---

Dear Minister Knoll

Nothing could be more important to our living standards than the designs that are imposed on our surroundings. I have not liked what I am hearing. I have experienced first hand the lack of consultation and imposed regulations and powerlessness of my local council, affecting my own home and devaluing it. Sneaky rules that we the population would not have agreed to if we knew.

What I want is -

- Fixing errors and inconsistencies, but NO sneaky rezonings;
- Inclusion of ALL identified places of heritage significance, including “contributory items”; and
- A final round of community consultation before the final Planning & Design Code becomes operational.

Please do these things as a matter of respect and regard for us constituents.

With Respect.

**Dijana Jevremov**
