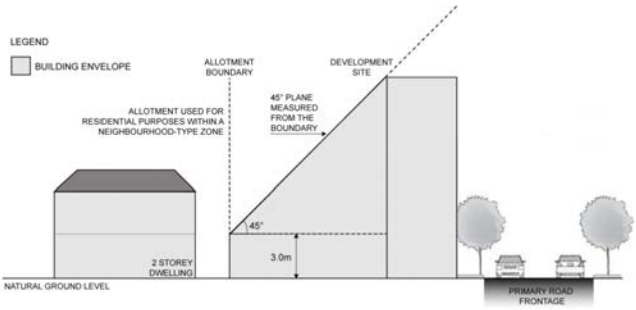
Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) dwelling (b) dwelling addition	Except development that involves the creation of 4 or more dwellings.
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) carport (d) deck (e) fence (f) internal building work (g) land division (h) outbuilding (i) pergola (j) private bushfire shelter (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) temporary public service depot (r) verandah (s) water tank.	None specified.
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except where the combined gross leasable floor area of the these uses is greater than 100m^2.
5. Any development involving any of the following (or of any combination of any of the following): (a) light industry (b) warehouse (c) store.	Except where the combined total floor area of the buildings plus any outdoor space used for any of the these uses is greater than 80m^2.

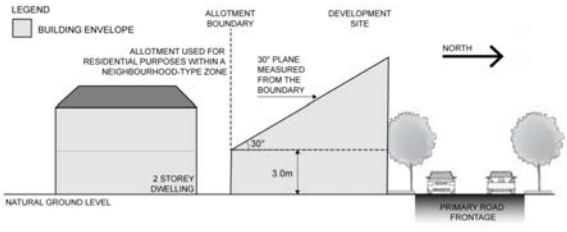
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Strategic Employment Zone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of industrial, logistical, warehousing, storage, research and training land uses together with compatible business activities generating wealth and employment for the state.
DO 2	Employment-generating uses are arranged to: (a) support the efficient movement of goods and materials on land in the vicinity of major transport infrastructure such as ports and intermodal freight facilities (b) maintain access to waterfront areas for uses that benefit from direct water access including harbour facilities, port related industry and warehousing, ship building and related support industries (c) create new and enhance existing business clusters (d) support opportunities for the convenient co-location of rural related industries and allied businesses that may detract from scenic rural landscapes (e) be compatible with its location and setting to manage adverse impacts on the amenity of land in adjacent zones.
DO 3	A pleasant visual amenity from adjacent arterial roads, adjoining zones and entrance ways to cities, towns and settlements.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily for a range of higher-impacting land uses including general industry, warehouse, transport distribution and the like is supplemented by other compatible development so as not to unduly impede the use of land in other ownership in the zone for employment-generating land uses, particularly those parts of the zone unaffected by an interface with another zone that would be sensitive to impact-generating uses.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Automotive collision repair (c) Electricity substation (d) Energy generation facility (e) Energy storage facility (f) Fuel depot (g) General industry (h) Intermodal facility (i) Light Industry (j) Motor repair station (k) Public service depot (l) Rail marshalling yard (m) Renewable energy facility (other than a wind farm) (n) Retail fuel outlet (o) Service trade premises (p) Shop (q) Store (r) Telecommunications facility (s) Training facility (t) Warehouse
PO 1.2 Development on land adjacent to another zone which is used for residential purposes incorporates a range of low-impact, non-residential uses to mitigate adverse amenity and safety impacts on the adjoining zone.	DTS/DPF 1.2 Development involving any of the following uses on a site adjacent land in another zone used for or expected to be primarily used for residential purposes: (a) Bulky goods outlet (b) Consulting room (c) Indoor recreation facility (d) Light industry (e) Motor repair station (f) Office (g) Place of worship (h) Research facility (i) Service trade premises (j) Store (k) Training facility, other than an outdoor trade training facility which involves air emissions or noise generating activities (l) Warehouse.
PO 1.3 Shops provide convenient day-to-day services and amenities to local businesses and workers, support the sale of products manufactured on-site and otherwise complement the role of Activity Centres.	DTS/DPF 1.3 Shop where one of the following applies: (a) with a gross leasable floor area up to 250m^2 (b) is a bulky goods outlet (c) is a restaurant (d) is ancillary to and located on the same allotment as an industry.
PO 1.4 Residential development is subordinate and necessary to support the efficient management, security and/or operational aspects of a non-residential land use.	DTS/DPF 1.4 None are applicable.
PO 1.5 Telecommunication facilities are located to mitigate impacts on visual amenity on residential areas.	DTS/DPF 1.5 Telecommunications facility in the form of a monopole: (a) up to a height of 30m and (b) no closer than 50m to neighbourhood-type zone.
PO 1.6 Bulky good outlets and standalone shops are located to provide convenient access.	DTS/DPF 1.6 Bulky goods outlets and standalone shops are located on sites with a frontage to a State Maintained Road.
Site Dimensions and Land Division	
PO 2.1 Land division creates allotments of a size and shape suitable for a range of industrial, transport, warehouse and other similar or complementary land uses that support employment generation.	DTS/DPF 2.1 Allotments: (a) connected to an approved common waste water disposal service have an area of 2500m^2 or more and a frontage width of 30m or more (b) that will require the disposal of waste water on-site have an area of 3000m^2 or more and a frontage width of 30m or more.
Built Form and Character	
PO 3.1	DTS/DPF 3.1

Development includes distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.	None are applicable.
PO 3.2 Building facades facing a boundary of a zone primarily intended to accommodate sensitive receivers, a public road, or public open space incorporate design elements to add visual interest by considering the following: (a) using a variety of building finishes (b) avoiding elevations that consist solely of metal cladding (c) using materials with a low reflectivity (d) using techniques to add visual interest and reduce large expanses of blank walls including modulation and incorporation of offices and showrooms along elevations visible to a public road.	DTS/DPF 3.2 None are applicable.
PO 3.3 Buildings are set back from the primary street boundary to contribute to a consistent streetscape.	DTS/DPF 3.3 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage: (i) 8m or more for proposed buildings up to 6m high (ii) not less than 10m for proposed buildings greater than 6m high. There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — (a) 8m or more for proposed buildings up to 6m high (b) not less than 10m for proposed buildings greater than 6m high. For the purposes of **DTS/DPF 3.3:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.4 Buildings are set back from secondary street boundaries to accommodate the provision of landscaping between buildings and the road to enhance the appearance of land and buildings when viewed from the street.	DTS/DPF 3.4 Building walls are set back 4m or more from a secondary street boundary.
PO 3.5 Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.	DTS/DPF 3.5 Building walls are set back 3m or more from at least one side boundary, unless an alternative means for vehicular access to the rear of the site is available.
Interface Height	
PO 4.1 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 4.1 Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 4.2 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 4.2 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 

PO 4.3 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 4.3 None are applicable.
Landscaping	
PO 5.1 Landscaping is provided along public roads and thoroughfares and zone boundaries to enhance the visual appearance of development and soften the impact of large buildings when viewed from public spaces and adjacent land outside the zone.	DTS/DPF 5.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site (excluding any land required for road widening purposes): (a) where a building is set back less than 3m from the street boundary - within the area remaining between a relevant building and the street boundary or (b) in accordance with the following:
PO 5.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 5.2 Landscape areas comprise: (a) not less than 10 percent of the site and (b) a dimension of at least 1.5m.
PO 5.3 Landscape areas incorporate a range of plant species of varying heights at maturity, including tree species with a canopy above clear stems, to complement the scale of relevant buildings.	DTS/DPF 5.3 None are applicable.
Fencing	
PO 6.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.	DTS/DPF 6.1 Fencing exceeding 2.1m in height is: (a) located behind a façade of an associated building located on the same site or (b) located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Advertisements	
PO 7.1 Freestanding advertisements do not create a visually dominant element within the locality.	DTS/DPF 7.1 Freestanding advertisements: (a) do not exceed 6m in height and (b) do not have a sign face exceeding 8m^2 per side.
Concept Plans	
PO 8.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 8.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Minimum width	Description
8m	Along any boundary with the Open Space Zone associated with the River Torrens.
5m	Along any boundary with a Highway, Freeway or Expressway.
5m	Along any boundary on the perimeter of the zone not fronting a public road or thoroughfare except where the adjacent zone is one of the following: (a) Employment (Bulk Handling) Zone; (b) Commercial and Business Zone; (c) Resource Extraction Zone.
3m	Along any boundary on the perimeter of the zone that fronts a public road or thoroughfare.
3m	Along an arterial or main road frontage within the zone (and not on the perimeter of the zone).

Description
Concept Plan 14 - Buckland Park
Concept Plan 18 - Playford North
Concept Plan 19 - Playford North Infrastructure
Concept Plan 21 - Virginia
Concept Plan 22 - Virginia Infrastructure
Concept Plan 50 - Roseworthy Town Expansion
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 87 - Hindmarsh Road
Concept Plan 99 - Two Wells
Concept Plan 95 - Kingsford Regional Estate
Concept Plan 107 - Proper Bay
Concept Plan 102 - Gillman
Concept Plan 154 - Dublin

In relation to DTS/DPF 8.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile

	(e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not include temporary stockpiling or storage of material or equipment over a designated stockpiling area that is larger than 100m^2 where located within the Tunnel Protection Overlay 6. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a bulky goods outlet (c) shop that is a restaurant (d) shop that is ancillary to an industry on the same allotment.
Special industry	Any of the following: (a) located in the Gillman Subzone (b) located in the National Naval Shipbuilding Subzone (c) located in the Significant Industry Subzone

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) telecommunications facility (c) temporary public service depot.	Except development that does not satisfy any of the following: 1. Strategic Employment Zone DTS/DPF 4.1 2. Strategic Employment Zone DTS/DPF 4.2.
3. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) general industry (c) light industry (d) office (e) motor repair station (f) retail fuel outlet (g) store (h) warehouse.	Except where the site of the development is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Building for the purposes of railway activities.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
9. Shop.	Except: 1. where the site of the shop is adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone or 2. shop that does not satisfy Strategic Employment Zone DTS/DPF 1.3.
10. Telecommunications facility.	Except telecommunications facility that does not satisfy Strategic Employment Zone DTS/DPF 1.5.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Gillman Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of major logistics, manufacturing, high technology and research land uses generating wealth and employment for the state that takes advantage of road, rail and ports infrastructure together with compatible business activities that support an expanding workforce.
DO 2	Co-location of the management of Adelaide's waste, resource recovery and related processing and industrial activities to provide operational efficiencies and the economic provision of infrastructure, and provision of land for stormwater management and enhancement of tidal flow and habitat function of Magazine Creek, Range wetlands, samphire and mangroves.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily for a range of major logistics and manufacturing plants, high technology and research.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Educational facility in association with an envisaged use (b) Electricity substation (c) Filling of land and associated stockpiling suitable for land reclamation (d) Road transport terminal (e) Service trade premises (f) Stormwater retention / detention basin (g) Store

	(h) Training facility (i) Warehouse.
PO 1.2 Shops and restaurants primarily cater to the surrounding workforce to enhance the amenity of the zone for those workers.	DTS/DPF 1.2 Shop that meets the following: (a) has a gross leasable floor area not exceeding 500m^2 and (b) is not a bulky goods outlet.
Hazard Risk Minimisation	
PO 2.1 Land identified for stormwater management and habitat rehabilitation in the subzone is not developed for industrial use unless: (a) there is sufficient land capable of managing the regional and local stormwater catchment function in the location (b) the land unlikely to be inundated by tidal flows as a result of the periodic opening of the tidal gates, taking into account long term sea-level rise (c) it does not result in the removal of existing remnant samphire habitats or threaten the ability for expansion and inland migration of such habitats (d) the provision of a new or the expansion of an existing sea flood protection levee or sea wall infrastructure can be accommodated into the future.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development minimises adverse disturbance to existing sea flood protection levees and infrastructure.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development is designed and sited to provide sufficient land for flood mitigation, including the establishment of new sea walls or sea flood protection levees to provide protection from stormwater and seawater flooding.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is protected against sea flood risk and sea level rise.	DTS/DPF 2.4 Development achieves one of the following: (a) where no sea flood protection levee or seawall exists, minimum site and floor levels are at least 3.7m AHD and 3.95m AHD respectively, to provide protection from coastal flooding to the year 2050 and it allows for the practical establishment of protection measures against a further sea level rise of 0.7m and land subsidence to the year 2100 (b) a sea flood protection levee or sea wall has been constructed, which will provide the development with protection from coastal flooding to the year 2050, has a height of at least 3.7m AHD and is capable of being adapted to accommodate for a further sea level rise of 0.7m and land subsidence to the year 2100.

National Naval Shipbuilding Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Ship building and the long-term growth of defence related support industry uses generating wealth and employment for the state and nation.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development of naval shipbuilding and defence related support industry uses.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Berthing structure (b) Educational facility in association with ship building (c) Ship building, lifting and/or launching facility (d) Technology and support industries related to ship building and defence (e) Wharf facilities.
PO 1.2 Development on land with direct water frontage comprises those functions of ship building and repair involving the movement of waterborne vessels from the water to the land and vice versa.	DTS/DPF 1.2 Development on land with direct water frontage comprises one or more of the following: (a) Berthing structure (b) Gantry and loading structure (c) Harbour installation (d) Navigational aid (e) Ship lifting and/or launching facility (f) Wharf structure.
PO 1.3 Shared use of facilities and structures to minimise the need for development to extend into or over the Port Adelaide River.	DTS/DPF 1.3 Development does not extend into or over the Port Adelaide River unless it comprises one or more of the following: (a) Berthing structure (b) Development ancillary to or in association with ship building (c) Erosion protection or control (d) Flooding protection or control (e) Gantry and loading structure (f) Ship lifting/launching facility (g) Wharf structure.
PO 1.4 Development extending into or over the Port Adelaide River does not obstruct or interfere with shipping and navigation channels.	DTS/DPF 1.4 Development complies with the *Harbors and Navigation Act 1993*.
PO 1.5 Development maintains public access to land in the Open Space Zone located to the north of the subzone, unless an alternative public access route is provided.	DTS/DPF 1.5 None are applicable.
Interfaces	
PO 2.1 Development is designed and sited to incorporate noise attenuation measures to minimise impacts from noise emissions on sensitive land uses in an adjacent neighbourhood-type zone, particularly where extended operating hours are contemplated.	DTS/DPF 2.1 None are applicable.
Hazard Risk Minimisation	
PO 3.1 Development is protected against sea flood risk and sea level rise.	DTS/DPF 3.1 Development achieves the following: (a) minimum site and floor levels of 3.3m AHD and 3.55m AHD respectively to provide protection from coastal flooding to the year 2050, unless it can be demonstrated that lower levels will provide adequate protection and (b) provides for the practical establishment of protection measures against a further sea level rise of 0.7m and land subsidence to the year 2100.

Ports Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of port related activities that support the ongoing strategic and economic state significance of the area for the handling of export and import commodities

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily for a range of port related activities.	DTS/DPF 1.1 Development comprises one or more of the following:

	(a) Bunker facility (b) Cargo handling facility (c) Container terminal (d) Customs operations (e) Intermodal cargo transfer facility (f) Office ancillary to and in association with port activity (g) Ship repair facility (h) Storage areas used for the temporary holding of port cargo (i) Transhipment facility.
PO 1.2 Waterfront land developed for activities dependent on a direct frontage to the water, including port functions involving waterborne vessels and/or the movement of products or items from the water to the land (or vice versa).	DTS/DPF 1.2 Development on land with a direct frontage to the water comprises one or more of the following uses: (a) Boat berth (b) Gantry and loading structures (c) Harbor installations (d) Navigational aids (e) Wharf facilities.
Landscaping	
PO 2.1 Development adjoining the waterfront landscaped to: (a) screen storage areas otherwise open to public view (b) enhance the appearance of the development and the waterfront (c) provide amenity for employees on site.	DTS/DPF 2.1 None are applicable.

Significant Industry Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

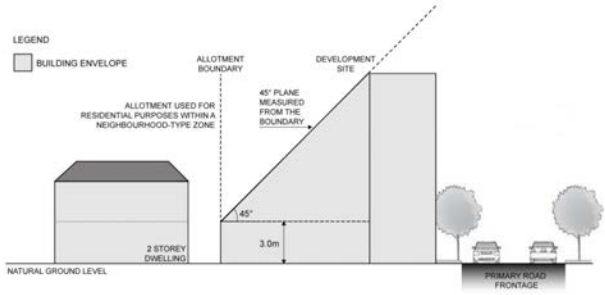
Desired Outcome	
DO 1	Major special industrial activities requiring large areas of land to manage interfaces with sensitive land uses and the environment that are of significance to the state and regional economy.

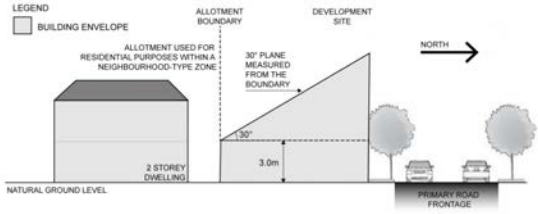
Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

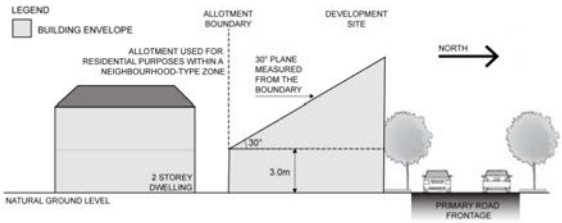
Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development primarily for large scale, high impact special industry uses located on large areas of land to manage impacts on sensitive land uses and the environment.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not occur that would prejudice special industry or the processing and storage of chemicals and minerals.	DTS/DPF 1.2 None are applicable.
Siting and Interfaces	
PO 2.1 Substantial visual and acoustic buffers are maintained between development and sensitive land uses.	DTS/DPF 2.1 None are applicable.
PO 2.2 Treatment or depositing of hazardous waste materials does not occur in proximity to residential development located in an adjacent zone.	DTS/DPF 2.2 None are applicable.
PO 2.3 Development is sited and designed to protect areas of heritage or cultural significance.	DTS/DPF 2.3 None are applicable.
Environmental Management	
PO 3.1 Development does not produce emissions that would harm human health or the environment.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development designed and sited to mitigate impacts upon the terrestrial and marine environment in the locality and areas of conservation significance.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development and operations designed and sited to avoid discharge of liquid or solid waste from the site or from entering the natural drainage system.	DTS/DPF 3.3 None are applicable.
Hazard Risk Minimisation	
PO 4.1 Areas for the storage and handling of hazardous material are bunded to: (a) contain spillages and leaks of liquids used, stored or processed on the site of the development (b) exclude the entry of external surface stormwater runoff that may pose a risk of pollution to the surrounding environment.	DTS/DPF 4.1 None are applicable.
PO 4.2 Adequate separation provided between development and buildings to mitigate on-site impacts in the event of an industrial accident.	DTS/DPF 4.2 None are applicable.
PO 4.3 Development is protected against sea flood risk and sea level rise.	DTS/DPF 4.3 None are applicable.

Strategic Innovation Zone

Assessment Provisions (AP)







Desired Outcome (DO)

Desired Outcome	
DO 1	A range of health, education, and research activities supported by a mix of compatible housing, accommodation, tourism, hospitality, cultural, entertainment, recreation and retail land uses.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development is associated with or ancillary to the provision of health and education services and the conduct of research.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Child care facility (b) Co-living (c) Community facility (d) Conference facility (e) Consulting room (f) Dwelling (g) Educational facility

	(h) Hospital (i) Indoor recreation facility (j) Library (k) Light industry (including high technology and research based activity) (l) Office (m) Place of worship (n) Public transport terminal (o) Residential flat building (p) Retirement facility (q) Shop (excluding a bulky goods outlet) (r) Student accommodation (s) Supported accommodation (t) Telecommunications facility (u) Tourist accommodation (v) Workers' accommodation.
PO 1.2 Development within walking distance of public transport stops comprises land uses that directly promote public transport use and provide opportunities for multi-purpose trips.	DTS/DPF 1.2 None are applicable.
PO 1.3 Light industrial and commercial development (including high technology and research-based activity) designed and sited to be compatible with adjoining uses.	DTS/DPF 1.3 None are applicable.
PO 1.4 Shops, offices and consulting rooms of a scale to maintain the amenity of nearby residents.	DTS/DPF 1.4 Shop, office or consulting room gross leasable floor area does not exceed 250m^2.
PO 1.5 Ground floor level uses promote high levels of pedestrian activity and contribute to an active and vibrant public realm.	DTS/DPF 1.5 Shop or consulting room land uses located on the ground floor level of buildings.
PO 1.6 Medium to high density residential development does not prejudice the operation of non-residential activity within the zone.	DTS/DPF 1.6 None are applicable.
PO 1.7 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.7 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop: (i) the total gross leasable floor area of the shop will not exceed 250m^2 (ii) if primarily involving the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if primarily involving heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road: (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road or (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the building is a local heritage place or (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Development achieves a high standard of contemporary architectural design, using a mixture of solid and glass finishes to produce visual interest on all sides.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are orientated towards public open space and defined pedestrian and cycle routes, where possible.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings create visual interest and an active interface along streetscapes, pedestrian and cycle routes and building surrounds to enhance casual surveillance and provide appropriate lighting and clear lines of sight.	DTS/DPF 2.3 Not less than 50% of the ground floor primary frontage of buildings : (a) are visually permeable, transparent or clear glazed (b) have a ground floor level at grade / level with the adjoining public realm footpath.
PO 2.4 Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential.	DTS/DPF 2.4 Buildings containing ground and first building levels built to dimensions including a minimum ceiling height of 3.5m.
PO 2.5 Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.	DTS/DPF 2.5 Buildings provide verandas, balconies, canopies, awnings or other pedestrian shelters over adjacent footpaths.
PO 2.6 Development including advertisements, buildings, site landscaping, street planting and paving achieves a cohesive and coordinated appearance.	DTS/DPF 2.6 None are applicable.
PO 2.7 Permanent fencing is visually permeable to support visibility and custom designed to high architectural standard.	DTS/DPF 2.7 None are applicable.
Building height and setbacks	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer*, *Maximum Building Height (Metres) Technical and Numeric Variation* layer and any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variations layer*, or provides an orderly transition in scale, increasing from low scale at the zone interface to medium-to-high rise in the centre of the zone to complement the established local character.	DTS/DPF 3.1 Except where a Concept Plan specifies otherwise, development (excluding garages, carports and outbuildings) does not exceed the following building height(s): **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 4 levels Maximum building height is 5 levels Maximum building height is 6 levels Maximum building height is 10 levels Maximum building height is 15 levels **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 16.5m Maximum building height is 18.5m Maximum building height is 24.5m Maximum building height is 40.5m Maximum building height is 60.5m In relation to DTS/DPF 3.1, in instances where: (a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other

	(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 3.2 Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 **Interface Height** Buildings constructed within a building envelope provided by a: (a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):  (b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):  Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.3 Buildings are set back from site boundaries to create a continuous built form to public roads, and to create separation between lower scale and adjoining sensitive receivers.	DTS/DPF 3.3 None are applicable.
PO 3.4 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.4 None are applicable.
Land Division	
PO 4.1 Land division and site amalgamation facilitates integration of buildings, vehicle parking areas, access points and landscaping.	DTS/DPF 4.1 None are applicable.
Advertisements	
PO 5.1 Advertisements: (a) use simple graphics and are restrained in their size, design and colour (b) provide an overall consistency along individual street frontages.	DTS/DPF 5.1 None are applicable.

PO 5.2 Advertisements along minor streets and laneways include a greater diversity of type, shape, numbers and design provided that they are small in scale and located to present a consistent message band to pedestrians.	DTS/DPF 5.2 None are applicable.
Movement and Access	
PO 6.1 Vehicle parking areas do not interfere with existing or proposed provision of a comprehensive bicycle and pedestrian path network integrated with networks in adjacent zones.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development preserves and enhances open space linkages between public reserves, sport/recreation facilities, walking/cycling paths and community areas.	DTS/DPF 6.2 None are applicable.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 24 - Glenside Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 89 - Tonsley In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 60m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 60m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 12. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation. 16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas

Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 60m^2 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 30m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop located within the Rehabilitation Subzone (c) shop located within the Repatriation Subzone (d) shop located within the Flinders Subzone (e) shop located within the Activity Node Subzone (f) shop that is a restaurant.
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development that: 1. exceeds the maximum building height specified in Strategic Innovation Zone DTS/DPF 3.1 or 2. does not satisfy Strategic Innovation Zone DTS/DPF 3.2

	or 3. involves the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) or 4. involves the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. a restaurant located in the Repatriation Subzone 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility, other than where located in the Repatriation Subzone (c) co-living (d) community facility (e) dwelling (f) educational facility (g) library (h) place of worship (i) residential flat building (j) student accommodation (k) tourist accommodation.	Except development that exceeds the maximum building height specified in Strategic Innovation Zone DTS/DPF 3.1 or does not satisfy Strategic Innovation Zone DTS/DPF 3.2.
5. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop, other than a restaurant located in the Repatriation Subzone.	Except development that exceeds the maximum building height specified in Strategic Innovation Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Strategic Innovation Zone DTS/DPF 1.4 2. Strategic Innovation Zone DTS/DPF 3.2.
6. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Rehabilitation Subzone

Desired Outcome (DO)

Desired Outcome	
DO 1	A mix of primary land uses including facilities for health and aged care, rehabilitation, education and research along with residential, community, cultural, recreation and small-scale retail activities that meet the daily needs of the residential and visiting population.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Higher intensity activities located towards the centre or the primary focus of the Subzone, such as education, industry, health, commerce and retail, with lower scale development such as residential located at the periphery of the Subzone.	DTS/DPF 1.1 None are applicable.
PO 1.2 Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, community and cultural facilities, and visitor and residential accommodation.	DTS/DPF 1.2 None are applicable.
PO 1.3 Small to medium scale shops, offices and consulting rooms : (a) meet the day to day needs for the local community, such as shops, offices, consulting rooms and the like (b) serve the local community, such as educational facilities, child care facility, health and welfare services and the like (c) are part of mixed use or wholly non-residential buildings (d) contribute to a vibrant mixed use environment.	DTS/DPF 1.3 Shops, offices or consulting rooms not exceeding a maximum total gross leasable floor area of 2000m^2.
PO 1.4 A range of small to medium scale non-residential uses, services and facilities compatible with residential uses that serve the local community, such as educational facilities, child care facility, health and welfare services, community facilities and the like.	DTS/DPF 1.4 None are applicable.
PO 1.5 Well-designed and diverse medium density accommodation options, including dwellings and supported accommodation.	DTS/DPF 1.5 Residential development (other than residential development in a mixed use building) achieves a net residential density of not less than 40 dwellings per hectare, except where varied by a Concept Plan Technical and Numeric Variation Data Overlay.
Built Form and Character	
PO 2.1 Pedestrian and cycling connections link key land uses within the subzone and adjacent zones, including neighbouring residential areas.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings setback from the primary street boundaries to contribute to the consistent established streetscape.	DTS/DPF 2.2 The building line of a building set back from the primary street boundary: (a) at least 6m from Flemington Street, Glenside

	(b) at least the average setback to the building line of existing buildings on adjoining sites which face the same primary street (including those buildings that would adjoin the site if not separated by a public road or a vacant allotment) (c) where there is only one existing building on adjoining sites which face the same primary street (including those that would adjoin if not separated by a public road or a vacant allotment), not less than the setback to the building line of that building or (d) in any other case, no minimum.

Flinders Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of education, health, research and employment facilities of regional significance mixed with medium to high density housing and various forms of accommodation supported by active and passive open space and a range of complementary activities such as shops, consulting rooms, offices and entertainment facilities concentrated around new railway infrastructure to meet the need of workers, students, residents and visitors.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Education, health, research and employment facilities mixed with housing and various forms of accommodation and enhanced by public open space, shops, consulting rooms, offices and entertainment facilities in suitable locations.	DTS/DPF 1.1 None are applicable.
PO 1.2 Public transport use, and opportunities for multi-purpose trips and passive surveillance of public transport stations are enhanced by: (a) a high quality, themed, cohesive public realm (b) active and vibrant frontages along streets and pedestrian thoroughfares, including the provision of retail and entertainment land uses (c) the provision of intensive forms of residential and other accommodation within walking distance of and along connections to existing or planned public transport stops and stations.	DTS/DPF 1.2 None are applicable.
PO 1.3 Significant open space areas are retained and include areas for active and passive recreation and informal vegetated areas that contribute to an open character and provide visual linkages to key sites.	DTS/DPF 1.3 None are applicable.
Building setbacks	
PO 2.1 Buildings are set back to protect the function of major transport routes.	DTS/DPF 2.1 Buildings are setback at least 10m from a major transport route identified in the Major Urban Transport Routes Overlay.

Repatriation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An integrated, walkable health precinct comprising a range of facilities for health and aged care, rehabilitation, education, research, community and supported accommodation complemented by compatible retail activities and a variety of connected open spaces that cater for social and ceremonial gatherings, recreation, cultural activities and reflection.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A focus for health, aged care and related services, supported by land uses to enhance integration with the surrounding community and encourage multi-generational participation and vibrancy.	DTS/DPF 1.1 None are applicable.
PO 1.2 Small-scale shops that provide a supportive role to health, aged care and other allied services, without being a dominant feature to maintain the credentials of the subzone as a centre for community health, education, research and innovation.	DTS/DPF 1.2 Shops do not exceed (proposed and existing) an aggregate gross leasable floor area of 2000m^2 across the whole subzone.
PO 1.3 Administration, education, innovation and research activities focused around the existing Central Administration Buildings.	DTS/DPF 1.3 None are applicable.
PO 1.4 Community facilities located centrally in the subzone and focused around the Chapel, Schools Patriotic Fund (SPF) Hall and Peace Garden and set behind Daw House.	DTS/DPF 1.4 None are applicable.
PO 1.5 Health and rehabilitation facilities, supported accommodation and other compatible land uses located adjacent to another zone used for residential purposes to mitigate adverse amenity impacts on residential uses that abut the subzone.	DTS/DPF 1.5 None are applicable.
Built Form and Character	
PO 2.1 Development respects and preserves buildings and areas of heritage significance and importance to World War II Veterans and their families, including the Chapel, Schools Patriotic Fund (SPF) Hall and Peace Garden.	DTS/DPF 2.1 None are applicable.
PO 2.2 The adaptive re-use of heritage buildings to promote their ongoing use and conservation.	DTS/DPF 2.2 None are applicable.
PO 2.3 Buildings and additions to places of heritage significance are sited and designed to retain their visual prominence and heritage values.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings provide active street facades integrated with quality public realm and intimate and larger open spaces that cater for social and ceremonial gatherings, recreation, cultural activities and reflection.	DTS/DPF 2.4 None are applicable.
PO 2.5 Buildings are set back from the boundary of the subzone to create separation between lower scale and adjoining sensitive receivers and to maintain the amenity of adjacent residential land uses.	DTS/DPF 2.5 Buildings are set back at least 3m from the boundary of an allotment used for residential purposes within a neighbourhood-type zone.
PO 2.6 Development is of a bulk and scale to be compatible with adjoining land uses.	DTS/DPF 2.6 None are applicable.
PO 2.7 The layout and integrity of the Peace Garden is retained and readily interpretable as a separate or special place within the surrounding open landscaping.	DTS/DPF 2.7 None are applicable.
PO 2.8 The setting of the Central Administration Buildings is retained as prominent and iconic features to the main entrance off Daws Road..	DTS/DPF 2.8 None are applicable.
PO 2.9 Development retains the external appearance and presentation of the former Gatehouse adjacent Daws Road and is designed to enhance connectivity	DTS/DPF 2.9 None are applicable.

between the interior and exterior of the building.	
PO 2.10 Development is sited and designed to retain Daw House as a prominent feature to Goodwood Road, set behind an open garden.	DTS/DPF 2.10 None are applicable.
Movement and Access	
PO 3.1 New vehicle access points to external roads are designed and sited to not interfere with road and intersection upgrades and maintain traffic flows.	DTS/DPF 3.1 None are applicable.
Landscaping	
PO 4.1 Trees and other landscaping is used to frame prominent buildings and entrances and provide amenity for pedestrians.	DTS/DPF 4.1 None are applicable.

Activity Node Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Retail activity focused around key roadways, public transport routes and rail corridors that provide focal points for workers, students, visitors and residents to socialize and congregate, complementing a range of other more predominant activities within the Strategic Innovation Zone.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Entertainment and recreation land uses that complement other significant health, education, research and business activities for the benefit of workers and visitors to the zone and the convenience and enjoyment of adjacent residential areas.	DTS/DPF 1.1 Development comprises one or more of the following, in addition to those identified in DTS/DPF 1.1 of the Strategic Innovation Zone: (a) Advertisement (b) Entertainment venue (c) Parking facility (d) Recreation area (e) Shop (excluding a bulky goods outlet).
PO 1.2 Shopping and entertainment activities are suitably focused to support active, vibrant nodes for businesses and the surrounding neighbourhood are located at ground level as follows: (a) in relation to the subzone in the suburb of Tonsley, generally west of Mab Eastern Promenade and along Alawoona Avenue (b) in relation to the subzone in the suburb of Elizabeth Vale: (i) the corner of John Rice Avenue and Haydown Road and (ii) along Haydown Road.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development and accommodation at Elizabeth Vale is established: (a) above non-residential land uses within mixed use buildings or (b) within standalone buildings north of Oldham Road.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Development fronting onto Haydown Road at Elizabeth Vale designed to create a main street theme at human scale through use of: (a) fully glazed facades to the road frontage (b) frequent tenancy openings along the street (c) pedestrian cover through the provision of a canopy or awning and complemented by consulting rooms, offices and residential development at upper levels.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development fronting onto Haydown Road at Elizabeth Vale designed and sited to allow for provision of accessible public transport stops with raised platforms and shelters, and space for landscaping and street trees.	DTS/DPF 2.2 None are applicable.
PO 2.3 Car parking at Elizabeth Vale established to the rear of buildings, within basements or within decked parking spaces above ground level provided they are sleeved with active uses to the primary street frontage.	DTS/DPF 2.3 None are applicable.
PO 2.4 Iconic buildings on key corner sites at Elizabeth Vale, including at the following locations: (a) northern-eastern corner of John Rice Avenue and Haydown Road (b) Philip Highway and John Rice Avenue (c) John Rice Avenue and Mark Road (d) south-eastern corner of Mark Road and Oldham Road.	DTS/DPF 2.4 None are applicable.
PO 2.5 Development of iconic buildings on key corner sites at Elizabeth Vale sited and designed to: (a) have an increased height to surrounding buildings to emphasise the corner and provide a sense of arrival (b) provide a bold architectural statement through building design and use of high quality building materials.	DTS/DPF 2.5 None are applicable.

Suburban Activity Centre Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	An active commercial precinct supporting neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community. Buildings and pedestrian areas create a high quality, activated public realm that is integrated with pedestrian and cycle networks and establish well-defined connections to available public transport services.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Shops, office, entertainment, health and recreation related uses and other businesses that provide a range of goods and services to the surrounding neighbourhood and district.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Child care facility (c) Co-living

	(d) Cinema (e) Community facility (f) Consulting room (g) Dwelling (h) Educational facility (i) Emergency services facility (j) Hospital (k) Hotel (l) Indoor recreation facility (m) Library (n) Office (o) Place of worship (p) Recreation area (q) Residential flat building (r) Retail fuel outlet (s) Retirement Facility (t) Shop (u) Supported Accommodation (v) Tourist accommodation.
PO 1.2 Residential development does not prejudice the operation of existing non-residential development and the long-term provision of services and facilities for wider community benefit.	DTS/DPF 1.2 None are applicable.
PO 1.3 Dwellings and/or co-living are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.3 Dwellings and/or co-living are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.4 Where residential development is appropriate having regard to other performance outcomes of the zone, residential development achieves medium to high densities.	DTS/DPF 1.4 None are applicable.
PO 1.5 Development sited and designed to achieve or maintain a vibrant and interesting streetscape within retail areas.	DTS/DPF 1.5 Any of the following: (a) shop, other than a bulky goods outlet with a gross leasable floor area more than 500m^2 (b) cinema (c) hotel (d) licensed premises.
PO 1.6 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.6 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances: (i) the building is a local heritage place (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Development complements adjacent development within the zone, and mitigates interface impacts on adjoining residential uses in neighbourhood-type zones through appropriate building siting, scale and design.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are sited and designed to create pedestrian, vehicular, open space and visual linkages between the various built-form elements within the zone and adjoining main roads and thoroughfares.	DTS/DPF 2.2 None are applicable.
PO 2.3 Vehicular access points and car parks are coordinated and consolidated to enable the shared use of parking spaces.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development promotes the use of pedestrian and cyclist connections to centre facilities and services.	DTS/DPF 2.4 None are applicable.
Building height and setbacks	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layers* or is generally low rise to complement the established streetscape and local character.	DTS/DPF 3.1 Building height is: (a) not greater than: (i) the following: **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 6m Maximum building height is 7m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 11.5m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 15m Maximum building height is 16.5m Maximum building height is 18.5m Maximum building height is 22m Maximum building height is 24.5m Maximum building height is 25.5m Maximum building height is 32.5m Maximum building height is 10.2m Maximum building height is 20.5m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels

Maximum Building Height (Levels)
Maximum building height is 4 levels
Maximum building height is 5 levels
Maximum building height is 6 levels
Maximum building height is 7 levels
Maximum building height is 9 levels

(ii) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 3 building levels up to a height of 12m

and

(b) not less than:

Minimum Building Height (Levels)
Minimum building height is 1 level
Minimum building height is 2 levels
Minimum building height is 3 levels

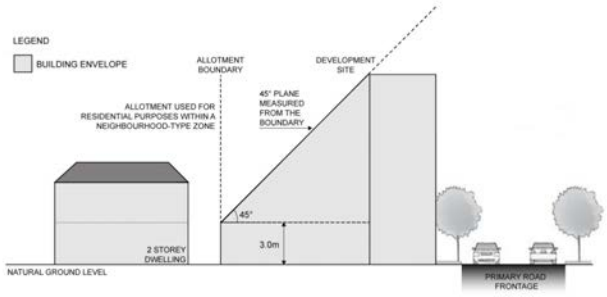
In relation to DTS/DPF 3.1, in instances where:

(c) more than one value is returned in the same field:
- (i) for the purpose of DTS/DPF 3.1(a)(i), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation* layer or *Maximum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (ii) for the purpose of DTS/DPF 3.1(b) refer to the *Minimum Building Height (Levels) Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) only one value is returned for DTS/DPF 3.1(a)(i), (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other

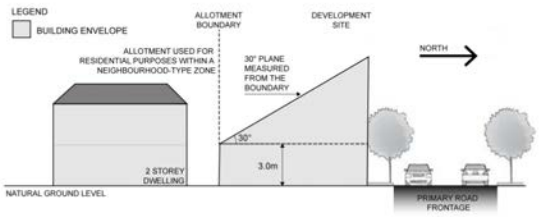
(e) no value is returned for DTS/DPF 3.1(b), (ie there is a blank field), then there is no minimum building height and DTS/DPF 3.1(b) is met.

PO 3.2



Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 3.2



Interface Height

Buildings constructed within a building envelope provided by a:

(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):

(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

	Interface Height 
PO 3.3 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.3 None are applicable.
Advertisements	
PO 4.1 Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.	DTS/DPF 4.1 None are applicable.
PO 4.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 4.2 Freestanding advertisements: (a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds 6m^2 per side.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 70 - Mount Gambier Northern Gateway Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 11 - Munno Para Concept Plan 13 - Suburban Activity Centre - Buckland Park Concept Plan 14 - Buckland Park Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 21 - Virginia Concept Plan 16 - Angle Vale Infrastructure Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 80 - Murray Bridge Concept Plan 86 - Edwardstown Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment, the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not include temporary stockpiling or storage of material or equipment over a designated stockpiling area that is larger than 100m^2 where located within the Tunnel Protection Overlay 6. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal, the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) cinema (d) co-living (e) community facility (f) consulting room (g) dwelling located above a non-residential building level (h) indoor recreation facility (i) library (j) office (k) place of worship (l) service trade premises (m) shop (n) temporary public service depot (o) tourist accommodation.	Except development that does not satisfy any of the following: 1. Suburban Activity Centre Zone DTS/DPF 3.1 2. Suburban Activity Centre Zone DTS/DPF 3.2.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).

7. Railway line.	Except where located outside of a rail corridor or rail reserve.

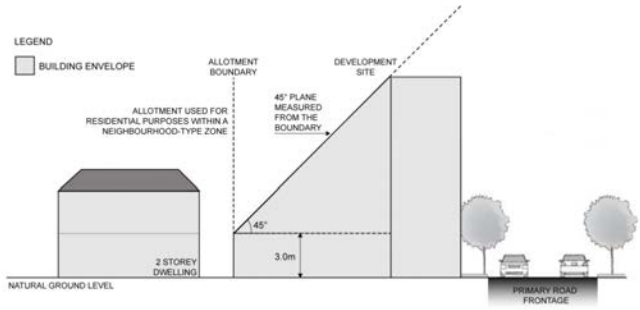
Placement of Notices - Exemptions for Performance Assessed Development

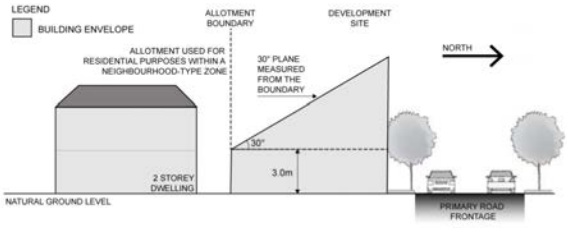
None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Suburban Business Zone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A business and innovation precinct that includes a range of emerging businesses which have low level off-site impacts. Residential development within the area is subordinate to employment uses and generally includes medium-density housing designed to complement and not prejudice the operation of existing businesses.
DO 2	A zone characterised by low-rise buildings with additional height in well serviced and accessible locations.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Shops, office, consulting room, low-impact industry and other non-residential uses are supported by a variety of compact, medium density housing and accommodation types.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Co-living (b) Consulting room (c) Dwelling (d) Institutional facility (e) Light industry (f) Motor repair station (g) Office (h) Residential flat building (i) Retail fuel outlet (j) Service trade premises (k) Shop (l) Store (m) Warehouse
PO 1.2 Retail, business and commercial development is of a scale that provides a local convenience service without undermining the vibrancy and function of zones primarily intended to accommodate such development.	DTS/DPF 1.2 Shops, offices and consulting rooms do not exceed 500m^2 in gross leasable floor area.
PO 1.3 Compact, medium density residential development does not prejudice the operation of non-residential activity within the zone.	DTS/DPF 1.3 None are applicable.
PO 1.4 Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.	DTS/DPF 1.4 A change of use to a shop, office or consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed the change in use is for a shop: (i) the total gross leasable floor area of the shop will not exceed 500m^2 (ii) if primarily involving the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (iii) if primarily involving heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any residential allotment within a neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (c) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (ii) the building is a local heritage place.
Built Form and Character	
PO 2.1 Building scale and design complement surrounding built form, streetscapes and local character.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development with high visual and environmental amenity, particularly along arterial roads and the boundaries of adjoining zones is primarily intended to accommodate sensitive receivers.	DTS/DPF 2.2 None are applicable.
Building height and setbacks	
PO 3.1 Buildings are generally of low-rise construction, with taller buildings positioned towards the centre of the zone and away from any adjoining neighbourhood-type zone to positively contribute to the built form character of a locality.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 12m Maximum building height is 15m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels (b) in all other cases (ie there is a blank field for both values): (i) 2 building levels or 9m where the development is located adjoining a different zone that primarily envisages residential development (ii) 3 building levels or 12m in all other cases. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field: (i) for the purpose of DTS/DPF 3.1(a), refer to the Maximum Building Height (Metres) Technical and Numeric Variation layer or Maximum Building Height (Levels) Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (ii) only one value is returned for DTS/DPF 3.1(a), (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.2	DTS/DPF 3.2

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary, or where this boundary is the street boundary): 
PO 3.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.4 Buildings are set back from primary street boundaries to contribute to a consistent streetscape.	DTS/DPF 3.4 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 6m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 6m For the purposes of **DTS/DPF 3.4:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
PO 3.5 Buildings are set back from secondary street boundaries (other than rear laneways) to contribute to a consistent streetscape.	DTS/DPF 3.5 Building walls are set back from the secondary street frontage: (a) the average of any existing buildings on adjoining sites having frontage to the same street or (b) not less than 900mm where no building exists on an adjoining site.
PO 3.6 Buildings are set back from side boundaries to maintain adequate separation and ventilation.	DTS/DPF 3.6 Other than walls located on a side boundary, building walls are set back at least 900mm from side boundaries.
PO 3.7 Buildings are set back from rear boundaries to minimise adverse impacts on adjoining land uses.	DTS/DPF 3.7 Building walls are set back from the rear boundary at least 3m.
PO 3.8 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.8 None are applicable.
Land Division	
PO 4.1 Land division and / or site amalgamation create allotments that vary in size and are suitable for a variety of residential and commercial activities and improve the level of development integration.	DTS/DPF 4.1 None are applicable.
Advertisements	
PO 5.1 Freestanding advertisements identify the associated business without creating a visually dominant element within the streetscape.	DTS/DPF 5.1 Freestanding advertisements: (a) do not exceed 6m in height

	and (b) do not have a sign face that exceeds 4m^2 per side.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 92 - Meadows Concept Plan 91 - Nairne West Concept Plan 128 - Albert Park Concept Plan 121 - Kilkenny In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.
Ancillary Buildings and Structures	
PO 7.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 7.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) f situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 7.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 7.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 7.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 7.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

	2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation 14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation. 16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter	

Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Primary street setback - at least as far back as the building to which it is ancillary.
4. Secondary street setback - at least 900mm from the boundary of the allotment.
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation.

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Shade sail consists of permeable material
4. The total area of the sail - does not exceed 40m^2
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
9. Does not involve the clearance of native vegetation
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2
6. Post height - does not exceed 3m measured from natural ground level.
7. Building height - does not exceed 5m.
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. The tank is part of a roof drainage system.
4. Total floor area - not exceeding 15m^2.
5. The tank is located wholly above ground.
6. Tank height - does not exceed 4m above natural ground level.
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%

	201-450 | 20% >450 | 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

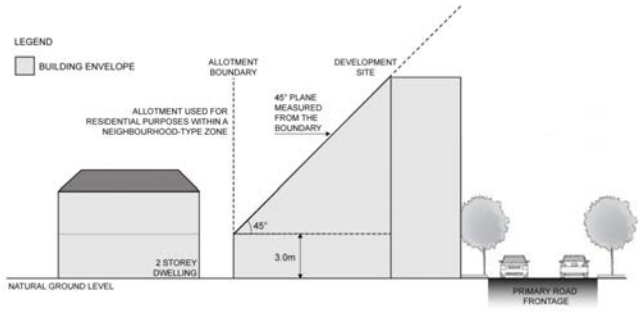
Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

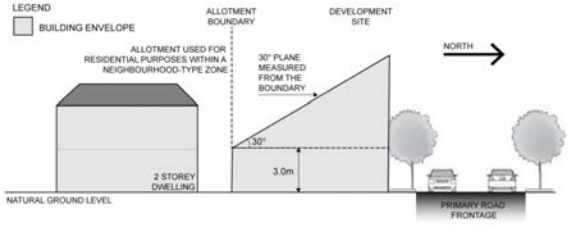
Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) ancillary accommodation (c) co-living (d) community facility (e) dwelling (f) residential flat building (g) student accommodation.	Except development that exceeds the maximum building height specified in Suburban Business Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Suburban Business Zone DTS/DPF 3.2 2. Suburban Business Zone DTS/DPF 3.3.
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that exceeds the maximum building height specified in Suburban Business Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Suburban Business Zone DTS/DPF 1.2 2. Suburban Business Zone DTS/DPF 3.2 3. Suburban Business Zone DTS/DPF 3.3.
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire. (p) tree damaging activity (q) verandah (r) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	

None specified.

Suburban Main Street Zone



Assessment Provisions (AP)



Desired Outcome (DO)

Desired Outcome	
DO 1	A mix of land uses including retail, office, commercial, community, civic and medium density residential development that supports the local area.
DO 2	A high degree of pedestrian activity and main street activity with well-lit and visually engaging shop fronts and business displays including alfresco seating and dining facilities.
DO 3	An intimate public realm with active streets created by integrated mixed use buildings.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation uses are supplemented by other businesses that provide a range of goods and services to the local community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Child care facility (c) Cinema (d) Co-living (e) Community facility (f) Consulting room (g) Dwelling (h) Health facility (i) Hotel (j) Indoor recreation facility (k) Library (l) Office (m) Place of worship (n) Shop (o) Tourist accommodation.
PO 1.2 Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, community and cultural facilities, and accommodation for visitors and residents.	DTS/DPF 1.2 None are applicable.
PO 1.3 Ground floor uses contribute to an active and vibrant main street.	DTS/DPF 1.3 Shop, office, or consulting room uses are located on the ground floor level of buildings.
PO 1.4 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities contribute to making the main street precinct and pedestrian thoroughfares pleasant and lively places.	DTS/DPF 1.4 Dwellings developed in conjunction with non-residential uses are sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.5 Tourist accommodation and visitor attractions support the visiting public and holiday makers.	DTS/DPF 1.5 None are applicable.
PO 1.6 Development is sited and designed to achieve or maintain a vibrant and interesting streetscape within retail areas.	DTS/DPF 1.6 Any of the following: (a) shop, other than a bulky goods outlet with a gross leasable floor area more than 500m^2 (b) cinema (c) hotel (d) licensed premises.
PO 1.7 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.7 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves: the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road or the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the building is a local heritage place or (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Buildings sensitively frame the main street and public spaces and provide overall visual relief from building height and mass.	DTS/DPF 2.1 Buildings: (a) include a clearly defined podium or street wall with a maximum building height of 1 building level or 4m in height and (b) have levels above the defined podium or street wall setback a minimum of 2m from that wall.
PO 2.2 Buildings preserve the main street appearance by complementing the key shop-front elements such as narrow buildings and tenancy footprints with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels (base stall boards) and recessed entries.	DTS/DPF 2.2 None are applicable.
PO 2.3 Pedestrian shelter and shade is provided over footpaths through the use of structures such as awnings, canopies and verandas.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential without the need for significant change to the building.	DTS/DPF 2.4 Ground floor levels of buildings incorporate a minimum ceiling height of 3.5m.
PO 2.5 Buildings create visual interest, promote an active interface with the main street frontage and maximise passive surveillance.	DTS/DPF 2.5 Not less than 50% of the ground floor primary frontage of buildings is visually permeable, transparent or clear glazed.

PO 2.6 Outbuildings, carports and garages located behind the primary building facing the main street ensure vibrancy and activity along the main street.	DTS/DPF 2.6 None are applicable.
PO 2.7 Development creates an efficient and convenient pedestrian network establishing linkages within the main street and to adjoining zones.	DTS/DPF 2.7 None are applicable.
Building height and setbacks	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is low-to-medium rise, where the height is commensurate with the development site's frontage and depth as well as the main street width, to complement the main street character.	DTS/DPF 3.1 Building height is: (a) no greater than: (i) the following: **Maximum Building Height (Metres)** Maximum building height is 8m Maximum building height is 9m Maximum building height is 10m Maximum building height is 12m Maximum building height is 14m Maximum building height is 24.5m Maximum building height is 28m Maximum building height is 10.5m Maximum building height is 20m Maximum building height is 48m Maximum building height is 13m Maximum building height is 17.5m Maximum building height is 21m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 5 levels Maximum building height is 6 levels Maximum building height is 7 levels Maximum building height is 12 levels (ii) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)): A. where the site has a frontage of at least 25m and depth of at least 50m - 4 building levels up to a height of 15m or B. in all other cases - 3 building levels up to a height of 12m and (b) not less than: **Minimum Building Height (Levels)** Minimum building height is 2 levels In relation to DTS/DPF 3.1, in instances where: (a) more than one value is returned is returned in the same field: (i) for the purpose of DTS/DPF 3.1(a)(i), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer or Maximum Building Height (Levels) layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (ii) for the purpose of DTS/DPF 3.1(b) refer to the *Minimum Building Height (Levels) Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) no value is returned for DTS/DPF 3.1(b) (ie there is a blank field), then there is no minimum building height and DTS/DPF 3.1(b) is met.
PO 3.2 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 3.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary):

PO 3.4 Buildings with no setbacks from road boundaries achieve a continuity of street façade to the main street, but with sections of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings with no setback from side boundaries achieve a continuity of street façade to the main street.	DTS/DPF 3.5 Except where contrary to DTS/DPF 3.2 or 3.3, building walls located on the site's side boundaries, with the front wall set back in line with neighbouring buildings.
PO 3.6 Buildings that are set back from rear boundaries (other than street boundaries) minimise impacts on neighbouring properties, including access to natural light and ventilation.	DTS/DPF 3.6 Buildings are set back a minimum 3 metres from rear boundaries where the subject land directly abuts an allotment of a different zone, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.
PO 3.7 Buildings are set back from rear access ways to provide adequate manoeuvrability for vehicles.	DTS/DPF 3.7 Buildings are set back from the rear access way have: (a) no requirement where the access way is 6.5m or more wide or (b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.
PO 3.8 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.8 None are applicable.
Traffic, parking and access	
PO 4.1 Development minimises the need for vehicle crossovers on the main street to reduce conflicts with pedestrians and avoid disruption to the continuity of built form.	DTS/DPF 4.1 None are applicable.
PO 4.2 Vehicle parking is located behind buildings away from the primary main street frontage and is designed to minimise its impacts on residential amenity.	DTS/DPF 4.2 Vehicle parking areas are located behind the building line of the associated building.
Advertisements	
PO 5.1 Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality (e) are sited and designed to not detract from the main street character.	DTS/DPF 5.2 Freestanding advertisements: (a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds $6m^2$ per side.
Land Division	
PO 6.1 Land division and site amalgamation creates allotments that are suitable for a variety of residential and commercial activities and improve the level of development integration.	DTS/DPF 6.1 None are applicable.
Concept Plans	
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton In relation to DTS/DPF 7.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 7.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land	

Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment, the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Temporary public service depot Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay	1. Occupies land for no longer than 3 months 2. Ensures litter and water are contained on site 3. Provides temporary security fencing around the perimeter of the site.

• State Heritage Place Overlay • Traffic Generating Development Overlay • Urban Transport Routes Overlay	
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) child care facility (c) cinema (d) co-living (e) community facility (f) consulting room (g) dwelling located above a non-residential building level (h) indoor recreation facility (i) library (j) office (k) place of worship (l) shop (m) temporary public service depot (n) tourist accommodation.	Except development that exceeds the maximum building height specified in Suburban Main Street Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Suburban Main Street Zone DTS/DPF 3.2 2. Suburban Main Street Zone DTS/DPF 3.3.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Suburban Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Low density housing is consistent with the existing local context and development pattern. Services and community facilities contribute to making the neighbourhood a convenient place to live without compromising residential amenity and character.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly low density residential development with complementary non-residential uses compatible with a low density residential character.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Educational facility (h) Office (i) Place of Worship (j) Recreation area (k) Shop (l) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.4 Alteration of or addition to existing educational facilities, community facilities or child care facilities satisfy all of the following: (a) are set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 1.5 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.5 None are applicable.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are of suitable size and dimension and are compatible with the housing pattern consistent to the locality.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 325 sqm; semi-detached dwelling is 325 sqm
Minimum site area for a detached dwelling is 325 sqm; semi-detached dwelling is 325 sqm; row dwelling is 325 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 375 sqm; semi-detached dwelling is 375 sqm; row dwelling is 375 sqm; group dwelling is 375 sqm; residential flat building is 375 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 375 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm; group dwelling is 300 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm; row dwelling is 280 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 420 sqm
Minimum site area for a detached dwelling is 425 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm;

Minimum Site Area
residential flat building is 400 sqm
Minimum site area for a detached dwelling is 440 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 325 sqm; row dwelling is 300 sqm; group dwelling is 450 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 400 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 400 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 400 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 450 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 300 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 400 sqm; row dwelling is 500 sqm; group dwelling is 350 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 425 sqm; row dwelling is 400 sqm; group dwelling is 400 sqm; residential flat building is 400 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 450 sqm; row dwelling is 300 sqm; group dwelling is 500 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 425 sqm; row dwelling is 425 sqm; group dwelling is 425 sqm; residential flat building is 425 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 450 sqm; row dwelling is 450 sqm; group dwelling is 450 sqm; residential flat building is 450 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 550 sqm; semi-detached dwelling is 550 sqm; row dwelling is 550 sqm; group dwelling is 550 sqm; residential flat building is 550 sqm
Minimum site area for a detached dwelling is 600 sqm; group dwelling is 600 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 450 sqm; group dwelling is 500 sqm
Minimum site area for a detached dwelling is 600 sqm; semi-detached dwelling is 600 sqm; row dwelling is 600 sqm; group dwelling is 600 sqm; residential flat building is 600 sqm
Minimum site area for a detached dwelling is 625 sqm; semi-detached dwelling is 500 sqm; row dwelling is 500 sqm; group dwelling is 500 sqm; residential flat building is 500 sqm
Minimum site area for a detached dwelling is 625 sqm; semi-detached dwelling is 600 sqm; row dwelling is 600 sqm; group dwelling is 600 sqm; residential flat building is 600 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 400 sqm; group dwelling is 700 sqm
Minimum site area for a detached dwelling is 750 sqm; semi-detached dwelling is 750 sqm; row dwelling is 750 sqm; group dwelling is 750 sqm; residential flat building is 750 sqm
Minimum site area is 1,500 sqm
Minimum site area is 350 sqm
Minimum site area is 400 sqm
Minimum site area is 420 sqm
Minimum site area is 450 sqm
Minimum site area is 500 sqm
Minimum site area is 800 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm

(b) site frontages (or allotment frontage in the case of land division) are not less than:

Minimum Frontage
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 22m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 25m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; group dwelling is 18m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 15m; group dwelling is 20m; residential flat building is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 15m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 12m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 14m; residential flat building is 14m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 18m; row dwelling is 18m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 9m; group dwelling is 24m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7.5m; row dwelling is 7m; group dwelling is 22m; residential flat building is 22m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 15m; group dwelling is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m

	Minimum Frontage Minimum frontage is 10m Minimum frontage is 12m Minimum frontage is 20m In relation to DTS/DPF 2.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) no value is returned in (a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 2.2 Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment: (a) the balance of the allotment accords with site area and frontage requirements specified in Suburban Neighbourhood Zone DTS/DPF 2.1 and (b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene: (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site coverage	
PO 3.1 Building footprints consistent with the character and pattern of a low-density suburban neighbourhood and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.	DTS/DPF 3.1 The development does not result in site coverage exceeding 50%.
Building Height	
PO 4.1 Buildings contribute to a low-rise suburban character and complement the height of nearby buildings.	DTS/DPF 4.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 12m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m. In relation to DTS/DPF 4.1, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Meters) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
Primary Street Setback	
PO 5.1 Buildings are setback from primary street boundaries consistent with the existing streetscape.	DTS/DPF 5.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 8m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 8m For the purposes of **DTS/DPF 5.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 6.1 Buildings are set back from secondary street boundaries (not being a rear laneway) to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 6.1 Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a building (except for ancillary buildings and structures) on adjoining allotment is closer to the secondary street than 900mm, not less than the distance of that building from the boundary with the secondary street.
Boundary Walls	
PO 7.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 7.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are setback from side boundaries shared with allotments outside the development site at least the minimum distance identified in DTS/DPF 8.1.
Side Boundary Setback	
PO 8.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 9.1 Buildings are set back from rear boundaries to provide:	DTS/DPF 9.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least:

(a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	(a) if the size of the site is less than 301 square metres— (i) 3m in relation to the ground floor of the building (ii) 5m in relation to any other building level of the building (b) if the size of the site is 301 square metres or more— (i) 4m in relation to the ground floor of the building (ii) 6m in relation to any other building level of the building.

Concept Plans

PO 10.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 10.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 87 - Hindmarsh Road Concept Plan 94 - Old Reynella Concept Plan 148 - Lockleys Concept Plan 144 - Old Swanport Road Concept Plan 145 - Bremer Road Concept Plan 146 - Commerce Road In relation to DTS/DPF 10.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.

Ancillary Buildings and Structures

PO 11.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 11.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 11.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 11.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas
PO 11.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 11.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

Advertisements

PO 12.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 12.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:	1. The item will be installed on or within an existing dwelling.

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The item being installed does not encroach on a public street.
3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.

Brush fence

Except where any of the following apply:

- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The fence is formed (wholly or partially) from brush
2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)
3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)
4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.

Building alterations

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The alteration does not:
   (a) increase the floor area of the building
   (b) exceed the existing wall height
   (c) exceed the existing overall building height
   (d) alter the roof profile
   (e) alter an approved privacy screening arrangement or window treatment
   (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.

Building work on railway land

Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. Building work is associated with a railway
2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)
3. It is required for the conduct or maintenance of railway activities
4. It does not involve the clearance of native vegetation
5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay
7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Carport

Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m^2
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)
7. Building height - does not exceed 5m
8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
10. Site coverage does not exceed 50%.
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 30% of the width of the allotment frontage (whichever lesser)
12. The carport is located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
        (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
        (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
14. Does not involve the clearance of native vegetation
15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
    (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

    (b) the amount of existing soft landscaping prior to the development occurring
16. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
17. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Outbuilding

Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
6. Total floor area - does not exceed 40m^2
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
8. Building height - does not exceed 5m
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
    (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
11. Site coverage does not exceed 50%
12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
13. The garage located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average

	(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 19. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed $40m^2$ 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted; 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

[BLANK]

Table 3 - Applicable Policies for Performance Assessed Development

[BLANK]

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Shop with a gross leasable floor area less than 1000m^2

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation	Except development that:

(b) co-living (c) dwelling (d) dwelling addition (e) residential flat building (f) retirement facility (g) supported accommodation.	1. exceeds the maximum building height specified in Suburban Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Alteration of or addition to any of the following (or of any combination of any of the following): (a) child care facility (b) community facility (c) educational facility.	Except where development does not satisfy Suburban Neighbourhood Zone DTS/DPF 1.4.
6. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Suburban Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy Suburban Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
8. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire. (q) tree damaging activity (r) verandah (s) water tank.	None specified.
