Version 1.0
Software version 3.36.0

Background

During the assessment of the planning / building consent and development approval, the 'Total Development Cost' and / or 'Estimated development costs per element' can be updated.

The revised 'Total Development Cost' is used to calculate any additional fees determined during assessment or development approval.

Update Estimated Cost and Total Development Cost

Additional Fees

The revised 'Total Development Cost' is used to calculate the additional Consent and Compliance fees.

Unlike during verification, the estimated development cost will not be referenced if additional 'building assessment' fees is charged – however, if this does occur, the statutory amount will need to be manually calculated.

1. Click on the **Fees** tab.
2. Expand the **Development Costs** section to view the 'development costs by element'.

Planning Element	Estimated Development Cost (excluding fit-out costs)	Building Classification
New housing	\$ 0	Not Applicable

Total Development Cost (excluding fit-out costs)*

\$ 400,000

The total of the estimated development costs must equal the Total Development Cost.

3. Click on **Edit Total Development Cost**.

4. Leave the default **Estimated Development Cost** or type over amount (as required), e.g. \$400,000 to equal the total development cost.

Warning Message:

Development Cost different to the total estimated development cost

If the 'Estimated Development Cost' and 'Total Development Cost' amounts do not match, a 'Development Cost message' will appear and the SAVE button disabled until both totals are corrected to match.

Edit Development Costs

Note: Remember, before determining additional fee(s) for updates made to the estimated development cost refund the fee(s) paid for Building Assessment - Class 1, Class 2-9 or Class 10.

Planning Element	Estimated Development Cost (excluding fit-out costs)	Building Classification
New housing	\$ 425,000	Not Applicable

Total Development Cost (excluding fit-out costs)

\$ 400,000

The total of the estimated development costs must equal the Total Development Cost.

Development Cost: The entered development cost is **less** than the total estimated development cost. Adjust the 'What do you want to do' development cost or update the proposed total development cost within the Development Details page.

5. Type in the **Total Development Cost** (as required) with the new amount and **SAVE** to update.
