Subject: Linden Park - Suburban Neighbourhood Zone
Date: Wednesday, 5 February 2020 11:47:30 AM

Good morning,

We wish to write to demonstrate my displeasure at the plan to change Linden Park from a Suburban Neighbourhood Zone to a General Neighbourhood Zone. We currently live in Linden Park and feel that there has been no capacity management for the area, traffic congestion in the area is already bumper to bumper every morning, the public schools (Linden Park Primary and Glenunga International High School) are all full and being capacity managed and now you want to succumb to construction lobby groups so that they can subdivide and increase congestion and reduction in services and quality of life even further at the expense of the current population. We strongly disagree with this initiative and do not believe this area should be even considered for more dense development without improving on all these areas first. Finally, we are very upset that there has been no communication from the government on these plans to people currently living within the area.

Kind Regards,

Shamus and Amelia

, Linden Park
