Subject: Disappointed with the proposed planning code
Date: Thursday, 28 November 2019 6:41:00 PM

Dear Sir/Madam,

I've been attending many meetings relating to the new proposed planning code. I'm very disappointed with the lack of care, and time pressure to push through a very flawed plan.

It is showing no care for our precious trees or historical area.
No care for our environment
No care for addressing climate change.
All completely based on money, it's a bandaid fix.
Allowing developers to have free reign, it is unacceptable.

I'm deeply concerned that old and valuable trees have no value placed on them, and can be removed far too easily.

I have many more concerns than this, we all need to be really thoughtful about the long term affect this code has on our state and our future.

I would appreciate hearing your thoughts on this issue.

Regards Robyn Trott
