---

Hi,

I am responding to the State Planning Commission letter received February 2020.

I wish to place an objection via this email to the proposed Historic Areas and in particular to the inclusion of our house at [REDACTED], Highgate

As discussed with the gentleman Will from your department, our house is new in reference to most others in our street.

It is a "Basket Range" frontage built in the 1960's and would not be a house warranting inclusion in the Historic Area category where as many others in our street would be.

Many thanks for your attention to this matter.

Regards

Peter and Kathryn Schulze
