**Subject:** Please extend the implementation date.  
**Date:** Tuesday, 25 February 2020 1:42:12 PM

---

While I recognise the Planning and Design Code requires upgrade, I am deeply concerned about some of the proposed provisions in the draft Code.

It is a very complex document, which has been poorly communicated and consultation has been insufficient in my view.

I live in a Heritage Zone and am very concerned about the potential loss of protections for contributory items and the weakened demolition provisions.

I am seeking further consultation and an extension of the implementation date in the first instance.

Regards
