To whom it may concern,

We are the home owners of [REDACTED], Joslin and have lived here for 12 years now.

We are writing to you to let you know that we do not agree with the effect that the new Planning Laws will have on our local area and that the introduction of this Code must be deferred to allow problems to be resolved.

If passed through, it will have a devastating effect on the historic integrity of our suburbs which we do not want to see happen.

We are not in support of the Planning and Design Code.

Kind regards,

Chantel & Tennyson Wickham
