I am a resident of Rose Park in the Burnside Council area.

I wish to strongly oppose the proposed changes which will weaken the long preserved historic streetscapes of our suburbs - one of the few Adelaide attractions for interstate visitors.

Not to mention the resulting reduction in trees and the impact on infrastructure.

The population growth in Adelaide has been very slow for decades, with no real sign of change. There are plenty of housing options at more affordable costs for homebuyers in outer suburbs, but not the transport facilities to service them. Improve public transport, reduce emissions, rather than giving public money to private developers who will change the face of these beautiful suburbs.

Yours Sincerely
Margo O'Loughlin
