Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) residential flat building.	Except development that: 1. exceeds the maximum building height specified in Established Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Established Neighbourhood Zone DTS/DPF 1.2 or 2. exceeds the maximum building height specified in Established Neighbourhood Zone DTS/DPF 4.1 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area	None specified.

(k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	
6. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
7. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
8. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

General Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Low-rise, low and medium-density housing that supports a range of needs and lifestyles located within easy reach of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Educational facility (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Student accommodation (o) Supported accommodation
PO 1.2 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.4 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.5 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.5 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a low-rise and predominantly low-density neighbourhood, with higher densities closer to public open space, public transport stations and activity centres.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following:

Dwelling Type	Minimum site/allotment area per dwelling	Minimum site/allotment frontage
Detached dwelling (not in a terrace arrangement)	300m² (exclusive of any battle-axe allotment 'handle')	9m where not on a battle-axe site 5m where on a battle-axe site
Semi-detached dwelling	300m²	9m
Row dwelling (or detached dwelling in a terrace arrangement)	250m²	7m (averaged)
Group dwelling	300m² (average, including common areas)	15m (total)
Dwelling within a residential flat building	300m² (average, including common areas)	15m (total)

PO 2.2

Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.

DTS/DPF 2.2

Where the site of a dwelling does not comprise an entire allotment:

(a) the balance of the allotment accords with site area and frontage requirements specified in General Neighbourhood Zone DTS/DPF 2.1 and
(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene:
  (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space
  (ii) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

PO 2.3

Land division results in sites that are accessible and suitable for their intended purpose.

DTS/DPF 2.3

Division of land satisfies (a), (b) or (c):

(a) reflects the site boundaries illustrated and approved in an existing development authorisation under the Development Act 1993 or Planning, Development and Infrastructure Act 2016 where the allotments are used or are proposed to be used solely for residential purposes
(b) is proposed as part of a combined land division application with deemed-to-satisfy dwellings on the proposed allotments
(c) satisfies all of the following:
  (i) No more than 5 additional allotments are created
  (ii) Each proposed allotment has a minimum site area of 300m² and frontage of 9m
  (iii) Each proposed allotment has a slope less than 12.5% (1-in-8)
  (iv) There are no regulated trees on or within 20m of the subject land, with the distance measured from the base of the trunk of the tree (or the nearest trunk of the tree) to the subject land
  (v) The division does not involve creation of a public road
  (vi) Vehicle access from a public road can be provided to all proposed allotments which satisfies Design in Urban Areas DTS/DPF 23.3, 23.4 and 23.6, and would be located wholly on one side of the allotment, or located no more than 1m from the side boundary alignment
  (vii) No allotments are in a battle-axe configuration and
  (viii) Each proposed allotment is of a size and dimension capable of containing a rectangle 9m in width and 15m in depth.

Site Coverage

PO 3.1

Building footprints allow sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 3.1

The development does not result in site coverage exceeding 60%.

Building Height

PO 4.1

Buildings contribute to a low-rise suburban character.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) no greater than 2 building levels and 9m and wall height that is no greater than 7m (not including a gable end).

Primary Street Setback

PO 5.1

Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings on the abutting sites minus 1m.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building minus 1m.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m

For the purposes of **DTS/DPF 5.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 6.1

Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.

DTS/DPF 6.1

Building walls are set back from the boundary of the allotment with a secondary street frontage:

(a) at least 900mm or
(b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, not less than the distance of that building from the boundary with the secondary street.

Boundary Walls

PO 7.1

Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 7.1

Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:

(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
(b) side boundary walls do not:
  (i) exceed 3m in wall height
  (ii) exceed 11.5m in length
  (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
  (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.

PO 7.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 7.2

Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side boundary setback

PO 8.1

Building walls are set back from side boundaries to provide:

(a) separation between buildings in a way that contributes to a suburban character and
(b) access to natural light and ventilation for neighbours.

DTS/DPF 8.1

Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:

(a) where the wall height does not exceed 3m - at least 900mm
(b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings
(c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.

Rear boundary setback

PO 9.1

Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide:

DTS/DPF 9.1

Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least:

(a) separation between buildings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	(a) if the size of the site is less than 301m2— (i) 3m in relation to the ground floor of the building (ii) 5m in relation to any other building level of the building (b) if the size of the site is 301m2 or more— (i) 4m in relation to the ground floor of the building (ii) 6m in relation to any other building level of the building.
Concept Plans	
PO 10.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 10.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton Concept Plan 9 - Blakeview Concept Plan 10 - Blakeview Concept Plan 50 - Roseworthy Town Expansion Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 94 - Old Reynella Concept Plan 107 - Proper Bay Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 117 - Narooma Concept Plan 129 - O'Sullivan Beach Concept Plan 175 - Smithfield Regeneration In relation to DTS/DPF 10.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.
Ancillary Buildings and Structures	
PO 11.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 11.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) have a door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 11.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 11.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 11.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 11.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 12.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 12.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Site coverage does not exceed 60%. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 16. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 17. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Site coverage does not exceed 60%. 11. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;

	(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** — **Minimum percentage of site** <150 — 10% 150-200 — 15% 201-450 — 20% >450 — 25% (b) the amount of existing soft landscaping prior to the development occuring 19. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** — **Minimum percentage of site** <150 — 10% 150-200 — 15% 201-450 — 20% >450 — 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** — **Minimum percentage of site** <150 — 10% 150-200 — 15% 201-450 — 20% >450 — 25%

	(b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Site coverage does not exceed 60%. 10. Does not involve the clearance of native vegetation 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.1 Site Coverage DTS/DPF 3.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.2, DTS/DPF 19.4 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2 Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1	None	Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:

	(a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) dwelling addition (e) residential flat building (f) retirement facility (g) student accommodation (h) supported accommodation.	Except development that: 1. does not satisfy General Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where not located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) General Neighbourhood Zone DTS/DPF 1.4 (b) General Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
8. Alteration of or addition to any development involving the following (or of any combination of any of the following): (a) child care facility (b) community facility (c) educational facility.	Except development that does not satisfy General Neighbourhood Zone DTS/DPF 1.5.
9. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
10. Demolition.	Except any of the following:

	1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Golf Course Estate Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A golf course and associated club facilities as well as housing and tourism development sensitively integrate with natural features such as topography, vegetation and watercourses. Services and facilities support recreation and tourism.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Recreation, housing and complementary uses support tourism and residential living in a golf course setting.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Co-living (b) Consulting room (c) Dwelling (d) Golf course (e) Office (f) Outbuilding (g) Residential flat building (h) Retirement facility (i) Shop (j) Sporting clubrooms (k) Supported accommodation (l) Tourist accommodation.
PO 1.2 Non-residential development is complementary to a golf course, such as tourist accommodation, sporting clubrooms and associated shops.	DTS/DPF 1.2 None are applicable.
PO 1.3 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.3 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it is ancillary to and integrated with golf course facilities.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are consistent with the density and dimensions expressed in any relevant *Minimum Site Area Technical and Numeric Variation* and *Minimum Frontage Technical and Numeric Variation*, or are otherwise generally consistent with the prevailing pattern of development in the locality and suitable for their intended use.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System: (i) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building): **Minimum Site Area** Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm; group dwelling is 300 sqm Minimum site area is 1,200 sqm Minimum site area is 450 sqm Minimum site area is 5,000 sqm Minimum site area is 700 sqm (ii) site frontages are not less than: **Minimum Frontage** Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; group dwelling is 18m Minimum frontage is 15m Minimum frontage is 20m (b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service: (i) site areas are not less than the greater of: A. 1200m^2 B. the following: **Minimum Site Area** Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 300 sqm; group dwelling is 300 sqm Minimum site area is 1,200 sqm Minimum site area is 450 sqm Minimum site area is 5,000 sqm Minimum site area is 700 sqm (ii) site frontages are not less than the greater of: A. 20m B. the following: **Minimum Frontage** Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 20m; residential flat building is 20m Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; group dwelling is 18m Minimum frontage is 15m Minimum frontage is 20m In relation to DTS/DPF 2.1, in instances where: (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

	(d) no value is returned for DTS/DPF 2.1(a)(i) and/or (ii) (i.e. there is a blank field), then non are applicable and the relevant development cannot be classified as deemed-to-satisfy (e) no value is returned for 2.1(b)(i)(B) and/or 2.1(b)(ii)(B) (i.e. there is a blank field), then the value for 2.1(b)(i)(B) and/or 2.1(b)(ii)(B) is zero.
PO 2.2 Development results in sites suitable for their intended purpose.	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment: (a) The balance of the allotment accords with site areas and frontage requirements specified in DTS / DPF 2.1 and DTS/DPF 2.2 and (b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene: (i) Private open space requirements specified in Design Table 1 - Private Open Space (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height	
PO 3.1 Buildings of a height that complements the open natural character of the golf course.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) are no greater than 2 building levels and 9m and wall height is no greater than 7m except in the case of gable end.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 Buildings setback from the primary street boundary in accordance with the following table: <table><tr><th>Development Context</th><th>Minimum setback</th></tr><tr><td>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.</td><td>The average setback of the existing buildings.</td></tr><tr><td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.</td><td>The setback of the existing building.</td></tr><tr><td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.</td><td>(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m</td></tr><tr><td>There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.</td><td>5m</td></tr></table> For the purposes of **DTS/DPF 4.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 5.1 Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 6.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 6.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3.2 m in wall height from the lower of the natural or finished ground level (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
Side Boundary Setback	
PO 7.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 7.1 Building walls are set back from the side boundary in accordance with the following: (a) On sites greater than 800m^2: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level. (b) On sites 800m^2 or less: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 8.1 Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide: (a) separation between buildings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation (e) a consistent character when viewed from a golf course.	DTS/DPF 8.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least: (a) where the rear boundary fronts a golf course, no less than the average rear setback of any existing buildings (excluding ancillary buildings and structures) on adjoining allotments. (b) where the rear boundary adjoins a laneway - 0m (c) In all other cases: (i) 3m for the first building level and (ii) 5m for any second building level.
Ancillary Buildings and Structures	
PO 9.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 9.1 Ancillary buildings and structures satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the site (b) have a floor area not exceeding: (i) 60m^2 on sites less than 800m^2 (ii) 80m^2 on sites 800m^2 or more (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary (ii) within 5.5m from the boundary of the primary street (iii) within 900mm of a boundary of the allotment with a secondary street (d) in the case of a garage or carport, do not exceed 7m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), a length not exceeding 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary do not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:

	(i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 9.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision and car parking requirements.	DTS/DPF 9.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 9.3 Ancillary buildings are sited and designed to minimise visibility from the golf course and not dominate the appearance of public places.	DTS/DPF 9.3 None are applicable.
PO 9.4 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 9.4 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Site Coverage	
PO 10.1 Building footprints are generally consistent with the prevailing pattern of development and retain sufficient space around buildings to limit visual impact and enable attractive outlook and access to light and ventilation.	DTS/DPF 10.1 The development does not result in site coverage exceeding 60%.
Built Form and Character	
PO 11.1 Dwellings on sites/allotments that overlook the golf course are designed to take advantage of golf course views while providing attractive frontages to public streets.	DTS/DPF 11.1 None are applicable.
PO 11.2 Service areas associated with dwellings such as open storage and clothes drying are screened from the golf course and public view.	DTS/DPF 11.2 None are applicable.
Concept Plans	
PO 12.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 12.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 122 - Mount Compass Golf Course Estate In relation to DTS/DPF 12.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 12.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply:	None

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

Private bushfire shelter
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Primary street setback - at least as far back as the building to which it is ancillary.
4. Secondary street setback - at least 900mm from the boundary of the allotment.
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation.

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Shade sail consists of permeable material
4. The total area of the sail - does not exceed 40m^2
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
9. Does not involve the clearance of native vegetation
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996.*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996.*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2
6. Post height - does not exceed 3m measured from natural ground level.
7. Building height - does not exceed 5m.
8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment.
9. Site coverage does not exceed 60%.
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996.*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. The tank is part of a roof drainage system.
4. Total floor area - not exceeding 15m^2.
5. The tank is located wholly above ground.
6. Tank height - does not exceed 4m above natural ground level.
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

	(a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Deck Except where any of the following apply: • Coastal Areas Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Site Coverage DTS/DPF 10.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1 Design [Decks [Design and Siting]] DTS/DPF 33.1, DTS/DPF 33.2, DTS/DPF 33.3 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Character Preservation District Overlay [Earthworks] DTS/DPF 4.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Land division Except where any of the following apply: • Environment and Food Production Area Overlay	None	Land Division [All land division [Allotment configuration]] DTS/DPF 1.1	None	Limited Land Division Overlay [General] DTS/DPF 1.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None
Verandah Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Ancillary Buildings and Structures DTS/DPF 9.1, DTS/DPF 9.2, DTS/DPF 9.4 Site Coverage DTS/DPF 10.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Historic Shipwrecks Overlay [General] DTS/DPF 1.1 Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] DTS/DPF 3.4, DTS/DPF 3.9 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.5

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Character Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Character Preservation District Overlay [Land Use and Intensity]
PO 1.2

Character Preservation District Overlay [Built Form and Character]
PO 2.1, PO 2.2, PO 2.3

Character Preservation District Overlay [Built Form and Character in the Rural Area]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6

Character Preservation District Overlay [Earthworks]
PO 4.1

Coastal Areas Overlay [Hazard Risk Minimisation]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1, PO 3.2

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.1, PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Alterations and additions]
PO 3.1, PO 3.2

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) golf course (e) office (f) residential flat building (g) shop (h) sporting clubrooms (i) supported accommodation.	Except development that: 1. does not satisfy Golf Course Estate Zone DTS/DPF 3.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
3. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Hills Face Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	To maintain the western slopes of the South Mount Lofty Ranges as an important natural asset of Greater Adelaide by limiting development to low-intensity agricultural activities and public and private open space. The natural character of the zone will be preserved, enhanced and re-established to: (a) provide a natural backdrop to the Adelaide Plain and a contrast to the urban area (b) preserve biodiversity and restore locally indigenous vegetation and fauna habitats close to metropolitan Adelaide (c) provide for passive recreation in an area of natural character close to the metropolitan area (d) provide a part of the buffer area between metropolitan districts and prevent the urban area extending into the western slopes of the Mount Lofty Ranges. 'Natural character' refers to the natural topography, native vegetation and colours, such as greens and browns of non-reflective earthen tones, normally associated with a natural landscape. Additionally, natural character refers to the open character of the land in those areas of the zone where open grazing currently predominates.
DO 2	Development ensures that the community is not required to bear the cost of providing services to and within the Zone.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Low-intensity, low-scale activities that complement the natural, rural and scenic qualities of the hills face landscape.	DTS/DPF 1.1 None are applicable.
PO 1.2 Low-intensity farming activities minimise their visual and environmental impact.	DTS/DPF 1.2 Farming does not involve: (a) excavation or filling of land (b) the construction of roads, tracks and thoroughfares (c) the erection, construction or alteration of, or addition to, any building or structure (d) the clearing of native vegetation.
PO 1.3 Development does not in itself, or in association with other development, create a potential demand for the provision of services at a cost to the community.	DTS/DPF 1.3 None are applicable.
PO 1.4 Residential development limited to maintain a pleasant natural and rural character and amenity.	DTS/DPF 1.4 Detached dwellings of not more than one building level and comprising no more than one dwelling on an allotment.
Built Form and Character	
PO 2.1 Buildings are unobtrusive and sited and designed in such a way as to: (a) preserve and enhance or assist in the re-establishment of the natural character of the zone (b) limit the visual intrusion of development in the Zone particularly when viewed from roads within the zone or from the Adelaide Plain.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings are limited in height and scale to minimise the amount of building mass visible from the Adelaide Plains.	DTS/DPF 2.2 Buildings satisfy all of the following: (a) are of single building level (b) building height does not exceed 5m (c) wall height does not exceed 3m (not including gable ends).
PO 2.3 Where possible and without compromising the desired outcomes of the Zone, buildings are grouped together (but not attached) to limit the spread of built development that can be viewed from the Adelaide Plains.	DTS/DPF 2.3 None are applicable.
PO 2.4 Buildings are located within valleys or behind spurs or positioned well below the ridge line so that they are not visible against the skyline when viewed from roads within the zone or from the Adelaide Plains.	DTS/DPF 2.4 None are applicable.
PO 2.5 Buildings are sited in unobtrusive locations and utilise existing vegetation and natural features of the land to assist in obscuring them from sight when viewed from roads within the zone and from the Adelaide Plains.	DTS/DPF 2.5 None are applicable.
PO 2.6 Buildings are well set back from public roads, particularly where the allotment of the development is on the high side of the road.	DTS/DPF 2.6 None are applicable.
PO 2.7 Buildings are designed and sited to keep roof lines below the lowest point of the abutting road when the allotment is on the low side of the road.	DTS/DPF 2.7 None are applicable.
PO 2.8 Buildings are sited and designed to reduce the vertical profile of the building.	DTS/DPF 2.8 None are applicable.
PO 2.9 Buildings comprise materials that are of a low light reflective nature and use colours that are unobtrusive and blend with a natural and rural landscape.	DTS/DPF 2.9 None are applicable.
PO 2.10 Buildings have a safe, clean, tidy and unobtrusive area for the storage and disposal of refuse so that the natural character of the zone is not adversely affected.	DTS/DPF 2.10 None are applicable.
Excavation and Filling	
PO 3.1 Excavation and/or filling of land outside townships and urban areas is: (a) kept to a minimum so as to preserve the natural form of the land and native vegetation (b) only undertaken in order to reduce the visual impact of buildings, including structures, or in order to construct water storage facilities for use on the allotment (c) directly required for the portion of a building that is fully underground, an underground dwelling, underground tank, cellar, pipeline or waste disposal and treatment system.	DTS/DPF 3.1 The depth of earthworks does not exceed: (a) in the case of excavation, 2m below natural ground level. (b) in the case of filling of land, 1m above natural ground level.
PO 3.2 Excavation and/or filling of land is only undertaken if the resultant slope can be stabilised to prevent erosion, and results in stable scree slopes which are covered with top soil and landscaped so as to preserve and enhance the natural character or assist in the re-establishment of the natural character of the area.	DTS/DPF 3.2 None are applicable.
Mining	
PO 4.1 New mines and quarries not developed within the zone.	DTS/DPF 4.1 Development does not involve the construction of a new mine or quarry.
PO 4.2 Extensions to existing mines and quarries is only undertaken if: (a) the overall benefit to the community from the minerals produced together with the planned after-use of the site outweighs any loss of amenity or other resources resulting from the extractive operations (b) the site contains minerals of the necessary quality and, for reasons of location, quality or other factors, no practical alternative source is available (c) the proposed operation would maximise the utilisation of the resource but minimise the adverse impacts of extraction (d) the proposed workings cannot be seen from any part of the Adelaide Plain nor from any arterial road, scenic road or other substantial traffic route (e) an effective buffer of land and native trees exists around the site to protect adjoining land users from effects of the operation (f) the operation is to be conducted in accordance with a staged development and rehabilitation scheme which: (i) ensures that danger and unreasonable damage or nuisance does not arise from workings or any operations associated with them (ii) provides for progressive rehabilitation of disturbed areas and for landscaping with locally indigenous plant species in order to produce a site which assists in the re-establishment of a natural character	DTS/DPF 4.2 None are applicable.

(iii) provides for the removal of buildings, plant, equipment and rubbish when operations are completed (iv) provides scope for suitable after-uses.	
Landfill and Waste Transfer Stations	
PO 5.1 Landfill operations only developed if the site of the proposed development: (a) is located outside the Mount Lofty Ranges Catchment (Area 1) Overlay and (b) is a disused quarry or (c) has ground slopes no greater than 10% and has adequate separation distances from any above ground and underground water resource and from any potentially incompatible land uses and activities.	DTS/DPF 5.1 None are applicable.
PO 5.2 Small-scale waste transfer stations may be appropriate if located: (a) outside of the Mount Lofty Ranges Catchment (Area 1) Overlay (b) in unobtrusive locations.	DTS/DPF 5.2 None are applicable.
Horticulture	
PO 6.1 Horticultural activities are appropriately located to minimise impacts on native vegetation.	DTS/DPF 6.1 Horticulture, other than where it involves the growing of olives, is located no closer than 50m to stands of significant native vegetation, including native grasses.
PO 6.2 Horticulture involving the growing of olives is avoided or is progressively replaced where it exists to maintain and improve native vegetation and conservation values within the zone.	DTS/DPF 6.2 The replacement of olive groves with another form of horticulture or native vegetation.
PO 6.3 Horticultural activities are appropriately located to minimise impacts on lakes, watercourses and wetlands.	DTS/DPF 6.3 Horticulture is located no closer than 50m to a lake, watercourse or wetland.
PO 6.4 Horticultural activities incorporate a suitably sized vegetated buffer area/strip to mitigate any adverse impacts from the horticultural activity (including noise, chemical spray drift and run-off) on nearby dwellings, tourist accommodation or other sensitive receivers in other ownership.	DTS/DPF 6.4 Horticultural activities are greater than 300m from a dwelling, tourist accommodation or other sensitive receiver in other ownership.
Tourist Development	
PO 7.1 Tourist facilities are of a low intensity and low-scale and are sited unobtrusively.	DTS/DPF 7.1 None are applicable.
Driveways, Access Tracks and Car parking	
PO 8.1 Driveways, access tracks and car parking areas constructed in a manner which preserves landscape character and are: (a) sited and constructed to follow contours of the land to reduce their visual impact and potential for erosion from water runoff (b) surfaced with dark materials.	DTS/DPF 8.1 None are applicable.
PO 8.2 Driveways and access tracks are limited in length and avoid steep slopes.	DTS/DPF 8.2 Driveways and access tracks: (a) are not more than 30m in length and (b) have a gradient of less than 16 degrees (1-in-3.5) at any point along the driveway or access track.
Infrastructure	
PO 9.1 Telecommunication facilities, communication towers and masts: (a) are sited and designed to minimise their visual impact (b) contain the number of aerials and masts by shared use of facilities	DTS/DPF 9.1 None are applicable.
PO 9.2 Telephone lines and electricity mains and services of less than 33kV are located underground.	DTS/DPF 9.2 None are applicable.
PO 9.3 New telephone lines, mains and services are located and designed in such a way as to minimise their visual intrusion and any adverse effect on the natural character of the zone.	DTS/DPF 9.3 None are applicable.
Environment and Amenity	
PO 10.1 Development is not undertaken if it is likely to result in: (a) pollution of underground or surface water resources (b) over exploitation of underground or surface water resources (c) adverse impact on underground or surface water resources, including any environmental flows required to sustain the natural environment.	DTS/DPF 10.1 None are applicable.
PO 10.2 Development not undertaken if it is likely to result in: (a) unnecessary loss or damage to native vegetation including the full range of tree, understorey and groundcover species/ native grasses so as to maintain and enhance environmental values and functions, including conservation, biodiversity and habitat (b) denudation of pastures (c) the introduction of or an increase in the number of pest plants or vermin.	DTS/DPF 10.2 None are applicable.
PO 10.3 Development is not undertaken if it is likely to result in adverse impacts from chemical spray drift, chemical run-off or chemical residue in soils.	DTS/DPF 10.3 None are applicable.
PO 10.4 Development is not undertaken if it is likely to result in loss of amenity to adjoining land or surrounding localities from: (a) the visual impact of buildings, structures or earthworks (b) the intensity of activity associated with any such use, including significant adverse impacts arising from: (i) chemical spray drift (ii) use of audible bird or animal deterrent devices (iii) the use of associated vehicles and machinery.	DTS/DPF 10.4 None are applicable.
PO 10.5 Development does not occur on land if the slope poses an unacceptable risk of soil movement, landslip or erosion.	DTS/DPF 10.5 None are applicable.
PO 10.6 Buildings, structures are not located in areas subject to inundation by a 1% AEP flood event.	DTS/DPF 10.6 Development is located outside of the 1% AEP flood event.
PO 10.7 Buildings, structures and associated fill do not interfere with the flow of flood waters.	DTS/DPF 10.7 None are applicable
Native Vegetation	
PO 11.1 Development is only undertaken if it can be located and designed to maximise the retention of existing native vegetation and, if possible, increase the extent of locally indigenous plant species.	DTS/DPF 11.1 None are applicable.
PO 11.2 Development is screened by locally indigenous plant species or use of screening mounds, including scree slopes created as a result of excavation and/or filling of land, in such a way that the bushfire hazard is not increased.	DTS/DPF 11.2 None are applicable.
PO 11.3	DTS/DPF 11.3

Any essential clearance of native vegetation is accompanied by conservation initiatives, including replanting with indigenous native vegetation, to ensure the overall result is a biodiversity gain.	None are applicable.
Fencing and Retaining Walls	
PO 12.1 Retaining walls are constructed as a stepped series of low walls constructed of dark, natural coloured materials and screened by landscaping using locally indigenous plant species if possible.	DTS/DPF 12.1 None are applicable.
PO 12.2 Fences: (a) are sited to minimise their visual impact (b) are constructed of post and wire or other materials which can be seen through (c) avoid construction of obtrusive gateways, particularly of brick or masonry.	DTS/DPF 12.2 None are applicable.
PO 12.3 When solid fences are essential, particularly rear and side fences in closely divided areas, they: (a) are constructed of materials which are of a low-light reflective nature and of dark natural colours to blend with the natural landscape and minimise any visual intrusion (b) do not increase the fire risk near buildings.	DTS/DPF 12.3 None are applicable.
Advertisements	
PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.
Land Division	
PO 14.1 Land division does not result in the creation of an additional allotment.	DTS/DPF 14.1 No additional allotments are created.
PO 14.2 Land division involving boundary realignments occurs only where it supports the management or improvement of the natural environment including avoiding further fragmentation of land that may reduce effective management of the environment or diminishing the natural character of the area.	DTS/DPF 14.2 Land division involving boundary realignment satisfies at least one of the following: (a) is for the creation of a public road or reserve (b) is to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures (c) is for the management of existing native vegetation.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Protective tree netting structure Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. *The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas* 3. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 4. No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 5. Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 6. In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire - Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as 'auger' or 'anchor' points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 7. No part of the netting canopy of the protective tree netting structure: (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 8. The points of attachment of any cables will not be located: (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the *Landscape South Australia Act 2019*) 9. In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Farming	Land Use and Intensity DTS/DPF 1.2	None	None	None
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Caravan and tourist park	None specified
Dwelling	Detached dwelling that does not result in more than one dwelling on an allotment.
Educational facility	None specified
Electricity generating station	None specified
Horticulture involving olive growing	None specified
Industry	Light industry
Intensive Animal Husbandry	None specified
Land division	Land division that is a boundary realignment
Landfill	None specified
Prescribed mining operations	None specified
Renewable energy facility	Any of the following: (a) solar photovoltaic panels (roof or ground mounted) (b) battery storage facility For domestic use (i.e., principally used to supply and/or store electricity to the existing use of land).
Residential flat building	None specified
Telecommunications facility	None specified
Transport depot	None specified
Waste reception, storage, treatment or disposal	None specified
Wrecking yard	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) dwelling (b) dwelling addition (c) temporary public transport depot.	Except any of the following: 1. any building that is not a dwelling or ancillary to a dwelling 2. development where the building height exceeds 5m 3. development with a wall height or post height that exceeds 3m above natural ground level.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).

5. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Hills Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development provides a complementary transition to adjacent natural and rural landscapes. Low density housing minimises disturbance to natural landforms and existing vegetation to mitigate the visible extent of buildings, earthworks and retaining walls.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly low density residential development with complementary non-residential uses compatible with natural landforms and a low density residential character.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Consulting room (c) Dwelling (d) Office (e) Open space (f) Shop (g) Recreation area.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.4 None are applicable.
PO 1.5 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.5 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate residential development that is sensitive to the natural topography and compatible with the housing pattern in the locality.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building): **Gradient Minimum Site Area** Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 2000sqm; 1-in-8 to 1-in-4 is 2000sqm; greater than 1-in-4 is 2000sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 500sqm; greater than 1-in-4 is 500sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 550sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 600sqm; 1-in-8 to 1-in-4 is 700sqm; greater than 1-in-4 is 900sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 625sqm; 1-in-8 to 1-in-4 is 625sqm; greater than 1-in-4 is 625sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 800sqm; greater than 1-in-4 is 950sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 750sqm; 1-in-8 to 1-in-4 is 750sqm; greater than 1-in-4 is 750sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 1000sqm; 1-in-8 to 1-in-4 is 1000sqm Minimum site area for all dwellings where the site gradient is less than 1-in-8 is 2200sqm; 1-in-8 to 1-in-4 is 2200sqm; greater than 1-in-4 is 2200sqm **Gradient Minimum Site Area (Detached)** Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1000sqm; 1-in-8 to 1-in-4 is 1000sqm; greater than 1-in-4 is 1000sqm Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1200sqm; 1-in-8 to 1-in-4 is 1500sqm; greater than 1-in-4 is 2000sqm Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1500sqm; 1-in-8 to 1-in-4 is 1500sqm; greater than 1-in-4 is 1500sqm Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 1860sqm; 1-in-8 to 1-in-4 is 1860sqm; greater than 1-in-4 is 1860sqm Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 360sqm; 1-in-8 to 1-in-4 is 360sqm; greater than 1-in-4 is 390sqm

Gradient Minimum Site Area (Detached)
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 420sqm; 1-in-8 to 1-in-4 is 420sqm; greater than 1-in-4 is 420sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 1000sqm; greater than 1-in-4 is 2000sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 550sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 560sqm; 1-in-8 to 1-in-4 is 560sqm; greater than 1-in-4 is 560sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 650sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1200sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1100sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1200sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 800sqm; 1-in-8 to 1-in-4 is 800sqm; greater than 1-in-4 is 800sqm
Minimum site area for detached dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Gradient Minimum Site Area (Semi-detached)
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 1860sqm; 1-in-8 to 1-in-4 is 1860sqm; greater than 1-in-4 is 1860sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 360sqm; 1-in-8 to 1-in-4 is 360sqm; greater than 1-in-4 is 390sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 375sqm; 1-in-8 to 1-in-4 is 375sqm; greater than 1-in-4 is 375sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 450sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 600sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 650sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1200sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 850sqm; 1-in-8 to 1-in-4 is 850sqm; greater than 1-in-4 is 850sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Minimum site area for semi-detached dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Gradient Minimum Site Area (Row)
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 250sqm; 1-in-8 to 1-in-4 is 250sqm; greater than 1-in-4 is 280sqm
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 350sqm; greater than 1-in-4 is 350sqm
Minimum site area for row dwellings where the site gradient is less than 1-in-8 is 450sqm; 1-in-8 to 1-in-4 is 540sqm; greater than 1-in-4 is 540sqm
Gradient Minimum Site Area (Residential Flat)
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 300sqm; greater than 1-in-4 is 325sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 600sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for residential flat building where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Gradient Minimum Site Area (Group)
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 300sqm; greater than 1-in-4 is 325sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 300sqm; 1-in-8 to 1-in-4 is 400sqm; greater than 1-in-4 is 400sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 500sqm; 1-in-8 to 1-in-4 is 700sqm; greater than 1-in-4 is 900sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 1200sqm; greater than 1-in-4 is 1600sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 900sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 900sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 350sqm; 1-in-8 to 1-in-4 is 550sqm; greater than 1-in-4 is 550sqm
Minimum site area for group dwellings where the site gradient is less than 1-in-8 is 700sqm; 1-in-8 to 1-in-4 is 900sqm; greater than 1-in-4 is 1100sqm
Minimum Site Area
Minimum site area for a detached dwelling is 420 sqm; semi-detached dwelling is 350 sqm; row dwelling is 280 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area is 1,500 sqm
Minimum site area is 420 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Gradient Minimum Frontage
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 18m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 25m; 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m
Minimum frontage for all dwellings where the site gradient is less than 1-in-8 is 45m; 1-in-8 to 1-in-4 is 45m; greater than 1-in-4 is 45m
Gradient Minimum Frontage (Detached)
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 21m; greater than 1-in-4 is 30m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 14m; 1-in-8 to 1-in-4 is 14m; greater than 1-in-4 is 14m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 24m; greater than 1-in-4 is 24m
Minimum frontage for detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 25m
Gradient Minimum Frontage (Semi-detached)
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 10m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 11m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 24m; greater than 1-in-4 is 24m
Minimum frontage for semi-detached dwellings where the site gradient is less than 1-in-8 is 9m
Gradient Minimum Frontage (Row)
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 15m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 15m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m
Minimum frontage for row dwellings where the site gradient is less than 1-in-8 is 9m; 1-in-8 to 1-in-4 is 10m; greater than 1-in-4 is 10m

	Gradient Minimum Frontage (Residential Flat) Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 11m Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m Minimum frontage for residential flat building where the site gradient is less than 1-in-8 is 25m; 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m **Gradient Minimum Frontage (Group)** Minimum frontage for group dwellings where the site gradient is 1-in-8 to 1-in-4 is 25m; greater than 1-in-4 is 25m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 12m; greater than 1-in-4 is 12m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 12m; 1-in-8 to 1-in-4 is 15m; greater than 1-in-4 is 20m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 18m; 1-in-8 to 1-in-4 is 18m; greater than 1-in-4 is 18m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 20m; 1-in-8 to 1-in-4 is 20m; greater than 1-in-4 is 20m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 21m; 1-in-8 to 1-in-4 is 21m Minimum frontage for group dwellings where the site gradient is less than 1-in-8 is 24m; 1-in-8 to 1-in-4 is 26m; greater than 1-in-4 is 26m **Minimum Frontage** Minimum frontage for a detached dwelling is 14m; semi-detached dwelling is 12m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m Minimum frontage is 15m Minimum frontage is 20m In relation to DTS/DPF 2.1, in instances where: (c) more than one value is returned in the same field, refer to the relevant Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) no value is returned in DTS/DPF 2.1(a) or (b) (i.e. there is a blank field or the relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.
PO 2.2 Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment: (a) the balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1 and (b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene: (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Site coverage	
PO 3.1 Building footprints consistent with the character and pattern of a low-density suburban neighbourhood and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.	DTS/DPF 3.1 The development does not result in site coverage exceeding: (a) On sites with a gradient more than 1-in-8, 40% (b) On sites with a gradient less than 1-in-8, 50%.
Building Height	
PO 4.1 Buildings contribute to a low-rise suburban character and complement the height of nearby buildings.	DTS/DPF 4.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 9m restricted to 53.5m AHD **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m. In relation to DTS/DPF 4.1, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development. (d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
Primary Street Setback	
PO 5.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 5.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum Setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 8m There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 8m For the purposes of **DTS/DPF 5.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 6.1 Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 6.1 Building walls are set back from the boundary of the allotment with a secondary street frontage: (a) no less than: (i) on sites with a site gradient greater than 1-in-8: 1900mm (ii) on sites with a site gradient less than 1-in-8: at least 900mm or (b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street, the distance of that building from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).
Boundary Walls	
PO 7.1 Boundary walls are limited in height and length to manage impacts on adjoining properties.	DTS/DPF 7.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not:

	(i) exceed 3.2m in wall height from the lower of the natural or finished ground level (ii) exceed 8m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are set back from side boundaries shared with allotments outside the development site at least the minimum distance identified in DTS/DPF 8.1.
Side Boundary Setback	
PO 8.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Building walls not sited on side boundaries set back from the side boundary in accordance with the following: (a) on sites with a site gradient greater than 1-in-8: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level. (b) on sites with a site gradient less than 1-in-8: (i) where the wall height does not exceed 3m measured from the lower of natural or finished ground level - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level (iii) for a wall that is south facing and the wall height exceeds 3m measured from the lower of natural or finished ground level - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the lower of natural or finished ground level.
Rear Boundary Setback	
PO 9.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Buildings are set back from the rear boundary at least: (a) 4m for the first building level (b) 6m for any second building level.
Built Form and Character	
PO 10.1 Development that would be prominently visible from the Adelaide plains or urban areas within regional cities and townships: (a) achieves a profile that blends with the topography of the land (b) avoids the use of bright and highly reflective external materials and finishes (c) incorporates existing vegetation wherever possible and additional landscaping to assist in reducing the apparent bulk and scale.	DTS/DPF 10.1 None are applicable.
PO 10.2 Development of more than 1 building level in height takes account of its height and bulk relative to adjoining dwellings by: (a) incorporating stepping in the design in accordance with the slope of the land (b) where appropriate, setting back the upper level a greater distance from front and side boundaries than the lower level.	DTS/DPF 10.2 None are applicable.
Earthworks and retaining	
PO 11.1 Buildings sited and designed to integrate with the natural topography of the land using measures such as split level building construction and other approaches that minimise the extent of cut and fill.	DTS/DPF 11.1 None are applicable.
PO 11.2 Vegetation is used to screen buildings and excavation or filling from view.	DTS/DPF 11.2 None are applicable.
PO 11.3 Retaining walls are stepped series of low walls constructed of dark, natural coloured materials and screened by landscaping.	DTS/DPF 11.3 Retaining walls: (a) do not retain more than 1.5m in height or (b) where more than 1.5m is to be retained in total, are stepped in a series of low walls each not exceeding 1m in height and separated by at least 700mm.
Ancillary Buildings and Structures	
PO 12.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 12.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 8m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 12.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 12.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 12.3	DTS/DPF 12.3

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size: Floor area ≤500m²: 60m² >500m²: 80m² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 13.1	DTS/DPF 13.1
Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing building dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 8m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Site coverage does not exceed: (a) On sites with a gradient more than 1-in-8, 40% (b) On sites with a gradient less than 1-in-8, 50%. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)** / **Minimum percentage of site** <150: 10% 150-200: 15% 201-450: 20% >450: 25% (b) the amount of existing soft landscaping prior to the development occurring.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 8m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. Site coverage does not exceed:
    (a) On sites with a gradient more than 1-in-8, 40%
    (b) On sites with a gradient less than 1-in-8, 50%.
11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
    (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
13. If the outbuilding is a garage, it is located so that vehicle access:
    (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    (b) is not obtained from a State Maintained Road, and will use a driveway that:
        (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
        (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
        (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
        (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
        (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
15. Does not involve-
    (a) excavation exceeding a vertical height of 1 metre; or
    (b) filling exceeding a vertical height of 1 metre,
    and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
16. Does not involve the clearance of native vegetation.
17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
    (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

    (b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Private bushfire shelter
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Primary street setback - at least as far back as the building to which it is ancillary.
4. Secondary street setback - at least 900mm from the boundary of the allotment.
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation.

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Shade sail consists of permeable material
4. The total area of the sail - does not exceed 40m^2
5. No part of the shade sail will be:
   (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
   (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
6. Primary street setback - at least as far back as the building line of the building to which it is ancillary
7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m
8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
9. Does not involve the clearance of native vegetation
10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
    (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

    (b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.
3. Panels and associated components do not overhang any part of the roof.
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:
   (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or
   (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation.
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed $40m^2$
6. Post height - does not exceed 3m measured from natural ground level.
7. Building height - does not exceed 5m.
8. Length - does not exceed 8m if any part of the structure abuts or is situated on a boundary of the allotment.
9. Site coverage does not exceed:
   (a) On sites with a gradient more than 1-in-8, 40%
   (b) On sites with a gradient less than 1-in-8, 50%.
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. The tank is part of a roof drainage system.
4. Total floor area - not exceeding $30m^2$.
5. The tank is located wholly above ground.
6. Tank height - does not exceed 4m above natural ground level.
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (underground)
Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
2. The tank (including any associated pump) is located wholly below the level of the ground.
3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Site coverage DTS/DPF 3.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.2, DTS/DPF 19.4 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2 Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1	None	Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1

				Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.5

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) residential flat building.	Except development that: 1. exceeds the maximum building height specified in Hills Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Hills Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy any Hills Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 8m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3.2m measured from the lower of the natural or finished ground level (other than where the proposed wall abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence	None specified.

(e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.
8. Retaining wall.	Except retaining wall that does not satisfy Hills Neighbourhood Zone DTS/DPF 11.3.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Home Industry Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating small-scale and low-impact business enterprises in conjunction with a dwelling that provides opportunities to work from home and contribute to employment diversity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Business activities established in association with residential development.	DTS/DPF 1.1 Development comprises one or more of the following in association with a dwelling: (a) Consulting room (b) Light industry (c) Office (d) Personal or domestic services establishment (e) Shop in conjunction with light industry (f) Store (g) Motor repair station (h) Warehouse.
PO 1.2 Business activities are of a scale to assist in the effective management of emissions and other impacts to maintain a reasonable level of residential amenity for occupants of the associated dwelling and residential neighbours.	DTS/DPF 1.2 Business activity satisfies (a) to (d), inclusive: (a) employs no more than 3 persons not residing in the associated dwelling (b) provides 1 on-site car parking space for each non-resident employee (c) occupies an area not exceeding 20% of the relevant allotment area and not exceeding 200m^2 where the area is the sum of: (i) the gross floor area of any building or portion of a building used for business activities (ii) any outdoor area used related to business storage or display purposes (iii) each non-resident employee parking space (d) does not involve the use or parking of a commercial vehicle exceeding 5 tonnes tare weight.
PO 1.3 Business areas and activities are configured to retain functional aspects of the associated dwelling to maintain a suitable residential character and amenity.	DTS/DPF 1.3 Business activities, including outdoor storage and display areas and non-resident employee parking spaces, do not result in the associated dwelling having: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 1.4 Residential development supports opportunities for home-based business activities and mitigates the potential for conflict with a dwelling not associated with a business use associated with another dwelling on the same site.	DTS/DPF 1.4 Development will not result in more than 1 dwelling per allotment.
Built Form and Character	
PO 2.1 Buildings contribute to a low-rise character and complement the height of nearby buildings.	DTS/DPF 2.1 Buildings (excluding garages, carports and outbuildings) satisfy all of the following: (a) up to 2 building levels (b) building height up to 9m (c) wall height up to 7m.
PO 2.2 Buildings used for business purposes present an attractive frontage to public roads and thoroughfares to enhance the amenity of the locality.	DTS/DPF 2.2 Non-residential buildings: (a) incorporate any office, shop or consulting room component along a frontage to a public road or thoroughfare (b) if clad in metal sheeting, are pre-colour treated or painted in a non-reflective colour.
PO 2.3 Residential development, swimming pools and ancillary residential structures are located to allow off street vehicle access to non-residential building(s) use for business purposes.	DTS/DPF 2.3 None are applicable.
Building Setbacks	
PO 3.1 Buildings are set back from primary street boundaries consistent with the existing streetscape.	DTS/DPF 3.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. / The average setback of the existing buildings. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. / The setback of the existing building. There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. / (a) Where the existing building shares the same primary street frontage – the setback of the existing building

	(b) Where the existing building has a different primary street frontage - 6m
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	6m

For the purposes of **DTS/DPF 3.1:**

(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table.

PO 3.2 Dwellings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 3.2 Dwelling walls are no closer than 3m to the secondary street boundary.
PO 3.3 Dwellings set back from side boundaries provide: (a) separation between dwellings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours. (c) access for vehicles to the rear of the site where the business activity is located or proposed to be located behind the dwelling.	DTS/DPF 3.3 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) at least 3m to any one side boundary to provide vehicle access to the rear of the site where the business activity is located or proposed to be located behind the dwelling (b) in all other cases: (i) where the wall height does not exceed 3m - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (iii) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
PO 3.4 Non-residential buildings facing a public road or thoroughfare are sited to mitigate visual impact on residential streetscapes.	DTS/DPF 3.4 Non-residential buildings are set back from a public road or thoroughfare at least as far as the wall of the existing or approved dwelling on the same allotment.
PO 3.5 Non-residential buildings on or abutting the boundary of a zone primarily intended to accommodate sensitive receivers are designed to minimise visual impacts from building bulk.	DTS/DPF 3.5 Non-residential development is set back from zone boundaries 3m or more plus an additional 600mm for every metre of building height above 4m.
PO 3.6 Buildings set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 3.6 Building walls are set back from the rear boundary at least: (a) 3m for the first building level (b) 5m for any second building level.
Site Dimensions and Land Division	
PO 4.1 Land division creates allotments that are of a size and shape suitable for a dwelling and associated home-based business consistent with the prevailing residential character and land division pattern in a relevant locality.	DTS/DPF 4.1 Allotments: (a) connected to an approved common waste water disposal service have an area being the greater of the following: (i) where there is no established land division pattern, 750m^{2}or more or (ii) no less than an adjacent residential allotment, or the average of adjacent residential allotments where there is more than one adjacent allotment, used for residential purposes in the zone (b) that will require the disposal of waste water on-site, 1500m^2 or more (c) have a primary street frontage of at least 20m, plus an additional 5m frontage for every 500m^2 increment or portion thereof for allotments over 2000m^2 up to a frontage of 50m.
Advertising	
PO 5.1 Advertisements are small-scale and located and designed to reflect residential character and amenity.	DTS/DPF 5.1 Advertisements satisfy (a) to (c), inclusive: (a) will not result in more than one advertisement on the relevant allotment (b) do not have a face that exceeds 1m^2 in area (c) comprise: (i) an advertisement flush mounted to the main face of the building closest to the primary frontage or (ii) an advertisement flush mounted to the primary street fence or (iii) a freestanding advertising hoarding that does not exceed 2m in height above natural ground level.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

• Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser). 12. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 16. Does not involve the clearance of native vegetation. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted; 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:

	(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Advertising DTS/DPF 5.1	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1, PO 3.2

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.1, PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding – General) Overlay [Environmental Protection]
PO 3.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.1, PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.3, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Shop with a gross leasable floor area less than 1000m².

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) ancillary accommodation (c) consulting room	Except development that does not satisfy any of the following: 1. Home Industry Zone DTS/DPF 1.2 2. Home Industry Zone DTS/DPF 2.1

(d) dwelling (e) dwelling addition (f) light industry (g) motor repair station (h) office (i) shop (j) store (k) warehouse.	
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Housing Diversity Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Medium density housing supports a range of needs and lifestyles, located within easy reach of a diversity of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse range of medium density housing and accommodation complemented by a range of compatible non-residential uses supporting an active, convenient, and walkable neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Consulting room (e) Community facility (f) Dwelling (g) Educational facility (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and satisfies one of the following: (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) is located more than 500m from an Activity Centre and satisfies one of the following: (i) does not exceed 100m^2 gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: (i) it does not exceed 200m^2 gross leasable floor area (individually or combined, in a single building) (ii) the proposed development will not result in a combined gross leasable floor area (existing and proposed) of all shops, consulting rooms and offices that abut the Activity Centre in this zone exceeding the lesser of the following: A. 50% of the existing gross leasable floor area within the Activity Centre B. 1000m^2.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.	DTS/DPF 1.4 Alteration of or addition to existing educational facilities, community facilities or child care facilities where all the following are satisfied: (a) set back at least 3m from any boundary shared with a residential land use

	(b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 1.5 Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.	DTS/DPF 1.5 None are applicable.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes accommodate a diverse range of low to medium density housing, with higher densities closer to public open space, public transport stations and activity centres.	DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following: (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

Minimum Site Area
Minimum site area for a group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 150 sqm; semi-detached dwelling is 150 sqm; row dwelling is 150 sqm; group dwelling is 150 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 160 sqm; semi-detached dwelling is 160 sqm; row dwelling is 160 sqm; group dwelling is 160 sqm; residential flat building is 160 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 180 sqm; row dwelling is 120 sqm; group dwelling is 150 sqm; residential flat building is 80 sqm
Minimum site area for a detached dwelling is 200 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 230 sqm; semi-detached dwelling is 230 sqm; row dwelling is 230 sqm; group dwelling is 230 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 200 sqm; row dwelling is 150 sqm; group dwelling is 150 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 200 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 220 sqm; row dwelling is 170 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 150 sqm; group dwelling is 175 sqm; residential flat building is 175 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 220 sqm; group dwelling is 220 sqm; residential flat building is 220 sqm
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 250 sqm; group dwelling is 250 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; group dwelling is 250 sqm; residential flat building is 120 sqm
Minimum site area for a detached dwelling is 330 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm
Minimum site area is 200 sqm
Minimum site area is 250 sqm
Minimum site area is 300 sqm
Minimum site area is 600 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 270 sqm; row dwelling is 270 sqm; group dwelling is 270 sqm; residential flat building is 270 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 150 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 325 sqm; semi-detached dwelling is 325 sqm; row dwelling is 230 sqm; group dwelling is 270 sqm; residential flat building is 270 sqm
Minimum site area is 150 sqm

and

(b) site frontages (or allotment frontages in the case of land division) are not less than:

Minimum Frontage
Minimum frontage for a group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 7.5m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 22m; residential flat building is 22m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 7m; row dwelling is 5m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 13m; residential flat building is 13m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 6m; row dwelling is 7m; group dwelling is 12m; residential flat building is 22m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 7m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 5m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 5m; group dwelling is 7m; residential flat building is 15m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 6m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 7m; residential flat building is 7m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m; group dwelling is 9m; residential flat building is 15m
Minimum frontage is 10m
Minimum frontage is 12m
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 7m; row dwelling is 6m; group dwelling is 6m; residential flat building is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage is 11.5m
Minimum frontage is 4.5m

In relation to DTS/DPF 2.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation* layer or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development.

(d) no value is returned in DTS/DPF 2.1(a) (i.e. there is a blank field or the value is not relevant), then a net residential density of up to 70 dwellings per hectare applies.

(e) no value is returned in DTS/DPF 2.1(b) (i.e. there is a blank field or the value is not relevant), then there is no minimum frontage and DTS/DPF 2.1(b) is met.

PO 2.2 Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for	DTS/DPF 2.2 Where the site of a dwelling does not comprise an entire allotment:

purpose.	(a) the balance of the allotment accords with the requirements specified in Housing Diversity Neighbourhood Zone DTS/DPF 2.1 and (b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development it will not contravene: (i) private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space (ii) car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
Building Height	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally low rise, or complements the height of nearby buildings.	DTS/DPF 3.1 Building height (excluding garages, carports and outbuildings) is no greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 4.5m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 10m Maximum building height is 12m Maximum building height is 12.5m Maximum building height is 16.5m Maximum building height is 11m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 4 levels Maximum building height is 6 levels Maximum building height is 9 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a maximum height of 9m. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Meters) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** In all cases. / 3m For the purposes of **DTS/DPF 4.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public thoroughfares and to reinforce streetscape character.	DTS/DPF 5.1 Building walls (except for ancillary buildings and structures) are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a building on any adjoining allotment is closer to the secondary street than 900mm, not less than the distance of that building from the boundary with the secondary street.
Boundary Walls	
PO 6.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 6.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below: (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
PO 6.2 Dwellings in a semi-detached, row or terrace arrangements maintain space between buildings consistent with a suburban streetscape character.	DTS/DPF 6.2 Dwelling walls in a semi-detached, row or terrace arrangement are set back at least 900mm from side boundaries shared with allotments outside the development site.
Side Boundary Setback	
PO 7.1 Buildings walls are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 7.1 Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 8.1 Building walls (excluding ancillary buildings and structures) are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 8.1 Building walls (excluding ancillary buildings and structures) are set back from the rear boundary at least: (a) 3m for the first building level or 0m where the rear boundary abuts a laneway (b) 5m for any second building level (c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above.
Concept Plans	
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 2 - Hurling Drive, Mount Barker Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 1 - Hawthorn Road South Mount Barker Concept Plan 82 - Hackney Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 93 - Noarlunga Centre Concept Plan 128 - Albert Park Concept Plan 130 - Unley Concept Plan 121 - Kilkenny Concept Plan 175 - Smithfield Regeneration In relation to DTS/DPF 9.1, in instances where:

	(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.
Ancillary buildings and structures	
PO 10.1 Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.	DTS/DPF 10.1 Ancillary buildings satisfy (a) to (k), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: (i) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (ii) the amount of existing soft landscaping prior to the development occurring.
PO 10.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.	DTS/DPF 10.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
PO 10.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 10.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site (b) have a floor area not exceeding the following: Allotment size / Floor area ≤500m^2 / 60m^2 >500m^2 / 80m^2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Advertisements	
PO 11.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 11.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply:	1. Building work is associated with a railway.

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).
3. It is required for the conduct or maintenance of railway activities.
4. It does not involve the clearance of native vegetation.
5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay
7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay
10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Carport
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m^2.
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
11. The carport is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not obtained form a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.
12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
13. Does not involve the clearance of native vegetation
14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
   (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

   (b) the amount of existing soft landscaping prior to the development occurring
15. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay
16. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m^2.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
   (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
   (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
   (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
   (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
12. If the outbuilding is a garage, it is located so that vehicle access:
   (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
   (b) is not located obtained from a State Maintained Road, and will use a driveway that:
      (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.
14. Does not involve-
   (a) excavation exceeding a vertical height of 1 metre; or
   (b) filling exceeding a vertical height of 1 metre,
   and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
15. Does not involve the clearance of native vegetation.
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
   (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

   (b) the amount of existing soft landscaping prior to the development occurring

	18. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 12. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 13. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3.2m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25%

	(b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation 10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: **Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m^2)** / **Minimum percentage of site** <150 / 10% 150-200 / 15% 201-450 / 20% >450 / 25% (b) the amount of existing soft landscaping prior to the development occurring 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.2, DTS/DPF 19.4 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2 Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1	None	Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1 Water Resources Overlay [Water Catchment] DTS/DPF 1.5

Carport Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Ancillary buildings and structures DTS/DPF 10.1, DTS/DPF 10.2, DTS/DPF 10.3	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Design in Urban Areas [Residential Development - Low Rise [Car parking, access and manoeuvrability]] DTS/DPF 23.1, DTS/DPF 23.3, DTS/DPF 23.4, DTS/DPF 23.5 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Water Resources Overlay [Water Catchment] DTS/DPF 1.5 Urban Transport Routes Overlay [Corner Cut-Offs] DTS/DPF 10.1 Urban Transport Routes Overlay [Public Road Junctions] DTS/DPF 9.1 Urban Transport Routes Overlay [Building on Road Reserve] DTS/DPF 8.1 Urban Transport Routes Overlay [Access - Stormwater] DTS/DPF 7.1 Urban Transport Routes Overlay [Access - Location (Sight Lines)] DTS/DPF 5.1 Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points] DTS/DPF 4.1 Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point] DTS/DPF 3.1 Urban Transport Routes Overlay [Access - On-Site Queuing] DTS/DPF 2.1 Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 River Murray Flood Plain Protection Area Overlay [Flood Resilience] DTS/DPF 6.4 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] DTS/DPF 3.9, DTS/DPF 3.4 Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] DTS/DPF 3.9, DTS/DPF 3.4 Major Urban Transport Routes Overlay [Corner Cut-Offs] DTS/DPF 10.1 Major Urban Transport Routes Overlay [Public Road Junctions] DTS/DPF 9.1 Major Urban Transport Routes Overlay [Building on Road Reserve] DTS/DPF 8.1 Major Urban Transport Routes Overlay [Access - Stormwater] DTS/DPF 7.1 Major Urban Transport Routes Overlay [Access - Mud and Debris] DTS/DPF 6.1 Major Urban Transport Routes Overlay [Access - Location (Sight Lines)] DTS/DPF 5.1 Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points] DTS/DPF 4.1 Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points] DTS/DPF 3.1 Major Urban Transport Routes Overlay [Access - On-Site Queuing] DTS/DPF 2.1 Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] DTS/DPF 1.1 Key Railway Crossings Overlay [Access, Design and Function] DTS/DPF 1.1 Key Outback and Rural Routes Overlay [Public Road Junctions] DTS/DPF 9.1 Key Outback and Rural Routes Overlay [Building on Road Reserve] DTS/DPF 8.1 Key Outback and Rural Routes Overlay [Access - Stormwater] DTS/DPF 7.1 Key Outback and Rural Routes Overlay [Access - Mud and Debris] DTS/DPF 6.1 Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] DTS/DPF 5.1 Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points] DTS/DPF 4.1 Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points] DTS/DPF 3.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:

	(a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) ancillary accommodation (b) co-living (c) dwelling (d) dwelling addition (e) recreation area (f) residential flat building (g) retirement facility (h) student accommodation (i) supported accommodation.	Except development that: 1. exceeds the maximum building height specified in Housing Diversity Neighbourhood Zone 3.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Alteration of or addition to any development involving any of the following (or of any combination of any of the following): (a) child care facility (b) community facility (c) educational facility.	Except development that does not satisfy Housing Diversity Neighbourhood Zone DTS/DPF 1.4.
6. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop.	Except development that: 1. exceeds the maximum building height specified in Housing Diversity Neighbourhood Zone 3.1 or 2. does not satisfy Housing Diversity Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Any development involving any of the following (or of any combination of any of the following) where located on a Significant Retirement Facility and Supported Accommodation Site: (a) consulting room (b) office (c) shop	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
8. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
9. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.

10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Infrastructure Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The protection, provision, maintenance and expansion of infrastructure services and facilities that support orderly development and vehicular movements.
DO 2	Infrastructure services and facilities manage environmental impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Utility and infrastructure facilities and other services support the orderly development of land and assist in managing the impacts on the environment and community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Electricity substation (b) Landfill, including gas extraction plant and equipment (c) Water treatment and supply (d) Stormwater retention / detention basin (e) Sewerage treatment facility (f) Public service depot (g) Telecommunications facility (h) Waste transfer depot.
PO 1.2 Development does not hinder the ongoing operation of existing utility and other infrastructure services or jeopardise the expansion of those services to support economic activity and manage impacts on the environment and community.	DTS/DPF 1.2 None are applicable.
PO 1.3 Development ancillary to utility and other infrastructure services including offices, workshops and the like are undertaken to enhance the operational and maintenance aspects of those services.	DTS/DPF 1.3 None are applicable.
PO 1.4 Security fencing is located behind landscaping to enhance the appearance of development from adjacent areas, roads and thoroughfares.	DTS/DPF 1.4 None are applicable.
Fencing	
PO 2.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.	DTS/DPF 2.1 Fencing exceeding 2.1m in height: (a) is located behind a façade of an associated building located on the same site or (b) is located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.
Concept Plans	
PO 3.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 3.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 141 - West Lakes In relation to DTS/DPF 3.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 3.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply:	1. Building work is associated with a railway

• Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) electricity substation (b) landfill, including gas extraction plant and equipment (c) public service depot (d) stormwater retention / detention basin (e) sewerage treatment facility (f) telecommunications facility (g) waste transfer depot (h) water treatment and supply.	Except where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Building for the purposes of railway activities.	None specified.
5. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
6. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Infrastructure (Airfield) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Aviation operations together with allied and complementary activities to support the long term ongoing use and expansion of airfield development and activities for commercial freight and passenger transport as well as aviation-related recreational pursuits.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development primarily catering for take-off and landing, on-ground movement, maintenance, repair and storage of aircraft, as well as facilities associated with the handling of freight and passengers to enhance the safe and efficient transportation of people and cargo.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Aircraft operational facilities beacons, transmitting installations and their associated towers (b) Aircraft control tower (c) Light industry associated with, and ancillary to, aviation activities (d) Passenger and/or air freight terminal (e) Aircraft hangar (f) Shop within the terminal building (g) Store associated with, and ancillary to, aviation activities (h) Fuel depot associated with aviation and airport related purposes (i) Office associated with, and ancillary to, aviation activities (j) Flight simulation and training facility. (k) Tourist accommodation associated with and ancillary to aviation activities (l) Caretaker's dwelling
PO 1.2 Development does not impede aviation operations and the expansion of airfields.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development is of a scale and design consistent with the role and function of the airfield and complementary to the wider setting.	DTS/DPF 2.1 None are applicable.
Land Division	
PO 3.1 Land division is suitable for the intended use of the land and maintains the efficient and safe operations of the airfield.	DTS/DPF 3.1 None are applicable.
Hazard Management	
PO 4.1 Movement between aircraft taxiways and open runway corridors and areas used for non-aviation purposes is regulated through the incorporation of fencing or other barriers to mitigate hazard to aircraft operations and provide for the safety of users and occupiers of land use for non-aviation purposes.	DTS/DPF 4.1 None are applicable.
PO 4.2 Landscaping uses species to minimise the nesting and attraction of birds and spread of leaf and other debris to mitigate hazard to aircraft.	DTS/DPF 4.2 None are applicable.
Advertisements	
PO 5.1 Advertisements are limited to those in connection with the terminal building and the display of business services on non-residential premises to avoid visual clutter and untidiness.	DTS/DPF 5.1 None are applicable.
Concept Plans	
PO 6.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 6.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 6.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4m x 4m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is detached from and ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 6. Total floor area - does not exceed 40m^2 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8. Building height - does not exceed 5m 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure

	11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not located in an area subject to the Urban Transport Overlay, Non-Stop Corridors Overlay, Major Urban Transport Routes Overlay, Key Outback and Rural Routes Overlay, Key Railway Crossings Overlay, Future Local Road Widening Overlay or Future Road Widening Overlay, will use a driveway that: (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour 15. Does not involve- (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m. 16. Does not involve the clearance of native vegetation 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed $40m^2$ 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed $40m^2$ 6. Post height - does not exceed 3m measured from natural ground level 7. Building height - does not exceed 5m 8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment 9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 10. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding $15m^2$ 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Carport Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1 Design [All residential development and non-residential development [Ancillary Development]] DTS/DPF 13.1, DTS/DPF 13.2, DTS/DPF 13.3 Design [All residential development and non-residential development [Car parking, access and manoeuvrability]] PO 19.1, DTS/DPF 19.3, DTS/DPF 19.4, DTS/DPF 19.5 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:

	(a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is ancillary to and located on the same allotment as an airfield passenger terminal.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) aircraft control tower (b) aircraft hanger (c) aircraft operational facilities beacons, transmitting installations and their associated towers (or any combination thereof) (d) caretaker's dwelling (e) detached dwelling where located within the Residential Aviation Estate Subzone (f) flight simulation and training facility (g) fuel depot associated with aviation and airport related purposes (h) light industry associated with, and ancillary to, aviation activities (i) office associated with, and ancillary to, aviation activities (j) passenger and/or air freight terminal (k) shop within a terminal building (l) store associated with, and ancillary to, aviation activities (m) tourist accommodation associated with and ancillary to aviation activities.	Except non-residential development where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Residential Aviation Estate Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Low density, detached dwellings and associated aircraft hangars designed to integrate with and complement the spacious setting of the airfield.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Dwellings are developed in close affiliation with outbuildings and activities for the storage and / or maintenance of aircraft to support the role and function of the airfield.	DTS/DPF 1.1 Dwelling located on the same site as an existing aircraft hangar or built concurrently.
PO 1.2 Hangars provide for the storage and maintenance of aircraft and associated equipment within buildings to contribute to the appearance of land in the locality and mitigate adverse amenity impacts on neighbouring dwellings from aircraft maintenance activities.	DTS/DPF 1.2 None are applicable.
PO 1.3 An open character is accommodated by providing space around buildings and managing the cumulative impacts of buildings in the locality.	DTS/DPF 1.3 The total floor area of all existing and proposed buildings does not exceed 35 per cent of an allotment area.
Land Division	
PO 2.1 Allotments are of suitable size and dimension to accommodate a dwelling and associated outbuildings (including hangar) setbacks from boundaries to support a spacious setting.	DTS/DPF 2.1 Allotments have an area of 2000m^2 or more and a frontage width of 30m or more.
Building Height	
PO 3.1 Dwellings contribute to a low-rise residential character and complement the height of nearby buildings.	DTS/DPF 3.1 Dwelling: (a) with a height up to 2 building levels and 9m and

	(b) with a wall height up to 6m.
PO 3.2 An outbuilding in the form of a hangar that is sited and designed so as to be subordinate to the associated dwelling and complement the height of nearby buildings.	DTS/DPF 3.2 Hangar height is no more than 9m.
Primary Street Setback	
PO 4.1 Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.	DTS/DPF 4.1 The building line of a building set back from the primary street boundary not less than 6m.
Secondary Street Setback	
PO 5.1 Buildings are set back from secondary street boundaries to support separation between building walls and public thoroughfares and reinforce an open and spacious streetscape character.	DTS/DPF 5.1 Buildings are set back 2m or more from the boundary of the allotment with the secondary street frontage.
Side Boundary Setback	
PO 6.1 Buildings are set back from side boundaries to provide: (a) separation between dwellings in a way that reinforces a low density residential character (b) access to natural light and ventilation for neighbours.	DTS/DPF 6.1 Buildings are set back from side boundaries 1m or more.
Rear Boundary Setback	
PO 7.1 Buildings are set back from rear boundaries to provide: (a) separation between dwellings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 7.1 Buildings are set back from the rear boundary 20m or more.

Infrastructure (Ferry and Marina Facilities) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A zone accommodating on-water development associated with the function of marinas and passenger ferry services together with a range of complementary waterfront-oriented recreational and tourist development activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 On-water development, including boat and ferry berthing, boat servicing facilities, walkways and channel markers preserves the function of marinas, passenger ferry services and port activities.	DTS/DPF 1.1 On water development comprises one or more of the following: (a) Boat berth, jetty, pier or pontoon (b) Coast protection work (c) Maritime structures / beacons
PO 1.2 Off-water development: (a) is associated with marinas, passenger ferry services and port activities including complementary conservation works (b) caters to the needs and enjoyment of visitors and occupants such as residential development tourist accommodation, restaurants, clubrooms, chandlery and the like, provided at a scale compatible with the role and function of the associated marina and / or the passenger ferry service.	DTS/DPF 1.2 Off-water development comprises one or more of the following land uses: (a) Boat construction, maintenance, repair or sale (b) Boat servicing facility (including fuel supply, power, water, effluent pump, toilets and showers) (c) Dwelling or residential flat building (d) Loading and unloading facility (e) Clubrooms in association with a marina (f) Office in association with a marina of ferry terminal (g) Parking area for vehicles and boats (h) Port activities (i) Shop in association with a marina or ferry terminal (j) Storage (k) Tourist accommodation (l) Wastewater collection, storage and transfer facility.
PO 1.3 Pedestrian and bicycle pathways associated with marinas and passenger ferry services link tourist accommodation with other recreation, tourist facilities and attractions within the area.	DTS/DPF 1.3 None are applicable.
Advertisements	
PO 2.1 Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.	DTS/DPF 2.1 Freestanding advertisements: (a) do not exceed 2m in height and (b) do not have a sign face that exceeds $2m^2$ per side.
Concept Plans	
PO 3.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 3.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints In relation to DTS/DPF 3.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 3.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply:	1. The alteration does not:

• Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	(a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail - does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height - does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Replacement building Except where any of the following apply: • Coastal Areas Overlay • Coastal Flooding Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Flooding - General) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	None	None	None
Temporary accommodation in an area affected by bushfire	None	None	None	None

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1, PO 3.2

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.1, PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) boat berth, jetty, pier or pontoon (or any combination thereof) (c) boat construction, maintenance, repair or sale (d) boat servicing facility (including fuel supply, power, water, effluent pump, toilets and showers, or any combination thereof) (e) clubrooms in association with a marina (f) coast protection work (g) dwelling (h) loading and unloading facility (i) maritime structures / beacons (j) office in association with a marina of ferry terminal (k) parking area for vehicles and boats (l) residential flat building (m) shop in association with a marina or ferry terminal (n) store (o) tourist accommodation (p) wastewater collection, storage and transfer facility.	Except non-residential development where the site of the development is adjacent land to a site (or land) in a neighbourhood-type zone.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building work (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
4. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
5. Railway line.	Except where located outside of a rail corridor or rail reserve.
Placement of Notices - Exemptions for Performance Assessed Development	
None specified.	
Placement of Notices - Exemptions for Restricted Development	
None specified.	

Wallaroo Marina Subzone

Assessment Provisions (AP)

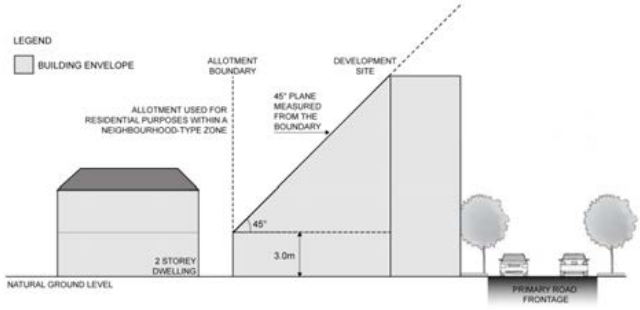
Desired Outcome (DO)

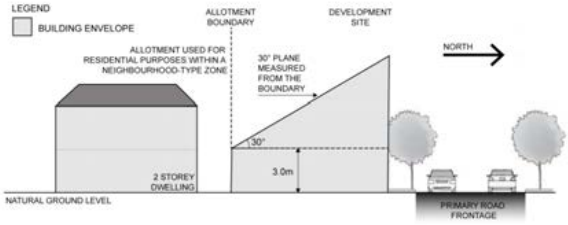
Desired Outcome	
DO1	Integrated waterfront-orientated commercial, residential/tourist accommodation, recreation and marina-based retail activities that serve as the focus of the marina development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development comprises a mixture of residential, tourist accommodation and waterfront commercial uses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Retail activities relate to the operation of the marina and are limited to hotels, restaurants and cafes, boating and fishing supplies.	DTS/DPF 1.2 None are applicable.
Built Form and Character	
PO 2.1 Development that fronts or overlooks the marina or public open space is designed to take advantage of waterfront views while providing attractive frontages to public streets.	DTS/DPF 2.1 None are applicable.
PO 2.2 Service areas are screened from public view.	DTS/DPF 2.2 None are applicable.
Building Height and Setbacks	
PO 3.1 Building height achieves the highest intensity of built form with frontage to the marina and lower scale behind.	DTS/DPF 3.1 Building height is not less than 2 levels or 10m.
PO 3.2 Buildings are provided with minimal setback to the marina to ensure a cohesive frontage to the marina and public walkway.	DTS/DPF 3.2 Buildings are set back a maximum 1.0 metre from the marina basin frontage.

Local Activity Centre Zone





Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A range of small-scale shops, offices, business, health and community facilities to provide daily services to and support walkable neighbourhoods.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, health and community facilities, services and other businesses provide a range of goods and services to the local community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Advertisement (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Dwelling (g) Office (h) Shop
PO 1.2 Residential development does not prejudice the operation of retail, office, or community facilities and services related activity within the zone.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development supports the vitality of underperforming centres.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development sited and designed to achieve vibrant and interesting streetscapes.	DTS/DPF 1.4 None are applicable.
PO 1.5 Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.	DTS/DPF 1.5 A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved: (a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop) (c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves: (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where: (i) the building is a local heritage place or (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Built Form and Character	
PO 2.1 Development complements adjacent development within the zone, and mitigates interface impacts on adjoining residential uses in a neighbourhood type zone, through appropriate building siting, scale and design.	DTS/DPF 2.1 None are applicable.

PO 2.2 Buildings are sited and designed to create pedestrian, vehicular and visual linkages between the various built-form elements within the zone and adjoining main roads.	DTS/DPF 2.2 None are applicable.
Building height and setbacks	
PO 3.1 Building height is consistent with the form expressed in any relevant *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* or is generally of a low rise that complements the established streetscape and local character.	DTS/DPF 3.1 Building height is not greater than: (a) the following: **Maximum Building Height (Metres)** Maximum building height is 6m Maximum building height is 8m Maximum building height is 8.5m Maximum building height is 9m Maximum building height is 12m Maximum building height is 10.5m Maximum building height is 35m **Maximum Building Height (Levels)** Maximum building height is 1 level Maximum building height is 2 levels Maximum building height is 3 levels Maximum building height is 10 levels (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 8m. In relation to DTS/DPF 3.1, in instances where: (c) more than one value is returned in the same field for DTS/DPF 3.1(a), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or *Maximum Building Height (Levels) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.
PO 3.2 Buildings mitigate visual impacts of massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the street boundary): 
PO 3.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram (except where this boundary is a street boundary): 
PO 3.4 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.4 None are applicable.
Advertisements	
PO 4.1 Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.	DTS/DPF 4.1 None are applicable.
PO 4.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 4.2 Freestanding advertisements: (a) do not exceed 5m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds 4m^2 per side.
Concept Plans	

PO 5.1	DTS/DPF 5.1
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 2 - Hurling Drive, Mount Barker Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 9 - Blakeview Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 92 - Meadows Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 113 - Residential Growth - Strathalbyn North Concept Plan 133 - Strathalbyn North - Activity Centre Concept Plan 174 - Seaton Urban Renewal In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. It does not involve the construction of a building that exceeds 3 building levels above the regulated surface level where located within the Tunnel Protection Overlay 7. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 8. It does not include storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 9. It does not include temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Consulting room Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Office Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.

Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail does not exceed 40m^2 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment, the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Shop Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved: 1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses 2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves: (a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road or (b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared 3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: (a) the building is a local heritage place or (b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) or (c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 3. Panels and associated components do not overhang any part of the roof 4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. The tank is part of a roof drainage system 4. Total floor area - not exceeding 15m^2 5. The tank is located wholly above ground 6. Tank height does not exceed 4m above natural ground level 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary 8. In the case of a tank made of metal, the tank is pre-colour treated or painted in a non-reflective colour 9. Does not involve the clearance of native vegetation 10. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 11. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4 Advertisements [Proliferation of Advertisements] DTS/DPF 2.3 Advertisements [Advertising Content] DTS/DPF 3.1 Advertisements [Amenity Impacts] DTS/DPF 4.1 Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6 Clearance from Overhead Powerlines DTS/DPF 1.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Gateway Overlay [Advertisements] DTS/DPF 4.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1

				State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1
Consulting room Except where any of the following apply: • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.5	None	None	Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1 Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1
Office Except where any of the following apply: • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.5	None	None	Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1 Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Special industry	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): (a) advertisement (b) co-living (c) community facility (d) consulting room (e) dwelling (f) office (g) shop.	Except development that exceeds the maximum building height specified in Local Activity Centre Zone DTS/DPF 3.1 or does not satisfy any of the following: 1. Local Activity Centre Zone DTS/DPF 3.2 2. Local Activity Centre Zone DTS/DPF 3.3.
4. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank.	None specified.
5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: (a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres (b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres (c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
6. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Master Planned Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A new or expanding community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Diverse housing choices and a wide range of complementary recreational, community services and other activities to support a growing community and create a pleasant place to live.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility (i) Indoor recreation facility (j) Office (k) Recreation area (l) Residential flat building (m) Retirement facility (n) Shop (o) Supported accommodation.
PO 1.2 Land division results in a low-to-medium density neighbourhood that contains a diverse range of housing types and allotment sizes.	DTS/DPF 1.2 None are applicable.
PO 1.3 Residential development at increased densities close to open space, public transport, activity centres and community facilities to enhance community	DTS/DPF 1.3 Medium and high density residential development located where any one of the following is satisfied:

access to community services.	(a) within 200m of an activity centre (b) within 200m of a high frequency public transit service (c) adjoining public open space greater than 2000m^2 (including where the site would adjoin if not separated by a public road).
PO 1.4 Commercial activities outside activity centres improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.4 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) where located outside of an Activity Centre, does not exceed 150m^2 in gross leasable floor area.
Coordinated and Orderly Development	
PO 2.1 Land division and infrastructure occur in a coordinated manner and orderly sequence.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development and infrastructure are staged and provided in a manner that supports the orderly expansion of urban areas and the economic provision of infrastructure and services.	DTS/DPF 2.2 None are applicable.
Community Facilities	
PO 3.1 Community facilities such as schools, community centres, recreation centres and public open space are co-located within activity centres or co-located with complementary uses to reinforce their role as a focal point for community.	DTS/DPF 3.1 None are applicable.
PO 3.2 Community facilities are located and designed to maximise accessibility by public transport, walking and cycling.	DTS/DPF 3.2 None are applicable.
Open Space	
PO 4.1 The size and distribution of open space encourages recreation and healthy lifestyles.	DTS/DPF 4.1 None are applicable.
PO 4.2 The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features, irrigated recreation spaces, sporting infrastructure or public art.	DTS/DPF 4.2 None are applicable.
Building Height	
PO 5.1 Buildings establish a low-medium rise residential character with development above 3 building levels located close to activity centres, open space and/or public transport.	DTS/DPF 5.1 Buildings (excluding garages, carports and outbuildings) do not exceed the maximum building height nominated on a Building Envelope Plan, or where none exists: (a) a maximum building height of 3 building levels or 12m and (b) a maximum wall height of 10m (except where a gable end).
Primary Street Setback	
PO 6.1 Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	DTS/DPF 6.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** Where a building envelope plan exists. / Consistent with the building envelope plan. Where the allotment adjoins a public reserve greater than 2000m^2 (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. / 1.5m In all other cases. / 3m For the purposes of **DTS/DPF 6.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 7.1 Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 7.1 Building walls (except for ancillary buildings and structures) are set back consistent with a building envelope plan, or where none exists at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 8.1 Boundary walls are limited in height and length to manage impacts on adjoining properties.	DTS/DPF 8.1 Building walls (except for ancillary buildings and structures) on side boundaries are consistent with a building envelope plan, or satisfy (a) or (b): (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height or (b) do not: (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) with respect to all boundary walls on the same boundary, exceed 45% of the total length of the boundary (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.
Side Boundary Setback	
PO 9.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 9.1 Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 10.1 Buildings are set back from rear boundaries to provide: (a) separation between buildings in a way that complements the emerging character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 10.1 Building walls are set back from the rear boundary consistent with a building envelope plan, or at least: (a) 3m for the first building level or 0m where the rear boundary adjoins a laneway (b) 5m for any second building level or 0m where the rear boundary adjoins a laneway (c) 5m plus any increase in wall height over 7m for buildings three building levels and above.
Site Dimensions and Land Division	
PO 11.1 Allotments created for residential purposes are of a suitable size and dimension and accommodate a diverse range of housing choices.	DTS/DFP 11.1 None are applicable.
PO 11.2 Allotments created for residential purposes are a suitable size and dimension to accommodate dwellings that are functional and provide a high standard of residential amenity for occupants.	DTS/DPF 11.2 None are applicable
PO 11.3 Sites for residential purposes are consistent with an authorised plan of division, Concept Plan or master plan.	DTS/DPF 11.3 Development will not result in more than 1 dwelling on an existing allotment.
Land Division Pattern	
PO 12.1	DTS/DPF 12.1

Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.	None are applicable.
Tree Canopy	
PO 13.1 Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.	DTS/DPF 13.1 None are applicable.
Concept Plans	
PO 14.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development, provision of infrastructure and the location of new activity centres.	DTS/DPF 14.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: **Description** Concept Plan 3 - Mount Barker and Littlehampton Concept Plan 10 - Blakeview Concept Plan 11 - Munno Para Concept Plan 13 - Suburban Activity Centre - Buckland Park Concept Plan 14 - Buckland Park Concept Plan 15 - Munno Para West Concept Plan 17 - Angle Vale Concept Plan 18 - Playford North Concept Plan 19 - Playford North Infrastructure Concept Plan 20 - Munno Para Downs Concept Plan 21 - Virginia Concept Plan 16 - Angle Vale Infrastructure Concept Plan 12 - Urban Growth Area - Andrews Farm / Penfield Concept Plan 50 - Roseworthy Town Expansion Concept Plan 7 - Munno Para Station Concept Plan 8 - Andrews Farm / Penfield Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints Concept Plan 80 - Murray Bridge Concept Plan 108 - Waitpinga Road, Encounter Bay Concept Plan 106 - Hindmarsh Valley Concept Plan 105 - Seaford Heights Concept Plan 101 - Evanston Gardens, Evanston South, Hillier Concept Plan 100 - Gawler East Concept Plan 118 - Northgate Concept Plan 119 - Seacliff Park and Marino Concept Plan 120 - Aldinga Concept Plan 123 - Croydon Park Concept Plan 124 - Hackham Concept Plan 155 - Elizabeth South Residential Concept Plan 160 - Concordia Growth Area: Basic Infrastructure Concept Plan 161 - Concordia Growth Area: Land Use Concept Plan 163 - Sellicks Beach: Land Use Concept Plan 164 - Sellicks Beach: Basic Infrastructure Concept Plan 168 - Golden Grove Stage 2 Concept Plan 167 - Golden Grove Stage 1 Concept Plan 176 - Port Stanvac In relation to DTS/DPF 14.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 14.1 is met.
Advertising and display homes	
PO 15.1 Advertising is limited to temporary displays to promote the sale of land and buildings within the zone.	DTS/DPF 15.1 Advertisements: (a) are of a temporary nature and will be removed within 2 years from the date of installation and (b) promote the sale of land or buildings within the zone.
PO 15.2 Display homes provide sufficient car parking.	DTS/DPF 15.2 None are applicable.
Earthworks and sloping land	
PO 16.1 Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.	DTS/DPF 16.1 Earthworks associated with development are consistent with a building envelope plan, or do not involve: (a) excavation exceeding a vertical height of 1.5m (b) filling exceeding a vertical height of 1.5m (c) a total combined excavation and filling vertical height of 3m or more.
Ancillary Structures and Buildings	
PO 17.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 17.1 Ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m2 (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
PO 17.2 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.	DTS/DPF 17.2 Ancillary buildings and structures do not result in: (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.
PO 17.3 Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.	DTS/DPF 17.3 Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive: (a) are ancillary and subordinate to an existing non-residential use on the same site

	(b) have a floor area not exceeding the following: Allotment size: Floor area ≤500m²: 60m² >500m²: 80m² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the main building to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (and not including a gable end) (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.
Private Open Space	
PO 18.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 18.1 Dwellings are provided with a minimum area of private open space nominated on a building envelope plan, or in accordance with Design in Urban Areas Table 1 - Private Open Space.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 11. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 13. Does not involve the clearance of native vegetation.
Detached dwelling Except where any of the following apply: • Character Area Overlay • Coordinated Development Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Development will not result in more than 1 dwelling on: (a) an existing allotment or (b) an allotment granted development authorisation under the *Planning, Development and Infrastructure Act 2016* 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. A dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12m (b) a wall height of 10m (except where a gable end). 5. Each dwelling with a frontage to a public street: (a) includes at least one window facing the primary street from a habitable room and (b) has an aggregate window area of at least 2m² facing the primary street. 6. Upper level windows facing side or rear boundaries shared with another residential allotment/site: (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 125mm (b) have sill heights greater than or equal to 1.5m above finished floor level and/or (c) incorporate screening to a height of 1.5m above finished floor level. 7. If the dwelling exceeds 1 building level, any balconies satisfy one of the following:

	(a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve (or combination of) that is at least 15 metres wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of: (i) 1.5m above finished floor level there the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases. 8. Private open space is consistent with the minimum area of private open space nominated on a building envelope plan, or is provided in accordance with the following: (a) Total private open space area: (i) Site area <301m2: 24m2 located behind the building line. (ii) Site area ≥301m2: 60m2 located behind the building line. (b) Minimum directly accessible from a living room: 16m2 / with a minimum dimension 3m 9. Dwellings provide car parking spaces on-site at a rate no less than: (a) 1 bedroom dwelling - 1 space per dwelling. (b) 2 or more bedroom dwelling - 2 spaces per dwelling, 1 of which is covered 10. Vehicle access to car parking spaces is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500mm or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; (b) 2m or more from the base of the trunk of a street tree unless consent is provided from the tree owner; (c) 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing (d) so that access is not obtained from, and is located at least 25m from the tangent point of any State Maintained Road. 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary. 12. Development does not involve: (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m or (c) a total combined excavation and filling vertical height of 2m or more. 13. One of the following is satisfied: (a) a declaration is provided by or on behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. A dwelling is connected, or will be connected, to a reticulated water scheme or mains water supply with the capacity to meet the requirements of the development. 15. Development is connected, or will be connected, to an approved common waste water disposal service with the capacity to meet the requirements of the development. 16. Where the Native Vegetation Overlay or State Significant Native Vegetation Overlay applies in relation to the relevant site/allotment, the application is accompanied by: (a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the *Native Vegetation Act 1991*, including any clearance that may occur: (i) in connection with a relevant access point and / or driveway (ii) within 20m of a dwelling for fire prevention and control (iii) within 50m of residential accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area (b) a report prepared in accordance with Regulation 18(2)(a) of the Native Vegetation Regulations 2017 that establishes that the clearance is categorised as 'Level 1 clearance'. 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels). 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage - door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 14. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 15. Does not involve the clearance of native vegetation. 16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None
Private bushfire shelter Except where any of the following apply:	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.

• Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Retaining wall Except where any of the following apply: • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Retains a difference in ground levels not exceeding 1.5 m (measured from the lower of the 2 adjoining finished ground levels) 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 3. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Shade sail Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Verandah Except where any of the following apply: • Coordinated Development Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Coordinated Development Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.1	Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2, DTS/DPF 12.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.4, DTS/DPF 19.2 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Clearance from Overhead Powerlines DTS/DPF 1.1	Hills Subzone [Side Boundary Setback] DTS/DPF 4.1 Hills Subzone [Site Coverage] DTS/DPF 2.1 Emerging Main Street Subzone [Land Use and Intensity] DTS/DPF 1.1	Water Resources Overlay [Water Catchment] DTS/DPF 1.5 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m^2 (b) shop that is a restaurant (c) shop located in an Activity Centre.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

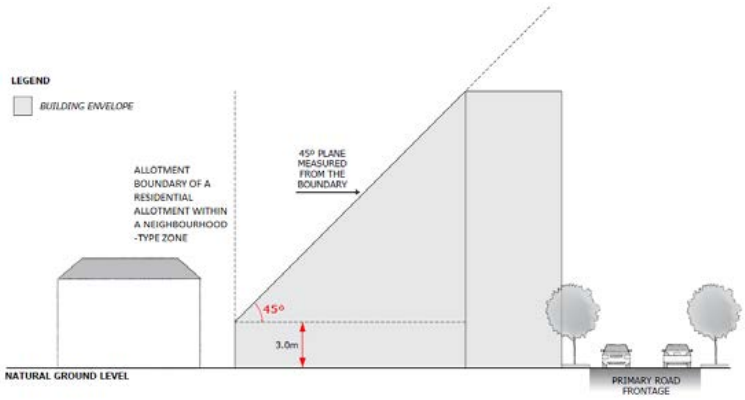
Class of Development **(Column A)**	**Exceptions** **(Column B)**
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) ancillary accommodation (b) child care facility (c) co-living (d) community facility (e) display home (f) dwelling (g) dwelling addition (h) educational facility (i) indoor recreation facility (j) residential flat building (k) retirement facility (l) supported accommodation.	Except development that: 1. does not satisfy Master Planned Neighbourhood Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) retirement facility (b) supported accommodation.	Except development that: 1. exceeds 4 building levels or 15 m in height or 2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
5. Any development involving any of the following (or of any combination of any of the following) where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy any of the following: (a) Master Planned Neighbourhood Zone DTS/DPF 1.4 (b) Master Planned Neighbourhood Zone DTS/DPF 5.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:

	(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site: (a) consulting room (b) office (c) shop.	Except development that: 1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2 or 2. exceeds 4 building levels or 15 m in height or 3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2 or 4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where in accordance with a building envelope plan or where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where in accordance with a building envelope plan or where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
7. Advertisement where **not** located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone.	Except advertisement that does not satisfy Master Planned Neighbourhood Zone DTS / DPF 15.1.
8. Any development involving any of the following (or of any combination of any of the following) where located in an activity centre within the Emerging Activity Centre Subzone or Emerging Main Street Subzone: (a) advertisement (b) ancillary accommodation (c) child care facility (d) cinema (e) community facility (f) consulting room (g) display home (h) dwelling located above a non-residential building level (i) educational facility (j) emergency services establishment (k) health facility (l) hotel (m) indoor recreation facility (n) library (o) office (p) place of worship (q) public transport terminal (r) retail fuel outlet (s) service trade premises (t) shop (u) tourist accommodation.	Except development that: 1. in the case of the Emerging Activity Centre Subzone: (a) exceeds the maximum building height specified in Emerging Activity Centre Subzone DTS/DPF 2.1 or (b) does not satisfy any of the following: (i) Emerging Activity Centre Subzone DTS/DPF 2.2 (ii) Emerging Activity Centre Subzone DTS/DPF 2.3 2. in the case of the Emerging Main Street Subzone: (a) exceeds the maximum building height specified in Emerging Main Street Subzone DTS/DPF 3.1 or (b) does not satisfy any of the following (i) Emerging Main Street Subzone DTS/DPF 3.2 (ii) Emerging Main Street Subzone DTS/DPF 3.3.
9. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank.	None specified.
10. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
11. Railway line.	Except where located outside of a rail corridor or rail reserve.

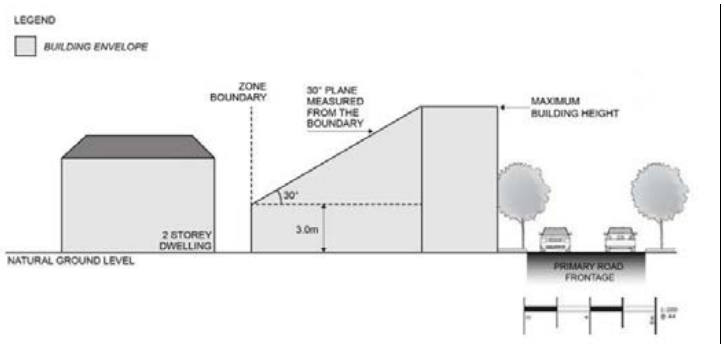
Placement of Notices - Exemptions for Performance Assessed Development
None specified.

Placement of Notices - Exemptions for Restricted Development
None specified.

Emerging Activity Centre Subzone



Assessment Provisions (AP)



Desired Outcome (DO)

Desired Outcome	
DO 1	Activity centres, employment, and community services make neighbourhoods a healthy and convenient place to live.

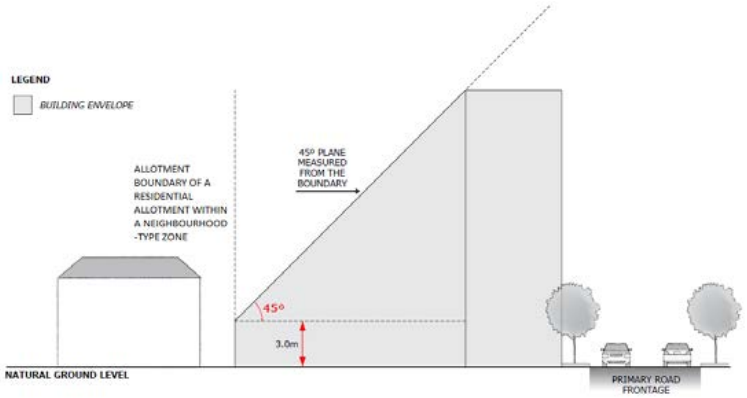
Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Activity centres within master-planned communities include a range of land uses to provide services at the local and neighbourhood level.	DTS/DPF 1.1 Development comprises one or more of the following where located in an Activity Centre: (a) Child care facility (b) Cinema (c) Community facility (d) Consulting room (e) Dwelling located above non-residential development (f) Educational facility (g) Emergency services facility (h) Hospital (i) Hotel (j) Indoor recreation facility (k) Library (l) Office

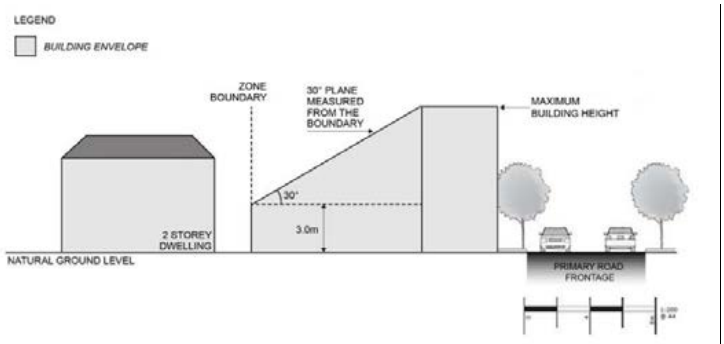
	(m) Place of worship (n) Public transport terminal (o) Retail fuel outlet (p) Service trade premises (q) Shop (r) Tourist accommodation. And in any other case, one or more of the following land uses: (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Display home (f) Dwelling (g) Educational facility (h) Indoor recreation facility (i) Office (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation.
PO 1.2 Land division design designates land for activity centres that is: (a) distributed to maximise convenient access to shopping and services (b) of sufficient size to cater for the anticipated catchment and future population.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land division design ensures activity centres are located to maximise accessibility by public transport, walking and cycling.	DTS/DPF 1.3 None are applicable.
PO 1.4 Land division design ensures activity centres are established in locations that improve accessibility and exposure such as: (a) at an intersection of higher order roads and main movement routes (b) locations that have the highest residential density and pedestrian catchment or (c) adjacent high frequency public transport.	DTS/DPF 1.4 None are applicable.
PO 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.5 Within Activity Centres, dwellings are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.6 Activity Centres include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.6 None are applicable.
Built Form and Character	
PO 2.1 A range of low-to-medium rise buildings within Activity Centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.	DTS/DPF 2.1 Buildings within Activity Centres not exceeding the following maximum building heights: (a) where the development is located on land adjacent to an allotment that will be used solely for residential purposes, 3 building levels or 12m (b) in all other cases 6 building levels or 22m.
PO 2.2 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone	DTS/DPF 2.2 Buildings within Activity Centres constructed within a building envelope provided by a 45 degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary): 
PO 2.3 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 2.3 Buildings within Activity Centres on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

	
Advertising	
PO 3.1 Advertisements are sited and designed to achieve an overall consistency and appearance along individual street frontages.	DTS/DPF 3.1 None are applicable.
PO 3.2 Freestanding advertisements: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 3.2 Freestanding advertisements: (a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (b) do not have a sign face that exceeds 6m^2 per side

Emerging Main Street Subzone



Assessment Provisions (AP)



Desired Outcome (DO)

Desired Outcome	
DO 1	Activity centres supported by medium density residential development make neighbourhoods a healthy and convenient place to live.
DO 2	Higher order activity centres in master planned areas include a main street as focal point for the surrounding neighbourhood and include a mix of retail, office, commercial, community, educational, sporting, recreation and civic land uses.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Activity centres within master-planned communities include: (a) retail, office, consulting rooms, educational facilities, community facilities, health, entertainment, sporting and recreation related uses that provide a range of goods and services at the local and neighbourhood level (b) a main street environment as a focal point for residents and visitors to shop, work, meet, entertain and relax.	DTS/DPF 1.1 Development comprises one or more of the following where located in an activity centre: (a) Advertisement (b) Child care facility (c) Cinema (d) Community facility (e) Consulting room (f) Dwelling located above non-residential development (g) Educational facility (h) Health facility (i) Hospital (j) Hotel (k) Indoor recreation facility (l) Library (m) Licensed premises (n) Office (o) Place of worship (p) Shop (q) Tourist accommodation And in any other case, one or more of the following land uses: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility (i) Indoor recreation facility (j) Office (k) Recreation area (l) Residential flat building (m) Retirement facility (n) Shop (o) Student accommodation (p) Supported accommodation.
PO 1.2 Within a main street of an activity centre, ground floor uses contribute to an active and vibrant main street.	DTS/DPF 1.2 Shop, office, or consulting room uses are located on the ground floor level of buildings within a main street of an activity centre.
PO 1.3 Development with a frontage to a main street of an activity centre is sited and designed to achieve or maintain a vibrant and interesting streetscape.	DTS/DPF 1.3 None are applicable.
PO 1.4 Within an activity centre, dwellings are developed only in conjunction with non-residential uses to support business, entertainment and recreational activities.	DTS/DPF 1.4 Within an activity centre, medium to high density dwellings are developed only in conjunction with non-residential uses and sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.5 Activity centres include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.5 None are applicable.
PO 1.6 Medium to high density residential neighbourhoods established in walkable distances to an activity centre.	DTS/DPF 1.6 Residential development (other than residential development in a mixed-use building) achieves a net residential density of not less than 35 dwellings per hectare, where located within 200m of the boundary of an activity centre, except where varied by a Concept Plan.
PO 1.7 Within an activity centre, changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within main street precincts.	DTS/DPF 1.7 Within an activity centre, a change of use to a shop, office, consulting room or any combination of these uses satisfies (a) to (e) inclusive: (a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses (b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)

	(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions (d) if the change in use involves a gross leasable floor area greater than 250m^2 and has direct frontage to an arterial road, it achieves either (i) or (ii): (i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road (ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared (e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances: (i) the building is a local heritage place (ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) (iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse.
Built Form and Character	
PO 2.1 Within the main street of an activity centre, buildings sensitively frame the main street and public spaces, provide overall visual relief from building height and mass, and maintain a human scale for pedestrians.	DTS/DPF 2.1 Buildings fronting the main street of an activity centre: (a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m, or higher where it matches the existing street wall of adjoining buildings and (b) have levels above the defined podium or street wall set back a minimum of 2m from that wall.
PO 2.2 Within the main street of an activity centre, buildings establish a main street appearance by incorporating key shop-front elements such as narrow buildings and tenancy footprints with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels (base stall boards) and recessed entries.	DTS/DPF 2.2 None are applicable.
PO 2.3 Within the main street of an activity centre, buildings create visual interest, promote an active interface with the main street frontage and maximise passive surveillance.	DTS/DPF 2.3 Within the main street of an activity centre, not less than 50% of the ground floor primary frontage of buildings facing the main street is visually permeable, transparent or clear glazed.
PO 2.4 Within the main street of an activity centre, pedestrian shelter and shade is provided over footpaths through the use of structures such as awnings, canopies and verandas.	DTS/DPF 2.4 None are applicable
PO 2.5 Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential without the need for significant change to the building.	DTS/DPF 2.5 Ground floor levels of buildings incorporate a minimum ceiling height of 3.5m.
PO 2.6 Outbuildings, carports and garages are located behind the primary building facing the main street to ensure vibrancy and activity along the main street.	DTS/DPF 2.6 None are applicable.
PO 2.7 Development contributes to and does not interfere with provision of an efficient and convenient pedestrian network linking the main street to adjoining pedestrian networks.	DTS/DPF 2.7 None are applicable.
PO 2.8 Within the main street of an activity centre, vehicular access is from a secondary street and/or rear lane, avoiding vehicle assess from the main street frontage.	DTS/DPF 2.8 None are applicable.
PO 2.9 Within the main street of an activity centre, on-site car parking areas are located behind the building fronting the main street.	DTS/DPF 2.9 None are applicable.
Building Height and Setbacks	
PO 3.1 A range of low-to-medium rise buildings within activity centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.	DTS/DPF 3.1 Buildings within activity centres not exceeding the following maximum building heights: (a) where the development is located on land adjacent to an allotment that will be used solely for residential purposes, 3 building levels or 12m (b) in all other cases 6 building levels or 22m.
PO 3.2 Buildings within activity centres mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.2 Buildings within activity centres constructed within a building envelope provided by a 45- degree plane, measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary): 
PO 3.3 Buildings within activity centres mitigate overshadowing of residential development within a neighbourhood-type zone.	DTS/DPF 3.3 Buildings within activity centres on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30-degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

	
PO 3.4 Buildings along the main street of an activity centre with no setbacks from road boundaries achieve a continuity of street façade to the main street, but with sections of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings along the main street of an activity centre with no setback from side boundaries achieve a continuity of street façade to the main street.	DTS/DPF 3.5 Except where contrary to DTS/DPF 3.2 or 3.3, building walls along the main street of an activity centre located on the site's side boundaries, with the front wall set back in line with neighbouring buildings.
Land Division	
PO 4.1 Land division design designates land for activity centres that is: (a) distributed to maximise convenient access to shopping and services and (b) of sufficient size to cater for the anticipated catchment and future population.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division design ensures activity centres are located to maximise accessibility by public transport, walking and cycling.	DTS/DPF 4.2 None are applicable.
PO 4.3 Land division design ensures activity centres are established in locations that improve accessibility and exposure such as: (a) at an intersection of higher order roads and main movement routes (b) locations that have the highest residential density and pedestrian catchment or (c) adjacent high frequency public transport.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division related to a neighbourhood activity centre or larger centre, as identified on the relevant Concept Plan, identifies a main street which is located and sized to complement the scale of the activity centre.	DTS/DPF 4.4 None are applicable.
Advertising	
PO 5.1 Advertisements in activity centres are sited and designed to achieve an overall consistency and appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.
PO 5.2 Advertisements in activity centres satisfy all of the following: (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality.	DTS/DPF 5.2 Advertisements in activity centres satisfy either (a) or (b): (a) when located on a main street frontage: (i) are sited flush on the wall of the building and do not have a sign face that exceeds $2m^2$ or (ii) are under the verandah and are no more than 30cm in height and do not have a sign face that exceeds $1m^2$ or (b) where located outside of a main street, freestanding advertisements: (i) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) and (ii) do not have a sign face that exceeds $6m^2$ per side.

Hills Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	A coordinated development pattern, high quality public realm and living environment that complements the site's natural features and slope of the land.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Site Dimensions and Land Division	
PO 1.1 A land division pattern that sensitively integrates existing site features including undulating topography, watercourses, vegetation and attractive vistas.	DTS/DPF 1.1 None are applicable.
PO 1.2 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate residential development that is sensitive to the natural topography, with: (a) low density development on sloping land (with a gradient exceeding 1-in-8); and (b) medium density development on low sloping land (with a gradient less than 1-in-8) and where it can be demonstrated that impacts on neighbouring land can be effectively managed.	DTS/DPF 1.2 None are applicable.
PO 1.3 Street layouts complement natural features such as ridgelines, hilltops, waterways and valleys.	DTS/DPF 1.3 None are applicable.
Site Coverage	
PO 2.1 On sloping land (with a gradient exceeding 1-in-8) space is provided around buildings to accommodate site works and retaining walls in a manner that limits visual impact on adjoining properties, provides an attractive outlook and access to light and ventilation.	DTS/DPF 2.1 Site coverage consistent with a building envelope plan, or: (a) does not result in site coverage exceeding 50% on sites with a gradient more than 1-in-8 or (b) on sites with a gradient of less than 1-in-8, there is no maximum site coverage and DTS/DPF 2.1 is met.
Built Form and Character	
PO 3.1 Development that is prominently visible from the Adelaide plains or urban areas: (a) achieves a profile that blends with the topography of the land (b) incorporates existing vegetation wherever possible and additional landscaping to assist in screening retaining walls, excavated or filled batter slopes and the apparent bulk and scale of buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development provides a complementary transition to any adjacent natural and rural landscapes by providing low density housing incorporating existing vegetation wherever possible to mitigate the visible extent of buildings, earthworks and retaining walls.	DTS/DPF 3.2 None are applicable.
Side Boundary Setback	
PO 4.1	DTS/DPF 4.1

Buildings are set back from side boundaries to: (a) provide separation between dwellings in a way that complements the emerging character of the locality (b) provide access to natural light and ventilation for neighbours (c) minimise height and bulk relative to adjoining dwellings by setting back the upper level a greater distance from side boundaries than the lower level (d) provide greater separation from side boundaries on steeper sites to reduce the extent of retaining and earthworks on boundaries.	Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) on sites with a site gradient greater than 1-in-8: (i) at least 1900mm (ii) for a wall that is south facing and the wall height exceeds 3m - at least 1900mm from the boundary of the site plus 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (b) on sites with a site gradient less than 1-in-8: (i) where the wall height does not exceed 3m - at least 900mm (ii) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (iii) for a wall that is south facing and the wall height exceeds 3m - at least 1900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Earthworks and Retaining	
PO 5.1 Buildings sited and designed to integrate with the natural topography of the land using measures such as split-level building construction and other approaches that minimise the extent of cut and fill.	DTS/DPF 5.1 None are applicable.
PO 5.2 Vegetation is used to screen buildings and excavation or filling from view.	DTS/DPF 5.2 None are applicable.
PO 5.3 Retaining walls are a stepped series of low walls constructed of dark, natural-coloured materials and screened by landscaping.	DTS/DPF 5.3 Retaining walls: (a) do not retain more than 1.5m in height or (b) where more than 1.5m is to be retained in total, are stepped in a series of low walls each not exceeding 1m in height and separated by at least 700mm.

Master Planned Renewal Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A revitalised community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development and supporting uses in emerging urban communities contribute to creating a convenient urban environment for residents.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Co-living (d) Community facility (e) Consulting room (f) Display home (g) Dwelling (h) Educational facility (i) Office (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Student accommodation (o) Supported accommodation.
PO 1.2 Residential development at increased densities close to open space, public transport, activity centres and community facilities to enhance community access to community services.	DTS/DPF 1.2 Medium and high density residential development located where any one of the following is satisfied: (a) within 200m of an activity centre (b) within 200m of a public transport stop (c) adjoining public open space greater than 2000m^2 (including where the site would adjoin if not separated by a public road).
PO 1.3 Non-residential uses are of a scale to support the anticipated future growth of the surrounding neighbourhood.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial activities improve community access to services are of a scale and type to maintain residential amenity.	DTS/DPF 1.4 A shop, consulting room or office (or any combination thereof) satisfies any one of the following: (a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: (i) does not exceed 50m^2 gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) does not exceed 250m^2 in gross leasable floor area (individually or combined, in a single building).
PO 1.5 Non-residential development located and designed to improve community accessibility to services primarily in the form of: (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities.	DTS/DPF 1.5 None are applicable.
PO 1.6 Community services such as schools, community centres, recreation centres and public open space are co-located with complementary uses to reinforce their role as a community focal point.	DTS/DPF 1.6 None are applicable.
PO 1.7 Community services are located and designed to maximise accessibility by public transport, walking and cycling.	DTS/DPF 1.7 None are applicable
Coordinated and Orderly Development	
PO 2.1 Where land ownership is fragmented, land division and infrastructure occur in a coordinated manner and orderly sequence.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development and infrastructure are staged and provided in a manner that supports the orderly expansion of urban areas and the economic provision of infrastructure and services.	DTS/DPF 2.2 None are applicable.
Site Dimensions and Land Division	
PO 3.1 Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.	DTS/DPF 3.1 None are applicable.
PO 3.2 Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.	DTS/DPF 3.2 None are applicable.
PO 3.3 Allotments created for residential purposes are of a suitable size and dimension and accommodate a diverse range of housing choices, dwellings that are functional and provide a high standard of residential amenity for occupants.	DTS/DPF 3.3 None are applicable.
PO 3.4 Sites for residential purposes are consistent with an authorised plan of division, Concept Plan or master plan.	DTS/DPF 3.4 Development will not result in more than 1 dwelling on an existing allotment.
Open Space	
PO 4.1	DTS/DPF 4.1

The size and distribution of open space encourages recreation and healthy lifestyles.	None are applicable.
PO 4.2 The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features (including watercourses and constructed wetlands), irrigated recreation spaces, sporting infrastructure or public art.	DTS/DPF 4.2 None are applicable.
Building Height	
PO 5.1 Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.	DTS/DPF 5.1 Building height (excluding garages, carports and outbuildings) does not exceed the maximum building height nominated on a Building Envelope Plan, or where none exists: (a) 4 building levels and 15m where the site: (i) is at least 1200m^2 (ii) has a frontage of at least 35m or (b) 3 building levels and 12m in all other circumstances.
PO 5.2 The effects of building mass on residential allotments in a different neighbourhood-type zone mitigated through articulation of building elevations.	DTS/DPF 5.2 None are applicable.
Primary Street Setback	
PO 6.1 Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	DTS/DPF 6.1 Buildings setback from the primary street boundary in accordance with the following table: **Development Context** / **Minimum setback** Where a building envelope plan exists. / Consistent with the building envelope plan. Where the allotment adjoins a public reserve greater than 2000m^2 (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. / 1.5m In all other cases. / 3m. For the purposes of **DTS/DPF 6.1:** (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table
Secondary Street Setback	
PO 7.1 Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.	DTS/DPF 7.1 Building walls (except for ancillary buildings and structures) are set back consistent with a building envelope plan, or where none exists at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	
PO 8.1 Boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 8.1 Building walls (except for ancillary buildings and structures) on side boundaries are consistent with a building envelope plan, or satisfy (a) or (b): (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height or (b) do not exceed: (i) 3m in wall height and (ii) 11.5m in length and (iii) with respect to all boundary walls on the same boundary, 45% of the total length of the boundary.
PO 8.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings.	DTS/DPF 8.2 Dwellings in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.
Side Boundary Setback	
PO 9.1 Buildings are set back from side boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 9.1 Building walls not sited on side boundaries are set back from side boundaries consistent with a building envelope plan, or are set back in accordance with the following: (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.
Rear Boundary Setback	
PO 10.1 Buildings are setback from rear boundaries to provide: (a) separation between buildings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation.	DTS/DPF 10.1 Building walls are set back from the rear boundary consistent with a building envelope plan, or at least: (a) 5m or more where the subject land directly abuts an allotment of a different zone or (b) 0m where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land or (c) 3m for the first building level or 0m where the rear boundary adjoins a laneway and (d) 5m for any second building level or 0m where the rear boundary adjoins a laneway and (e) 5m plus any increase in wall height over 7m for buildings three building levels and above.
Private Open Space	
PO 11.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 11.1 Dwellings are provided with a minimum area of private open space nominated on a building envelope plan, or in accordance with Design in Urban Areas Table 1 - Private Open Space.
PO 11.2 Master planned development providing a minimum 15% affordable housing provides coordinated private open space which is sized and located to meet the needs of occupants and promote liveability between neighbours.	DTS/DPF 11.2 Private open space within a master planned development providing a minimum 15% affordable housing is provided at a minimum rate of: (a) for dwellings at ground level (including dwellings of two or more storeys), 10m^2 with a minimum dimension of 2m (b) for dwellings above ground, 8m^2 with a minimum dimension of 2m.
Concept Plans	
PO 12.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 – Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development, provision of infrastructure and the location of new activity centres.	DTS/DPF 12.1 The site of the development is wholly located outside any relevant Concept Plan boundary (where defined). The following Concept Plans are relevant: In relation to DTS/DPF 12.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 12.1 is met.
Advertising and Display Homes	
PO 13.1 Advertising is limited to temporary displays to promote the sale of land and buildings within the zone.	DTS/DPF 13.1 Advertising is limited to: (a) temporary displays to promote the sale of land and buildings within the zone (b) one display per road frontage and (c) an advertising display area no greater than 6m x 3m.
PO 13.2 Display homes provide sufficient car parking.	DTS/DPF 13.2 Display homes provide sufficient car parking at a rate of: (a) 5.5 carparks per display home for up to five display homes

	(b) 2.5 additional carparks per additional display home.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Brush fence Except where any of the following apply: • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The fence is formed (wholly or partially) from brush. 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels). 3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved). 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Building alterations Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The alteration does not: (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment (f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
Carport Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The carport is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. 11. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 12. Does not involve the clearance of native vegetation.
Detached dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions: (i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres 5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or

	(b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Fence and retaining wall structure Except where any of the following apply: • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The retaining wall retains a difference in ground levels not exceeding 1.5 metres (measured from the lower of the 2 adjoining finished ground levels). 2. The total combined height of the fence and retaining wall structure is less than 3.3 metres in height (measured from the lower of the 2 adjoining finished ground levels) 3. The structure is located behind the building line of the associated dwelling and any dwelling on adjoining land. 4. The structure is not located on a secondary street boundary. 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. 6. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Outbuilding Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m^2. 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 11. If the outbuilding is a garage, it is located so that vehicle access: (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site 12. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 13. Does not involve- (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres. 14. Does not involve the clearance of native vegetation. 15. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Partial demolition of a building or structure Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	None.
Private bushfire shelter Except where any of the following apply: • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Primary street setback - at least as far back as the building to which it is ancillary. 4. Secondary street setback - at least 900mm from the boundary of the allotment. 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
Retaining wall Except where any of the following apply: • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. Retains a difference in ground levels not exceeding 1.5 m (measured from the lower of the 2 adjoining finished ground levels) 2. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. 3. The structure will not materially result in the collection or diversion of surface water flowing over land or water flowing in a watercourse.
Row dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions: (i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres 5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located:

	(a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or (b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Semi-detached dwelling Except where any of the following apply: • Character Area Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The authorised plan of division for the subject land nominates a minimum 15 percent of allotments for the purposes of affordable housing. 2. A building envelope plan has been approved in relation to the relevant site/allotment. 3. No part of a dwelling (excluding open structures such as verandahs, porticos and eaves) will protrude beyond the relevant building envelope plan. 4. The dwelling provides 1 on-site car park, with the following dimensions: (a) where enclosed by fencing, walls or other obstructions, the spaces following internal dimensions: (i) single parking spaces: A. a minimum length of 5.4 metres; and B. a minimum width of 3.0 metres; and C. a minimum garage door width of 2.4 metres (ii) double parking spaces (side by side) A. a minimum length of 5.4 metres; and B. a minimum width of 5.5 metres; and C. a minimum garage door width of 2.4 metres (iii) where uncovered, spaces have: A. a minimum length of 5.4 metres; and B. a minimum width of 2.4 metres; and C. a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5 metres 5. The dwelling provides private open space at a rate no less than: (a) for dwellings at ground level (including dwellings of two or more storeys), 10 square metres with a minimum dimension of 2 metres; or (b) for dwellings above ground, 8 square metres with a minimum dimension of 2 metres 6. The dwelling does not exceed the building height nominated on the relevant building envelope plan, or where none is specified, does not exceed: (a) a maximum building height of 3 building levels or 12 metres; and (b) a wall height of 10 metres (except where a gable end) 7. Where the dwelling has a frontage to a public street, it: (a) includes at least one window facing the primary street from a habitable room; and (b) has an aggregate window area of at least 2 square metres facing the primary street 8. The dwelling provides upper level windows facing the side or rear boundaries shared with another residential allotment/site which: (a) are permanently obscured to a height of 1.5 metres above finished floor level and are fixed or not capable of being opened more than 200 millimetres; or (b) have sill heights greater than or equal to 1.5 metres above finished floor level; and/or (c) incorporate screening to a height of 1.5 metres above finished floor level 9. All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7 metres above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15 metres wide in all places faced by the boundary; 10. The dwelling provides vehicle access to car parking spaces that is located consistent with that shown on the relevant building envelope plan, or is located: (a) 500 millimetres or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the infrastructure owner; and (b) 2 metres or more from the base of the trunk of a street tree unless consent is provided from the tree owner; and (c) 6 metres or more from the tangent point of an intersection of 2 or more roads or a pedestrian actuated crossing; and (d) so that access is not obtained from, and is located at least 25 metres from the tangent of, any road subject to the Key Outback and Rural Routes Overlay, Urban Transport Routes Overlay or Major Urban Transport Routes Overlay 11. Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is no steeper than 1:4 on average; or (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary 12. The development does not involve: (a) excavation exceeding a vertical height of 1metre; or (b) filling exceeding a vertical height of 1metre; or (c) a total combined excavation and filling vertical height of 2 metres or more 13. The development satisfies one of the following: (a) a declaration is provided on or behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996; or (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development. 14. The development is connected, or will be connected, to: (a) a reticulated water scheme or mains water supply with capacity to meet the requirements of the development; or (b) an approved common waste water disposal service with the capacity to meet the requirements of the development.
Shade sail Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m^2. 5. No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid acoustic structure; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.

Verandah Except where any of the following apply: • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or identified on an approved building envelope plan in relation to the relevant site/allotment. 4. Primary street setback - as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m^2. 6. Post height - does not exceed 3m measured from natural ground level. 7. Building height - does not exceed 5m. 8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment. 9. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay	1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m^2. 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.
Water tank (underground) Except where any of the following apply: • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay	1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Ancillary accommodation Except where any of the following apply: • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay	Land Use and Intensity DTS/DPF 1.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1 Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2, DTS/DPF 12.1 Design in Urban Areas [All residential development and non-residential development [Ancillary Development]] DTS/DPF 19.4, DTS/DPF 19.2	None	Water Resources Overlay [Water Catchment] DTS/DPF 1.5 State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1 Scenic Quality Overlay [Earthworks] DTS/DPF 4.1 Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1 Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1 Hazards (Flooding – General) Overlay [Flood Resilience] DTS/DPF 2.1 Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2 Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1 Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1 Gateway Overlay [Landscape Amenity] DTS/DPF 2.1 Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1 Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.3, DTS/DPF 1.2, DTS/DPF 1.1 Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1 Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1 Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1
