**Subject:** Planning policy

Good day

There needs to be public consultation about this change to policy.

In Campbelltown council area there are builders putting 4 homes on a block which had one home on it.

Creates issues for parking, power, water, rubbish and the lack of greenery all infrastructure.

Campbelltown is losing its green canopy which means hotter temperatures.

We have an unsightly development near us in Rostrevor, appalling small,boxy homes. 4 on a block. They have been on the market for 6 months with no sales.....

Please ensure minimum block sizes, cannot be built right next to another house as below.

thank you Heather Hill
