How to save frequently used search

The example below, illustrates creating a filter for current Planning and Planning and Land Division applications.

Overview

The ability to create and save a filter is available in all dashboards.

There is no limit to the number of filters you can create. However, the more filters you save may impact the dashboard download speed.

Plan the order of your filters carefully before saving them, as the filter order cannot be changed once created.

Instructions

1. Select **Assessment in Progress** tab in the homepage.
2. Dashboard will default to **assigned to me only**. Change to **assigned to my Council** (or equivalent) to view all applications within your organisation.
3. Filter the application list by one or more consent **Types**, for example; *PLDC* and *PC*.
4. To further refine the list of applications, filter by **Status**, for example; *under assessment*.
5. Click on **Manage Filters** and then **Save filters as**.
6. The **Save Filters** window shows. Provide a name for the filter, set as default (as applicable) and save.
7. The **MY FILTERS** shows with the filter/s saved.
