

DRAFT PLANNING AND DESIGN CODE

→ STATE
PLANNING
REFORM

PHASE THREE (URBAN AREAS)
OCTOBER 2019

Phase 3 Code Amendment for Consultation

The Phase 3 amendment to the Planning and Design Code has been prepared as a Code Amendment pursuant to section 73 of the Planning, Development and Infrastructure Act 2016.

The State Planning Commission has released the Phase 3 Code for Consultation.

If approved, the Code Amendment will be consolidated into the Planning and Design Code and used by the relevant planning authorities to assess development applications.

Editorial Notes

The following change has been made to the document:

1. Innovation Zone, Rehabilitation Subzone
 - a. Insertion of an additional Performance Outcome and Deemed-to-Satisfy Criteria (PO1.6 and DTS/DPF 1.6) which were missing from the printed document.
2. Overlays and General Policies have been placed in alphabetical order;

Part 1 – Rules of Interpretation

This Part 1 forms part of the Planning and Design Code. It sets out how the Code implements the requirements of section 66 of the Act and instructs the user on how the Code is to be read and applied to development assessed under the *Planning, Development and Infrastructure Act 2016*.

Introduction

This is the Planning and Design Code under the *Planning, Development and Infrastructure Act 2016* (the Act). As provided by section 65 of the Act, the State Planning Commission (the Commission) is responsible for preparing and maintaining the Planning and Design Code as a statutory instrument under the Act. The Planning and Design Code, and any amendments to the Code, as published on the SA planning portal, have been adopted by the Minister.

As provided by section 66 of the Act, the primary purpose of the Planning and Design Code is to set out a comprehensive set of policies, rules and classifications which may be selected and applied in the various parts of the State through the operation of the Planning and Design Code and the SA planning database for the purposes of development assessment and related matters within the State.

The Planning and Design Code also provides for other matters envisaged by the Act, and regulations made under the Act in Parts 5, 6, 7, 8 and 9.

Commencement

The commencement date for the Planning and Design Code was 1 July 2019.

Information about amendments to the Planning and Design Code is set out in Appendix 1.

Preliminary

Library of classification criteria (Deemed-to-Satisfy criteria), policies and rules

In addition to the classification of development, the Planning and Design Code sets out a comprehensive set of policies and rules that may be selected and applied in the various parts of the State for the purposes of the assessment of performance assessed and restricted development.

The policies and rules are collated and organised into Zones, Subzones, Overlays and General Development Policies. Together they form a library of policies (“the Code Library”). The policies that make up the library have no application in their own right, but apply according to the scheme outlined in the following paragraphs.

The policies are applied to development by reference to classes of development, and spatial location.

Zones, Subzones and Overlays are assigned spatial boundaries in the various parts of the State through the operation of the SA planning database.

Classification of development

The Planning and Design Code classifies various classes of development as:

- a) accepted development (see section 104(1) of the Act); and
- b) deemed-to-satisfy development (see section 105(a) of the Act); and
- c) restricted development (see section 108(1)(a) of the Act).

All development is classified firstly by reference to its location and the Zone, Subzone and Overlays that are applicable to the location. Classification tables applicable to each Zone identify Accepted Development, Deemed-to-Satisfy development and Restricted Development.

Accepted Development

The Code classifies development as Accepted Development in an Accepted Development Classification Table relative to a particular Zone.

An Accepted Development Classification Table for each Zone specifies criteria which must be met in order for specified classes of development to be classified as Accepted Development within the Zone. For a development to be Accepted Development all criteria applicable to a class of development must be satisfied.

Deemed-to-Satisfy Development

The Code classifies development as deemed-to-satisfy development in a Deemed-to-Satisfy Development Classification Table relative to a particular Zone.

A Deemed-to-Satisfy Classification Table for each Zone specifies criteria which must be met in order for specified classes of development to be classified as deemed-to-satisfy development within the Zone. For a development to be deemed-to-satisfy development all criteria applicable to a class of development must be satisfied.

A deemed-to-Satisfy development does not require assessment against the policies and rules applicable to performance assessed development, and must be granted a consent subject to the requirements of section 106 of the Act.

Restricted Development

The Code classifies development as restricted development in a Restricted Development Table relative to each Zone. Restricted development is a form of impact assessed development for the purposes of assessment under the Act.

Performance Assessed Development - Application of Policies to Govern Performance assessed development

All development not classified as accepted, deemed-to-satisfy, restricted or impact assessed is to be assessed on its merits against the Planning and Design Code, as contemplated by section 107 of the Act. This is referred to as performance assessed development.

Application of Policies to Classes of Development

The Code applies policies to classes of development through an Applicable Policies for Performance Assessed Development Table relative to each Zone.

An Applicable Policies for Performance Assessed Development Table for each Zone specifies the policies and rules (selected from the Code library) that apply to classes of development within the Zone, including by the application of policies within Subzones and Overlays, together with the relevant General Development Policies. The Applicable Policies for Performance Assessed Development Tables also contain rules for application of the policies under the heading "Applicable Policies" including rules relating to the application of Desired Outcome policies and Designated Performance Features. The policies specified in the Applicable Policies for Performance Assessed Development Table constitute the policies applicable to the class of development within the Zone to the exclusion of all other policies within the Code library, and no other policies are applicable.

Development that does not fall within one of the specified classes of development in an Applicable Policies for Performance Assessed Development Table is designated in the Table as "All Other Development". In respect of all other development, all policies from the Zone and Subzone, and all policies in Overlays that have application to the spatial location of the development, and all General Development Policies, are selected and applied for the purpose of assessment.

Relevant Provisions

For the purposes of section 102 of the Act the relevant authority must assess the development against the applicable policies specified by the Zone Applicable Policies for Performance Assessed Development Table that are relevant to the particular development. For the avoidance of doubt, the relevant authority may determine that one or more applicable policies is not relevant to a particular development.

Policies – Desired Outcomes and Performance Outcomes

Zone, Subzone, Overlay and General Development Policies are comprised of desired outcomes and performance outcomes. These are applicable to performance assessed development and to restricted development.

Desired outcomes are policies designed to aid the interpretation of performance outcomes by setting a general policy agenda for a Zone, Subzone, Overlay or General Development Policies module. Where a relevant authority is uncertain as to whether or how a performance outcome applies to a development, the desired outcome(s) may inform its consideration of the relevance and application of a performance outcome, or in assessing the merits of the development against the applicable performance outcomes collectively.

Performance outcomes are policies designed to facilitate assessment according to specified factors, including land use, site dimensions and land division, built form and character and hazard risk minimisation.

In order to assist a relevant authority to interpret the performance outcomes, in some cases the policy includes a standard outcome which will generally meet the corresponding performance outcome (a *designated performance feature* or DPF). Without derogating from the need to assess development on its merits against all relevant policies, a DPF provides a guide to the relevant authority as to what is generally considered to satisfy the corresponding performance outcome but does not derogate from the discretion to determine that the outcome is met in another way.

Restricted Development

For the purpose of restricted development in all Zones, all policies and rules relative to the spatial location of the development together with all General Development Policies are applicable and may be determined by the Commission to be relevant for the purposes of a particular restricted development pursuant to s110(10) of the Act.

Spatial Information

Spatial boundaries of Zones, Subzones and Overlays in relation to the parts of the State to which the Planning and Design Code applies are accessed through the SA planning database.

The classifications, rules and policies applicable to a particular class of Zone, or to a Subzone or Overlay determined in the manner set out in this Introduction, are applied to the various parts of the State by reference to the correspondingly named Zones, Subzones and Overlays that the SA planning database provides access to.

Hierarchy of Policies/Modification of Provisions

Where there is an inconsistency between provisions in the library of policies, and for the purpose of section 66(3)(b) of the Act, the following rules will apply to the extent of any inconsistency between policies:

the provisions of an Overlay will prevail over all other policies applying in the particular case;

- a) a Subzone policy will prevail over a Zone policy or a General Development Policy; and
- b) a Zone policy will prevail over a General Development Policy.

Procedural Matters – Referrals

The Code also interacts with Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017 for the purposes of section 122 of the Act. Schedule 9 prescribes development that, by reference to location, class or other features as specified in each item in the table in clause 3 of Schedule 9, and class as specified by the Code, must be referred to a body prescribed in Schedule 9. For the purposes of the specified items in the table in clause 3 of Schedule 9, the Code contains Referral Tables relative to Overlays, Zones and General Development modules. Referral Tables specify classes of development requiring referral to a prescribed body by the mechanism described in paragraph 6.2.

Referral Tables specify classes of development to which an item in the table in clause 3 of Schedule 9, identified by reference to the prescribed referral body, applies. In addition, Referral Tables identify the purpose of the referral (that being a matter that is considered by the Commission under section 66(2)(e)(ii) of the Act as being appropriate to include in the Code). Development that is within a class specified by the Referral Table, and otherwise within the corresponding item in the table in clause 3 of Schedule 9, must be referred to the prescribed referral body pursuant to s122 of the Act.

Interpretation

Definitions and Other Rules of Interpretation

A term used in the Planning and Design Code may have a meaning specifically assigned to that term by one of the following:

- a) the *Planning, Development and Infrastructure Act 2016* (the Act);
- b) the *Acts Interpretation Act 1915* (South Australia);
- c) the definitions in Parts 7 and 8 of the Planning and Design Code.

In the event a term has been assigned a meaning in more than one of the Code's parts (ie. a Zone, Subzone, Overlay, or General Development Policy), the meaning contained in the part that sits highest in the hierarchy of policies under clause 4 in Part 1 will prevail.

A reference in the Planning and Design Code to an Act includes a reference to any regulations or instrument made under the Act, and where an Act, regulation or instrument has been amended or replaced, if the context permits, includes a reference to the amended or replaced Act, regulations or instrument.

A reference in the Planning and Design Code to a specific resource document or standard, means the latest version of the resource document or standard.

Unless otherwise indicated, a reference in the Planning and Design Code to a Part, section or table is a reference to a Part, section or table of the Code.

Part 2 – Zones and Sub Zones

Business Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Airport Building Heights (Regulated) Overlay • Building Near Airfields Overlay • Defence Aviation Area Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • Murray Darling Basin Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Urban Transport Routes Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 60m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment

	<p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • State Heritage Place Overlay • Local Heritage Place Overlay 	<p>1 There will be no increase in the total floor area of the building</p> <p>2 There will be no alteration to the external appearance of the building.</p>

Table 4 – Restricted Development Classification

Class of Development	Exclusions
The following Classes of Development are classified as Restricted subject to any 'Exclusions'	
General industry	
Motor repair station	
Shop	Restaurant Any other shop with a gross leasable floor area less than 500m ²

Procedural Matters (PM)

Notification
<p>All classes of performance assessed development are excluded from notification except where they involve any of the following:</p> <p>(a) development identified as “all other code assessed development” in Business Neighbourhood Zone Table 3</p> <p>(b) development that fails to comply with DPF 3.1</p> <p>(c) hotel</p> <p>(d) industry</p> <p>(e) shop, office or consulting room with a floor area exceeding 250m²</p>

Assessment Provisions

Desired Outcome (DO)

DO 1

A low rise medium density environment accommodating a variety of housing and accommodation types co-existing with a mix of low impact employment-generating land uses.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Shops, office, consulting room and other low impact non-residential uses supported by a variety of compact, medium density housing and accommodation types.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Dwelling
- Community facility
- Consulting room
- Office
- Shop

PO 1.2

Small scale business and commercial land uses complement the prevailing neighbourhood character.

DTS/DPF 1.2

The gross leasable floor area of a shop, office or consulting room does not exceed 250m².

Built Form and Character

PO 2.1

Buildings are of a scale and design that complements surrounding built form, streetscapes and local character.

DTS/DPF 2.1

None are applicable.

PO 2.2

Development provides attractive landscaping to the primary street frontage.

DTS/DPF 2.2

None are applicable.

PO 2.3

Site coverage is limited to provide space for landscaping, open space and pervious areas.

DTS/DPF 2.3

Site coverage does not exceed 60% of site area.

Building height and setbacks

PO 3.1

Buildings are of low-to-medium rise scale, with the highest intensity of built form at the centre of the zone and lower scale built form adjoining a zone primarily intended to accommodate residential development.

DTS/DPF 3.1

Building height does not exceed:

- a. 2 building levels or 9 metres on sites adjoining a residential allotment within a different zone; or
- b. 3 building levels or 12 metres in all other cases.

PO 3.2

Buildings set back from primary street boundaries to contribute to a consistent streetscape.

DTS/DPF 3.2

Buildings set back from the primary street frontage the lesser of the following:

- (a) the average of any existing buildings on either of the adjoining sites having frontage to the same street; or
- (b) not less than 5m where no building exists on an adjoining site.

PO 3.3

Buildings set back from secondary street boundaries (other than rear laneways) to contribute to a consistent streetscape.

DTS/DPF 3.3

Buildings set back from the secondary street frontage:

- (a) the average of any existing buildings on adjoining sites having frontage to the same street; or
- (b) not less than 0.9m where no building exists on an adjoining site.

PO 3.4

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 3.4

Except where the development is a dwelling located on a central site within a row dwelling development, buildings with side boundary walls are sited on only one side boundary and either:

- a. adjoin or abut a boundary wall of a building on adjoining land for the same length and height; or
- b. do not exceed the following:
 - i. 3m in height from the top of the footings;
 - ii. 10m in length;
 - iii. when combined with other walls on the boundary of the subject development site, maximum 45% of the length of the boundary; and
- c. are setback at least 3 metres from any other existing or proposed boundary walls on the subject land.

PO 3.5

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 3.5

Dwellings in a semi-detached or row arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

PO 3.6

Buildings are set back from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality; and
- (b) access to natural light and ventilation for neighbours.

DTS/DPF 3.6

Other than walls located on a side boundary, buildings are set back at least 0.9 metres from side boundaries.

PO 3.7

Buildings are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and
- (d) space for landscaping and vegetation.

DTS/DPF 3.7

1 Buildings are set back from the rear boundary at least:

- (a) 3m for the first building level; and
- (b) 5m for any second building level.

Land Division

PO 4.1

Land division and site amalgamation that creates allotments that vary in size and are suitable for a variety of residential and commercial activities and that improve the level of development integration.

DTS/DPF 4.1

None are applicable.

Advertisements

PO 5.1

Freestanding advertisements are not visually dominant within the locality.

DTS/DPF 5.1

Freestanding advertisements:

- (a) do not exceed 6m in height above natural ground level; and
- (b) do not have a face that exceeds 4m² per side.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) development identified as “all other code assessed development” in Business Neighbourhood Zone Table 3
- (b) development that fails to comply with DPF 3.1
- (c) hotel
- (d) industry
- (e) shop, office or consulting room with a floor area exceeding 250m²

Caravan and Tourist Park Zone

Table 1 – Accepted Development Classification

<p>Class of Development</p> <p>The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'</p>	<p>Accepted Development Classification Criteria</p>
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is 	<p>14 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>15 It is ancillary to a dwelling erected on the site</p> <p>16 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>17 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>18 Total floor area - does not exceed 40m²</p> <p>19 Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>20 Building height - does not exceed 5m</p> <p>21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>22 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>23 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p>

<p>altered or a new access is created</p> <ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>24 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>25 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>26 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>3 There will be no increase in the total floor area of the building</p> <p>4 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 It is detached from and ancillary to a dwelling erected on the site.</p>

<ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>17 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>18 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>19 Total floor area - does not exceed 40m²</p> <p>20 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>21 Building height - does not exceed 5m</p> <p>22 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p style="padding-left: 20px;">(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p style="padding-left: 20px;">(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>23 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p style="padding-left: 20px;">(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p style="padding-left: 20px;">(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>24 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>25 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>26 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>27 The garage:</p> <p style="padding-left: 20px;">(a) is located so that vehicle access:</p> <p style="padding-left: 40px;">i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p style="padding-left: 40px;">ii. will use a driveway that:</p> <p style="padding-left: 60px;">A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p style="padding-left: 60px;">B. will not interfere with an item of street furniture (including directional signs,</p>
---	---

	<p>lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>28 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>14 It is detached from and ancillary to a dwelling erected on the site</p> <p>15 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>16 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>17 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>18 Total floor area does not exceed 40m²</p> <p>19 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>20 Building height - does not exceed 5m</p> <p>21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>22 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a</p>

	<p>building that would be adjacent to or abut the proposed wall or structure</p> <p>23 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>24 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>3 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay 	<p>8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>9 Shade sail consists of permeable material</p> <p>10 The total area of the sail - does not exceed 40m²</p> <p>11 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>12 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>13 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p>

<ul style="list-style-type: none"> • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>14 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>4 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>5 Panels and associated components do not overhang any part of the roof</p> <p>6 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Industry	Light industry
Land division	Land division where a lease or licence agreement is made, granted or accepted under the <i>Residential Parks Act 2007</i>
Shop	Where: (a) the gross leasable floor area is no more than 300m ² : or (b) it is a restaurant.

Assessment Provisions

Desired Outcomes (DO)

DO 1

Tourist accommodation and associated services and facilities that enhance visitor experiences and enjoyment.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The provision of tourist accommodation in non-permanent structures largely in the form of caravan and camping sites, cabins and transportable dwellings, complemented by permanent buildings for tourist accommodation in appropriate locations and a range of associated facilities to enhance experiences for travellers.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Amenity block, including shower, toilet and laundry facilities
- (c) Dwelling in the form of a manager's residence ancillary to tourist accommodation
- (d) Office ancillary to tourist accommodation
- (e) Recreation area including tennis court, basketball court, playground
- (f) Shop ancillary to tourist accommodation
- (g) Swimming pool/spa pool
- (h) Tourist accommodation comprising cabins, caravans, camping ground.

PO 1.2

Tourist accommodation and associated facilities within an open landscaped setting for the amenity of travellers.

DTS/DPF 1.2

None are applicable.

PO 1.3

On-site amenities including shower, toilet and laundry facilities, recreation areas, swimming pool/spa and similar activities provided in association with tourist accommodation at a scale commensurate with the number of travellers and residents able to be accommodate within the relevant park for their convenience and enjoyment.

DTS/DPF 1.3

None are applicable.

PO 1.4

Dwelling in the form of a manager or caretaker residence associated with and ancillary to tourist accommodation for the efficient management, maintenance and support of tourist activities.

DTS/DPF 1.4

Dwelling:

- (a) ancillary to and located on the same allotment as tourist accommodation;
- (b) having a demonstrated connection with tourist accommodation; and
- (c) will not result in more than one worker's dwelling on an allotment.

PO 1.5

Caravans, cabins and other forms of accommodation used for non-traveller residential purposes does not unduly compromise the provision and availability of tourist accommodation for the benefit and convenience of travellers.

DTS/DPF 1.5

Residential accommodation comprises no more than 40% of the total number of residences (cabins, caravan and camping sites and other accommodation) on each allotment.

PO 1.6

Shop associated with and ancillary to tourist accommodation as a convenient service to travellers accommodated within the zone.

DTS/DPF 1.6

Shop:

- (a) ancillary to and located on the same allotment as tourist accommodation; and
- (b) with a gross leasable floor area up to 150m².

PO 1.7

Office associated with and ancillary to tourist accommodation to support the management and operational aspects of tourist development.

DTS/DPF 1.7

Office:

- (a) ancillary to and located on the same allotment as tourist accommodation; and
- (b) with a gross leasable floor area up to 50m².

Built Form and Character

PO 2.1

Landscaping used to define spaces, reinforce internal networks, screen utility areas and provide a screen from surrounding uses to enhance visual amenity within and around the perimeter of the zone.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings, fixtures attached to land and recreational facilities are setback from internal roads to accommodate vehicular movements and contribute to the safety of residents and travellers.

DTS/DPF 2.2

All building, fixture attached to land and recreational facility setback at least 1 metre from an internal road.

PO 2.3

Buildings setback from public roads to mitigate impacts on the streetscape.

DTS/DPF 2.3

Buildings setback at least 6 metres from a public road.

PO 2.4

Buildings and caravan and camping sites and recreational areas setback from the boundary of the zone to minimise impacts on neighbouring properties.

DTS/DPF 2.4

Buildings, caravan and camping sites and recreational areas setback at least 2 metres from the zone boundary and an adjoining site in other ownership used for residential purposes.

Land Division

PO 3.1

No additional allotment(s) created wholly or partly except where a lease or license agreement is made, granted or accepted under the Residential Parks Act 2007 to provide for the secure accommodation of longer-term residents.

DTS/DPF 3.1

Land division for a lease or license under the Residential Parks Act 2007 where an agreement is made, granted or accepted under that Act.

PO 3.2

Each caravan, cabin and dwelling is provided with adequate space for the occupant's exclusive use to enhance the amenity for travellers being accommodated.

DTS/DPF 3.2

Caravan, cabin and dwelling sites that are not less than 100m² in area.

Internal Roads

PO 4.1

Internal road surfaces treated to prevent the generation of dust to contribute to the amenity of residents and travellers.

DTS/DPF 4.1

None are applicable.

Advertisements

PO 5.1

Freestanding advertisements do not create a visually dominant element within the locality, particularly when facing a residential area.

DTS/DPF 5.1

Freestanding advertisement:

- (a) up to 2m in height above natural ground level and up to 2m² per sign face when located adjacent to a zone primarily for residential development;
- (b) in any other case, up to 4m in height above natural ground level and up to 4m² per sign face.

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Caravan and Tourist Park Zone Table 3
- (c) restaurant located within 30m of a zone primarily for residential purposes or an existing dwelling on land in other ownership
- (d) shop with a gross leasable floor area more than 150m² where adjacent to land used for residential purposes.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Commonwealth Facility Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	27 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 28 It is ancillary to a dwelling erected on the site 29 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 30 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 31 Total floor area - does not exceed 40m ² 32 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 33 Building height - does not exceed 5m 34 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 35 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 36 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment

	<p>37 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>38 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>39 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
Demolition	None.
Internal building work	<p>5 There will be no increase in the total floor area of the building</p> <p>6 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>30 It is detached from and ancillary to a dwelling erected on the site.</p> <p>31 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>32 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>33 Total floor area - does not exceed 40m²</p> <p>34 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>35 Building height - does not exceed 5m</p> <p>36 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p>

	<p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>37 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>38 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>39 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>40 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>41 The garage:</p> <p>(a) is located so that vehicle access:</p> <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>42 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p>	<p>25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p>

<ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>26 It is detached from and ancillary to a dwelling erected on the site</p> <p>27 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>28 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>29 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>30 Total floor area does not exceed 40m²</p> <p>31 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>32 Building height - does not exceed 5m</p> <p>33 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>34 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>35 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>36 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>5 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>6 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>7 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>8 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 Shade sail consists of permeable material</p> <p>17 The total area of the sail - does not exceed 40m²</p>

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
None Specified	

Assessment Provisions

Desired Outcomes (DO)

DO 1

Provision of a range of public and private community, educational, recreational and health care facilities.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development is associated with or ancillary to the provision of community, educational, recreational and / or health care services.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Consulting room
- Educational establishment
- Indoor recreation facility
- Office
- Place of worship
- Pre-school
- Recreation area
- Shop

PO 1.2

Integration and coordination of adjoining land uses to enhance accessibility and efficiency in service delivery.

DTS/DPF 1.2

None are applicable.

PO 1.3

Development avoids inhibiting or prejudicing future delivery of community, educational, recreational or health care services.

DTS/DPF 1.3

None are applicable.

Built Form and Character

PO 2.1

A range of low to medium rise buildings, with the highest intensity of built form at the centre of the zone and lower scale at the peripheral zone interface.

DTS/DPF 2.1

Building height does not exceed a maximum height specified in the *Building Height Technical and Numeric Variations Overlay*.

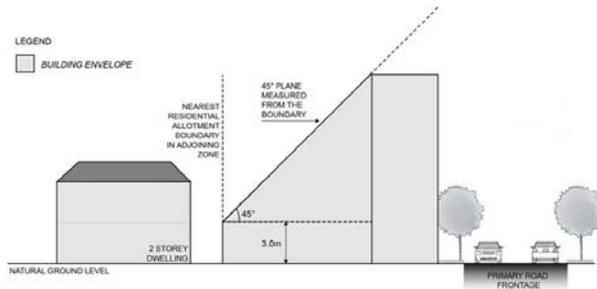

Interface Height

PO 3.1

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood zone.

DTS/DPF 3.1

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the allotment boundary of a residential allotment within a neighbourhood zone as shown in the following diagram (except where this boundary is a southern boundary in which case DTS/DPF 3.2 will apply, or where this boundary is the primary street boundary):

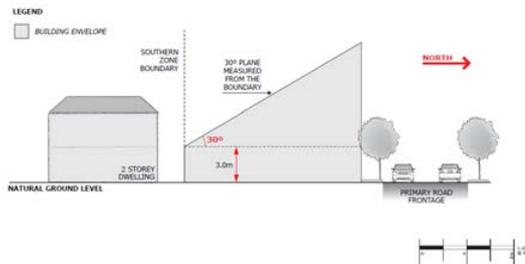

PO 3.2

Buildings mitigate overshadowing of residential development within a neighbourhood zone.

DTS/DPF 3.2

Buildings on sites with a southern boundary adjoining a residential allotment within a neighbourhood zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

Procedural Matters (PM)

Notification of Performance assessed development

All classes of development are excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Community Facilities Zone Table 3

Conservation Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	7 Building work is associated with a railway 8 It is situated (or to be situated) on railway land 9 It is required for the conduct or maintenance of railway activities.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
Private bushfire shelters Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) General Overlay • Historic Area Overlay 	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Primary street setback – at least as far back as the building to which it is ancillary 3 Secondary street setback – at least 900mm from the boundary of the allotment 4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).

<ul style="list-style-type: none"> • Historic Shipwrecks Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Significant Landscape Protection Overlay • Sloping Land Overlay • State Heritage Area Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Water Resources Overlay

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling	Detached dwelling in the Dwelling Subzone where it will not result in more than one dwelling per allotment. In the Small-scale Settlement Subzone .
Land division	Where Conservation Zone DTS / DPF 2.1 is met. In the Visitor Experience Subzone to create an allotment with an area of 5ha or more for existing tourist accommodation. In the Small Scale Settlement Subzone .
Tourist Accommodation	In the Visitor Experience Subzone . In an area proclaimed under the <i>National Parks and Wildlife Act 1972</i> and is contemplated by the relevant 'management plan' prepared in accordance with that Act. In an area proclaimed under the <i>Wilderness Protection Act 1992</i> and is contemplated by the relevant 'plan of management' prepared in accordance with that Act.

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

The conservation and enhancement of the natural environment and natural ecological processes for their historic, scientific, landscape, faunal habitat, biodiversity and cultural values and provision of opportunities for the public to experience these through low-impact recreational and tourism development.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

Small-scale, low-impact land uses that provide for the conservation and protection of the area, while allowing the public to experience these important environmental assets.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Advertisement
- Camp ground
- Farming
- Public amenity
- Renewable energy facility

PO 1.2

Development primarily in the form of:

- (a) directional, identification and/or interpretative advertisements and/or advertising hoardings for conservation management and tourist information purposes;
- (b) scientific monitoring structures or facilities;
- (c) small-scale facility associated with the interpretation and appreciation of natural and cultural heritage such as public amenities, camping grounds, remote shelters or huts; or
- (d) structures for conservation management purposes.

DTS 1.2

None are applicable.

PO 1.3

Farming activities occur on already cleared land and outside of areas containing native vegetation, coastal dunes and wetlands of national importance.

DTS 1.3

None are applicable.

Land Division

PO 2.1

Land division supports the management or improvement of the natural environment and does not result in any additional allotments, nor allotments with frontage or access to the coast.

DTS/DPF 2.1

Land division that does not create any additional allotments, nor any additional allotments with frontage or direct access to the coast and is for the:

- (a) creation of a public road or a public reserve; or
- (b) minor adjustment of allotment boundaries to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures

Environmental Protection

PO 3.1

Development avoids important nesting or breeding areas or areas that are important for the movement/migration patterns of fauna.

DTS 3.1

None are applicable.

Built Form and Character

PO 4.1

Development sited and designed unobtrusively to minimise the visual impact on the natural environment by:

- (a) using low reflective materials and finishes that blend with, and colours that complement, the surrounding landscape;
- (b) being located below hilltops and ridgelines; and
- (c) being screened by existing vegetation.

DTS 4.1

None are applicable.

PO 4.2

Development sited and designed to minimise impacts on the natural environment by:

- (a) containing construction and built form within a tightly defined site boundary; and
- (b) minimising the extent of earthworks.

DTS 4.2

None are applicable.

PO 4.3

Recreation or visitor facilities located in publicly accessible areas in proximity to recreation trails to minimise impact on the natural environment.

DTS 4.3

None are applicable.

PO 4.4

Development does not obscure existing public views to landscape, river or seascape features and is not visibly prominent from key public vantage points, including public roads or car parking areas.

DTS 4.4

None are applicable.

Access and Car Parking

PO 5.1

Vehicle access points are limited to minimise impact on the natural environment.

DTS/DPF 5.1

No more than one vehicle access point is provided to a site, landmark or lookout.

PO 5.2

Roads and vehicle access ways are located to minimise vegetation clearance and are constructed of permeable materials.

DTS 5.2

None are applicable.

PO 5.3

Roads are of a width and route to encourage low speeds and to minimise impact on the natural environment.

DTS 5.3

None are applicable.

PO 5.4

Recreational trails and access ways located to direct the public away from sensitive areas to minimise impact on the natural environment.

DTS 5.4

None are applicable.

PO 5.5

Recreational trails are raised or surfaced with permeable materials to minimise impact on the natural environment.

DTS/DPF 5.5

Pedestrian access ways/Recreational trails are raised or constructed of permeable materials.

PO 5.6

Car parking areas designed to minimise impact on the natural environment.

DTS/DPF 5.6

Car parking areas:

- (a) are constructed of permeable material; and

- (b) are located on already legally cleared land; and
- (c) are consolidated in one location.

Advertisement

PO 6.1

Advertisements limited to those needed for direction, identification and/or interpretation of environmental or cultural values and recreational and tourism facilities.

DTS/DPF 6.1

Advertisements are for one or more of the following:

- (a) direction;
- (b) identification and interpretation of environmental values; or
- (c) identification of recreational and tourism facilities.

PO 6.2

Advertisements limited in number and size to minimise impact on the visual and natural environment.

DTS/DPF 6.2

Total combined area of advertisement(s) is not greater than 2m² on any one site.

Landscaping

PO 7.1

Screening and planting is provided to buildings and structures and comprises locally indigenous species to enhance the natural environment.

DTS 7.1

None are applicable.

Hazard Risk Minimisation

PO 8.1

Habitable buildings designed and sited to manage the risks of natural hazards on personal and public safety and property.

DTS 8.1

None are applicable.

Concept Plans

PO 9.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variation Overlay*

DTS 9.1

None are applicable

Procedural Matters (PM)

Notification

All classes of performance assessed development is excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent to land in a different zone
- (b) development identified as "all other code assessed development" in Conservation Zone Table 3.

Notification

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Visitor Experience Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Tourist accommodation to complement visitor experiences, located within a conservation area and therefore located, sited and designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, faunal habitat, biodiversity and cultural values.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

A range of tourism, conservation and recreational land uses that provide an experience to visitors and tourists, while minimising environmental impacts.

DTS/DPF 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone, or one or more of the following:

- a) Tourist Accommodation
- b) Tourist Facility
- c) Café
- d) Shop
- e) Restaurant

PO 1.2

Small scale shops and café's that provide amenities to users and visitors of the park

DTS/DPF 1.2

Shop, café or restaurant less than 150m².

Tourism Development

PO 2.1

Tourist accommodation is not located on a coastal wetland, beach or dune.

DTS 2.1

None are applicable.

PO 2.2

Tourist accommodation sited and designed in a manner that is subservient to the natural environment and where adverse impacts on natural features, landscapes, habitats and cultural assets are avoided.

DTS 2.2

None are applicable.

PO 2.3

Tourist accommodation and recreational facilities, including associated access ways and ancillary structures are located on cleared or degraded areas or where environmental improvements can be achieved.

DTS 2.3

None are applicable.

PO 2.4

Tourist accommodation designed to prevent conversion to dwellings through:

- (a) comprising a minimum of 10 accommodation units;
- (b) clustering of separated individual accommodation units;
- (c) accommodation units being of a size unsuitable for a dwelling;
- (d) communal facilities such as a kitchen and laundry physically separated from individual accommodation units; or
- (e) functional areas that are generally associated with a dwelling such as kitchens and laundries excluded from accommodation units or of a size unsuitable for a dwelling.

DTS 2.4

None are applicable.

Land Division

PO 3.1

Land division for existing tourist accommodation purposes where it creates allotments of a number and size that will not detrimentally affect the natural environment.

DTS/DPF 3.1

Land division resulting in all allotments being greater than 5ha in area to accommodate an existing tourist accommodation development.

Car parking

PO 4.1

Parking for tourist accommodation should:

- (a) comprise a maximum of one space per tourist accommodation unit, plus parking for employees;
- (b) be grouped in one location, unless it can be demonstrated that an alternative arrangement will reduce the impact on the natural environment; and
- (c) be located in an area where minimal vegetation clearance is required.

DTS 4.1

None are applicable.

Dwelling Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Replacement dwellings and limited new dwellings located within a conservation area and therefore designed and located to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, faunal habitat, biodiversity and cultural values.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land use

PO 1.1

Low-scale residential development.

DTS 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone, or one or more of the following:

- a) Single Storey Detached Dwelling
- b) Domestic Outbuilding
- c) Verandah

Dwellings

PO 2.1

Replacement dwellings or new dwellings minimise impacts on the environment and are protected from hazards.

DTS 2.1

Detached dwellings, or dwelling extensions that:

- (a) are no closer to a water frontage than the associated existing dwelling;
- (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area.

PO 2.2

Dwellings are appropriately serviced by essential infrastructure.

DTS 2.2

Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.

Environment Protection and Hazard Risk Minimisation

PO 3.1

Alterations to existing dwellings result in environmental improvements by:

- (a) the provision of approved waste control systems and effluent disposal;
- (b) increased setbacks from coastal hazards;
- (c) reduced site coverage; and/or
- (d) a reduction of the level of hazard risk.

DTS 3.1

None are applicable.

Ancillary Structures

PO 4.1

Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.

DTS 4.1

None are applicable.

PO 4.2

Ancillary structures are limited in number and size to minimise impacts on the natural environment.

DTS 4.2

None are applicable.

Small-scale settlement Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Limited land division and dwelling opportunities within a conservation area, designed to minimise detrimental impacts on the natural environment and natural ecological processes including their historic, scientific, landscape, faunal habitat, biodiversity and cultural values.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land use

PO 1.1

Low-scale residential development and ancillary uses, including the division of land.

DTS 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone, or one or more of the following:

- a) Single Storey Detached Dwelling
- b) Domestic Outbuilding
- c) Land Division
- d) Verandah

Dwellings

PO 2.1

Replacement dwellings or new dwellings minimise impacts on the environment and are protected from hazards.

DTS 2.1

Detached dwellings, or dwelling extensions that:

- (a) are no closer to a water frontage than the associated existing dwelling;
- (b) are replacing an existing dwelling on substantially the same building footprint, allowing for up to 10% variation in total footprint area.

PO 2.2

Dwellings are appropriately serviced by essential infrastructure.

DTS 2.2

Dwellings are self-sufficient in terms of water, sewerage, electricity and waste disposal unless existing infrastructure is available.

PO 2.3

Alterations to existing dwellings result in environmental improvements by:

- (a) the provision of approved waste control systems and effluent disposal;
- (b) increased setbacks from coastal hazards;
- (c) reduced site coverage; and/or
- (d) a reduction of the level of hazard risk.

DTS 2.3

None are applicable.

Land division

PO 3.1

Land division that avoids areas where coastal or river processes occur and is for the creation of allotments required to accommodate dwellings relocated as a result of unacceptable coastal hazard risk.

DTS 3.1

None are applicable.

PO 3.2

Land division that accommodates an existing lawful dwelling.

DTS 3.2

None are applicable.

Ancillary Structures

PO 4.1

Ancillary structures are associated with a dwelling and are clustered to minimise impacts on the natural environment.

DTS 4.1

None are applicable.

PO 4.2

Ancillary structures are limited in number and size to minimise impacts on the natural environment.

DTS 4.2

None are applicable.

Aquaculture and Recreation Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Aquaculture, tourism, boating, fishing, recreation and associated facilities located, sited and designed to minimise detrimental impacts on the natural environment including offshore islands, and natural ecological processes including their historic, scientific, landscape, faunal habitat, biodiversity and cultural values.

Land Use

PO 1.1

Aquaculture, tourism, recreation and other facilities

DTS 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone, or one or more of the following:

- a) Aquaculture
- b) Boat Launching Facility
- c) Pontoon

PO 1.2

An area for aquaculture grow out facilities and associated infrastructure including boat launching.

DTS 1.2

None are applicable.

PO 1.3

An area for recreational and tourist related fishing and associated infrastructure including boat launching and a boating channel and mooring basin.

DTS 1.3

None are applicable.

PO 1.4

Oyster cultivation sites not exceeding a total area (including approved, but not yet developed leases) of 112.5 hectares, with an additional area of two hectares for educational purposes associated with the Cowell Area School.

DTS 1.4

None are applicable.

PO 1.5

Oyster holding areas limited to two areas not exceeding 2.5 hectares.

DTS 1.5

None are applicable.

PO 1.6

Culture of species other than oyster (excluding other filter feeders) is restricted to two 5 hectare lease areas within the north eastern section of Franklin Harbour.

DTS 1.6

None are applicable.

Environment Protection

PO 2.1

Development is sited and designed in a manner where adverse impacts on natural features, landscapes, habitats and cultural assets are minimised including avoiding:

- (a) the need to remove mangroves;
- (b) the creation of turbidity of waters;
- (c) contributing to water toxicity or the creation of algal blooms

DTS 2.1

None are applicable.

PO 2.2

Oyster cultivation sites:

- (a) do not exceed 10 hectares site area per lease; and
- (b) do not exceed a stocking rate of 100,000 mature oysters, or their equivalent by weight per hectare; and

(c) are located:

- (i) at least 100 metres apart; and
- (ii) an adequate distance from townships, to avoid potential pollution and contamination problems and conflicts with users generated by township activities.

DTS 2.2

None are applicable.

City Living Zone

Table 1 – Accepted Development Classification

<p>Class of Development</p> <p>The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'</p>	<p>Accepted Development Classification Criteria</p>
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>40 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>41 It is ancillary to a dwelling erected on the site</p> <p>42 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>43 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>44 Total floor area - does not exceed 40m²</p> <p>45 Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>46 Building height - does not exceed 5m</p> <p>47 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p style="margin-left: 20px;">(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p style="margin-left: 20px;">(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>48 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p style="margin-left: 20px;">(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p style="margin-left: 20px;">(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>49 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p>

	<p>50 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>51 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>52 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>9 There will be no increase in the total floor area of the building</p> <p>10 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>43 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>44 It is detached from and ancillary to a dwelling erected on the site.</p> <p>45 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>46 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p>

- 47 Total floor area - does not exceed 40m²
- 48 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- 49 Building height - does not exceed 5m
- 50 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:
- (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 51 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
- (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 52 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%
- 53 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors
- 54 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 55 The garage:
- (a) is located so that vehicle access:
 - i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - ii. will use a driveway that:
 - A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and
 - B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or
 - iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and
 - (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor

	<p>level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>56 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>37 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>38 It is detached from and ancillary to a dwelling erected on the site</p> <p>39 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>40 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>41 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>42 Total floor area does not exceed 40m²</p> <p>43 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>44 Building height - does not exceed 5m</p> <p>45 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>46 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>47 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>48 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>

<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>30 Shade sail consists of permeable material</p> <p>31 The total area of the sail - does not exceed 40m²</p> <p>32 No part of the shade sail will be:</p> <p style="padding-left: 20px;">(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p style="padding-left: 20px;">(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>33 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>34 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>35 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>16 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>17 Panels and associated components do not overhang any part of the roof</p> <p>18 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool</p> <p>Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>21 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>22 It is ancillary to a dwelling erected on the site</p> <p>23 Allotment boundary setback – not less than 1m</p> <p>24 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>25 Location of filtration system from a dwelling on an adjoining allotment:</p> <p style="padding-left: 20px;">(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p style="padding-left: 20px;">(b) not less than 12m in any other case.</p>

<p>Verandah</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay 	<p>25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>26 It is ancillary to a dwelling erected on the site</p> <p>27 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>28 Total floor area - does not exceed 40m²</p> <p>29 Post height - does not exceed 3m measured from natural ground level</p> <p>30 Building height - does not exceed 5m</p> <p>31 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>32 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</p>
<p>Water tank (above ground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>30 The tank is part of a roof drainage system</p> <p>31 Total floor area - not exceeding 15m²</p> <p>32 The tank is located wholly above ground</p> <p>33 Tank height – does not exceed 4m above natural ground level</p> <p>34 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>35 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Sloping Land Overlay 	<p>11 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>12 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Development associated with or ancillary to any existing non-residential or institutional activity identified on any relevant Concept Plan contained in the <i>Concept Plan Technical and Numeric Data Overlay</i> within the site, or on a directly adjoining site, identified on the Concept Plan.	
Shop	Shop that comprises a change in use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof) Shop with a gross leasable floor area less than 200m ² Shop located on a site with a frontage to an arterial or collector road or adjacent a Main Street zone and it has a gross leasable floor area less than 1000m ² . Restaurant

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

Low-rise, (with medium rise in certain areas), low to medium-density housing that supports a range of needs and lifestyles located within easy reach of a diversity of services and facilities that support city living. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Residential development accommodates a range of housing choices.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Dwelling
- Residential Flat Building
- Retirement Facility
- Supported Accommodation

PO 1.2

Non-residential development provides a range of services to the local community primarily in the form of small scale commercial uses, community services:

- (a) commercial uses including small scale offices, consulting rooms and personal or domestic services establishment;
- (b) community services such as educational establishments, community centres, places of worship, pre-schools, childcare and other health and welfare services;
- (c) services and facilities ancillary to the function or operation of supported accommodation or retirement housing;
- (d) open space and recreation facilities.

DTS/DPF 1.2

Development comprises one or more of the following land uses:

Child care centre

Community centre

Consulting room

Office

Place of worship

Pre-school

Educational establishment

Library

Recreation area

PO 1.3

Non-residential development compatible with the residential character and amenity of a neighbourhood.

DTS/DPF 1.3

None are applicable.

PO 1.4

Shops, consulting rooms and offices of a scale to maintain the residential amenity of the area.

DTS/DPF 1.4

Other than a change in the use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof), or where located with a frontage to an arterial or collector road or adjacent to an Urban Corridor, City Main Street or Capital City Zone, shops, offices or consulting rooms do not exceed 50m² in gross leasable floor area (individually or combined).

PO 1.5

Development associated with or ancillary to any existing non-residential or institutional activity identified on any relevant Concept Plan contained in the *Concept Plan Technical and Numeric Data Overlay* is contained within the site identified on the Concept Plan, or any directly adjoining site, to avoid detrimental impact on adjacent residential amenity.

DTS/DPF 1.5

None are applicable

Built Form and Character

PO 2.1

The number of dwellings increased in the zone while maintaining residential amenity.

DTS/DPF 2.1

The number of dwellings in the zone increased by:

- a. redevelopment of poor quality and underutilised buildings or sites that are in discord with the desired outcomes of the zone and relevant sub zone;
- b. adaptation and conversion of non-residential buildings to residential uses; or
- c. development in upper levels of existing buildings, or by increasing the height of buildings or roof volumes, or on sites behind existing buildings.

PO 2.2

Development contributes to a predominantly low-rise residential character.

DTS/DPF 2.2

Building height is not greater than any maximum, or less than any minimum, specified in the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay*, or the *Minimum Building Height Levels Technical and Numeric Variation Overlay*.

PO 2.3

Development designed to provide a strong built-form edge to the Park Lands and Wellington Square through the regular siting and pattern of buildings addressing the primary street frontage.

DTS/DPF 2.3

None are applicable.

PO 2.4

Buildings on sloping areas constructed to take advantage of the landfall to provide semi-basement floors and views from upper levels southwards over the City, provided overlooking is adequately addressed through appropriate design.

DTS/DPF 2.4

None are applicable

Building Setbacks

PO 3.1

Buildings setback from primary street boundaries to complement the existing streetscape character.

DTS/DPF 3.1

Building setbacks at least (whichever is the lesser):

- a. 6m; or
- b. the average of existing buildings on the adjoining sites that face the same street.

PO 3.2

Buildings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 3.2

Buildings no closer than 900mm to the secondary street boundary.

PO 3.3

Buildings set back from side boundaries to provide:

- a. separation between dwellings in a way that complements the established character of the locality; and
- b. access to natural light and ventilation for neighbours.

DTS/DPF 3.3

Other than walls located on a side boundary, buildings are set back from side boundaries:

- (a) at least 900mm where the wall is up to 3m measured from the top of the footings;
- (b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m measured from the top of the footings; and
- (c) at least 1900mm plus 1/3 or the wall height above 3m measured from the top of the footings for walls facing a southern side boundary.

PO 3.4

Buildings are setback from rear boundaries to provide:

- a. access to natural light and ventilation for neighbours;
- b. open space recreational opportunities; and
- c. space for landscaping and vegetation.

DTS/DPF 3.4

Buildings are set back from the rear boundary at least:

- a. 3m for the ground floor level; and
- b. 5m for first floor building level.

PO 3.5

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 3.5

For buildings that do not have a common wall, any wall sited on a side boundary:

- (a) does not exceed 3m in height from the top of the footings;
- (b) does not exceed 8m in length;
- (c) when combined with other walls on the boundary, does not exceed 45% of the length of the boundary; and
- (d) is setback at least 3 metres from any existing or proposed boundary walls.

Catalyst Sites

PO 4.1

Development on catalyst sites (sites greater than 1500m², including one or more allotment, on land with a frontage to East Terrace) developed with medium to high scale residential uses.

DTS/DPF 4.1

None are applicable.

PO 4.2

Small scale shops, cafes and restaurants generally integrated with residential development and located on ground or first floor levels to increase street level activity facing the Park Lands.

DTS/DPF 4.2

None are applicable.

PO 4.3

Development designed to manage impacts in relation to building height, building proportions and traffic impacts, and avoid land uses, or intensity of land uses, that adversely affect residential amenity.

DTS/DPF 4.3

None are applicable.

PO 4.4

Parts of a development on a catalyst site that exceed the maximum building height specified in DPF 2.2 designed to minimise visual impacts on sensitive uses in the adjoining zones and to maintain the established or desired character of the area.

DTS/DPF 4.4

Parts of a building above the maximum building height specified in DPF 2.2 include additional setbacks, avoid tall sheer walls, centrally locate taller elements, and provide variation of light and shadow through articulation.

Site Dimensions and Land Division

PO 5.1

Allotments created for residential purposes that are of suitable size and dimension and are compatible with the housing pattern consistent to the locality.

DTS/DPF 5.1

Development, except on Catalyst Sites, accords with the following:

- a) site areas (or allotment areas in the case of land division) not less than:

- i. the minimum allotment size specified in the Minimum Allotment Size Technical and Numeric Variation Overlay; or
 - ii. the average site area of the adjoining allotments where the *Minimum Allotment Size Technical and Numeric Variation Overlay* does not apply; and
- b) site frontages not less than:
 - a. the minimum specified in the *Minimum Allotment Frontage Technical and Numeric Variation Overlay*; or

the frontage of the adjoining sites where the *Minimum Allotment Frontage Technical and Numeric Variation Overlay* does not apply.

Movement and Access

PO 6.1

Car parking located and designed to provide for the maximum utilisation of land and minimise the visual impact on the residential amenity and character of the zone.

DTS/DPF 6.1

None are applicable.

PO 6.2

Access to parking and service areas located and designed to minimise the impacts to pedestrian environments and maintain the residential scale and pattern of development.

DTS/DPF 6.2

Access to parking and service areas that:

- (a) are provided from minor streets, or side or rear lanes provided road width is suitable and the traffic generation does not unreasonably impact residential amenity; and
- (b) remove the visual impact of existing car parking, access and egresses to the area by siting any new car parking away from street frontages.

Concept Plans

PO 7.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay.

DTS/DPF 7.1

None are applicable.

Procedural Matters (PM)

Notification of Performance Assessed Development

Note: For public notification requirements refer to Practice Direction: Notification for Performance Assessed Development.

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in City Living Zone Table 3

Notification of Performance Assessed Development

Note: For public notification requirements refer to Practice Direction: Notification for Performance Assessed Development.

(c) development exceeding the height specified in DPF 2.2

North Adelaide Low Intensity Subzone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO1

Low rise low density housing on large allotments in an open landscaped setting.

DO2

An important part of the town plan of Adelaide and the city grid layout, containing large grand dwellings on landscaped grounds.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Dwellings complement the low-density or very-low density character of the neighbourhood.

DTS / DPF 1.1

None are applicable.

Site Coverage

PO 2.1

Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.

DTS / DPF 2.1

The development does not result in a total roofed area (excluding eaves of a dwelling) on the site exceeding 50%.

Built Form and Character

PO 2.1

Buildings setback from primary street boundaries to complement the existing streetscape character.

DTS / DPF 2.1

Building setback from the primary street boundary at least the average setbacks of the dwellings on the adjoining allotments.

PO 2.2

Buildings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce the neighbourhood's streetscape character.

DTS / DPF 2.2

None are applicable.

PO 2.3

Buildings setback from side boundaries to provide separation between dwellings in a way that is consistent with the established streetscape of the locality.

DTS / DPF 2.3

Building setback from side boundary at least the average side setbacks of the dwellings on the adjoining allotments.

Medium-High Intensity Subzone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO1

Low to medium rise housing in a variety of forms with an eclectic mix of non-residential land uses interspersed (including as mixed use development) that complement the area's urban residential amenity.

DO2

Redevelopment of existing non-residential sites into integrated mixed use developments to increase the residential population and vibrancy of the area.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development of medium density accommodation types for living, including dwellings and supported accommodation.

DTS/DPF 1.1

Residential development in the form of detached, semi-detached or row dwellings, or alterations and additions to existing buildings.

Built Form and Character

PO 2.1

Development contributes to a low - medium rise urban residential character.

DTS/DPF 2.1

Building height is not greater than the maximum, or less than the minimum, requirements specified in the *Building Height Technical and Numeric Variation Overlay* or *Concept Plan Technical and Numeric Variation Overlay*.

PO 2.2

Buildings setback from primary street boundaries to complement the existing streetscape character.

DTS/DPF 2.2

Building setbacks at least (whichever is the lesser):

- a. 3m; or
- b. the average of existing buildings on the adjoining sites that face the same street

PO 2.3

Buildings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 2.3

Buildings no closer than 600mm to the secondary street boundary.

PO 2.4

Buildings are setback from rear boundaries to provide:

- (a) access to natural light and ventilation for neighbours;
- (b) open space recreational opportunities; and
- (c) space for landscaping and vegetation.

DTS/DPF 2.4

Buildings are set back from the rear boundary at least:

- (a) 3m for the ground and first floor level; and
- (b) an additional 3m for each level above the first floor level.

PO 2.5

Boundary walls are limited in height and length to mitigate adverse impacts on the amenity of adjoining land users, include through an unreasonable loss of natural sunlight and ventilation.

DTS/DPF 2.5

For buildings that do not have a common wall, any wall sited on a side boundary:

- a. does not exceed 3m in height from the top of the footings;
- b. does not exceed 8m in length;
- c. when combined with other walls on the boundary, does not exceed 45% of the length of the boundary;
and
- d. is setback at least 3 metres from any existing or proposed boundary walls.

City Main Street Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay 	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m ² 4 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary 6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	19 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 20 Panels and associated components do not overhang any part of the roof 21 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
Water tank (underground)	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: <ul style="list-style-type: none"> • Design Overlay • Local Heritage Place Overlay • State Heritage Place Overlay 	None	Clearance from Overhead Powerlines: DTS 1.1 Advertisements [Appearance]: DTS 1.1, 1.3, 1.4 Advertisements [Proliferation of Advertisements]: DTS 2.1, 2.2 Advertisements [Advertising Content]: DTS 3.1 Advertisements [Amenity Content]: DTS 4.1 Advertising [Safety]: DTS 5.1, 5.2, 5.3, 5.4, 5.5	None	None
Change of use in an existing building (that does not involve any building work or modification that would otherwise	None	None	None	None

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Industry	Light Industry

Assessment Provisions

Desired Outcomes (DO)

DO 1

A mixed use zone providing important shopping, hospitality, commercial, community, cultural and entertainment facilities for the City supported by medium to high density and residential development. Non-residential activities including shops, restaurants and licensed premises will positively contribute to the day and evening economies, public safety, walkability and City vibrancy.

DO 2

Development with built form positively contributing to:

- a. a streetscape that is visually interesting at human-scale comprising articulated buildings with a high level of fenestration and balconies oriented towards the street; and
- b. a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A vibrant mix of land uses adding to the vitality of the area and extend activities outside shop hours including restaurants, educational, community and cultural facilities and visitor and residential accommodation.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Apartments
- Child Care Centre
- Consulting Room
- Dwelling
- Hotel
- Licensed Entertainment Premises
- Licensed Premises
- Office
- Supported Accommodation
- Restaurant
- Shop
- Student Accommodation
- Tourist Accommodation

PO 1.2

Retail, office, entertainment and recreation related uses supplemented by other businesses that provide a range of goods and services to the city and the surrounding district.

DTS/DPF 1.2

Shops, office or consulting rooms do not exceed 2,000m² total gross leasable floor area in a single building.

PO 1.3

Small-scale licensed entertainment premises, night clubs or bars and lands uses typically closed during the day designed to not detract from the vitality of the area when closed.

DTS/DPF 1.3

None are applicable.

PO 1.4

Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places.

DTS/DPF 1.4

Dwellings developed in conjunction with non-residential uses sited:

- a. at upper levels of buildings with non-residential uses located at ground level; or
- b. behind non-residential uses on the same allotment.

PO 1.5

Development of well-designed and diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.

DTS/DPF 1.5

None are applicable.

PO 1.6

Ground floor level uses generating high levels of pedestrian activity and contribute to an active and vibrant main street.

DTS/DPF 1.6

Shop, restaurant, office, or consulting room uses located on the ground floor level of buildings.

Built Form and Character

PO 2.1

Buildings:

- a. designed to reinforce the street edge and grid pattern of the city streets;
- b. designed to include a podium/street wall and upper level setback that responds to local context, including the scale and context of adjacent built form, to ensure a cohesive and consistent streetscape and positively contribute to a sense of enclosure;
- c. with a rich visual design that has regard to above street level fenestration, balconies, parapets, architectural detailing and ornamentation.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings and structures designed to complement and respond to the established fine grained main street character by:

- a. ensuring, veranda profile, and materials of construction are consistent with and positively respond to adjacent traditional main street buildings; and
- b. complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings designed to create visual connection between the public realm and ground level interior, to ensure an active interface with the main street and maximise passive surveillance.

DTS/DPF 2.3

The ground floor primary frontage of buildings provide at least 5 metres or 60% of the street frontage (whichever is greater) as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.

PO 2.4

Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.

DTS/DPF 2.4

Buildings that provide a continuity of verandas, canopies, awnings or other pedestrian shelters.

PO 2.5

Buildings are adaptable and flexible to accommodate a range of land uses.

DTS/DPF 2.5

The ground floor of buildings contain a minimum floor to ceiling height of 3.5m.

PO 2.6

Building heights where the height is commensurate with the scale of development along the main street and complements the height of buildings in the adjacent zone.

DTS/DPF 2.6

Building height is not greater than any maximum, or less than any minimum, specified in the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay*, or the *Minimum Building Height Levels Technical and Numeric Variation Overlay*.

PO 2.7

Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.

DTS/DPF 2.7

Buildings with a 0m setback from the primary street boundary, with the exception of minor setbacks to accommodate outdoor dining areas.

PO 2.8

In secondary streets and laneways (off the main street) building setbacks above the street wall may be relatively shallow or non-existent to create intimate spaces through a greater sense of enclosure.

DTS/DPF 2.8

Buildings with a 0m setback from the secondary street boundary.

PO 2.9

High rise built form on the northern side of Rundle Mall, Rundle Street, Hindley Street and Gouger Street incorporating slender tower elements, spaces between buildings or other design techniques that enable natural sunlight access to the southern footpath.

DTS/DPF 2.9

None are applicable.

Access and Movement

PO 4.1

Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form.

DTS/DPF 4.1

Vehicular access to be provided:

- (a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones; or
- (b) where it consolidates or replaces existing crossovers.

PO 4.2

Development is designed to ensure car parking is located avoid negative impacts on the main street rhythm and activation.

DTS/DPF 4.2

Vehicle parking garages located behind buildings away from the primary main street frontage.

Procedural Matters (PM)

Notification of Performance assessed development

Note: For public notification requirements refer to Practice Direction: Notification for Performance Assessed Development.

All classes of development are excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in City Main Street Zone Table 3
- (c) shop, office or consulting room in excess of the gross leasable floor area specified in DTS/DPF 1.2.

Rundle Street Sub Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO1

Rundle Street developed as an important shopping, leisure, dining and gathering place, complemented by compatible residential accommodation in upper levels.

DO2

Development along Rundle Street is informed by the local context, including the existing built form and heritage buildings of relatively consistent scale and massing that were built in the nineteenth and early twentieth century with façades that typically provide a high proportion of solid-to-void, a high level of articulation (including ornamentation and fenestration) and a combination of high-quality materials).

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A premium retail and leisure area comprising an active restaurant and shopping precinct and a mix of land uses, including residential on upper levels, that extend activity into the evening to enhance the vibrancy of the area.

DTS/DPF1.1

None are applicable.

PO 1.2

Licensed entertainment premises, nightclubs or bars:

- a. small in scale;
- b. secondary to the primary land uses mix of the street;
- c. located above or below ground level;
- d. limited in numbers;
- e. do not detract from the streets daytime activation; and
- f. minimise negative impacts on nearby residential development.

DTS/DPF 1.2

None are applicable.

Built Form and Character

PO 2.1

Buildings with frontage to Rundle Street (west of Frome Street) to be informed by the local context when transitioning from podium element within the streetscape to taller set-back elements taller to protect the human scale of the main street.

DTS/DPF 2.1

Buildings with frontage to Rundle Street (west of Frome Street):

- (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height; and
- (b) have levels above the defined podium or street wall setback a minimum of 3m from that wall.

PO 2.2

Buildings with frontage to Rundle Street (west of Frome Street) designed to reinforce the prevailing datum heights and parapet levels of the street by design elements that provide a clear distinction between levels above and below the prevailing datum line.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings with frontage to Rundle Street (east of Frome Street):

- (a) incorporate podium elements to reconcile the scale relationship between the taller elements and the existing streetscape; and
- (b) designed to reinforce the prevailing datum heights and parapet levels of the street.

DTS/DPF 2.3

Buildings fronting Rundle Street (east of Frome Street):

- (a) include a maximum podium/street wall height that is consistent with one of the adjacent buildings facing the street and does not exceed 13m;
- (b) include an upper level setback, measured from the street wall, of not less than 3m stepping up to a height of 6 storeys, then a further setback of not less than 3m stepping up to the maximum overall height; and
- (c) design elements that create a clear distinction between the 13m and 22m datum lines.

PO 2.4

Buildings with frontage to Rundle Street:

- (a) carefully designed so that the historic main street character is retained and enhanced;
- (b) consistent with the intimate scale and intricate and diverse architectural features of Rundle Street;
- (c) maintain the continuity of building facades retaining the subtle diversity and variety of roof and parapet lines and the horizontal massing of the townscape;
- (d) incorporate a vertical emphasis in the composition of their street facades and the disposition and proportioning of openings; and
- (e) ensure upper levels of buildings are designed to reduce visual mass from the human scale of the main street.

DTS/DPF 2.4

None are applicable.

Rundle Mall Sub Zone

Assessment Provisions (AP)**Desired Outcomes (DO)**

DO1

Rundle Mall developed as the State's premier shopping destination.

DO2

Development informed by Rundle Mall's strong and unique character, vibrancy and sense of place, established by a pedestrian space framed by continuous built form made-up of active frontages that are fine-grain and visually interesting from the public realm, and framed with a strong sense of arrival from King William Street and Pultney Street and the adjoining minor streets, arcades and laneways.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A premier retail area consisting of a mix of complementary land uses that include a wide range of specialty and larger scale shops and mixed business and land uses, including residential and office on upper levels, that extend activity into the evening to enhance public safety and the vibrancy of the area.

DTS/DPF 1.1

None are applicable.

Built Form and Character

PO 2.1

Buildings positively contribute to the built form framing Rundle Mall's public realm by responding the local context and provide visual relief at ground level from building height and massing.

DTS/DPF 2.1

Buildings:

- (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels; and
- (b) have levels above the defined podium or street wall setback of 3m or more from that wall.

Movement and Access

PO 3.1

Pedestrian movement network made up of pedestrian malls, arcades and lanes that are safe, legible, comfortable and universally designed, and link the surrounding areas to provide a variety of north-south routes to Rundle Mall and east-west links for people moving between buildings.

DTS/DPF 3.1

None are applicable.

PO 3.2

Access for on-site servicing and deliveries from minor streets and private lanes wherever possible, rather than from Rundle Mall.

DTS/DPF 3.2

None are applicable.

Hindley Street Sub Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO1

Development of:

- (a) Hindley Street (east of Morphett Street) as the pre-eminent evening and late night entertainment hub for metropolitan Adelaide with complementary shopping, hospitality, mixed business and high-density living; and
- (b) Hindley Street (west of Morphett Street) as a main street with a range of retail, educational, mixed business, cultural, short-stay accommodation and hospitality uses and high-density living.

D02

Development along Hindley Street to be cognisant of a streetscape characterised by nineteenth century buildings that are predominantly 2 and 3 storeys with buildings forming a continuous built form edge along the street frontage.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Hindley Street (east of Morphett Street) comprising a mix of land uses making the area the City's primary focus for late night hospitality and entertainment.

DTS/DPF 1.1

None are applicable.

PO 1.2

Late night entertainment on Hindley Street (east of Morphett Street) designed and managed to integrate effectively with day time and evening land use activities.

DTS/DPF 1.2

None are applicable.

PO 1.3

Hindley Street (west of Morphett Street) comprising a mix of business, educational, cultural, short-stay accommodation, hospitality and retail activities with licensed premises integrating effectively with day time and evening land use activities.

DTS/DPF 1.3

None are applicable.

Built Form and Character

PO 2.1

Buildings informed by local context that frame Hindley Street and nearby public realm, and provide overall visual relief from building mass at ground level.

DTS/DPF 2.1

Buildings:

- (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height; and
- (b) have levels above the defined podium or street wall setback of 3m or more from that wall.

PO 2.2

Buildings fronting Hindley Street designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings fronting Hindley Street:

- (a) enhanced by the refurbishment of nineteenth century buildings;
- (b) complemented by contextual new development that provides a visually interesting built form, positively contributes to the existing and desired character and provides a safe, active and intimate human scale; and

- (c) maintain the rhythm and visually continuity of verandahs, awnings, parapets and facade lines and other architectural details at podium level.

DTS/DPF 2.3

None are applicable.

Gouger and Grote Street Sub Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO1

Development of:

- (a) Gouger Street as a mix of retail, restaurant, commercial and mixed business uses, including professional services, wholesaling and culturally diverse community activities that contribute to the unique character and vibrancy of the street during the day and evening; and
- (b) Grote Street as an active restaurant and shopping street that complements the main entrance and vibrancy of the Adelaide Central Market and supports the retail, community and diverse cultural functions of the area.

DO2

Development of Gouger Street to respect a cohesive streetscape derived from the predominant 2 to 3 storey high buildings along the street edge.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Gouger and Grote Streets continue to develop as an active restaurant and shopping precinct complementing the main entry points and activity of the adjacent Adelaide Central Market, while also supporting the retail, community and diverse cultural function of the wider precinct.

DTS/DPF 1.1

None are applicable.

PO 1.2

Licensed entertainment premises, nightclubs or bars that:

- (a) are small in scale;
- (b) secondary to the primary land uses mix of the street;
- (c) are located above or below ground level;
- (d) limited in numbers;
- (e) do not detract from the streets daytime activation; and
- (f) minimise negative impacts on nearby residential development.

DTS/DPF 1.2

None are applicable.

PO 1.3

Mix of land uses within 'Chinatown' around Moonta Street reinforced and opportunities for new precincts, such as in minor streets and lanes, established.

DTS/DPF 1.3

None are applicable.

Built Form and Character

PO 2.1

Buildings informed by local context frame Gouger Street and nearby public realm, and provide overall visual relief from building mass at ground level.

DTS/DPF 2.1

Buildings:

- (a) include a clearly defined podium or street wall with a maximum building height of 6 building levels in height; and
- (b) have levels above the defined podium or street wall setback of 3m or more from that wall.

PO 2.2

Buildings fronting Gouger Street designed to reinforce the prevailing datum heights and parapet levels of the street through articulated facades that provide a clear distinction between levels above and below the prevailing datum line.

DTS/DPF 2.2

None are applicable.

Capital City Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 9 Shade sail consists of permeable material 10 The total area of the sail - does not exceed 40m ² 11 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 12 Primary street setback – at least as far back as the building line of the building to which it is ancillary 13 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 14 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay 	22 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 23 Panels and associated components do not overhang any part of the roof 24 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.

<ul style="list-style-type: none"> A State Heritage Place identified in the State Heritage Place Overlay 	
Water tank (underground)	<p>3 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>4 The tank (including any associated pump) is located wholly below the level of the ground.</p>

The following Classes of Development are classified as Restricted subject to any 'Exclusions'	
Industry	Light Industry

Assessment Provisions

Desired Outcome (DO)

DO 1

A Zone that is the economic and cultural focus of the State, and includes a range of residential, employment, community, educational, innovation, recreational, tourism and entertainment facilities. It is anticipated that additional opportunities for population and employment growth will be created.

DO 2

High intensity and large scaled development with high street walls that reinforce the distinctive grid pattern layout of the City with active non-residential ground level uses to positively contribute to public safety, inclusivity and vibrancy. Design quality of buildings and public spaces is a priority in this zone.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

A vibrant mix of residential, retail, community, civic and cultural, health, educational, recreational, tourism and entertainment facilities.

DTS/DPF 1.1

The following types of development, or combinations thereof, are envisaged:

- (a) Apartments
- (b) Child Care Centre
- (c) Consulting Room
- (d) Dwelling
- (e) Educational Establishment
- (f) Hospital
- (g) Hotel
- (h) Licensed Entertainment Premises

- (i) Licensed Premises
- (j) Library
- (k) Office
- (l) Supported Accommodation
- (m) Residential Flat Building
- (n) Restaurant
- (o) Shop
- (p) Student Accommodation
- (q) Tourist Accommodation

Activation

PO 2.1

Non-residential land uses at ground floor level such as shops and restaurants that support and maximise pedestrian activity to provide visual interest and positively contribute to public safety, walkability and vibrancy.

DTS/DPF 2.1

None are applicable.

PO 2.2

Land uses typically closed during the day that support ancillary uses suited to daytime and evening activation at street-level and compatible with surrounding land uses, in particular residential development.

DTS/DPF 2.2

None are applicable.

Built form and Character

PO 3.1

A contextual design response that manages differences in scale and building proportions to maintain a cohesive streetscape and frame city streets.

DTS/DPF 3.1

None are applicable

PO 3.2

Buildings designed to reinforce the prevailing datum heights and parapet levels of the street through design elements that provide a clear distinction between levels above and below the prevailing datum line.

DTS/DPF 3.2

None are applicable.

PO 3.3

Development along The Terraces (North, East, South and West) designed to positively contribute to a continuous built form to frame the Park Lands and city edge.

DTS/DPF 3.3

None are applicable.

PO 3.4

Development along the City's boulevards (as identified in Capital City Zone Table 5.1) designed to provide a visible sense of arrival into the City with buildings built to the street boundary at ground level and strongly define junctions where located on a corner site.

DTS/DPF 3.4

None are applicable.

PO 3.5

Development along the City's boulevards (as identified in Capital City Zone Table 5.1) designed to maximise views to the Park Lands and not clutter existing view corridors to the Adelaide Hills as when viewed from the public realm.

DTS/DPF 3.5

None are applicable.

PO 3.6

Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares designed to provide a comfortable pedestrian and recreation environment by enabling direct sunlight to a majority of the square.

DTS/DPF 3.6

Development enables direct sunlight to a minimum of 75% of the landscaped part of each Square at the September equinox.

PO 3.7

Development fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares designed to reinforce the enclosure of the Squares with a continuous built-form with no upper level setbacks.

DTS/DPF 3.7

None are applicable.

PO 3.8

Provision of outdoor eating and drinking facilities associated with cafes and restaurants fronting Victoria, Hindmarsh, Whitmore, Hurtle and Light Squares to positively contribute to activity, and create a focus for leisure, in the squares.

DTS/DPF 3.8

None are applicable.

PO 3.9

Development along minor streets and laneways that is informed by its local context and designed to provide a sense of enclosure, and enable fine-grain uses at street-level to create an intimate, active, inclusive and walkable public realm.

DTS/DPF 3.9

None are applicable.

PO 3.10

Buildings north of the City Main Street Zone designed to enable natural sunlight access to the southern footpath of the Main Street.

DTS/DPF 3.10

Buildings north of the City Main Street Zone incorporate narrow and setback tower elements and provide spaces between buildings.

Building Height

PO 4.1

Development not exceeding the maximum building height desired for the location unless, notwithstanding its height, it positively responds to the local context that forms the desired future character of the locality, achieves the desired outcomes of the Zone and the anticipated city form expressed in the *Maximum Building Height Levels Technical and Numeric Variation Overlay* and the *Maximum Building Height Metres Technical and Numeric Variation Overlay*.

DTS/DPF 4.1

Building height is not greater than any maximum, or less than any minimum, specified in the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay*, or the *Minimum Building Height Levels Technical and Numeric Variation Overlay*.

PO 4.2

Development within the maximum building height specified in the *Building Height Technical and Numeric Variation Overlay* unless it includes additional design quality, environmental or sustainability features.

DTS/DPF 4.2

Development not exceeding the maximum building height specified in

- (a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area;
- (b) includes more than 15% of dwellings as affordable housing; or
- (c) includes at least:
 - (i) three of the following:
 - A. the development provides an orderly transition up to an existing taller building or prescribed maximum height on the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay*;
 - B. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street;
 - C. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site;
 - D. no on site car parking is provided;
 - E. active uses are located on at least 75% of the public street frontages of the building, with any above ground car parking located behind;
 - F. a range of dwelling types that includes at least 10% of 3+ bedroom apartments;
 - G. the building is adjacent to the Park Lands;
 - H. the impact on adjacent properties is no greater than a building of the maximum height on the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay* in relation to sunlight access and overlooking; and
 - (ii) three of the following sustainable design measures are provided:
 - A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance;
 - B. living landscaped vertical surfaces of at least 50m² supported by services that ensure ongoing maintenance;
 - C. passive heating and cooling design elements including solar shading integrated into the building;
 - D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings;
 - E. solar photovoltaic cells on the majority of the available roof area, supported by services that ensure ongoing maintenance.

PO 4.3

Buildings designed to achieve optimal height and floor space yields.

DTS/DPF 4.3

New development has a minimum building height of:

- (a) not less than half of the maximum building height specified in DTS/DPF 5.1;
- (b) 8 building levels (with a minimum of 28m) in the Central Business Area Sub-Zone; or
- (c) 3 building levels (with a minimum of 11.5m), or 4 building levels (with a minimum of 15m) on sites fronting South Terrace, in the City Frame Sub-Zone;
- (d) other than where:
- (e) a lower building height is necessary to achieve compliance with the Commonwealth Airports (Protection of Airspace) Regulations;
- (f) the site of the development adjoins the City Living Zone and a lesser building height is required to positively manage the interface with low-rise residential development;
- (g) the site of the development adjoins a heritage place, or contains a heritage place; or
- (h) the development includes the construction of a building in the same, or substantially the same, position as a building which was demolished, as a result of significant damage caused by an event within the previous three years where the new building has the same, or substantially the same, layout and external appearance as the previous building.

Interface

PO 5.1

Development designed to manage the interface with the City Living Zone by avoiding land uses, or intensity of land uses, that adversely affect residential amenity.

DTS/DPF 5.1

None are applicable.

PO 5.2

Parts of a development that exceed the maximum building height specified in DTS/DPF 5.1 and that adjoin the City Living Zone boundaries carefully designed to minimise negative visual and amenity impacts to residential living areas and outdoor open space.

DTS/DPF 5.2

Parts of a building above the maximum building height specified in DTS/DPF 5.1 include additional setbacks, avoid tall sheer walls, centrally locate taller elements, and provide variation of light and shadow through articulation.

Movement

PO 6.1

Access to, and movement within, the Capital City Zone to be universally accessible, easy, safe, comfortable, convenient and legible for people of all abilities, with priority given to pedestrians and cyclists.

DTS/DPF 6.1

None are applicable.

Access

PO 7.1

Vehicular access points associated with multi-level and/or non-ancillary car parks located to minimise disruption to traffic flow.

DTS/DPF 7.1

Vehicular access points associated with multi-level and/or non-ancillary car parks are located on a secondary road frontage, or utilise an existing crossover.

PO 7.2

Vehicular access points associated with multi-level and/or non-ancillary car parks located to minimise conflict with pedestrian and cyclist movement and/or activity on any major pedestrian thoroughfare.

PO 7.2

Vehicular access points associated with multi-level and/or non-ancillary car parks not located on any of the frontages to North Terrace, East Terrace, King William Street, Rundle Street, Hindley Street, Currie Street, Waymouth Street (to the east of Light Square), Victoria Square, or Gawler Place.

Advertisements

PO 8.1

Advertisements use simple graphics and be restrained in their size, design and colour.

DTS/DPF 8.1

In Chesser Street, French Street and Coromandel Place advertisements not located more than 3.7m above natural ground level or an abutting footpath or street.

Table 5.1 - City Boulevards

West Terrace, North Terrace, East Terrace, South Terrace, Currie Street, Grenfell Street, Franklin Street, Flinders Street, Grote Street, Wakefield Street, Morphett Street, King William Street and Pulteney Street.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) development identified as “all other code assessed development” in Capital City Zone Table 3
- (b) development that exceeds the maximum building height specified in DTS/DPF 5.1 where the site of the development is adjacent land to land in a different zone

City Frame Sub-Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

A Sub-Zone primarily containing medium to high scale residential development supported by a mix of shops, personal services, restaurants and community and hospitality uses, to create an active and visually continuous edge to the Park Lands and Squares.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

Medium to high scale residential development supported by a mix of shops, personal services, restaurants and community and hospitality uses.

DTS/DPF 1.1

Development:

- (a) wholly medium to high scale residential types of development, supported accommodation or tourist accommodation; or
- (b) medium to high scale residential development types of development with ground level non-residential land uses which comprise:
 - Consulting room
 - Hotel
 - Indoor recreation facility
 - Licensed entertainment premises
 - Office
 - Pre-school
 - Personal or domestic services establishment
 - Restaurant
 - Shop or group of shops

PO 1.2

Additions to existing wholly non-residential development may occur where it is located and/or designed in a manner that does not unreasonably impact negatively upon adjacent residential land uses.

DTS/DPF 1.2

None are applicable.

PO 1.3

Licensed entertainment premises, nightclubs or bars designed and sited to maintain day and evening activation at street level and where they do not unreasonably negatively impact dwellings contained within the same building or adjacent residential development.

DTS/DPF 1.3

None are applicable.

Design and Appearance

PO 2.1

Development to encourage a uniform streetscape established through a largely consistent front setback. Landscaping and small variations in front setback may occur where they will assist in softening the continuous edge of new built form, reinforce the sense of address and provide a higher amenity streetscape and pedestrian environment which is shaded by street trees and other mature vegetation.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings create visual interest and active street frontages to maximise passive surveillance of the street, squares and / or Park Lands.

DTS/DPF 2.2

The ground floor primary frontage of buildings provide at least 70% of the street frontage as visually permeable, transparent or clear glazed.

City Park Lands Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	11 There will be no increase in the total floor area of the building 12 There will be no alteration to the external appearance of the building.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	36 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 37 Shade sail consists of permeable material 38 The total area of the sail - does not exceed 40m ² 39 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 40 Primary street setback – at least as far back as the building line of the building to which it is ancillary 41 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 42 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure

	together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	25 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 26 Panels and associated components do not overhang any part of the roof 27 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
Water tank (underground) Except where any of the following apply: <ul style="list-style-type: none"> • Sloping Land Overlay 	13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 14 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Educational Establishment Hotel Public infrastructure	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

A unique publicly accessible and well connected open space system that creates a distinctive landscaped park setting for the City of Adelaide.

DO 2

Contains a range of passive and active recreational activities with a high-level of amenity, including a safe and connected walking and cycling network, natural areas, sporting fields and club facilities, formal cultural gardens, public artwork and passive recreation areas, as well as opportunities to support a variety of temporary events, such as festivals, concerts and sporting events.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A diverse range of open space, recreation and sporting activities.

DTS / DPF 1.1

Development comprises one or more of the following land uses:

Conservation work

Outbuilding associated with open space maintenance

Recreation area

Shop

Restaurant

Special events

Sporting field or club facility

Structures associated with a public facility such as bike and vehicle parking, picnic / barbeque area, shelter and toilet.

PO 1.2

Shops and restaurants in appropriate areas of the Park Lands:

- (a) providing a range of goods and services for the users of activities in the Park Lands and where such goods and services are not otherwise conveniently located; and
- (b) positively contributing to Park Lands activation and setting without being visually prominent.

DTS / DPF 1.2

Shops and restaurants:

- (a) ancillary to a recreational use, club, sporting facility;
- (b) not exceeding 100m² in gross leasable floor space; and
- (b) not increasing the building footprint.

PO 1.3

Special events and formal recreation uses of a temporary or transient nature limiting their impacts on the open and natural character of the Park Lands.

DTS/DPF 1.3

None are applicable

PO 1.4

The use of land or buildings to house temporary public service depots or site compounds associated with public infrastructure, Park Lands management and construction activities where the impacts to the Park Lands are minimised.

DTS / DPF 1.4

Temporary public service depots or site compounds:

- (a) occupy land for no longer than 3 months; and
- (b) ensure litter and water are contained on site.

PO 1.5

The adaptive reuse of existing buildings to improve the design quality and appearance of the building, minimise the need to increase the building footprint and positively contribute to the cultural value, amenity and activation of the Park Lands.

DTS/DPF 1.5

None are applicable

PO 1.6

New buildings should seek to minimise the building footprint on the landscaped and open setting of the Park Lands and should only be considered where:

- (a) the development is the replacement of an existing building;
- (b) the building design is contextual and of high-quality so that it complements its setting when viewed from all perspectives;
- (c) provides complementary recreation, sporting or tourism facilities that could not otherwise have been provided in the zone; and
- (d) the building is designed to be multi-purpose and can be used by more than one user group.

DTS/DPF 1.6

None are applicable

PO 1.7

The redevelopment of existing buildings and structures within the following sites in a way that is ancillary and complementary to existing uses including:

- (a) Torrens Lake - boating facilities
- (b) Police Barracks and Old Adelaide Gaol – adaptation of existing buildings and supportive public uses
- (c) Adelaide and Botanic High Schools – education and related facilities
- (d) National Wine Centre - tourism related facilities within the existing site boundaries
- (e) Adelaide Botanic Garden – restaurants, function facilities and passive recreation facilities
- (f) Adelaide Zoo – a range of ancillary activities that add to the zoo as a key city attraction
- (g) Golf Course - club facilities and restaurants
- (h) West Terrace Cemetery - chapel, visitor and interpretative centre and operational facilities
- (i) North Adelaide and Adelaide Central Train Station – rail services facilities.

DTS/DPF 1.7

None are applicable

PO 1.8

Development at the Adelaide Aquatic Centre site to consolidate and replace existing buildings with recreational sporting clubrooms, facilities and associated administrative functions.

DTS/DPF 1.8

None are applicable

PO 1.9

Development of public infrastructure is appropriate within existing roads, railway corridors or the O-Bahn corridor where it does not create any additional impact on the amenity of the Adelaide Park Lands.

DTS/DPF 1.9

None are applicable

Built Form and Character

PO 2.1

A contextual design response that complements the open space function, natural and cultural character of the area and is suitably screened by landscaping

DTS/DPF 2.1

None are applicable.

PO 2.2

Development includes lighting that positively contributes to public safety, security, activity and amenity within the Park Lands.

DTS/DPF 2.2

None are applicable.

PO 2.3

Utility and supply services, holding tanks, sub-stations, power lines and other utility facilities that are unobtrusive and where practicable placed underground.

DTS/DPF 2.3

None are applicable.

PO 2.4

Development sited and designed to minimise negative impacts on residential uses in the City Living Zone.

DTS/DPF 2.4

None are applicable

Natural / Cultural Landscape Character

PO 3.1

Development that protects, enhances and improves public access to:

- (b) areas of special landscape character; and
- (c) areas and items of indigenous and post-colonial cultural significance.

DTS/DPF 3.1

None are applicable.

PO 3.2

Development maintains the visual distinction between the predominantly open landscape character of the Park Lands and the built-form of adjacent Zones.

DTS/DPF 3.2

None are applicable.

PO 3.3

Development sensitive to native biodiversity and incorporates ways to protect and improve biodiversity through its design.

DTS/DPF 3.3

None are applicable.

PO 3.4

Development enhances natural creek channels and watercourses as a major landscape and stormwater management feature.

DTS/DPF 3.4

None are applicable.

Advertisements

PO 4.1

Permanent advertisements or advertising hoardings only in association with a building.

DTS/DPF 4.1

None are applicable.

PO 4.2

Temporary advertisements relating to a local event of a religious, educational, cultural, social or recreational character or to an event of a political character limited in size and number and not detract from the open and natural character of the zone.

DTS / DPF 4.2

Temporary advertisements:

- (a) not exceeding 2m² on a building or site;
- (b) not displayed more than 1 month prior to the event and 1 week after the event concludes except for an advertisement that relates to a federal, State or local government election; and
- (c) do not:
 - (i) move or flash;
 - (ii) reflect light so as to be an undue distraction to motorists;
 - (iii) be internally illuminated; or
 - (iv) be used to principally advertise brands or products.

Movement, access and parking

PO 5.2

Development does not restrict public access to land within the zone and ensures the Park Lands are universally accessible.

DTS/DPF 5.2

None are applicable.

PO 5.3

Car parking in the zone limited to only serve activities within the Park Lands unless otherwise permitted in the relevant sub-zone.

DTS/DPF 5.3

None are applicable.

PO 5.4

Public vehicle access limited to existing roads.

DTS/DPF 5.4

None are applicable.

Procedural Matters (PM)

Notification of Performance assessed development

Note: For public notification requirements refer to Practice Direction: Notification for Performance Assessed Development.

All classes of development are excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as “all other code assessed development” in City Park Lands Zone Table.

Eastern Park Lands Sub Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

Formal and informal recreation that provides tourism, education, research and informal recreational enjoyment including, the Zoological Gardens, Botanic Gardens, Botanic Park, the National Wine Centre and Victoria Park, carefully managed to sensitively balance the interaction between the built, natural and landscaped environment.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of community, tourism, educational and recreational uses for the wider community.

DTS/DPF 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone.

Built Form and Character

PO 2.1

National Wine Centre contained within its existing site boundaries and that will not result in an increase in total floor area.

DTS/DPF 2.1

None are applicable.

PO 2.2

The upgrading or replacement of existing buildings, structures and facilities in the Zoological and Botanic Gardens minimises negative visual impact as when viewed from outside of the subzone.

DTS/DPF 2.2

None are applicable.

PO 2.3

Maintain or improve views to the Zoo from the River Torrens/ Karrawirra Parri Valley when fencing, structures or buildings are upgraded or replaced.

DTS/DPF 2.3

None are applicable.

PO 2.4

Fencing to the northern boundary of the Botanic Gardens to improve visual continuity and access between the Botanic Gardens and Botanic Park and visually improves this aspect to the Botanic Garden.

DTS/DPF 2.4

None are applicable.

Movement and Access

PO 3.1

Maintain car parking for Park Lands users and visitors at the following locations:

- (a) in designated car parks along the Hackney and Fullarton Road frontages; and
- (b) limited parking on the inner racecourse track area at Victoria Park (in an area south of the cycle track east of Halifax Street) but only when races and special events are being held.

DTS/DPF 3.1

None are applicable.

Adelaide Oval Sub Zone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

A sub zone providing a centre for important outdoor civic, leisure and cultural functions for the City based on Elder Park, Adelaide Oval and Memorial Drive tennis courts with development of the River Bank as the premier cultural and tourism area of the City.

The premier sporting and tourism area of the City supporting large-scale outdoor civic, leisure, sporting and cultural activities of national significance, incorporating Adelaide Oval, Adelaide Riverbank, Elder Park, Memorial Drive tennis precinct and the Torrens Parade Ground.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A vibrant mix of recreational facilities to meet the needs of the state.

DTS/DPF 1.1

Development comprises one or more of the land uses listed in DTS 1.1 of the Zone.

PO 1.2

Community, cultural, tourism, shop, restaurant or licensed premises located adjacent to the southern bank of the River Torrens between Montefiore Road and King William Road.

DTS/DPF 1.2

None are applicable

PO1.3

Special events on Elder Park and Adelaide Oval activate this precinct.

DTS/DPF 1.3

None are applicable

PO 1.4

Community, cultural and tourism uses in association with the Torrens Training Depot and Parade Ground.

DTS/DPF 1.4

None are applicable

Built Form and Character

PO 2.2

Development of the Adelaide Oval:

- (a) protects and maintains the cultural significance and heritage value of Adelaide Oval; and
- (b) continues the distinct built form character of Adelaide Oval;

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings associated with the continuation of formal recreational uses associated with Adelaide Oval and Memorial Drive within existing site boundaries.

DTS/DPF 2.3

None are applicable.

Industry Buffer Sub Zone

Desired Outcomes (DO)

DO 1

An area that provides a range of uses that provide a separation between activities that have off-site impacts such as noise, vibration, air quality and sensitive receivers such as residential development. This may include a range of uses that are ancillary or associated with employment uses, including small scale shops, café's, support services, infrastructure, car parking, offices, education, recreation facilities and open space.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of land uses that complement the employment activities within the zone, while not adversely impacting on the amenity of nearby residential areas.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Land uses listed in DTS 1.1 of the Zone, except:
 - i. Automotive collision repair
 - ii. Electricity substation
 - iii. Fuel depot
 - iv. General industry
 - v. Motor repair station
 - vi. Public service depot
 - vii. Service trade premises
- (b) Car Parking
- (c) Recreation
- (d) Office
- (e) Open Space
- (f) Shop

City Riverbank Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	13 There will be no increase in the total floor area of the building 14 There will be no alteration to the external appearance of the building.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Sloping Land Overlay 	43 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 44 Shade sail consists of permeable material 45 The total area of the sail - does not exceed 40m ² 46 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 47 Primary street setback – at least as far back as the building line of the building to which it is ancillary 48 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 49 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay 	28 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 29 Panels and associated components do not overhang any part of the roof

<ul style="list-style-type: none"> • A State Heritage Place identified in the State Heritage Place Overlay 	<p>30 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Sloping Land Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Change of use in an existing building (that does not involve any building work or modification that would otherwise require planning consent) from: <ul style="list-style-type: none"> • a shop to an office or consulting room • an office or consulting room to a shop 	None	None	None	None

Table 4 – Restricted Development Classification

Class of Development	Exclusions
The following Classes of Development are classified as Restricted subject to any 'Exclusions'	
Nil	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Exemplary design quality and architecture that is contemporary and innovative, respectful of the heritage buildings, Park Lands setting and civic functions of the locality.

DO 2

A fine grained precinct with a quality public realm that is inviting and comfortable for pedestrians.

DO 3

Strong visual and physical connections between important buildings, public spaces, the Park Lands and other key destinations.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A diverse range of land uses that connect the city centre to the natural environment of the River Torrens and Park Lands with clusters of related activities, such as:

- (g) clinical health, training, education and research;
- (h) entertainment, tourism and accommodation;
- (i) education and administration;
- (j) innovative science and employment; and
- (k) Community and cultural institutions.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Community centre
- (c) Consulting room
- (d) Office
- (e) Convention centre
- (f) Educational establishment
- (g) Entertainment venue
- (h) Helicopter landing facility
- (i) Hospital
- (j) Hotel
- (k) Licensed premises in association with hotel, restaurant, shop or the like
- (l) Land division
- (m) Light industry (including high technology and research based activity)
- (n) Motel
- (o) Restaurant
- (p) Shop
- (q) Serviced apartments
- (r) Tourist accommodation.

Built Form and Character

PO 2.1

Building heights within the zone providing an orderly transition in scale, with lower buildings located towards the Adelaide Park Lands, Adelaide Botanic Garden and River Torrens and taller buildings towards North Terrace and other City Boulevards identified in City Riverbank Zone Table 5.1.

DTS/DPF 2.1

None are applicable

PO 2.2

Development:

- (a) contributes to the activation of the public realm by presenting an attractive human scaled pedestrian-oriented frontage at ground level that adds interest and vibrancy;
- (b) contributes to pedestrian comfort by minimising micro climatic impacts;
- (c) maintains a sense of openness to the sky for pedestrians and allow sunlight access to the public realm, particularly plaza areas during the Spring and Autumn; and
- (d) provides a clear sense of address to each building.

DTS/DPF 2.2

None are applicable.

PO 2.3

Development reinforces the grand boulevard character of North Terrace and King William Road, by reflecting the patterns of landscaped spaces and built form, building proportions and scale.

DTS/DPF 2.3

None are applicable.

PO 2.4

Coordinated development providing public spaces and landscaping, including deep plantings, that soften the dominance of buildings, provide a range of spaces that are suitable for group meetings and social activities and spaces for passive enjoyment.

DTS/DPF 2.4

None are applicable.

PO 2.5

Pedestrian shelter and public art designed as an integral part of built form, open space and landscaping.

DTS/DPF 2.5

None are applicable.

PO 2.6

The contribution of heritage buildings enhanced by ensuring:

- (a) buildings can be adapted and reused for modern purposes while protecting important heritage fabric
- (b) views and physical connections to heritage buildings and their important heritage features is maintained
- (c) the ground level interface with heritage buildings incorporates publicly accessible spaces and active land uses that support public access where appropriate.

DTS/DPF 2.6

None are applicable.

Advertising

PO 3.1

Advertisements designed to achieve an overall consistency of appearance and be of a type, scale and image that complement the zone.

DTS/DPF 3.1

None are applicable.

Movement, parking and access

PO 4.1

Development designed to encourage pedestrian/bicycle circulation at the North Terrace level and create or maintain:

- (a) connections between North Terrace and the River Torrens linear park at key pedestrian focal points;
- (b) east-west connections through the city; and
- (c) existing pedestrian and cycling connections, including the Gawler Greenway, Outer Harbor Greenway and River Torrens Linear Park trail to be maintained.

DTS/DPF 4.1

None are applicable.

PO 4.2

A central pedestrian pathway designed as a single plane surface and maintained to:

- (a) allow people to walk and ride through and within the Zone from East to West and connect with the North to South pathways; and
- (b) link key buildings and public areas within the Zone.

DTS/DPF 4.2

None are applicable.

PO 4.3

Pedestrian movement prioritised and designed to be free from vehicle conflict.

DTS/DPF 4.3

None are applicable.

PO 4.4

Development to provide a safe night-time environment along streetscapes, pedestrian and cycle paths and building surrounds by the arrangement of buildings and active building frontages that enhance casual surveillance and provide appropriate lighting and clear lines of sight.

DTS/DPF 4.4

None are applicable.

Table 5.1 – City Boulevards

North Terrace, Morphett Street and King William Road.

Procedural Matters (PM)

Notification of Performance assessed development

Note: For public notification requirements refer to Practice Direction: Notification for Performance Assessed Development.

All classes of development are excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Riverbank Zone Table 3
- (c) development exceeding the maximum building height specified in DTS/DPF 2.1 of the Health sub zone
- (d) development exceeding the maximum building height specified in DTS/DPF 2.1 of the Entertainment sub zone
- (e) development exceeding the maximum building height specified in DTS/DPF 2.3 of the Innovation sub zone
- (f) development exceeding the maximum building height specified in DTS/DPF 2.4 of the Entertainment sub zone

Health Subzone

Assessment Criteria (AC)

Desired Outcomes (DO)

DO 1

A health precinct that creates an identifiable and unified city precinct with strong connections to the Torrens River, North Terrace, the Royal Adelaide Hospital and wider city.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of health and education facilities that support the establishment of an internationally recognised health and biomedical precinct.

DTS/DPF 1.1

The types of development envisaged within the zone, except:

- (a) Community centre
- (b) Convention centre
- (c) Entertainment venue
- (d) Hotel
- (e) Serviced apartments
- (f) Tourist accommodation

Built Form and Character

PO 2.1

Buildings that have a positive scale relationship to the North Terrace edge of the Capital City Zone and provide a grand entrance to the City from the west.

DTS/DPF 2.1

Buildings fronting North Terrace not exceeding 15 building levels and 53m in building height.

PO 2.2

Where buildings exceed 15 building levels or 53m in building height they will be of exemplary design and meet the Commonwealth Airports (Protection of Airspace) Regulations.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings north of the central pathway designed to provide an active edge to the River Torrens and of a low scale commensurate with the landscape setting.

DTS/DPF 2.3

None are applicable.

PO 2.4

Development to provide a satisfactory interface to roads and railways by addressing issues of access, safety, security, noise, air emissions and vibration so that:

- (a) the effective and efficient operation of the road system and rail service adjacent to the Zone is not detrimentally affected; and
- (b) the potential for adverse impacts on hospital occupants and activities as a result of road traffic and the operation of rail services adjacent to the Zone is minimised.

DTS/DPF 2.4

None are applicable.

PO 2.5

Development sited and designed to enable the continued operation of rail and road services within and adjacent to the Zone.

DTS/DPF 2.5

None are applicable.

Entertainment Subzone

Assessment Criteria (AC)

Desired Outcomes (DO)

DO 1

A prominent, vibrant and safe public plaza that provides a focal point for the Riverbank precinct and is supported by a vibrant mix of land uses that encourage use by city workers, residents, families, students, youth, children and tourists.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development of a range of cultural, parliamentary, office, entertainment, retail, conference and ancillary land uses.

DTS/DPF 1.1

The types of development envisaged within the zone, except:

- (a) Community centre
- (b) Educational establishment
- (c) Helicopter landing Facility

- (d) Hospital
- (e) Light industry
- (f) Motel

PO 1.2

Residential development only where it is demonstrated that noise, light spill and other impacts on residential amenity associated with the envisaged mix of uses and a vibrant public plaza can be adequately addressed.

DTS/DPF 1.2

None are applicable.

Built Form and Character

PO 2.1

Building heights providing the greatest level of intensity and scale south of the central pathway.

DTS/DPF 2.1

Buildings south of the central pathway not exceeding 20 building levels and 71m in building height.

PO 2.2

Where buildings exceed 20 building levels or 71m in building height they will be of exemplary design, located south of the central pathway and meet the Commonwealth Airports (Protection of Airspace) Regulations.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings north of the central pathway designed to provide an active edge to the River Torrens and of a low scale commensurate with its landscape setting.

DTS/DPF 2.3

None are applicable.

PO 2.4

Buildings along King William Road designed to enable views through to important State Heritage buildings and the public plaza area.

DTS/DPF 2.4

None are applicable.

PO 2.5

A new public plaza developed on a single plane minimising grade changes across the site so as to maximise pedestrian connectivity.

DTS/DPF 2.5

None are applicable.

Innovation Subzone

Assessment Criteria (AC)

Desired Outcomes (DO)

DO 1

An innovation precinct accommodating a range of commercial, educational and research activities supported by a mix of compatible employment generating land uses including tourism, hospitality, cultural, entertainment and retail activities.

DO 2

A range of low to high rise buildings within a landscaped setting that respond to heritage buildings on the site and transition down in height and scale towards the Adelaide Park Lands and the Adelaide Botanic Garden.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development of innovative commercial, educational and research activities supported by a mix of compatible employment generating land uses.

DTS/DPF 1.1

The types of development envisaged within the zone.

PO 1.2

Small scale retail development to meet the day to day needs of workers and visitors to the precinct.

DTS/DPF 1.2

Shops not exceeding 250m² total gross leasable floor area.

PO 1.3

A range of small to medium scale services and facilities serving the area such as child care facilities, personal services establishment and the like.

DTS/DPF 1.3

None are applicable.

PO 1.4

Higher impact land uses such commercial development (including high technology and research based activity) clustered in key nodes where compatible with adjoining uses.

DTS/DPF 1.4

None are applicable.

Built Form and Character

PO 2.1

A high standard of contemporary architectural design, which incorporates vertical rhythms, proportions, compositions, materials, parapet or balcony heights. A combination of solid and glass finishes used to produce visual interest on all sides.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings adjacent to the Adelaide Botanic Garden or Park Lands sited and designed to create view corridors to and from the Adelaide Botanic Garden.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings of a height and scale that minimise impacts on the Adelaide Botanic Garden and Park Lands as well as referencing the scale of buildings facing North Terrace and Frome Road.

DTS/DPF 2.3

Buildings not exceeding 15 building levels and 53m in building height.

PO 2.4

Where buildings exceed 15 building levels or 53m in building height they will be of exemplary design, located centrally within the site and meet the Commonwealth Airports (Protection of Airspace) Regulations.

DTS/DPF 2.4

None are applicable.

Open Space

PO 3.1

Development on the eastern portion of the site:

- (a) results in an open park like setting complementary to the Adelaide Botanic Garden;
- (b) carefully managed to sensitively balance its interaction with surrounding uses such as the Adelaide Zoo, Adelaide Botanic Garden and the Adelaide Park Lands;
- (c) minimises uses or activities that would alienate the area from public usage;
- (d) provides opportunities for tourism, education, research, informal recreation and cultural enjoyment;
- (e) improves pedestrian links through the area, and improve the public realm and use and enjoyment of the Adelaide Park Lands; and
- (f) provides greater exposure and accessibility for the Adelaide Botanic Garden and North Terrace frontage.

DTS/DPF 3.1

None are applicable.

Cultural Institutions Subzone

Assessment Criteria (AC)**Desired Outcomes (DO)**

DO 1

A vibrant cluster of cultural and institution uses including tertiary education, research, libraries and museums that attract students, professionals, workers and visitors to the city.

DO 2

Well designed and functional buildings and public spaces that provide pedestrian and cyclist friendly streetscapes and active street frontages that facilitate positive social interaction.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A diverse range of cultural and institutional uses including tertiary education, research, library, museums and galleries.

DTS/DPF 1.1

The types of development envisaged within the zone, except:

- (a) Convention centre
- (b) Entertainment venue

- (c) Helicopter landing facility
- (d) Hospital
- (e) Motel
- (f) Serviced apartments
- (g) Tourist accommodation.

Built Form and Character

PO 2.1

Development that emphasises the horizontal grouping of building elements and uses vertical proportions in projections and in the disposition of openings.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings with modelled and textured facades of predominantly masonry appearance similar to the early buildings that contribute to the established historical character of the zone.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings that complement the form, appearance, materials and finishes of existing buildings in the locality, including the predominant:

- (a) Red brick or masonry walls; and
- (b) Slate, shingles, terra cotta tiles or copper for exposed roofs.

DTS/DPF 2.3

None are applicable.

PO 2.4

Building heights within the zone that transition down to the Park Lands from the height of existing buildings established along North Terrace.

DTS/DPF 2.4

Buildings located:

- (a) along road and Park Lands frontages not exceeding 3 building levels and 11.5m in building height; and
- (b) away from road and Park Lands frontages not exceeding 6 building levels and 22m in building height.

PO 2.5

Pleasant and interesting lawn and paved landscaped areas that create spaces suitable for a variety of activities ranging from those suitable for group meetings and social activities to those for quiet retreat and relaxation.

DTS/DPF 2.5

None are applicable.

Coastal Waters and Offshore Islands Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	53 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 54 It is ancillary to a dwelling erected on the site 55 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 56 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 57 Total floor area - does not exceed 40m ² 58 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 59 Building height - does not exceed 5m 60 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>61 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>62 The total roofed area of all existing or proposed buildings on the allotment does not exceed 70% of the area of the allotment</p> <p>63 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>64 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>65 The carport:</p> <p>(a) is located so that vehicle access:</p> <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) the centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access.</p>
<p>Internal building work</p>	<p>1 There will be no increase in the total floor area of the building</p>

<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>2 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created 	<p>57 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>58 It is detached from and ancillary to a dwelling erected on the site.</p> <p>59 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>60 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>61 Total floor area - does not exceed 40m²</p> <p>62 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>63 Building height - does not exceed 5m</p> <p>64 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>65 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

<ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>66 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>67 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>68 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>69 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) the centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>70 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay 	<p>49 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>50 It is detached from and ancillary to a dwelling erected on the site</p> <p>51 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p>

<ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>52 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>53 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>54 Total floor area does not exceed 40m²</p> <p>55 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>56 Building height - does not exceed 5m</p> <p>57 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p style="padding-left: 20px;">(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p style="padding-left: 20px;">(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>58 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p style="padding-left: 20px;">(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p style="padding-left: 20px;">(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>59 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>60 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay 	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>3 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>

<ul style="list-style-type: none"> • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	
<p>Protective tree netting structure</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 3 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 4 In the case of a development on a site that is within a Hazards (Bushfire Protection) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: <ol style="list-style-type: none"> (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site 5 No part of the netting canopy of the protective tree netting structure: <ol style="list-style-type: none"> (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) 6 The points of attachment of any cables will not be located: <ol style="list-style-type: none"> (a) outside the boundaries of the site; or

	<p>(b) within a watercourse (within the meaning of the <i>Natural Resources Management Act 2004</i>)</p> <p>7 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <p>(a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling</p> <p>(b) in any other case, no part of the netting canopy is within 15m of the dwelling.</p>
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 Shade sail consists of permeable material</p> <p>3 The total area of the sail - does not exceed 40m²</p> <p>4 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>5 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted)</p>	<p>1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p>

<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>2 Panels and associated components do not overhang any part of the roof</p> <p>3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool</p> <p>Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>26 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>27 It is ancillary to a dwelling erected on the site</p> <p>28 Allotment boundary setback – not less than 1m</p> <p>29 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>30 Location of filtration system from a dwelling on an adjoining allotment:</p> <p>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p>(b) not less than 12m in any other case.</p>
<p>Verandah</p> <p>Except where any of the following apply:</p>	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 It is ancillary to a dwelling erected on the site</p>

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted	
None Specified	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Protection and enhancement of the natural marine and coastal environment and recognition of it as an important ecological, commercial, tourism and recreational resource and passage for safe watercraft navigation.

DO 2

Limited, low impact development on offshore islands that supports the protection and enhancement of natural ecological processes, scenic amenity and heritage, cultural, scientific and educational values.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

Small-scale, low impact development for the purpose of conservation, navigation, science, recreation, tourism or aquaculture.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- a) Advertisement;
- b) Agricultural building;
- c) Aquaculture;
- d) Boat berth;
- e) Camp grounds;
- f) Dwelling alterations or additions;
- g) Farming;
- h) Jetty;
- i) Navigation structures, boat berth, pier, pontoon or similar structure;
- j) Public amenities; or
- k) Renewable energy facility.

Development on off-shore islands

PO 2.1

Islands that are isolated from the mainland are not developed for residential development until the appropriate level of infrastructure, hazard protection and environmental management is in place.

DTS/DPF 2.1

None are applicable.

PO 2.2

Farming activities on offshore islands occur on already cleared land and outside of areas containing native vegetation, coastal dunes and wetlands.

DTS/DPF 2.2

None are applicable.

PO 2.3

Small scale tourist accommodation on offshore islands such as caravan and camping grounds, huts and cabins.

DTS/DPF 2.3

None are applicable.

PO 2.4

Renewable energy facilities and ancillary development where do not impact on the scenic quality of the coast and islands.

DTS/DPF 2.4

None are applicable.

PO 2.5

Small-scale ground mounted solar power facilities on islands that service existing approved development on the same land.

DTS/DPF 2.5

Solar power facilities:

- (a) do not generate more than 30KW;
- (b) generate power which is to be used wholly in association an approved land use;
- (c) are setback at least 10m from adjoining allotments in other ownership; and
- (d) are not located within 100m of a dwelling in other ownership.

Environmental Protection

PO 3.1

Development undertaken in a manner which minimises the potential for harm to the marine and coastal environment.

DTS/DPF 3.1

None are applicable.

PO 3.2

Development minimises the potential for harmful effects of turbidity, sedimentation, pollution, shading and effects on water flows of the marine environment both inside and outside of the zone.

DTS/DPF 3.2

None are applicable.

PO 3.3

Development avoids important nesting or breeding areas or areas that are important for the movement/migration patterns of fauna.

DTS/DPF 3.3

None are applicable.

PO 3.4

Development avoids delicate or environmentally-sensitive coastal areas and key habitat areas within and adjacent offshore islands, such as sand dunes, cliff tops, estuaries, wetlands, mangroves and samphire areas.

DTS/DPF 3.4

None are applicable.

PO 3.5

Offshore development sited to minimise potential impacts on and to protect the integrity of reserves under the National Parks and Wildlife Act 1972 and the Marine Parks Act 2007.

DTS/DPF 3.5

Offshore development is located not less than 1000m from the boundary of any reserve under the National Parks and Wildlife Act 1972, unless a lesser distance is agreed with the Minister responsible for that Act.

Built Form and Character

PO 4.1

Development on offshore islands sited and designed unobtrusively to minimise the visual impact on the natural environment by:

- (a) using low reflective materials and finishes that blend with, and colours that complement, the surrounding landscape;
- (b) being located below hilltops and ridgelines; and
- (c) being screened by existing vegetation.

DTS/DPF 4.1

None are applicable.

Land Division

PO 5.1

Land division on offshore islands that supports the management or improvement of the natural environment and does not result in additional allotments with frontage or access to the coast.

DTS/DPF 5.1

Land division on offshore islands that does not create any additional allotments, nor any additional allotments with frontage or direct access to the coast and is for the:

- (a) creation of a public road or a public reserve; or
- (b) minor adjustment of allotment boundaries to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures.

Procedural Matters (PM)

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except

- (a) Telecommunications Facility
- (b) Renewable Energy Facility
- (c) Development identified as "all other code assessed development" in Coastal Waters Zone Table 3.

Deferred Urban Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	10 Building work is associated with a railway <ol style="list-style-type: none"> 1 It is situated (or to be situated) on railway land 2 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that

<p>existing access is altered or a new access is created</p> <ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p style="text-align: center;">boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <p style="margin-left: 20px;">(a) is located so that vehicle access:</p> <p style="margin-left: 40px;">i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p style="margin-left: 40px;">ii. will use a driveway that:</p> <p style="margin-left: 60px;">A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p style="margin-left: 60px;">B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p style="margin-left: 40px;">iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p style="margin-left: 20px;">(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p style="margin-left: 20px;">(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>15 There will be no increase in the total floor area of the building</p> <p>16 There will be no alteration to the external appearance of the building.</p>

<p>Outbuilding (in the form of a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>71 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>72 It is detached from and ancillary to a dwelling erected on the site.</p> <p>73 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>74 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>75 Total floor area - does not exceed 40m²</p> <p>76 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>77 Building height - does not exceed 5m</p> <p>78 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>79 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>80 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>81 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>82 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>83 The garage:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
---	---

	<ul style="list-style-type: none"> ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>84 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>61 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>62 It is detached from and ancillary to a dwelling erected on the site</p> <p>63 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>64 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>65 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>66 Total floor area does not exceed 40m²</p> <p>67 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>68 Building height - does not exceed 5m</p> <p>69 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	<p>70 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>71 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>72 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>14 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>15 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>16 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Historic Area Overlay • Historic Shipwrecks Overlay 	<p>50 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>51 Shade sail consists of permeable material</p> <p>52 The total area of the sail - does not exceed 40m²</p> <p>53 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p>

<ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>54 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>55 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>56 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>31 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>32 Panels and associated components do not overhang any part of the roof</p> <p>33 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool</p> <p>Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Historic Shipwrecks Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay 	<p>31 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>32 It is ancillary to a dwelling erected on the site</p> <p>33 Allotment boundary setback – not less than 1m</p> <p>34 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>35 Location of filtration system from a dwelling on an adjoining allotment:</p> <p>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p>(b) not less than 12m in any other case.</p>

<ul style="list-style-type: none"> • Significant Landscape Protection Overlay • Sloping Land Overlay • Water Resources Overlay. 	
<p>Verandah</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Water Resources Overlay 	<p>33 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>34 It is ancillary to a dwelling erected on the site</p> <p>35 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>36 Total floor area - does not exceed 40m²</p> <p>37 Post height - does not exceed 3m measured from natural ground level</p> <p>38 Building height - does not exceed 5m</p> <p>39 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>40 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</p>
<p>Water tank (above ground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<p>36 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>37 The tank is part of a roof drainage system</p> <p>38 Total floor area - not exceeding 15m²</p> <p>39 The tank is located wholly above ground</p> <p>40 Tank height – does not exceed 4m above natural ground level</p> <p>41 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>42 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>

<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Historic Shipwrecks Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>17 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>18 The tank (including any associated pump) is located wholly below the level of the ground.</p>
<p>Protective tree netting structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Protection Area Overlay 	<p>8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>9 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)</p> <p>10 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour</p> <p>11 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:</p> <p>(c) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or</p>

<ul style="list-style-type: none"> Water Resources Overlay 	<p>(d) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site</p> <p>12 No part of the netting canopy of the protective tree netting structure:</p> <p>(c) will cover native vegetation; or</p> <p>(d) will be within 5m of a road (including any road reserve)</p> <p>13 The points of attachment of any cables will not be located:</p> <p>(c) outside the boundaries of the site; or</p> <p>(d) within a watercourse (within the meaning of the Natural Resources Management Act 2004)</p> <p>14 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <p>(c) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling</p> <p>(d) in any other case, no part of the netting canopy is within 15m of the dwelling.</p>

Table 4 –Restricted Development Classification

<p>The following Classes of Development are classified as Restricted</p>	
<p>Dwelling that results in more than one dwelling on an allotment</p>	<p>N/A</p>
<p>Land division</p>	<p>Land division that does not create additional allotments other than for the purpose of providing public infrastructure</p>

Assessment Provisions

Desired Outcome (DO)

DO 1

To safeguard land for future urban growth.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development that is incompatible, prejudicial or detrimental to the orderly and efficient servicing and conversion of the land for future urban growth does not occur.

DTS/DPF 1.1

None are applicable.

Built Form and Character

PO 2.1

Development maintains an open character.

DTS/DPF 2.1

None are applicable

PO 2.2

Buildings limited to those that:

- (a) are ancillary to and necessary to support existing land use activities on the same allotment;
- (b) are for the purposes of public infrastructure.

DTS/DPF 2.2

None are applicable

Land Division

PO 3.1

Land division limited to that which:

- (a) corrects anomalies in the placement of allotment boundaries with respect to the location of existing buildings or structures; or
- (b) enables the provision of public infrastructure.

DTS/DPF 3.1

Land division is for:

- (a) the alteration of allotment boundaries, where no additional allotments are created; or
- (b) the purpose of providing public infrastructure.

Concept Plans

PO 4.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variation Overlay*.

DTS 4.1

None are applicable.

Procedural Matters

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone

(b) development identified as “all other code assessed development” in Deferred Urban Zone Table 3

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Employment Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m² 4 No part of the shade sail will be: <ol style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary 6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment – the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.

<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 2 Panels and associated components do not overhang any part of the roof 3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank is part of a roof drainage system 3 Total floor area - not exceeding 15m² 4 The tank is located wholly above ground 5 Tank height – does not exceed 4m above natural ground level 6 Primary street setback – at least as far back as the building line of the building to which it is ancillary 7 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank (including any associated pump) is located wholly below the level of the ground.

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Industry	Special Industry
Shop	Where: (c) the gross leasable floor area is no more than 1000m ² ; or (d) it is a bulky goods outlet; or (e) it is ancillary to an industry on the same allotment.

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

A comprehensive range of industrial, logistical, warehousing, storage, research and training land uses together with compatible business activities generating wealth and employment for the State.

DO 2

Employment generating uses are arranged to:

- (a) support the efficient movement of goods and materials on land in the vicinity of major transport infrastructure such as ports and intermodal freight facilities;
- (b) maintain access to waterfront areas for uses that benefit from direct water access including harbour facilities, port related industry and warehousing, ship building and related support industries;
- (c) create new and enhance existing business clusters;
- (d) support opportunities for the convenient co-location of rural related industries and allied businesses that may detract from scenic rural landscapes; and
- (e) be compatible with its location and setting to manage adverse impacts on the amenity of land in adjacent zones.

DO 3

Development achieves a pleasant visual amenity when viewed from adjacent arterial roads, adjoining zones and entrance ways to cities, towns and settlements.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development primarily for a range of higher impacting land uses including general industry, warehouse, transport distribution and the like supplemented by other compatible development so as not to unduly impede the use of land in other ownership in the zone for employment generating land uses, particularly those parts of the zone unaffected by an interface with another zone that would be sensitive impact generating uses.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Automotive collision repair
- Electricity substation
- Fuel depot
- General industry
- Light Industry
- Motor repair station
- Public service depot
- Retail fuel outlet
- Service trade premises
- Shop
- Store
- Telecommunications facility
- Training facility
- Warehouse

PO 1.2

Development adjacent land in another zone used for or primarily accommodating residential development incorporates a range of low impact non-residential uses to mitigate adverse amenity and safety impacts on the adjoining zone.

DTS/DPF 1.2

Development involving any of the following uses on a site adjacent land in another zone used for or expected to be primarily used for residential purposes:

- Bulky goods outlet
- Consulting room
- Indoor recreation facility
- Light industry
- Office
- Research facility
- Service trade premises
- Store
- Training facility.

PO 1.3

Shops, other than a bulky goods outlet and shops not ancillary to an industry, primarily cater to the surrounding workforce to enhance the amenity of the zone for those workers.

DTS/DPF 1.3

Shop:

- (a) with a gross leasable floor area up to 500m²;
- (b) in the form of a bulky goods outlet; or
- (c) ancillary to and located on the same allotment as an industry.

PO 1.4

Residential development is subordinate and necessary to support the efficient management, security and/or operational aspects of a non-residential land use.

DTS/DPF 1.4

None are applicable.

Site Dimensions and Land Division

PO 2.1

Land division creating allotments of a size and shape suitable for a range of industrial, transport, warehouse and other similar or complementary land uses that support employment generation.

DTS/DPF 2.1

Allotments have:

- (e) an area of 2500m² or more; and
- (f) a frontage width of 30m or more.

Built Form and Character

PO 3.1

Development that achieves distinctive building, landscape and streetscape design to achieve high visual and environmental amenity particularly along arterial roads, zone boundaries and public open spaces.

DTS/DPF 3.1

None are applicable.

PO 3.2

Building facades facing a boundary of a zone primarily intended to accommodate sensitive receivers, public road, or public open space incorporate design elements to add visual interest by considering the following:

- (a) a variety of building finishes and avoid elevations that consist solely of metal cladding;
- (b) using materials with a low reflectivity; and
- (c) techniques to add visual interest and reduce large expanses of blank walls including modulation and incorporation of offices and showrooms along elevations visible to a public road.

DTS/DPF 3.2

None are applicable.

PO 3.3

Buildings set back from the primary street boundary to contribute to a consistent streetscape.

DTS/DPF 3.3

Buildings are no closer to the primary street frontage than:

- (a) the average of existing buildings on adjoining sites with the same primary street frontage and, if there is only one such building, the setback of that building; or
- (b) where no building exists on an adjoining site.
 - i. 8m or more for buildings up to 6m high;
 - ii. not less than 10m for buildings greater than 6m high.

PO 3.4

Buildings setback from secondary street boundaries to accommodate the provision of landscaping between buildings and the road to enhance the appearance of land and buildings when viewed from the street.

DTS/DPF 3.4

Buildings setback 4m or more from a secondary street boundary.

PO 3.5

Buildings are sited to accommodate vehicle access to the rear of a site for deliveries, maintenance and emergency purposes.

DTS/DPF 3.5

Buildings setback 3m or more from at least one side boundary, unless an alternative means for vehicular access to the rear of the site is available.

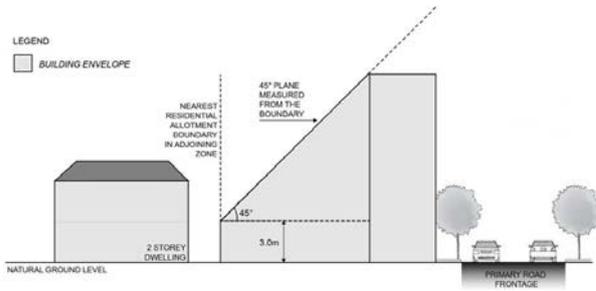

Interface Height

PO 4.1

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood zone.

DTS/DPF 4.1

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the allotment boundary of a residential allotment within a neighbourhood zone as shown in the following diagram (except where this boundary is a southern boundary in which case DTS/DPF 4.2 will apply, or where this boundary is the primary street boundary):

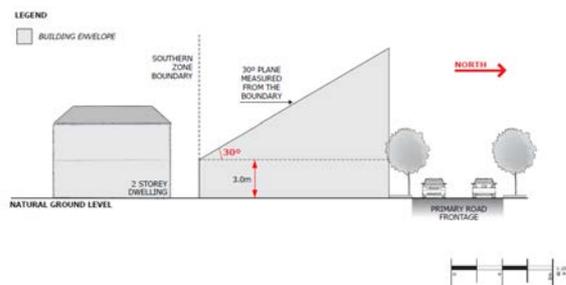

PO 4.2

Buildings mitigate overshadowing of residential development within a neighbourhood zone.

DTS/DPF 4.2

Buildings on sites with a southern boundary adjoining a residential allotment within a neighbourhood zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

Landscaping

PO 5.1

Landscaping provided along public roads and thoroughfares and zone boundaries to enhance the visual appearance of development and soften the impact of larger buildings when viewed from public spaces and adjacent land outside the zone.

DTS/DPF 5.1

Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site (excluding any land required for road widening purposes):

- (a) where a building is setback less than 3m from the street boundary - within the area remaining between a relevant building and the street boundary; or
- (b) in accordance with the following:

Minimum width	Description
5m	Along any boundary with a Highway, Freeway or Expressway.
5m	Along any boundary on the perimeter of the zone not fronting a public road or thoroughfare, except where the adjacent zone is one of the following: <ul style="list-style-type: none"> (a) Employment (Bulk Handling) Zone; (b) Suburban Employment Zone; (c) Resource Extraction Zone.
3m	Along any boundary on the perimeter of the zone that fronts a public road or thoroughfare.
3m	Along an arterial or main road frontage within the zone (and not on the perimeter of the zone)

PO 5.2

Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.

DTS/DPF 5.2

Landscape areas comprise:

- (a) not less than 10 percent of the site; and
- (b) a dimension of at least 1.5m.

PO 5.3

Landscape areas incorporate a range of plant species of varying heights at maturity, including tree species with a canopy above clear stems, to complement the scale of relevant buildings.

DTS/DPF 5.3

None are applicable.

Fencing

PO 6.1

Fencing exceeding 2.1m in height integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.

DTS/DPF /DPF 6.1

Fencing exceeding 2.1m in height:

- (a) located behind a façade of an associated building located on the same site; or
- (b) located behind a landscaped area along relevant street frontages; or
- (c) consists of visually permeable materials with landscaping behind.

Advertisements

PO 7.1

Freestanding advertisements do not create a visually dominant element within the locality.

DTS/DPF /DPF 7.1

Freestanding advertisements:

- (a) do not exceed 6m in height; and
- (b) do not have a sign face exceeding 8m² per side.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Employment Zone Table 3
- (c) dwelling
- (d) pre-school
- (e) bulky goods outlet
- (f) shop exceeding 500m² other than where associated with an industry on the same allotment
- (g) tourist accommodation.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Employment (Bulk Handling) Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	4 Building work is associated with a railway 5 It is situated (or to be situated) on railway land 6 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created 	14 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 15 It is ancillary to an office erected on the site 16 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 17 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 18 Total floor area - does not exceed 40m ² 19 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 20 Building height - does not exceed 5m 21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

<ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>22 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>23 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>24 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>25 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>26 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
--	---

<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>3 There will be no increase in the total floor area of the building</p> <p>4 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>85 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>86 It is detached from and ancillary to an office erected on the site</p> <p>87 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>88 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>89 Total floor area - does not exceed 40m²</p> <p>90 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>91 Building height - does not exceed 5m</p> <p>92 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>93 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p>

	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>94 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>95 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>96 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>97 The garage:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>98 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay 	<p>4 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>5 Panels and associated components do not overhang any part of the roof</p>

<ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>6 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Water tank (above ground) Except where any of the following apply Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>9 The tank is part of a roof drainage system</p> <p>10 Total floor area - not exceeding 15m²</p> <p>11 The tank is located wholly above ground</p> <p>12 Tank height – does not exceed 4m above natural ground level</p> <p>13 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>14 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>3 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>4 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling	Where ancillary to a non-residential land use and will not result in more than one dwelling on an allotment.

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

A zone in which agricultural and other commodities are received, stored and dispatched in bulk to generate wealth and employment for the State.

DO 2

Development achieves a pleasant visual amenity when viewed from: adjacent arterial roads; adjoining zones and; entrance ways to towns, settlements and cities.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development primarily in the form of facilities for the handling and storage of bulk commodities to enhance economic activity and supply chain efficiencies.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Advertisement
- Bulk handling facility including bunkers and silos for the reception, storage and dispatch of commodities in bulk
- Office in association with a facility for the reception, storage and dispatch of commodities in bulk
- Truck parking area
- Store.

PO 1.2

Value-adding industries, including the processing and packaging of commodities, that complement facilities for the reception, storage and dispatch of agricultural and other commodities in bulk to enhance the use of the zone and local job opportunities.

DTS/DPF 1.2

None are applicable.

PO 1.3

Office associated with and ancillary to facilities for the handling and storage of bulk commodities to support the management and operational aspects of those facilities.

DTS/DPF 1.3

Office:

- (f) in association with and ancillary to a facility for the reception, storage and dispatch of commodities in bulk; and
- (g) with a gross leasable floor area up to 150m².

Land Division

PO 2.1

Land division that creates allotments that are of a size and shape suitable for bulk handling and complementary uses.

DTS/DPF 2.1

None are applicable.

Fencing

PO 3.1

Fencing exceeding 2.1m in height integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent streets to enhance the character of employment areas.

DTS/DPF /DPF 3.1

Fencing exceeding 2.1m in height:

- (a) located behind a façade of an associated building located on the same site; or
- (b) located behind a landscaped area along relevant street frontages; or
- (c) consists of visually permeable materials with landscaping behind.

Advertisements

PO 4.1

Freestanding advertisements do not create a visually dominant element within the locality.

DTS/DPF /DPF 4.1

Freestanding advertisements:

- (g) up to 4m in height from natural ground level; and
- (h) with a sign face up to 6m² per side.

Procedural Matters (PM)

Notification
<p>All classes of performance assessed development are excluded from notification except where they involve any of the following:</p> <ul style="list-style-type: none"> (a) the site of the development is adjacent land to land in a different zone (b) development identified as “all other code assessed development” in Employment (Bulk Handling) Zone Table 3.
Placement of Notices – Exemptions for Performance Assessed Development
None specified.
Placement of Notices – Exemptions for Restricted Development
None specified.

General Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Building Near Airfields Overlay • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

<ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The carport:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay <p>A State Heritage Place identified in the State Heritage Place Overlay</p>	<p>None.</p>

Water tank (above ground)

Except where any of the following apply:

- Character Preservation District Overlay
- Coastal Areas Overlay
- Hazards (Flooding) Overlay
- Character Area Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Ramsar Wetlands Overlay
- River Murray Flood Plain Overlay
- Sloping Land Overlay
- Water Resources Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 The tank is part of a roof drainage system
- 3 Total floor area - not exceeding 15m²
- 4 The tank is located wholly above ground
- 5 Tank height – does not exceed 4m above natural ground level
- 6 Primary street setback – at least as far back as the building line of the building to which it is ancillary
- 7 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.

Water tank (underground)

Except where any of the following apply:

- Character Preservation District Overlay
- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Ramsar Wetlands Overlay
- Sloping Land Overlay
- Water Resources Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	With a gross leasable area less than 1000m².

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Low-rise, low and medium-density housing that supports a range of needs and lifestyles located within easy reach of a diversity of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Residential development and supporting uses that provide housing and supporting services and facilities that make it a convenient place to live.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Ancillary accommodation

Community facility

Dwelling

Educational establishment

Office

Outbuilding

Pre-school

Recreation area

Residential flat building

Retirement facility

Shop

Supported accommodation

PO 1.2

Residential development accommodates a range of housing choices.

DTS/DPF 1.2

Residential development comprises:

- (a) detached dwellings;
- (b) semi-detached dwellings;
- (c) row dwellings;
- (d) group dwellings;
- (e) residential flat buildings;
- (f) retirement facility; and / or
- (g) supported accommodation.

PO 1.3

Non-residential development provides a range of services to the local community primarily in the form of:

- (a) commercial uses including small scale offices, consulting rooms and personal or domestic services establishment;
- (b) community services such as educational establishments, community centres, places of worship, pre-schools, childcare and other health and welfare services;
- (c) services and facilities ancillary to the function or operation of supported accommodation or retirement housing;
- (d) open space and recreation facilities.

DTS 1.3

None are applicable

PO 1.4

Non-residential development compatible with the residential character and amenity of a neighbourhood.

DTS 1.4

None are applicable

PO 1.5

Shops, consulting rooms and offices of a scale to maintain the amenity of nearby residents.

DTS / DPF 1.5

Other than a change in the use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof), or where located with a frontage to an arterial or collector road or adjacent a Main Street or Activity Centre Zone, shops, offices and consulting rooms do not exceed 100m² in gross leasable floor area (individually or combined).

PO 1.6

Larger scale shops, offices and consulting rooms established on higher order roads and adjacent existing commercial and retail precincts.

DTS/DPF 1.6

Shop, consulting room and office:

- (a) floor area does not exceed 200m²; and
- (b) are located on sites with a frontage to an arterial or collector road or adjacent a Main Street or Activity Centre Zone.

Site Dimensions and Land Division

PO 2.1

Allotments/sites created for residential purposes are of suitable size and dimension and compatible with the pattern of development in a low-rise low-density neighbourhood.

DTS/DPF 2.1

Development accords with the following:

- a. site areas (or allotments in the case of land division) not less than:
 - i. 300m² for detached dwellings not on a Battle-axe site/allotment or in a terrace arrangement;
 - ii. 300m² (exclusive of the Battle-axe 'handle') for detached dwellings on a Battle-axe site/allotment;
 - iii. 300m² for semi-detached dwellings;
 - iv. 200m² for row dwellings or detached dwellings in a terrace arrangement;

- v. 300m² per dwelling for group dwellings and dwellings within a residential flat building; and
- b. site frontages not less than:
 - i. 9m for detached dwellings not on a Battle-axe site/allotment or in a terrace arrangement;
 - ii. 5m for detached dwellings on a Battle-axe site/allotment;
 - iii. 9m for semi-detached dwellings;
 - iv. 7m (averaged) for row dwellings or detached dwellings in a terrace arrangement;
 - v. 15m (total) for group dwelling and residential flat building developments.

Site Coverage

PO 3.1

Building footprints consistent with character of a low-density neighbourhood and allow sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS / DPF 3.1

The development does not result in a total roofed area (excluding eaves of a dwelling) on the site exceeding 60%.

Building Height

PO 4.1

Buildings contribute to a low-rise suburban character.

DTS/DPF 4.1

Building height (excluding garages, carports and outbuildings) no greater than:

- (a) 2 building levels and 9m; and
- (b) wall height that is no greater than 7m except in the case of a gable end.

Primary Street Setback

PO 5.1

Buildings are setback from primary street boundaries to contribute to a suburban streetscape character.

DTS/DPF 5.1

Buildings setback from the primary street boundary:

- (a) 8m or more from an arterial road; and
- (b) 5m from any other road.

PO 5.2

Building elements are setback from public streets to contribute to a suburban streetscape character while adding interest and animation to street frontages.

DTS/DPF 5.2

The following elements can extend up to 1.5m closer to the primary street than the minimum primary street setback specified in DTS 3.1:

- (a) a porch or portico with at least 2 open sides;
- (b) a balcony;
- (c) a verandah with at least 3 open sides;
- (d) window awnings or shading features; and
- (e) architectural fins or blades.

Secondary Street Setback

PO 6.1

Buildings are set back from secondary street boundaries to maintain separation between building walls and public streets and contribute to a suburban streetscape character.

DTS/DPF 6.1

Buildings are set back at least 900mm from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 7.1

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 7.1

Dwelling walls on side boundaries either:

- a. adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height; or
- b. do not exceed:
 - i. 3 metres in height;
 - ii. 10 metres in length; and

will not result in boundary walls on more than 45% of the total length of the side boundary.

PO 7.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS / DPF 7.2

Dwellings in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Façade Design

PO 8.1

Dwelling facades facing public streets and common driveways that make a positive contribution to the streetscape.

DTS / DPF 8.1

Each dwelling includes at least 3 of the following design features along each façade facing a public road or common driveway:

- a. a porch or portico that projects at least 1m from the building façade and is open on least 2 sides
- b. a balcony that projects at least 1.0m from the building façade
- c. a verandah that projects at least 1m from the building façade
- d. eaves surrounding the dwelling of a minimum 450mm width
- e. a minimum 50% of the upper level projects forward a minimum 300mm from the lower level building line
- f. a minimum of 25% of the façade is setback an additional 300mm
- g. a porch or portico that projects at least 1m from the building façade and is open on least 2 sides
- h. a balcony that projects at least 1.0m from the building façade
- i. a verandah that projects at least 1m from the building façade
- j. eaves surrounding the dwelling of a minimum 450mm width
- k. a minimum 50% of the upper level projects forward a minimum 300mm from the lower level building line.

Concept Plans

PO 9.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay.

DTS/DPF 9.1

None are applicable.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as “all other code assessed development” in Suburban Neighbourhood Zone Table 3
- (c) Development involving the creation of four or more additional dwellings
- (d) Dwellings that do not satisfy DTS/DPF 2.1, 4.1, 5.1, 5.2, 6.1, 7.1, 7.2 and 8.1
- (e) Buildings exceeding the height specified in DTS 4.1

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Greenfield Suburban Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Protection Area Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

	<p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The carport:</p> <p>(a) is located so that vehicle access:</p> <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
Demolition	None.
Internal building work	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a garage)	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created <p>Water Resources Overlay</p>	<ol style="list-style-type: none"> 2 It is detached from and ancillary to a dwelling erected on the site. 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 12 The garage: <ol style="list-style-type: none"> (a) is located so that vehicle access: <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that:
--	---

	<p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>1 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Water Resources Overlay 	<p>85 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>86 It is detached from and ancillary to a dwelling erected on the site</p> <p>87 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>88 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>89 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>90 Total floor area does not exceed 40m²</p> <p>91 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>92 Building height - does not exceed 5m</p> <p>93 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p>

	<p>94 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>95 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay <p>Water Resources Overlay</p>	<p>21 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>22 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>23 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay 	<p>64 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>65 Shade sail consists of permeable material</p> <p>66 The total area of the sail - does not exceed 40m²</p> <p>67 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p>

<ul style="list-style-type: none"> Water Resources Overlay 	<p>68 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>69 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted)</p>	<p>37 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>38 Panels and associated components do not overhang any part of the roof</p> <p>70 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool Swimming pool Except where any of the following apply:</p> <ul style="list-style-type: none"> Character Preservation District Overlay Hazards (Acid Sulfate Soils) Overlay State Heritage Place Overlay Native Vegetation Overlay State Significant Native Vegetation Overlay Ramsar Wetlands Overlay River Murray Flood Plain Overlay <p>Water Resources Overlay</p>	<p>41 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>42 It is ancillary to a dwelling erected on the site</p> <p>43 Allotment boundary setback – not less than 1m</p> <p>44 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>45 Location of filtration system from a dwelling on an adjoining allotment: (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise not less than 12m in any other case.</p>
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> Character Preservation District Overlay Hazards (Acid Sulfate Soils) Overlay State Heritage Place Overlay 	<p>49 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>50 It is ancillary to a dwelling erected on the site</p> <p>51 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>52 Total floor area - does not exceed 40m²</p>

<ul style="list-style-type: none"> • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay <p>Water Resources Overlay</p>	<p>53 Post height - does not exceed 3m measured from natural ground level</p> <p>54 Building height - does not exceed 5m</p> <p>55 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</p>
<p>Water tank (above ground) Except where any of the following apply</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay <p>Water Resources Overlay</p>	<p>43 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>44 The tank is part of a roof drainage system</p> <p>45 Total floor area - not exceeding 15m²</p> <p>46 The tank is located wholly above ground</p> <p>47 Tank height – does not exceed 4m above natural ground level</p> <p>48 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>56 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Acid Sulfate Soils) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay <p>Water Resources Overlay</p>	<p>19 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>49 The tank (including any associated pump) is located wholly below the level of the ground.</p>
<p>Protective tree netting structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • State Heritage Place Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)</p>

<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Water Protection Area Overlay <p>Water Resources Overlay</p>	<p>17 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour</p> <p>18 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:</p> <ul style="list-style-type: none"> (e) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (f) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site <p>19 No part of the netting canopy of the protective tree netting structure:</p> <ul style="list-style-type: none"> (e) will cover native vegetation; or (f) will be within 5m of a road (including any road reserve) <p>20 The points of attachment of any cables will not be located:</p> <ul style="list-style-type: none"> (e) outside the boundaries of the site; or (f) within a watercourse (within the meaning of the Natural Resources Management Act 2004) <p>21 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <ul style="list-style-type: none"> (e) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling <p>in any other case, no part of the netting canopy is within 15m of the dwelling.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	With a gross leasable area less than 1000m².

Assessment Criteria (AC)

Desired Outcome (DO)

DO 1

A new or expanding community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space. Walking and cycling is encouraged and include a range of open spaces, landscaped areas and recreational facilities that make it a pleasant place to live.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of residential, recreational, community services and other land uses that support a growing community and create a convenient place to live.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Ancillary accommodation

Community facility

Dwelling

Educational establishment

Office

Outbuilding

Pre-school

Recreation area

Residential flat building

Retirement facility

Shop

Supported accommodation

PO 1.2

Small scale shops, offices and Personal or domestic services establishment that provide services close to housing.

DTS/DPF 1.2

Shops, offices and personal or domestic services establishments 150m² in total floor area.

PO 1.3

Residential development accommodates a diverse range of housing choices.

DTS/DPF 1.3

None are applicable.

PO 1.4

The density of residential development increases closer to open space, public transport, centres and community facilities.

DTS/DPF 1.4

None are applicable.

PO 1.5

Land division results in a low-medium density neighbourhood that contains a diverse range of housing types and allotment sizes.

DTS / DPF 1.5

Land division resulting in a gross residential density of up to 45 dwellings per hectare.

Coordinated and Orderly Development

PO 2.1

Where land ownership is fragmented, land division and infrastructure occur in a coordinated manner and orderly sequence.

DTS/DPF 2.1

None are applicable.

PO 2.2

Development and infrastructure are staged and provided in a manner that supports an orderly expansion of urban areas and the efficient provision of infrastructure and services.

DTS/DPF 2.2

None are applicable.

Community Facilities

PO 3.1

Community facilities such as schools, community centres, recreation centres and public open space are co-located with complimentary uses to reinforce their role as a focal point for community.

DTS/DPF 3.1

None are applicable.

PO 3.2

Community facilities are located and designed to maximise accessibility by public transport, walking and cycling.

DTS/DPF 3.2

None are applicable.

Open Space

PO 4.1

The size and distribution of open space encourages recreation and healthy lifestyles.

DTS/DPF 4.1

80% of allotments created for residential purposes are located within 400m walking distance of open space that has a minimum area of 1.5 hectares.

PO 4.2

The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features.

For example, features could include walking and cycling trails, play spaces, water features (including watercourses and constructed wetlands), irrigated recreation spaces, sporting infrastructure or public art.

DTS/DPF 4.2

None are applicable.

Site Dimensions and Land Division

PO 5.1

Allotments created for residential purposes are a suitable size and dimension to accommodate a variety of dwelling types that are functional and provide a high standard of residential amenity for occupants.

DTS/DPF 5.1

None are applicable

Land Division Pattern and Design

PO 6.1

Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low vehicle speed environments.

DTS/DPF 6.1

None are applicable.

Tree Canopy

PO 7.1

Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.

DTS/DPF 7.1

None are applicable

Building Height

PO 8.1

Dwellings contribute to a low-medium rise residential character and complement the height of nearby buildings.

DTS/DPF 8.1

Dwellings outside of Activity Centres do not:

- a. exceed a maximum building height of 3 levels and 12m; and
- b. have a wall height exceeding 12 metres for a gable ended wall; or
- c. have a wall height exceeding 10 metres for any other wall.

Primary Street Setback

PO 9.1

Buildings are setback from primary street boundaries to complement the existing streetscape character.

DTS/DPF 9.1

Except where a building faces an allotment created for a non-residential purpose and where vehicle access is provided to the rear of the allotment (in which case no setback is acceptable), buildings are setback from the primary street:

- (h) 8m or more along the frontage of an arterial road (except where a landscaped road reserve buffer exists);
- (i) 3m or more along all other road frontages; and
- (j) 1.5m or more adjacent a public reserve that has an area greater than 2000m².

Secondary Street Setback

PO 10.1

Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 10.1

Dwellings are setback 900mm or more from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 11.1

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 11.1

Dwelling walls on side boundaries either:

- (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height; or
- (b) do not exceed:
 - i. 3 metres in height;
 - ii. 10 metres in length; and

will not result in boundary walls on more than 45% of the total length of the side boundary.

PO 11.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS / DPF 11.2

Dwellings in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side Boundary Setback

PO 12.1

Buildings are setback from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality; and
- (b) access to natural light and ventilation for neighbours.

DTS/DPF 12.1

Buildings not sited on side boundaries setback from the side boundary:

- (a) 900 mm for a wall height less than 3 metres; and
- (b) 900mm plus 1/3 of the wall height above 3m.

Rear Boundary Setback

PO 13.1

Buildings are setback from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and
- (d) space for landscaping and vegetation.

[DTS/DPF 13.1](#)

Buildings are setback from the rear boundary at least:

- (a) 3m for the first building level; and
- (b) 5m for any second building level.
- (c) 5m plus any increase in wall height over 7m for buildings three storey and above.

[Procedural Matters \(PM\)](#)

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except where it involves any of the following:

- (a) where the site of the development is adjacent land to land in a different zone
- (b) development identified as “all other code assessed development” in Greenfield Neighbourhood Zone Table 3
- (c) development exceeding the maximum building height specified in DTS / DPF 8.1
- (d) dwellings that do not satisfy DTS/DPF 9.1, 10.1,11.1, 11.2, 12.1 or 13.1.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Hills Face Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
Private bushfire shelters Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Primary street setback – at least as far back as the building to which it is ancillary 3 Secondary street setback – at least 900mm from the boundary of the allotment 4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).

<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 2 Panels and associated components do not overhang any part of the roof 3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
<p>Water tank (underground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

<p>The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'</p>	<p>Deemed-to-Satisfy Development Classification Criteria</p> <p>Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Caravan and tourist park	
Dwelling	Except where it achieves all of the following: <ul style="list-style-type: none"> (a) it will not result in more than one dwelling on an allotment; (b) the scale and design is such that: <ul style="list-style-type: none"> (i) the vertical distance between any point at the top of any external wall and the finished ground level immediately below that point on the wall is less than 3m, other than gable ends of the dwelling where the distance is less than 5m; (ii) there is no building level directly above another building level, except where the upper floor level is located wholly at or below finished ground level; (iii) the depth of excavation and/or height of filling of land is less than 1.5m; (iv) access to a new dwelling is provided by a private vehicular access track that is less than 30m in length and which has a gradient of less than 16 degrees (1-in-3.5) at any point; and (v) it does not involve the clearance of native vegetation; (c) where located within the Mount Lofty Ranges Catchment (Area 1) Overlay, the dwelling and allotment: <ul style="list-style-type: none"> (i) is located outside the 1% AEP flood event area and not sited on land fill which would interfere with the flow of such flood waters;

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
	<ul style="list-style-type: none"> (ii) is sited at least 25m from any lake, watercourse or wetland; (iii) is connected to an approved sewerage or common effluent disposal scheme or has an on-site waste water treatment and disposal method that meets relevant public health and environmental standards; (iv) does not have any part of a septic tank effluent drainage field or any other waste water disposal area (e.g. irrigation area) located within 50m of a lake, watercourse or wetland; (v) does not have a waste water disposal area located on any land with a slope greater than 20% (1-in-5), or depth to bedrock or seasonal or permanent watertable less than 1.2m; (vi) does not have a septic tank or any other waste water treatment facility located on land likely to be inundated by a 10-year return period flood event.
Educational establishment	
Electricity generating station	
Excavation	Except where: <ul style="list-style-type: none"> (a) the depth of the excavation is less than 3m below natural ground level; or (b) the excavation is directly required for the portion of a building that is fully underground, an underground dwelling, pool, underground tank, cellar, pipeline or waste disposal and treatment system.

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Filling	Except where: (a) the height of filling is less than 3m above natural ground level; or (b) the filling is directly required for an underground dwelling, underground tank, or cellar.
Industry	Except light industry
Intensive animal husbandry	
Land division	
Landfill	
Prescribed mining operations	
Renewable energy facility	
Residential flat building	
Telecommunications facility	
Transport depot	
Waste treatment and management facility	
Wrecking yard	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

To maintain the western slopes of the South Mount Lofty Ranges as an important natural asset of Greater Adelaide by limiting development to low-intensity agricultural activities and public and private open space.

The natural character of the zone will be preserved, enhanced and re-established to:

- (b) provide a natural backdrop to the Adelaide Plain and a contrast to the urban area;
- (c) preserve biodiversity and restore locally indigenous vegetation and fauna habitats close to metropolitan Adelaide;
- (d) provide for passive recreation in an area of natural character close to the metropolitan area; and
- (e) provide a part of the buffer area between metropolitan districts and prevent the urban area extending into the western slopes of the Mount Lofty Ranges.

‘Natural character’ refers to the natural topography, native vegetation and colours, such as greens and browns of non-reflective earthen tones, normally associated with a natural landscape.

Additionally, natural character refers to the open character of the land in those areas of the zone where open grazing currently predominates.

DO 2

Development ensures that the community is not required to bear the cost of providing services to and within the zone.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Low-intensity farming activities minimise their visual and environmental impact.

DTS/DPF 1.1

Farming does not involve:

- (a) excavation or filling of land;
- (b) the construction of roads, tracks and thoroughfares;
- (c) the erection, construction or alteration of, or addition to, any building or structure; and
- (f) the clearing of native vegetation.

PO 1.2

Development does not in itself, or in association with other development, create a potential demand for the provision of services at a cost to the community.

DTS/DPF 1.2

None are applicable.

PO 1.3

Residential development limited to:

- (a) detached dwellings of not more than 1 building level; and
- (b) associated outbuildings and structures on the same allotment.

DTS/DPF 1.3

None are applicable.

Built Form and Character

PO 2.1

Buildings and structures are unobtrusive and sited and designed in such a way as to:

- (a) not detract from but preserve and enhance or assist in the re-establishment of the natural character of the zone; and

- (b) limit the visual intrusion of development in the zone particularly when viewed from roads within the zone or from the Adelaide Plain.

DTS/DPF 2.1

None are applicable.

PO 2.2

1 Buildings and structures are:

- (a) of single building level;
- (b) located in unobtrusive locations;
- (c) grouped together but not attached/adjoined so as to minimise building mass;
- (d) not visible against the skyline when viewed from roads within the zone or from the metropolitan area particularly the Adelaide Plain;
- (e) designed and sited to keep roof lines below the lowest point of the abutting road when the allotment is on the low side of the road;
- (f) screened by existing native vegetation when viewed from roads within the zone or from the metropolitan area particularly the Adelaide Plain;
- (g) located well below the ridge line;
- (h) located within valleys or behind spurs;
- (i) set well back from public roads, particularly when the allotment is on the high side of the road; and
- (j) sited on excavated, rather than a filled site in order to reduce the vertical profile of the building or structure.

DTS/DPF 2.2

None are applicable.

PO 2.3

Additions to buildings:

- (a) maintain a single building level profile; and
- (b) are sited on the side of the dwelling which minimises the obtrusiveness of the completed building.

DTS/DPF 2.3

None are applicable.

PO 2.4

Buildings comprise materials that:

- (d) have surfaces which are of a low light reflective nature; and
- (e) are of dark natural colours such as brown and green so as to be unobtrusive, blend with a natural rural landscape and minimise any visual intrusion.

DTS/DPF 2.4

None are applicable.

PO 2.5

Buildings have a safe, clean, tidy and unobtrusive area for the storage and disposal of refuse so that the natural character of the zone is not adversely affected.

DTS/DPF 2.5

None are applicable.

Excavation and Filling

PO 3.1

Excavation and/or filling of land outside townships and urban areas is:

- (a) kept to a minimum and limited to a maximum depth or height no greater than 1.5m so as to preserve the natural form of the land and the native vegetation; and

- (b) only undertaken in order to reduce the visual impact of buildings, including structures, or in order to construct water storage facilities for use on the allotment.

DTS/DPF 3.1

None are applicable.

PO 3.2

Excavation and/or filling of land only undertaken if the resultant slope can be stabilised to prevent erosion, and result in stable scree slopes which are covered with top soil and landscaped so as to preserve and enhance the natural character or assist in the re-establishment of the natural character of the area.

DTS/DPF 3.2

None are applicable.

Mining

PO 4.1

New mines and quarries not developed within the zone.

DTS/DPF 4.1

Development does not involve the construction of a new mine or quarry.

PO 4.2

Extensions to existing mines and quarries only undertaken if:

- (a) the overall benefit to the community from the minerals produced together with the planned after-use of the site outweighs any loss of amenity or other resources resulting from the extractive operations;
- (b) the site contains minerals of the necessary quality and, for reasons of location, quality or other factors, no practical alternative source is available;
- (c) the proposed operation would maximise the utilisation of the resource but minimise the adverse impacts of extraction;
- (d) the proposed workings cannot be seen from any part of the Adelaide Plain; from any arterial road, scenic road or other substantial traffic route;
- (e) an effective buffer of land and native trees exists around the site to protect adjoining land users from effects of the operation; and
- (f) the operation is to be conducted in accordance with a staged development and rehabilitation scheme which:
 - i. ensures that danger and unreasonable damage or nuisance does not arise from workings or any operations associated with them;
 - ii. provides for progressive rehabilitation of disturbed areas and for landscaping with locally indigenous plant species in order to produce a site which assists in the re-establishment of a natural character;
 - iii. provides for the removal of buildings, plant, equipment and rubbish when operations are completed; and
 - iv. provides scope for suitable after-uses.

DTS/DPF 4.2

None are applicable.

Landfill and Waste Transfer Stations

PO 5.1

Landfill operations only developed if the site of the proposed development:

- (a) is located outside the Mount Lofty Ranges Catchment (Area 1) Overlay; and
- (b) is a disused quarry; or

- (c) has ground slopes no greater than 10% and has adequate separation distances from any above ground and underground water resource and from any potentially incompatible land uses and activities.

DTS/DPF 5.1

None are applicable.

PO 5.2

Small-scale waste transfer stations may be appropriate if located:

- (a) outside of the Mount Lofty Ranges Catchment (Area 1) Overlay; and
(b) in unobtrusive locations.

DTS/DPF 5.2

None are applicable.

Horticulture

PO 6.1

Horticultural activities are appropriately located to minimise impacts on native vegetation.

DTS/DPF 6.1

Horticulture is located no closer than 50m to stands of significant native vegetation, including native grasses.

PO 6.2

Horticultural activities are appropriately located to minimise impacts on lakes, watercourses and wetlands.

DTS/DPF 6.2

Horticulture is located no closer than 50m to a lake, watercourse or wetland.

PO 6.3

Horticultural activities located within 300m of a dwelling, tourist accommodation or any other sensitive receiver incorporates a suitably sized vegetated buffer area/strip to minimise any adverse impacts from the horticultural activity (including noise, chemical spray drift and run-off) on the sensitive receiver.

DTS/DPF 6.3

None are applicable.

Tourist Development

PO 7.1

Tourist facilities are of a low-scale and are sited unobtrusively.

DTS/DPF 7.1

None are applicable.

Driveways, Access Tracks and Car parking

PO 8.1

Driveways, access tracks and car parking areas constructed in a manner which preserves landscape character and are:

- (a) sited and constructed to follow contours of the land to reduce their visual impact and potential for erosion from water runoff; and
(b) surfaced with dark materials.

DTS/DPF 8.1

None are applicable.

Infrastructure

PO 9.1

Communication towers and masts:

- (a) are sited and designed to minimise their visual impact; and
- (b) contain the number of masts by shared use of facilities.

DTS/DPF 9.1

None are applicable.

PO 9.2

Telephone lines and electricity mains and services of less than 33kV are located underground.

DTS/DPF 9.2

None are applicable.

PO 9.3

New telephone lines, mains and services are located and designed in such a way as to minimise their visual intrusion and any adverse effect on the natural character of the zone.

DTS/DPF 9.3

None are applicable.

Environment and Amenity

PO 10.1

Development is not undertaken if it is likely to result in:

- (a) pollution of underground or surface water resources;
- (b) over exploitation of underground or surface water resources; and
- (c) adverse impact on underground or surface water resources, including any environmental flows required to sustain the natural environment.

DTS/DPF 10.1

None are applicable.

PO 10.2

Development not undertaken if it is likely to result in:

- (a) unnecessary loss or damage to native vegetation including the full range of tree, understorey and groundcover species/ native grasses so as to maintain and enhance environmental values and functions, including conservation, biodiversity and habitat;
- (b) denudation of pastures; and
- (c) the introduction of or an increase in the number of pest plants or vermin.

DTS/DPF 10.2

None are applicable.

PO 10.3

Development not undertaken if it is likely to result in adverse impacts from chemical spray drift, chemical run-off or chemical residue in soils.

DTS/DPF 10.3

None are applicable.

PO 10.4

Development not undertaken if it is likely to result in loss of amenity to adjoining land or surrounding localities from:

- (a) the visual impact of buildings, structures or earthworks; and
- (b) the intensity of activity associated with any such use, including significant adverse impacts arising from:
 - i. chemical spray drift;
 - ii. use of audible bird or animal deterrent devices; and
 - iii. the use of associated vehicles and machinery.

DTS/DPF 10.4

None are applicable.

PO 10.5

Development does not occur on land if the slope poses an unacceptable risk of soil movement, landslip or erosion.

DTS/DPF 10.5

None are applicable.

PO 10.6

Buildings, structures are not located in areas subject to inundation by a 1% AEP flood event.

DTS/DPF 10.6

Development is located outside of the 1% AEP flood event.

PO 10.7

Buildings, structures and associated fill do not interfere with the flow of flood waters.

DTS/DPF 10.7

None are applicable

Native Vegetation

PO 11.1

Development is only undertaken if it can be located and designed to maximise the retention of existing native vegetation and, if possible, increase the extent of locally indigenous plant species.

DTS/DPF 11.1

None are applicable.

PO 11.2

Development is screened by locally indigenous plant species or use of screening mounds, including scree slopes created as a result of excavation and/or filling of land, in such a way that the bushfire hazard is not increased.

DTS/DPF 11.2

None are applicable.

PO 11.3

Any essential clearance of native vegetation is accompanied by conservation initiatives, including replanting with indigenous native vegetation, to ensure the overall result is a biodiversity gain.

DTS/DPF 11.3

None are applicable.

Fencing and Retaining Walls

PO 12.1

Retaining walls are constructed as a stepped series of low walls constructed of dark, natural coloured materials and screened by landscaping using locally indigenous plant species if possible.

DTS/DPF 12.1

None are applicable.

PO 12.2

Fences:

- (a) are sited to minimise their visual impact;
- (b) are constructed of post and wire or other materials which can be seen through; and
- (c) avoid construction of obtrusive gateways, particularly of brick or masonry.

DTS/DPF 12.2

None are applicable.

PO 12.3

When solid fences are essential, particularly rear and side fences in closely divided areas, they:

- (a) are constructed of materials which are of a low-light reflective nature and of dark natural colours to blend with the natural landscape and minimise any visual intrusion; and
- (b) do not increase the fire risk near buildings.

DTS/DPF 12.3

None are applicable.

Procedural Matters (PM)

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Hills Face Zone Table 3

Home Industry Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Protection Area Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment

	<ol style="list-style-type: none"> 1 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 2 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors 3 The carport: <ol style="list-style-type: none"> (a) is located so that vehicle access: <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site. 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)

<ul style="list-style-type: none"> • Sloping Land Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ol style="list-style-type: none"> 5 Total floor area - does not exceed 40m² 6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60% 11 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors 12 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 13 The garage: <ol style="list-style-type: none"> (a) is located so that vehicle access: <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and
---	--

	<p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>14 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 It is detached from and ancillary to a dwelling erected on the site</p> <p>3 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>5 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>6 Total floor area does not exceed 40m²</p> <p>7 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>8 Building height - does not exceed 5m</p> <p>9 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>10 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>11 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p>

	<p>12 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Primary street setback – at least as far back as the building to which it is ancillary 3 Secondary street setback – at least 900mm from the boundary of the allotment 4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m² 4 No part of the shade sail will be: <ol style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary 6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay 	<ol style="list-style-type: none"> 1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 2 Panels and associated components do not overhang any part of the roof 3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.

<p>Spa pool Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Allotment boundary setback – not less than 1m 4 Primary street setback – at least as far back as the building line of the building to which it is ancillary 5 Location of filtration system from a dwelling on an adjoining allotment: <ol style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise (b) not less than 12m in any other case.
<p>Verandah</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – as far back as the building line of the building to which it is ancillary 4 Total floor area - does not exceed 40m² 5 Post height - does not exceed 3m measured from natural ground level 6 Building height - does not exceed 5m 7 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment 8 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
<p>Water tank (above ground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank is part of a roof drainage system 3 Total floor area - not exceeding 15m² 4 The tank is located wholly above ground 5 Tank height – does not exceed 4m above natural ground level 6 Primary street setback – at least as far back as the building line of the building to which it is ancillary 7 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
<p>Water tank (underground)</p> <p>Except where any of the following apply:</p>	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

<ul style="list-style-type: none">• Character Preservation District Overlay• Native Vegetation Overlay• River Murray Flood Plain Overlay• Sloping Land Overlay• Water Resources Overlay	<p>2 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Industry	Light industry
Shop	Where the gross leasable floor area is no more than 250m ² .

Assessment Provisions

Desired Outcome (DO)

DO 1

A zone accommodating small scale and low impact business enterprises in conjunction with a dwelling to provide opportunities to work from home and contribute to employment diversity.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Business activities established in association with residential development.

DTS/DPF 1.1

Development comprises one or more of the following land uses in association with a dwelling:

- Consulting room
- Light industry
- Office
- Personal or domestic services establishment
- Shop in conjunction with light industry
- Store
- Motor repair station
- Warehouse.

PO 1.2

Business activities of a scale to assist in the effective management of emissions and other impacts to maintain a reasonable level of residential amenity for occupants of the associated dwelling and residential neighbours.

DTS/DPF 1.2

Business activity:

- (a) employs no more than 3 persons not residing in the associated dwelling;
- (b) provides 1 on-site car parking space for each non-resident employee;
- (c) occupies an area not exceeding 20% of the relevant allotment area and not exceeding 200m², where the area is the sum of:
 - i. the gross floor area of any building or portion of a building used for business activities;
 - ii. any outdoor area used related to business storage or display purposes; and
 - iii. each non-resident employee parking space; and
- (d) does not involve the use or parking of a commercial vehicle exceeding 5 tonnes tare weight.

PO 1.3

Business areas and activities configured to retain functional aspects of the associated dwelling to maintain a suitable residential character and amenity.

DTS/DPF 1.3

Business activities, including outdoor storage and display areas and non-resident employee parking spaces, do not result in the associated dwelling having:

- (a) less private open space than specified in Design in Urban Areas Table 1 – Outdoor Open Space;
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - Off-street Car Parking Requirements.

PO 1.4

Residential development supports opportunities for home-based business activities and mitigates the potential for conflict with a dwelling not associated with a business use associated with another dwelling on the same site.

DTS/DPF 1.4

Development will not result in more than 1 dwelling per allotment.

Built Form and Character

PO 2.1

Buildings contribute to a low-rise character and complement the height of nearby buildings.

DTS/DPF2.1

Buildings (excluding garages, carports and outbuildings):

- (a) up to 2 building levels;
- (b) with a building height up to 9m; and
- (c) with a wall height up to 7m.

PO 2.2

Buildings used for business purposes present an attractive frontage to public roads and thoroughfares to enhance the amenity of the locality.

DTS/DPF2.2

Non-residential buildings:

- (a) incorporate any office, shop or consulting room component along a frontage to a public road or thoroughfare; or
- (b) if clad in metal sheeting, is pre-colour treated or painted in a non-reflective colour.

Building Setbacks

PO 3.1

Dwellings setback from primary street boundaries to complement the existing streetscape character.

DTS/DPF3.1

Dwelling setback from the primary street frontage in accordance with the following:

- (a) the average of existing dwellings on adjoining sites with the same primary street frontage and, if there is only one such dwelling, the setback of that dwelling; or
- (b) in relation to a site on the corner of two streets or adjacent a public space or thoroughfare, at least the distance of the existing dwelling on the adjacent site or the closest site away from the corner, public space or thoroughfare that contains a dwelling facing the same primary street without crossing a street, public space or thoroughfare;
- (c) at least 6m, where no dwelling exists on an adjoining site with the same primary street frontage.

PO 3.2

Dwellings set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF3.2

Dwellings no closer than 3m to the secondary street boundary.

PO 3.3

Dwellings set back from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality; and
- (b) access to natural light and ventilation for neighbours.

DTS/DPF3.3

Other than walls located on a side boundary, buildings are set back from side boundaries:

- (a) at least 900mm where the wall is up to 3m measured from the top of the footings;
- (b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m measured from the top of the footings; and
- (c) at least 1900mm plus 1/3 of the wall height above 3m measured from the top of the footings for walls facing a southern side boundary.

PO 3.4

Non-residential buildings facing a public road or thoroughfare sited to mitigate visual impact on residential streetscapes.

DTS/DPF3.4

Non-residential buildings setback from a public road or thoroughfare at least as far as the wall of the existing or approved dwelling on the same allotment.

PO 3.5

Non-residential buildings on or abutting the boundary of a zone primarily intended to accommodate sensitive receivers designed to minimise visual impacts from building bulk.

DTS/DPF 3.5

Non-residential development setback from zone boundaries 3 metres or more plus an additional 0.6 metres for every metre of building height above 4 metres.

PO 3.6

Buildings set back from rear boundaries to provide:

- (a) separation between buildings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) private open space; and
- (d) space for landscaping and vegetation.

DTS/DPF 3.6

Buildings are set back from the rear boundary at least:

- (a) 3m for the first building level; and
- (b) 5m for any second building level.

Site Dimensions and Land Division

PO 4.1

Land division creates allotments that are of a size and shape suitable for a dwelling and associated home based business consistent with the prevailing residential character and land division pattern in a relevant locality.

DTS/DPF4.1

Allotments have:

- (a) an area being the greater of the following:
 - i. where there is no established land division pattern, 750m²; or

- ii. no less than an adjacent residential allotment, or the average of adjacent residential allotments where there is more than one adjacent allotment, used for residential purposes in the zone; and
- (b) a primary street frontage of 20m or more, plus an additional 5m frontage for every 500m² increment or portion thereof for allotments over 2000m² up to a frontage of 50m.

Advertising

PO 5.1

Advertisements are small-scale and located and designed to reflect residential character and amenity.

DTS/DPF 5.1

Advertisements:

- a. will not result in more than one advertisement on the relevant allotment;
- b. do not have a face that exceeds 1m² in area; and
- c. comprise:
 - i. an advertisement flush mounted to the main face of the building closest to the primary frontage; or
 - ii. an advertisement flush mounted to the primary street fence; or
 - iii. a freestanding advertising hoarding that does not exceed 2m in height above natural ground level.

Procedural Matters

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Home Industry Zone Table 3
- (c) development exceeding a height specified in DTS / DPF 2.1
- (d) development resulting in more than one dwelling per allotment
- (e) non-residential development exceeding 100 square metre in floor area per allotment.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Housing Diversity Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

<ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 70% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The carport:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay <p>A State Heritage Place identified in the State Heritage Place Overlay</p>	<p>None.</p>

<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site. 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure

<ul style="list-style-type: none"> • Water Resources Overlay 	<p>10 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 70%</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>2 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site 3 Primary street setback – at least as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Side boundary setbacks – at least 900mm from the boundary of the allotment

<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 6 Total floor area does not exceed 40m² 7 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8 Building height - does not exceed 5m 9 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 10 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 11 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 70% 12 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m² 4 No part of the shade sail will be: <ol style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary

<ul style="list-style-type: none"> • Sloping Land Overlay • Water Resources Overlay 	<p>6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>2 Panels and associated components do not overhang any part of the roof</p> <p>3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	With a gross leasable area less than 1000m2.

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Low-rise medium density housing that supports a range of needs and lifestyles located within easy reach of a diversity of services and facilities. Employment and community service uses contribute to making the neighbourhood a convenient place to live without compromising residential amenity.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Residential development and supporting uses that provide housing and supporting services and facilities that make it a convenient place to live.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Ancillary accommodation
- Community facility
- Dwelling
- Educational establishment
- Office
- Outbuilding
- Pre-school
- Recreation area
- Residential flat building
- Retirement facility
- Shop
- Supported accommodation.

PO 1.2

Residential development accommodates a range of housing choices.

DTS/DPF 1.2

Residential development comprises:

- (a) detached dwellings;
- (b) semi-detached dwellings;
- (c) row dwellings;
- (d) group dwellings;
- (e) residential flat buildings;
- (f) ancillary accommodation;
- (g) retirement facility; and / or
- (h) supported accommodation.

PO 1.3

Non-residential development provides a range of services to the local community primarily in the form of:

- (a) commercial uses including small scale offices, shops and consulting rooms;
- (b) community services such as educational establishments, community centres, places of worship, pre-schools, child care and other health and welfare services;
- (c) services and facilities ancillary to the function or operation of supported accommodation or retirement housing; and
- (d) open space and recreation facilities.

DTS 1.3

None are applicable

PO 1.4

Non-residential development compatible with residential character and amenity.

DTS 1.4

None are applicable

PO 1.5

Shops, consulting rooms and offices of a scale to maintain the amenity of nearby residents.

DTS / DPF 1.5

Other than a change in the use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof), or where located with a frontage to an arterial or collector road or adjacent a Main Street or Activity Centre Zone, shops, offices and consulting rooms do not exceed 100m² in gross leasable floor area (individually or combined).

PO 1.6

Larger scale shops, offices and consulting rooms established on higher order roads or adjacent existing commercial and retail precincts.

DTS/DPF 1.6

Shops, consulting rooms or offices with a floor area not exceeding 200m² located on sites with a frontage to an arterial or collector road or adjacent an Urban Corridor, Main Street or Activity Centre Zone.

Site Dimensions and Land Division

PO 2.1

Allotments created for residential purposes accommodate a diverse range of low - medium density housing.

DTS/DPF 2.1

Development achieves a net residential density of up to 70 dwellings per hectare.

Building Height

PO 3.1

Buildings contribute to a low-rise residential character and complement the height of nearby buildings.

DTS/DPF 3.1

Building height (excluding garages, carports and outbuildings) does not exceed that specified in the Building Height Data Overlay.

Primary Street Setback

PO 4.1

Buildings are setback from primary street boundaries to establish a consistent streetscape character and provide a functional semi-private space between the building and street.

DTS/DPF 4.1

Buildings are setback from the primary street boundary:

- (a) 8m or more when the primary street boundary is an arterial road;
- (b) 3m from any other road.

PO 4.2

Building elements are setback from public streets to establish a consistent streetscape character while adding interest and animation to street frontages.

DTS/DPF 4.2

The following elements can extend up to 1.5m closer to the street than the minimum primary street setback specified in DTS 4.1:

- (a) a porch or portico with at least 2 open sides;
- (b) a balcony;
- (c) a verandah with at least 3 open sides;
- (d) window awnings or shading features; and
- (e) architectural fins or blades.

Secondary Street Setback

PO 5.1

Buildings are set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce streetscape character.

DTS/DPF 5.1

Buildings are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a dwelling on any adjoining allotment is closer to the secondary street than 900 millimetres, the distance of that dwelling from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).

Boundary Walls

PO 6.1

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 6.1

Dwelling walls on side boundaries either:

- (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height; or
- (b) do not exceed:
 - (i) 3 metres in height;
 - (ii) 10 metres in length; and
- i. will not result in boundary walls on more than 45% of the total length of the side boundary.

PO 6.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS / DPF 6.2

Dwellings in a semi-detached, row or terrace arrangement are setback 900mm or more from side boundaries shared with allotments outside the development site.

Side Boundary Setback

PO 7.1

Buildings are set back from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality; and
- (b) access to natural light and ventilation for neighbours.

DTS/DPF 7.1

Buildings not sited on side boundaries setback from the side boundary:

- (a) 900 mm for a wall height less than 3 metres; and
- (b) 900mm plus 1/3 of the wall height above 3m.

Rear Boundary Setback

PO 8.1

Buildings are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and
- (d) space for landscaping and vegetation.

DTS/DPF 8.1

Buildings are set back from the rear boundary:

- (a) 3m or more for the first building level; and
- (b) 5m or more for any second building level; and
- (c) 5m plus any increase in wall height over 7m for buildings three storey and above.

Façade design

PO 9.1

Dwelling facades facing public streets and common driveways make a positive contribution to the streetscape.

DTS/DPF 9.1

Each dwelling includes at least 3 of the following design features along each façade facing a public road or common driveway:

- (a) a minimum of 25% of the façade is setback an additional 300mm;
- (b) a porch or portico that projects at least 1m from the building façade and is open on least 2 sides;
- (c) a balcony that projects at least 1.0m from the building façade;
- (d) a verandah that projects at least 1m from the building façade;
- (e) eaves surrounding the dwelling of a minimum 450mm width;

- (f) a minimum 50% of the upper level projects forward a minimum 300mm from the lower level building line.

Group Dwellings, Residential Flat Buildings and Battle-Axe Development - External Appearance

PO 10.1

Residential flat buildings are of an appropriate scale with larger buildings divided and separated into smaller forms to:

- (a) achieve a mass and scale that better relates to a low-rise suburban character;
- (b) limit visual impact and provide appropriate outlook for occupants; and
- (c) provide adequate space around buildings for light, ventilation and landscaping.

DTS/DPF 10.1

Residential Flat Buildings that are 2 or more building levels:

- (a) have a building depth or length no greater than 20m; and
- (b) are setback at least 4m from other dwellings or other residential flat buildings.

PO 10.2

Services including gas and water meters conveniently located and screened from public view.

DTS/DPF 10.2

None are applicable.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Suburban Neighbourhood (Medium Density) Zone Table 3
- (c) Development involving the creation of four or more additional dwellings;
- (d) dwellings that do not satisfy DTS/DPF 4.1, 4.2, 5.1, 6.1, 6.2, 7.1, 8.1 and 9.1
- (e) non-residential development.

Infrastructure Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to an office erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that

<p>existing access is altered or a new access is created</p> <ul style="list-style-type: none"> Major Urban Transport Routes Overlay where an existing access is altered or a new access is created Urban Transport Routes Overlay where an existing access is altered or a new access is created Water Resources Overlay 	<p>boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> A Local Heritage Place identified in the Local Heritage Place Overlay A State Heritage Place identified in the State Heritage Place Overlay 	<p>1 There will be no increase in the total floor area of the building</p> <p>2 There will be no alteration to the external appearance of the building.</p>
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p>	<p>1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p>

<ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 2 Panels and associated components do not overhang any part of the roof 3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay 	<ol style="list-style-type: none"> 2 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3 The tank is part of a roof drainage system 4 Total floor area - not exceeding 15m² 5 The tank is located wholly above ground 6 Tank height – does not exceed 4m above natural ground level 7 Primary street setback – at least as far back as the building line of the building to which it is ancillary 8 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria			
	Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.			
None Specified			(applies only in the area affected by the Subzone)	(applies only in the area affected by the Overlay)

Table 3 – Applicable Policies for Performance Assessed Development

	<p>The following policies are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development.</p> <p>Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.</p>

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
None Specified	

Assessment Provisions

Desired Outcome (DO)

DO 1

The protection, provision, maintenance and expansion of infrastructure services and facilities that support orderly development and vehicular movements.

DO 2

Infrastructure services and facilities that manage environmental impacts.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Utility and infrastructure facilities and other services that support the orderly development of land and assist in manage impacts on the environment and community.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Electricity substation
- Landfill, including gas extraction plant and equipment
- Water treatment and supply
- Stormwater retention / detention basin
- Sewerage treatment facility
- Public service depot
- Waste transfer depot.

PO 1.2

Development does not hinder the ongoing operation of existing utility and other infrastructure services or jeopardise the expansion of those services to support economic activity and manage impacts on the environment and community.

DTS/DPF 1.2

None are applicable.

PO 1.3

Development ancillary to utility and other infrastructure services including offices, workshops and the like are undertaken to enhance on-going operations and maintenance aspects of those services.

DTS/DPF 1.3

None are applicable.

PO 1.4

Security fencing is located behind landscaping to enhance the appearance of development from adjacent areas, roads and thoroughfares.

DTS/DPF 1.4

None are applicable.

Fencing

PO 2.1

Fencing exceeding 2.1m in height integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.

DTS/DPF /DPF 2.1

Fencing exceeding 2.1m in height:

- (g) located behind a façade of an associated building located on the same site; or
- (h) located behind a landscaped area along relevant street frontages; or

(i) consists of visually permeable materials with landscaping behind.

Procedural Matters (PM)

Notification
All classes of performance assessed development are excluded from notification except where they involve any of the following: <ul style="list-style-type: none">(a) the site of the development is adjacent land to land in a different zone(b) development identified as "all other code assessed development" in Infrastructure Zone Table 3.
Placement of Notices – Exemptions for Performance Assessed Development

<p>Shop</p>	<p>Where:</p> <ul style="list-style-type: none"> (a) the gross leasable floor area is no more than 250m²; or (b) it is ancillary to and located on the same allotment as an airfield passenger terminal.

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

A zone providing for aviation operations together with allied and complementary activities to support the long term ongoing use and expansion of airfield development and activities for commercial freight and passenger transport as well as aviation related recreational pursuits.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

Development primary catering for take-off and landing, on-ground movement, maintenance, repair and storage of aircraft, as well as facilities associated with the handling of freight and passengers to enhance the safe and efficient transportation of people and cargo by air.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Aircraft operational facilities beacons, transmitting installations and their associated towers
- Aircraft control tower
- Light industry associated with, and ancillary to, aviation activities
- Passenger and/or air freight terminal
- Aircraft hangar
- Shop within the terminal building
- Store associated with, and ancillary to, aviation activities
- Fuel depot associated with aviation and airport related purposes
- Office associated with, and ancillary to, aviation activities
- Flight simulation and training facility.

PO 1.2

Development does not impede aviation operations and the expansion of airfields.

DTS/DPF 1.2

None are applicable.

Built Form and Character

PO 2.1

Development of a scale and design consistent with the role and function of the airfield and complementary to the wider setting.

DTS/DPF 2.1

None are applicable.

Land Division

PO 3.1

Land division suitable for the intended use of the land where it maintains the efficient and safety operations of the airfield.

DTS/DPF 3.1

None are applicable.

Hazard Management

PO 4.1

Movement between aircraft taxiways and open runway corridors and areas used for non-aviation purposes is regulated through the incorporation of fencing or other barriers to mitigate hazard to aircraft operations and provide for the safety of users and occupiers of land use for non-aviation purposes.

DTS/DPF 4.1

None are applicable.

PO 4.2

Landscaping uses species to minimise the nesting and attraction of birds and spread of leaf and other debris to mitigate hazard to aircraft.

DTS/DPF 4.2

None are applicable.

Advertisements

PO 5.1

Advertisements limited to those in connection with the terminal building and the display of business services on non-residential premises to mitigate visual clutter and untidiness.

DTS/DPF 5.1

None are applicable.

Procedural Matters (PM)

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone that is located within the area of council
- (b) development identified as "all other code assessed development" in Infrastructure (Airfield) Zone Table 3.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Residential Aviation Estate Subzone

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

Low density, detached dwellings and associated aircraft hangars designed to integrate with and complement the spacious setting of the airfield.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Dwellings developed in close affiliation with outbuildings and activities for the storage, and or maintenance of aircraft to support the role and function of the airfield.

DTS/DPF 1.1

Dwelling located on the same site as an existing aircraft hangar or to be built concurrently.

PO 1.2

Hangars provide for the storage and maintenance of planes and associated equipment within buildings to contribute to the appearance of land in the locality and mitigate adverse amenity impacts on neighbouring dwellings from aircraft maintenance activities.

DTS/DPF 1.2

None are applicable.

PO 1.3

An open character is accommodated by providing space around buildings and managing the accumulative impacts of buildings in the locality.

DTS/DPF 1.3

The total floor area of all existing and proposed buildings does not exceed 35 per cent of an allotment area.

Land Division

PO 2.2

Allotments are of suitable size and dimension to accommodate a dwelling and associated outbuildings (including hangar) setbacks from boundaries to support a spacious setting.

DTS/DPF 2.1

Allotments have:

- (j) an area of 2000m² or more; and
- (k) a frontage width of 30m or more.

Building Height

PO 3.1

Dwellings contribute to a low-rise residential character and complement the height of nearby buildings.

DTS/DPF 3.1

Dwelling:

- (a) with a height up to 2 building levels and 9 metres; and
- (b) with a wall height up to 6 metres.

PO 3.2

An outbuildings in the form of a hangar that is sited and designed so as to be subordinate to the associated dwelling and complement the height of nearby buildings.

DTS/DPF 3.2

Hangar height is no more than 9m.

Primary Street Setback

PO 4.1

Buildings are setback from primary street boundaries to reinforce a spacious streetscape character and provide for the provision of landscaping to enhance the appearance of land and buildings.

DTS/DPF 4.1

Buildings are setback from the primary street boundary 6m or more.

Secondary Street Setback

PO 5.1

Buildings are set back from secondary street boundaries to support separation between building walls and public thoroughfares and reinforce an open and spacious streetscape character.

DTS/DPF 5.1

Buildings are set back 2m or more from the boundary of the allotment with the secondary street frontage.

Side Boundary Setbacks

PO 6.1

Buildings are set back from side boundaries to provide:

- (d) separation between dwellings in a way that reinforces a low density residential character; and
- (e) access to natural light and ventilation for neighbours.

DTS/DPF 6.1

Buildings are set back from side boundaries 1m or more.

Rear Boundary Setback

PO 7.1

Buildings are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and
- (d) space for landscaping and vegetation.

DTS/DPF 7.1

Buildings are set back from the rear boundary 20m or more.

Infrastructure (Ferry and Marina Facilities) Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	7 Building work is associated with a railway 8 It is situated (or to be situated) on railway land 9 It is required for the conduct or maintenance of railway activities.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	3 There will be no increase in the total floor area of the building 4 There will be no alteration to the external appearance of the building.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 16 Shade sail consists of permeable material 17 The total area of the sail - does not exceed 40m ² 18 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 19 Primary street setback – at least as far back as the building line of the building to which it is ancillary 20 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m

	21 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	7 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 8 Panels and associated components do not overhang any part of the roof 9 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
Spa pool Swimming pool Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	11 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 12 It is ancillary to a dwelling or tourist accommodation erected on the site 13 Allotment boundary setback – not less than 1m 14 Primary street setback – at least as far back as the building line of the building to which it is ancillary 15 Location of filtration system from a dwelling on an adjoining allotment: <ul style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise (b) not less than 12m in any other case.
Water tank (above ground) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 16 The tank is part of a roof drainage system 17 Total floor area - not exceeding 15m ² 18 The tank is located wholly above ground 19 Tank height – does not exceed 4m above natural ground level 20 Primary street setback – at least as far back as the building line of the building to which it is ancillary 21 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
Water tank (underground) Except where any of the following apply:	5 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

<ul style="list-style-type: none">• Coastal Areas Overlay• Native Vegetation Overlay• State Significant Native Vegetation Overlay• Ramsar Wetlands Overlay• Sloping Land Overlay• Water Resources Overlay	6 The tank (including any associated pump) is located wholly below the level of the ground.

Class of Development

Applicable Policies

The following policies are applicable to the assessment of the identified Class of Development.

Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development.

Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
None Specified	

Assessment Provisions

Desired Outcome (DO)

DO 1

A zone accommodating on-water development associated with the function of marinas and passenger ferry services together with a range of complementary waterfront-oriented recreational and tourist development activities.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

On-water development, including boat and ferry berthing, boat servicing facilities, walkways and channel markers preserves the function of marinas and passenger ferry services.

DTS/DPF1.1

Development comprises one or more of the following land uses:

- (a) Boat berth, jetty, pier or pontoon
- (b) Coast protection work
- (c) Maritime structures / beacons

PO 1.2

Off-water development is:

- (a) associated with marinas and passenger ferry services, including complementary conservation works; or
- (b) caters to the needs and enjoyment of visitors and occupants such as tourist accommodation, restaurants, clubrooms, chandlery and the like, provided at a scale compatible with the role and function of the associated marina and / or the passenger ferry service.

DTS/DPF1.2

Development comprises one or more of the following land uses:

- Boat construction, maintenance, repair or sale
- Boat servicing facility (including fuel supply, power, water, effluent pump, toilets and showers)
- Loading and unloading facility
- Clubrooms in association with a marina
- Office in association with a marina or ferry terminal
- Parking area for vehicles and boats
- Shop in association with a marina or ferry terminal
- Storage
- Tourist accommodation
- Wastewater collection, storage and transfer facility.

PO 1.3

Pedestrian and bicycle pathways associated with marinas and passenger ferry services link tourist accommodation with other recreation, tourist facilities and attractions within the area.

DTS/DPF 1.3

None are applicable.

Procedural Matters

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone that is located within the area of council
- (b) development identified as “all other code assessed development” in Infrastructure (Ferry and Marina Facilities) Zone Table 3.

Innovation Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan including any associated components and any associated building alteration or addition necessary or incidental to its installation</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • State Heritage Place Overlay • Local Heritage Place Overlay 	<p>4 The item will be installed on or within an existing building</p> <p>5 The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.</p> <p>6 If the associated building is in a Historic Area Overlay or State Heritage Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</p>
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Airport Building Heights (Regulated) Overlay • Building Near Airfields Overlay • Defence Aviation Area Overlay • Future Road Widening Overlay • Local Heritage Place Overlay • Major Urban Transport Routes Overlay • Native Vegetation Overlay • Non-stop Corridor Overlay • State Heritage Place Overlay • Urban Transport Routes Overlay 	<p>14 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>15 It is ancillary to a dwelling erected on the site</p> <p>16 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>17 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>18 Total floor area - does not exceed 60m²</p> <p>19 Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>20 Building height - does not exceed 5m</p> <p>21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	<p>22 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>23 The total roofed area of all existing or proposed buildings on the allotment does not exceed 70% of the area of the allotment</p> <p>24 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>25 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>26 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> State Heritage Place Overlay 	<p>3 There will be no increase in the total floor area of the building</p> <p>4 There will be no alteration to the external appearance of the building.</p>

<ul style="list-style-type: none"> Local Heritage Place Overlay 	
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> Airport Building Heights (Regulated) Overlay Building Near Airfields Overlay Defence Aviation Area Overlay Future Road Widening Overlay Local Heritage Place Overlay Major Urban Transport Routes Overlay Native Vegetation Overlay Non-stop Corridor Overlay State Heritage Place Overlay Urban Transport Routes Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 It is detached from and ancillary to a dwelling erected on the site.</p> <p>17 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>18 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>19 Total floor area - does not exceed 60m²</p> <p>20 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>21 Building height - does not exceed 5m</p> <p>22 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>23 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>24 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 70%</p> <p>25 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>26 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>27 The garage:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that:

	<p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>28 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Airport Building Heights (Regulated) Overlay • Building Near Airfields Overlay • Defence Aviation Area Overlay • Future Road Widening Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • State Heritage Place Overlay 	<p>13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>14 It is detached from and ancillary to a dwelling erected on the site</p> <p>15 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>16 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>17 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>18 Total floor area does not exceed 60m²</p> <p>19 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>20 Building height - does not exceed 5m</p> <p>21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>22 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p>

	<p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>23 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 70%</p> <p>24 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Airport Building Heights (Regulated) Overlay • Building Near Airfields Overlay • Defence Aviation Area Overlay • Future Road Widening Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • State Heritage Place Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 Shade sail consists of permeable material</p> <p>17 The total area of the sail - does not exceed 40m²</p> <p>18 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>19 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>20 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>21 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • State Heritage Area Overlay • State Heritage Place Overlay • Local Heritage Place Overlay 	<p>4 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>5 Panels and associated components do not overhang any part of the roof</p> <p>6 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Verandah Except where any of the following apply: Except where any of the following apply:</p> <ul style="list-style-type: none"> • Airport Building Heights (Regulated) Overlay • Building Near Airfields Overlay 	<p>17 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>18 It is ancillary to a dwelling erected on the site</p> <p>19 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>20 Total floor area - does not exceed 60m²</p> <p>21 Post height - does not exceed 3m measured from natural ground level</p>

<ul style="list-style-type: none"> • Defence Aviation Area Overlay • Future Road Widening Overlay • Local Heritage Place Overlay • Native Vegetation Overlay • State Heritage Place Overlay 	<p>22 Building height - does not exceed 5m</p> <p>23 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>24 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 70%.</p>
<p>Water tank (underground)</p>	<p>6 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>7 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
<u>Industry</u>	<u>Light Industry</u>
<u>Shop</u>	Restaurant Any other shop with a gross leasable floor area less than 500m ²

Assessment Provisions

Desired Outcome (DO)

DO 1

Innovation precincts accommodating a range of health, education, and research activities supported by a mix of compatible supporting housing, tourism, hospitality, cultural, entertainment, recreation and retail land uses.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development is associated with or ancillary to the provision of health and education services and the conduct of research.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Consulting room

Community facility

Dwelling

Residential flat building

Educational establishment

Hospital

Hotel

Library

Light industry (including high technology and research based activity)

Office

Place of worship

Pre-school

Public transport terminal

PO 1.2

Development within walking distance of public transport stops should comprise land uses that directly promote public transport use and provide opportunities for multi-purpose trips.

DTS 1.2

None are applicable.

PO 1.3

Light industrial and commercial development (including high technology and research-based activity) designed and sited to be compatible with adjoining uses.

DTS 1.3

None are applicable.

PO 1.4

Commercial activity is of a small-to-medium scale to meet the day-to-day needs of the local community.

DTS / DPF 1.4

Shops, offices or consulting room gross leasable floor area does not exceed 250m².

PO 1.5

Ground floor level uses promote high levels of pedestrian activity and contribute to an active and vibrant public realm.

DTS / DPF 1.5

Shop, restaurant or consulting room land uses located on the ground floor level of buildings.

PO 1.6

Residential development, where appropriate, established at medium-to-high densities.

DTS / DPF 1.6

Residential development achieves a minimum net residential density of:

- a) 50 dwellings per hectare where located adjacent the zone boundary; or
- b) 80 dwellings per hectare in all other cases.

Built Form and Character

PO 2.1

Development achieves a high standard of contemporary architectural design, using a mixture of solid and glass finishes to produce visual interest on all sides.

DTS/DPF 2.1

None are applicable.

PO 2.2

Buildings are orientated towards public open space and defined pedestrian and cycle routes, where possible.

DTS/DPF 2.2

None are applicable.

PO 2.3

Buildings create visual interest and an active interface along streetscapes, pedestrian and cycle routes and building surrounds to enhance casual surveillance and provide appropriate lighting and clear lines of sight.

DTS/DPF 2.3

Not less than 50% of the ground floor primary frontage of buildings are:

- l) are visually permeable, transparent or clear glazed; and
- m) have a ground floor level at grade / level with the adjoining public realm footpath.

PO 2.4

Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential.

DTS/DPF 2.4

Buildings containing ground and first building levels built to dimensions including a minimum ceiling height of 3.5m.

PO 2.5

Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.

DTS/DPF 2.5

Buildings provide verandas, balconies, canopies, awnings or other pedestrian shelters over adjacent footpaths.

PO 2.6

Development including advertisements, buildings, site landscaping, street planting and paving achieves a cohesive and coordinated appearance.

DTS/DPF 2.6

None are applicable.

PO 2.7

Permanent fencing is visually permeable to support visibility and custom designed to high architectural standard.

DTS 2.7

None are applicable.

Building height and setbacks

PO 3.1

Building heights within the zone provide an orderly transition in scale, increasing from low scale at the zone interface to medium-to-high rise in the centre of the zone.

DTS/DPF 3.1

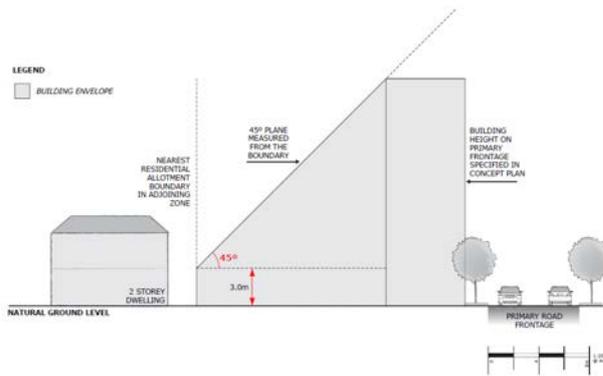

Building height is not greater than any maximum, or less than any minimum, specified in the *Maximum Building Height Levels Technical and Numeric Variation Overlay*, the *Maximum Building Height Metres Technical and Numeric Variation Overlay*, or the *Minimum Building Height Levels Technical and Numeric Variation Overlay*.

PO 3.2

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood zone.

DTS/DPF 3.2

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the allotment boundary of a [residential allotment within a neighbourhood](#) zone as shown in the following diagram (except where this boundary is a southern boundary in which case DTS/DPF 4.3 will apply, or where this boundary is the primary street boundary):

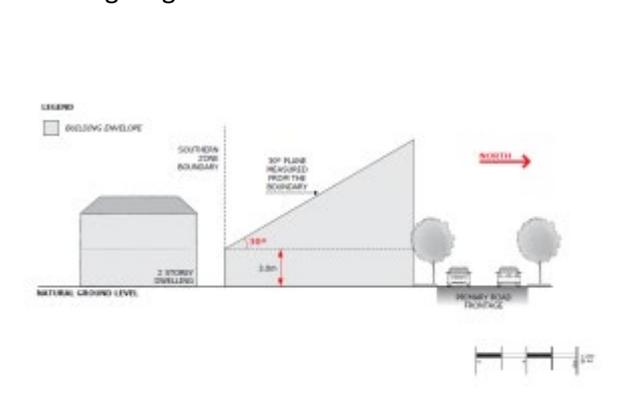

PO 3.3

Buildings mitigate overshadowing of residential development within a neighbourhood zone.

DTS 3.3

Buildings on sites with a southern boundary adjoining a residential allotment within a **neighbourhood zone** are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

PO 3.4

Buildings are set back from site boundaries to create a continuous built form to public roads, but to create separation between lower scale and adjoining sensitive receivers.

DTS 3.4

None are applicable.

Land Division

PO 4.1

Land division and site amalgamation facilitates integration of buildings, vehicle parking areas, access points and landscaping.

DTS 4.1

None are applicable.

Advertisements

PO 5.1

Advertisements:

- (a) use simple graphics and are restrained in their size, design and colour; and
- (b) provide an overall consistency along individual street frontages.

DTS 5.1

None are applicable.

PO 5.2

Advertisements along minor streets and laneways include a greater diversity of type, shape, numbers and design provided that they are small in scale and located to present a consistent message band to pedestrians.

DTS 5.2

None are applicable.

Movement and Access

PO 6.1

Vehicle parking areas do not interfere with existing or proposed provision of a comprehensive bicycle and pedestrian path network integrated with networks in adjacent zones.

DTS 6.1

None are applicable.

PO 6.2

Development preserves and enhances open space linkages between public reserves, sport/recreation facilities, walking/cycling paths and community areas.

DTS 6.2

None are applicable.

PO 6.3

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variation Overlay*.

DTS 6.3

None are applicable.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) construction of a building which does not satisfy DTS.DPF 4.1 or 4.2
- (b) construction of or change of use to a retail fuel outlet, hotel, industry or any development defined as 'all other code assessed development' in Education and Innovation Zone Table 3 that is located adjacent to a sensitive receiver.
- (c) shop, office or consulting room in excess of 500m² in gross leasable floor area.

Rehabilitation Sub-Zone

Desired Outcome (DO)

DO 1

A mix of primary land uses including facilities for health and aged care, rehabilitation, education and research along with residential, community, cultural, recreation and small-scale retail activities that meet the daily needs of the residential and visiting population.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria Land Use and Intensity

PO 1.1

Higher intensity activities located towards the centre or the primary focus of the Subzone, such as education, industry, health, commerce and retail, with lower scale development such as residential located at the periphery of the Sub-Zone.

None are applicable.

PO 1.2

Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, community and cultural facilities, and visitor and residential accommodation.

None are applicable.

PO 1.3

Small to medium scale shops, offices and consulting rooms :

- (a) meet the day to day needs for the local community, such as shops, offices, consulting rooms and the like;
- (b) serve the local community, such as educational facilities, child care facility, health and welfare services and the like;
- (c) are part of mixed use or wholly non-residential buildings; and
- (d) contribute to a vibrant mixed use environment. DTS / DPF 1.3

Shops, offices or consulting rooms not exceeding a maximum total gross leasable floor area of 2000m².

PO 1.4

A range of small to medium scale non-residential uses, services and facilities compatible with residential uses that serve the local community, such as educational facilities, child care facility, health and welfare services, community facilities and the like.

None are applicable

PO 1.5

Development of well-designed and diverse medium density accommodation options, including dwellings and supported accommodation.

DTS / DPF 1.5

Residential development (other than residential development in a mixed use building) achieves a net residential density of not less than 40 dwellings per hectare, except where varied by a Concept Plan Technical and Numeric Variation Data Overlay.

PO 1.6

Development in the Subzone applying to the Repatriation Hospital site on the corner of Goodwood and Daws Road primarily incorporates a district hospital along with associated activities comprising:

- (a) An accommodation area in the western part of the site;
- (b) Small scale residential uses on the existing allotments in the northeast and south east corners of the subzone area;
- (c) A health and rehabilitation area in the northern and central parts of the site;
- (d) Commercial, education and innovation area in the southern part of the site adjacent to Daws Road; and
- (e) Mixed use and community area in centre of the site and adjacent to the Goodwood Road primary frontage.

DTS / DPF 1.6

None are applicable

Built Form and Character

PO 2.1

Pedestrian and cycling connections provided to link key land uses within the sub-zone and adjacent zones, including neighbouring residential areas.

None are applicable.

PO 2.2

Buildings setback from the primary street boundaries to contribute to the consistent established streetscape.

DTS / DPF 2.2

Buildings setback from the primary street frontage in accordance with either of the following:

- (a) 6 metres from Flemington Street, Glenside; or
- (b) no minimum; or
- (c) the average of the setback of the existing building on each adjoining site fronting the same street.

Master-planned Suburban Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created <p>Water Resources Overlay</p>	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The carport:</p> <p>(a) is located so that vehicle access:</p> <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>None.</p>
<p>Internal building work</p>	<p>3 There will be no increase in the total floor area of the building</p>

<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay <p>A State Heritage Place identified in the State Heritage Place Overlay</p>	<p>4 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created <p>Water Resources OverlayTBC</p>	<p>1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>2 It is detached from and ancillary to a dwelling erected on the site.</p> <p>3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>5 Total floor area - does not exceed 40m²</p> <p>6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>7 Building height - does not exceed 5m</p> <p>8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>10 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p>

	<p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The garage:</p> <p>(a) is located so that vehicle access:</p> <ol style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ol style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>3 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>96 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>97 It is detached from and ancillary to a dwelling erected on the site</p> <p>98 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>99 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>100 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>101 Total floor area does not exceed 40m²</p>

	<p>102 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>103 Building height - does not exceed 5m</p> <p>104 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>105 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>106 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>71 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>72 Shade sail consists of permeable material</p> <p>73 The total area of the sail - does not exceed 40m²</p> <p>74 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>75 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>76 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p>

	<p>77 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>39 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>40 Panels and associated components do not overhang any part of the roof</p> <p>Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool Swimming pool Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay <p>Water Resources Overlay</p>	<p>51 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>52 It is ancillary to a dwelling erected on the site</p> <p>53 Allotment boundary setback – not less than 1m</p> <p>54 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>55 Location of filtration system from a dwelling on an adjoining allotment:</p> <p style="padding-left: 40px;">(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p>not less than 12m in any other case.</p>
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay <p>Water Resources Overlay</p>	<p>57 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>58 It is ancillary to a dwelling erected on the site</p> <p>59 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>60 Total floor area - does not exceed 40m²</p> <p>61 Post height - does not exceed 3m measured from natural ground level</p> <p>62 Building height - does not exceed 5m</p> <p>63 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p>

	64 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • Sloping Land Overlay <p>Water Resources Overlay</p>	<p>50 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>51 The tank is part of a roof drainage system</p> <p>52 Total floor area - not exceeding 15m²</p> <p>53 The tank is located wholly above ground</p> <p>54 Tank height – does not exceed 4m above natural ground level</p> <p>55 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>56 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay <p>Water Resources Overlay</p>	<p>20 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Nil	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

A new or expanding community with a diverse range of housing that supports a range of needs and lifestyles located within easy reach of a diversity of services, facilities and open space.

DO 2

Activity centres, employment, and community services are established to make the neighbourhood a healthy and convenient place to live.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of residential, recreational, community services and other land uses that support a master planned community.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Ancillary accommodation

Cinema

Community facility

Consulting room

Dwelling

Educational establishment

Emergency services establishment

Health facility

Hotel

Indoor recreation facility

Library

Office

Outbuilding

Place of worship

Pre-school

Public transport terminal

Recreation area

Residential flat building

Restaurant

Retail fuel outlet

Retirement facility

Service trade premises

Shop

Supported accommodation

Tourist accommodation.

PO 1.2

Residential development accommodates a diverse range of housing choices.

DTS/DPF 1.2

None are applicable.

PO 1.3

Land division results in a low-medium density neighbourhood that contains a diverse range of housing types and allotment sizes.

DTS / DPF 1.3

Land division with a gross residential density of up to 45 dwellings per hectare.

PO 1.4

The density of residential development increases closer to open space, public transport, centres and community facilities.

DTS / DPF 1.4

Land division with net residential density above 40 dwellings per hectare located:

- (a) within 200m of an activity centre; or
- (b) abutting or adjacent to public open space greater than 2000m².

PO 1.5

Non-residential uses such as activity centres and community facilities are of a scale to support the anticipated future growth of the surrounding neighbourhood.

DTS / DPF 1.5

None are applicable.

PO 1.6

Suburban Activity Centres are established to provide a range of goods and services to the surrounding neighbourhood.

DTS / DPF 1.6

Development resulting in more than 2000 dwellings includes Suburban Activity Centres with primary retail catchments of 2000 – 3999 dwellings.

PO 1.7

Urban Activity Centres are established to provide a range of goods and services to the surrounding district.

DTS / DPF 1.7

Development resulting in more than 4000 dwellings includes Urban Activity Centres with primary retail catchments of 4000 – 25,000 dwellings.

Coordinated and Orderly Development

PO 2.1

Where land ownership is fragmented, land division and infrastructure occur in a coordinated manner and orderly sequence.

DTS 2.1

None are applicable

PO 2.2

Development and infrastructure are staged and provided in a manner that supports an orderly expansion of urban areas and the economic provision of infrastructure and services.

DTS/DPF 2.2

None are applicable.

Activity Centres and Community Facilities

PO 3.1

Community facilities such as schools, community centres, recreation centres and public open space are located within activity centres or co-located with complimentary uses to reinforce their role as a focal point for community.

DTS/DPF 3.1

None are applicable.

PO 3.2

Activity centres and community facilities are located and distributed to maximise convenient access to shopping and services.

DTS/DPF 3.2

None are applicable.

PO 3.3

Activity centres and community facilities are located and designed to maximise accessibility by public transport, walking and cycling.

DTS/DPF 3.3

None are applicable.

PO 3.4

Activity centres are established in locations that improve accessibility and exposure such as:

- (a) at an intersection of higher order roads and main movement routes;
- (b) locations that have the highest residential density and pedestrian catchment; or
- (c) adjacent high frequency public transport.

DTS/DPF 3.4

None are applicable

PO 3.5

Non-residential development grouped together to create activity centres.

DTS/DPF 3.5

Non-residential development:

- (a) does not exceed 250m² in gross leasable floor area; or
- (b) is established in activity centres with a gross leasable floor area of at least 1500m².

PO 3.6

A range of low-to-medium rise buildings within Activity Centres, with the highest intensity of built form sited away from residential development, and lower scale development at the interface with residential development.

DTS/DPF 3.6

Buildings within Activity Centres not exceeding the following maximum building heights:

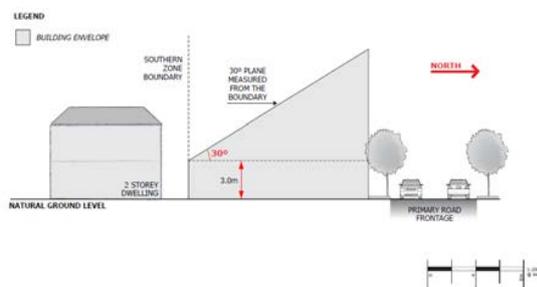

- (a) where the development is located on land adjacent to a residential allotment, 3 storeys or 12 metres; and
- (b) in all other cases 6 storeys or 22 metres.

PO 3.7

Buildings adjacent to allotments intended to accommodate sensitive receivers are sited and designed to minimise visual impacts from building bulk.

DTS/DPF 3.7

Buildings constructed within a building envelope provided by a 45 degree plane, measured from a height of 3 metres above natural ground level at the allotment boundary of an allotment primarily intended to accommodate sensitive receivers (except where this boundary is a southern boundary), as shown in the following diagram:

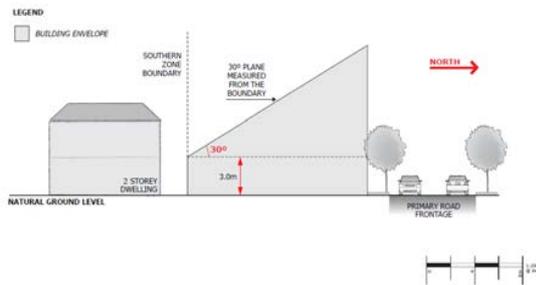

PO 3.8

Buildings that are constructed within a defined building envelope and constructed to minimise overshadowing of sensitive receivers outside the zone.

DTS / DPF 3.8

Buildings that are constructed within a building envelope provided by a 30 degree plane grading north, measured from a height of 3m above natural ground level at the southern zone boundary adjoining a

residential allotment within a different zone, as shown on the following diagram:

Open Space

PO 4.1

The size and distribution of open space encourages recreation and healthy lifestyles.

DTS/DPF 4.1

80% of allotments created for residential purposes are located within a 400m walk of open space that has a minimum area of 1.5 hectares.

PO 4.2

The quality of open space encourages recreation and healthy lifestyles by including a variety of attractive features such as walking and cycling trails, play spaces, water features (including watercourses and constructed wetlands), irrigated recreation spaces, sporting infrastructure or public art.

DTS 4.2

None are applicable.

Building Height

PO 5.1

Residential buildings contribute to a low-medium rise residential character and complement the height of nearby buildings.

DTS/DPF 5.1

Dwellings outside of Activity Centres do not:

- exceed a maximum building height of 3 levels and 12m; and
- have a wall height exceeding 12 metres for a gable ended wall; or
- have a wall height exceeding 10 metres for any other wall.

Primary Street Setback

PO 6.1

Buildings are setback from primary street boundaries to complement the existing streetscape character.

DTS/DPF 6.1

Except where a building faces an allotment created for a non-residential purpose and where vehicle access is provided to the rear of the allotment (in which case no setback is acceptable), buildings are setback from the primary street:

- 8m or more along the frontage of an arterial road (except where a landscaped road reserve buffer exists);

- (b) 3m or more along all other road frontages; and
- (c) 1.5m or more adjacent a public reserve that has an area greater than 2000m².

Secondary Street Setback

PO 7.1

Buildings are setback from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 7.1

Dwellings are setback at least 900mm from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 8.1

Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 8.1

Dwelling walls on side boundaries either:

- (a) adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height; or
- (b) do not exceed:
 - i. 3 metres in height;
 - ii. 10 metres in length; and

will not result in boundary walls on more than 45% of the total length of the side boundary.

PO 8.2

Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 8.2

Dwellings in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side Boundary Setback

PO 9.1

Buildings are setback from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality; and
- (b) access to natural light and ventilation for neighbours.

DTS/DPF 9.1

Buildings not sited on side boundaries setback from the side boundary:

- (a) 900 mm for a wall height less than 3 metres; and
- (b) 900mm plus 1/3 of the wall height above 3m.

Rear Boundary Setback

PO 10.1

Buildings are setback from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and
- (d) space for landscaping and vegetation.

DTS/DPF 10.1

Buildings are setback from the rear boundary at least:

- (a) 3m for the first building level;
- (b) 5m for any second building level; and
- (c) 5m plus any increase in wall height over 7m.

Site Dimensions and Land Division

PO 11.1

Allotments created for residential purposes that are of a suitable size and dimension and accommodate a diverse range of housing choices.

DTS 11.1

None are applicable.

PO 11.2

Allotments created for residential purposes are a suitable size and dimension to accommodate dwellings that are functional and provide a high standard of residential amenity for occupants.

DTS 11.2

None are applicable

Land Division Layout

PO 12.1

Street patterns and pedestrian and cycle connections designed to reduce travel distances to open space, public transport, activity centres and community facilities and assist to create low speed environments in local streets.

DTS 12.1

None are applicable.

Tree Canopy

PO 13.1

Tree planting provided on public streets and public open space to create a comfortable micro-climate and improve the amenity of the neighbourhood.

DTS 13.1

None are applicable.

Concept Plans

PO 14.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay.

DTS/DPF 14.1

None are applicable.

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Master Planned Neighbourhood Zone Table 3
- (c) non residential development that do not satisfy DTS/DPF 3.6, 3.5, 3.7 or 3.8
- (d) dwellings that do not satisfy DTS/DPF 5.1, 6.1, 7.1, 8.1, 9.1 or 10.1

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Motorsport Park Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Advertisements	1 The development does not exceed 10m in height 2 The development is setback at least 10m from an arterial road 3 The development is associated with a business or activity within the Zone 4 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 5 The development would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>
Carport Except where any of the following apply: <ul style="list-style-type: none"> Urban Transport Routes Overlay where an existing access is altered or a new access is created 	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The development would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>
Demolition	None.
Dwelling addition	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The development would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>
Internal building work	5 There will be no increase in the total floor area of the building 6 There will be no alteration to the external appearance of the building.
Museum Except where any of the following apply: <ul style="list-style-type: none"> Urban Transport Routes Overlay where an 	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system

existing access is altered or a new access is created	2	The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996
<p>Outbuilding (in the form of a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Urban Transport Routes Overlay where an existing access is altered or a new access is created 	1 2 3	<p>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></p> <p>The garage is located so that vehicle access is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land;</p>
Outbuilding (not being a garage)	1 2	<p>The development is sited within a recreation area will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996</p>
Shade sail	1 2	<p>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996</p>
Solar photovoltaic panels (roof mounted)	1 2	<p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996</p> <p>Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
Spa pool Swimming pool	1 2	<p>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996</p>
Verandah	1 2	<p>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996</p>

Water tank (above ground)	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The development would not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
None	

Assessment Provisions (AP)

Desired Outcomes (DO)

DO 1

Development primarily for and associated with state-of-the-art motorsport facilities including sealed and non-sealed racing circuits and strips, spectator facilities and services and accommodation for visitors, event participants, motoring enthusiasts and workers.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Multi-discipline motorsport facilities and a complementary range of logistical, industry, motor vehicle service, tourist and spectator facilities, and associated administrative functions contributing to the zone as a destination for motorsport events, racing enthusiasts, event spectators and innovation in motorsports.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Development comprises one or more of the following land uses:

Advertisement

Driver Training facility

Function centre

Indoor recreation facility

Industry and commercial activities in an industry precinct including motorsport industry and support (i.e. repairs, tyres, fuelling, car and truck parking and storage, electronics, mechanical, design and manufacture)

Motorsport tracks, racing circuits, drag strips, test tracks, pits, workshops, control tower and ancillary facilities)

Office in association with another non-residential use

Parking areas ancillary to and in association with circuits, strips and track facilities

Petrol filling station

Shop (excluding bulky goods)

Tourist accommodation

Workers accommodation

PO 1.2

Shops complementing motorsport and tourist activities and events to enhance services and amenities for the zone's motorsport industry workers, event spectators and motor enthusiasts at a scale that does not detract from the role of shopping and business services in the nearby town of Taillem Bend.

DTS/DPF 1.2

Shop:

- (a) is not a bulky goods outlet;
- (b) is ancillary to and in association with a motorsport circuit, strip and track facilities;
- (c) having a gross leasable floor area not exceeding 250m² where not ancillary to and in association with a motorsport circuit, strip and track facilities.

PO 1.3

Shops not integrated with motorsport circuit, strip and track facilities are clustered with other business activities near the main western entrance to the zone from Dukes Highway to aggregate services for the convenience of industry workers, visiting motor enthusiasts, tourists and event spectators.

DTS/DPF 1.3

None are applicable.

PO 1.4

Alterations or extensions to a motorsport circuits or strip do not unreasonably impact the amenity of existing dwellings on land in an adjacent zone.

DTS/DPF 1.4

Motorsport circuit or strip (including alterations and extensions) does not encroach closer to a relevant boundary of the zone or an existing dwelling in an adjacent zone than any existing relevant circuit or strip.

PO 1.5

Dwellings for residential purposes limited to those within defined residential areas within the zone.

DTS 1.5

Dwelling located on an allotment authorised in a plan of division which is intended to be used for residential purposes

PO 1.6

Dwellings in the form of workers accommodation are associated with and ancillary to motorsport facilities or tourist accommodation for the efficient management, maintenance and support of those non-residential uses.

DTS/DPF 1.6

Dwelling in association with and ancillary to motorsport facilities or tourist accommodation:

- (a) located on the same allotment as the non-residential use;
- (b) is to be used as workers accommodation.

PO 1.7

Dwellings providing accommodation for non-workers are ancillary to a non-residential use in the same building to provide an alternative and temporary means of accommodation for motorsport enthusiasts and the like without hindering motorsport and related activities within the zone.

DTS/DPF 1.7

None are applicable.

PO 1.8

Retail fuel outlets which do not hinder the movements of public roads and which do not have adverse impacts upon the environment.

DTS 1.8

A retail fuel outlet (including additions and alterations)

- (a) utilises an existing access to a public road
- (b) has received any required licences under the Environment Protection Act and are provided with the application

Built Form and Character

PO 2.1

Buildings and main activity areas are setback from zone boundaries to moderate the appearance of buildings within the predominant open landscape setting and accommodate provision for landscaping, or landscaping and mounding, to enhance the appearance of the zone when viewed from adjacent areas and public roads.

DTS/DPF 2.1

None are applicable.

PO 2.2

Spectator viewing structures are setback from zone boundaries and use finishes to moderate the appearance of structures to enhance the appearance of the zone when viewed from adjacent areas and public roads.

DTS 2.2

Spectator viewing structures:

- (a) do not exceed 10m in height
 - (b) structures are setback at least 20m from the zone boundaries
- utilise non-reflective materials and finishes.

Land Division

PO 3.1

Land division:

Assists in the more efficient operation and use of the motorsport facilities.

DTS/DPF 3.1

None are applicable

Advertisements

PO 4.1

Freestanding advertisements providing information about motorsport facilities and / or events are of a suitable scaled to clearly identify the main public entranceways to those motorsport facilities from major public roads.

DTS/DPF 4.1

None are applicable

Road and vehicle parking areas

PO 5.1

Roadways, internal driveways and vehicle parking areas (except overflow parking areas for events) designed and surfaced to control dust emissions to reduce impacts on adjacent land uses.

DTS/DPF 5.1

Roadways and vehicle parking areas are sealed.

PO 5.2

Vehicle parking for motorsport events located on the same allotment as the motorsport circuit or strip to cater for the expected maximum number of users and spectators unless suitable overflow parking areas are available on an adjacent site to support convenient parking for event goers and do not cause undue disruption for other land users in the locality.

DTS/DPF 5.2

None are applicable

Landscaping

PO 6.1

Existing vegetation along external boundaries of the zone retained and supplemented to assist in screening buildings in the zone and improve the amenity of the locality when viewed from public roads and adjacent land in another zone.

DTS/DPF 6.1

None are applicable.

Procedural Matters (PM)

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Specific Use (Motorsport Park) Zone Table 3
- (c) Shop greater than 500m² where not ancillary to and in association with:
 - (i) a motorsport circuit, strip or, track;
 - (ii) industry; or
 - (iii) tourist accommodation.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Open Space Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

<ul style="list-style-type: none"> • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay 	<p>None.</p>

<ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.

Class of Development

Applicable Policies

The following provisions are applicable to the assessment of the identified Class of Development.

Provisions referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development.

Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

All

None

All

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Nil	

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Areas of natural and landscaped open space that provide visual relief to the built environment for the enjoyment of the community.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development is associated with or ancillary to the provision of unstructured outdoor passive and active recreation facilities.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Open space
- Outdoor sports courts
- Recreation area
- Sporting ovals and fields

PO 1.2

Buildings are limited in number and size to provide a natural, landscaped setting.

DTS/DPF 1.2

None are applicable.

PO 1.3

Shops including restaurants are of a scale that is subordinate to the principal open space and recreation use of the land.

DTS/DPF 1.3

Shop gross leasable floor area does not exceed 50m².

PO 1.4

Offices are of a scale that is subordinate to the principal open space use of the land.

DTS/DPF 1.4

Office gross leasable floor area does not exceed 80m².

Built Form and Character

PO 2.1

Development sited unobtrusively so as not to spoil the open space character or interrupt views of natural or landscape features.

DTS/DPF 2.1

None are applicable.

PO 2.2

Playgrounds are ancillary to and enhance enjoyment of areas of open space.

DTS/DPF 2.2

Playgrounds:

- (a) do not occupy more than 200m² in area; and
- (b) have a building height that does not exceed 3m.

PO 2.3

Outbuildings are of a scale that mitigates visual impacts of buildings on natural or landscape features.

DTS/DPF 2.3

Outbuildings have a:

- (a) floor area that does not exceed 80m²;
- (b) wall height that does not exceed 3m; and
- (c) building height that does not exceed 5m.

Land Division

PO 3.1

Land division supports the provision of open space

DTS/DPF 3.1

Land division is for the purposes of:

- (a) the creation of a public road or a public reserve; or
- (b) a minor adjustment of allotment boundaries to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures.

Procedural Matters

Notification of Performance assessed development

Performance assessed development is excluded from notification except where it involves any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) any development that is identified (either partly or wholly) as 'All other Code Assessed Development' in Open Space Zone - Table 3.

Peri-Urban Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created 	13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 14 It is ancillary to a dwelling erected on the site 15 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 16 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 17 Total floor area - does not exceed 40m ² 18 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 19 Building height - does not exceed 5m 20 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 21 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Protection Area Overlay • Water Resources Overlay 	<p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>22 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>23 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>24 The carport:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
Demolition Except where any of the following apply: <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	None.
Farming	1 There is no excavation or filling of land 2 Does not involve the erection, construction or alteration of, or addition to, any building or structure 3 Does not involve the clearance of native vegetation
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	7 There will be no increase in the total floor area of the building 8 There will be no alteration to the external appearance of the building.

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Outbuilding (in form of garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created 	<p>13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>14 It is detached from and ancillary to a dwelling erected on the site.</p> <p>15 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>16 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>17 Total floor area - does not exceed 60m²</p> <p>18 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>19 Building height - does not exceed 5m</p> <p>20 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>21 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>22 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>23 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>24 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>25 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay 	<p>107 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>108 It is detached from and ancillary to a dwelling erected on the site</p> <p>109 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>110 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>111 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>112 Total floor area does not exceed 60m²</p> <p>113 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>114 Building height - does not exceed 5m</p> <p>115 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>116 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>117 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay 	<p>24 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>25 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>26 Secondary street setback – at least 900mm from the boundary of the allotment</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>27 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Protective tree netting structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<p>22 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>23 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)</p> <p>24 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour</p> <p>25 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:</p> <ul style="list-style-type: none"> (g) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (h) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site <p>26 No part of the netting canopy of the protective tree netting structure:</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>(g) will cover native vegetation; or (h) will be within 5m of a road (including any road reserve)</p> <p>27 The points of attachment of any cables will not be located: (g) outside the boundaries of the site; or (h) within a watercourse (within the meaning of the Natural Resources Management Act 2004)</p> <p>28 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following: (f) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (g) in any other case, no part of the netting canopy is within 15m of the dwelling.</p>
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>78 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>79 Shade sail consists of permeable material</p> <p>80 The total area of the sail - does not exceed 40m²</p> <p>81 No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>82 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>83 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	84 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	41 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 42 Panels and associated components do not overhang any part of the roof 43 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay • State Significant Native Vegetation Overlay 	1 The system is freestanding rather than attached to a building or other structure. 2 No part of the system: <ol style="list-style-type: none"> (a) is more than 4 metres in height (measured as a height above the natural surface of the ground); (b) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (c) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 3 The generating capacity of the system does not exceed 30 kW 4 Does not result in the clearance of any native vegetation.

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dairy where located in the Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay	
Intensive Animal Husbandry where located in the Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay	
Land Division within the Limited Land Division Overlay	Except where it involves a boundary realignment
Landfill	
Shop	Except where: <ul style="list-style-type: none"> (a) it is ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region; or (b) it has a gross leasable floor area less than 250m²; or (c) it is a restaurant.
Stock sales yard	
Stock slaughter works	
Special industry	
Windfarm	

Assessment Provisions

Desired Outcomes (DO)

DO 1

A diverse range of land uses at an appropriate scale and intensity that capitalise on the region's proximity to the metropolitan area and the tourist and lifestyle opportunities this presents while also conserving the natural and rural character, identity, biodiversity and scenic qualities of the landscape.

DO 2

A zone that promotes agriculture, horticulture, value adding opportunities, farm gate businesses, the sale and consumption of agricultural based products, tourist development and accommodation that expands the economic base and promotes its regional identity.

DO 3

Create local conditions that support new and continuing investment while seeking to promote co-existence with adjoining activities and mitigate land use conflicts.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The productive value of rural land for a range of primary production and horticultural activities and associated value adding of primary produce (such as beverage production), retailing and tourism is supported, protected and maintained. The proliferation of land uses that may be sensitive to those activities is avoided.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Agricultural building
- (c) Brewery
- (d) Carport
- (e) Cidery
- (f) Distillery
- (g) Demolition
- (h) Detached dwelling
- (i) Dwelling addition
- (j) Excavation and filling
- (k) Farming
- (l) Fence
- (m) Horse keeping
- (n) Horticulture
- (o) Industry
- (p) Low intensity animal husbandry
- (q) Outbuilding
- (r) Shop
- (s) Small-scale ground mounted solar power facility
- (t) Tourist accommodation
- (u) Transport distribution
- (v) Verandah

- (w) Warehouse
- (x) Workers' accommodation
- (y) Winery

Siting and Design

PO 2.1

Development is provided with suitable vehicle access.

DTS/DPF 2.1

Development is serviced by an all-weather trafficable public road.

PO 2.2

Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.

DTS/DPF 2.2

Buildings:

- (a) are sited on land with a slope not greater than 10% (1-in-10); and
- (b) do not result excavation and filling of land that is greater than 1.5 metres from natural ground level.

Horticulture

PO 3.1

Horticulture is located and conducted on land that has the physical capability of supporting the activity and in a manner that:

- (a) enhances the productivity of the land for the growing of food and produce in a sustainable manner;
- (b) avoids adverse interface conflicts with other land uses;
- (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality;
- (d) is sympathetic to surrounding rural landscape character and amenity, where horticulture is proposed to be carried out in an enclosed building such as such as greenhouses.

DTS/DPF 3.1

Horticultural activities:

- (a) are conducted on an allotment with an area of at least 1ha;
- (b) are sited on land with a slope not greater than 10% (1-in10);
- (c) are not conducted within 50m of a watercourse or native vegetation;
- (d) do not involve the clearance of native vegetation;
- (e) about an existing horticulture activity;
- (f) are not conducted within 100m of a sensitive receiver in other ownership;
- (g) provide for a headland area between plantings and property boundaries of at least 10m in width; and
- (h) where carried out in an enclosed building such as a greenhouse, the building has a total floor area not greater than 250m²;
- (i) in the form of olive growing, is not located within 500 metres of a conservation or national park.

Rural Industry

PO 4.1

Industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, transport distribution or similar activities:

- (a) are directly related to and add value to primary production and/or commodities and materials sourced from rural areas; and
- (b) realise efficiencies in primary production.

DTS/DPF 4.1

Industries, storage, warehousing and transport distribution activities:

- (a) are directly related to and ancillary to a primary production use on the same or adjoining allotment;
- (b) are located on an allotment not less than 2ha in area;
- (c) have a total floor area not exceeding 250m².

PO 4.2

Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that maintains rural function and character in a manner that respects landscape amenity.

DTS/DPF 4.2

Buildings and associated activities:

- (a) are setback at least 50m from all road and allotment boundaries;
- (b) are not sited within 100m of a sensitive receiver in other ownership;
- (c) have a building height not greater than 10m above natural ground level; and
- (d) incorporate the loading and unloading of vehicles within the confines of the allotment.

Dwellings

PO 5.1

Residential development is designed and sited so that it does not compromise primary production, horticultural or other land use activities supported by the Zone.

DTS/DPF 5.1

Dwellings:

- (a) will not result in more than one dwelling on an allotment; and
- (b) where the Minimum Allotment Size Technical and Numeric Variation Overlay applies are:
 - a. located on an allotment with an area not less than that specified in the Minimum Allotment Size Technical and Numeric Variation Overlay; and
 - b. located on and have a demonstrated connection with an allotment used for primary production or value adding.

PO 5.2

Dwelling are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.

DTS/DPF 5.2

Dwellings:

- (c) are setback from all allotment boundaries by at least 40m;
- (d) do not exceed 2 building levels and 9 metres measured from the top of the footings; and
- (e) have a wall height is no greater than 6 metres.

PO 5.3

Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 5.3

Additions or alterations to an existing dwelling:

- (a) are setback behind the main façade of the existing dwelling;
- (b) do not exceed 2 building levels and 9 metres measured from the top of the footings; and
- (c) have a wall height that is no greater than 6 metres from the top of the footings.

Shops, Tourism and Function Centres

PO 6.1

Shops are associated with an existing primary production or value adding industry.

DTS/DPF 6.1

Shop:

- (a) are ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding;
- (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region;
- (c) have a gross leasable floor area not exceeding 100m²;
- (d) have an area for the display of produce or goods external to a building not exceeding 25m²;
- (e) in the form of a restaurant, do not result in more than 75 seats for customer dining purposes.

PO 6.2

Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 6.2

Shops in new buildings:

- (a) are setback from all property boundaries by at least 20m;
- (b) are not sited within 100m of a sensitive receiver in other ownership;
- (c) have a building height that does not exceed 9m above natural ground level;

PO 6.3

Tourist accommodation is associated with the primary use of the land for primary production or value adding industry.

DTS/DPF 6.3

Tourist accommodation:

- (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) in relation to the area used for accommodation, does not exceed 100m²;
- (c) does not result in more than one facility being located on the same allotment.

PO 6.4

Tourist accommodation proposed in a new building or buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 6.4

Tourist accommodation in new buildings:

- (a) is setback from all property boundaries by at least 40m; and

- (b) have a building height that does not exceed 7m above natural ground level.

PO 6.5

Function centres are associated with the primary use of the land for primary production or value adding industry.

DTS/DPF 6.5

Function centres:

- (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) do not result in more than 75 seats for customer dining purposes.

PO 6.6

Function centres are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.

DTS/DPF 6.6

Function centres:

- (a) are located on an allotment having an area of at least 5ha;
- (b) are setback from all property boundaries by at least 40m;
- (c) are not sited within 100m of a sensitive receiver in other ownership; and
- (d) have a building height that does not exceed 9m above natural ground level.

Offices

PO 7.1

Offices are directly related to and associated with the primary use of the land for primary production or value adding industry

DTS/DPF 7.1

Offices:

- (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) have a gross leasable floor area not exceeding 100m².

Adaptive Reuse of Existing Buildings

PO 8.1

Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.

DTS/DPF 8.1

Development within an existing building is for:

- (a) a shop;
- (b) office; or
- (c) tourist accommodation.

Workers' Accommodation

PO 9.1

Workers' accommodation provides short-term accommodation for persons temporarily engaged in the production, management or processing of primary produce.

DTS/DPF 9.1

Workers' accommodation:

- (a) is developed on a site at least 2ha in area;
- (b) has a total floor area not exceeding 250m²;
- (c) is in the form of a single building or part of a cluster of buildings that are physically connected;
- (d) amenities accommodate not more than 20 persons at any one time;
- (e) is setback at least 50m from a road boundary;
- (f) is setback at least 40m from a side or rear allotment boundary;
- (g) is located within 20m of an existing dwelling on the same allotment; and
- (h) does not result in more than one facility being located on the same allotment.

Renewable Energy Facilities

PO 10.1

Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.

DTS/DPF 10.1

None are applicable.

PO 10.2

Small-scale ground mounted solar power facilities support rural production or value-adding industries.

DTS/DPF 10.2

Solar power facilities:

- (a) does not generate more than 30KW;
- (b) generates power which is to be used wholly in association with a primary production industry, a value adding industry or local infrastructure facility on the same allotment;
- (c) do not have a panel size exceeding 80m² or 4m in height per structure;
- (d) do not involve more than 2 panel structures per allotment;
- (e) are setback at least 10m from adjoining allotments in other ownership; and
- (f) are not located within 100m of a dwelling in other ownership.

Built Form and Character

PO 11.1

Large buildings designed and sited to reduce impacts on scenic and rural vistas by:

- (a) having substantial setbacks from boundaries and adjacent public roads;
- (b) using low reflective materials and finishes that blend with the surrounding landscape; and
- (c) being located below ridgelines.

DTS/DPF 11.1

None are applicable.

Land Division

PO 12.1

Land division creating additional allotments is not supported.

DTS/DPF 12.1

No additional allotments are created.

Agricultural Buildings

PO 13.1

Agricultural buildings and associated activities are sited, designed and of a scale that maintains rural character and function and respects landscape amenity.

DTS/DPF 13.1

Agricultural buildings:

- (a) are located on an allotment having an area of at least 2ha;
- (b) are setback at least 40m from an allotment boundary;
- (c) have a building height not exceeding 10m above natural ground level;
- (d) do not exceed 200m² in total floor area; and
- (e) incorporate the loading and unloading of vehicles within the confines of the allotment.

Outbuildings, Carports and Verandahs

PO 14.1

Outbuildings are sited, designed and of a scale that maintain a pleasant natural and rural character and amenity.

DTS/DPF 14.1

Outbuildings:

- (a) have a primary street setback that is at least as far back as the building to which it is ancillary;
- (b) have a total floor area that does not exceed 100m²;
- (c) have walls that do not exceed 5m in height measured from natural ground level and not including a gable end;
- (d) have a total roof height that does not exceed 6m measured from natural ground level; and
- (e) are limited to no more than 2 outbuildings on the same allotment.

PO 14.2

Carports and verandahs are sited, designed and of a scale that maintain a pleasant natural and rural character and amenity.

DTS/DPF 14.2

Carports and verandahs have a:

- (a) primary street setback that is at least as far back as the building to which it is ancillary;
- (b) total floor area that does not exceed 80m²;
- (c) post height that does not exceed 3m measured from natural ground level and not including a gable end; and
- (d) total roof height that does not exceed 5m measured from natural ground level.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent to land in a different zone
- (b) development identified as "all other code assessed development" in Rural (Mount Lofty Ranges) Zone Table 3
- (c) detached dwelling where located within
- (d) function centre
- (e) industry, storage and/or warehousing with a floor area greater than 250m²
- (f) renewable energy facilities other than a solar power facility that does not generate more than 30KW
- (g) shop with a gross leasable area greater than 200m²
- (h) tourist accommodation with a total floor area greater than 200m²
- (i) wind farm
- (j) wind monitoring mast
- (k) workers accommodation

Recreation Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

<p>is altered or a new access is created</p> <ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay 	<p>None.</p>

<ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>9 There will be no increase in the total floor area of the building</p> <p>10 There will be no alteration to the external appearance of the building.</p>
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access 	<p>26 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>27 It is detached from and ancillary to a dwelling erected on the site.</p> <p>28 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>29 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>30 Total floor area - does not exceed 40m²</p> <p>31 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>32 Building height - does not exceed 5m</p> <p>33 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>34 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p>

<p>is altered or a new access is created</p> <ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>35 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>36 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>37 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>38 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>39 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay 	<p>118 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>119 It is detached from and ancillary to a dwelling erected on the site</p> <p>120 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p>

<ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>121 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>122 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>123 Total floor area does not exceed 40m²</p> <p>124 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>125 Building height - does not exceed 5m</p> <p>126 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>127 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>128 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>129 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<p>85 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>86 Shade sail consists of permeable material</p> <p>87 The total area of the sail - does not exceed 40m²</p> <p>88 No part of the shade sail will be:</p> <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment

<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>89 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>90 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>91 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>44 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>45 Panels and associated components do not overhang any part of the roof</p> <p>46 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Water Resources Overlay 	<p>72 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>73 It is ancillary to a dwelling erected on the site</p> <p>74 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>75 Total floor area - does not exceed 40m²</p> <p>76 Post height - does not exceed 3m measured from natural ground level</p> <p>77 Building height - does not exceed 5m</p> <p>78 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>79 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</p>
<p>Water tank (above ground) Except where any of the following apply:</p>	<p>71 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>72 The tank is part of a roof drainage system</p>

<ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>73 Total floor area - not exceeding 15m²</p> <p>74 The tank is located wholly above ground</p> <p>75 Tank height – does not exceed 4m above natural ground level</p> <p>76 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>77 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>26 The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Deemed-to-Satisfy Development Classification Criteria			
	Provisions referred to are Deemed-to-Satisfy Criteria Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 4 – Restricted Development Classification

Class of Development
The following Classes of Development are classified as Restricted
None Specified

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Provision of a range of accessible recreational facilities.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development is associated with or ancillary to the provision of structured, unstructured, active and / or passive recreational facilities.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Change rooms
- Golf course
- Indoor recreation facility
- Open space
- Outdoor sports courts
- Recreation area
- Sporting clubrooms
- Sporting ovals and fields

PO 1.2

Shops including restaurants are of a scale that is subordinate to the principal recreational use of land.

DTS/DPF 1.2

Shop gross leasable floor area does not exceed 80m².

PO 1.3

Offices are of a scale that is subordinate to the principal recreational use of land.

DTS/DPF 1.3

Office gross leasable floor area does not exceed 80m².

Built Form and Character

PO 2.1

Buildings designed and sited to manage visual impacts.

DTS/DPF 2.1

Buildings are set back:

- (a) 50m or greater from a primary street frontage; and
- (b) 50m from the boundary of an allotment containing, or zoned to primarily accommodate, a sensitive receiver in other ownership.

PO 2.2

Outbuildings of a scale that manages visual impacts.

DTS/DPF 2.2

Outbuildings have a:

- (a) floor area that does not exceed 80m²;
- (b) wall height that does not exceed 3m; and
- (c) building height that does not exceed 5m.

Land Division

PO 3.1

Land division supports the provision of recreational facilities

DTS/DPF 3.1

Land division is for the purposes of:

- (a) the creation of a public road or a public reserve; or
- (b) a minor adjustment of allotment boundaries to remove an anomaly in existing boundaries with respect to the location of existing buildings or structures.

Concept Plans

PO 4.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variation Overlay*.

DTS 4.1

None are applicable.

Procedural Matters (PM)

Notification of Performance assessed

Performance assessed development is excluded from notification except where it involves any of the following:

- (a) the development is located adjacent to the boundary of a zone that primarily intends to accommodate sensitive receivers; or
- (b) the development falls within the category of 'all other code assessed development' in Recreation Zone - Table 3.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Remote Areas Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	11 Building work is associated with a railway 12 It is situated (or to be situated) on railway land 13 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Shipwrecks Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access 	66 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 67 It is ancillary to a dwelling erected on the site 68 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 69 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 70 Total floor area - does not exceed 60m ² 71 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 72 Building height - does not exceed 5m 73 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>is altered or a new access is created</p> <ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>74 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>75 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>76 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>77 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	78 The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	11 There will be no increase in the total floor area of the building 12 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a Garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Shipwrecks Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay 	1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site. 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 60m ² 6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>10 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 The garage:</p> <p>ois located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<ul style="list-style-type: none"> o is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and o The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access <p>13 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Outbuilding (not being a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Shipwrecks Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site 3 Primary street setback – at least as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Side boundary setbacks – at least 900mm from the boundary of the allotment 6 Total floor area does not exceed 60m² 7 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 8 Building height - does not exceed 5m 9 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>10 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>28 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Shipwrecks Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>30 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>31 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>32 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Protective tree netting structure</p>	<p>29 development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • State Heritage Area Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<p>30 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)</p> <p>31 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour</p> <p>32 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:</p> <ul style="list-style-type: none"> (i) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (j) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site <p>33 No part of the netting canopy of the protective tree netting structure:</p> <ul style="list-style-type: none"> (i) will cover native vegetation; or (j) will be within 5m of a road (including any road reserve) <p>34 The points of attachment of any cables will not be located:</p> <ul style="list-style-type: none"> (i) outside the boundaries of the site; or (j) within a watercourse (within the meaning of the Natural Resources Management Act 2004) <p>35 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <ul style="list-style-type: none"> (h) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	(i) in any other case, no part of the netting canopy is within 15m of the dwelling.
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Historic Shipwrecks Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	92 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 93 Shade sail consists of permeable material 94 The total area of the sail - does not exceed 40m ² 95 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 96 Primary street setback – at least as far back as the building line of the building to which it is ancillary 97 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 98 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted)	47 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 48 Panels and associated components do not overhang any part of the roof

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>49 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Solar photovoltaic panels (ground mounted)</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • River Murray Flood Plain Overlay • Significant Landscape Protection Overlay • State Significant Native Vegetation Overlay • RAMSAR Wetlands Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>5 The system is freestanding rather than attached to a building or other structure. 6 No part of the system: (c) is more than 4 metres in height (measured as a height above the natural surface of the ground); (d) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (e) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 7 The generating capacity of the system does not exceed 30 kW. 8 Does not result in the clearance of any native vegetation</p>
<p>Spa pool Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay 	<p>61 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 62 It is ancillary to a dwelling erected on the site 63 Allotment boundary setback – not less than 1m 64 Primary street setback – at least as far back as the building line of the building to which it is ancillary 65 Location of filtration system from a dwelling on an adjoining allotment:</p>

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate soils) Overlay
- Historic Shipwrecks Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Ramsar Wetlands Overlay
- Sloping Land Overlay
- Water Resources Overlay.

Any of the following where it is located within the boundary of a mining settlement associated with an approved mining lease that has been granted final development approval:

- Accommodation units
- Building or building work
- Bus terminal
- Car parking area
- Commercial development
- Community facility
- Industry
- Infrastructure
- Office

None

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted	
None Specified	

Assessment Provisions

Desired Outcome (DO)

DO 1

A diverse range of activities from pastoral, grazing and farming activities, agricultural processing and transportation, mining and petroleum (and associated settlement activities), the generation and storage of energy, pipelines or infrastructure, aerospace and defence related facilities (and associated settlement activities), tourism, remote settlements, Aboriginal lands and related rural land activities.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The productive value of land for a range of rural activities.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Agricultural building
- (c) Carport
- (d) Demolition
- (e) Detached dwelling
- (f) Dwelling addition
- (g) Excavation and filling
- (h) Farming
- (i) Intensive animal husbandry
- (j) Outbuilding
- (k) Small-scale ground mounted solar power facility
- (l) Solar farm
- (m) Stock sales yard
- (n) Stock slaughter works
- (o) Tourist accommodation
- (p) Verandah
- (q) Wind farm

Built Form and Character

PO 2.1

Development sited and designed to protect natural features and the conservation value of the area.

DTS/DPF 2.1

None are applicable.

PO 2.2

Large buildings designed and sited to reduce impacts on scenic and rural vistas by:

- (d) having substantial setbacks from boundaries and adjacent public roads
- (e) using low reflective materials and finishes that blend with the surrounding landscape; and
- (f) being located below ridgelines where practicable.

DTS/DPF 2.2

Building are:

- (a) of a height no greater than 2 building levels and 9m; and
- (b) setback at least 40m from any allotment boundary or public road.

Hazard Risk Minimisation

PO 3.1

Habitable buildings designed and sited to manage the risks of natural hazards on personal and public safety and property.

DTS/DPF 3.1

None are applicable.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Remote Areas Zone Table 3
- (c) wind farm and ancillary development including electricity substation, maintenance sheds, access roads, and connecting power-lines where the base of any wind turbine is 2,000m or less from:
 - (i) an existing dwelling or tourist accommodation that is not associated with the wind farm;
 - (ii) a proposed dwelling or tourist accommodation for which an operable planning consent exists;
 - (iii) the boundaries of any airfield, airport, Local Infrastructure (Airfield) Zone, Settlement Zone, Township Zone or any State Heritage Area Overlay;
- (d) wind monitoring mast and ancillary development.

Residential Park Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created Water Resources Overlay	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>would be adjacent to or abut the proposed wall or structure</p> <p>10 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>11 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>12 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>13 The carport:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
Demolition Except where any of the following apply: A State Heritage Place identified in the State Heritage Place Overlay	None.
Internal building work	1 There will be no increase in the total floor area of the building

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Except where any of the following apply: A State Heritage Place identified in the State Heritage Place Overlay	2 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created Water Resources Overlay	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site. 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 40m² 6 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>11 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>12 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>13 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>4 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Outbuilding (not being a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is detached from and ancillary to a dwelling erected on the site 3 Primary street setback – at least as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>5 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>6 Total floor area does not exceed 40m²</p> <p>7 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>8 Building height - does not exceed 5m</p> <p>9 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>10 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>11 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay 	<p>33 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>34 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>35 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Water Resources Overlay Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay Water Resources Overlay	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m² 4 No part of the shade sail will be: <ol style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary 6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted) Except where any of the following apply: A State Heritage Place identified in the State Heritage Place Overlay	<ol style="list-style-type: none"> 1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 2 Panels and associated components do not overhang any part of the roof <p>Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
Spa pool Swimming pool Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Allotment boundary setback – not less than 1m 4 Primary street setback – at least as far back as the building line of the building to which it is ancillary 5 Location of filtration system from a dwelling on an adjoining allotment:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p>not less than 12m in any other case.</p>
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay <p>Water Resources Overlay</p>	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – as far back as the building line of the building to which it is ancillary 4 Total floor area - does not exceed 40m² 5 Post height - does not exceed 3m measured from natural ground level 6 Building height - does not exceed 5m 7 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment 8 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay <p>Water Resources Overlay</p>	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 The tank is part of a roof drainage system 3 Total floor area - not exceeding 15m² 4 The tank is located wholly above ground 5 Tank height – does not exceed 4m above natural ground level 6 Primary street setback – at least as far back as the building line of the building to which it is ancillary 7 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system <p>The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	With a gross leasable area less than 1000m2.

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Affordable housing opportunities, and associated small-scale services and facilities, in an open landscaped setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A limited range of low-scale, long-term and short-term accommodation predominantly in the form of caravan and camping sites, cabins and transportable dwellings.

DTS 1.1

Development comprises one or more of the following land uses:

Amenity block

Caravan permanently fixed to land

Community facility

Detached dwelling

Indoor recreation facility

Outbuilding

Residential Park

Shop

PO 1.2

Permanent buildings limited to:

- (a) a dwelling (manager's house);
- (b) shop (in association with and ancillary to a residential park);
- (c) community or recreational facility; and
- (d) toilets/amenities.

DTS/DPF 1.2

None are applicable.

PO 1.3

Facilities to support the needs and enjoyment of visitors and occupants (such as shower, toilet and laundry facilities, recreation areas including tennis court, basketball court, playground, swimming pool/spa and the like), provided at scale that is suitable to maintain the open natural character of the area, and ancillary to the primary role of the park.

DTS/DPF 1.3

None are applicable.

PO 1.4

A dwelling in the form of a manager's residence associated with and ancillary to tourist accommodation and tourist facilities to support tourism operations and maximise available accommodation for long term occupants, visitors and travellers.

DTS/DPF 1.4

None are applicable.

PO 1.5

Small scale shop associated with and ancillary to tourist accommodation and tourist facilities to support tourism operations and maximise available accommodation for visitors and travellers.

DTS / DPF 1.5

Other than a change in the use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof), shops, offices and consulting rooms do not exceed 250m² in gross leasable floor area (individually or combined).

Site Dimensions and Land Division

PO 2.1

No additional allotment(s) created wholly or partly within the zone except where a lease or license agreement is made, granted or accepted under the Residential Parks Act 2007.

DTS 2.1

Land division for a lease or license under the Residential Parks Act 2007 where an agreement is made, granted or accepted under that Act.

PO 2.2

Each caravan, cabin and dwelling is provided with adequate space for the occupant's exclusive use to enhance the amenity for travellers being accommodated.

DTS 2.2

Caravan, cabin and dwelling sites that are not less than 100m² in area.

Built Form and Character

PO 3.1

Landscaping used to define spaces, reinforce internal networks, screen utility areas and enhance the visual amenity of the area.

DTS 3.1

None are applicable.

PO 3.2

Buildings and structures incorporate a small setback from internal roads to ensure safe internal movement.

DTS 3.2

Every dwelling, annex, caravan fixed to land, recreational facility or amenities building setback at least 1 metre from any internal road.

PO 3.3

Buildings and structures sufficiently setback from any public road to minimise impacts on the streetscape.

DTS 3.3

Every dwelling, annex, caravan fixed to land, recreational facility or amenities building setback at least 6 metre from a public road.

PO 3.4

Buildings and structures setback from the park boundary to minimise impacts on neighbouring properties.

DTS/DPF 3.4

Every dwelling, annex, caravan fixed to land, recreational facility or amenities building setback at least 2 metres from the park boundary.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (f) the site of the development is adjacent land to land in a different zone
- (g) development identified as "all other code assessed development" in Residential Parks Zone Table 3

Residential Neighbourhood Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	4 Building work is associated with a railway 5 It is situated (or to be situated) on railway land 6 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is 	14 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 15 It is ancillary to a dwelling erected on the site 16 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 17 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 18 Total floor area - does not exceed 40m ² 19 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 20 Building height - does not exceed 5m 21 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 22 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that

<p>altered or a new access is created</p> <ul style="list-style-type: none"> • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>would be adjacent to or abut the proposed wall or structure</p> <p>23 The total roofed area of all existing or proposed buildings on the allotment does not exceed 50% of the area of the allotment</p> <p>24 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>25 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>26 The carport:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Demolition Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>None.</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay 	<p>3 There will be no increase in the total floor area of the building</p> <p>4 There will be no alteration to the external appearance of the building.</p>

<ul style="list-style-type: none"> • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	
<p>Outbuilding (in the form of a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Bushfire – High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - General Risk) Overlay • Hazard (Bushfire – Regional) Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 It is detached from and ancillary to a dwelling erected on the site.</p> <p>17 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>18 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>19 Total floor area - does not exceed 40m²</p> <p>20 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>21 Building height - does not exceed 5m</p> <p>22 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p style="margin-left: 40px;">(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p style="margin-left: 40px;">(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>23 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p style="margin-left: 40px;">(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p style="margin-left: 40px;">(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>24 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 50%</p> <p>25 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>26 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>27 The garage:</p> <p style="margin-left: 40px;">(a) is located so that vehicle access:</p>

<p>altered or a new access is created</p> <ul style="list-style-type: none"> • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>5 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>26 It is detached from and ancillary to a dwelling erected on the site</p> <p>27 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>28 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>29 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>30 Total floor area does not exceed 40m²</p> <p>31 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>32 Building height - does not exceed 5m</p> <p>33 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

	<p>34 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>35 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 50%</p> <p>If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>36 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>37 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>38 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 Shade sail consists of permeable material</p> <p>17 The total area of the sail - does not exceed 40m²</p> <p>18 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p>

<ul style="list-style-type: none"> • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>19 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>20 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p style="padding-left: 40px;">In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>7 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>8 Panels and associated components do not overhang any part of the roof</p> <p>Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Spa pool Swimming pool Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>66 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>67 It is ancillary to a dwelling erected on the site</p> <p>68 Allotment boundary setback – not less than 1m</p> <p>69 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>70 Location of filtration system from a dwelling on an adjoining allotment:</p> <p style="padding-left: 40px;">(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p>not less than 12m in any other case.</p>
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay 	<p>17 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>18 It is ancillary to a dwelling erected on the site</p>

<ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Water Resources Overlay 	<p>19 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>20 Total floor area - does not exceed 40m²</p> <p>21 Post height - does not exceed 3m measured from natural ground level</p> <p>22 Building height - does not exceed 5m</p> <p>23 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p> <p>24 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 50%.</p>
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Hazards (Flooding) Overlay • Character Area Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>78 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>79 The tank is part of a roof drainage system</p> <p>80 Total floor area - not exceeding 15m²</p> <p>81 The tank is located wholly above ground</p> <p>82 Tank height – does not exceed 4m above natural ground level</p> <p>83 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>84 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.</p>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Native Vegetation Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>The tank (including any associated pump) is located wholly below the level of the ground.</p>

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	Restaurant With a gross leasable area less than 200m².

Assessment Criteria (AC)

Desired Outcome (DO)

DO 1

Low or very low density housing within low rise buildings, often together with large outbuildings. Easy access and parking for cars. Considerable space for trees and other vegetation around buildings, as well as on-site wastewater treatment where necessary. Limited goods, services and facilities that enhance rather than compromise rural residential amenity.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use

PO 1.1

Residential development and supporting uses that are consistent with a spacious and peaceful lifestyle for individual households.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

Ancillary accommodation

Community facility

Dwelling

Educational establishment

Office

Outbuilding

Pre-school

Recreation area

Residential flat building

Retirement facility

Shop

Supported accommodation.

PO 1.2

Shops, consulting rooms and offices of a scale to maintain the amenity of nearby residents.

DTS/DPF 1.2

Other than a change in the use of an existing building that has been lawfully used as a shop, office or consulting room (or any combination thereof), shops, offices and consulting rooms do not exceed 50m² in gross leasable floor area (individually or combined).

PO 1.3

Non-residential development compatible with a residential character and amenity.

DTS/DPF 1.3

None are applicable.

Building Height

PO 2.1

Buildings contribute to a low-rise residential character and complement the height of nearby buildings.

DTS/DPF 2.1

Building height (excluding garages, carports and outbuildings) no greater than:

- (c) 2 building levels and 9m from the top of the footings; and
- (d) wall height that is no greater than 7m from the top of the footings, except in the case of a gable end.

Primary Street Setback

PO 3.1

Buildings that are set back from primary street boundaries to complement existing streetscape character and provide space for vegetation.

DTS 3.1

Buildings are set back from the primary street boundaries at least:

- (a) the average of existing buildings on the adjoining sites which face the same street;
- (b) in relation to a site on the corner of two streets or adjacent a public space or thoroughfare, at least the distance of existing buildings on the adjacent site or the closest site away from the corner, public space or thoroughfare that contains a building facing the same primary street without crossing another street, public space or thoroughfare; or
- (c) 10m where no building exists on one or both of the adjoining sites which face the same street.

Secondary Street Setback

PO 4.1

Buildings are set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS 4.1

Buildings are set back at least 4m from the boundary of the allotment with the secondary street frontage, or if a dwelling on any adjoining allotment is closer to the secondary street than 4m, the distance of that dwelling from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).

Side Boundary Setback

PO 5.1

Buildings are set back from side boundaries to allow maintenance and access around buildings and minimise impacts on adjoining properties.

DTS 5.1

Buildings are set back from the side boundaries at least 2m.

Rear Boundary Setback

PO 6.1

Buildings that are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality;
- (b) access to natural light and ventilation for neighbours;
- (c) open space recreational opportunities; and

- (d) space for landscaping and vegetation.

DTS 6.1

Buildings are set back from the rear boundary at least 6m.

Ancillary Buildings and Structures

PO 7.1

Residential ancillary buildings and structures sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.

DTS 7.1

Ancillary buildings and structures:

- (a) are ancillary to a dwelling erected on the site;
- (b) are not being constructed, added to or altered so that any part is situated:
 - (i) in front of any part of the building line of the dwelling to which it is ancillary; or
 - (ii) within 4m of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads); or
 - (iii) within 2m of a side boundary;
- (c) in the case of a garage or carport, has a primary street setback that is at least as far back as the dwelling;
- (d) not exceed 10m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street;
- (e) have a wall height or post height not exceeding 4m above natural ground level;
- (f) have a roof height where no part of the roof is more than 5m above the natural ground level; and
- (g) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

PO 7.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 7.2

Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Residential Liveability Table 1 - Private Open Space;
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - Off-street Car Parking Requirements; and
- (c) the total roofed floor area of all existing or proposed ancillary building(s) or structure(s) exceeding 100m².

Site Dimensions and Land Division

PO 8.1

Allotments/sites created for residential purposes that are of suitable size and dimension to contribute to a pattern of development consistent to the locality.

DTS/DPF 8.1

Development accords with the following:

- (a) for sites connected to mains sewer or Community Wastewater Management System, site areas (or allotment areas in the case of land division) are not less than the minimum allotment area specified in the Minimum Allotment Size Technical and Numeric Variation Overlay;

- (b) for sites without connection to mains sewer or Community Wastewater Management System, site areas (or allotment areas in the case of land division) are not less than the greater of:
 - i. 1200m²; or
 - ii. the minimum allotment area specified in the Minimum Allotment Size Technical and Numeric Variation Overlay; and
- (c) site frontages not less than 20m.

Site Coverage

PO 9.1

Building footprints consistent with a low-density residential character and provide sufficient space around buildings to limit visual impact, provide an attractive outlook and access to light and ventilation.

DTS/DPF 9.1

The development will not result in a total roofed area (excluding eaves of a dwelling) on the site exceeding 60%.

External Appearance of Group Dwellings, Residential Flat Buildings and Battle-axe Development

PO 10.1

Residential flat buildings are of an appropriate scale with larger buildings divided and separated into smaller forms to:

- (a) achieve a mass and scale that better relates to a low-rise suburban character;
- (b) limit visual impact and provide appropriate outlook for occupants; and
- (c) provide adequate space around buildings for light, ventilation and landscaping.

DTS/DPF 24.1

Residential Flat Buildings that are 2 or more storeys:

- (a) have a building depth or length no greater than 20m; and
- (b) are setback at least 4m from other dwellings or other residential flat buildings.

PO 10.2

Services including gas and water meters conveniently located and screened from public view.

DTS/DPF 10.2

None are applicable.

Concept Plans

PO 11.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay.

DTS/DPF 11.1

None are applicable.

Notification of Performance assessed development

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone;
- (b) development identified as "all other code assessed development" in Residential Neighbourhood Zone Table 3;
- (c) more than one dwelling per allotment;
- (d) building exceeding 2 building levels (over 9m) in height;
- (e) Development involving the creation of four or more additional dwellings;
- (f) Shop, office or consulting room greater than 250m² in floor area (individually or combined) where located on a collector or higher order road;
- (g) Shop, office or consulting room greater than 100m² in floor area and provided it is not located adjacent to an existing commercial activity; or
- (h) dwellings that do not satisfy DTS/DPF 2.1, 3.1, 4.1, 5.1, and 6.1
- (i) Any development that is classified (either partly or wholly) as 'All other development' in the Assessment Table.

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Resource Extraction Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Carpport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>79 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>80 It is ancillary to an office erected on the site</p> <p>81 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>82 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>83 Total floor area - does not exceed 40m²</p> <p>84 Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>85 Building height - does not exceed 5m</p> <p>86 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>87 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>88 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>89 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>90 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>91 The carport:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) the centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
<p>Internal building work</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • A Historic Shipwreck identified in the Historic Shipwrecks Overlay 	<p>13 There will be no increase in the total floor area of the building</p> <p>14 There will be no alteration to the external appearance of the building.</p>

<ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	
<p>Farming</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Mount Lofty Ranges Catchment (Area 2) Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 1 There is no excavation or filling of land 2 Does not involve the erection, construction or alteration of, or addition to, any building or structure 3 Does not involve the clearance of native vegetation.
<p>Protective tree netting structure</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<ol style="list-style-type: none"> 36 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 37 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated) 38 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour 39 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following: <ul style="list-style-type: none"> (k) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or

	<p>(l) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site</p> <p>40 No part of the netting canopy of the protective tree netting structure:</p> <p>(k) will cover native vegetation; or</p> <p>(l) will be within 5m of a road (including any road reserve)</p> <p>41 The points of attachment of any cables will not be located:</p> <p>(k) outside the boundaries of the site; or</p> <p>(l) within a watercourse (within the meaning of the Natural Resources Management Act 2004)</p> <p>42 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <p>(j) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling</p> <p>(k) in any other case, no part of the netting canopy is within 15m of the dwelling.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • A Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	<p>50 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>51 Panels and associated components do not overhang any part of the roof</p> <p>52 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Water tank (above ground) Except where any of the following apply Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<p>85 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>86 The tank is part of a roof drainage system</p> <p>87 Total floor area - not exceeding 15m²</p> <p>88 The tank is located wholly above ground</p> <p>89 Tank height – does not exceed 4m above natural ground level</p> <p>90 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p>

Table 4 –Restricted Development Classification

Class of Development	Exclusions
The following Classes of Development are classified as Restricted subject to any 'Exclusions'	
Dwelling	A replacement dwelling
Land division	Boundary realignments

Assessment Provisions

Desired Outcomes (DO)

DO 1

The provision and protection of land for the extraction, production or processing of a mineral, extractive or petroleum resource.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Development is associated with or ancillary to resource extraction and processing.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Office
- Resource extraction operation
- Resource processing facility
- Store

PO 1.2

Undeveloped resource areas accommodate a limited range of low intensity activities to maintain access to future resources.

DTS/DPF 1.2

Development comprises one or more of the following land uses:

- Farming
- Horse keeping
- Horticulture

PO 1.3

Offices are ancillary to and support management and maintenance of a resource extraction or processing facility.

DTS/DPF 1.3

Office:

- (a) ancillary to and located on the same allotment as resource extraction and / or processing operations; and
- (b) with a gross leasable floor area up to 50m².

Land Division

PO 2.1

Land division, including boundary realignment:

- (a) does not further fragment resource areas; and
- (b) creates allotments of suitable size and dimension for compatible activities away from resource areas.

DTS/DPF 2.1

None are applicable.

Fencing

PO 3.1

Fencing is designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.

DTS/DPF 3.1

Fencing exceeding 2.1m in height:

- (a) located behind a façade of an associated building located on the same site; or
- (b) located behind a landscaped area along relevant street frontages; or
- (c) consists of visually permeable materials with landscaping behind.

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Resource Extraction Zone Table 3.

Rural Aquaculture Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	7 Building work is associated with a railway 8 It is situated (or to be situated) on railway land 9 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	27 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 28 It is ancillary to a dwelling erected on the site 29 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 30 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 31 Total floor area - does not exceed 40m ² 32 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 33 Building height - does not exceed 5m 34 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>35 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>36 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>37 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>38 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>39 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>40 The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
Internal building work	<p>5 There will be no increase in the total floor area of the building</p> <p>6 There will be no alteration to the external appearance of the building.</p>
Outbuilding (in the form of a Garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>29 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>30 It is detached from and ancillary to a dwelling erected on the site.</p> <p>31 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>32 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>33 Total floor area - does not exceed 40m²</p> <p>34 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>35 Building height - does not exceed 5m</p> <p>36 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>37 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>38 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>39 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>40 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>41 The garage:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>42 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>26 It is detached from and ancillary to a dwelling erected on the site</p> <p>27 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>28 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>29 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>30 Total floor area does not exceed 40m²</p> <p>31 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>32 Building height - does not exceed 5m</p> <p>33 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>34 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>35 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>36 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Private bushfire shelters Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Vegetation Overlay • Water Resources Overlay 	<p>9 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>10 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>11 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>12 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay 	<p>22 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	23 Shade sail consists of permeable material 24 The total area of the sail - does not exceed 40m ² 25 No part of the shade sail will be: (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 26 Primary street setback – at least as far back as the building line of the building to which it is ancillary 27 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m 28 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.
Solar photovoltaic panels (roof mounted)	7 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof 8 Panels and associated components do not overhang any part of the roof 9 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.
Solar photovoltaic panels (ground mounted) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay 	9 The system is freestanding rather than attached to a building or other structure. 10 No part of the system:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	(c) is more than 4 metres in height (measured as a height above the natural surface of the ground); (d) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and (e) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system. 11 The generating capacity of the system does not exceed 30 kW 12 Does not result in the clearance of any native vegetation.
Verandah Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Water Resources Overlay 	25 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 26 It is ancillary to a dwelling erected on the site 27 Primary street setback – as far back as the building line of the building to which it is ancillary 28 Total floor area - does not exceed 40m ² 29 Post height - does not exceed 3m measured from natural ground level 30 Building height - does not exceed 5m 31 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment 32 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
Water tank (above ground) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay 	9 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 10 The tank is part of a roof drainage system 11 Total floor area - not exceeding 15m ² 12 The tank is located wholly above ground

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • Water Resources Overlay 	13 Tank height – does not exceed 4m above natural ground level 14 Primary street setback – at least as far back as the building line of the building to which it is ancillary 15 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
Water tank (underground) <ul style="list-style-type: none"> • Coastal Areas Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Water Resources Overlay 	8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 9 The tank (including any associated pump) is located wholly below the level of the ground.

Table 4 –Restricted Development Classification

None specified	

Assessment Provisions

Desired Outcome (DO)

DO 1

Development of facilities and infrastructure that support marine-based aquaculture farms and on-land aquaculture in a manner that protects environmental quality.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

A range of development that supports aquaculture and value adding activities including:

- (i) aquaculture hatcheries and grow out facilities;
- (j) infrastructure works and services;
- (k) industry, cleaning, washing, processing and packaging activities; and
- (l) indoor and outdoor storage and warehousing.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- Advertisement
- Aquaculture
- Demolition
- Detached dwelling
- Dwelling addition
- Outbuilding
- Small-scale ground mounted solar power facility
- Verandah

Siting and Design

PO 2.1

Development is provided with suitable vehicle access.

DTS/DPF 2.1

Development is serviced by an all-weather trafficable public road.

PO 2.2

Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.

DTS/DPF 2.2

New buildings:

- (a) are sited on land with a slope not greater than 10% (1-in-10); and
- (b) do not result excavation and filling of land that is greater than 1.5 metres from natural ground level.

Dwellings

PO 3.1

Residential development is ancillary to, and does not compromise, aquaculture.

DTS/DPF 3.1

Dwellings:

- (a) are located on an allotment which has a demonstrated connection with aquaculture; and
- (b) will not result in more than one dwelling on an allotment.

Offices

PO 4.1

Offices are directly related to an existing aquaculture use.

DTS/DPF 4.1

Offices are ancillary to and located on the same allotment as an aquaculture activity.

Tourist Development

PO 5.1

Tourism development and visitor amenities are associated with an existing aquaculture use.

DTS/DPF 5.1

Tourist development:

- (a) is ancillary to and located on the same allotment as an aquaculture activity;
- (b) does not involve tourist accommodation facilities.

Renewable Energy Facilities

PO 6.1

Small-scale ground mounted solar power facilities support rural production or value adding industries.

DTS/DPF 6.1

Solar power facilities:

- (a) do not generate more than 30KW;
- (b) generates power which is to be used wholly in association with a primary production industry, a value adding industry or local infrastructure facility on the same allotment;
- (c) are setback at least 10m from adjoining allotments in other ownership; and
- (d) are not located within 100m of a dwelling in other ownership.

Environment and Amenity

PO 7.1

Development is sited and designed to minimise visual and off-site nuisance impacts on the surrounding environment.

DTS/DPF 7.1

A landscaped buffer:

- (a) is provided around all boundaries of the allotment; and
- (b) is at least 30m in width.

PO 7.2

External storage areas associated with an aquaculture activity are located and of a size that do not impair the character of the coastline or the visual amenity of the landscape.

DTS/DPF 7.2

Storage areas:

- (a) are setback behind the front facade of buildings that exist on the allotment;
- (b) are sited at least 20m from a side or rear allotment boundary; and
- (c) incorporate a landscaped buffer at least 3m in width around the perimeter of the storage area.

PO 7.3

Wash-down areas associated with an aquaculture activity are located and operated in a manner that avoids adverse impacts on the environment and nearby sensitive receivers.

DTS/DPF 7.3

Wash-down areas:

- (a) are setback behind the front facade of buildings existing on the allotment;
- (b) are constructed with a hard impervious surface;
- (c) are sited at least 20m from a side or rear allotment boundary; and
- (d) incorporate a screen to prevent 'splash-out' or 'over-spray' of water beyond the perimeter of the wash-down area.

PO 7.4

Buildings, structures and plant sited and designed to minimise their visual impact on the landscape.

DTS/DPF 7.4

Buildings, structures and plant:

- (a) are setback at least 20m from the front road boundary
- (b) have a maximum height of 8m; and
- (c) do not result in a site coverage greater than 60%.

Land Division

PO 8.1

Land division, including boundary realignments promotes productive, efficient and sustainable aquaculture.

DTS/DPF 8.1

Allotments have an area not less than 1ha.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Rural Aquaculture Zone Table 3

Rural Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	<ol style="list-style-type: none"> 1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Historic Shipwrecks Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 4 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 5 Total floor area - does not exceed 60m² 6 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7 Building height - does not exceed 5m 8 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- Future Road Widening Overlay where an existing access is altered or a new access is created
- Key Railway Crossings Overlay where an existing access is altered or a new access is created
- Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created
- Major Urban Transport Routes Overlay where an existing access is altered or a new access is created
- Non-stop Corridor Overlay where an existing access is altered or a new access is created
- Urban Transport Routes Overlay where an existing access is altered or a new access is created
- Water Resources Overlay

- (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 10 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 11 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors
- 12 The carport:
 - (a) is located so that vehicle access:
 - i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - ii. will use a driveway that:
 - A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and
 - B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or
 - iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and
 - (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and
 - (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access

Demolition

None.

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Historic Shipwreck identified in the Historic Shipwrecks Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	
<p>Farming</p>	<ol style="list-style-type: none"> 1 There is no excavation or filling of land 2 Does not involve the erection, construction or alteration of, or addition to, any building or structure 3 Does not involve the clearance of native vegetation
<p>Internal building work</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Shipwreck identified in the Historic Shipwrecks Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	<ol style="list-style-type: none"> 1 There will be no increase in the total floor area of the building 2 There will be no alteration to the external appearance of the building.

<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Primary street setback – at least as far back as the building to which it is ancillary 3 Secondary street setback – at least 900mm from the boundary of the allotment 4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- Historic Area Overlay
- Historic Shipwrecks Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Significant Landscape Protection Overlay
- Ramsar Wetlands Overlay
- River Murray Flood Plain Overlay
- Sloping Land Overlay
- Water Resources Overlay

Protective tree netting structure

Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Historic Area Overlay
- Historic Shipwrecks Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- State Significant Native Vegetation Overlay
- Significant Landscape Protection Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)
- 3 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour
- 4 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<ul style="list-style-type: none"> (a) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (b) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site <p>5 No part of the netting canopy of the protective tree netting structure:</p> <ul style="list-style-type: none"> (a) will cover native vegetation; or (b) will be within 5m of a road (including any road reserve) <p>6 The points of attachment of any cables will not be located:</p> <ul style="list-style-type: none"> (a) outside the boundaries of the site; or (b) within a watercourse (within the meaning of the Natural Resources Management Act 2004) <p>7 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <ul style="list-style-type: none"> (a) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling (b) in any other case, no part of the netting canopy is within 15m of the dwelling.
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay 	<ul style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 Shade sail consists of permeable material 3 The total area of the sail - does not exceed 40m² 4 No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- Historic Area Overlay
- Historic Shipwrecks Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Significant Landscape Protection Overlay
- Ramsar Wetlands Overlay
- River Murray Flood Plain Overlay
- Sloping Land Overlay
- Water Resources Overlay

- (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
- 5 Primary street setback – at least as far back as the building line of the building to which it is ancillary
- 6 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m
- 7 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.

Solar photovoltaic panels (roof mounted)

Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place identified in the Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place identified in the State Heritage Place Overlay

- 1 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof
- 2 Panels and associated components do not overhang any part of the roof
- 3 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.

Solar photovoltaic panels (ground mounted)

- 13 The system is freestanding rather than attached to a building or other structure.
- 14 No part of the system:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Historic Area Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay • State Significant Native Vegetation Overlay 	<p>(b) is more than 4 metres in height (measured as a height above the natural surface of the ground);</p> <p>(c) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and</p> <p>(d) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system.</p> <p>15 The generating capacity of the system does not exceed 30 kW</p> <p>16 Does not result in the clearance of any native vegetation.</p>
<p>Spa pool</p> <p>Swimming pool</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Allotment boundary setback – not less than 1m 4 Primary street setback – at least as far back as the building line of the building to which it is ancillary 5 Location of filtration system from a dwelling on an adjoining allotment: <ol style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise (b) not less than 12m in any other case.

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	
<p>Verandah</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay 	<ol style="list-style-type: none"> 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2 It is ancillary to a dwelling erected on the site 3 Primary street setback – as far back as the building line of the building to which it is ancillary 4 Total floor area - does not exceed 60m² 5 Post height - does not exceed 3m measured from natural ground level 6 Building height - does not exceed 5m 7 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

Water Resources Overlay

Water tank (above ground)

Except where any of the following apply:

- Character Preservation District Overlay
- Coastal Areas Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Significant Landscape Protection Overlay
- Ramsar Wetlands Overlay
- River Murray Flood Plain Overlay
- Sloping Land Overlay
- Water Resources Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 The tank is part of a roof drainage system
- 3 Total floor area - not exceeding 15m²
- 4 The tank is located wholly above ground
- 5 Tank height – does not exceed 4m above natural ground level
- 6 Primary street setback – at least as far back as the building line of the building to which it is ancillary
- 7 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.

Water tank (underground)

Except where any of the following apply:

- Character Preservation District Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 The tank (including any associated pump) is located wholly below the level of the ground.

All other Code Assessed Development	All	All	None	All

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling within the Limited Dwelling Overlay	Except where it is a replacement dwelling.
Land Division within the Limited Land Division Overlay	Except where it involves a boundary realignment.
Land Division creating additional allotments for residential purposes within the Significant Industry Interface Overlay	
Renewable energy facility within either the: (a) Significant Landscape Protection Overlay (b) Character Preservation Area Overlay	
Shop	Except where: (a) it is ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region; or (b) it has a gross leasable floor area less than 250m ² ; or (c) it is a restaurant.

Assessment Provisions

Desired Outcomes (DO)

DO 1

A zone supporting the economic prosperity of South Australia primarily through the production, processing, storage and distribution of primary produce, forestry and the generation of energy from renewable sources.

DO 2

A zone supporting diversification of existing businesses that promote value adding, such as industry, storage and warehousing activities, the sale and consumption of primary produce, tourist development and accommodation.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The productive value of rural land for a range of primary production activities and associated value adding, processing, warehousing and distribution is supported, protected and maintained.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Agricultural building
- (c) Brewery
- (d) Carport
- (e) Cidery
- (f) Distillery
- (g) Demolition
- (h) Detached dwelling
- (i) Dwelling addition
- (j) Excavation and filling
- (k) Farming
- (l) Fence
- (m) Horse keeping
- (n) Horticulture

- (o) Industry
- (p) Intensive animal husbandry
- (q) Low intensity animal husbandry
- (r) Outbuilding
- (s) Shop
- (t) Small-scale ground mounted solar power facility
- (u) Tourist accommodation
- (v) Transport distribution
- (w) Verandah
- (x) Warehouse
- (y) Winery

Siting and Design

PO 2.1

Development is provided with suitable vehicle access.

DTS/DPF 2.1

Development is serviced by an all-weather trafficable public road.

PO 2.2

Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.

DTS/DPF 2.2

Buildings:

- (a) are sited on land with a slope not greater than 10% (1-in-10); and
- (b) do not result excavation and filling of land that is greater than 1.5 metres from natural ground level.

Horticulture

PO 3.1

Horticulture is located and conducted on land that has the physical capability of supporting the activity and in a manner that:

- (a) enhances the productivity of the land for the growing of food and produce in a sustainable manner;
- (b) avoids adverse interface conflicts with other land uses;
- (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality;

- (d) is sympathetic to surrounding rural landscape character and amenity, where horticulture is proposed to be carried out in an enclosed building such as such as greenhouses.

DTS/DPF 3.1

Horticultural activities:

- (a) are conducted on an allotment with an area of at least 1ha;
- (b) are sited on land with a slope not greater than 10% (1-in10);
- (c) are not conducted within 50m of a watercourse or native vegetation;
- (d) do not involve the clearance of native vegetation;
- (e) abut an existing horticulture activity;
- (f) are not conducted within 100m of a sensitive receiver in other ownership;
- (g) provide for a headland area between plantings and property boundaries of at least 10m in width; and
- (h) where carried out in an enclosed building such as a greenhouse, the building has a total floor area not greater than 250m²;
- (i) in the form of olive growing, is not located within 500 metres of a conservation or national park.

Rural Industry

PO 4.1

Industry (including beverage production and washing, processing, bottling and packaging activities), storage, warehousing, transport distribution or similar activities:

- (a) are directly related to and add value to primary production and/or commodities and materials sourced from rural areas; and
- (b) realise efficiencies in primary production.

DTS/DPF 4.1

Industries, storage, warehousing and transport distribution activities:

- (a) are directly related to and ancillary to a primary production use on the same or adjoining allotment;
- (b) are located on an allotment not less than 20ha in area;
- (c) have a total floor area not exceeding 250m².

PO 4.2

Industry, storage, warehousing, transport distribution or similar activities are sited, designed and of a scale that maintains rural character and function and respects landscape amenity.

DTS/DPF 4.2

Buildings and associated activities:

- (a) are setback at least 100m from all road and allotment boundaries;
- (b) are not sited within 200m of a sensitive receiver in other ownership;
- (c) have building height not greater than 10m above natural ground level; and
- (d) incorporate the loading and unloading of vehicles within the confines of the allotment.

Dwellings

PO 5.1

Residential development is ancillary to, and does not compromise, primary production.

DTS/DPF 5.1

Dwellings:

- (a) are located on an allotment with an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*;
- (b) are located on and have a demonstrated connection with an allotment used for primary production or value adding; will not result in more than one dwelling on an allotment.

PO 5.2

Development creating a second dwelling on an allotment should not compromise primary production and value adding industries, or result in the fragmentation of land.

DTS/DPF 5.2

A secondary dwelling on an allotment is:

- (a) located within 20 metres of an existing dwelling on the same allotment;
- (b) utilises existing infrastructure and vehicle access used by an existing dwelling; and
- (c) located on an allotment not less than 40ha in area.

PO 5.3

Residential development resulting in more than one dwelling on an allotment:

- (a) supports aging in place for the owner of the allotment;
- (b) is in the form of a manager's residence or workers' accommodation;

- (c) is located within 20 metres of an existing dwelling on the same allotment;
- (d) does not compromise primary production or value adding industries;
- (e) utilises existing infrastructure and vehicle access used by an existing dwelling

DTS/DPF 5.3

None are applicable.

PO 5.4

Dwellings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 5.4

Dwellings:

- (a) are setback from all allotment boundaries by at least 40m;
- (b) do not exceed 2 building levels and 9 metres measured from the top of the footings; and
- (c) have a wall height that is no greater than 6 metres.

PO 5.5

Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 5.5

Additions or alterations to an existing dwelling:

- (a) are setback behind the main façade of the existing dwelling;
- (b) do not exceed 2 building levels and 9 metres measured from the top of the footings; and
- (c) have a wall height that is no greater than 6 metres.

Shops, Tourism and Function Centres

PO 6.1

Shops are associated with an existing primary production use or value adding industry within the region.

DTS/DPF 6.1

Shops:

- (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region;
- (c) have a gross leasable floor area not exceeding 100m²;

- (d) have an area for the display of produce or goods external to a building not exceeding 25m².

PO 6.2

Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 6.2

Shops in new buildings:

- (a) are setback from all allotment boundaries by at least 40m;
- (b) are not sited within 100m of a sensitive receiver in other ownership; and
- (c) have a building height that does not exceed 7m above natural ground level.

PO 6.3

Tourist accommodation is associated with the primary use of the land for primary production or value adding industry.

DTS/DPF 6.3

Tourist accommodation:

- (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) in relation to the area used for accommodation, does not exceed 100m².

PO 6.4

Tourist accommodation proposed in a new building or buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 6.4

Tourist accommodation in new buildings:

- (a) is setback from all allotment boundaries by at least 40m; and
- (b) have a building height that does not exceed 7m above natural ground level.

PO 6.5

Function centres are associated with the primary use of the land for primary production or value adding industry.

DTS/DPF 6.5

Function centres:

- (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) do not result in more than 75 seats for customer dining purposes.

PO 6.6

Function centres are sited, designed and of a scale that maintains a pleasant natural and rural character and amenity.

DTS/DPF 6.6

Function centres:

- (a) are located on an allotment having an area of at least 5ha;
- (b) are setback from all property boundaries by at least 40m;
- (c) are not sited within 100m of a sensitive receiver in other ownership; and
- (d) have a building height that does not exceed 9m above natural ground level.

Offices

PO 7.1

Offices are directly related to and associated with the primary use of the land for primary production or value adding industry

DTS/DPF 7.1

Offices:

- (a) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) have a gross leasable floor area not exceeding 100m².

Adaptive Reuse of Existing Buildings

PO 8.1

Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.

DTS/DPF 8.1

Development within an existing building is for:

- (a) a shop;
- (b) office; or
- (c) tourist accommodation.

Renewable Energy Facilities

PO 9.1

Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.

DTS/DPF 9.1

None are applicable.

PO 9.2

Small-scale ground mounted solar power facilities support rural production or value adding industries.

DTS/DPF 9.2

Solar power facilities:

- (a) do not generate more than 30KW;
- (b) generate power which is to be used wholly in association with a primary production industry, a value adding industry or local infrastructure facility on the same allotment;
- (c) do not have a panel size exceeding 80m² or 4m in height per structure;
- (d) do not involve more than 2 panel structures per allotment;
- (e) are setback at least 10m from adjoining allotments in other ownership; and
- (f) are not located within 100m of a dwelling in other ownership.

Built Form and Character

PO 10.1

Large buildings designed and sited to reduce impacts on scenic and rural vistas by:

- (a) having substantial setbacks from boundaries and adjacent public roads;
- (b) using low reflective materials and finishes that blend with the surrounding landscape; and
- (c) being located below ridgelines

DTS/DPF 10.1

None are applicable.

Land Division

PO 11.1

Land division, including boundary realignments promotes productive, efficient and sustainable primary production.

DTS/DPF 11.1

Allotments have an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*.

Agricultural Buildings

PO 12.1

Agricultural buildings and associated activities are sited, designed and of a scale that maintains rural character and function and respects landscape amenity.

DTS/DPF 12.1

- (a) Agricultural buildings:
- (b) are located on an allotment having an area of at least 10ha;
- (c) are setback at least 50m from an allotment boundary;
- (d) have a building height not exceeding 10m above natural ground level;
- (e) do not exceed 250m² in total floor area; and
- (f) incorporate the loading and unloading of vehicles within the confines of the allotment.

Outbuildings, Carports and Verandahs

PO 13.1

Outbuildings are sited, designed and of a scale that maintain a pleasant rural character and amenity.

DTS/DPF 13.1

Outbuildings:

- (a) have a primary street setback that is at least as far back as the building to which it is ancillary;
- (b) have a total floor area that does not exceed 150m²;
- (c) have walls that do not exceed 5m in height measured from natural ground level and not including a gable end;
- (d) have a total roof height that does not exceed 6m measured from natural ground level; and
- (e) are limited to no more than 2 outbuildings on the same allotment.

PO 13.2

Carports and verandahs are sited, designed and of a scale that maintain a pleasant rural character and amenity.

DTS/DPF 13.2

Carports and verandahs have a:

- (a) primary street setback that is at least as far back as the building to which it is ancillary;
- (b) total floor area that does not exceed 80m²;
- (c) post height that does not exceed 3m measured from natural ground level and not including a gable end; and
- (d) total roof height that does not exceed 5m measured from natural ground level.

Concept Plans

PO 14.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within the *Concept Plans Technical and Numeric Variation Overlay*.

DTS 14.1

None are applicable

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent to land in a different zone
- (b) development identified as "all other code assessed development" in Rural Zone Table 3
- (c) detached dwelling
- (d) industry, storage, transport distribution and/or warehousing with a total floor area greater than 250m²
- (e) renewable energy facilities other than a solar power facility that does not generate more than 30KW
- (f) shop with a gross leasable area greater than 200m²
- (g) tourist accommodation with a total floor area greater than 200m²
- (h) wind farm
- (i) wind monitoring mast
- (j) workers' accommodation

Rural Horticulture Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	1 Building work is associated with a railway 2 It is situated (or to be situated) on railway land 3 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing 	13 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 14 It is ancillary to a dwelling erected on the site 15 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 16 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 17 Total floor area - does not exceed 60m ² 18 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 19 Building height - does not exceed 5m 20 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 21 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria

	<p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>52 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Outbuilding (not being a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay Water Resources Overlay	<p>12 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>13 It is detached from and ancillary to a dwelling erected on the site</p> <p>14 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>15 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>16 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>17 Total floor area does not exceed 60m²</p> <p>18 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>19 Building height - does not exceed 5m</p>

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- 20 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 21 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 22 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.

Private bushfire shelters

Except where any of the following apply:

- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- River Murray Flood Plain Overlay
- Sloping Land Overlay

- 1 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 2 Primary street setback – at least as far back as the building to which it is ancillary
- 3 Secondary street setback – at least 900mm from the boundary of the allotment
- 4 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Water Resources Overlay <p>Protective tree netting structure</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Protection Area Overlay • Water Resources Overlay 	<p>8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>9 No part of the protective tree netting structure will be more than 6m above natural ground level (depending on where it is situated)</p> <p>10 Netting visible from the outside of the protective tree netting structure is of a low light-reflective nature, and, in the case of a structure that has side netting, the side netting is of a dark colour</p> <p>11 In the case of a development on a site that is within a Hazards (Bushfire - Outback) Overlay, Hazards (Bushfire – Regional) Overlay, Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire Medium - Risk) Overlay or Hazards (Bushfire - High Risk) Overlay, the protective tree netting structure provides for access to the site in accordance with the following:</p> <ul style="list-style-type: none"> (c) no part of the protective tree netting structure (including cables and points of attachment of cables (known as "auger" or "anchor" points) will be within 5m of any boundary of the site; or (d) does not prevent access or movement of vehicles of 4m height and 3.5m width (or less) on any access road or track (including fire tracks) on the site <p>12 No part of the netting canopy of the protective tree netting structure:</p> <ul style="list-style-type: none"> (c) will cover native vegetation; or (d) will be within 5m of a road (including any road reserve) <p>13 The points of attachment of any cables will not be located:</p> <ul style="list-style-type: none"> (c) outside the boundaries of the site; or (d) within a watercourse (within the meaning of the Natural Resources Management Act 2004)

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>14 In relation to a dwelling located on an allotment adjoining the site on which the protective tree netting structure is located, the protective tree netting structure complies with the following:</p> <p>(c) if the netting canopy nearest the dwelling on the adjoining allotment is 4m or less above ground level (depending on where it is situated), no part of the netting canopy is within 10m of the dwelling</p> <p>(d) in any other case, no part of the netting canopy is within 15m of the dwelling.</p>
<p>Shade sail</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>8 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>9 Shade sail consists of permeable material</p> <p>10 The total area of the sail - does not exceed 40m²</p> <p>11 No part of the shade sail will be:</p> <p>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>12 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>13 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>14 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (ground mounted)</p>	<p>17 The system is freestanding rather than attached to a building or other structure.</p> <p>18 No part of the system:</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • Native Vegetation Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay • State Significant Native Vegetation Overlay 	<p>(e) is more than 4 metres in height (measured as a height above the natural surface of the ground);</p> <p>(f) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and</p> <p>(g) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system.</p> <p>19 The generating capacity of the system does not exceed 30 kW</p> <p>20 Does not result in the clearance of any native vegetation.</p>
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	<p>4 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>5 Panels and associated components do not overhang any part of the roof</p> <p>6 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>

Class of Development	Applicable Policies The following policies are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling within the Limited Dwelling Overlay	Except where it is a replacement dwelling
Shop	Except where: <ul style="list-style-type: none"> (a) it is ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding and offers for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region; or (b) it has a gross leasable floor area less than 250m²; or (c) it is a restaurant.

Assessment Provisions

Desired Outcomes (DO)

DO 1

Intensive agriculture in the form of horticulture and associated value adding enterprises and activities.

DO 2

The establishment of appropriately scaled industries for washing, processing, bottling and packaging primary produce and servicing and supporting horticulture.

DO 3

Manage interface conflict between horticulture and other land uses.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The productive value of horticultural land for a range of agricultural, intensive horticultural activities and associated value adding, processing, warehousing and distribution activities is supported, protected and maintained. The proliferation of dwellings and other land uses that may be sensitive to those activities is avoided.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (a) Advertisement
- (b) Agricultural building
- (c) Brewery
- (d) Carport
- (e) Cidery
- (f) Distillery
- (g) Demolition
- (h) Detached dwelling
- (i) Dwelling addition
- (j) Excavation and filling
- (k) Fence
- (l) Horse keeping
- (m) Horticulture
- (n) Industry
- (o) Low intensity animal husbandry
- (p) Outbuilding
- (q) Shop
- (r) Small-scale ground mounted solar power facility
- (s) Tourist accommodation
- (t) Transport distribution
- (u) Verandah
- (v) Warehouse
- (w) Workers' accommodation
- (x) Winery

PO 1.2

Promote a wide range of associated or complementary value adding business enterprises including:

- (a) industry, washing, processing, bottling and packaging activities; and
- (b) the sale and consumption of agricultural based products.

DTS/DPF 1.2

None are applicable.

Siting and Design

PO 2.1

Development is provided with suitable vehicle access.

DTS/DPF 2.1

Development is serviced by an all-weather trafficable public road.

PO 2.2

Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.

DTS/DPF 2.2

Buildings:

- (a) are sited on land with a slope not greater than 10% (1-in-10); and
- (b) do not result excavation and filling of land that is greater than 1.5 metres from natural ground level.

Horticulture

PO 3.1

Horticulture is located and conducted on land that has the physical capability of supporting the activity and in a manner that:

- (a) enhances the productivity of the land for the growing of food and produce in a sustainable manner;
- (b) avoids adverse interface conflicts with other land uses;
- (c) utilises sound environmental practices to mitigate negative impacts on natural resources and water quality.

DTS/DPF 3.1

Horticultural activities:

- (a) are conducted on an allotment with an area of at least 1ha;
- (b) are sited on land with a slope not greater than 10% (1-in-10);
- (c) are not conducted within 50m of a watercourse or native vegetation;
- (d) do not involve the clearance of native vegetation
- (e) are not conducted within 100m of a sensitive receiver in other ownership;
- (f) provide for a headland area between plantings and property boundaries of at least 10m in width; and
- (g) in the form of olive growing, is not located within 500 metres of a conservation or national park.

Dwellings

PO 4.1

Residential development is ancillary to, and does not compromise, primary production.

DTS/DPF 4.1

Dwellings:

- (a) are located on an allotment with an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*
 - (b) are located on and have a demonstrated connection with an allotment used for primary production or value adding;
- will not result in more than one dwelling on an allotment.

PO 4.2

Dwellings are sited, designed and are of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 4.2

Dwellings:

- (a) are setback from all allotment boundaries by at least 40m;
- (b) do not exceed 2 building levels and 9 metres from the top of the footings; and
- (c) have a wall height that is no greater than 6 metres.

PO 4.3

Dwelling additions are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 4.3

Additions or alterations to an existing dwelling:

- (a) are setback behind the main façade of the existing dwelling;
- (b) do not exceed 2 building levels and 9 metres measured from the top of the footings; and
- (c) have a wall height that is no greater than 6 metres.

Shops and Tourist Accommodation

PO 5.1

Shops are associated with an existing primary production or value adding industry.

DTS/DPF 5.1

Shops:

- (a) are ancillary to and located on the same allotment or adjoining allotment used for primary production or value adding;
- (b) offer for sale or consumption produce or goods that are primarily sourced, produced or manufactured on the same allotment or from the region;
- (c) have a gross leasable floor area not exceeding 100m²;
- (d) have an area for the display of produce or goods external to a building not exceeding 25m².

PO 5.2

Shops that are proposed in new buildings are sited, designed and of a scale that maintains a pleasant rural character and amenity.

DTS/DPF 5.2

Shops in new buildings:

- (a) are setback from all property boundaries by at least 20m;
- (b) are not sited within 100m of a sensitive receiver in other ownership; and
- (c) have a building height that does not exceed 7m above natural ground level;

PO 5.3

Tourist accommodation:

- (a) is associated with the primary use of the land for primary production or value adding industry;
- (b) makes use of, re-uses and adapts existing buildings; and
- (c) maintains a pleasant rural character and amenity.

DTS/DPF 5.3

Tourist accommodation:

- (a) is ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (b) re-uses and adapts an existing building; and
- (c) does not result in more than one facility being located on the same allotment.

Offices

PO 6.1

Offices are directly related to and associated with the primary use of the land for primary production or value adding industry

DTS/DPF 6.1

Offices:

- (c) are ancillary to and located on the same allotment or an adjoining allotment used for primary production or value adding;
- (d) have a gross leasable floor area not exceeding 100m².

Adaptive Reuse of Existing Buildings

PO 7.1

Adaptive reuse of existing buildings for small-scale shops, offices, tourist accommodation or ancillary rural activities.

DTS/DPF 7.1

Development within an existing building is for:

- (d) a shop;
- (e) office; or
- (f) tourist accommodation.

Workers' Accommodation

PO 8.1

Workers' accommodation provides short-term accommodation for persons temporarily engaged in the production, management or processing of primary produce.

DTS/DPF 8.1

Workers' accommodation:

- a. is developed on a site at least 2ha in area;
- b. has a total floor area not exceeding 250m²;
- c. is in the form of a single building or part of a cluster of buildings that are physically connected;
- d. amenities accommodate not more than 20 persons at any one time
- e. is setback at least 50m from a road boundary;
- f. is setback at least 40m from a side or rear allotment boundary;
- g. is located within 20m of an existing dwelling on the same allotment; and
- h. does not result in more than one facility being located on the same allotment.

Renewable Energy Facilities

PO 9.1

Renewable energy facilities and ancillary development minimises significant fragmentation or displacement of existing primary production.

DTS/DPF 9.1

None are applicable.

PO 9.2

Small-scale ground mounted solar power facilities support rural production or value adding industries.

DTS/DPF 9.2

Solar power facilities:

- (a) do not generate more than 30KW;
- (b) generates power which is to be used wholly in association with a primary production industry, a value adding industry or local infrastructure facility on the same allotment;
- (c) do not have a panel size exceeding 80m² or 4m in height per structure;
- (d) do not involve more than 2 panel structures per allotment;
- (e) are setback at least 10m from adjoining allotments in other ownership; and
- (f) are not located within 100m of a dwelling in other ownership.

Built Form and Character

PO 10.1

Large buildings designed and sited to reduce impacts on scenic and rural vistas by:

- (d) having substantial setbacks from boundaries and adjacent public roads;
- (e) using low reflective materials and finishes that blend with the surrounding landscape; and
- (f) being located below ridgelines.

DTS/DPF 10.1

None are applicable.

Land Division

PO 11.1

Land division, including boundary realignments promotes productive, efficient and sustainable horticulture.

DTS/DPF 11.1

Allotments have an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*

Agricultural Buildings

PO 12.1

Agricultural buildings and associated activities are sited, designed and or a scale that maintains a pleasant rural character and function.

DTS/DPF 12.1

Agricultural buildings:

- (c) are located on an allotment having an area of at least 1ha;
- (d) are setback at least 40m from an allotment boundary;
- (e) have a building height not exceeding 10m above natural ground level;

- (f) do not exceed 200m² in total floor area; and
- (g) incorporate the loading and unloading of vehicles within the confines of the allotment.

Outbuildings, Carports and Verandahs

PO 13.1

Outbuildings are sited, designed and of a scale that maintain a pleasant rural character and amenity.

DTS/DPF 13.1

Outbuildings:

- (a) have a primary street setback that is at least as far back as the building to which it is ancillary;
- (b) have a total floor area that does not exceed 120m²;
- (c) have walls that do not exceed 5m in height measured from natural ground level and not including a gable end;
- (d) have a total roof height that does not exceed 6m measured from natural ground level; and
- (e) are limited to no more than 2 outbuildings on the same allotment.

PO 13.2

Carports and verandahs are sited, designed and of a scale that maintain a pleasant rural character and amenity.

DTS/DPF 13.2

Carports and verandahs have a:

- (c) primary street setback that is at least as far back as the building to which it is ancillary;
- (d) total floor area that does not exceed 80m²;
- (e) post height that does not exceed 3m measured from natural ground level and not including a gable end; and
- (f) total roof height that does not exceed 5m measured from natural ground level.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent to land in a different zone
- (b) development identified as "all other code assessed development" in Rural Horticulture Zone Table 3
- (c) detached dwelling
- (d) industry, store, transport distribution and/or warehouse with a total floor area greater than 250m²
- (e) shop with a gross leasable floor area greater than 200m²
- (f) tourist accommodation
- (g) workers' accommodation

Placement of Notices – Exemptions for Performance Assessed Development

None specified.

Placement of Notices – Exemptions for Restricted Development

None specified.

Rural Intensive Enterprise Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	4 Building work is associated with a railway 5 It is situated (or to be situated) on railway land 6 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access 	26 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 27 It is ancillary to a dwelling erected on the site 28 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 29 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 30 Total floor area - does not exceed 60m ² 31 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 32 Building height - does not exceed 5m 33 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 34 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>is altered or a new access is created</p> <ul style="list-style-type: none"> • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>35 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>36 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>37 The carport:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
Demolition Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Place identified in the State Heritage Place Overlay 	None.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • State Heritage Place identified in the State Heritage Place Overlay 	17 There will be no increase in the total floor area of the building 18 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay 	53 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 54 It is detached from and ancillary to a dwelling erected on the site. 55 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 56 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 57 Total floor area - does not exceed 60m ²

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>58 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>59 Building height - does not exceed 5m</p> <p>60 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>61 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>62 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>63 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>64 The garage:</p> <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that:

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>65 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Outbuilding (not being a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Future Road Widening Overlay where an existing access is altered or a new access is created • Key Railway Crossings Overlay where an existing access is altered or a new access is created 	<p>23 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>24 It is detached from and ancillary to a dwelling erected on the site</p> <p>25 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>26 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>27 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>28 Total floor area does not exceed 60m²</p> <p>29 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>30 Building height - does not exceed 5m</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>31 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent <p>32 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure <p>33 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Private bushfire shelters</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay • Water Resources Overla 	<p>5 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>6 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>7 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>8 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
<p>Shade sail</p>	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay 	<p>16 Shade sail consists of permeable material</p> <p>17 The total area of the sail - does not exceed 40m²</p> <p>18 No part of the shade sail will be:</p> <p style="padding-left: 20px;">(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p style="padding-left: 20px;">(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>19 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>20 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>21 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
<p>Solar photovoltaic panels (roof mounted)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Place identified in the State Heritage Place Overlay 	<p>7 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>8 Panels and associated components do not overhang any part of the roof</p> <p>9 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
<p>Solar photovoltaic panels (ground mounted)</p> <p>Except where any of the following apply:</p>	<p>21 The system is freestanding rather than attached to a building or other structure.</p> <p>22 No part of the system:</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • Native Vegetation Overlay • State Heritage Place identified in the State Heritage Place Overlay • State Significant Native Vegetation Overlay 	<p>(h) is more than 4 metres in height (measured as a height above the natural surface of the ground);</p> <p>(i) is within 100 metres of a dwelling not associated with the system (whether the dwelling is on the same allotment as the system or another allotment); and</p> <p>(j) is within 10 metres of a boundary of an allotment containing a dwelling not associated with the system.</p> <p>23 The generating capacity of the system does not exceed 30 kW</p> <p>24 Does not result in the clearance of any native vegetation.</p>
<p>Verandah</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Water Resources Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 It is ancillary to a dwelling erected on the site</p> <p>17 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>18 Total floor area - does not exceed 40m²</p> <p>19 Post height - does not exceed 3m measured from natural ground level</p> <p>20 Building height - does not exceed 5m</p> <p>21 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p>
<p>Water tank (above ground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Sloping Land Overlay 	<p>15 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>16 The tank is part of a roof drainage system</p> <p>17 Total floor area - not exceeding 15m²</p> <p>18 The tank is located wholly above ground</p> <p>19 Tank height – does not exceed 4m above natural ground level</p>

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- Water Resources Overlay

- 20 Primary street setback – at least as far back as the building line of the building to which it is ancillary
- 21 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.

Water tank (underground)

Except where any of the following apply:

- Native Vegetation Overlay
- State Significant Native Vegetation Overlay
- Sloping Land Overlay
- Water Resources Overlay

- 5 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 6 The tank (including any associated pump) is located wholly below the level of the ground.

Table 4 –Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling	Except where it is a replacement dwelling or manager's residence.

Assessment Provisions

Desired Outcomes (DO)

DO 1

Multi-purpose intensive agricultural production, processing facilities and supporting ancillary industries that are important economic and employment assets to the State.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The productive value of land for a range of intensive rural activities (such as intensive animal husbandry) and associated value adding processing, processing of animal and food products (including stock slaughter works), washing and packing of produce, bulk commodity storage, feed and hay processing, storage, warehousing and distribution activities is supported, protected and maintained. The proliferation of dwellings and other land uses that may be sensitive to those activities is avoided.

DTS/DPF 1.1

Development comprises one or more of the following land uses:

- (b) Advertisement
- (c) Agricultural building
- (d) Demolition
- (e) Intensive animal husbandry
- (f) Industry
- (g) Small-scale ground mounted solar power facility
- (h) Stock sales yard
- (i) Stock slaughter works
- (j) Transport distribution
- (k) Warehouse

Siting and Design

PO 2.1

Development is provided with suitable vehicle access.

DTS/DPF 2.1

Development is serviced by an all-weather trafficable public road.

PO 2.2

Buildings are generally located on flat land to avoid cut and fill and the associated visual impacts.

DTS/DPF 2.2

Buildings:

- (a) are sited on land with a slope not greater than 10% (1-in-10); and
- (b) do not result excavation and filling of land that is greater than 1.5 metres from natural ground level.

Dwellings

PO 3.1

Residential development is not supported in the interest of protecting the long-term continuation of intensive rural industries and activities.

DTS/DPF 3.1

Dwelling is in the form of:

- (a) the replacement of an existing habitable dwelling on the same allotment; or
- (b) a manager's residence.

Land Division

PO 4.1

Land division, including boundary realignments promotes productive, efficient and sustainable intensive rural activities.

DTS/DPF 4.1

Allotments have an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*.

Agricultural Buildings

PO 5.1

Agricultural buildings developed to support animal keeping, processing, storage and distribution activities.

DTS/DPF 5.1

Agricultural buildings that:

- (a) are located on an allotment having an area of at least 40 hectares;
- (b) are setback at least 40m from an allotment boundary;
- (c) do not result in having a height more than 10m above natural ground level;
- (d) do not exceeding 250m² in floor area; and
- (e) incorporate the loading and unloading of vehicles utilising the building takes place entirely upon the site.

Procedural Matters (PM)

Notification

All classes of performance assessed development are excluded from notification except where they involve any of the following:

- (h) the site of the development is adjacent to land in a different zone
- (i) development identified as "all other code assessed development" in Rural Intensive Enterprise Zone Table 3
- (j) detached dwelling
- (k) renewable energy facilities
- (l) wind farm
- (m) wind monitoring mast

Rural Shack Settlement Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	7 Building work is associated with a railway 8 It is situated (or to be situated) on railway land 9 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	38 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 39 It is ancillary to a dwelling erected on the site 40 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 41 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 42 Total floor area - does not exceed 40m ² 43 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 44 Building height - does not exceed 5m 45 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 46 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 47 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment 48 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 49 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors 50 The carport: <ul style="list-style-type: none"> (a) is located so that vehicle access: <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and (b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and (c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • A Local Heritage Place identified in the Local Heritage Place Overlay • A State Heritage Place identified in the State Heritage Place Overlay 	19 There will be no increase in the total floor area of the building 20 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay 	66 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 67 It is detached from and ancillary to a dwelling erected on the site. 68 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>69 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>70 Total floor area - does not exceed 40m²</p> <p>71 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>72 Building height - does not exceed 5m</p> <p>73 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>74 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>75 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>76 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>77 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>78 The garage:</p> <p>(a) is located so that vehicle access:</p> <p>i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>ii. will use a driveway that:</p> <p>A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p>B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p> <p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>79 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
<p>Outbuilding (not being a garage) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>34 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>35 It is detached from and ancillary to a dwelling erected on the site</p> <p>36 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>37 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>38 Side boundary setbacks – at least 900mm from the boundary of the allotment</p> <p>39 Total floor area does not exceed 40m²</p> <p>40 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>41 Building height - does not exceed 5m</p> <p>42 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>43 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>(b) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>44 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>45 If clad in sheet metal—is pre-colour treated or painted in a non-reflective colour.</p>
Private bushfire shelters Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>9 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>10 Primary street setback – at least as far back as the building to which it is ancillary</p> <p>11 Secondary street setback – at least 900mm from the boundary of the allotment</p> <p>12 At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</p>
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>22 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>23 Shade sail consists of permeable material</p> <p>24 The total area of the sail - does not exceed 40m²</p> <p>25 No part of the shade sail will be:</p> <p style="padding-left: 20px;">(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</p> <p style="padding-left: 20px;">(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</p> <p>26 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>27 If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 8m</p> <p>28 In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment — the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</p>
Solar photovoltaic panels (roof mounted) Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Place identified in the State Heritage Place Overlay 	<p>10 Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</p> <p>11 Panels and associated components do not overhang any part of the roof</p> <p>12 Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</p>
Spa pool Swimming pool Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Water Resources Overlay 	<p>71 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>72 It is ancillary to a dwelling erected on the site</p> <p>73 Allotment boundary setback – not less than 1m</p> <p>74 Primary street setback – at least as far back as the building line of the building to which it is ancillary</p> <p>75 Location of filtration system from a dwelling on an adjoining allotment:</p> <p style="padding-left: 20px;">(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</p> <p style="padding-left: 20px;">(b) not less than 12m in any other case.</p>
Verandah Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay 	<p>22 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>23 It is ancillary to a dwelling erected on the site</p> <p>24 Primary street setback – as far back as the building line of the building to which it is ancillary</p> <p>25 Total floor area - does not exceed 40m²</p> <p>26 Post height - does not exceed 3m measured from natural ground level</p> <p>27 Building height - does not exceed 5m</p> <p>28 Length - does not exceed 10m if any part of the structure abuts or is situated on a boundary of the allotment</p>

Class of Development	Accepted Development Classification Criteria
The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	
<ul style="list-style-type: none"> River Murray Flood Plain Overlay Water Resources Overlay 	29 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
Water tank (above ground) Except where any of the following apply: <ul style="list-style-type: none"> Coastal Areas Overlay Local Heritage Place Overlay State Heritage Place Overlay Native Vegetation Overlay State Significant Native Vegetation Overlay Ramsar Wetlands Overlay River Murray Flood Plain Overlay Sloping Land Overlay Water Resources Overlay 	22 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 23 The tank is part of a roof drainage system 24 Total floor area - not exceeding 15m ² 25 The tank is located wholly above ground 26 Tank height – does not exceed 4m above natural ground level 27 Primary street setback – at least as far back as the building line of the building to which it is ancillary 28 In the case of a tank made of metal – the tank is pre-colour treated or painted in a non-reflective colour.
Water tank (underground) Except where any of the following apply: <ul style="list-style-type: none"> Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Native Vegetation Overlay State Significant Native Vegetation Overlay Ramsar Wetlands Overlay Sloping Land Overlay Water Resources Overlay 	7 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 8 The tank (including any associated pump) is located wholly below the level of the ground.

Table 2 – Deemed-to-Satisfy Development Classification

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
The following Classes of Development are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'	Provisions referred to are Deemed-to-Satisfy Criteria			
	Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Advertisement Except where any of the following apply: <ul style="list-style-type: none"> Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Local Heritage Place Overlay Marine Parks (Managed Use) Overlay Marine Parks (Restricted Use) Overlay Ramsar Wetlands Overlay River Murray Flood Plain Overlay Sloping Land Overlay State Heritage Place Overlay State Significant Native Vegetation Overlay Water Protection Area Overlay 	None	Clearance from Overhead Powerlines: DTS 1.1 Advertisements [Appearance]: DTS 1.1, 1.3, 1.4 Advertisements [Proliferation of Advertisements]: DTS 2.1, 2.2 Advertisements [Advertising Content]: DTS 3.1 Advertisements [Amenity Content]: DTS 4.1 Advertising [Safety]: DTS 5.1, 5.2, 5.3, 5.4, 5.5	None	Airport Building Heights (Regulated): DTS 1.1, 1.2 Building Near Airfields: DTS 1.1, 1.2 Hazards (Acid Sulfate Soils): DTS 1.1 Key Outback and Rural Routes: 8.1 Native Vegetation: DTS 1.1 Urban Transport Routes: DTS 8.1

All other Code Assessed Development	All	All	None	Any Relevant Overlay: All

Table 4 – Restricted Development Classification

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Dwelling	A detached dwelling that will not result in more than one dwelling on an allotment.
Land division	Except where it involves one or more of the following: <ul style="list-style-type: none"> (a) each allotment created contains an existing dwelling; (b) the creation of a public road or a public reserve; (c) a minor adjustment of allotment boundaries to remove an anomaly in the current boundaries with respect to the location of existing buildings or structures and where no additional allotments are created partly or wholly in the zone.

Assessment Provisions (AP)

Desired Outcome (DO)

DO 1

Limited shack development within an environment where natural processes such as flooding, sea-level rise, sand drift and erosion occur. The natural environment is protected from inappropriate development and existing development is upgraded to incorporate environmental improvements.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Low-scale and low-density residential development in the form of detached dwellings sympathetic to the surrounding natural environment.

DTS/DPF 1.1

No more than one dwelling per allotment.

PO 1.2

Provision of small-scale tourist and visitor facilities such as public amenities and barbeque and picnic infrastructure.

DTS/DPF 1.2

None applicable

Built Form and Character

PO 2.1

Development sited and designed unobtrusively to minimise its visual impact on the natural environment by:

- (a) using low reflective materials and finishes that blend with, and colours that complement, the surrounding landscape;
- (b) being located below hilltops and ridgelines; and
- (c) being screened by existing vegetation.

DTS/DPF 2.1

None are applicable

PO 2.2

Development sited and designed to minimise impacts on the natural environment by:

- (a) containing construction and built form within a tightly defined site boundary; and
- (b) minimising the extent of earthworks

DTS/DPF 2.2

None are applicable

PO 2.3

Additions or alterations to, or replacement of an existing dwelling blend with the natural environment, other than where required to be on poles or piers in order to increase the elevation to minimise the potential for personal or property damage as a result of inundation.

DTS/DPF 2.3

Additions or alterations to, or replacement of an existing dwelling have a building height that is no greater than 1 building level and 6m and a wall height that is no greater than 3m.

PO 2.4

Buildings set back from the primary street boundary to complement the existing settlement character.

DTS/DPF 2.4

None are applicable.

Procedural Matters (PM)

Notification of Performance assessed development

All classes of performance assessed development is excluded from notification except where they involve any of the following:

- (a) the site of the development is adjacent land to land in a different zone
- (b) development identified as "all other code assessed development" in Shack Settlement Zone Table 3
- (c) buildings exceeding 2 building levels or over 9m in height
- (d) development involving the creation of four or more additional dwellings or allotments
- (e) shop, office, or consulting room in excess of 100m² in gross leasable floor area
- (f) hotel
- (g) light industry, warehouse or store where the gross leasable floor area of the buildings plus any outdoor space used for any of these uses exceeds 80m².

Rural Living Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land Except where any of the following apply:	10 Building work is associated with a railway 11 It is situated (or to be situated) on railway land 12 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Significant Landscape Protection Overlay • Ramsar Wetlands Overlay 	51 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 52 It is ancillary to a dwelling erected on the site 53 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 54 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 55 Total floor area - does not exceed 40m ² 56 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 57 Building height - does not exceed 5m 58 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Railway Crossings Overlay where an existing access is altered or a new access is created • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Non-stop Corridor Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>59 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>60 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment</p> <p>61 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>62 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors</p> <p>63 The carport:</p> <p>(a) is located so that vehicle access:</p> <p style="padding-left: 20px;">i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p style="padding-left: 20px;">ii. will use a driveway that:</p> <p style="padding-left: 40px;">A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and</p> <p style="padding-left: 40px;">B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	<p>iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and</p> <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p> <p>(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access</p>
Demolition Except where any of the following apply: <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place identified in the State Heritage Place Overlay 	None.
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Area Overlay 	21 There will be no increase in the total floor area of the building 22 There will be no alteration to the external appearance of the building.

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> State Heritage Place identified in the State Heritage Place Overlay. 	
<p>Outbuilding (in the form of a garage)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Character Preservation District Overlay Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Hazards (Flooding) Overlay Historic Area Overlay Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay Native Vegetation Overlay State Significant Native Vegetation Overlay Significant Landscape Protection Overlay Ramsar Wetlands Overlay River Murray Flood Plain Overlay Sloping Land Overlay Key Railway Crossings Overlay where an existing access is altered or a new access is created 	<p>80 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</p> <p>81 It is detached from and ancillary to a dwelling erected on the site.</p> <p>82 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</p> <p>83 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)</p> <p>84 Total floor area - does not exceed 60m²</p> <p>85 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)</p> <p>86 Building height - does not exceed 5m</p> <p>87 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless:</p> <p>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</p> <p>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>88 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p>

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria

Class of Development The following Classes of Development are classified as Restricted subject to any 'Exclusions'	Exclusions
Shop	Restaurant Shop with a gross leasable floor area less than 200m ²

Assessment Provisions

Desired Outcome (DO)

DO 1

A spacious, secluded and peaceful residential lifestyle within semi-rural or semi-natural environments, providing opportunities for a range of low-intensity rural activities and home based business activities that complement that lifestyle choice.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Residential development that:

- (a) is consistent with a private, peaceful and semi-rural or natural character; and
- (b) does not place additional demands on existing local services and infrastructure.

DTS/DPF 1.1

Not more than one dwelling per allotment.

PO 1.2

Animal keeping and horse keeping of a scale that is ancillary to and in association with the residential use of the land.

DTS/DPF 1.2

The keeping of animals:

- (a) is ancillary to a dwelling located on the same allotment;
- (b) takes place on an allotment with an area of at least 1ha; and
- (c) for horse keeping, is limited to not more than 2 horses per allotment.

PO 1.3

Horse keeping only undertaken if the horses are accommodated within a stable or shelter with supplementary feeding to maintain pasture cover

DTS/DPF 1.3

Horse keeping includes the provision of:

- (a) stabling or similar sheltering; and
- (b) a grazing area of at least 0.5ha.

PO 1.4

Non-residential development that complements the semi-rural or semi-natural residential character and amenity that:

- a. is ancillary to a dwelling erected on the same allotment;
- b. comprises small-scale commercial uses including offices, shops and consulting rooms;
- c. comprises small-scale light industrial uses; and
- d. avoids adverse interface conflicts with other land uses.

DTS/DPF 1.4

None are applicable.

PO 1.5

Shop, consulting rooms, offices and light industrial development of a scale that does not adversely impact the semi-rural or semi-natural residential character and amenity of a locality.

DTS/DPF 1.5

Total floor area does not exceed:

- (a) in relation to a shop, consulting room or office - 100m²
- (b) in relation to a light industry - 100m².

Built Form and Character

PO 2.1

Dwellings are sufficiently separated from site boundaries and of a scale that reinforces the semi-rural or semi-natural character and amenity.

DTS/DPF 2.1

Dwellings:

- (a) are setback from all allotment boundaries by at least 15m;
- (b) have a building height that is no greater than 2 building levels and 9 metres; and
- (c) have a wall height is no greater than 6 metres.

PO 2.2

Non-residential buildings designed and sited to minimise visual impact on the surrounding locality by:

- (a) having substantial setbacks from boundaries and adjacent public roads;
- (b) using low reflective materials and finishes that blend with the surrounding landscape; and
- (c) being located below ridgelines.

DTS/DPF 2.2

Buildings and structures:

- (a) do not exceed 100m² in total floor area;
- (b) are setback from all allotment boundaries by at least 25m;
- (c) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour;
- (d) have a building height that is no greater than 1 building level and 6 metres; and
- (e) have a wall height is no greater than 3 metres.

PO 2.3

Buildings, structures and associated facilities for the keeping of animals are sited, designed and of a scale and appearance that reinforces the semi-rural or semi-natural character and amenity.

DTS/DPF 2.3

Kennels, stables, shelters and associated yards:

- (a) are setback from all allotment boundaries by at least 25m;
- (b) have a building height that is no greater than 5m above natural ground level;
- (c) do not exceed 100m² in area; and
- (d) do not comprise more than 10% of the area of the allotment.

PO 2.4

Dwelling additions are sited, designed and of a scale that reinforce the semi-rural or semi-natural character and amenity.

DTS/DPF 2.4

Additions or alterations to an existing dwelling:

- (a) are setback behind the main façade of the existing dwelling;
- (b) have a building height that is no greater than 2 building levels and 9 metres; and
- (c) have a wall height no greater than 6 metres.

PO 2.5

Outbuildings are sited, designed and of a scale that reinforce the semi-rural or semi-natural character and amenity.

DTS/DPF 2.5

Outbuildings:

- (a) have a primary street setback that is at least as far back as the building to which it is ancillary;
- (b) have a total floor area that does not exceed 100m²;
- (c) have walls that do not exceed 4m in height measured from natural ground level and not including a gable end;
- (d) have a total roof height that does not exceed 5m;
- (e) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour; and
- (f) are limited to no more than 2 outbuildings on the same allotment.

PO 2.6

Carpports and verandahs are sited, designed and of a scale that reinforce the semi-rural or semi-natural character and amenity.

DTS/DPF 2.6

Carpports and verandahs have a:

- (a) primary street setback that is at least as far back as the building to which it is ancillary;
- (b) total floor area that does not exceed 80m²;
- (c) post height that does not exceed 3m measured from natural ground level and not including a gable end; and
- (d) total roof height that does not exceed 5m.

Land Division

PO 3.1

Allotments are a suitable size and dimension to:

- (a) contribute to the existing semi-rural settlement pattern; and
- (b) accommodate the intended use of the land.

DTS/DPF 3.1

Allotments have:

- (a) an area not less than that specified in the *Minimum Allotment Size Technical and Numeric Variation Overlay*; and
- (b) a frontage to a public road not less than 50m; or

in the case of a battleaxe allotment, a frontage to a public road not less than 6m and a maximum driveway 'handle' length of no more than 30m.

Animal Husbandry Subzone

Assessment Criteria (AC)

Desired Outcomes (DO)

DO 1

Large-scale horse keeping and dog kennelling in association with detached dwellings on large allotments.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

Horse keeping and dog kennelling are the predominant land use activity conducted in association with a residential use of the land.

DTS/DPF 1.1

The keeping of animals takes place where a dwelling is located on the same allotment.

PO 1.2

The number of dogs limited to avoid adverse impact on adjacent sensitive receivers and to maintain the rural amenity of the locality.

DTS/DPF 1.2

The number of dogs kept on an allotment does not exceed 20.

PO 1.3

Horse keeping managed so that there is minimal adverse impact on sensitive receivers or the amenity of the rural landscape.

DTS/DPF 1.3

Horses are kept within a stable or shelter that:

- (a) have a minimum dimension of 3.7m x 3.7m per horse;
- (b) incorporate kick boards around the internal walls of the stable;
- (c) have an enclosed day yard of at least 50m² per horse directly adjoining and accessible from the stable; and
- (d) are sited at least 50m from an allotment boundary.

PO 1.4

Kennels, stables, shelters and associated yards sited, orientated and screened from adjoining dwellings and properties where appropriate.

DTS/DPF 1.4

Buildings, structures and associated exercise facilities:

- (a) are setback from all allotment boundaries by at least 35m;
- (b) have a building height that is no greater than 5m above natural ground level;
- (c) do not exceed 150m² in area;
- (d) do not comprise more than 25% of the area of the allotment; and
- (e) incorporate landscaping at least 1m in width around the perimeter of the allotment.

Intensive Horse Establishments Subzone

Assessment Criteria (AC)

Desired Outcomes (DO)

DO 1

The accommodation of a range of commercial horse-related activities primarily for the agistment of horses, their breeding, stabling and training in association with residential development.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Land Use and Intensity

PO 1.1

The number of horses kept on an allotment and the manner in which they are kept managed so as to avoid negative environmental effects on:

- (a) the locality from pollution, noise, light, dust or odour; and
- (b) the amenity of the rural landscape.

DTS/DPF 1.1

None are applicable.

PO 1.2

Horses kept at a density within the carrying capacity of the land.

DTS/DPF 1.2

None are applicable.

PO 1.3

Accommodation for staff or stable hands is to be provided in conjunction and integrated with a dwelling.

DTS/DPF 1.3

Accommodation facilities:

- (a) form part of an existing dwelling; and
- (b) are sited on an allotment greater than 1ha in area.

Procedural Matters (PM)

Notification
<p>All classes of performance assessed development are excluded from notification except where they involve any of the following:</p> <ul style="list-style-type: none">(a) the site of the development is adjacent land to land in a different zone(b) development identified as "all other code assessed development" in Rural Living Zone Table 4(c) more than one dwelling per allotment(d) building exceeding 2 building levels (over 9m) in height(e) consulting room with a floor area greater than 100m²(f) industry

- (g) intensive animal husbandry
- (h) industry with a floor area greater than 100m²
- (i) office with a floor area greater than 100m²
- (j) renewable energy facilities
- (k) shop with a total floor area greater than 100m²
- (l) tourist accommodation
- (m) wind farm
- (n) wind monitoring mast
- (o) telecommunication facility

Rural Settlement Zone

Table 1 – Accepted Development Classification

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
Building work on railway land	13 Building work is associated with a railway 14 It is situated (or to be situated) on railway land 15 It is required for the conduct or maintenance of railway activities.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created • Urban Transport Routes Overlay where an existing access is altered or a new access is created 	64 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 65 It is ancillary to a dwelling erected on the site 66 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 67 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 68 Total floor area - does not exceed 40m ² 69 Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 70 Building height - does not exceed 5m 71 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 72 If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

Class of Development

The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'

Accepted Development Classification Criteria

- Water Resources Overlay

- (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
- (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure

73 The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment

74 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)

75 Internal dimensions – does not exceed 3.2m in width and 6m in length between all fences, walls and doors

76 The carport:

(a) is located so that vehicle access:

- i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
- ii. will use a driveway that:
 - A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and
 - B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or
- iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and

(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
	(c) The centre of the driveway at the public road boundary is no more than 25 degree deviation from the centre of the front of the covered car parking space for which it provides vehicle access
Internal building work Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place identified in the Local Heritage Place Overlay • State Heritage Place identified in the State Heritage Place Overlay 	23 There will be no increase in the total floor area of the building 24 There will be no alteration to the external appearance of the building.
Outbuilding (in the form of a garage) Except where any of the following apply: <ul style="list-style-type: none"> • Character Preservation District Overlay • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Place Overlay • Native Vegetation Overlay • State Significant Native Vegetation Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Overlay • Sloping Land Overlay • Key Outback and Rural Routes Overlay where an existing access is altered or a new access is created • Major Urban Transport Routes Overlay where an existing access is altered or a new access is created 	94 The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 95 It is detached from and ancillary to a dwelling erected on the site. 96 Primary street setback – at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 97 Secondary street setback – at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads) 98 Total floor area - does not exceed 40m ² 99 Wall height - does not exceed 3m measured from natural ground level (and not including a gable end) 100 Building height - does not exceed 5m 101 If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) – a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 102 If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):

Class of Development The following Classes of Development are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'	Accepted Development Classification Criteria
<ul style="list-style-type: none"> • Urban Transport Routes Overlay where an existing access is altered or a new access is created • Water Resources Overlay 	<p>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</p> <p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</p> <p>103 Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%</p> <p>104 Internal dimensions – exceed 3.2m in width and 6m in length between all walls and doors</p> <p>105 Door opening for vehicle access – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</p> <p>106 The garage:</p> <p>(a) is located so that vehicle access:</p> <ul style="list-style-type: none"> i. is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or ii. will use a driveway that: <ul style="list-style-type: none"> A. is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; and B. will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; or iii. if adjacent a kerbed road, will be via a kerb that is designed to allow a vehicle to roll over it; and <p>(b) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average; and</p>
