Dear Minister,

please ensure that South Australians continue to be protected by Planning Regulations.

Considerations of the following need to be ensured;

1. Fixing errors and inconsistencies, without tricky rezonings;
2. Inclusion of ALL identified places of heritage significance, including "contributory items"; and
3. A final round of community consultation before the final Planning & Design Code becomes operational.

Thank you for taking on the most difficult job that you have.

regards

michael LILBURN
