

# O'SULLIVAN BEACH CODE AMENDMENT FACT SHEET

## 36-70 GUMERACHA ROAD & 64 BADEN TERRACE, O'SULLIVAN BEACH

### What is a Code Amendment?

The Planning and Design Code (the Code) contains the policies that guide what can be developed in South Australia. Planning authorities use the Code to assess development proposals.

A Code Amendment is a proposal to change the policies or spatial mapping within the Code, which can change the way future developments are assessed. Code Amendments must be prepared according to certain processes set out by legislation.

### Where is the Affected Area?

The pieces of land which will be specifically impacted by the Code Amendment are identified as 36-70 Gumeracha Road and 64 Baden Terrace, O'Sullivan Beach, shown in Figure 1 below (referred to as the 'Affected Area').

### What is the current zoning?

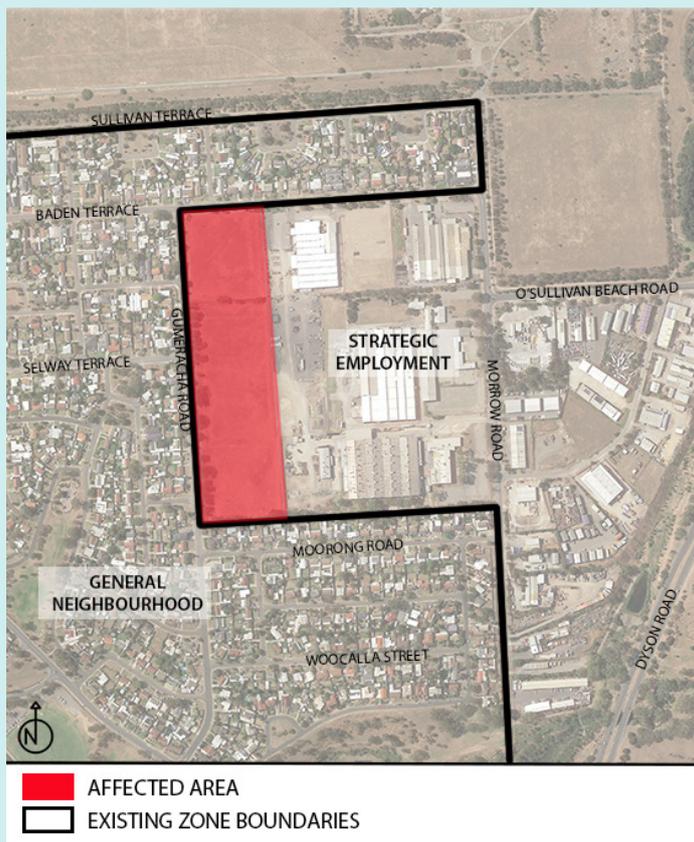

The Affected Area is currently in the Strategic Employment Zone and adjoins the General Neighbourhood Zone.

### What could be developed under the current zoning?

Within the Strategic Employment Zone land which adjoins residential uses can be developed for:

- bulky goods outlet
- light industry
- motor repair station
- office
- place of worship
- research facility
- service trade premises
- store
- warehouse

**Figure 1:** Affected Area and current zone boundaries

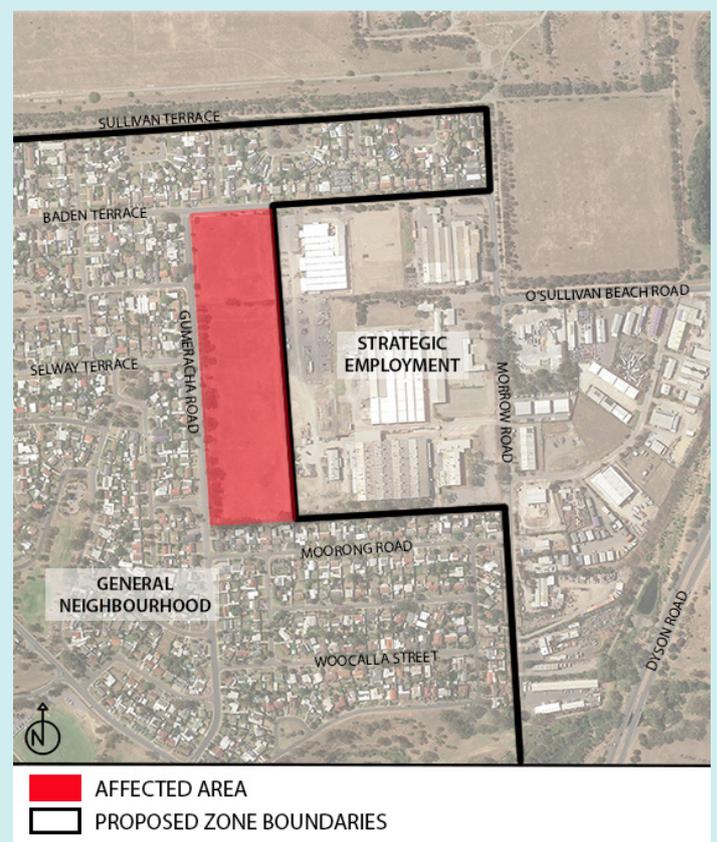

### What is being proposed and what does this mean?

The Code Amendment seeks to rezone the land from Strategic Employment to the General Neighbourhood to enable the development for low to medium density residential purposes, which will form a contiguous extension of the residential area to the west.

### Key Changes

- rezone to General Neighbourhood Zone
- apply Interface Management Overlay for a 10 metre wide depth along entire eastern boundary
- apply Affordable Housing, Stormwater Management and Urban Tree Canopy Overlays
